

INTERLOCAL AGREEMENT

Between

BROWARD COUNTY

and

CITY OF HALLANDALE BEACH

for

COST SHARE SUPPORT OF A WATER CONSERVATION INCENTIVES PROGRAM

This Interlocal Agreement (the "Agreement") is made and entered into by and between Broward County, a political subdivision of the State of Florida ("County"), and the City of Hallandale Beach, its successors and assigns, hereinafter referred to as "Partner," collectively the "Parties." Collectively "County" and/or "Partner" will be referred to as the "Party" or "Parties."

RECITALS

- A. County-wide consumptive use water demands are projected to increase by as much as 45 million gallons per day by the year 2040 based on South Florida Water Management District's Lower East Coast Water Supply Plan projections for public water supply raw water demands;
- B. The county-wide Integrated Water Resource Plan seeks to optimize the beneficial uses of local water resources by making our water resources go further;
- C. In May 2008, the Broward Water Resources Task Force (Task Force) was created through resolutions of the Broward County Board of County Commissioners, South Florida Water Management District, and Broward League of Cities to identify and evaluate potential regional and subregional water supply projects and water conservation opportunities;
- D. The Task Force recognized that water conservation and incentive programs offer the lowest cost means of generating the additional water needed to meet the region's projected water demands;
- E. Since its formation in 2011, the Broward Water Partnership (aka Conservation Pays) and the regional Water Conservation Incentives Program have experienced many successes, and therefore the Parties now desire to renew this Agreement in furtherance of shared water conservation goals, regional water conservation strategies, and conservation activities reflected in consumptive use permit requirements.

Now, therefore, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

This Agreement may also be terminated for convenience by the Board. Termination for convenience by the Board shall be effective on the termination date stated in written notice provided by County, which termination date shall be not less than thirty (30) days after the date of such written notice. Unless otherwise stated in this Agreement, if this Agreement was approved by Board action, termination for cause by County must be by action of the Board or the County Administrator; in all other instances termination for cause may be effected by the County Administrator, the County representative expressly authorized under this Agreement, or the County representative (including any successor) who executed the Agreement on behalf of County. - 5.2. Termination of this Agreement for cause shall include, but not be limited to, negligent, or intentional acts, repeated submission for payment of false or incorrect bills or invoices, failure to suitably perform the work, failure to continuously perform the work in a manner calculated to meet or accomplish the objectives as set forth in this Agreement, or multiple breaches of this Agreement which has a material adverse effect on the efficient administration of the Project notwithstanding whether any such breach was previously waived or cured.
- 5.3. - 5.4. In the event this Agreement is terminated for convenience, County shall be paid for any services properly performed to the date the Agreement is terminated; however, upon being notified of Partner's election to terminate, County shall refrain from performing further services or incurring additional expenses under the terms of this Agreement. Partner acknowledges that it has received good, valuable, and sufficient consideration for County's right to terminate this Agreement for convenience in the form of County's obligation to provide advance notice to Partner of such termination in accordance with Section.

ARTICLE 6. GOVERNMENTAL IMMUNITY AND LIABILITY PROTECTION

- 6.1 Nothing herein is intended to serve as a waiver of sovereign immunity by any Party nor shall any term included herein be construed as consent to be sued by third Parties in any matter arising out of this Agreement or any other contract. County and Partner, to the extent that they are state agencies or political subdivisions as defined in Chapter 768.28, Florida Statutes, agree to be fully responsible for the acts and omissions of its agents or employees to the extent permitted by law.

Unless expressly stated otherwise in this Agreement or otherwise set forth in an applicable provision of the Broward County Procurement Code, Broward County Code of Ordinances, or Broward County Administrative Code, the Contract Administrator may exercise any ministerial authority in connection with the day-to-day management of this Agreement. The Contract

Administrator may approve in writing minor modifications to the Scope of Services provided that such modifications do not increase the total cost to County or waive any rights of County.

7.2 Assignment. Neither this Agreement nor any interest herein shall be assigned, transferred, or encumbered by either Party. If Partner violates this provision, County shall have the right to immediately terminate this Agreement.

7.3 Public Records. To the extent either Party is acting on behalf of the other as stated in Section 119.0701, Florida Statutes, each Party shall:

7.3.1. Keep and maintain public records required to perform the Services;

Upon completion or termination of this Agreement, each Party shall keep and maintain all public records related to this Agreement, except as required to comply with paragraph 6.2, and shall destroy any duplicate public records that are exempt or confidential and exempt. All records stored electronically must be provided to County upon request in a format that is compatible with the information technology systems of County.

