1 2	<u>EXHIBIT "2"</u> ORDINANCE NO. 2020-XX
3 4 5 6 7 8 9 10 11 12 13 14	AN ORDINANCE OF THE MAYOR AND CITY COMMISSION OF THE CITY OF HALLANDALE BEACH, FLORIDA, AMENDING CHAPTER 8, BUILDINGS, CONSTRUCTION AND CONDOMINUMS, OF THE CODE OF ORDINANCES OF THE CITY OF HALLANDALE BEACH, FLORIDA, ARTICLE II, BUILDING CODE, SECTION 8-37, GREEN BUILDING PROGRAM, AND SECTION 8-39, EDUCATION AND TRAINING; CREATING SECTION 8-40, APPLICABILITY, ESTABLISHING A POINT RATING SYSTEM FOR CITY GREEN BUILDING PROGRAM CERTIFICATION; PROVIDING FOR CONFLICT; PROVIDING FOR CODIFICATION; PROVIDING FOR SEVERABILITY; PROVIDING FOR AN EFFECTIVE DATE.
15 16	<b>WHEREAS</b> , the City Commission has determined that it is in the best interest of the citizenry and general public to promote green building practices within the City.
17 18	NOW, THEREFORE BE IT ORDAINED BY THE MAYOR AND CITY COMMISSION OF HALLANDALE BEACH, FLORIDA:
19 20	<b>SECTION 1.</b> Chapter 8, of the Code of Ordinances of the City of Hallandale Beach, Florida, Article II, Building Code, is hereby amended to read as:
21 22 23 24 25 26 27 28 29 30	<ul> <li>CHAPTER 8, BUILDINGS, CONSTRUCTION AND CONDOMINUMS ARTICLE II, BUILDING CODE</li> <li>Section 8-37 Hallandale Beach Green Building Program.</li> <li>(a) Intent and purpose. The purpose of the Hallandale Beach Green Building Program is to promote sustainable development practices as a means of addressing global climate change, protecting natural resources, and ensuring a high quality of life for future residents. Additionally, incorporating green building practices into a building's design, construction and operation has proven to reduce operating costs, enhance building marketability and increase worker productivity.</li> </ul>
31 32 33	(b) <u>Green Building Program Certification Levels.</u> The City's Green Building Program includes the following certification of achievement levels, which require a minimum number of sustainability points from the sustainability worksheet in Section 8-40:
34 35 36	<ol> <li>(1) Earth-Friendly at 50 points,</li> <li>(2) Enhanced at 75 points, and</li> <li>(3) Exemplary at 150 points.</li> </ol>
37	***
38	Section 8-38, - Definitions,

<sup>38</sup> Section 8-38. - Definitions.

*Energy Star.* An international standard for energy efficient consumer products created by
 the United States Environmental Protection Agency.

41 *FGBC.* Florida Green Building Coalition.

Green building . The resource efficient design, construction, and operation of buildings
 deemed by employing environmentally sensible construction practices, systems, and
 materials.

Green building program participant. Any permit application submitted to the building
 division for new construction or renovation that will achieve a green building certification from
 an organization accepted by the city's development services department, and any installation
 permit for Energy Star-rated appliances/fixtures.

- 49 *GHDS*. Green Home Designation Standard of the FGBC.
- 50 *Green Globes.* U.S. commercial/industrial building rating system of the GBI.
- 51 *GBI.* Green Building Initiative.

*LEED.* Leadership in Energy and Environmental Design Rating System, Version 3.0, of
 the USGBC, any amendments thereto or subsequent versions.

54 *Major development.* Any new project consisting of ten or more residential dwelling units 55 or 4,000 square feet or greater of nonresidential gross floor area.

56 *Major renovation.* The total cost of the renovation related to the building envelope or the 57 technical building systems is greater than 50 percent of the assessed value of the building or 58 more than 50 percent of the surface of the building envelope undergoes renovation.

59 *Minor development.* Any new project consisting of less than ten residential dwelling units 60 or less than 4,000 square feet of nonresidential gross floor area.

Program certification. The final designation awarded to a program participant for
 satisfying all requirements associated with a green building program for a particular project.

