Restriction on Disclosure and Use of Data

This proposal includes data that shall not be disclosed outside the Government and shall not be duplicated, used, or disclosed — in whole or in part — for any purpose other than to evaluate this proposal. If, however, a contract is awarded to this offeror as a result of — or in connection with — the submission of this data, the Government shall have the right to duplicate, use, or disclose the data to the extent provided in the resulting contract. This restriction does not limit the Government's right to use information contained in this data if it is obtained from another source without restriction. The data subject to this restriction are contained in all pages of this proposal.

Use or disclosure of the data on this page is subject to the restrictions on the title page of this proposal.

AT&T – Proprietary

This document contains confidential, trade secret; commercial or financial information owned by an AT&T Company and is submitted for evaluation purposes only. It is exempt from disclosure under the Freedom of Information Act (5 U.S.C. 552) under Exemption (b) (4), and its disclosure is prohibited under the Trade Secrets Act (18 U.S.C. 1905).

Other Information Services (All other information services belong under Schedule 76)
FPDS Code D399 Other Information Technology Services, Not Elsewhere Classified

Note 1: All non-professional labor categories must be incidental to and used solely to support hardware, software and/or professional services, and cannot be purchased separately.

Note 2: Offerors and Agencies are advised that the Group 70 – Information Technology Schedule is not to be used as a means to procure services which properly fall under the Brooks Act. These services include, but are not limited to, architectural, engineering, mapping, cartographic production, remote sensing, geographic information systems, and related services. FAR 36.6 distinguishes between mapping services of an A/E nature and mapping services which are not connected nor incidental to the traditionally accepted A/E Services.

Note 3: This solicitation is not intended to solicit for the reselling of IT Professional Services, except for the provision of implementation, maintenance, integration, or training services in direct support of a product. Under such circumstances the services must be performance by the publisher or manufacturer or one of their authorized agents.

SPECIAL ITEM NUMBER 132-52 – ELECTRONIC COMMERCE AND SUBSCRIPTION SERVICES

Includes value added network services, e-mail services, Internet access services, electronic subscription services, data transmission services, and emerging electronic commerce technologies.

SPECIAL ITEM NUMBER 132-100 – ANCILLARY SUPPLIES AND/OR SERVICES

Ancillary supplies and/or services are support supplies and services which are not within the scope of any other SIN on this schedule. These supplies and/or services may only be ordered in conjunction with or in support of supplies and/or services purchased under another SIN(s) in this solicitation to provide a solution to a customer requirement. This SIN may be used for orders and blanket purchase agreements that involve work or a project that is solely associated with the supplies and/or services purchased under this schedule. This SIN EXCLUDES purchases that are exclusively for supplies and/or services already available under another schedule and is limited to information technology (IT) products and/or services.

Special Instructions: The work performed under this SIN shall be associated with existing SINs that are part of this schedule. Ancillary supplies and/or services shall not be the primary purpose of the work ordered, but be an integral part of the total solution offered. Ancillary supplies and/or services may only be ordered in conjunction with or in support of supplies and/or services purchased under another SIN in this schedule. Offerors may be required to provide additional information to support a determination that their proposed ancillary supplies and/or services are commercially offered in support of one or more SINs under this schedule.

If the construction, alteration or repair is segregable and exceeds \$2,000, then the requirements of the Davis-Bacon Act apply. In applying the Davis-Bacon Act, ordering activities are required to incorporate wage rate determinations into orders, as applicable.

SPECIAL ITEM NUMBER 132-12 - EQUIPMENT MAINTENANCE

FSC/PSC Class J070 - Maintenance and Repair Service)(Repair Parts/Spare Parts - See FSC Class for basic equipment)

FSC/PSC Class J058 – Maintenance and Repair of Communication Equipment

SPECIAL ITEM NUMBER 132-32 - TERM SOFTWARE LICENSES

Software maintenance as a product includes the publishing of bug/defect fixes via patches and updates/upgrades in function and technology to maintain the operability and usability of the software product. It may also include other no charge support that are included in the purchase price of the product in the commercial marketplace. No charge support includes items such as user blogs, discussion forums, on-line help libraries and FAQs (Frequently Asked Questions), hosted chat rooms, and limited telephone, email and/or web-based general technical support for user's self-diagnostics.

Software maintenance as a product does NOT include the creation, design, implementation, integration, etc. of a software package. These examples are considered software maintenance as a service – which is categorized under a difference SIN (132-34).

FSC CLASS 7030 - INFORMATION TECHNOLOGY SOFTWARE

Large Scale Computers

- Operating System Software

SIN 132-99 - NEW INFORMATION TECHNOLOGY SERVICES AND/OR PRODUCTS

Section I. PC as a Service. This outlines the common service features for Dell Marketing L.P.'s PC as a Service solution, which is comprised of a combination of hardware, software and services (both close-to-the-box and professional) aggregated into a financing solution which provides a single price per seat per month.

Note 1: All non-professional labor categories must be incidental to and used solely to support hardware, software and/or professional services, and cannot be purchased separately.

Note 2: Offerors and Agencies are advised that the Group 70 – Information Technology Schedule is not to be used as a means to procure services which properly fall under the Brooks Act. These services include, but are not limited to, architectural, engineering, mapping, cartographic production, remote sensing, geographic information systems, and related services. FAR 36.6 distinguishes between mapping services of an A/E nature and mapping services which are not connected nor incidental to the traditionally accepted A/E Services.

