Guaranteed Maximum Price

---

**Exceptions & Clarifications - 11/20/24**

---

**GENERAL**

- 1 Scope of work and quantities are based on District 8 - 1st Ave. Improvements plan sheets dated 11/22/24 by landscape architect of record; Kimley-Horn & Associates. A complete plan log is attached.
- 2 Guaranteed Maximum Price (G.M.P.) was compiled using competitive bids received from pre-approved subcontractors and vendors.
- 3 G.M.P. includes a 5% construction contingency to be used for unforeseen conditions during the duration of the project. Also, a separate owners contingency is established outside of the G.M.P., which is available for City's and Construction Manager's use to defray increased costs of the project reasonably and necessarily incurred by the Construction Manager, for certain costs and expenses relating to the construction of the project, additional expenses relative to the design and construction of the Project, as well as additional expenses expressly chargeable to the City. Any unused owners contingency remaining at the completion of the project shall accrue solely to the City.
- 4 G.M.P. pricing is based on a project start date of January 31, 2025. Project duration shall be 18 months from notice to proceed.
- 5 G.M.P. does not include any costs for COHB Building Permit Fees. A recommended allowance has been provided. The G.M.P. does not include permit fees for capital improvements, connection fees, impact fees, or any other regulatory agency fees that may be necessary (FDEP, FWC, Etc.).
- 6 It is understood that the Direct Construction Cost (Exhibit "A") is unit prices for the work shown in the plans and as modified by these exceptions and clarifications.
- 7 Project master schedule and schedule updates shall be a bar chart schedule acceptable to the Owner prepared by CMAR in house personnel.
- 8 Project Manual as described in the contract shall mean the closeout project manual which shall be updated periodically and presented to the Owner upon completion of the project. The information contained in this manual shall be as requested by the Owner.
- 9 G.M.P. does not include additional insurance premiums for naming individual property owners as additional insureds.
- 10 G.M.P. includes sales tax on materials.
- 11 Any and all required Construction easements shall be executed and recorded prior to notice to proceed.

- 12 Due to the present volatile nature of the construction market, construction material costs could change substantially prior to construction. Due to the recent tariffs and the potential for future tariffs, material prices are increasing anywhere from 5% to 15% per month. The G.M.P. does not include any assumed material price increases. Material price increases may be passed through to the Owner with proper documentation, and paid for with construction contingency.
- 13 COHB Building Permits; All permits shall be obtained prior to start of construction and receipt of notice to proceed. Plans have not yet been through permitting and GMP does not reflect any special permitting requirements. A Special Inspector is specifically excluded.
- 14 The project will require free and unlimited jobsite access for workmen and deliveries during all authorized work hours.
- 15 Burkhardt Construction, Inc. (BCI) is not liable for failure to perform such work or any damages that occur if such failure is as a result of Acts of God (including fire, flood, earthquake, storm, hurricane or other natural disaster). If BCI asserts Force Majeure as the reason for failure to perform such work or such damages occur as a result of any Act of God, then BCI must prove that they took reasonable steps to minimize delay or damages caused by unforeseeable events, that BCI substantially fulfilled all obligations, and that the owner was timely notified of the likelihood or actual occurrence of the event described as an Act of God (Force Majeure). Any construction related damages that took place as a result, shall be repaired or removed and replaced at the same contract unit prices and shall be paid out of the owners contingency.
- 16 In the event that the terms and provisions of all attached Exhibits conflict with the terms and provisions of this Contract, the terms and provisions of the attached Exhibits shall govern with respect to the performance of the work.
- 17 Owner and Construction Manager (the "Parties") acknowledge and agree the GMP and Contract Time as defined in the Agreement do not include any cost impacts or schedule impacts (collectively "Impacts") associated with COVID-19, any other virus, disease, epidemic, or pandemic ( "Epidemic"). The Parties agree if Construction Manager's work is delayed, suspended, disrupted, made more expensive, or otherwise adversely impacted, directly or indirectly, by an Epidemic, including, but not limited to the following impacts: (1) material or equipment supply chain disruptions; (2) illness and related costs; (3) unavailability of labor or increased labor costs, including, but not limited to any labor shortage or increased labor costs resulting from loss of labor productivity, strike, lockout or denial of labor by any union or collective bargaining unit, labor force reduction required by the CDC or OSHA guidelines, regulations, or governmental order; (4) government orders, shelter-in-place orders, closures, changes in the law, or other directives or restrictions that impact the work or the Project site; or (5) fulfillment of Construction Manager's contractual obligations regarding safety specific to COVID-19, any Epidemic, or both, then Construction Manager's shall be entitled to an equitable adjustment of the GMP and Contract Time for all such impacts. The Parties further agree, Construction Manager's will attempt to exercise due diligence with respect to the selection and management of material suppliers and supply chains in an effort to minimize the risk of disruption; however, Construction Manager does not warrant the performance of material suppliers, supply chains and supply chain management. Likewise, Construction Manager cannot foresee and is not carrying any necessary costs or contingencies for such Impacts and did not include any such Impacts in its GMP proposal for this Project.

