I strongly urge the city to take and support measures as soon as possible to address the problems created by unattended, junk, or derelict vessels on Golden Isles Lake. In April 2023, one of these boats broke its anchor line during a storm and crashed into our Association's private marina, almost causing thousands of dollars in property damage to our owners' vessels and our dock. The risk to an individual's safety and personal property from these potentially dangerous boats is present every day. Often unregistered, uninsured, and improperly secured, these nuisance, at-risk vessels are also a public threat as fire, oil spill, or waste water and pollution hazards. Effective action, including but not limited to the creation of an anchoring limitation area, to address these real, present, and substantive dangers to public and private interests is necessary, overdue, and welcomed by the residents of Hallandale Beach. Frank Barone, President – Golden Isles Towers Condominium Association.