- 63 USGBC . U.S. Green Building Council.
- 64 (Ord. No. 2009-20, § 1, 11-4-2009)

## <sup>65</sup>• Sec. 8-39. - Education and training.

- (a) The city shall make available to the public a list of currently accepted green building
   organizations and their certification program requirements.
- (b) (a) The city shall also make available to the public its certification-based green building
   program, certification achievement levels and requirements, including pre-requisites and
   Sustainability Worksheet.
- 71 (c) (b) The city in conjunction with FSEC, FGBC, USGBC, or other green building
- 72 <u>organizations, shall conduct at least one training workshop per year in order to educate</u>

residents, property owners, and business owners about the city's green building programand incentives available for program participants.

$(\mathbf{a})$	The city's certification-based green building program shall apply to development type
(a)	pursuant to section 32-787(k), during the site plan development review process.
(b)	All new development or substantial renovation projects as specified in said section,
	submit detailed plans and/or specifications of the project's compliance with the requirements in table 8-40(a), green building prerequisites, and table 8-40(b),
	substainability worksheet, for review by the city's green building coordinator for requ
	city certification.
(c)	Each development type in section 32-787(k) shall meet the following prerequisites in Table 8-40(a), and the minimum number of points from at least four different catego
	in Table 8-40(b), the sustainability worksheet.
	ABLE 38-40(a). Required Green Building Prerequisites
(1	
•	) Energy Efficiency: Appliances provided in huilding shall be Energy Stor qualified appliances and
à.	Appliances provided in building shall be Energy Star qualified appliances and;
a. b.	Appliances provided in building shall be Energy Star qualified appliances and; All new residential, non-residential, and mixed-use projects of 20,000 square feet of
a. b. gr	Appliances provided in building shall be Energy Star qualified appliances and; All new residential, non-residential, and mixed-use projects of 20,000 square feet of eater shall register with EnergySTAR Portfolio Manager.

Table # 8-40(b)SUSTAINABILITY WORKSHEET:MENU OF SITE AND BUILDING DESIGN OPTIONS FOR SUSTAINABILITY

### Energy Intent: Encourage on-site renewable energy production; promote the design and construction of energy efficient buildings; reduce air, water, and land pollution from energy consumption; and reduce the heat island effect

••• • •		1	
Торіс	Points	Submitted Points	Graded Points
<b>1.1 Renewable Energy Sources</b> Design and incorporate on-site renewable energy generation technologies such as solar, wind, geothermal, or biomass. Two points granted for each 1% of the projects annual electrical energy demand generated up to a			
maximum of 30 points.	2 to 30		
<b>1.2 Green Power Agreement</b> Provide a percentage of the building's electricity from renewable energy sources by engaging in at least a one- year renewable energy contract to purchase green power. Earn 1 point for each 25% of the building total annual energy demand from a certified green power generator for one year. Certified Green Power is provided by renewable			
generation in the state of Florida.	1 to 4		
<b>1.3 Skylights</b> The primary building is constructed with skylights that provide at least 10% of the light necessary for daily use on the story on which the skylights are located.	2		
<b>1.4 Heat Island Reduction</b> Use any combination of the following strategies for 50% of the non-roof impervious site landscape (including roads, sidewalks, courtyards, parking lots, and driveways) (1) Provide shade from the open structures such as those supporting solar panels, canopies, walkways, pergolas, all with a Solar Reflectance Index (SRI) of at least 29 (2 points) (2) Use paving materials with a SRI of at least 29 (1 point) (3) Use an open grid pavement system (at least 50% pervious) (2 points).	1 to 5		
<b>1.5 Cool Walls</b> Use white or cool light colors for the body of buildings to reflect rather than absorb heat and reduce cooling costs. Accent and trim colors are not limited to these choices.	2		

<b>1.6 Solar-Ready Design</b> For stand-alone buildings, design and build the project so that it will readily accommodate the installation of solar photovoltaic panels, including roof load, roof pitch and orientation (5 points). For projects with multiple buildings, design and build at least 20% of the buildings to be solar-ready as described above. Two additional points granted for each additional 20% provided up to a total of 100% solar-ready		
buildings (2 to 10 points)	2 to 10	
<ul> <li><b>1.7 Solar Heated Pool</b></li> <li>In lieu of gas or electric conventional heating (1) Private</li> <li>Pool/Hot Tub (2 points each) (2) Public Pool (6 points each)</li> <li>*Maximum of 30 points per development</li> </ul>	2 to 30	

# Recycling and Waste Reduction Intent: Encourage recycling of household and commercial projects, reduce the amount of waste hauled to and disposed of in landfills, and promote the reuse of materials

