Procurement Overview

Data Point	Jan-Dec 16	Jan-Dec 17
Total Grainger Spend	$1,176,559	$704,345
Top 5 Category Spend	$735,000	$452,766
Green Spend	$96,829	$71,399
Unique Items Purchased	2,952	2,413
Items Repeated from Prior Year	515	490
Green Items Purchased	129	101
Total Number of Orders	1,692	1,462

'Green Spend' and 'Green Items Purchased' are based upon purchases of Grainger identified green products.

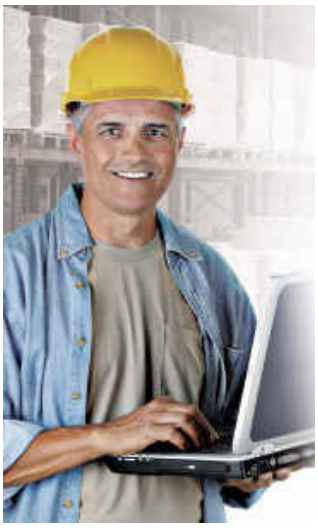
Training and Assessments

Grainger's network of health and safety service providers is committed to providing you with quality, cost-effective on-site and online services. Consisting of a highly trained network of Certified Industrial Hygienists (CIH) and Certified Safety Professionals (CSP), as well as other safety and health professionals—Grainger possesses the expertise and resources to provide training, on-site testing and auditing, and web-based tools designed to aid in your occupational safety and health programs on a national scale.

FALL PROTECTION — FROM HEIGHTS	Value Add
Fall Protection Assessment* A plant/site survey is conducted to identify potential fall protection hazards as well as suggest products or programs to minimize risk	√
Fall Protection Training (Basic) Specific courses designed to train for safety at heights, equipment inspection, rescue planning and tower climbing. Customized training	√



FALL PROTECTION — FROM HEIGHTS	Value Add
courses are also available. Training can also be done using a mobile demonstration vehicle which demonstrates arresting forces workers would experience during a fall.	
SAFETY COMMUNICATION	**Value Add**
Safety Paint Assessment Conducts an on-site survey to determine the condition and location of safety markings and recommend the proper safety coatings.	√
HAND PROTECTION	**Value Add**
Hand Protection & Glove Program Assessment Evaluates your glove program to determine proper selection and use, and identify cost savings. Samples are provided, allowing users to ensure proper fit and application.	√
EXTENDED STANDING/SITTING	**Value Add**
Ergonomic Matting Assessment Evaluates your facility to recommend anti-fatigue matting to help reduce back and lower leg fatigue for employees who stand while working. Identifies the proper mat for use in areas with oils or chemicals and provides 12" samples to stand on or test against chemicals.	√
FALL PREVENTION — FROM SLIPS & TRIPS	**Value Add**
Slips, Trips & Falls Assessment Provides a pedestrian safety site assessment that takes in customer facility observations and gives back recommended products and solutions to help your facility become safer for employees and guests	√
Floor Coating & Anti-Slip Assessment An evaluation based on application, hazard concerns and safety color-coded paint requirements.	√
LADDERS & SCAFFOLDING SAFETY	**Value Add**
Climbing Pro Ladder Safety Kit Includes training literature and video to help provide training on safe and proper ladder use, how to select the correct ladders for the job and ladder inspection. Includes a quiz to reinforce learning.	√
FALL PREVENTION — FROM FLOOR AND WALL OPENINGS	**Value Add**
Flexiguard™ Engineered Service Custom engineered Flexiguard™ systems create unique fall protection and access solutions that meet the requirements of your specific application. Also includes on-site assembly and user training services.	√
HEARING PROTECTION	**Value Add**
Hearing Protection & Conservation Training Designed to assist your business or institution in becoming compliant with OSHA standard 29 CFR 1910.95. Includes instruction on the importance of proper use of hearing protection devices.	√
ELECTRICAL SAFETY	**Value Add**
Arc Flash Awareness Seminar Designed to bring awareness to the NFPA 70E standard. Additional topics reviewed are methods of assessment, PPE equipment, proper electrical tools, test instruments and labeling of hazards.	√

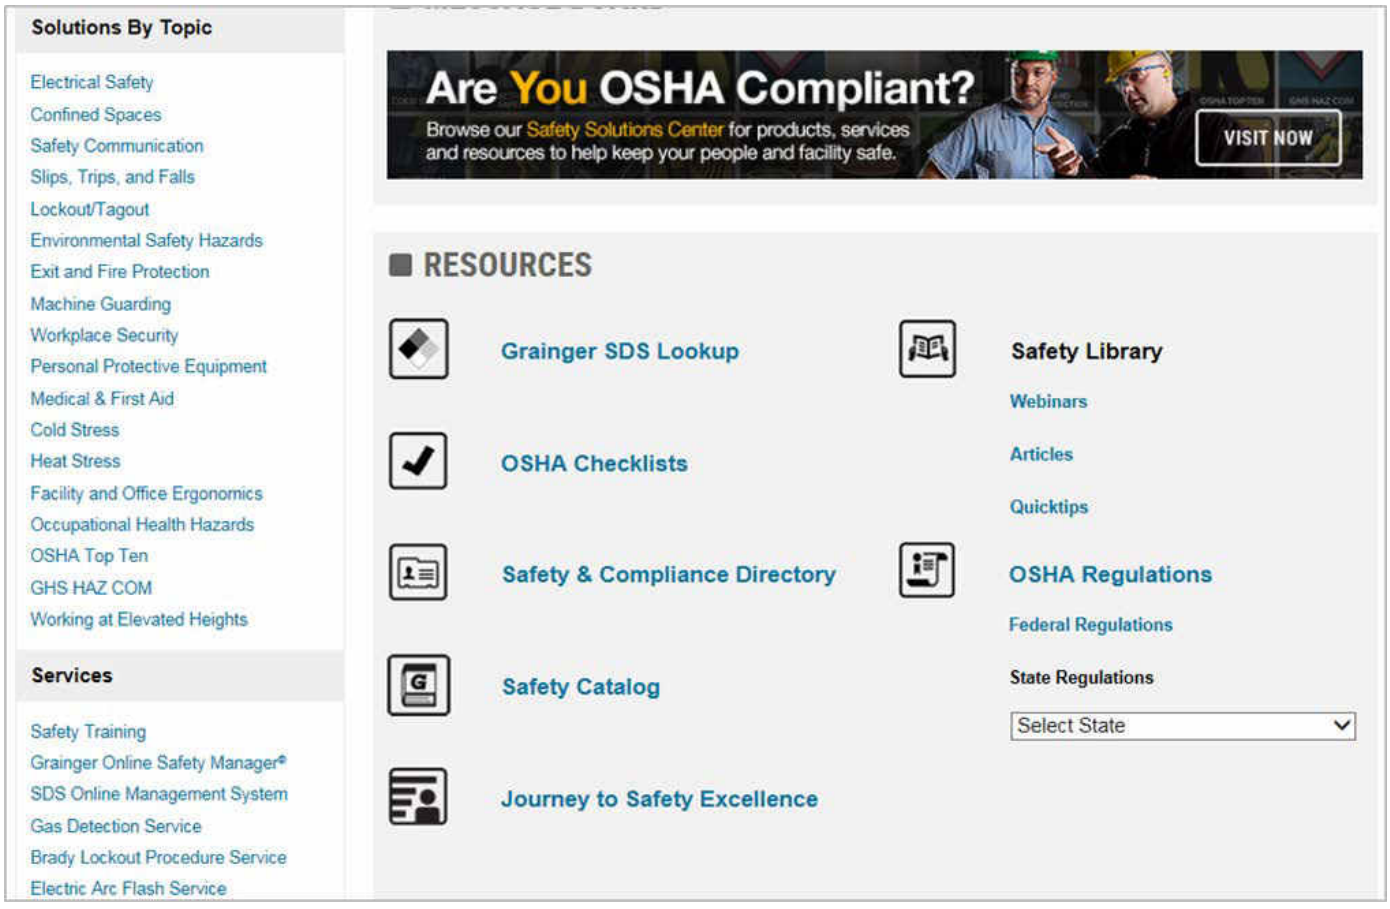
Safety In-Field Specialist

Grainger's safety professionals bring education, experience and expertise to help you address a wide range of questions and issues, save time and improve your safety program. **Our people deliver support and expertise to you and your field locations, working with you to understand your goals and align best-in-class solutions that fit your needs**. We have the depth and structure to help deploy, support and track your enterprise-wide initiatives. Our teams' accreditations include:

- Certified Safety Professionals (CSP – as conferred by the Board of Certified Safety Professionals)
- Qualified Safety Sales Professionals (QSSP – as conferred by the International Safety Equipment Association (ISEA))
- OSHA-30 hour and OSHA-10 hour trained sales professionals
- Numerous suppliers/manufacturers' reps training
- HACCP (Hazard Analysis & Critical Control Points) planning and program development

Support to customers from In-Field Safety Specialist Resources*:*

- Grainger's OSHA-30 hour / QSSP certified field resources are strategically positioned locally across the country. Our growing team of Safety Specialists brings practical safety knowledge to (insert customer name) facilities and locations.
- This field based safety team, provides expertise solving safety business issue challenges, on-site safety assessments, cost-savings proposals, and program standardization strategies.
- Your assigned Safety Specialist will also align the right supplier representatives and additional safety technical resources to meet your facilities selection of appropriate product use and subsequent training.
- Grainger has over 600 Safety Suppliers' whose representative resources are dedicated to Grainger's customers in order to help bring



additional technical, service, and resources to help you with your Safety programs.

- In the field, on the phone or online, Grainger's tested team of safety specialists can help you identify, control and prevent workplace safety and health hazards.
  Email them at safetysupport@grainger.com

Safety Online Solution Center

Organizations have told us they think about and manage their safety programs in two main categories, how they keep their people safe and healthy, and how they operate safer facilities. We've organized the Grainger safety solutions based on these two themes. Grainger developed our Safety Solution Center for invaluable online resources which are available to our customers 24/7. Our online safety center is brimming with information and resources including the latest safety news, trends and regulatory issues. All are free of charge to help protect your employees and site visitors. Get access to:

- Quick Tips technical resources
- Additional industry articles
- SDS sheets
- OSHA checklists
- Webinars.

A screen shot of Grainger's online Safety Solutions Center presents some of the resources available to customers 24/7 to help with their safety programs.

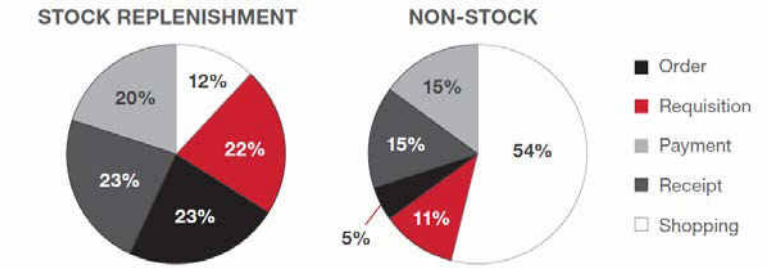
Consulting Services

Grainger Consulting Services (GCS) engages with customers to evaluate their MRO Supply Chain. This evaluation employs a strategic framework of identified cost drivers to benchmark and provide ideal and cost effective solutions. This strategic framework of cost drivers focuses on:

Using proven methodologies, Grainger's Consulting Services evaluate identified cost drivers to assist customers in reducing operational costs

- **Process:** Driving costs out of the processes can help you gain a competitive advantage. GCS helps redesign purchasing and inventory management processes to reduce complexity and cycle time while helping to improve service levels. We offer Grainger solutions that can help streamline the purchasing process and automate the inventory replenishment process to enhance productivity.

- **Inventory:** Inventory can be a critical, expensive component of a company's facilities maintenance operation. GCS provides expertise within inventory management to help optimize inventory levels. We work with resources to understand inventory demand and supply requirements, identify obsolete stock, recommend proper on-hand inventory levels and set effective reorder points for MRO items.



- **Supplier / Product:** Supplier/product management strategies can greatly impact the ability to drive cost savings and product standardization. GCS helps segment, classify and analyze supplier/product usage to identify opportunities for greater leverage and incremental value. Supplier management is an area that continues to have opportunities for savings in indirect materials management.

- **Technology:** The procurement and management of MRO via electronic solutions impacts the business. GCS assists with developing the right strategies and implementation plan to get the most out of your electronic solution. Effectively integrating electronic solutions into the MRO procurement strategies is the key to enable long-term success and cost savings.

Grainger Consulting Services (GCS) analyzes the operations of customers who want to take costs out of running their business. **Based on our findings, most customers have the opportunity to take as much as 25% or more out of their costs.**

Consulting Engagement: Partnering With a University to Save Time & Money	
Overview This Northeast Public University sits on nearly 1450 acres with an enrollment of over 28,000 students. It has long struggled with managing its MRO inventory - maintaining proper levels and parts while still providing first class service to its shops and technicians. The University was seeking to establish the most efficient method of maintaining inventory and streamlining its process.	
Findings • On-hand value of MRO inventory was $2,298,928 • 7254 unique items in inventory • 74% of inventory is inactive (yearly carrying cost of $313,000) • 21% of inventory is slow moving (yearly carrying cost of $61,000) • 206 suppliers being utilized	• Top 10 suppliers receive 45% of total MRO spend • Annual MRO spend of $4.5 million • Annual MRO procurement and inventory carrying cost of $640,000 • Primary activity for stock replenishment process was receipt and order (46% of all activities) • Primary activity for non-stock procurement process was shopping (54% of all activities)

Consulting Engagement: Partnering With a University to Save Time & Money

Recommendations

- Identify and remove obsolete inactive inventory. Inactive inventory reduction goal of 35%. Consider moving "slow-moving" inventory to strategic suppliers. Have supplier be responsible for positioning inventory (Just-in-Time strategy).
- **Impact:** Slow-moving reduction goal of 35%; estimated savings of $131,000
- Continue supplier reduction by partnering even further with Grainger as its primary MRO supplier. The University has agreed to deploy the Grainger Cross Reference team to identify those items in inventory that can be consolidated to Grainger. The University has also agreed to give Grainger the "first look" at unplanned spot-buy MRO requests.
- **Impact:** Decrease in supplier base; ability to leverage contracts and cost
- Consolidate 16 stocking locations to three. Utilize Grainger KeepStock® Inventory Management* to assess the current state of inventory and storage space utilization, and design an optimized Central Store.
- **Impact:** Reduce square footage from 12,745 to 6500 to help facilitate the management of inventory materials, and improve organization and visibility of stocked parts
- Utilize Grainger KeepStock Onsite® service** (20 to 40 hours).
- **Impact:** Potential $50,000 reduction in process cost and $90,000 productivity gain
- Revisit current and or develop new standard operating procedures as they relate to the procurement and management of MRO materials. Communicate effectively and reinforce compliance (e.g., formal issuance requirements).

Technical Support and Training

Technical Support: Grainger provides direct technical support from knowledgeable field personnel and manufacturers' field representatives. In our key supplier programs, manufacturers dedicate field resources to work solely with Grainger's field representatives. In addition, Grainger has an in-house Technical Product Support Department whose members have an average of 28 years of experience to answer your product related questions across all product categories. Customers have easy access to this service during standard business hours;

Approximately 5,800 times a day, 102 technically trained product specialists answer questions regarding the following:

- Product selection
- Application assistance
- Troubleshooting/problem solving
- Installation
- Product specifications (available through an automated "fax-on-demand")
- Performance data/wiring diagram
- Government requirements and agency approvals

Technical Training: Grainger will work with our customers to identify products and product categories for which they would like additional training. Grainger will work with our General Catalog manufacturers and suppliers to develop training programs as required to meet your needs. Some examples of programs that we currently use:

DeWalt Power Tools - Customer safety presentation and tape. Hands on demonstration of safe operating practices for power tools. Joint presentation by Grainger Account Manager and DeWalt representative, generally performed at customer location.

