The climate action plan is on the consent agenda. I ask that it be pulled for discussion. I support the plan. However a new IPCC report has surfaced. I've addressed the commission in the past stating that the 2050 carbon zero time line needs to be moved up. The new report confirms my findings that immediate and drastic action is needed if we are to stop cataclysmic repercussions in the environment. This plan is a great start. The City should implement the plan as timely as possible while continuing to explore new ways to ease our climate and stop sea rise and possibly a mass extinction event. The City should lobby the state and federal government to allow for energy independence. We should enter a phase of de-growth and expand green spaces. All roofs should be

productive either producing solar electricity or turned into a green space. Has the planet gets hotter new ways of cooling our buildings should be explored. All vehicles need to be powered by sources other than fossil fuels. The choices made by this dais will decide rather or not our children and their children have a habitable environment to live in. Only history will tell if the decisions you make today are the right ones. Unfortunately this will come at a great expense. I understand giving up short term profits is a hard decision. However, if you look at giving up these profits by halting development has an investment in the future you will find prudent. I understand these are drastic and rapid changes. Since we are relying on the IPCC we should follow their advice. While this climate action plan does not call for rapid and drastic action it is a plan and pathway to positive change. Please vote in favor of the plan.

Agenda Item: eComments for I. 21-267 A RESOLUTION OF THE MAYOR AND CITY COMMISSION OF THE CITY OF HALLANDALE BEACH, FLORIDA, AUTHORIZING ADOPTION OF 50BY30: HALLANDALE BEACH'S CLIMATE ACTION PLAN; AND PROVIDING AN EFFECTIVE DATE. (STAFF: CITY MANAGER)

Dear Madam Mayor, Honorable Vice Mayor and esteemed Commissioners, My name is Faith Fehr and I reside at 496 Holiday Drive, Hallandale Beach Florida in the Golden Isle Community. I would like to take this moment to express support for the adoption of the much needed and comprehensive 50BY30 Climate Action Plan. It is a proud moment to see that our proactive city has committed to being an active part of a solution plan in terms of taking the necessary steps to put plans into action that can reduce our emissions while also embracing sustainability with hopes of bringing climate change impact affecting our community to the forefront. Thank you City Manager, our Green Initiatives Coordinator, Alyssa Jones Woods and all the City staff for helping to implement this much needed 50by30 Climate Action Plan for the betterment of our City and planet.