Any material a Party contends constitutes or contains trade secrets or is otherwise exempt from production under Florida public records laws (including Chapter 119, Florida Statutes) ("Trade Secret Materials") must be separately submitted and conspicuously labeled "EXEMPT FROM PUBLIC RECORD PRODUCTION – TRADE SECRET." In addition, the Party providing the material must, simultaneous with the submission of any Trade Secret Materials, provide a sworn affidavit from a person with personal knowledge attesting that the Trade Secret Materials constitute trade secrets under Section 812.081, Florida Statutes, and stating the factual basis for same. If a third party submits a request to either Party for records designated as Trade Secret Materials, that Party shall refrain from disclosing the Trade Secret Materials, unless otherwise ordered by a court of competent jurisdiction or authorized in writing by the Party claiming the exemption. Neither Party waives any defense of sovereign immunity or increases the limits of its liability by entering into this Agreement, and each Party shall be liable for its own negligence and does not assume any liability for the other Party's negligence

relating to the nondisclosure of any Trade Secret Materials in response to a records request by a third party.

Broward Community
Water Conservation and Incentives Program

1. INTRODUCTION

Water plays a critical role in South Florida and will continue to directly influence the future sustainability of Broward County's economy, environment, and quality of life. Future water demands will continue to be influenced by population growth, rates of per capita consumption, and variable climatologic conditions.

In 2007, the Regional Water Availability (RWA) Rule was adopted by the South Florida Water Management District to ensure the preservation of regional water resources in support of Everglades restoration. The RWA Rule limits future withdrawals from the Biscayne Aquifer, currently our primary source of drinking water, thereby requiring the development of alternative water supplies to meet growing urban demands for water. Although a number of alternative water supply projects are under development and regional strategies are being explored, water conservation has been repeatedly identified as a strategy warranting aggressive implementation.

In May 2008, the Broward Water Resources Task Force ("Task Force") was created to identify and evaluate potential regional and sub-regional water supply projects and water conservation opportunities. The Task Force recognized that water conservation offers the lowest cost means of generating the additional water needed to meet the region's projected water demands. In June 2010, the Task Force completed its report and included several recommendations for immediate implementation pertaining to regional water conservation efforts. A key recommendation advanced by the Task Force and supported by resolution of the Broward County Board of County Commissioners and the Broward League of Cities is the establishment of a county-wide water conservation and incentives program with the purpose of delivering unified water conservation messaging, information, and services to benefit all Broward county residents and water suppliers.

In response, in 2011, the Broward Water Partnership was formed, with water utilities committing resources to fund a regional rebate and incentives program as well as the centralized administration of the program by Broward County's Environmental Planning and Community Resilience Division, and Broward County committing funds for consultant services to aid in program branding, marketing, outreach and implementation. This program was subsequently branded Conservation Pays.

The overall objectives of the Conservation Pays Program (the "Program") are to encourage residents and businesses in Broward County to adopt an enduring water conservation ethic that supports long-term water resource sustainability and to achieve

permanent and measurable water savings through replacement of low efficiency plumbing fixtures with high efficiency models.

There are two principal components to the Program:

- Implementation of an aggressive media campaign to promote the overall need for water conservation, provide residents and businesses with information on ways to reduce their water consumption, and promote the availability of program resources.
- Provision of incentives for retrofitting existing fixtures with new, high efficiency plumbing fixtures through offers of free water-saving fixtures and rebates. Incentives and rebates will be provided for such retrofitting to include high efficiency toilets, pre-rinse spray valves, faucets, aerators, and showerheads or other mutually agreed upon combination of water-saving fixtures of equal value.

2. PROGRAM DESCRIPTION

The Conservation Pays Program is a coordinated county-wide program, with uniform branding that distinguishes this collaborative Partnership. Year-round messaging promotes water conservation and is heightened during dry months and periods of water shortage. Promotion and coordination of rebates and incentives is coordinated by the County, with an annual goal of distributing 2,000 toilet rebates, along with production of promotional materials, articles, a recognition program, and community outreach.

The proposed scope of work builds upon achievements already realized through implementation of the Conservation Pays program during its initial five-year period. The scope of work in Section 3, below, details the program elements, obligations, and commitments of the both Parties (County and Partners) in the delivery of the water conservation and incentives program within Partner jurisdictions in Broward County. This scope of work covers five years of full program implementation.

The County proposes to provide these services to achieve water conservation, cost savings, and greater environmental stewardship within residences and businesses throughout the County. This effort consists of both a technical approach, designed to replace water fixtures with higher efficiency models and reduce demand throughout residences and business operations, thereby resulting in documented water and cost savings, and supporting energy conservation; and, an education and outreach approach, aimed at championing the overall need to conserve water. The overall effort will be coordinated by the County, while individual Partner participation will be required for complete program implementation.

3. SCOPE OF WORK

The Scope of Work in support of the Partnership Agreement is undertaken through the following series of tasks.

COUNTY RESPONSIBILITIES:

Task 1 Administration of the Program. The County will provide overall administration of the Agreement, including financial and annual reporting.

The County will coordinate at least one meeting annually with Partners to present annual Program achievements, review administrative or logistical Program issues, and consider new Program promotions and opportunities for improvement.