Note 3: This solicitation is not intended to solicit for the reselling of IT Professional Services, except for the provision or implementation, maintenance, integration, or training services in direct support of a product. Under such circumstances the services must be performed by the publisher, manufacturer or their authorized agent.

New World. New Thinking.

Channel Partners

NetMotion is dedicated to helping channel partners grow market presence, drive new opportunities, and strengthen differentiation in a fast growing, chaotic mobile environment.

Advantages of Partnering with NetMotion:

- Create new sales and service opportunities
- Differentiate your business using our resources and support
- Entry into a fast growing mobile market segment
- Add additional recurring revenue stream
- Increase customer satisfaction and loyalty
- Improve stickiness of existing offerings

Intelligent VPN for continuous, reliable connectivity in mobile environments

NetMotion Wireless develops Enterprise Mobility Management (EMM) software for organizations with mission-critical mobile workforces. The company's products give you the connectivity, visibility, and control needed to solve the many challenges of mobile computing. You will quickly realize how these capabilities translate into increased worker productivity, more informed troubleshooting and management decisions regarding your mobile networks, and an overall successful mobile deployment. Thousands of enterprises around the world are using NetMotion products to keep millions of mobile workers connected to applications.

The NetMotion Mobility® & Locality™ software:

- Enables secure, reliable connections for mobile workers shielding them from the complexities and challenges of mobile environments
- Aids in evaluation, troubleshooting and maintaining mobile deployments over public cellular networks
- Provides centralized control and detailed visibility into network performance, ensuring a successful mobile deployment

Get connected. Stay connected.

Wireless Carrier Partners

NetMotion Wireless maintains a close relationship with all major US and Canadian wireless carriers, including AT&T, Sprint, Verizon Wireless and Telus.

Since our software products are designed to support wireless data deployments, and work seamlessly with cellular and Wi-Fi networks, we work closely with wireless carriers in order to create a mobile solution that meets the needs of our customers.

Learn More

In addition to being a wireless carrier partner, AT&T Wireless is also a customer. For more information on how NetMotion Mobility[®] can benefit your business, download the AT&T case study detailing how their 39,000 field technicians use Mobility to get connected and stay connected. By deploying NetMotion Mobility, AT&T decreased overtime by 54% and expenses by 43%. [Read more...](#)

Who We Are

PageFreezer is a leading provider of website and social media archiving solutions to a wide range of industries including finance, legal, telecom, retail, utilities, government and post-secondary education. PageFreezer is a SaaS (Software-as-a-Service) application that enables organizations and corporations of all sizes to permanently preserve their website and social media content in evidentiary quality and then access those archives and replay them as if they were still live. Uses for the archived data range from compliance with regulators such as the SEC, FINRA and the FDA to litigation preparedness, evidence capture, call center support and competitive intelligence.

Based in Vancouver, British Columbia, PageFreezer Technologies is a privately-held firm that is owned and managed by a successful team of software veterans. The company was founded in 2006 and has been operating in Europe and North America since 2010. With a rapidly expanding customer base and the most comprehensive website and social media archiving solutions available, PageFreezer is the premier provider of archiving services for online content to companies throughout the world.

Automatic Archiving PageFreezer uses crawling technology, similar to that of Google, to take snapshots of your website. Archiving is an automated process, saving you time. Only new webpages and changes to webpages are archived, saving storage space.

Public Records Compliance Government websites, in accordance with the Public Records Law, are considered an official government publication. Information on these sites influences decisions of citizens and businesses. Governments can be held accountable for the information they publish on the web. Tracking changes on the websites with PageFreezer offer governments trusted, non-refutable evidence in case of liability claims.

FINRA, SOX and SEC Compliant In archiving their electronic data, financial companies need to comply with the records management regulations of the Financial Industry Regulatory Authority (FINRA), while public companies need to comply with the records management regulations of the Sarbanes-Oxley (SOX) Act and SEC. PageFreezer is FINRA, SOX and SEC compliant.

Live Replay/Browsing of Archives Log into your PageFreezer dashboard to view a list of all archived websites. Click on an archive to open the website as if it is still live to view how the site looked on a specified date.

Search Powerful search functions allow you to quickly find archived pages. Narrow your search by website, date, keywords and more. Easily dig up that webpage you're looking for.

Legal Evidence Digital archives are worthless in case of legal claims unless evidence of data integrity and authenticity is provided. PageFreezer secures this by placing a digital signature and timestamp on each page.

Digital Signatures A SHA-256 strong digital signature is placed on each page providing evidence of data integrity and authenticity. This signature proves the archived webpages have not been altered over time. This technology adheres to the guidelines described in the FRCP (Federal Rules of Civil Procedure) and the FRE (Federal Rules of Evidence) in the USA and the Canadian Evidence Act in Canada.

Timestamps Each page is time stamped with an ANSI X9.95 compliant Time Stamp Authority securely synchronized with the certified atomic clocks of a Stratum-1 Time Server. This trusted, non-refutable time that cannot be altered without detection provides evidence of the time the page was archived.

Data Export Your data is yours and remains yours. When dealing with a legal claim that requires a physical copy of your files, or when you need a local copy for any other reason, then you can request a data export in XML format of all your archived websites.

World-Class Data Centers PageFreezer employs world-class data centers to store and protect your data over the long term. Unlike typical RAID configurations which can only store data for 3-5 years, our servers are configured for long-term storage of 20+ years thereby enabling us to meet any record retention schedule that is deployed.

No Software Installation • Data Access Through Application Programming Interface (API)
