

1 EXHIBIT 1

2 RESOLUTION NO. 2019-

3 A RESOLUTION OF THE MAYOR AND CITY COMMISSION OF THE
4 CITY OF HALLANDALE BEACH, FLORIDA URGING THE UNITED
5 STATES CONGRESS TO ENACT THE ENERGERY INNOVATION AND
6 CARBON DIVIDEND ACT OF 2019; AND PROVIDING FOR AN
7 EFFECTIVE DATE.
8

9 WHEREAS, an Intergovernmental Panel on Climate Change issued a special report on
10 the impacts of global warming of 1.5 °C above pre-industrial levels in October 2018 warning that
11 global warming is likely to reach 1.5°C between 2030 and 2052 if it continues to increase at the
12 current rate; and

13 WHEREAS, the United Nations climate science body said in a monumental climate report
14 that we have only 12 years left to make massive and unprecedented changes to global energy
15 infrastructure to limit global warming to moderate levels; and
16

17 WHEREAS, the United States government released its Fourth Annual Climate
18 Assessment in November 2018 reporting that the impacts of climate change are already being
19 felt in communities across the country, and that more frequent and intense extreme weather and
20 climate-related events, as well as changes in average climate conditions, are expected to
21 continue to damage infrastructure, ecosystems, and social systems that provide essential benefits
22 to communities; and
23

24 WHEREAS, conservative estimates by the world's climate scientists state that to achieve
25 climate stabilization and avoid cataclysmic climate change, emissions of greenhouse gases
26 (GHGs) must be brought to 80-95% below 1990 levels by 2050; and
27

28 WHEREAS, presently the environmental, health, and social costs of carbon emissions are
29 not included in prices paid for fossil fuels, but rather these externalized costs are borne directly
30 and indirectly by all Americans and global citizens; and
31

1 **WHEREAS**, to begin to correct this market failure, Congress can enact the Energy
2 Innovation and Carbon Dividend Act to assess a national carbon fee on fossil fuels based on the
3 amount of CO₂ the fuel will emit when burned and allocate the collected proceeds to all U.S.
4 Households in equal shares in the form of a monthly dividend; and
5

6 **WHEREAS**, for efficient administration, the fossil fuels fee can be applied once, as far
7 upstream in the economy as practical, or at the port of entry into the United States; and
8

9 **WHEREAS**, as stated in the **Energy Innovation and Carbon Dividend Act of 2019, H.R.**
10 **763**, a national, revenue-neutral carbon fee starting at a relatively low rate of \$15 per ton of CO₂
11 equivalent emissions and resulting in equal charges per ton of CO₂ equivalent emissions potential
12 in each type of fuel or greenhouse gas should be assessed to begin to lower what are now
13 dangerously high CO₂ emissions. The yearly increase in carbon fees including other greenhouse
14 gases, shall be at least \$10 per ton of CO₂ equivalent each year, with the Department of Energy
15 determining whether an increase larger than \$10 per ton per year is needed to achieve program
16 goals; and
17

18 **WHEREAS**, the **Energy Innovation and Carbon Dividend Act of 2019, H.R. 763**,
19 specifies that, in order to protect low and middle income citizens from the economic impact of
20 rising prices due to the carbon fee, equal monthly per-person dividend payments shall be made
21 to all American households (½ payment per child under 19 years old) each month from the fossil
22 fuel fees collected. The total value of all monthly dividend payments shall represent 100% of the
23 net carbon fees collected per month; and
24

25 **WHEREAS**, the **Energy Innovation and Carbon Dividend Act of 2019, H.R. 763**,
26 encourages market-driven innovation of clean energy technologies and market efficiencies which
27 will reduce harmful pollution and leave a healthier, more stable, and more prosperous nation for
28 future generations; and
29

30 **WHEREAS**, the **Energy Innovation and Carbon Dividend Act of 2019, H.R. 763**, will,
31 after 12 years, lead to a decrease in America's CO₂ emissions of 40 percent and an increase in
32 national employment of 2.1 million jobs; and
33

1 **WHEREAS**, border adjustments - carbon content-based tariffs on products imported from
2 countries without comparable carbon pricing, and refunds to our exporters of carbon fees paid -
3 can maintain the competitiveness of U.S. businesses in global markets; and
4

5 **WHEREAS**, a national carbon fee can be implemented quickly and efficiently, and will
6 respond to the urgency of the climate crisis because the federal government already has in place
7 mechanisms, such as the Internal Revenue Service, needed to implement and enforce the fee,
8 and already collects fees from fossil fuel producers and importers; and
9

10 **WHEREAS**, A national revenue-neutral carbon fee would make the United States a leader
11 in mitigating climate change and in the clean energy technologies of the 21st century and would
12 provide incentive to other countries to enact similar carbon fees, reducing global CO2 emissions
13 without the need for complex international agreements, and
14

15 **NOW, THEREFORE, BE IT RESOLVED BY THE MAYOR AND CITY COMMISSION**
16 **OF THE CITY OF HALLANDALE BEACH, FLORIDA:**

17 **SECTION 1.** The above "Whereas" clauses are hereby incorporated herein.

18 **SECTION 2.** That the City Manager or City Clerk, no later than 30 days after passage of this
19 Resolution, shall transmit copies of this resolution to the President and Vice President of the
20 United States, to the Speaker of the House of Representatives, to the Majority Leader of the
21 Senate, to each U.S. Senator and Representative from the State of Florida in the Congress of the
22 United States, and to nearby city and county governments urging that they pass similar
23 resolutions.

24 **SECTION 3.** This Resolution shall become effective immediately upon its adoption.
