It amazes me that the commission would increase the cost for the fire department change by approximately \$841,349!! This would also increase our taxes. Why? Has the Hallandale Fire Department NOT provided appropriate service and expertise in the past? Is that the insinuation? If not, then why would the commission burden our city residences with the extra

expenses? Please explain this.

City Manager

Last week I called your office. I am concerned that I have to formulate our Condo budget for next year. I already know that taxes are being raised. Which I am not in favor of. But I need to know if City Services we use will also be giving themselves a raise? In any event I was told that your assistant doing budgets would call me back to answer my questions. Well it is over a week. When will I get that call back? Please also see the e mail that I forwarded to each Commissioner about the move to BSO. From the last meeting I attended I see budget deficits into the future. So will taxes and services be raised for years to come?

This is a Joke. Why is it that we are such a small tiny over built city and have to out source of Fire Dept. and our Police dept. If I am not mistaken there is \$425,000 for over time, this should tell you that we need to hire more employees . Someone need to go line by line items and figure out where cuts can be made to keep our fire dept. in Hallandale. Maybe take some of the \$425,000 and out source to someone who could do this.

It is incredible that our city is even considering anything like this. The shift to using the Sheriff instead of our own Police Dept should have taught everyone how poor the service has become now. Certainly the Fire Dept will suffer similarly - read that: the people of Hallandale Beach will be the ones who suffer. How can anyone support this?
