Hello Noemy,

Congratulations, the City of Hallandale Beach has been awarded a Service Development grant in the amount of \$2,500,000.00 for the implementation of the following project: The City of Hallandale Beach Electric Shuttle Bus Purchase.

Just a reminder,

- Funds are available now, but cannot be applied to any expenditures made prior to the full execution of a Public Transit Grant Agreement;
- The Service Development grant is a state grant, and requires a 50% local match;
- Funding is for a capital purchase of electric shuttle buses and related equipment;
- The Service Development grant is a reimbursement grant, and documentation of proof of payment must be submitted with invoices;
- The project must remain in compliance with all applicable state and federal regulations; and,
- The purchase, and any subcontracted services related to this grant must be procured through a documented competitive process, and the Florida Department of Transportation (Department) reserves the right to review all sub-contractor agreements and contracts related to the project.

The project has been entered into the Department's Work Program and has been assigned the Financial Project #446652-1 (printout attached). If you are no longer interested in receiving this grant, please notify the Department via letter or e-mail as soon as possible so that we may re-assign the funds in a timely manner. Please do not hesitate to call or e-mail me with any questions regarding this grant. Looking forward to working with the City on this project!

Best regards,
Jayne