GE Lighting Site analysis of requirements - Detailed evaluation of current usage and types of lamps used. Recommendations based upon most energy efficient and cost effective available products. Performed jointly by Grainger Account Manager and GE Sales Representative and performed at customer location.

Proto Tools Hand tool safety seminar and film - Demonstration of correct method of tool usage. Joint sales presentation by Proto and Grainger representatives. Certificate issued upon completion of class. Generally conducted at customer site locations.

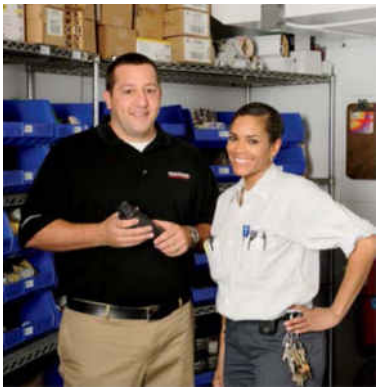
Brady Manufacturing Lock Out/Tag Out Class - Training for correct methods to apply lock out/tag out devices for compliance to OSHA. Film presentation and hands on demonstration of different devices. Joint presentation by Grainger Account Manager and Brady Representative at the customer location. Note: Fee-based seminar.

In-plant Safety Sign and Pipe Marking Survey - This survey consists of taking a plant tour during which the Brady representative notes any areas that they feel additional signage or pipe markers are needed. There is a short meeting after the tour to discuss the findings and to show possible solutions. Performed jointly by Grainger Account Manager and Brady Representative at the customer location.

Environmentally Preferred Product (EPP) Services, Training and Solutions

Grainger offers the following training in collaboration with our key supplier partners:

SUPPLIER / NAME OF SERVICE	NO CHARGE	BRIEF DESCRIPTION
Cree Lighting Audit	✓	For customers considering large indoor or outdoor lighting projects, Cree offers lighting audit services. The audit consists of a site walk-thru, fixture count, energy audit, return on investment and payback analysis, utility rebate assistance, applications (photometrics) and future commissioning.
Cree / SmartCast Wireless Lighting & Controls Commissioning	✓	Cree's SmartCast PoE embeds intelligence to make buildings more efficient and people more productive, while delivering far better light for less energy than ordinary LED lighting systems. Cree will provide onsite resources to support the commissioning of SmartCast enabled fixtures to optimize energy saving benefits.
Cree / Photometric Application for Indoor & Outdoor Lighting	✓	Cree application Engineering develop a report identifying fixture locations and light levels for the specific application which is critical for outdoor lighting and large indoor applications. Provides point by point lighting calculations on the end user's CAD drawing, resulting in optimized energy savings.
Cree / Utility Rebate Assistance	✓	Cree's Rebate Team works directly with Grainger's Mid-Stream Rebate Team and sellers to identify and offer mid-stream rebate opportunities for light fixtures and retrofit kits.
Diversey / Greenguard Certification	✓	Minimize contaminants introduced to the air during cleaning and improve indoor air quality. Greenguard certification identifies the proper products, tools and processes to clean the facility. Diversey supports certification efforts via on-site setup, training and system auditing.
Diversey / Floor Care Productivity Survey	✓	Improve productivity, appearance and reduce waste in your floor care processes. Diversey provides support via a facility survey identifying potential improvements to your current floor care program. Identifies opportunities to realize potential cost savings in overall labor costs and/or chemical usage costs.



SUPPLIER / NAME OF SERVICE	NO CHARGE	BRIEF DESCRIPTION
Air Handler Air / Filtration Audits	✓	Realize opportunities to reduce pressure drop and save energy. This filter audit analyzes air filtration systems and current filter list to generate recommendations that will reduce operating costs.
Georgia-Pacific / Dispenser Refurbish, Recycle, Reuse (RRR) Program	✓	Providing an end of life solution for old paper towel and toilet paper dispensers. GP team removes old dispensers and reuses components. Old dispenser components are utilized in manufacturing new products, such as computers and automobile parts. Dispensers are picked up at the end user's location.
Georgia-Pacific / LEED® Calculator & LEED® Reporting	✓	For customers interested in earning LEED® credits under the LEED® v4 Operations & Maintenance (O+M) Rating System. Georgia Pacific can generate a report for you illustrating & calculating how GP Pro products can support your efforts. Reports can be downloaded and provided to your LEED auditor.
Georgia-Pacific /Battery Recycling Program	✓	Reduce the number of batteries in landfills. Through this service boxes are provided to enable the collection of used batteries in the area of your choice. Boxes are picked up at the facility and new boxes are provided for continued collection and environmental disposition.
GOJO / Dispenser Disposal & Recovery	✓	GOJO will coordinate the removal, transport, and sustainable disposal of old hand soap and sanitizer dispenser materials when completing a GOJO managed dispenser installation project. This is a great option for large installation/conversion projects and a great way to support sustainability initiatives within your facilities.
GOJO / Pre-Installation Site Survey	✓	For large hand soap & sanitizer installation or conversion projects (> 250 dispensers), GOJO will conduct a site walk-thru with material planning and project management. This service addresses challenges related to storage space constraints and reduces materials that must be moved, stored, shipped, or disposed of.
Acuity / Lighting & Controls - Audit & Design	✓	For large lighting projects Acuity offers on-site audit of lighting & controls, recommendations, layout & design, ROI analysis, assistance with utility rebates & project management support with installer.
Zing / Lockout Audit	✓	To ensure compliance of lockout programs Zing offers a site survey conducted by a specialist to audit your current lockout program and provide recommendations.
Rubbermaid / Innovative Solutions - Mobile Showroom	✓	Discover more ways to reduce cost, improve productivity and enhance employee safety. Rubbermaid's mobile showcase vehicle provides an interactive experience and hands-on demonstrations featuring innovative solutions.
Rubbermaid / Recycling Solutions	✓	Explore solutions designed to support your recycling efforts. Rubbermaid's mobile showcase vehicle presents innovative solutions to help you achieve your recycling goals.
Rubbermaid / Waste Audits	✓	For those interested in waste-reduction or recycling initiatives Rubbermaid offers on-site audits designed to help educate users on the impact of implementing a recycling system. This service provides an evaluation of current waste stream habits and processes and diversion practices and provides recommendations and assistance in designing a recycling system.
Rubbermaid / Site Assessments & ROI Calculators	✓	Rubbermaid representatives share their expertise and recommendations through an on-site assessment with ROI calculators to support recycling, hand hygiene and many other common facility initiatives.
Rubbermaid / LEED® Certification Support	✓	For customers pursuing LEED Certification Rubbermaid offers a site visit providing guidance, product recommendation and support with LEED implementation initiatives.
Hubbell / Energy Audit	✓	Gain insight into opportunities to leverage occupancy sensor technology to reduce energy costs. Service includes a site audit, occupancy sensor layout recommendations -drawing, detailed bill of materials and a return on investment (ROI) calculator to estimate savings potential and project

KeepStock Inventory Management Services

KeepStock® is Grainger's portfolio of inventory management solutions that help businesses better understand their inventory and reduce the costs associated with managing it. This portfolio provides both customer-managed (CMI) and Grainger-managed (GMI) inventory options, including Vending. Solutions.

Inventory management is not a "one size fits all" solution. Grainger takes a **customer-centric approach**, offering solutions aligned with specific needs. That is why Grainger offers a variety of options customized to work the way you need it to. By working together, we can help identify your inventory challenges, determine where and how your inventory is used, and develop a solution that best fits your needs.

Knowledgeable Grainger professionals will visit your branch locations to ensure your inventory is effectively managed.

KeepStock® Onsite℠ provides valuable inventory management services right inside your facility—helping you save time and money. You keep control of your overall inventory needs but this solution offers inventory support from a **dedicated Grainger Onsite Support Representative** who will:

- Identify Inventory Needing Replenishment
- Cross-reference Grainger items from your approved purchase requisitions and orders
- Coordinate Grainger resources to identify the best product solutions.
- Place Orders for You
- Scan managed items and place spot buy orders for you, as needed
- Handle invoice inquiries, process product returns, and expedite orders
- Source hard-to-find products
- Organize inventory and restock products in proper location
- Understand Your Inventory Needs to provide valuable inventory insight

KeepStock® Secure℠ is the best answer when you need 24/7 access to products at point-of-use. This is also an ideal solution for controlled access to consumable inventory, as well as durable items that can be used and returned. This is a valuable option in order to help ensure correct item usage, and reduce over-use or shrinkage. Please visit http://keepstocksecuredemo.com/ for a demonstration of the KeepStock program.

There are no delivery, installation, maintenance, rental or usage fees, as long as you maintain a minimum annual purchase level ("MAPL") of Grainger goods through each individual machine.

KeepStock® Secure Solutions

Coil
- High security
- Single-item dispensing
- Low SKU count, high usage
- 60 unique item capacity
- Small to medium item storage

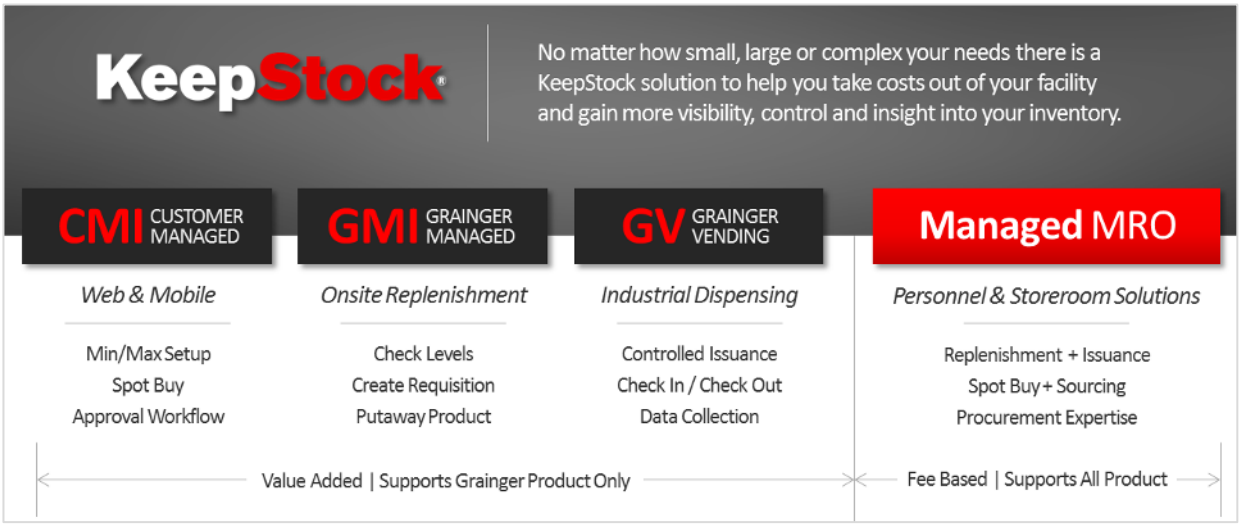
Carousel
- High security
- Single-item dispensing
- High SKU count
- 560 unique item capacity
- Modular design provides check-out/check-in capability

Locker
- High-Medium security
- Consumables and durables
- Single or multi-item dispensing
- Flexible volume
- Check-in/out capability

Cabinet
- Medium security
- Single door/shelf access
- Requires little to no product repackaging
- Flexible shelf configurations accommodates items of various sizes

Drawers
- Medium security
- Controllable drawer access
- Assemble tools by use for easy access
- Various drawer configurations to accommodate items of different sizes

Grainger offers a variety of KeepStock® dispensing machines. Each machine is customized and configured for your needs.



Fee-Based Services and Solutions

Grainger leads the way with cutting edge initiatives, which include our expanded offering of MRO related services and customized value added solutions. Grainger remains focused on providing CHESS / National IPA unsurpassed support for the following list of value added fee based MRO related solutions.

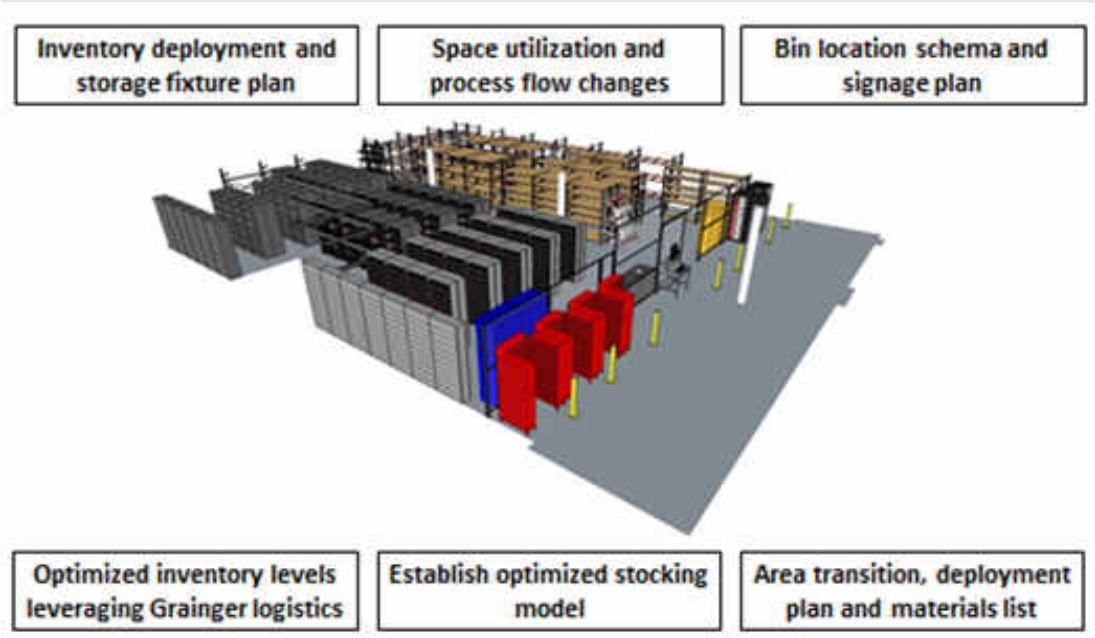
- **Managed MRO Solutions**
- **KeepStock Organize**
  - **KeepStock Layout**
  - **KeepStock Cleanup**
  - **KeepStock Content**
- **Safety Services - Fee Based**
  - **Training, Assessments and Solutions**
  - **Shoemobile**
  - **Eyewear Solution**
  - **Online Safety Manager**
- **Energy Services**
- **Environmentally Preferred Product (EPP) Services, Training and Solutions**

Managed MRO Solutions

Grainger's Managed MRO Solution provides customers with daily, onsite, expert support services to help maximize the value of their entire MRO inventory investment. Managed MRO is a fee-based service where our Inventory Specialists work at your facility to manage all of your indirect materials**—both Grainger and non-Grainger product**

Benefits

- Rapid access to missing expertise and skills
- Avoidance of hiring / de-hiring costs
- Reclaim time of skilled trade employees and reallocate to higher value tasks
- Transparency of costs given simple fee structure
- Maintain control of procurement (i.e., supplier selection, price negotiation, contracting)



We can do this by working with your existing processes and systems or implementing our own; either way you always maintain full control of all procurement and purchasing decisions. Our focus is on MRO material management and finding ways to reduce your product expense, better leverage your inventory investment, or increase the productivity of your technicians.

KeepStock Organize

As part of the KeepStock® portfolio, Grainger offers KeepStock® Organize. This service is a comprehensive offering focused on inventory organization that includes storeroom layout, organization, fixture construction, and content development for existing and new tool cribs. KeepStock® Organize consists of three (3) fee-based parts or phases which can be deployed together or independently.

***KeepStock® Layout*:** Comprehensive inventory management planning, virtual layout configuration, and project planning. (There is a flat fee for this service. The fee is waived if racking and shelving is purchased from Grainger).

