SHORT TITLE:

A RESOLUTION OF THE MAYOR AND CITY COMMISSION OF THE CITY OF HALLANDALE BEACH, FLORIDA, AUTHORIZING USE OF CONTINUING SERVICE AGREEMENT TO RETAIN THE SERVICES OF AECOM TECHNICAL SERVICES, INC. TO DESIGN THE 18 INCH FORCE MAIN ALONG LAYNE BOULEVARD PROJECT IN AN AMOUNT NOT-TO-EXCEED TWO HUNDRED EIGHTY-ONE THOUSAND, THREE HUNDRED TWENTY-FIVE DOLLARS AND TWO CENTS (\$281,325.02); AND PROVIDING AN EFFECTIVE DATE.

STAFF SUMMARY:

Summary:

This agenda item seeks City Commission approval to retain the services of AECOM Technical Services, Inc. to design the 18-inch Force Main along Layne Blvd, in accordance with RFP #2018-2019-012 – Continuing Professional Architectural and Engineering Services, for an amount not-to-exceed \$281,325.02. The above listed consultant will be providing services based on the Civil Engineering Services discipline. The preliminary opinion of probable cost for this project is \$1,836,168.92 (Exhibit 2).

Background:

On August 5, 2020, the City Commission approved Resolution No. 2020-054 authorizing continuing service agreements to be awarded in accordance with the Consultant Competitive Negotiation Act (CCNA) (Exhibit 3).

The Public Works team continues to reassess the City's current infrastructure. Based findings during past and recent emergency responses to infrastructure failures, we believe there is a need to immediately initiate as many projects for design as we can to engage in an effective rehabilitation strategy for the City.

Current Situation

The design of the 18-inch Force Main along Layne Blvd was identified in the Wastewater Masterplan. The design will include approximately 2,800 linear feet of 18-inch force main (FM) either by horizontal directional drill (HDD) or open cut or a combination of both from Pump Station No. 1 to Egret Drive to Layne Blvd., and crossing Hallandale Beach Blvd., to connect into the existing 14-inch FM (16-inch FM) on the north side.

AECOM Technical Services, Inc. has submitted the attached cost proposal to perform the design for the work described above for an amount not-to-exceed \$281,325.02 (Exhibit 2).

Why Action is Necessary:

Pursuant to Chapter 23, Section 23-4, Competitive Bidding Required, all purchases of and contracts for equipment, supplies and contractual services, when the estimated cost shall exceed \$50,000.00 shall be based on competitive bids. Furthermore, pursuant to Chapter 23, Section 23-6, Award of Contract, the City Manager, shall have the authority to recommend to the City Commission award of contracts. Chapter 23, Section 23-8 (7) Continuing Services Agreements. Individual purchases for professional services not exceeding \$75,000 made pursuant to continuing services agreements resulting from a publicly solicited Request for Proposals may be approved by the City Manager.

Cost Benefit:

Initiating the design of multiple projects now will allow for a more effective use of bond proceeds for construction upon their disbursement. Additionally, many grant opportunities require an applying municipality to have “shovel ready” projects for funding consideration. The city has missed out on previous opportunities to apply for grants because of not having projects at this stage of readiness. The Public Works team believes that changing this dynamic, applying for and potentially receiving grant funds, will expedite our ability to rehabilitate our infrastructure with the additional funding.

PROPOSED ACTION:

City Commission to approve the attached resolution authorizing to retain the services AECOM Technical Services, Inc. to design 18-inch Force Main along Layne Blvd, in accordance with RFP #2018-2019-012 – Continuing Professional Architectural and Engineering Services, for an amount not-to-exceed \$281,325.02; and authorizing the City Manager to execute the awarded contract.

ATTACHMENT(S):

- Exhibit 1 – Resolution
- Exhibit 2 – Scope of Services Proposal and Preliminary Opinion of Probable Cost
- Exhibit 3 – Resolution 2020-054 -CCNA