Торіс	Points	Submitted Points	Graded Points
2.1 Pet Waste Station			
One point per approved pet waste station supplied regularly with biodegradable bags with a maximum of 2 points	1 to 2		
2.2 Cigarette Butt Station			
One point per approved cigarette butt station with a maximum of 2 points	1 to 2		
<b>2.3 Recycled Content in Infrastructure</b> For new roadways, parking lots, sidewalks, and curbs (above- ground structured parking and underground parking are exempt from this option), and aggregate base and aggregate sub-base shall be at least 50% by volume recycled aggregate materials such as crushed cement concrete and asphalt concrete	5		
<b>2.4 Salvage Building Materials</b> Use green building materials (recycled materials, locally- produced materials, FSC sustainably harvested wood, etc.) in the construction of the project (5 points). Use furniture made from recycled materials, locally-produced materials, FSC sustainably harvested wood, etc. in the project (5 points). Use flooding made from recycled or rapidly renewable materials such as PET carpeting, bamboo, cork flooring, etc. in the project			
(5 points).	5 to 15		

Urban Nature Intent: Provide a variety of appealing and comfortable open spaces close to work and home; encourage physical activity and time spent outdoors; support natural resources and habitat conservation, and promote social networking, civic engagement, personal recreation and other activities

activities			
Торіс	Points	Submitted Points	Graded Points
3.1 Minimum Open Space			
Provide common open space that exceeds the Code's base			
requirements by 10%. Five additional points granted for each			
additional 10% up to a total of 40% above code.	5 to 20		
3.2 Organic Farming			
Community sustainable food such as organic vegetable gardens,			
fruit tree orchards/groves, and pollinator gardening.	1 to 5		
3.3 Community Gardens			
For residential or mixed-use projects, dedicate permanent and			
viable growing space and related facilities (such as			
greenhouses) within the project at a minimum of ten square			
feet per dwelling unit for 20% of the project. Provide fencing,			
efficient watering systems, soil, and/or garden bed			
enhancements (such as raised beds), secure storage space for			
garden tools, solar access, and pedestrian access for these			
spaces.	10		
3.4 Tree Canopy			
Provide trees in an amount which exceeds the base			
requirements of Section 32-384 by 10%. Two additional points			
granted for each additional 10% up to 50% above Code.	2 to 10		
	2 00 10		
3.5 NatureScape or Ocean Friendly Landscaping			
Property has been certified as NatureScape by Broward County			
(5 points) AND/OR 30% of landscape footprint meets Ocean			
Friendly Landscaping Standards (5 points)	5 to 10		
Transportation Intent: Promote public health by encouraging da alternative modes of transportation such as walking and b transportation and, design parking facilities to minimize ad pedestrians.	oicycling; end	ourage the us	e of
Торіс	Points	Submitted Points	Graded Points

<b>4.1 Charging Stations</b> For new buildings, provide EV charging stations in the parking area. Two points per station with maximum 10 points.	2 to 10	
<b>4.2 Bike Sharing Program</b> 1 point for every 10 bikes, 2 points maximum	1 to 2	
<b>4.3 Facilities for Bicycle Commuters</b> Provide the following (1) indoor self-contained bicycle storage lockers equal to a minimum of 5% of the vehicle parking spaces provided (2 points) (2) Shower and dressing areas for employees (2 points).	2 to 4	

### Water Intent: Minimize water use in buildings to reduce impacts to natural water resources; and, minimize outdoor water use for landscape irrigation

Торіс	Points	Submitted Points	Graded Points
5.1 Water Efficient Plants			
To the extent possible, all landscaping plants, including those on			
green roofs, shall be selected from a list of water-efficient			
vegetation maintained by the Florida Yards and Neighborhoods			
Handbook from the University of Florida or South Florida Water			
Management District's WaterWise guide, and utilize the			
principles of Florida Friendly Landscaping.	2		
5.2 Landscape Irrigation System			
WaterSense Sprinklers, Drip, or Subsurface irrigation systems			
shall be utilized for all landscape irrigation systems when			
irrigation is necessary. Drip irrigation systems must be equipped			
with pressure regulators, rain sensors, filters, and emitters.			
Each drip emitter must be rated at less than 20 gallons per hour			
(gph). 1 point for WaterSense sprinklers, 2 points for Drip, 3			
points for subsurface irrigation.	1 to 3		
5.3 Rain Gardens (Bioswale or Treatment Wetland) The			
development includes rain gardens designed with native plant			
material installed in a sand/soil matrix soil bed with a mulch			
cover layer.			
Commercial, consisting of a minimum of 1,000 square feet gives			
3 points.			
Multifamily or Mixed Use with less than 50 units consisting of a			
minimum of 500 square feet gives 2 points.			
Multifamily or Mixed use with 50 units or more than 50 units			
consisting of a minimum of 1,000 square feet gives 3 points.			
	2 to 3		