KeepStock Organize/ Layout

KeepStock® Cleanup: execution of the project plan including labor for teardown of current storage fixtures, repositioning of retained fixtures, build of new fixtures, product movement and product positioning. (Quotes for this service depend on the KeepStock® Layout assessment.)

KeepStock® Content: capture current inventory items, their attribute elements, providing the ability to upload the data into a computerized materials management system. This may also include ongoing item database management. (Quotes for this service are dependent on a defined scope-of-work.)

Safety Services - Fee Based

For years Grainger has been helping customers in all industries with their safety programs. Grainger team members know they are part of something bigger than just their jobs. Every day, they serve those who keep facilities running and the people in those facilities safe. Team members are motivated to bring their whole self – including their own ideas, experiences and differences – to work every day and, in turn Grainger is dedicated to ensuring team member safety and well-being. Grainger continues to invest in its team members by fostering an environment of empowerment, inclusion and professional development, while keeping workplace safety paramount.

As a full line distributor of safety products, Grainger carries **more than 130,000 safety products from 600 industry-leading safety manufacturers;** however, in addition to our broad breadth of products, Grainger offers strategic safety services and resources.

Training, Assessments and Solutions

Grainger's network of health and safety service providers is committed to providing you with quality, cost-effective on-site and online services. Consisting of a highly trained network of Certified Industrial Hygienists (CIH) and Certified Safety Professionals (CSP), as well as other safety and health professionals—Grainger possesses the expertise and resources to provide training, on-site testing and auditing, and web-based tools designed to aid in your occupational safety and health programs on a national scale.

GRAINGER ONLINE SERVICES	Fee-Based
• Grainger Online SafetyManager® System†	
• Online Safety Training Library with Tracking	
• Authorized Online OSHA 10- & 30-Hour Outreach Training	
• Online NFPA 70E Electrical Safety Training	√
• SDS Management	
• Safety Prescription Eyewear Services	
• LOTO Procedure Services/ Training	
FOOTWEAR OFFERING	**Fee-Based**
• Customized Online Website	
• Grainger Footwear Center	√
• Grainger Shoemobile (additional details presented in the following section)	
FALL PROTECTION — FROM HEIGHTS	**Fee-Based**
Fall Protection Training (Competent Person) Covers the OSHA Fall Protection standards 29 CFR 1910 Subpart D and 29 CFR 1926 Subpart M for both General Industry and Construction. Special attention will be given to personal fall arrest systems. Participants evaluate hazards and develop practical resolutions within the general industry and construction environments. This training will give participants the skills necessary to fulfill the role of "competent person" as defined by OSHA for their company.	√
Flexi-guard™ Engineered Service Custom engineered Flexi-guard™ systems create unique fall protection and access solutions that meet the requirements of your specific application. Also includes on-site assembly and user training services.	√
HAZARD COMMUNICATION/GHS	**Fee-Based**
Haz-Comm/GHS Production Workshop This workshop combines regulatory training and Globally Harmonized System (GHS) label creation to help your business or institution meet OSHA GHS implementation requirements and sustain in-house compliance.	√
Hazardous Communication Training Focusing on the specific requirements of OSHA 29 CFR 1910.1200 Subpart Z, this course offers an overview of hazard communication standards, requirements and responsibilities; training requirements; how to make a hazard determination; hazard chemical characteristics; container labeling and other hazard warnings; safety data sheets; employee training requirements; hazard	√

prevention; minimization; preparedness; and exposure monitoring plans.	
ERGONOMICS	**Fee-Based**
Ergonomic Assessment* A comprehensive on-site ergonomic job assessment which reviews potential hazardous areas. Assessment includes a review of any job hazard analysis (JHAs) for the jobs, a review of employees performing jobs at workstations, measurements of workstations and tasks, and an outline of all findings and recommendations with an action list for each job reviewed.	√
FALL PREVENTION — FROM SLIPS & TRIPS	**Fee-Based**
Floor Coating Installation Service Includes an on-site professional survey, quote and installation of Rust-Oleum® floor coatings.	√
HEARING PROTECTION	**Fee-Based**
Audiometric Testing On-site audiometric testing employs state-of-the-art technology in a clean, comfortable setting. Designed to help you comply with OSHA's Hearing Conservation standard 29 CFR 1910.95.	√
ELECTRICAL SAFETY	**Fee-Based**
Arc Flash Hazard Assessment Designed to assist your facility in complying with the NFPA 70E standard. Includes identification, data collection, analysis and labeling of all electrical arc flash hazards in your facilities. Includes regulatory compliance training of qualified persons in safe workplace practices.	√
Arc Flash Training Safety seminar for anyone working on or near electricity. Topics include flash protection boundaries, PPE, hazard/risk category classifications, shock/electrocution, arc flash calculations, related regulations, and safe work practices and procedures. This training is required for electrical maintenance personnel, operators, troubleshooters, electricians, linemen, engineers, supervisors, site safety personnel or anyone exposed to energized equipment of 50 volts or more.	√

Shoemobile

Grainger offers more than 40 years of experience in the protective toe footwear industry, with expertise consisting of members of the ASTM F13 committee that develops standards for industrial footwear. Grainger's Shoemobile fleet is unsurpassed in the industry. We operate a growing fleet of 45' tractor-trailers and 26' trucks. These Shoemobiles display and stock a variety of safety footwear options to help meet your needs.

As a leading distributor of protective toe footwear, Grainger carries more than 500 styles and has over 100,000 pairs in stock for same-day shipping. Up to 2,000 pairs of shoes can be inventoried on our large shoemobile for a visit. With over 40 brand names and comfort technologies and one of the largest selections of women's protective toe styles in the industry, we will find the right fit for your employees.

During scheduled visits, trained professionals measure your employees to help ensure a proper fit. Grainger will maintain and provide a selection of footwear styles on the Shoemobile that comply with your safety footwear program's guidelines. Shoes are given to your employee during the shoemobile visit, as Grainger meets an average 96% fulfillment rate for Shoemobile visits. If a particular shoe is not inventoried in your employee's size, it will be mailed directly to them for no additional charge.

Grainger's Shoemobile is a convenient way for CHESS entities employees to find safety footwear. With more than 500 styles, we will find the right shoe for each employee

Point of Sale and Benefit Management System (BMS): We are leaders in Shoemobile Automation Technology. We process transactions in seconds using computer-generated sales tickets and barcode technology, leaving more time for proper fitting and style selection. Our BMS program can help reduce your administrative time by managing subsidy eligibility, payroll deduction, style restrictions and reporting. We even offer an electronic payroll deduction file interface system.

Customized Summary Invoicing (Event or Monthly) puts all footwear program sales (Shoemobile, Safety Footwear Center, Online, On-site Store) on one invoice.

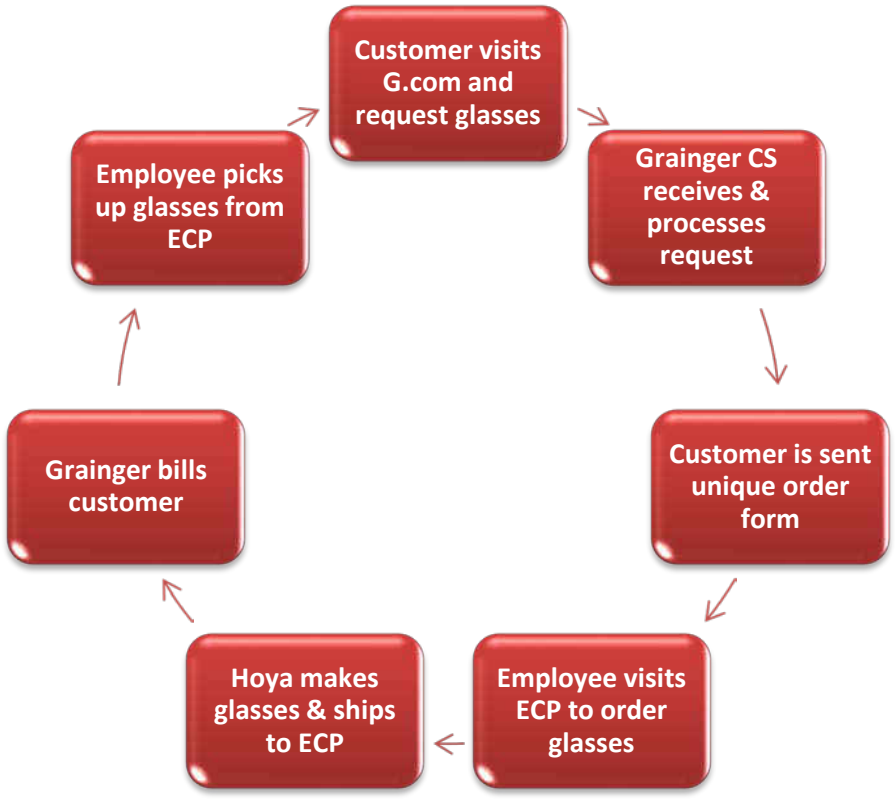
Eyewear Solution

Hoya's SRx Made Easy provides a simple process for customer's to purchase prescription safety eyewear through a national network of independent eye care professionals.



- Program works for any size customer or location
- Simplified SKU Process - Only 4 Price Packages & SKU's
- Each SKU is a complete pair of glasses and includes professional optician fitting services (regular eye exam is not included)
- Access to Hoya's nationwide network of eye care provider

Four (4) Packages

1. Basic Clear Lens Package / 29XL93 (any plastic frame)
2. Enhanced Clear Lens Package / 29XL95 (any frame including metal)
3. Basic Sunglasses Package / 29XL94 (any plastic frame plus transition or polarized lens)
4. Enhanced Sunglasses Package / 45ET93 (any frame including metal, plus transition or polarized lens)

How It Works

Grainger Online SafetyManager®:

Grainger's Online SafetyManager system makes it easier than ever to manage critical workplace safety programs right from your location. This online solution gives you instant access to a set of comprehensive safety management tools and resources.

- **Save** time, money and create a safer workplace!
- **Reduce** injuries, accidents and exposure to fines
- **Manage** compliance, documents and SDSs from your PC
- **Share** assign and track training and documentation
- **Ensure** compliance and drive standardization
- **Support** your transition to GHS (Globally Harmonized System)

Grainger Online SafetyManager includes a set of comprehensive safety management tools and resources for one administrator (plus document sharing and tracking of training for of up to 250 employees, with more Employee Seats available as a cost option). Online training courses covering more than 100 different safety topics are also available for purchase via "tokens." One token is required per participant, per training course. Or, an Unlimited Training Option, a 12-month subscription allowing unlimited individual access to all online training courses, is available.

The above-described program is linked to a unique Grainger item number and is purchased as a 12-month subscription period. If you have more than one location, you may want to purchase an individual administrative subscription for each location.

Energy Services

The Grainger Energy Services team serves as your resource to help identify and implement a wide range of efficient solutions for your agency through its network of qualified, insured and licensed service providers. Working closely with you, our service providers can help identify and facilitate the installation of energy-saving and water conservation measures with minimal disruption to your agency. Our service can help Members secure applicable incentives and rebates for energy and water-saving projects.

Potential Benefits:

- Improved use of energy and water
- Reduced operating costs
- Upgraded infrastructure
- Warranties on new equipment
- Lowered operational risk
- Avoided maintenance expenses
- Reduced facility carbon footprint

Comprehensive Services*:

- Multiple energy- and water-saving solutions
- Audit and financial analysis
- Material, contractor and project management
- Installation by qualified, insured and licensed service partners
- Administration of utility rebates
- Disposal and recycling

** Provided by third party service providers and subject to Member eligibility.*

Grainger's Energy Services	
	**Lighting Projects –** Auditing, specifying, supplying, installing and commissioning/verifying energy-efficient retrofit lighting projects. **Typical Products –** Lighting fixtures, lamps, ballasts, controls and other lighting-related supplies.
	**HVAC Projects** – Auditing, specifying, supplying, installing and commissioning/verifying energy-efficient retrofit HVAC projects. **Typical Products** – Motors, controls, pumps, fans, sensors, variable frequency drives, packaged terminal AC and heat pump units (PTAC/PTHP), filters and other HVAC-related supplies.
	**Motor and Pump Projects** – Auditing, specifying, supplying, installing and commissioning/verifying energy-efficient retrofit motor and pump projects. **Typical Products** – Motors, controls, pumps, fans, sensors, variable frequency drives and other motor-and-pump-related supplies.
	**Compressed Air System Studies and Upgrade Projects** – Auditing, specifying, optimizing, supplying, installing and commissioning/verifying energy-efficient compressed air retrofit projects. **Typical Products** – Air compressors, vacuum pumps, controls, sensors, variable frequency drives, valves and other related supplies.
	**Dust Collection System Studies and Upgrade Projects** – Auditing, specifying, optimizing, supplying, installing and commissioning/verifying energy-efficient dust collection system projects. **Typical Products** – Variable frequency drives, pneumatics, pumps, controls, sensors, duct and fitting pumps, and other related supplies.
	**Electric Vehicle Charging Station Projects** – Specifying, supplying, installing and commissioning electric vehicle charging stations and accessories. **Typical Products** – Electric vehicle chargers and other related supplies.
	**Steam Trap System Studies and Upgrade Projects –** Auditing, specifying, optimizing, supplying, installing and commissioning/verifying energy-efficient steam trap retrofit projects. **Typical Products –** Steam traps and other related supplies.
	**Water Conservation Upgrade Projects** – Auditing, specifying, optimizing, supplying, installing and commissioning/verifying energy-efficient plumbing solutions. **Typical Products –** Toilets, faucets, shower heads, aerators and other related supplies.

Environmentally Preferred Product (EPP) Services, Training and Solutions

Grainger offers the following fee-based services, training and solutions in collaboration with our key supplier partners:

SUPPLIER / NAME OF SERVICE	FEE BASED	BRIEF DESCRIPTION
Cree / SmartCast Wireless Lighting & Controls Commissioning	✓	Cree's SmartCast PoE embeds intelligence to make buildings more efficient and people more productive, while delivering far better light for less energy than ordinary LED lighting systems. Cree will provide onsite resources to support the commissioning of SmartCast enabled fixtures to optimize energy saving benefits.
Cree / Engineering Site Audit for Lighting & Controls	✓	For large sophisticated lighting and controls projects Cree offers an on-site walk-thru conducted by a Cree Engineer who will perform audit on applications and other services. Cree does the complete upfront engineering of the project, maximizing lighting performance, reducing maintenance and optimizing energy savings.
Cree / SmartCast PoE Energy Advisor	✓	The Cree SmartCast Advisor™ is a powerful suite of applications that offers immediate and actionable business insights. It intelligently monitors your building with the SmartCast® PoE lighting network and provides tips on making your business more profitable with recommendations for energy efficiency, putting your spaces to better use, and much more. SmartCast Advisor™ is available for a monthly fee.
Cree / Turnkey Project Management	✓	For customers seeking specialized expertise and support on large lighting & control opportunities - Cree offers a fee-based Turnkey Project Management service to manage lighting projects from engineering to installation to commissioning. Every aspect of the project is billed on one invoice.
Georgia-Pacific / Harmon Recycling Program	✓	GP Harmon's Retail & Distribution Solutions recycling program diverts paper, plastic and metal from landfills in order to avoid waste and minimize the environmental impact of your business. Our recycling program is unique and custom-designed to help meet, and even exceed, your sustainability goals.
Georgia-Pacific / Packaging System Optimization	✓	Collaborate with a team of engineers and packaging scientists to develop innovative packaging solutions that improve functionality and reduce waste.
GOJO / Dispenser Disposal & Recovery	✓	GOJO will coordinate the removal, transport, and sustainable disposal of old hand soap and sanitizer dispenser materials when completing a GOJO managed dispenser installation project. This is a great option for large installation/conversion projects and a great way to support sustainability initiatives within your facilities.
Henkel-LOCTITE / Air Leak Survey	✓	The sooner any loss of air, steam or other pressurized gases is detected in equipment, the faster it can be returned to optimal efficiency. To reduce consumption and costs this service includes a site survey, documented findings, cost savings analysis and training.
Henkel-LOCTITE / Terracycle Program	✓	For customers utilizing LOCTITE Anerobics or Light Cure Technologies Henkel has a solution to help you meet recycling goals and recycle items that were previously non-recyclable. Through an innovative partnership with TerraCycle® boxes are provided to enable convenient return shipping.

