THIS INTERLOCAL SERVICES AGREEMENT (INDIRECT) (this “Agreement”) is made and entered into this 19th day of August 2019, by and between the **CITY OF HALLANDALE BEACH**, a Florida municipal corporation (the “City”) and the **HALLANDALE BEACH COMMUNITY REDEVELOPMENT AGENCY**, a public body corporate and politic (the “HBCRA,”) (the City and HBCRA are sometimes hereinafter referred to individually as a “Party” and collectively as the “Parties”).

R E C I T A L S

1. The HBCRA desires to contract with the City for community policing services to create a drug and crime-free environment and to provide for the safety and protection of the property owners, business owners, residents and patrons of businesses located within the HBCRA Community Redevelopment Area.

2. The HBCRA desires to foster a more positive and collaborative relationship between the police and the community they serve.

3. The City desires to assist in this effort by providing through the Hallandale Beach Police Department, effective police services through the following initiatives, in the HBCRA Community Redevelopment Area:

- A. The first initiative is to create individual Quadrant Safety Boards (QSBs) one for each quadrant in the HBCRA Community Redevelopment Area. The QSBs are designed to foster communication between the police and community to specifically discuss safety concerns in their specific quadrants.
- B. The second initiative is to begin Police Community Educational Courses. These courses are intended to decrease the likelihood of citizen victimization through crime prevention education and low impact self-defense training.
- C. The third initiative is to reallocate office space at Fire Station 7 to accommodate a police substation within the HBCRA Community Redevelopment Area. The substation would allow police to gain a physical foothold in the community.
- D. The fourth initiative is to develop a training curriculum for police officers designed to strengthen community relations and enhance police officers’ incident response skillset.

- E. The fifth initiative is to mount Automated License Plate Reader Cameras (ALPRs) on the major thoroughfares in the HBCRA Community Redevelopment Area. The ALPRs alert police of criminal/suspicious vehicle(s) and are a useful tool for investigations.
- F. The sixth initiative will include the creation of a Strategic Intelligence Unit (SIU). The goal of the SIU will be to gather criminal intelligence and data collection to guide police operations. The SIU will utilize a combination of current police positions and newly HBCRA funded positions. The Unit will consist of one (1) police sergeant, eight (8) police officers, and one (1) civilian crime analyst.

4. The HBCRA and the City recognize the potential outstanding benefits of the community policing services provided through the above listed initiatives for the HBCRA Community Redevelopment Area and the citizens of Hallandale Beach.

5. The purpose of this Agreement is to provide for community policing including the creation of the QSBs, Community Education Courses, a Police Substation within the HBCRA Community Redevelopment Area, the SIU, Police training and mounting of ALPRs in designated locations.

6. The City has represented to the HBCRA that it needs community policing assistance and it is in the best interest of the HBCRA, the City, and the citizens of Hallandale Beach to provide such community policing.

NOW, THEREFORE, in consideration of the mutual covenants and agreements contained herein, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the City and the HBCRA agree as follows:

Section 1. Recitals and Authority.

1.1 Recitals. The Recitals set forth above are true and correct and are incorporated in this Agreement by reference.

1.2 Authority. This Agreement is entered into by the Parties pursuant to Section 163.01, Florida Statutes, known as the “Florida Interlocal Cooperation Act of 1969,” and Section 163.400, Florida Statutes, entitled “Cooperation by Public Bodies.”

Section 2. Intent. The intent of this Agreement is to provide the terms and conditions by which the Services (as defined in Section 3) will be provided by the City to the HBCRA. For the sake of clarity, the Parties acknowledge and agree that the Services will only be for redevelopment activities in the HBCRA Community Redevelopment Area.

Section 3. Services. The City, through its Police Department, will provide community policing services (each a “Service” and collectively the “Services”).

3.1 QSB. The HBCRA agrees to fund the creation of QSBs which will be established in each of the four quadrants of the HBCRA.

3.1.1 The first of the quadrants is the northeast quadrant which is bordered to the west by NE 1 Avenue, to the north by Pembroke Road, to the east by NE 14 Avenue, and to the south by East Hallandale Beach Boulevard.

3.1.2 The second is the southeast quadrant which is bordered to the west by SE 1 Avenue, to the north by East Hallandale Beach Boulevard, to the east by Federal Highway/US1, and to the South by County Line Road.

3.1.3 The third is the northwest quadrant which is bordered to the west by the I-95 highway, to the north by Pembroke Road, to the east by Dixie Highway, and to the south by West Hallandale Beach Boulevard.

3.1.4 The fourth is the southwest quadrant which is bordered to the west by the I-95 highway, to the north by West Hallandale Beach Boulevard, to the east by Dixie Highway, and to the south by County line Road.

3.1.5 The four QSBs will be composed of five residents nominated by the HBCRA Board.

3.1.6 The QSBs would meet quarterly to discuss issues and concerns of safety in their respective quadrants.

3.1.7 Police Officers (who work within the quadrants) and Sergeants will attend each meeting, eventually appointing a liaison.

3.1.8 The QSBs and Police Staff will develop a public safety plan to enhance the safety within the respective neighborhoods.

3.2 Community Education Courses The HBCRA agrees to fund the administration of an educational program, hosted by the Police Department, to include self-defense, for residents at community centers and/or parks in the HBCRA. The funds will reimburse police for training material, equipment and cost of overtime.