The County will provide reports to Partners as requested on rebate expenditures, device deliveries, and water savings.

An Annual Report will outline the performance of the program and the meeting of goals and objectives. It will include a comparison of planned vs. implemented measures, communications tools, marketing efforts (including media buys), an analysis of marketing efforts relative to rebate activities, a report on leveraged funds, a summary of Program awards, identification of Program needs, and opportunities, and recommendations going forward. The report will also address any unanticipated delays and issues that necessitate modification of the Program. The County shall provide the Annual Report within one month following the completion of the County's fiscal year.

Task 2 Procurement and management of professional services to assist with Program development and implementation. The County will procure consulting services to assist in the overall development and implementation of an annual media and outreach campaign to get the water conservation message out, promote the Program, and connect conservation needs to climate change pressures on our water resources. For cost-effectiveness, the campaign will be designed to integrate as much as possible with existing regional outreach initiatives and media sources. The consultant, under direction of the County, will work with Partners to complete the following tasks, including, but not limited to: develop Program branding, create a Program website, develop Public Service Announcements ("PSAs") for broadcast media, prepare newsprint advertisements, arrange media buys, develop promotional articles, produce PSAs for viewing on public access channels and the County's video-on-demand service, design print materials, and develop promotional concepts.

Task 3 Manage and promote media campaign for water conservation outreach and Program marketing. The County will develop and promote an annual media

campaign designed to impart water conservation messages to residents (brochures, website, etc.); identify opportunities to distribute water-saving information and Program promotional materials to communities, businesses, schools and other venues of interest; and develop and deliver educational materials on the need to conserve water and ways to save water to residents through various media. Residents, employees, businesses, homeowner associations and other organizations that include utility customers are the targeted audiences. Categories of media to be considered in the promotion of the Program include pieces for written publications (newspapers, trade publications, newsletters, brochures), broadcast media (television, radio, automated phone lines), social media, and mobile device compatible websites. Promotion of the water conservation and incentives initiative will also occur through interaction with consumer groups, the plumbing industry, and fixture vendors. Opportunities to highlight results and publicize successes will be identified by the County.

Task 4 **Communications coordination.** The County will work with Partners to ensure linking of resources and communications among the network of Partners. A database will be created that identifies Partners, Program services, and educational resources. Program materials (brochures, fliers, posters) will be provided in electronic form for reproduction by Partners. A detailed list of preferred educational resources will be generated and posted on the main Program website (to be hosted by County) with all information to be coordinated and cross-posted.

Task 5 **Rebate and incentives program.** The County will coordinate with device vendors to promote the program and eligible devices; manage and process rebates; coordinate the purchase of conservation devices for exchange and giveaway; coordinate with Partners to identify appropriate points of distribution; promote both residential and commercial opportunities; provide for full accounting/tracking; and, provide additional outreach/promotion where demand may be less than availability.

The County will work with residents to guide them through the incentives process; work with regional vendors to ensure the availability of the desired retrofit fixtures and establish agreements for bulk purchasing; establish working relationships with the plumbing industry and fixture vendors; receive and evaluate resident applications for eligibility for replacement and rebates; manage the acquisition and distribution of fixtures to be provided to residents free of charge; manage the collection and disposal of replaced fixtures; manage the preparation and issuance of rebate checks; collect and analyze resident survey data; and evaluate the success of the incentives initiative.

Task 6 **Development of an awards/recognition program.** The County will coordinate with Partners to develop an awards/recognition program that quantifies and

promotes water savings achieved in homes and businesses where new water conservation devices are installed.

- Task 7** **Leverage funds and resources.** The County will seek to leverage dollars and resources by pursuing additional funds and support from local, state, and national sources, including, but not limited to SFWMD's Local Cooperative Funding Program, Water Sense Partnership (EPA), and local groups. In addition, the County will solicit support from sponsors through the County's Advantage Marketing program.

PARTNER(S) RESPONSIBILITIES

- Task 8** **Participate in coordination meetings.** The Partner will participate in coordination meetings and provide timely review and feedback on any Program products or deliverables. The Partner will identify a designated point of Partner contact. The Partner will assist in refining Program elements and expenditure priorities, as needed; develop controls and measures of success for the Program; and, provide final oversight of Program operations within the Partner's jurisdiction.
- Task 9** **Promotion.** The Partner will work with the County to identify points of distribution and promotional outlets available to Partner to promote the Program and services within the Partner's jurisdiction and will actively coordinate with County on program promotions utilizing municipal media outlets and communications.

4. PAYMENT AND DELIVERABLES SCHEDULE

Payments for services provided by the County will be provided by the Partner according to the Exhibit B, Payment Schedule. Participating entities will not front the cost of individual rebates and/or devices but will be invoiced by the County for actual rebates and/or devices issued within their service areas within a given year.

This Agreement includes a 5-year term for Program delivery.