Value Adds 1	** Please include any additional products and/or related services that you think will enhance and/or add value to this contract for participating agencies.*

Grainger will support CHESS and Participating Entities in achieving additional cost savings and efficiencies over the duration of the Contract by leveraging our years of experience in saving customers time and money. Grainger's core value proposition is centered on helping customers identify ways to "take costs out of their business," specifically in the areas of time, space and dollar savings. Provided below is a comprehensive offering the following Grainger solutions:

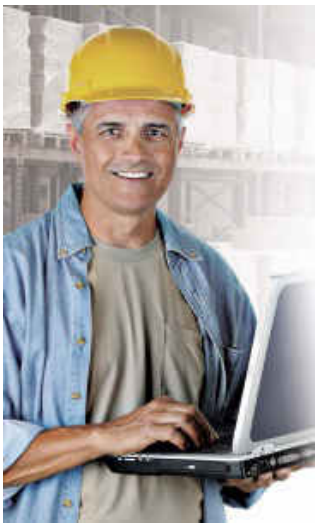
Training and Assessments

Grainger's network of health and safety service providers is committed to providing you with quality, cost-effective on-site and online services. Consisting of a highly trained network of Certified Industrial Hygienists (CIH) and Certified Safety Professionals (CSP), as well as other safety and health professionals—Grainger possesses the expertise and resources to provide training, on-site testing and auditing, and web-based tools designed to aid in your occupational safety and health programs on a national scale.

FALL PROTECTION — FROM HEIGHTS	Value Add
Fall Protection Assessment* A plant/site survey is conducted to identify potential fall protection hazards as well as suggest products or programs to minimize risk	√
Fall Protection Training (Basic) Specific courses designed to train for safety at heights, equipment inspection, rescue planning and tower climbing. Customized training	√



FALL PROTECTION — FROM HEIGHTS	Value Add
courses are also available. Training can also be done using a mobile demonstration vehicle which demonstrates arresting forces workers would experience during a fall.	
SAFETY COMMUNICATION	**Value Add**
Safety Paint Assessment Conducts an on-site survey to determine the condition and location of safety markings and recommend the proper safety coatings.	√
HAND PROTECTION	**Value Add**
Hand Protection & Glove Program Assessment Evaluates your glove program to determine proper selection and use, and identify cost savings. Samples are provided, allowing users to ensure proper fit and application.	√
EXTENDED STANDING/SITTING	**Value Add**
Ergonomic Matting Assessment Evaluates your facility to recommend anti-fatigue matting to help reduce back and lower leg fatigue for employees who stand while working. Identifies the proper mat for use in areas with oils or chemicals and provides 12" samples to stand on or test against chemicals.	√
FALL PREVENTION — FROM SLIPS & TRIPS	**Value Add**
Slips, Trips & Falls Assessment Provides a pedestrian safety site assessment that takes in customer facility observations and gives back recommended products and solutions to help your facility become safer for employees and guests	√
Floor Coating & Anti-Slip Assessment An evaluation based on application, hazard concerns and safety color-coded paint requirements.	√
LADDERS & SCAFFOLDING SAFETY	**Value Add**
Climbing Pro Ladder Safety Kit Includes training literature and video to help provide training on safe and proper ladder use, how to select the correct ladders for the job and ladder inspection. Includes a quiz to reinforce learning.	√
FALL PREVENTION — FROM FLOOR AND WALL OPENINGS	**Value Add**
Flexiguard™ Engineered Service Custom engineered Flexiguard™ systems create unique fall protection and access solutions that meet the requirements of your specific application. Also includes on-site assembly and user training services.	√
HEARING PROTECTION	**Value Add**
Hearing Protection & Conservation Training Designed to assist your business or institution in becoming compliant with OSHA standard 29 CFR 1910.95. Includes instruction on the importance of proper use of hearing protection devices.	√
ELECTRICAL SAFETY	**Value Add**
Arc Flash Awareness Seminar Designed to bring awareness to the NFPA 70E standard. Additional topics reviewed are methods of assessment, PPE equipment, proper electrical tools, test instruments and labeling of hazards.	√

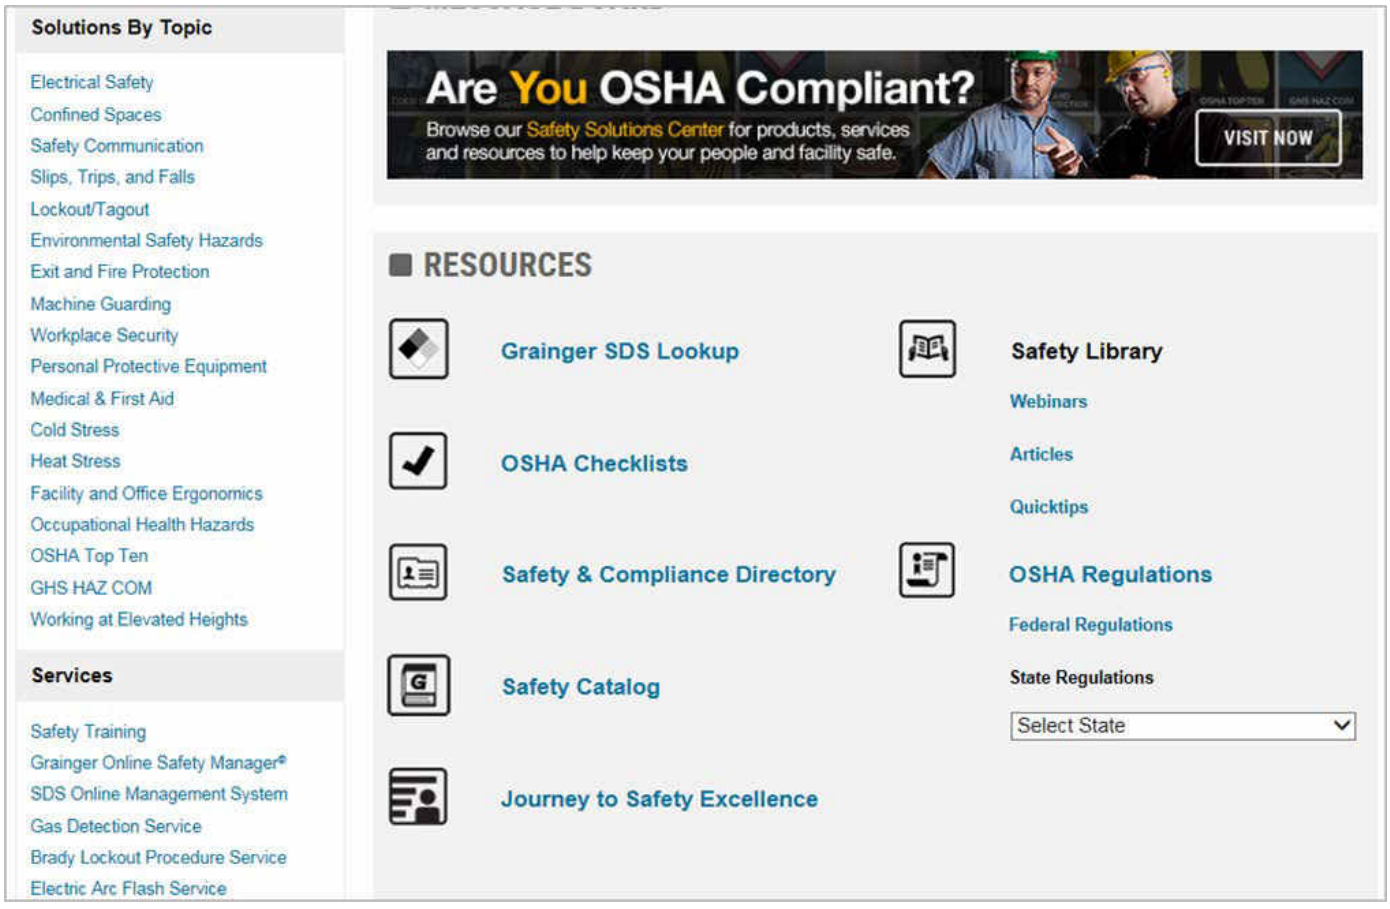
Safety In-Field Specialist

Grainger's safety professionals bring education, experience and expertise to help you address a wide range of questions and issues, save time and improve your safety program. **Our people deliver support and expertise to you and your field locations, working with you to understand your goals and align best-in-class solutions that fit your needs**. We have the depth and structure to help deploy, support and track your enterprise-wide initiatives. Our teams' accreditations include:

- Certified Safety Professionals (CSP – as conferred by the Board of Certified Safety Professionals)
- Qualified Safety Sales Professionals (QSSP – as conferred by the International Safety Equipment Association (ISEA))
- OSHA-30 hour and OSHA-10 hour trained sales professionals
- Numerous suppliers/manufacturers' reps training
- HACCP (Hazard Analysis & Critical Control Points) planning and program development

Support to customers from In-Field Safety Specialist Resources*:*

- Grainger's OSHA-30 hour / QSSP certified field resources are strategically positioned locally across the country. Our growing team of Safety Specialists brings practical safety knowledge to (insert customer name) facilities and locations.
- This field based safety team, provides expertise solving safety business issue challenges, on-site safety assessments, cost-savings proposals, and program standardization strategies.
- Your assigned Safety Specialist will also align the right supplier representatives and additional safety technical resources to meet your facilities selection of appropriate product use and subsequent training.
- Grainger has over 600 Safety Suppliers' whose representative resources are dedicated to Grainger's customers in order to help bring



additional technical, service, and resources to help you with your Safety programs.

- In the field, on the phone or online, Grainger's tested team of safety specialists can help you identify, control and prevent workplace safety and health hazards.
  Email them at safetysupport@grainger.com

Safety Online Solution Center

Organizations have told us they think about and manage their safety programs in two main categories, how they keep their people safe and healthy, and how they operate safer facilities. We've organized the Grainger safety solutions based on these two themes. Grainger developed our Safety Solution Center for invaluable online resources which are available to our customers 24/7. Our online safety center is brimming with information and resources including the latest safety news, trends and regulatory issues. All are free of charge to help protect your employees and site visitors. Get access to:

- Quick Tips technical resources
- Additional industry articles
- SDS sheets
- OSHA checklists
- Webinars.

A screen shot of Grainger's online Safety Solutions Center presents some of the resources available to customers 24/7 to help with their safety programs.

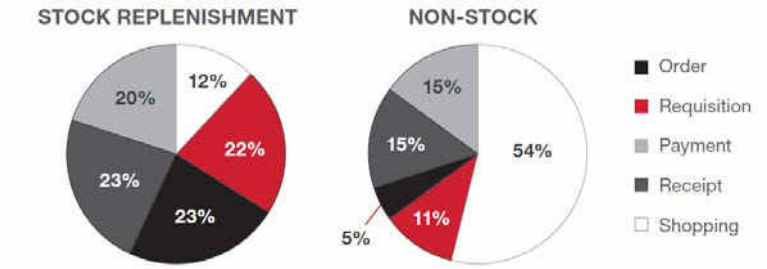
Consulting Services

Grainger Consulting Services (GCS) engages with customers to evaluate their MRO Supply Chain. This evaluation employs a strategic framework of identified cost drivers to benchmark and provide ideal and cost effective solutions. This strategic framework of cost drivers focuses on:

Using proven methodologies, Grainger's Consulting Services evaluate identified cost drivers to assist customers in reducing operational costs

- **Process:** Driving costs out of the processes can help you gain a competitive advantage. GCS helps redesign purchasing and inventory management processes to reduce complexity and cycle time while helping to improve service levels. We offer Grainger solutions that can help streamline the purchasing process and automate the inventory replenishment process to enhance productivity.

- **Inventory:** Inventory can be a critical, expensive component of a company's facilities maintenance operation. GCS provides expertise within inventory management to help optimize inventory levels. We work with resources to understand inventory demand and supply requirements, identify obsolete stock, recommend proper on-hand inventory levels and set effective reorder points for MRO items.



- **Supplier / Product:** Supplier/product management strategies can greatly impact the ability to drive cost savings and product standardization. GCS helps segment, classify and analyze supplier/product usage to identify opportunities for greater leverage and incremental value. Supplier management is an area that continues to have opportunities for savings in indirect materials management.

- **Technology:** The procurement and management of MRO via electronic solutions impacts the business. GCS assists with developing the right strategies and implementation plan to get the most out of your electronic solution. Effectively integrating electronic solutions into the MRO procurement strategies is the key to enable long-term success and cost savings.

Grainger Consulting Services (GCS) analyzes the operations of customers who want to take costs out of running their business. **Based on our findings, most customers have the opportunity to take as much as 25% or more out of their costs.**

Consulting Engagement: Partnering With a University to Save Time & Money	
Overview This Northeast Public University sits on nearly 1450 acres with an enrollment of over 28,000 students. It has long struggled with managing its MRO inventory - maintaining proper levels and parts while still providing first class service to its shops and technicians. The University was seeking to establish the most efficient method of maintaining inventory and streamlining its process.	
Findings • On-hand value of MRO inventory was $2,298,928 • 7254 unique items in inventory • 74% of inventory is inactive (yearly carrying cost of $313,000) • 21% of inventory is slow moving (yearly carrying cost of $61,000) • 206 suppliers being utilized	• Top 10 suppliers receive 45% of total MRO spend • Annual MRO spend of $4.5 million • Annual MRO procurement and inventory carrying cost of $640,000 • Primary activity for stock replenishment process was receipt and order (46% of all activities) • Primary activity for non-stock procurement process was shopping (54% of all activities)

Consulting Engagement: Partnering With a University to Save Time & Money

Recommendations

- Identify and remove obsolete inactive inventory. Inactive inventory reduction goal of 35%. Consider moving "slow-moving" inventory to strategic suppliers. Have supplier be responsible for positioning inventory (Just-in-Time strategy).
- **Impact:** Slow-moving reduction goal of 35%; estimated savings of $131,000
- Continue supplier reduction by partnering even further with Grainger as its primary MRO supplier. The University has agreed to deploy the Grainger Cross Reference team to identify those items in inventory that can be consolidated to Grainger. The University has also agreed to give Grainger the "first look" at unplanned spot-buy MRO requests.
- **Impact:** Decrease in supplier base; ability to leverage contracts and cost
- Consolidate 16 stocking locations to three. Utilize Grainger KeepStock® Inventory Management* to assess the current state of inventory and storage space utilization, and design an optimized Central Store.
- **Impact:** Reduce square footage from 12,745 to 6500 to help facilitate the management of inventory materials, and improve organization and visibility of stocked parts
- Utilize Grainger KeepStock Onsite® service** (20 to 40 hours).
- **Impact:** Potential $50,000 reduction in process cost and $90,000 productivity gain
- Revisit current and or develop new standard operating procedures as they relate to the procurement and management of MRO materials. Communicate effectively and reinforce compliance (e.g., formal issuance requirements).