3.2.1 Trained police officers will instruct community-based classes designed to empower residents to take control of their safety. The classes will instruct low impact self-defense techniques allowing residents to physically protect themselves from attackers. The courses will also provide residents insight on how to avoid becoming victims of other types of crimes such as burglaries, financial or cybercrime.

3.2.2 The 2 hour long community educational classes will be held quarterly depending on attendance.

3.2.3 These self-defense classes will allow police to expand their public education efforts by preventing residents from becoming victimized.

3.3 Police Substation. The HBCRA agrees to fund the establishment of a Police Substation at the Station 7 Fire Department on Foster Road to gain a physical foothold in the community and provide a place for residents to interact with Police in their own

neighborhood. The substation would be a base of operations for the officers assigned to that zone, as well as the Community Involvement Unit (CIU).

3.3.1 At this time, due to a shortage in police staffing, the substation would not be staffed 24/7 days a week. However, the substation would be outfitted with a call box that will be connected to the 911 phone line should residents have an emergency. The substation will act as a platform to build further police presence in the area as resources become available.

3.3.2 The funds would be utilized to renovate and upgrade the substation property to the functionality of a viable police workspace. The funds would also be used to install the 911 call box.

3.4 Police Training. The HBCRA agrees to fund the services of an outside firm to introduce Integrating Communications, Assessment, and Tactics (ICAT), a training program that provides first responding police officers with the tools, skills, and options they need to successfully and safely defuse a range of critical incidents.

3.4.1 Developed by Police Executive Research Forum (PERF) with input from hundreds of police professionals from across the United States, ICAT takes the essential building blocks of critical thinking, crisis intervention, communications, and tactics, and puts them together in an integrated approach to training.

3.4.2 The training program is anchored by the Critical Decision-Making Model that helps officers assess situations, make safe and effective decisions, and document and learn from their actions. ICAT incorporates different skill sets into a unified training approach that emphasizes scenario-based exercises, as well as lecture and case study opportunities.

3.5 Drone Program. The HBCRA agrees to fund the purchase of four (4) unmanned aircraft systems (also known as drones) to enhance Patrol Operation Services. The use of drones has various benefits including mitigating risks, expanding the capabilities of staffing, and providing critical real-time information to key personnel when responding to critical incidents.

3.5.1 The drones will be deployed around the clock and will be utilized during incidents of search and rescue operations, critical incidents, crowd monitoring during large events, fleeing suspect pursuits, recognizance, and natural disaster incident responses. Further, the drones will be available to Hallandale Beach Fire Rescue as needed.

3.5.2 The drone program requires eight (8) patrol officers to obtain their Federal Aviation Administration (FAA) drone licenses as well as ongoing training to become proficient with the flying and maintenance of the aircraft system and the legal parameters of use.

3.6 ALPR. The HBCRA agrees to fund the installation of Automatic License Plate Reader (ALPR) cameras at the major entry and exits points into the City of

Hallandale Beach. This crime fighting tool would have an immediate effect on policing applications.

3.7 SIU. The Police Department will develop a SIU. The goal of SIU will be to gather criminal intelligence and data collection to guide police operations.

3.7.1 The SIU will optimize crime software which utilizes a combination of historical crime data and criminal intelligence to forecast future incidents of crime creating a policing strategy geared toward crime prevention and proactive policing.

3.7.2 Based on these forecasts, patrol units will obtain daily crime briefings with an up to date statistical analysis of criminal activity in the City to increase patrols at particular locations on specific dates and times to deter crime before it happens.

3.7.3 SIU will comprise of current police positions and newly HBCRA funded positions. Military activation, community, city, or emergency police needs shall impact the numbers of officers assigned and duties performed.

3.7.4 The Unit will consist of one (1) police sergeant, eight (8) police officers, and one (1) civilian crime analyst who will act as the center for gathering and processing crime data.

3.7.5 The genesis of the Unit will be the crime analyst who will act as the center for gathering and processing crime data. The crime analyst's mission will be to interpret and process all crime data entering into the SIU.

3.7.6 The City agrees to fund the crime analyst position as well as four (4) police officers each assigned to a patrol shift. These officers will be trained in intelligence gathering and dissemination. The officers will provide daily briefings to include crime scene intelligence as observed directly in the field.

3.7.7 Further, the officer will search for patterns that might otherwise be missed in the official reports. The officers will also foster communication throughout the department by providing their individual squads information gathered by the SIU.

3.7.9 The HBCRA agrees to fund and assign full time a total of one (1) police sergeant and four (4) police officers to the SIU. These officers will have the ability to be more dedicated to the often time consuming and intensive investigations that road patrol officers do not have the time or resources to address.

3.7.10 This portion of the SIU will concentrate their efforts on addressing specific intelligence and data driven criminal activity through the development of criminal informants, surveillance and long-term investigations.

3.7.11 SIU will have monthly meetings to share data and coordinate action plans tailored to proactively target crime patterns and prevent future incidents of crime.

3.7.12 Further, these officers will conduct preventative enforcement such as parole checks, warrant apprehensions, suspect surveillance and searches.

3.7.13 The assigned SIU officers duties and activities shall include, but not be limited to the following:
