

CITY OF HALLANDALE BEACH
PIGGYBACK AND/OR CO-OP
DEPARTMENT REQUEST FOR APPROVAL CERTIFICATION

The Procurement Department is providing the COHB Piggyback and/or Coop Department Request for Approval Certification Form which must be used to procure an item and/or service that has been competitively solicited by another entity (piggyback and/or coop). Follow the process outlined below which will assist departments in meeting all procurement requirements for the approval of the use of the piggyback and/or coop contracts.

It is desirable to have the Piggyback Form routed for approval prior to requisition or agenda item entry. If the Piggyback Form is submitted at time of entering a requisition or agenda item with information missing the form will be returned to requesting Department for updates which may cause a delay in the approval process. Agenda item must match piggyback information in its entirety. Completed Piggyback Forms can be submitted for review and signature via email.

Step One: Contact Other Entity (government or coop or other where the piggyback contract is from) and obtain:

1. a copy of the COMPLETE fully executed contract that you want to use (known as "Source Contract"),
2. a copy of the solicitation (bid or RFP) that was issued for that awarded contract and its scope/services,
3. a copy of the proposal that was submitted by the awarded vendor that was awarded the contract, and
4. a copy of the resolution awarding that contract.

Step Two: Contact awarded Vendor and obtain a cost proposal. You must ensure that the awarded Vendor is aware that the cost proposal provided to COHB must be consistent and match the pricing of the awarded contract (contract you wish to piggyback). Lump sum contracts where a single price is quoted for an entire project based on plans, specifications, services, other cannot be piggybacked unless you are purchasing 100% the exact same items/services.

The cost proposal must be in the vendor's letterhead and/or show vendor's business information (address, phone, etc.), and must state:

- a. the name of the city the piggyback is from
- b. the name and # of the awarded contract (piggyback contract) from where the pricing is coming from.

Step Three: Requesting Department Project Manager and/or authorized staff must compare the COHB Cost Proposal provided by the awarded vendor to the piggyback Source Contract and make sure every single price matches 100%.

- Step Four:** Obtain written authorization from Other Entity Purchasing Department to Piggyback such entities' contract. This must be an email that is provided with this form to Procurement Department.
- Step Five:** Fill out the COHB Piggyback and/or Coop Department Request for Approval Certification Form (this Form). You will need to provide all the documents requested and ensure 100% of Step Three above is done.
- Step Six:** Submit to Procurement Department for review. This form must be provided to the Procurement Department at least 3 business days prior to need of a response.
- Step Seven:** If approved by Procurement, determine the proper Contract Method you will utilize for the purchase. This must be discussed with the Department Director.

The options are as follows:

OPTION A: Purchase Order. Purchase Order is to be used for routine purchases when items of purchases are unknown, for example Office Depot and Home Depot. A purchase order will always be required for a purchase.

OPTION B: Written COHB Form Agreement (which has already been approved by City Attorney). It is required that the Department Director address the use of the COHB Form Agreement with requesting department staff to determine if the City's Form Agreement is also going to be processed in addition to the Purchase Order. The Project Manager and Department Director must make this determination to ensure that the City's best interest for the project is addressed as necessary in the City's Form Agreement. In such review staff needs to address if the transaction/purchase has terms dates, deliverables, and milestones to determine if the COHB Form Agreement is to be processed in addition to the purchase order in order to protect a smooth project completion. It is recommended that all services and construction projects/purchases/transactions be processed with a COHB Form Agreement in addition to the purchase order.

- Step Eight:** Request in a timely manner the appropriate insurance requirement to Risk Manager. The Certificate of Insurance approved by Risk Manager for the purchase must be loaded to Munis for request of the requisition.
- Step Nine:** After the Procurement Department has provided approval of the piggyback contract you may have to submit an ISR to City Attorney to Draft and/or review COHB Form Contract that will be utilized for the purchase.
- Step Ten:** Submit through agenda process for commission approval if commission approval is required. City Manager thresholds vary depending on what you are purchasing. Remember that the expenditure with 1 vendor is added together throughout the City by all the departments that have already purchased through the same vendor. This dictates whether Commission approval is required or not. Review vendor's expenditures in Munis to make this determination. If commission approval is not required enter the requisition, COHB piggyback/coop certification form approved by the Procurement Department, and all the documentation that such form requires in Munis TCM.

SECTION I	
INFORMATION ABOUT PIGGYBACK AND/OR COOP CONTRACT	
Contract Title name and # you wish to piggyback:	RFP-00188 Security Guard Services for Miami-Dade Water and Sewer Department Sector D
Name of entity that awarded the contract:	Miami Dade County