Technical Support and Training

Technical Support: Grainger provides direct technical support from knowledgeable field personnel and manufacturers' field representatives. In our key supplier programs, manufacturers dedicate field resources to work solely with Grainger's field representatives. In addition, Grainger has an in-house Technical Product Support Department whose members have an average of 28 years of experience to answer your product related questions across all product categories. Customers have easy access to this service during standard business hours;

Approximately 5,800 times a day, 102 technically trained product specialists answer questions regarding the following:

- Product selection
- Application assistance
- Troubleshooting/problem solving
- Installation
- Product specifications (available through an automated "fax-on-demand")
- Performance data/wiring diagram
- Government requirements and agency approvals

Technical Training: Grainger will work with our customers to identify products and product categories for which they would like additional training. Grainger will work with our General Catalog manufacturers and suppliers to develop training programs as required to meet your needs. Some examples of programs that we currently use:

DeWalt Power Tools - Customer safety presentation and tape. Hands on demonstration of safe operating practices for power tools. Joint presentation by Grainger Account Manager and DeWalt representative, generally performed at customer location.

GE Lighting Site analysis of requirements - Detailed evaluation of current usage and types of lamps used. Recommendations based upon most energy efficient and cost effective available products. Performed jointly by Grainger Account Manager and GE Sales Representative and performed at customer location.

Proto Tools Hand tool safety seminar and film - Demonstration of correct method of tool usage. Joint sales presentation by Proto and Grainger representatives. Certificate issued upon completion of class. Generally conducted at customer site locations.

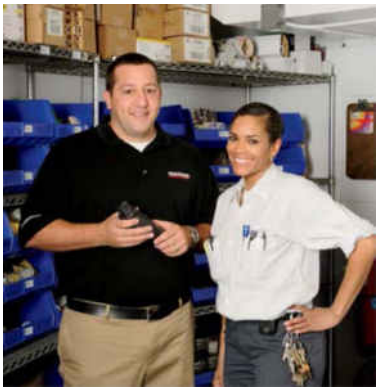
Brady Manufacturing Lock Out/Tag Out Class - Training for correct methods to apply lock out/tag out devices for compliance to OSHA. Film presentation and hands on demonstration of different devices. Joint presentation by Grainger Account Manager and Brady Representative at the customer location. Note: Fee-based seminar.

In-plant Safety Sign and Pipe Marking Survey - This survey consists of taking a plant tour during which the Brady representative notes any areas that they feel additional signage or pipe markers are needed. There is a short meeting after the tour to discuss the findings and to show possible solutions. Performed jointly by Grainger Account Manager and Brady Representative at the customer location.

Environmentally Preferred Product (EPP) Services, Training and Solutions

Grainger offers the following training in collaboration with our key supplier partners:

SUPPLIER / NAME OF SERVICE	NO CHARGE	BRIEF DESCRIPTION
Cree Lighting Audit	✓	For customers considering large indoor or outdoor lighting projects, Cree offers lighting audit services. The audit consists of a site walk-thru, fixture count, energy audit, return on investment and payback analysis, utility rebate assistance, applications (photometrics) and future commissioning.
Cree / SmartCast Wireless Lighting & Controls Commissioning	✓	Cree's SmartCast PoE embeds intelligence to make buildings more efficient and people more productive, while delivering far better light for less energy than ordinary LED lighting systems. Cree will provide onsite resources to support the commissioning of SmartCast enabled fixtures to optimize energy saving benefits.
Cree / Photometric Application for Indoor & Outdoor Lighting	✓	Cree application Engineering develop a report identifying fixture locations and light levels for the specific application which is critical for outdoor lighting and large indoor applications. Provides point by point lighting calculations on the end user's CAD drawing, resulting in optimized energy savings.
Cree / Utility Rebate Assistance	✓	Cree's Rebate Team works directly with Grainger's Mid-Stream Rebate Team and sellers to identify and offer mid-stream rebate opportunities for light fixtures and retrofit kits.
Diversey / Greenguard Certification	✓	Minimize contaminants introduced to the air during cleaning and improve indoor air quality. Greenguard certification identifies the proper products, tools and processes to clean the facility. Diversey supports certification efforts via on-site setup, training and system auditing.
Diversey / Floor Care Productivity Survey	✓	Improve productivity, appearance and reduce waste in your floor care processes. Diversey provides support via a facility survey identifying potential improvements to your current floor care program. Identifies opportunities to realize potential cost savings in overall labor costs and/or chemical usage costs.



SUPPLIER / NAME OF SERVICE	NO CHARGE	BRIEF DESCRIPTION
Air Handler Air / Filtration Audits	✓	Realize opportunities to reduce pressure drop and save energy. This filter audit analyzes air filtration systems and current filter list to generate recommendations that will reduce operating costs.
Georgia-Pacific / Dispenser Refurbish, Recycle, Reuse (RRR) Program	✓	Providing an end of life solution for old paper towel and toilet paper dispensers. GP team removes old dispensers and reuses components. Old dispenser components are utilized in manufacturing new products, such as computers and automobile parts. Dispensers are picked up at the end user's location.
Georgia-Pacific / LEED® Calculator & LEED® Reporting	✓	For customers interested in earning LEED® credits under the LEED® v4 Operations & Maintenance (O+M) Rating System. Georgia Pacific can generate a report for you illustrating & calculating how GP Pro products can support your efforts. Reports can be downloaded and provided to your LEED auditor.
Georgia-Pacific /Battery Recycling Program	✓	Reduce the number of batteries in landfills. Through this service boxes are provided to enable the collection of used batteries in the area of your choice. Boxes are picked up at the facility and new boxes are provided for continued collection and environmental disposition.
GOJO / Dispenser Disposal & Recovery	✓	GOJO will coordinate the removal, transport, and sustainable disposal of old hand soap and sanitizer dispenser materials when completing a GOJO managed dispenser installation project. This is a great option for large installation/conversion projects and a great way to support sustainability initiatives within your facilities.
GOJO / Pre-Installation Site Survey	✓	For large hand soap & sanitizer installation or conversion projects (> 250 dispensers), GOJO will conduct a site walk-thru with material planning and project management. This service addresses challenges related to storage space constraints and reduces materials that must be moved, stored, shipped, or disposed of.
Acuity / Lighting & Controls - Audit & Design	✓	For large lighting projects Acuity offers on-site audit of lighting & controls, recommendations, layout & design, ROI analysis, assistance with utility rebates & project management support with installer.
Zing / Lockout Audit	✓	To ensure compliance of lockout programs Zing offers a site survey conducted by a specialist to audit your current lockout program and provide recommendations.
Rubbermaid / Innovative Solutions - Mobile Showroom	✓	Discover more ways to reduce cost, improve productivity and enhance employee safety. Rubbermaid's mobile showcase vehicle provides an interactive experience and hands-on demonstrations featuring innovative solutions.
Rubbermaid / Recycling Solutions	✓	Explore solutions designed to support your recycling efforts. Rubbermaid's mobile showcase vehicle presents innovative solutions to help you achieve your recycling goals.
Rubbermaid / Waste Audits	✓	For those interested in waste-reduction or recycling initiatives Rubbermaid offers on-site audits designed to help educate users on the impact of implementing a recycling system. This service provides an evaluation of current waste stream habits and processes and diversion practices and provides recommendations and assistance in designing a recycling system.
Rubbermaid / Site Assessments & ROI Calculators	✓	Rubbermaid representatives share their expertise and recommendations through an on-site assessment with ROI calculators to support recycling, hand hygiene and many other common facility initiatives.
Rubbermaid / LEED® Certification Support	✓	For customers pursuing LEED Certification Rubbermaid offers a site visit providing guidance, product recommendation and support with LEED implementation initiatives.
Hubbell / Energy Audit	✓	Gain insight into opportunities to leverage occupancy sensor technology to reduce energy costs. Service includes a site audit, occupancy sensor layout recommendations -drawing, detailed bill of materials and a return on investment (ROI) calculator to estimate savings potential and project

KeepStock Inventory Management Services

KeepStock® is Grainger's portfolio of inventory management solutions that help businesses better understand their inventory and reduce the costs associated with managing it. This portfolio provides both customer-managed (CMI) and Grainger-managed (GMI) inventory options, including Vending. Solutions.

Inventory management is not a "one size fits all" solution. Grainger takes a **customer-centric approach**, offering solutions aligned with specific needs. That is why Grainger offers a variety of options customized to work the way you need it to. By working together, we can help identify your inventory challenges, determine where and how your inventory is used, and develop a solution that best fits your needs.

Knowledgeable Grainger professionals will visit your branch locations to ensure your inventory is effectively managed.

KeepStock® Onsite℠ provides valuable inventory management services right inside your facility—helping you save time and money. You keep control of your overall inventory needs but this solution offers inventory support from a **dedicated Grainger Onsite Support Representative** who will:

- Identify Inventory Needing Replenishment
- Cross-reference Grainger items from your approved purchase requisitions and orders
- Coordinate Grainger resources to identify the best product solutions.
- Place Orders for You
- Scan managed items and place spot buy orders for you, as needed
- Handle invoice inquiries, process product returns, and expedite orders
- Source hard-to-find products
- Organize inventory and restock products in proper location
- Understand Your Inventory Needs to provide valuable inventory insight

KeepStock® Secure℠ is the best answer when you need 24/7 access to products at point-of-use. This is also an ideal solution for controlled access to consumable inventory, as well as durable items that can be used and returned. This is a valuable option in order to help ensure correct item usage, and reduce over-use or shrinkage. Please visit http://keepstocksecuredemo.com/ for a demonstration of the KeepStock program.

There are no delivery, installation, maintenance, rental or usage fees, as long as you maintain a minimum annual purchase level ("MAPL") of Grainger goods through each individual machine.

KeepStock® Secure Solutions

Coil
- High security
- Single-item dispensing
- Low SKU count, high usage
- 60 unique item capacity
- Small to medium item storage

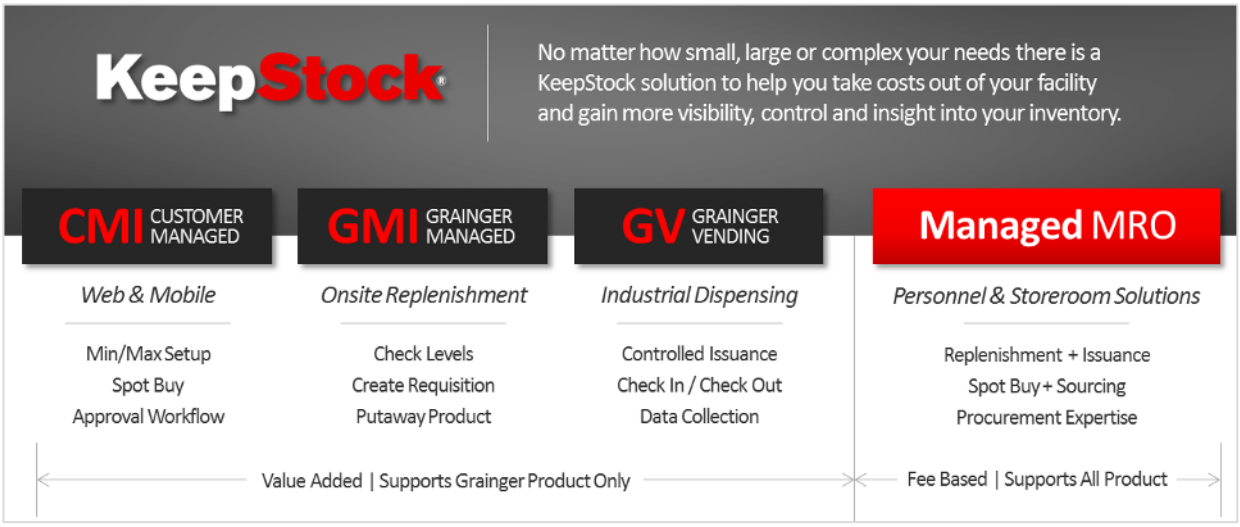
Carousel
- High security
- Single-item dispensing
- High SKU count
- 560 unique item capacity
- Modular design provides check-out/check-in capability

Locker
- High-Medium security
- Consumables and durables
- Single or multi-item dispensing
- Flexible volume
- Check-in/out capability

Cabinet
- Medium security
- Single door/shelf access
- Requires little to no product repackaging
- Flexible shelf configurations accommodates items of various sizes

Drawers
- Medium security
- Controllable drawer access
- Assemble tools by use for easy access
- Various drawer configurations to accommodate items of different sizes

Grainger offers a variety of KeepStock® dispensing machines. Each machine is customized and configured for your needs.



Fee-Based Services and Solutions

Grainger leads the way with cutting edge initiatives, which include our expanded offering of MRO related services and customized value added solutions. Grainger remains focused on providing CHESS / National IPA unsurpassed support for the following list of value added fee based MRO related solutions.

- **Managed MRO Solutions**
- **KeepStock Organize**
  - **KeepStock Layout**
  - **KeepStock Cleanup**
  - **KeepStock Content**

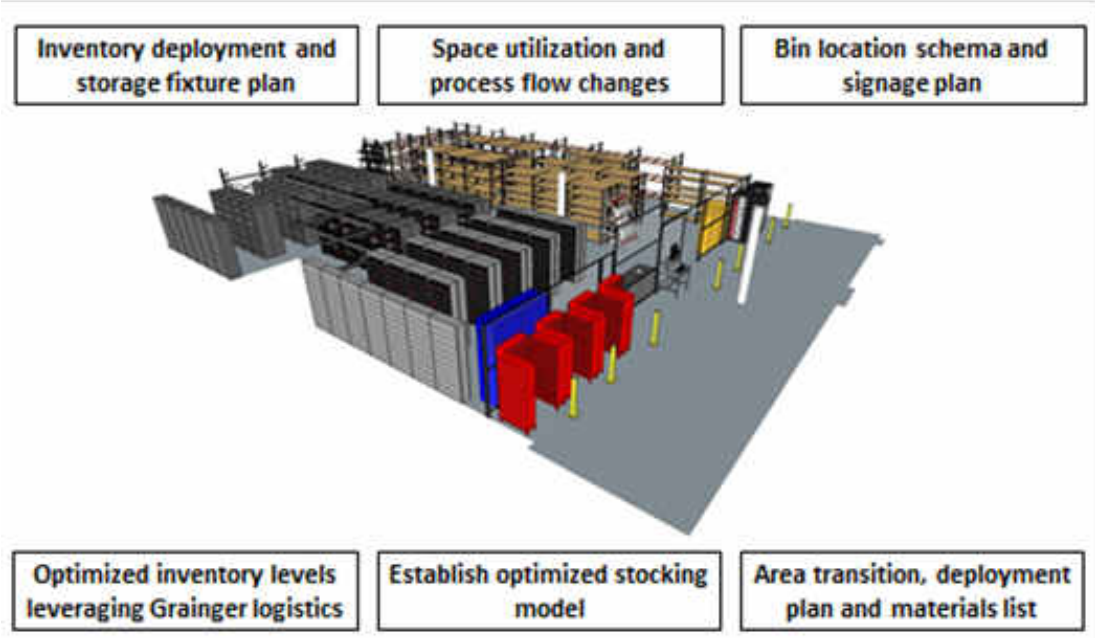
Managed MRO Solutions

Grainger's Managed MRO Solution provides customers with daily, onsite, expert support services to help maximize the value of their entire MRO inventory investment. Managed MRO is a fee-based service where our Inventory Specialists work at your facility to manage all of your indirect materials**—both Grainger and non-Grainger product**

Benefits

- Rapid access to missing expertise and skills
- Avoidance of hiring / de-hiring costs
- Reclaim time of skilled trade employees and reallocate to higher value tasks
- Transparency of costs given simple fee structure
- Maintain control of procurement (i.e., supplier selection, price negotiation, contracting)



We can do this by working with your existing processes and systems or implementing our own; either way you always maintain full control of all procurement and purchasing decisions. Our focus is on MRO material management and finding ways to reduce your product expense, better leverage your inventory investment, or increase the productivity of your technicians.

KeepStock Organize

As part of the KeepStock® portfolio, Grainger offers KeepStock® Organize. This service is a comprehensive offering focused on inventory organization that includes storeroom layout, organization, fixture construction, and content development for existing and new tool cribs. KeepStock® Organize consists of three (3) fee-based parts or phases which can be deployed together or independently.

