THIS INTERLOCAL AGREEMENT (DIRECT) (this “Agreement”) is made and entered into as of October 1, 2020, by and between the **CITY OF HALLANDALE BEACH**, a Florida municipal corporation (the “City”) and the **HALLANDALE BEACH COMMUNITY REDEVELOPMENT AGENCY**, a public body corporate and politic (the “HBCRA,”) (the City and HBCRA are sometimes hereinafter referred to individually as a “Party” and collectively as the “Parties”).

R E C I T A L S

1. The HBCRA desires to contract with the City for additional police services to create a drug and crime-free environment and to provide for the safety and protection of the property owners, business owners, residents and patrons of businesses located within the Community Redevelopment Area (“CRA”) all in compliance with the intent of Chapter 163, Part III, Florida Statutes regarding Community Policing Innovations.

2. The HBCRA desires to foster a more positive and collaborative relationship between the police and the community they serve.

3. The City desires to assist in this effort by providing, through the Hallandale Beach Police Department (“HBPD”), Community Policing Innovations through the effective police services as described in the initiatives set forth in Section 1 of this Agreement.

4. The HBCRA and the City recognize the potential outstanding benefits of the enhanced police services provided through the Community Policing Innovations through the effective police services as described in the initiatives set forth in Section 1 of this Agreement for the CRA and the citizens of Hallandale Beach, Florida.

5. This Agreement between the City and the HBCRA will, among other things, provide funding by the HBCRA to the City for the creation of the QSB, Community Education Courses, the SIU, six passenger golf cart, drone program, enhanced police training, police management software and mounting of ALPRs (all as defined in Section 1) in designated CRA locations, and the City has represented to the HBCRA that it needs assistance from the HBCRA.

6. The City and the HBCRA deem it in the best interest of the HBCRA, the City, the CRA and the citizens of Hallandale Beach, Florida to enter into this Agreement.

NOW, THEREFORE, in consideration of the mutual covenants and agreements contained herein, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the City and the HBCRA agree as follows:

Section 1. Recitals; Authority; Initiatives.

1.1 Recitals. The Recitals set forth above are true and correct and are incorporated in this Agreement by reference.

1.2 Authority. This Agreement is entered into by the Parties pursuant to Section 163.01, Florida Statutes, known as the “Florida Interlocal Cooperation Act of 1969,” and Section 163.400, Florida Statutes, entitled “Cooperation by Public Bodies.”

1.3 Initiatives. The City, through the HBPD, will provide Community Policing Innovations through the effective police services as described in following the initiatives:

a. The first initiative is to support a Quadrant Safety Board (“QSB”) representing the quadrants in the HBCRA. The QSB is designed to foster communication between the police and community to specifically discuss safety concerns within the HBCRA.

b. The second initiative is to begin Police Community Educational Courses. These courses are intended to decrease the likelihood of citizen victimization through crime prevention education and low impact self-defense training. Due to the COVID 19 Pandemic, these courses will be postponed until such time they can be held in a safe manner.

c. The third initiative is to mount Automated License Plate Reader Cameras (“ALPRs”) on the major thoroughfares in the City. The ALPRs alert police of criminal/suspicious vehicle(s) and are a useful tool for investigations.

d. The fourth initiative will include the creation of a Strategic Intelligence Unit (“SIU”). The goal of the SIU will be to gather criminal intelligence and data collection to guide police operations. The SIU will utilize a combination of current police positions and newly HBCRA funded positions. The Unit will consist of one (1) police sergeant, eight (8) police officers, and one (1) crime analyst.

e. The fifth initiative will to train staff and maintain the HBPD airHBCRAft systems (also known as drones). The use of drones has various benefits including mitigating risks, expanding the capabilities of staffing, and providing critical real-time information to key personnel when responding to critical incidents.

f. The sixth initiative will be purchase of a six-passenger electric powered police golf cart with police decals and emergency lights. The HBPD provides security for a multitude of events within the HBCRA throughout the year. The use of a golf cart allows police officers to safely and more easily move through crowds of people and/or event grounds where otherwise a standard police vehicle could not pass.

g. The seventh initiative is to develop training curriculums designed for police officers to teach Anti-Racism, enhance communication, identify implicit bias, strengthen community relations and enhance police officer's incident response skillset.

h. The eighth initiative is the purchase of case management software such as IA Pro which assists with monitoring and reporting of complaints and other incidents that may indicate patterns of employee misconduct and behavioral shortfalls.

Section 2. Intent. The intent of this Agreement is to provide the terms and conditions by which the HBPD will provide Community Policing Innovations through the enhanced police services outlined in Section 1.

2.1 The HBCRA agrees to fund the creation of a Quadrant Safety Board (QSB) which will be established to represent the residents and business owners within the CRA.

2.2 The QSB will be composed of nine residents and/or business owners nominated by the HBCRA Board. Members of the board will be representative of all four quadrants in the CRA.

2.3 The QSB will meet monthly to discuss issues and concerns of safety. Uniform Police Officers and Sergeants will attend each meeting, eventually appointing a liaison.

2.4 The implementation of the QSB is an innovative community policing approach allowing appointed stakeholders who reside and/or work in each CRA quadrant to have a voice in the development of a safety plan which will benefit their community, as well as improve relationships between law enforcement and city staff.

2.5 The QSB and Police Staff will develop a public safety plan which will be presented for the funding support and help prioritize safety projects within the City.