	1	I	I
5.4 Vault System			
The utilization of a vault system for stormwater management to			
aid in the increased flow rate due to development and			
maximize usable open space on urban sites.	4		
5.5 Rain Barrels or Cisterns			
Reduce water use, stormwater runoff, a and erosion by the			
utilization of rain barrels or cisterns to collect rainwater. The			
installed rain barrel or cistern shall be directly connected to the			
on-site irrigation system. (1 point per 55-gallon storage, up to 4			
points)	1 to 4		
Resilience Intent: Implement strategies to minimize damage a	and loss of li	fe caused my i	natural
hazards and global climate char			
		Submitted	Graded
Торіс	Points	Points	Points
6.1 Higher Floodplain Standards			
3 points for every foot above Code required freeboard. These			
points are only available for buildings 20,000 square feet or			
larger located in the FEMA Special Flood Hazard Area Zones VE			
and AE. 9 points maximum	3 to 9		
6.2 Elevated Utilities			
Mechanical, electrical, plumbing, and all other utility elements			
and key equipment and contents such as medical devices and			
files which would usually be at BFE or below are raised above			
BFE	2		
6.3 Flood Resistant Materials			
Utilizing flood resistant materials in construction such as			
concrete, glass blocks, clay tile, and terrazzo at or below BFE	1		
C. 4 Selex with Pattery Storage			
6.4 Solar with Battery Storage			
Building is equipped with a solar generator or a solar PV array	15		
with connected battery storage.	15		
Additional Strategies for Sustainability Intent: Implement st programs or explore and implement new, unique, or innovative of the project and community	e ways to inc	-	
Торіс	Points	Submitted Points	Graded Points

<b>7.1 Above-Code Green Building Certification</b> Design and build the project to meet the standards of an above- code program such as LEED, Green Globes, FGBC, Living Building Challenge, etc. As a good faith demonstration of the developer's intent, the applicant will utilize solar energy to power the project or achieve green building certification demonstrating the method that will be used to achieve said certification. The most recent LEED Scorecard, the most recent version of the FGBC checklist, or equivalent green building certificate checklist shall be submitted depending on the certification the developer is seeking.	30	
<b>7.2 Innovative Products or Strategies</b> Provide documentation of an innovative product or strategy that increases the sustainability of the project or community but is not provided in this Section (i.e. Stormwater). Up to give Innovative Products or Strategies may be submitted for review. Points awarded at the discretion of Green Initiatives Coordinator based on the capacity of the proposed product or strategy to increase the sustainability of the project in any of the above categories (1 to 5 points for each innovative strategy)	1 to 15	
<b>7.3 Achieving Zero Net Carbon</b> Follows the Zero Code- Energy Efficiency Standards to achieve net zero carbon in new development. One hundred percent of the building's energy needs on a net annual basis must be supplied by on-site renewable energy. No combustion is allowed.		
	200	

#### 

SECTION 2. Conflict. All ordinances or portions of the Code of Ordinances of the City of
 Hallandale Beach in Conflict with the provisions of this ordinance shall be repealed to the extent
 of such conflict.

97 <u>SECTION 3. Severability.</u> Should any provision of this ordinance be declared by a court
 98 of competent jurisdiction to be invalid, the same shall not affect the validity of the ordinance as a
 99 whole, or any part thereof, other than the part declared to be invalid.

SECTION 4. Codification. It is the intention of the Mayor and City Commission that the provisions of this ordinance be incorporated into the Code of Ordinances; to effect such intention the words "ordinance" or "section" may be changed to other appropriate words. SECTION 5. Effective Date. This Ordinance shall take effect immediately upon adoption. PASSED AND ADOPTED on 1<sup>st</sup> reading on November \_\_\_\_, 2020. PASSED AND ADOPTED on 2<sup>nd</sup> reading on December \_\_\_\_, 2020. JOY COOPER MAYOR SPONSORED BY: CITY ADMINISTRATION ATTEST: JENORGEN GUILLEN, CMC CITY CLERK