***KeepStock® Layout*:** Comprehensive inventory management planning, virtual layout configuration, and project planning. (There is a flat fee for this service. The fee is waived if racking and shelving is purchased from Grainger).

KeepStock Organize/ Layout

KeepStock® Cleanup: execution of the project plan including labor for teardown of current storage fixtures, repositioning of retained fixtures, build of new fixtures, product movement and product positioning. (Quotes for this service depend on the KeepStock® Layout assessment.)

KeepStock® Content: capture current inventory items, their attribute elements, providing the ability to upload the data into a computerized materials management system. This may also include ongoing item database management. (Quotes for this service are dependent on a defined scope-of-work.)

Safety Services - Fee Based

For years Grainger has been helping customers in all industries with their safety programs. Grainger team members know they are part of something bigger than just their jobs. Every day, they serve those who keep facilities running and the people in those facilities safe. Team members are motivated to bring their whole self – including their own ideas, experiences and differences – to work every day and, in turn Grainger is dedicated to ensuring team member safety and well-being. Grainger continues to invest in its team members by fostering an environment of empowerment, inclusion and professional development, while keeping workplace safety paramount.

As a full line distributor of safety products, Grainger carries **more than 130,000 safety products from 600 industry-leading safety manufacturers;** however, in addition to our broad breadth of products, Grainger offers strategic safety services and resources.

Training, Assessments and Solutions

Grainger's network of health and safety service providers is committed to providing you with quality, cost-effective on-site and online services. Consisting of a highly trained network of Certified Industrial Hygienists (CIH) and Certified Safety Professionals (CSP), as well as other safety and health professionals—Grainger possesses the expertise and resources to provide training, on-site testing and auditing, and web-based tools designed to aid in your occupational safety and health programs on a national scale.

GRAINGER ONLINE SERVICES	Fee-Based
• Grainger Online SafetyManager® System†	
• Online Safety Training Library with Tracking	
• Authorized Online OSHA 10- & 30-Hour Outreach Training	
• Online NFPA 70E Electrical Safety Training	√
• SDS Management	
• Safety Prescription Eyewear Services	
• LOTO Procedure Services/ Training	
FOOTWEAR OFFERING	**Fee-Based**
• Customized Online Website	
• Grainger Footwear Center	√
• Grainger Shoemobile (additional details presented in the following section)	
FALL PROTECTION — FROM HEIGHTS	**Fee-Based**
Fall Protection Training (Competent Person) Covers the OSHA Fall Protection standards 29 CFR 1910 Subpart D and 29 CFR 1926 Subpart M for both General Industry and Construction. Special attention will be given to personal fall arrest systems. Participants evaluate hazards and develop practical resolutions within the general industry and construction environments. This training will give participants the skills necessary to fulfill the role of "competent person" as defined by OSHA for their company.	√
Flexi-guard™ Engineered Service Custom engineered Flexi-guard™ systems create unique fall protection and access solutions that meet the requirements of your specific application. Also includes on-site assembly and user training services.	√
HAZARD COMMUNICATION/GHS	**Fee-Based**
Haz-Comm/GHS Production Workshop This workshop combines regulatory training and Globally Harmonized System (GHS) label creation to help your business or institution meet OSHA GHS implementation requirements and sustain in-house compliance.	√
Hazardous Communication Training Focusing on the specific requirements of OSHA 29 CFR 1910.1200 Subpart Z, this course offers an overview of hazard communication standards, requirements and responsibilities; training requirements; how to make a hazard determination; hazard chemical characteristics; container labeling and other hazard warnings; safety data sheets; employee training requirements; hazard	√

prevention; minimization; preparedness; and exposure monitoring plans.	
ERGONOMICS	**Fee-Based**
Ergonomic Assessment* A comprehensive on-site ergonomic job assessment which reviews potential hazardous areas. Assessment includes a review of any job hazard analysis (JHAs) for the jobs, a review of employees performing jobs at workstations, measurements of workstations and tasks, and an outline of all findings and recommendations with an action list for each job reviewed.	√
FALL PREVENTION — FROM SLIPS & TRIPS	**Fee-Based**
Floor Coating Installation Service Includes an on-site professional survey, quote and installation of Rust-Oleum® floor coatings.	√
HEARING PROTECTION	**Fee-Based**
Audiometric Testing On-site audiometric testing employs state-of-the-art technology in a clean, comfortable setting. Designed to help you comply with OSHA's Hearing Conservation standard 29 CFR 1910.95.	√
ELECTRICAL SAFETY	**Fee-Based**
Arc Flash Hazard Assessment Designed to assist your facility in complying with the NFPA 70E standard. Includes identification, data collection, analysis and labeling of all electrical arc flash hazards in your facilities. Includes regulatory compliance training of qualified persons in safe workplace practices.	√
Arc Flash Training Safety seminar for anyone working on or near electricity. Topics include flash protection boundaries, PPE, hazard/risk category classifications, shock/electrocution, arc flash calculations, related regulations, and safe work practices and procedures. This training is required for electrical maintenance personnel, operators, troubleshooters, electricians, linemen, engineers, supervisors, site safety personnel or anyone exposed to energized equipment of 50 volts or more.	√

Shoemobile

Grainger offers more than 40 years of experience in the protective toe footwear industry, with expertise consisting of members of the ASTM F13 committee that develops standards for industrial footwear. Grainger's Shoemobile fleet is unsurpassed in the industry. We operate a growing fleet of 45' tractor-trailers and 26' trucks. These Shoemobiles display and stock a variety of safety footwear options to help meet your needs.

As a leading distributor of protective toe footwear, Grainger carries more than 500 styles and has over 100,000 pairs in stock for same-day shipping. Up to 2,000 pairs of shoes can be inventoried on our large shoemobile for a visit. With over 40 brand names and comfort technologies and one of the largest selections of women's protective toe styles in the industry, we will find the right fit for your employees.

During scheduled visits, trained professionals measure your employees to help ensure a proper fit. Grainger will maintain and provide a selection of footwear styles on the Shoemobile that comply with your safety footwear program's guidelines. Shoes are given to your employee during the shoemobile visit, as Grainger meets an average 96% fulfillment rate for Shoemobile visits. If a particular shoe is not inventoried in your employee's size, it will be mailed directly to them for no additional charge.

Grainger's Shoemobile is a convenient way for CHESS entities employees to find safety footwear. With more than 500 styles, we will find the right shoe for each employee

Point of Sale and Benefit Management System (BMS): We are leaders in Shoemobile Automation Technology. We process transactions in seconds using computer-generated sales tickets and barcode technology, leaving more time for proper fitting and style selection. Our BMS program can help reduce your administrative time by managing subsidy eligibility, payroll deduction, style restrictions and reporting. We even offer an electronic payroll deduction file interface system.

Customized Summary Invoicing (Event or Monthly) puts all footwear program sales (Shoemobile, Safety Footwear Center, Online, On-site Store) on one invoice.

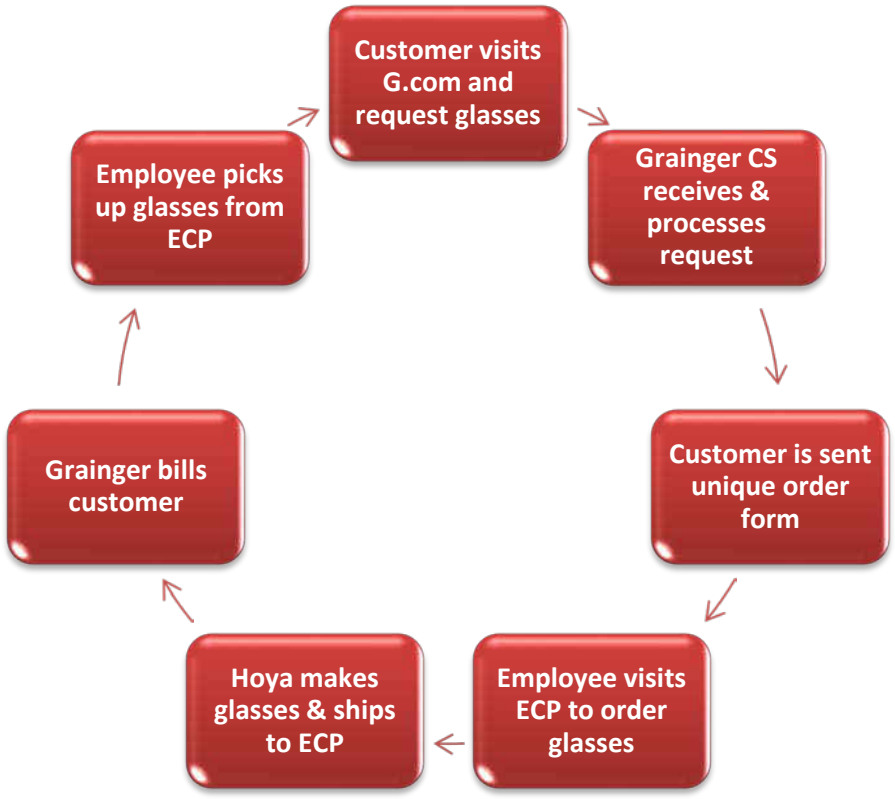
Eyewear Solution

Hoya's SRx Made Easy provides a simple process for customer's to purchase prescription safety eyewear through a national network of independent eye care professionals.



- Program works for any size customer or location
- Simplified SKU Process - Only 4 Price Packages & SKU's
- Each SKU is a complete pair of glasses and includes professional optician fitting services (regular eye exam is not included)
- Access to Hoya's nationwide network of eye care provider

Four (4) Packages

1. Basic Clear Lens Package / 29XL93 (any plastic frame)
2. Enhanced Clear Lens Package / 29XL95 (any frame including metal)
3. Basic Sunglasses Package / 29XL94 (any plastic frame plus transition or polarized lens)
4. Enhanced Sunglasses Package / 45ET93 (any frame including metal, plus transition or polarized lens)

How It Works

Grainger Online SafetyManager®:

Grainger's Online SafetyManager system makes it easier than ever to manage critical workplace safety programs right from your location. This online solution gives you instant access to a set of comprehensive safety management tools and resources.

- **Save** time, money and create a safer workplace!
- **Reduce** injuries, accidents and exposure to fines
- **Manage** compliance, documents and SDSs from your PC
- **Share** assign and track training and documentation
- **Ensure** compliance and drive standardization
- **Support** your transition to GHS (Globally Harmonized System)

Grainger Online SafetyManager includes a set of comprehensive safety management tools and resources for one administrator (plus document sharing and tracking of training for of up to 250 employees, with more Employee Seats available as a cost option). Online training courses covering more than 100 different safety topics are also available for purchase via "tokens." One token is required per participant, per training course. Or, an Unlimited Training Option, a 12-month subscription allowing unlimited individual access to all online training courses, is available.

The above-described program is linked to a unique Grainger item number and is purchased as a 12-month subscription period. If you have more than one location, you may want to purchase an individual administrative subscription for each location.

Energy Services

The Grainger Energy Services team serves as your resource to help identify and implement a wide range of efficient solutions for your agency through its network of qualified, insured and licensed service providers. Working closely with you, our service providers can help identify and facilitate the installation of energy-saving and water conservation measures with minimal disruption to your agency. Our service can help Members secure applicable incentives and rebates for energy and water-saving projects.

Potential Benefits:

- Improved use of energy and water
- Reduced operating costs
- Upgraded infrastructure
- Warranties on new equipment
- Lowered operational risk
- Avoided maintenance expenses
- Reduced facility carbon footprint

Comprehensive Services*:

- Multiple energy- and water-saving solutions
- Audit and financial analysis
- Material, contractor and project management
- Installation by qualified, insured and licensed service partners
- Administration of utility rebates
- Disposal and recycling

** Provided by third party service providers and subject to Member eligibility.*

Environmentally Preferred Product (EPP) Services, Training and Solutions

Grainger offers the following fee-based services, training and solutions in collaboration with our key supplier partners:

SUPPLIER / NAME OF SERVICE	FEE BASED	BRIEF DESCRIPTION
Cree / SmartCast Wireless Lighting & Controls Commissioning	✓	Cree's SmartCast PoE embeds intelligence to make buildings more efficient and people more productive, while delivering far better light for less energy than ordinary LED lighting systems. Cree will provide onsite resources to support the commissioning of SmartCast enabled fixtures to optimize energy saving benefits.
Cree / Engineering Site Audit for Lighting & Controls	✓	For large sophisticated lighting and controls projects Cree offers an on-site walk-thru conducted by a Cree Engineer who will perform audit on applications and other services. Cree does the complete upfront engineering of the project, maximizing lighting performance, reducing maintenance and optimizing energy savings.
Cree / SmartCast PoE Energy Advisor	✓	The Cree SmartCast Advisor™ is a powerful suite of applications that offers immediate and actionable business insights. It intelligently monitors your building with the SmartCast® PoE lighting network and provides tips on making your business more profitable with recommendations for energy efficiency, putting your spaces to better use, and much more. SmartCast Advisor™ is available for a monthly fee.
Cree / Turnkey Project Management	✓	For customers seeking specialized expertise and support on large lighting & control opportunities - Cree offers a fee-based Turnkey Project Management service to manage lighting projects from engineering to installation to commissioning. Every aspect of the project is billed on one invoice.
Georgia-Pacific / Harmon Recycling Program	✓	GP Harmon's Retail & Distribution Solutions recycling program diverts paper, plastic and metal from landfills in order to avoid waste and minimize the environmental impact of your business. Our recycling program is unique and custom-designed to help meet, and even exceed, your sustainability goals.
Georgia-Pacific / Packaging System Optimization	✓	Collaborate with a team of engineers and packaging scientists to develop innovative packaging solutions that improve functionality and reduce waste.
GOJO / Dispenser Disposal & Recovery	✓	GOJO will coordinate the removal, transport, and sustainable disposal of old hand soap and sanitizer dispenser materials when completing a GOJO managed dispenser installation project. This is a great option for large installation/conversion projects and a great way to support sustainability initiatives within your facilities.
Henkel-LOCTITE / Air Leak Survey	✓	The sooner any loss of air, steam or other pressurized gases is detected in equipment, the faster it can be returned to optimal efficiency. To reduce consumption and costs this service includes a site survey, documented findings, cost savings analysis and training.
Henkel-LOCTITE / Terracycle Program	✓	For customers utilizing LOCTITE Anerobics or Light Cure Technologies Henkel has a solution to help you meet recycling goals and recycle items that were previously non-recyclable. Through an innovative partnership with TerraCycle® boxes are provided to enable convenient return shipping.

INVENTORY MANAGEMENT YOUR WAY

TAKE CONTROL OF YOUR INVENTORY

KEEPSTOCK® SOLUTIONS HELP MAKE IT FASTER AND EASIER TO BUY AND MANAGE YOUR CRITICAL INVENTORY

KeepStock®
A Managed Inventory Solution

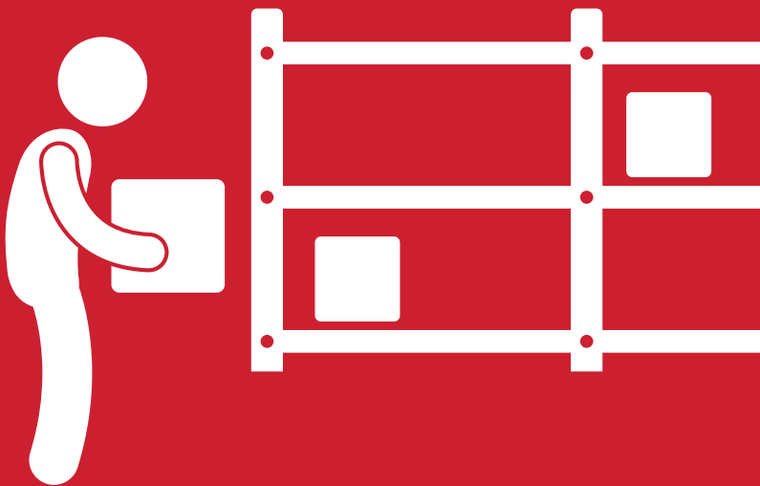
WHY INVENTORY MANAGEMENT

Why worry about inventory? Your day-to-day management of building operations is challenging enough. Now add on the responsibilities of purchasing, managing and controlling your inventory needs. Supporting all aspects of your maintenance activities isn't a big job, it's a huge job.

