City of Tamarac
Interoffice Memorandum
Financial Services Department
PURCHASING DIVISION

To: Michael C. Cernech, City Manager
From: Keith K. Glatz, Purchasing & Contracts Manager
Thru: Christine J. Cajuste, Interim Director of Financial Services
Date: September 8, 2020
Re: Temp Reso #13501 – Award of Agreement – Bid #20-21B, “Furnish, Deliver and Discharge of Quicklime”

Recommendation:

The Director of Public Services and Purchasing and Contracts Manager recommend placement of the above referenced item on the consent agenda of the September 23, 2020 Commission meeting, authorizing the award of an Agreement for an initial three (3) year term effective November 1, 2020 through October 31, 2023, with up to three (3) one year renewal options, authorizing a quarterly material adjustment for Quicklime purchased from Lhoist North America of Alabama, LLC, (Lhoist) for the City of Tamarac, and twenty-three (23) additional member agencies of the Southwest Florida Governmental Purchasing Cooperative (Co-op); and Carmeuse Lime and Stone Inc. for high calcium granular quicklime on behalf of one entity in the Co-op.

Issue:

The existing agreement with Lhoist for the City and the SE Florida Governmental Purchasing Co-op; as well as an existing agreement with Carmeuse Lime and Stone is set to expire on October 31, 2020. New bid #20-21B was recently solicited, and an award needs to be approved so that the City will have a vendor to furnish, deliver and discharge quicklime at the City's Water Treatment Plant.

Background:

The City utilizes quicklime in the Public Services Water Treatment Plant. The current agreement with Lhoist will expire on October 31, 2020, and due to some requested industry-wide market structural changes, we were unable to exercise any of the original contract renewal options. Price adjustments under this agreement utilize several market indices, including several U. S. Government indices, such as those issued by the Bureau of Labor Statistics, as well as several industry-accepted privately published indices. As a result of market conditions, the existing formula models were not accounting for actual labor costs incurred by all of the firms in the Quicklime market, but our contract language did not provide the necessary flexibility to account for the modification of the pricing model. Regarding the model factors that were adjusted, the change with the greatest impact was the adjustment of the labor index used which was factoring only actual labor wages, and did not to include a factor for fringe benefits. This omission has created significant stress on the contractors, especially after benefit costs began to significantly

escalate a few years ago. There was also a change to the reporting location for diesel fuel from West Texas to the Gulf Coast, since pricing in that region has tended to be more stable. Finally, Lhoist was able to leverage a reduction in transportation costs through the use of privately-owned rail cards rather than contracting with a public rail line.

The new Agreement provides language that will allow the City to review and modify model changes in the future. Accordingly, bid #20-21B was solicited by formal advertisement in the Sun Sentinel, publication on the City's web-site via Bids and Tenders, as well as on DemandStar.com. There were three (3) planholders that downloaded the bid, however, only two bids were submitted from Lhoist and Carmeuse Lime and Stone. The bid response submitted by Lhoist provided the lowest pricing for all but one item on the bid. As a result, it is being recommended that the bid from Lhoist be awarded, and an Agreement executed on behalf of the City of Tamarac and on behalf of an additional twenty-three (23) participating governmental agencies Co-op.

The bid response from Carmeuse Lime and Stone Inc. provided the lowest pricing for high calcium granular lime used by the City of Hollywood Wastewater treatment plant. The cost savings for the City of Hollywood by awarding one item to Carmeuse Lime and Stone will be approximately \$500,000 annually, justifying the split award.

The initial term of the Agreement will be for three (3) years, beginning on November 1, 2020, with up to three (3) additional one (1) year renewals that may be exercised based on satisfactory performance.

Section 5 of the Agreement provides that prices may be adjusted on a quarterly basis each October 1st, January 1st, April 1st and July 1st if the vendor is able to provide substantive documentation to support the request for increase. The Agreement utilizes a contract adjustment model providing for pricing adjustments on a quarterly basis subject to verification of actual cost changes for labor, raw materials (lime) production materials (coal) and fuel pricing. As mentioned earlier, the model utilized previously has been modified to account for industry-wide changes; however, it should be noted that the contract is structured in such a manner that we may see reductions in certain quarters, which has been our experience in the past, which often occurs due to reductions caused by de-escalating fuel and raw materials costs. Staff and other agencies in the Co-op feel that our ability to maintain better control of costs has been significantly enhanced through the institution of the current model. The pricing bid by both Lhoist and Carmeuse Lime and Stone reflects an approximate increase of 11% for Lhoist and 4% for Carmeuse.