- 18 G.M.P. specifically excludes any payment processing fee. If a fee is charged for payments to the contractor, the fee will be paid from owners contingency.
- 19 G.M.P. does not include LEED Certification.
- 20 G.M.P. is based on multiple phases of complete road closures to perform referenced work. Businesses will remain open at all times.
- 21 G.M.P. does not include furnishing and installing bus shelters.
- 22 The items highlighted in the Direct Construction Costs Exhibit are related to the decorative large and small columns proposed in the plans. This is per request by the COHB in case it's decided they opt out of this option due to cost.

#### **DEMOLITION / CLEARING & GRUBBING**

- 1 G.M.P. does not include costs for removal / remediation of asbestos cement pipe or any other hazardous materials. Testing, inspection and abatement of existing buildings is specifically excluded.

#### **EARTHWORK / GRADING / SIDEWALK / HARDSCAPE CONSTRUCTION**

- 1 G.M.P. does not include removal or replacement of any unsuitable subsoils. Demucking is specifically excluded.
- 2 Prices are based on re-using excavated material. No unsuitable subsoil excavation, removal or replacement. Unsuitable soil, if encountered, can be removed, disposed of, replaced as directed by the Owner and billed to the Owner at the actual direct cost.
- 3 No subsurface soil investigations were performed by the CMAR during pre-construction services.
- 4 G.M.P. is based on the assumption that portions of the roadway will be closed to vehicular traffic during construction.

#### **WATER / SEWER / STORM DRAINAGE**

- 1 De-silting of the existing storm drainage system within the project limits is excluded.
- 2 G.M.P. assumes existing water valves can be shut off to perform required work. If the line cannot be shut down, line stops will be required and the costs associated shall be paid from owners contingency.
- 3 G.M.P. does not include City of Hallandale Beach meter installation and hook-up fees.
- 4 All Water and Sanitary Sewer work is excluded from the G.M.P.
- 5 G.M.P. does not include any dewatering.

#### **FRANCHISE UTILITIES / ELECTRICAL**

- 1 G.M.P. excludes all franchise utility (FPL, ATT, Comcast, etc.) work.
- 2 G.M.P. does not include any design, engineering or installation fees which may be charged to the Owner by franchise utility companies. (electric, telephone, cable tv, gas).
- 3 The Construction Manager at Risk shall not assume liability or warranty any work performed by FPL, COMCAST, ATT, TECO and/or their subcontractors.
- 4 G.M.P. does not include existing street signal cabinet relocation or work. Traffic loop or camera modifications have also been excluded.
- 5 G.M.P. includes streetlighting as specified in the plans.
- 6 The schedule represents the work controlled by the Construction Manager. Should the project exceed the scheduled duration due to the involvement of entities beyond our control (including but not limited to FPL, ATT and Comcast), a "No Fee" time extension for that work shall be issued. "No Fee" specifically refers to the construction phase fee and profit. Should a "Fee" be requested and deemed appropriate, if and only if it is mutually agreed upon by the Owner and Burkhardt Construction prior to the granted time extension.
- 7 G.M.P. includes both directional bore and open cut of streetlighting conduit sleeve installation.
- 8 G.M.P. includes the power load center for the FEC Parking Lot which ultimately feeds 1st Ave. This cost will be credited in this G.M.P. if the FEC Parking Lot is built first.

#### **LANDSCAPE / IRRIGATION**

- 1 G.M.P. does not include a landscape maintenance agreement.
- 2 G.M.P. does not include a guarantee on any relocated material.
- 3 G.M.P. includes a 1 year warranty of all landscape / irrigation material from final acceptance.
- 4 G.M.P. does not include weed barrier in the landscape/shrub areas.
- 5 G.M.P. includes sleeving where indicated specifically on the plans.
- 6 G.M.P. does not include any provisions for modifying the existing irrigation system or piping unless shown on the plans. Plans indicate that there are water sources available to tie into in each section of the project. If these sources are not available or do not have adequate pressure then new sources will need to be established and the cost taken out of construction contingency.

#### **REVISION BASED ON KH MEMO DATED 11/5/2024**

VE direction, per 11/4/24 meeting:

- 1 An alternate price to replace all permeable pavers with asphalt is provided.  
Base bid: asphalt, Alternate bid, Permeable pavers per current plans.
- 2 Decorative / gateway features with curtain lights are shown as alternate pricing  
(Per latest set update)

- 3 Alternate pricing is shown for the festoon strand between the posts. (Per latest set update)
- 4 Eliminated contractor installed art treatments in sidewalks from GMP. All sidewalks are regular grey concrete.
- 5 Public art sculpture pedestals are now an Alternate item. Mulch as base bid for each location.
- 6 Removed Date Palms in favor of coconut palms/veitchia palms and/or similar. Note: There are no Date Palms in original GMP.
- 7 Street lighting to remain in GMP, base bid.
- 8 All site furnishings to remain as-is, all to remain in GMP