Inventory management is the process of keeping track of items and maintaining the balance of supply and demand. You want to avoid having excess stock but also can't risk not having enough to meet immediate needs.

Ideal inventory management means having the right products, in the right place, at the right time—all with minimal effort and expense.

Not having properly managed inventory can result in significant and unnecessary costs, including cash spent on items, employee labor and storage space.



SAVE

time + money + space

KeepStock®
A Managed Inventory Solution

WHAT YOU NEED. HOW YOU NEED IT.

GET STARTED TODAY! CONTACT YOUR GRAINGER REP OR VISIT GRAINGER.COM/KEEPSTOCK

MARKET NEED FOR INVENTORY MANAGEMENT

As organizations continue to look for more ways to reduce costs and operate more efficiently, maintenance, repair and operations (MRO) inventory has come under scrutiny.

Left unchecked, poorly managed MRO inventory creates an imbalance between product supply and demand; which can quickly lead to excess expense.

IF YOU STOCK TOO MUCH
Overstocking certain items to make sure they're always available can result in expensive carrying costs—estimated to be 18–25% per year of the average on-hand value maintained.

IF YOU STOCK TOO LITTLE
Ineffective inventory management can cause stockouts, unorganized tool cribs and inefficient (often manual) ordering processes. By eroding productivity, these situations increase costs.

STOP THE RESOURCE DRAIN
Organizations need to take a two-pronged approach to optimize financial and staff resources.

DEPLOY MRO INVENTORY MANAGEMENT
Align stocking levels based on the characteristics of your MRO inventory mix.

LEVERAGE A PROVEN SOLUTION
Cost-effectively enhance and simplify functions from tracking and monitoring to ordering and fulfillment.

EXCESS INVENTORY
ON AVERAGE

50% goes unused every year

15%-18% in annual carrying costs

only **5%** is returned to the supplier

25% of the time maintenance can't find what they need

90% of MRO inventory items are issued **<6x/year**

Inactive inventory consumes resources that could be reinvested in the facility.

GRAINGER®
FOR THE ONES WHO GET IT DONE

YOUR KEEPSTOCK SOLUTIONS

INVENTORY MANAGEMENT IS NOT A "ONE SIZE FITS ALL" SOLUTION

That's why Grainger offers a variety of options customized to work the way you need it to.
Grainger KeepStock solutions help take costs out of your operations by making it easier to organize, track and order any size inventory. The portfolio provides Customer-Managed Inventory (CMI), Grainger-Managed Inventory (GMI) and Grainger Vending (GV) options to help you achieve the right level of management based on your unique business needs.

THE RIGHT SOLUTION

You choose what works best for your operations.

> **Manage it yourself:** A smartphone app and online reporting tools make it a snap
> **Dedicated Grainger resource:** Onsite support for more complex inventory needs
> **Vending solutions:** 24/7 controlled consumption of fast-moving items

We'll work together to identify your inventory challenges, discuss where and how your inventory is used, and develop a solution that best fits your needs. You can be sure only the right solution to support your inventory management goals will be implemented.

KeepStock inventory management provides easy-to-use solutions that will help you:

> KNOW WHAT YOU HAVE IN STOCK
> STREAMLINE PURCHASING
> ORDER FASTER AND EASIER
> GENERATE BETTER REPORTING
> REDUCE PRODUCT LOSS

CUSTOMER-MANAGED INVENTORY (CMI)

It's inventory your way and the good news is, getting your inventory under control doesn't have to be complicated. With help from Grainger, you can set up a system that's tailored to work for you.

THE POWER OF TECHNOLOGY IN THE PALM OF YOUR HAND

THE SITUATION

You want complete control of your inventory—on your terms, your schedule, and handled by your employees. You want it fast, easy, accurate, and with reporting to back it up. You want the power of technology in the palm of your hand.

THE ANSWER

Customer-Managed Inventory (CMI) helps give you the level of functionality you need at no additional cost.

HOW IT WORKS

Order: Scan the barcoded labels with your Android or iOS smartphone and send the order. Need approvals? No problem! We can set up your program to have approvals based on your needs.

Find: The CMI app does more than just help you replenish items in your KeepStock installation. You can also search Grainger.com® and select products to add to your order—all from one source.

Track: We can help set up your app to help manage the movement of Grainger products that you need to track through your system. Allocate product usage and track to the appropriate user, cost center or customer account number.

Update: Add or change items and users to your inventory program. Managing your CMI solution based on your needs gives you more time to invest back into your business.

MORE CONTROL IN YOUR HANDS—YOUR WAY

Are your business needs changing? Simply add items to your inventory program, adjust reorder points and quantities, change item adresses, or add/delete/change users.

Need to track items throughout the job, process, or facility? This app can be enabled to help manage the movement of those Grainger products from receipt through consumption.

Looking to save more time? Integrate your current system with Grainger's Order Management System on Grainger.com.®

GRAINGER®
FOR THE ONES WHO GET IT DONE

GRAINGER-MANAGED INVENTORY (GMI)

This solution helps you and your people spend less time finding and ordering products, and more time on business-critical tasks and generating revenue.

ONSITE RESOURCE HELPS YOU MANAGE ALL YOUR GRAINGER INVENTORY

THE SITUATION

You have a significant number of items in a single storeroom, or maybe even multiple storage areas across your facility. These items are used in varying quantities at varying times. You and your staff often need help finding and placing special order items in addition to your frequently used products. And, you may have supplies that you need controlled access to, or 24/7 availability to certain products but don't have the 24/7 staff to manage a locked storage area.

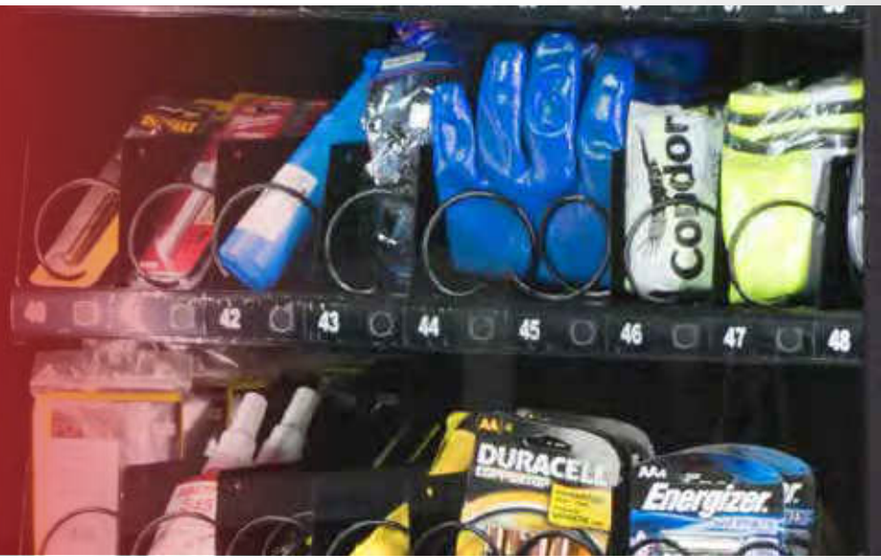
THE ANSWER

The more complex your needs, the more a Grainger-Managed Inventory (GMI) solution is a right fit for your organization. With your inventory now balanced and managed, you can focus on business-critical tasks that have significant impacts on your bottom line.

HOW IT WORKS

Your Grainger Rep works with you and our KeepStock solutions team to determine the products and levels needing to be managed, as well as setting approvals for orders if required. With or without approvals, you have the visibility, control and insight to all Grainger orders—so you don't have to worry about overstocking or unauthorized purchases.

On a pre-determined schedule, your dedicated rep will work at your facility to put Grainger products away, place replenishment orders, help with inquiries, source hard-to-find items, and help with special orders. Your rep can also cross-reference Grainger products to add to the program to further consolidate, simplify and save.



We can manage your Grainger inventory in your storeroom, warehouse, or various stocking locations throughout your facility. Have short-term storage needs? We can arrange a trailer to store your Grainger items. It's that easy.

GET STARTED TODAY! CONTACT YOUR GRAINGER REP OR VISIT GRAINGER.COM/KEEPSTOCK

GRAINGER VENDING (GV)

The ideal choice when you require controlled access to consumable inventory, as well as durable items that can be used and returned.

GET 24/7 CONTROLLED CONSUMPTION OF FAST-MOVING ITEMS

THE SITUATION

You need 24/7 access to key products—when and where you need them. And, you're looking to increase productivity through improved efficiencies, including placing products at point-of-use.

THE ANSWER

Spend less time searching, more time working with Grainger Vending (GV) solutions. Our machines can help you reduce costs by setting limits on quantities, shifts, jobs, or total dollar value spent. It's a great way to control product consumption, too. Plus, you get detailed inventory reporting to help you better manage your budget.

HOW IT WORKS

Grainger works with you to identify items to be managed, and select the right machine(s) to do the job.

We deliver and set up the filled machines so they're ready to use as soon as they're plugged in.

Employees can scan their ID badge or enter their employee code, use the touchscreen to select the item, remove the product from the machine and log out. It's easy, reliable, secure and controlled.

Items and quantities removed are automatically uploaded so you can rest easy knowing replenishment orders are processed accurately and in real time. Now you know you'll have the right products, in the right quantities, at the right time.

Your Grainger Inventory Management Specialist will refill the machines as needed to meet your usage patterns.

REDUCE WASTE, LOSS AND COSTS

GRAINGER®
FOR THE ONES WHO GET IT DONE

GRAINGER'S CONSULTATIVE APPROACH

KeepStock®
A Managed Inventory Solution

WORKING TOGETHER EVERY STEP OF THE WAY

- We will work with you to understand your inventory management goals and challenges
- Based on our collaborative work, we determine the best solution (or solutions) to meet your specific needs
- We will collect data for the products you want managed and cross-reference items as needed, then load them into our system
- We then launch your KeepStock inventory program, assuring that we integrate with your systems and your employees
- We will stay in close contact with you and your employees to make sure you're getting the best value for your program

CUSTOMIZED FOR YOUR BUSINESS

- Turn-key replenishment on your schedule
- Adjustable minimum/maximum reorder points
- Order control points to align with your operational needs

THE BENEFITS

- Reduce your procurement costs for indirect supply purchases
- Keep your team focused on the work to be done rather than looking for supplies
- Optimize inventory levels—no overstocking or stockouts

YOUR KEEPSTOCK SOLUTIONS SUPPORT TEAM

ONGOING SUPPORT

Great customer care doesn't end after your KeepStock solution is installed or implemented. You receive reliable, ongoing support for the solution or solutions you have, just like always. There's no cost to you for support after the solution — no unexpected fees or hidden costs. Simply the support you need for the inventory you have.

Get Great Customer Care from Knowledgeable Grainger Reps
Your Grainger Rep will help you through the process of managing your MRO inventory. They work with you to set up your KeepStock solution and provide continued support during and after the installation. As your inventory management needs evolve, they help you add and change items, update program users, run reports, perform general program maintenance, and more.

Dedicated Onsite Service Representatives
With more than 1000 Onsite Service Representatives servicing Grainger-Managed Inventory (GMI) programs, you get customized knowledgeable support for your program. They make sure you have the MRO supplies on your shelves, at the inventory levels you select. Plus, they check your inventory levels on a schedule you both set, help put away reordered products, and help you find the products you may not stock but need from time to time to keep your operation running.

Helpful Customer Service
Providing exceptional customer service continues to be the hallmark of our business. As always, you can count on our Grainger customer service reps to help answer your account and invoice questions, order products, process returns, source hard-to-find items and more!

of on-hand MRO inventory levels **exceed a 1-year supply***

Up to
10%
of inventory sits on shelves and **never gets used***

Up to
30 STEPS,
5 people, **5** hand-offs, and **1** approval may be involved in **replenishing inventory***

SAVE $

KEEPSTOCK SOLUTIONS HELP YOU BETTER IDENTIFY, ORGANIZE AND MANAGE YOUR INVENTORY

GET ORGANIZED

Up to 22% of the time, maintenance employees leave a stockroom without the proper material or quantity.* Plus, if products are inventoried in multiple locations, your employees are spending a lot of time putting inventory away. By consolidating orders to one supplier, you can more effectively manage your inventory—helping your employees get what they need, the first time and every time.

ORDER FASTER

Replenishing inventory may involve up to 30 steps, 5 people, 5 hand-offs and 1 approval.* Then there's the issue of ordering more product than you need—60% of on-hand MRO inventory levels exceed a 1-year supply.* How much time, money and space are you wasting?

REDUCE EFFORT

Ordering, finding, tracking and replenishing products takes time . . . costs money . . . and takes up a lot of space. Having multiple suppliers just compounds the confusion, so finding a way to consolidate and simplify each step of procuring and managing your inventory should be a priority. Think about how much easier your day would go if you could procure products from 1 supplier. And, that 1 supplier could help you manage and organize your inventory with the best Grainger KeepStock inventory management solution for your needs.

WHAT YOU NEED, WHEN YOU NEED IT, MADE EASY.

