First of all, this meeting was poorly planned. Second, there are a few things I disagree with within this proposed budget but most of all the the sale of sanitation. 3 million dollars for Sanitation to be sold and privatized is going to be a long term issue in what the city manager and come commissioners believe to be some sort of solution to increasing reserves. Selling Sanitation will greatly reduce the quality of services residents receive. We saw what happened after Hurricane Irma with cities that have private contracts such as Hollywood who didn't have their garbage picked up for weeks on end when this was not an issue in Hallandale Beach. The sanitation employees are of the highest quality and care deeply about doing the best job possible here. The AFSCME Local 2009 has voiced their opposition to this sale over the last year as well as the cut in their healthcare benefits. This City Manager has done these dedicated employees a complete injustice over the last year in ignoring their voices and essentially put people before profits. The majority of the commission will surely vote for the City Manager's horrendous budget due to their own personal greed and disregard for people's livelihoods unfortunately.