2.6 The HBCRA agrees to fund the administration of an educational program, hosted by the HBPD, to include self-defense, for residents at community centers and/or parks in the CRA. The funds will reimburse police for training material, equipment and cost of overtime.

2.7 Trained police officers will instruct community-based classes designed to empower residents to take control of their safety. The classes will instruct low impact self-defense techniques allowing residents to physically protect themselves from attackers. The courses will also provide residents insight on how to avoid becoming victims of other types of crimes such as burglaries, financial or cybercrime.

2.8 The 2-hour long community educational classes will be held quarterly depending on attendance.

2.9 These self-defense classes will allow police to expand their public education efforts by preventing residents from becoming victimized.

2.10 The HBCRA agrees to continue to fund the HBPD enhancement to the Patrol Operation services with the purchase and maintenance of two (2) unmanned aircraft systems (also known as drones). The use of drones has various benefits including mitigating risks, expanding the capabilities of staffing, and providing critical real-time information to key personnel when responding to critical incidents.

2.11 The drones will be deployed around the clock and will be utilized during incidents of search and rescue operations, critical incidents, crowd monitoring during large events, fleeing suspect pursuits, recognizance, and natural disaster incident responses.

2.12 The drone program will support police officers to obtain their Federal Aviation Administration (FAA) drone licenses as well as ongoing training to become proficient with the flying and maintenance of the aircraft system and the legal parameters of use.

2.13 The HBCRA agrees to fund the installation of Automatic License Plate Reader ("ALPR") cameras at the major entry and exits points into the City of Hallandale Beach. This crime fighting tool would have an immediate effect on policing applications.

2.14 The HBCRA agrees to fund the services of an information technology consultant/manager to engineer and design the ALPR and CCTV network and administer the installation of all the hardware for the project.

2.15 The HBCRA agrees to purchase a six-passenger electric powered police golf cart with decals and emergency lights. The HBPD provides security for a multitude of events within the CRA throughout the year. The use of a golf cart allows police officers to safely and more easily move through crowds of people or on event grounds where otherwise a standard police vehicle could not pass.

2.16 The HBCRA agrees to fund the services of No-Nonsense Training Solutions, Inc., an outside firm, to provide "Policing in the Aftermath: Interpersonal Policing & Effective Community Engagement" training. This program is designed to help police officers identify their personal bias, the organization's cultural biases and highlight the differences within the agency. The program will also discuss anti-racism initiatives. Participants will understand the impact of bias and racism on the department's goals as well as the impact on the communities they serve.

2.17 The HBCRA agrees to fund the services of the Valente Brothers firm to provide highly specialized defensive tactics program for law enforcement professionals. The program emphasizes how to effectively manage all public encounters to a safe outcome for all parties concerned.

2.18 The goal of this self-defense program is to focus on stress dissolution, health awareness, and adaptation principles through a shift of organizational behavior using three diverse concepts: 1) mind and body coordination 2) living life philosophy 3) maintaining positive health habits. The results will aid police personnel to achieve a calm demeanor during critical incidents, increased problem solving abilities and tools to make more accurate assessments of situations.

2.19 The HBCRA agrees to fund the services of the SALT Mine Success and Leadership Training Institute LLC, an outside firm, to provide training to address how to improve communication within the agency and with stakeholders. The training addresses improved communication through cultural, style and ethical issues within the leadership and the organization.

2.20 The HBCRA agrees to purchase police case management software, such as IAPro and Blue Team, which assists with monitoring and reporting on complaints and other incidents that may indicate patterns of employee misconduct and behavioral shortfalls. Further benefits of IAPro and Blue Team is its ability to alert in advance of issues that could, if left unchecked, put the community and the reputation of the agency at risk.

2.21 The Police Department will continue to develop a SIU. The goal of SIU will be to gather criminal intelligence and data collection to guide police operations.

2.22 The SIU will optimize crime software which utilizes a combination of historical crime data and criminal intelligence to forecast future incidents of crime creating a policing strategy geared toward crime prevention and proactive policing.

2.23 Based on these forecasts, patrol units will obtain daily crime briefings with an up to date statistical analysis of criminal activity in the City to increase patrols at particular locations on specific dates and times to deter crime before it happens.

2.24 The SIU will comprise of current police positions and newly HBCRA funded positions. Military activation, community, city, or emergency police needs shall impact the numbers of officers assigned and duties performed.

2.25 The SIU will consist of one (1) police sergeant, eight (8) police officers, and one (1) civilian crime analyst who will act as the center for gathering and processing crime data.

These officers will be trained in intelligence gathering and dissemination. The officers will provide daily briefings to include crime scene intelligence as observed directly in the field.

2.28 Further, the officers will search for patterns that might otherwise be missed in the official reports. The officers will also foster communication throughout the department by providing their individual squads information gathered by the SIU.

2.29 The HBCRA agrees to fund and assign full time a total of one (1) police sergeant and four (4) police officers to the SIU. These officers will have the ability to be more dedicated to the often time consuming and intensive investigations that road patrol officers do not have the time or resources to address.

2.30 This portion of the SIU will concentrate their efforts on addressing specific intelligence and data driven criminal activity through the development of criminal informants, surveillance and long-term investigations.

2.31 SIU will have monthly meetings to share data and coordinate action plans tailored to proactively target crime patterns and prevent future incidents of crime.

2.32 Further, these officers will conduct preventative enforcement such as parole checks, warrant apprehensions, suspect surveillance and searches.

2.33 The assigned SIU officers duties and activities shall include, but not be limited to the following:
