Attachment A

Budget and Scope of Work

STATEMENT OF PURPOSE:

The purpose of this Scope of Work (SOW) is to improve drainage in the SW and SE Quadrants of the City of Hallandale Beach, Broward County, Florida; funded through the Hazard Mitigation Grant Program (HMGP) **DR-1609-75-B** as approved by the Florida Division of Emergency Management (Division) and the Federal Emergency Management Agency (FEMA).

The Recipient, the City of Hallandale Beach, shall conduct Phase I of this project, which includes project design, permitting and the pre-developmental construction bid process. No construction activities are approved at this time. The recipient shall complete the Phase I work in accordance with all applicable federal, state and local laws, regulations and codes.

All Phase I activities and deliverables shall be completed and submitted to the Division 30 days prior to May 25, 2018.

PROJECT OVERVIEW:

As a Hazard Mitigation Grant Program project, the Recipient proposes to improve the drainage of the SW and SE Quadrants, located in the City of Hallandale Beach, Broward County, Florida, 33009. Specifically, the SW Quadrant is bounded by SW 11th Street, Dixie Highway, Hallandale Beach Boulevard, and SW 8th Avenue and the SE Quadrant is bounded by SE 10th Street, Federal Highway (US-1), and Hallandale Beach Boulevard and Dixie Highway.

The Phase I design shall implement measures to determine modifications needed to improve the drainage and alleviate flooding of the SW and SE Quadrants. The project shall include the installation of drainage pipes, force mains, inlet and control structures, pump stations, drainage wells, grading of swales, and restoration work. The SW and SE Quadrant drainage project also proposes to install a new pump station which will draw from the existing canal and pump into approximately 20 storm water injection wells. An automatic control structure will be installed on the downstream end of the canal in order to isolate the City's system during high tide or heavy rain events. By isolating the canal system from the tidal controlled water and running the new pump station during heavy rain events, a better hydraulic grade line will be established allowing the runoff in the neighborhoods to get to the canal via the collection system and outfalls with more efficiency.

The phrase "Federal financial assistance" includes any form of loan, grant, guaranty, insurance payment, rebate, subsidy, disaster assistance loan or grant, or any other form of direct or indirect Federal assistance;

For sites located within Special Flood Hazard Areas (SFHA), the Recipient must include a FEMA Model Acknowledgement of Conditions of Mitigation of Property in a Special Flood Hazard Area with FEMA Grant Funds executed by the title holder with the closeout request verifying that certain SFHA requirements were satisfied on each of the properties. The Recipient will be responsible for conducting inspections to ensure compliance with these specifications by the contractor;
- (l) It will, in connection with its performance of environmental assessments under the National Environmental Policy Act of 1969, comply with Section 106 of the National Historic Preservation Act of 1966 (U.S.C. 470), Executive Order 11593, 24 CFR, Part 800, and the Preservation of Archaeological and Historical Data Act of 1966 (16 U.S.C. 469a-1, et seq.) by:
 - (1) Consulting with the State Historic Preservation Office to identify properties listed in or eligible for inclusion in the National Register of Historic Places that are subject to adverse effects (see 36 CFR, Section 800.8) by the proposed activity; and

- (4) When any of the Recipient's projects funded under this Agreement may affect a historic property, as defined in 36 CFR, Part 800 (2)(e), the Federal Emergency Management Agency (FEMA) may require the Recipient to review the eligible scope of work in consultation with the State Historic Preservation Office (SHPO) and suggest methods of repair or construction that will conform with the recommended approaches set out in the **Secretary of Interior's Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings 1992 (Standards)**, the **Secretary of the Interior's Guidelines for Archeological Documentation (Guidelines)** (48 Federal Register 44734-37), or any other applicable Secretary of Interior standards. If FEMA determines that the eligible scope of work will not conform with the **Standards**, the Recipient agrees to participate in consultations to develop, and after execution by all parties, to abide by, a written agreement that establishes mitigation and recondition measures, including but not limited to, impacts to archeological sites, and the salvage, storage, and reuse of any significant architectural features that may otherwise be demolished.

FEMA will request the SHPO's opinion on the potential that archeological properties may be present and be affected by such activities. The SHPO will advise the Recipient on any feasible steps to be accomplished to avoid any National Register eligible archeological property or will make recommendations for the development of a treatment plan for the recovery or archeological data from the property.

If the Recipient is unable to avoid the archeological property, develop, in consultation with SHPO, a treatment plan consistent with the **Guidelines** and take into account the Advisory Council on Historic Preservation (Council) publication "Treatment of Archeological Properties". The Recipient shall forward information regarding the treatment plan to FEMA, the SHPO and the Council for review. If the SHPO and the Council do not object within 15 calendar days of receipt of the treatment plan, FEMA may direct the Recipient to implement the treatment plan. If either the Council or the SHPO object, Recipient shall not proceed with the project until the objection is resolved.
- (6) The Recipient shall notify the Division and FEMA as soon as practicable: (a) of any changes in the approved scope of work for a National Register eligible or listed property; (b) of all changes to a project that may result in a supplemental DSR or modify a HMGP project for a National Register eligible or listed property; (c) if it appears that a project funded under this Agreement will affect a previously unidentified property that may be eligible for inclusion in the National Register or affect a known historic property in an unanticipated manner. The Recipient further acknowledges that FEMA may require the Recipient to take all reasonable measures to avoid or minimize harm to such property until FEMA concludes
