Dear Mayor Cooper:

You and the commissioners have an ability to take the lead in saving the mental health of the children, and the adults, by taking a lead in REMOVING added-fluoride from the city water. It has been scientifically proven BEYOND THE SHADOW OF A DOUBT that fluoride is a neurotoxin and it lowers the IQ of the children, and detrimentally affects the health of all-age humans, overall. Will you wait until it is guidelineed from above, as RFK Jr. declared, or will you be the leader in improving the wellbeing of our city residents and visitors - and take actions NOW ?? Some cities in the US already did.