As in past years, the marketplace for Quicklime in South Florida is still very volatile. While production capacities have increased, and fuel costs for both production and transportation have been generally lower, our quicklime suppliers have been forced to purchase some of their raw materials from further away, which has increased their overall raw materials and transportation costs. The use of the quarterly model for price adjustments has actually resulted in a great deal of price stability for the City and other Co-op Lhoist Lime users, as our current price of \$252.69 per delivered ton is very attractive by comparison to recent current pricing being charged by Lhoist in this area as shown in Chart 1 below for entities that require Lhoist to provide stable annual pricing. The reason for the disparity between our pricing and the pricing charged to other entities is that Lhoist and other suppliers must factor in a higher level of contract risk in order to maintain firm pricing. Additionally, pricing can actually decrease as well for both the material and delivery cost, as demonstrated in Chart 2 shown below.

Chart 1 -- Current Delivered Per Ton Pricing For Surrounding Entities:

Palm Beach County Utilities	\$392.24
Cities of Boynton Beach, Lake Worth Beach & Riviera Beach:	\$309.34 *
City of Naples	\$301.13
City of Tamarac – SE FL Co-op (as of July 1, 2020)	\$252.69
City of Tamarac – SE FL Co-op (effective Nov. 1, 2020)	\$284.80

Chart 2 – City Quicklime Pricing: October 2019 – September 2020

<u>Date</u>	<u>Material Cost/Ton</u>	<u>Trans/Surcharges**</u>	<u>Total Cost/Ton</u>
October 1, 2019:	\$162.71	\$105.11	\$267.82
January 1, 2020:	\$161.49	\$107.55	\$269.04
April 1, 2020:	\$161.21	\$106.83	\$268.04
July 1, 2020:	\$147.26	\$105.43	\$252.69

*The Cities of Boynton Beach, Lake Worth Beach and Riviera Beach have joined the SE Florida Govt. Purchasing Co-op Agreement for the first time with this Agreement. Each of the entities will be paying \$284.80 per ton; and will not renew their existing agreement at \$309.34 per ton which will represent a significant savings as a result.

**Transportation charges are additionally adjusted based on a prescribed fuel surcharge formula for every \$.05 increase or decrease in the price of fuel. Fuel charges have generally been under \$4.00 for each quarter.

Accordingly, it is recommended that an award be made, and agreements executed with Lhoist for the City of Tamarac, and on behalf of twenty-three (23) additional entities in the Co-op; and with Carmeuse Lime & Stone, Inc., for high calcium granular quicklime for the City of Hollywood for a period of three (3) years.

Fiscal Impact:

Based on our estimated use of approximately 1500 tons of quicklime, we anticipate that the cost of lime will likely show see a slight increase of an additional 1%-- 5% based on the fact that the new model represents a one-time increase of 11% and will only be subject to actual market changes during the agreement, which we do not project to significantly increase over the initial three (3) year contract period. Accordingly, we anticipate that our total expenditures for quicklime for FY21 will be approximately \$427,200, considering incremental changes throughout the year. It should be noted, however, that any unanticipated change in fuel, raw material market prices or water usage patterns may significantly impact our cost and quantity assumptions.

The City reserves the right to allow the Contractor to utilize alternative indices for price adjustment justification; however, the Contractor will only be allowed to change these indices at the time of any potential contract renewal, unless the index or indices cease publication, in which case the Contractor will be allowed to make changes to for any discontinued index during the contract period. City reserves the right to select its own legal counsel to conduct any defense in any such proceeding and all costs and fees associated therewith shall be the responsibility of Contractor under the indemnification agreement. Nothing contained herein is intended nor shall it be construed to waive City's rights and immunities under the common law or Florida Statute 768.28 as amended from time to time.