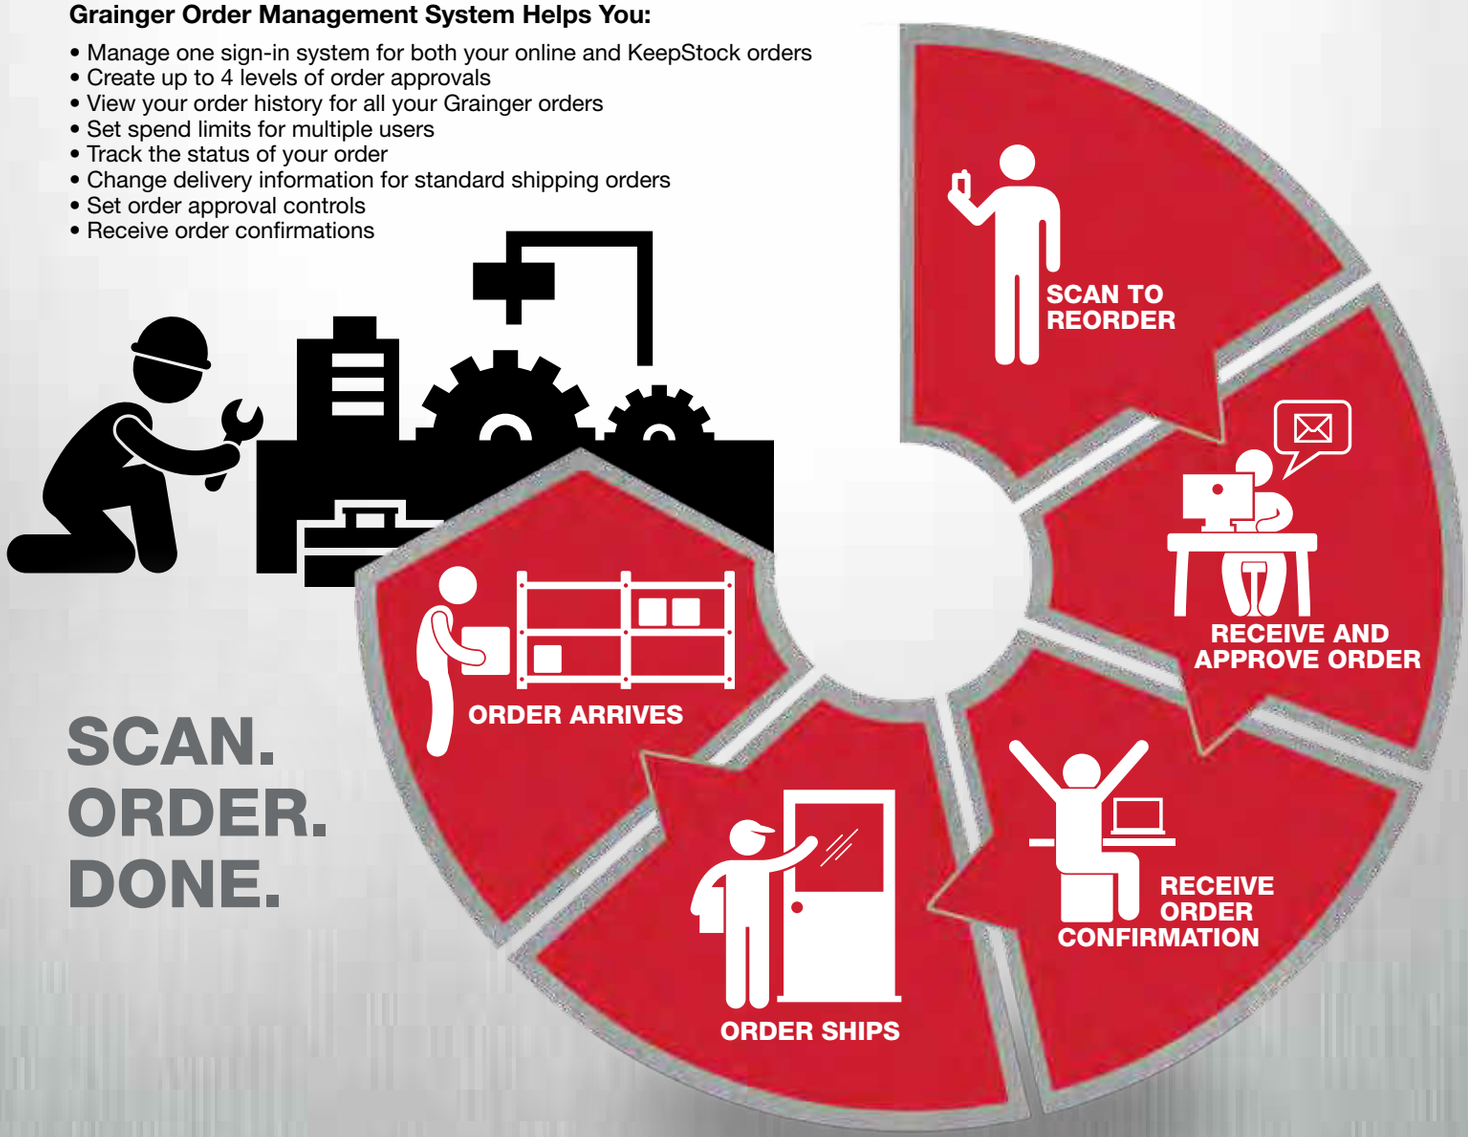
AUTOMATE YOUR REORDERING PROCESS



MANAGE YOUR ORDERS FASTER AND EASIER

OPTIMIZE YOUR WORKFLOW FROM PROCUREMENT TO PAYMENT

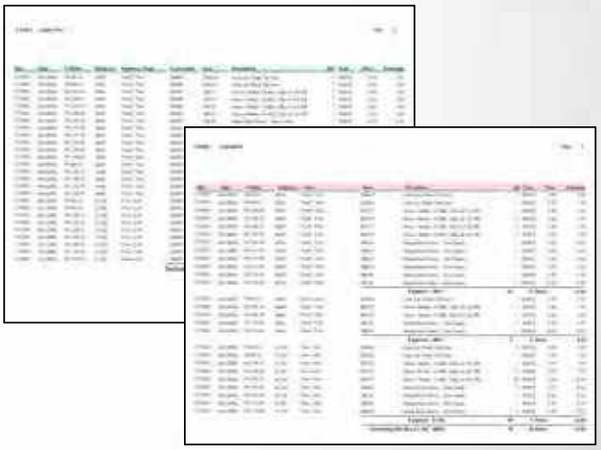
Work more efficiently and effectively every step of the way. Take control of your inventory spend and budget, improve your processing times, manage your inventory risk, and receive detailed inventory information to make decisions that help improve your bottom line. Streamline your entire procure-to-pay process by integrating your KeepStock purchases with your internal purchasing system, Grainger.com® or your eProcurement system.*

Grainger Order Management System Helps You:

- Manage one sign-in system for both your online and KeepStock orders
- Create up to 4 levels of order approvals
- View your order history for all your Grainger orders
- Set spend limits for multiple users
- Track the status of your order
- Change delivery information for standard shipping orders
- Set order approval controls
- Receive order confirmations

SCAN. ORDER. DONE.

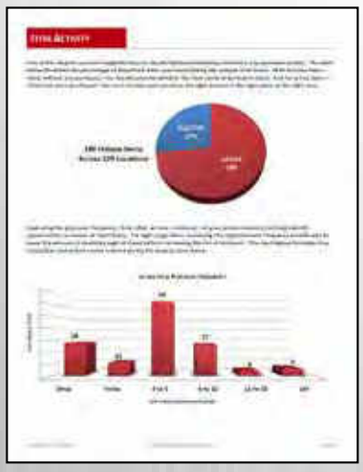
* Check with your Grainger Rep and your eCommerce department to determine eProcurement system compatibility.



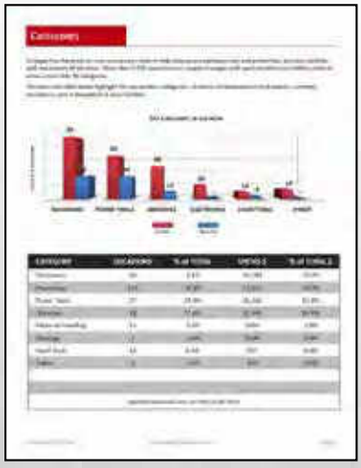
GRAINGER®
FOR THE ONES WHO GET IT DONE

KNOW THE WHAT, WHERE AND HOW MUCH
WITH YOUR INVENTORY

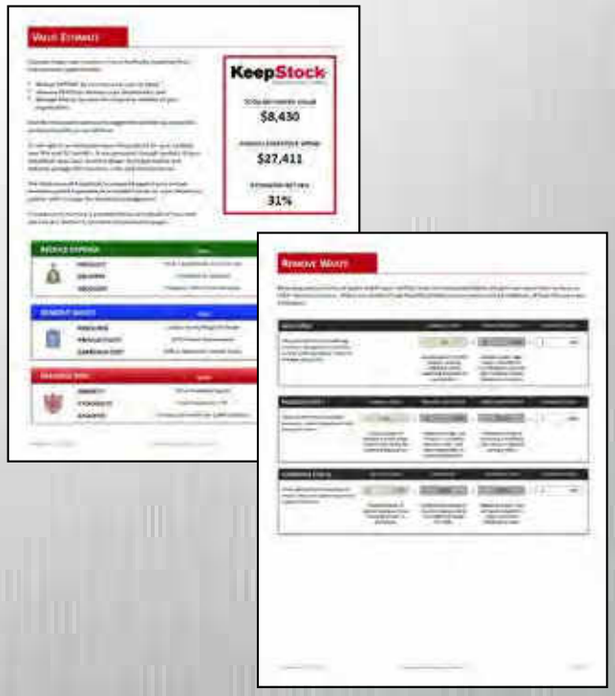
BETTER DATA INTELLIGENCE FOR BETTER DECISIONS



DETAILED REPORTING HELPS YOU KEEP YOUR INVENTORY IN CHECK



KeepStock reporting provides detailed information on the activity of the items being managed. Get usage specifics and track purchasing history, quantities, and total spend. Sort by transactions, cost centers, employees and more. Get the information you need so you can better monitor product consumption and receiving activities.



KNOW THE VALUE OF THE PROGRAM TO YOUR ORGANIZATION

You know the value of your efforts goes beyond the day-to-day activities. KeepStock reporting can also help you measure the total value of the installation — how we are helping your bottom line. We can generate detailed reports for you; showing how you have helped take costs out of managing your inventory with your KeepStock install by reducing expenses and waste.

GET STARTED TODAY! CONTACT YOUR GRAINGER REP OR VISIT GRAINGER.COM/KEEPSTOCK

SAVE TIME, MONEY AND SPACE

GRAINGER KEEPSTOCK SOLUTIONS

At Grainger, KeepStock solutions mean managing inventory the right way. Anything less will not help you get the cost reductions, productivity gains or stockroom improvements that you're looking for. That's why Grainger offers a variety of KeepStock solutions — because we know that no one solution is right for every business.

Grainger KeepStock solutions are designed to help you control costs by:

- Streamlining processes—saving you time and money
- Optimizing inventory—saving you money and space
- Improving efficiency and productivity—saving you time
- Reducing stockouts—saving you time and money

KeepStock secure

KeepStock Secure Dispensing Machines

Solutions to help you take costs out of managing your inventory

- **Security -** Secure products in a locked cabinet to help control usage and loss
- **24/7 access -** Provide employees with convenient around-the-clock access to consumable and durable items whenever they are needed.
- **Flexible placement -** Put the dispensing machines at the point-of-use so employees can spend more time on the job and less time at the storeroom.
- **Automated reordering -** Reduce your carrying costs and on-hand inventory, while you eliminate stock-outs and lower order processing costs.
- **Detailed reporting -** Increase the productivity of your MRO procurement staff with easy-to-access detailed reporting, which provides information about items coming in and going out.
- **Five customizable, independently operating dispensing machines –** Select the machine that meets your inventory management needs, from medium to high security, for consumable to durable items, and dispensing or check-out/check-in capability.
- **Customized, delivered, installed -** Grainger will help manage the entire process of planning, transporting, installing, repairing, training and replenishment. Your dispensing machine will arrive ready for action—stocked with the items you selected.

CHESS Ordering Channels	
Order Channel	**Ordering Process Training**
	• Account Settings • Order History • Invoice History • Customizing & viewing order history data • Creating & managing lists • Location based lists using Grainger Mobile • Order management system capabilities Government Account Managers and support personnel are available to conduct live on-site training sessions for larger groups. *See screen shots following this chart and present online tutorial training.*
• KeepStock® Inventory Management Solutions	KeepStock® Inventory Management Solutions streamline the ordering process. Comprehensive training solutions are available. Government Sales Managers, Account Managers, Onsite Service Representatives and Branch Managers are available to discuss KeepStock® solutions and tailor a training program.
• Branch Location	Team Members are available to train CHESS customers on the branch ordering and will-call process.
• Government Account Managers	Government Account Managers are available to meet with CHESS customers to discuss the ordering processes. Regularly scheduled visits can be established with customers to review the contract and answer questions.

Sustainable Product Training

Grainger offers the following training on Sustainable Products:

SUPPLIER / NAME OF SERVICE	NO CHARGE	BRIEF DESCRIPTION
Cree Lighting Audit	✓	For customers considering large indoor or outdoor lighting projects, Cree offers lighting audit services. The audit consists of a site walk-thru, fixture count, energy audit, return on investment and payback analysis, utility rebate assistance, applications (photometrics) and future commissioning.
Cree / SmartCast Wireless Lighting & Controls Commissioning	✓	Cree's SmartCast PoE embeds intelligence to make buildings more efficient and people more productive, while delivering far better light for less energy than ordinary LED lighting systems. Cree will provide onsite resources to support the commissioning of SmartCast enabled fixtures to optimize energy saving benefits.
Cree / Photometric Application for Indoor & Outdoor Lighting	✓	Cree application Engineering develop a report identifying fixture locations and light levels for the specific application which is critical for outdoor lighting and large indoor applications. Provides point by point lighting calculations on the end user's CAD drawing, resulting in optimized energy savings.
Cree / Utility Rebate Assistance	✓	Cree's Rebate Team works directly with Grainger's Mid-Stream Rebate Team and sellers to identify and offer mid-stream rebate opportunities for light fixtures and retrofit kits.
Diversey / Greenguard Certification	✓	Minimize contaminants introduced to the air during cleaning and improve indoor air quality. Greenguard certification identifies the proper products, tools and processes to clean the facility. Diversey supports certification efforts via on-site setup, training and system auditing.

SUPPLIER / NAME OF SERVICE	NO CHARGE	BRIEF DESCRIPTION
Diversey / Floor Care Productivity Survey	✓	Improve productivity, appearance and reduce waste in your floor care processes. Diversey provides support via a facility survey identifying potential improvements to your current floor care program. Identifies opportunities to realize potential cost savings in overall labor costs and/or chemical usage costs.
Air Handler Air / Filtration Audits	✓	Realize opportunities to reduce pressure drop and save energy. This filter audit analyzes air filtration systems and current filter list to generate recommendations that will reduce operating costs.
Georgia-Pacific / Dispenser Refurbish, Recycle, Reuse (RRR) Program	✓	Providing an end of life solution for old paper towel and toilet paper dispensers. GP team removes old dispensers and reuses components. Old dispenser components are utilized in manufacturing new products, such as computers and automobile parts. Dispensers are picked up at the end user's location.
Georgia-Pacific / LEED® Calculator & LEED® Reporting	✓	For customers interested in earning LEED® credits under the LEED® v4 Operations & Maintenance (O+M) Rating System. Georgia Pacific can generate a report for you illustrating & calculating how GP Pro products can support your efforts. Reports can be downloaded and provided to your LEED auditor.
Georgia-Pacific /Battery Recycling Program	✓	Reduce the number of batteries in landfills. Through this service boxes are provided to enable the collection of used batteries in the area of your choice. Boxes are picked up at the facility and new boxes are provided for continued collection and environmental disposition.
GOJO / Dispenser Disposal & Recovery	✓	GOJO will coordinate the removal, transport, and sustainable disposal of old hand soap and sanitizer dispenser materials when completing a GOJO managed dispenser installation project. This is a great option for large installation/conversion projects and a great way to support sustainability initiatives within your facilities.
GOJO / Pre-Installation Site Survey	✓	For large hand soap & sanitizer installation or conversion projects (> 250 dispensers), GOJO will conduct a site walk-thru with material planning and project management. This service addresses challenges related to storage space constraints and reduces materials that must be moved, stored, shipped, or disposed of.
Acuity / Lighting & Controls - Audit & Design	✓	For large lighting projects Acuity offers on-site audit of lighting & controls, recommendations, layout & design, ROI analysis, assistance with utility rebates & project management support with installer.
Zing / Lockout Audit	✓	To ensure compliance of lockout programs Zing offers a site survey conducted by a specialist to audit your current lockout program and provide recommendations.
Rubbermaid / Innovative Solutions - Mobile Showroom	✓	Discover more ways to reduce cost, improve productivity and enhance employee safety. Rubbermaid's mobile showcase vehicle provides an interactive experience and hands-on demonstrations featuring innovative solutions.
Rubbermaid / Recycling Solutions	✓	Explore solutions designed to support your recycling efforts. Rubbermaid's mobile showcase vehicle presents innovative solutions to help you achieve your recycling goals.
Rubbermaid / Waste Audits	✓	For those interested in waste-reduction or recycling initiatives Rubbermaid offers on-site audits designed to help educate users on the impact of implementing a recycling system. This service provides an evaluation of current waste stream habits and processes and diversion practices and provides recommendations and assistance in designing a recycling system.
Rubbermaid / Site Assessments & ROI Calculators	✓	Rubbermaid representatives share their expertise and recommendations through an on-site assessment with ROI calculators to support recycling, hand hygiene and many other common facility initiatives.

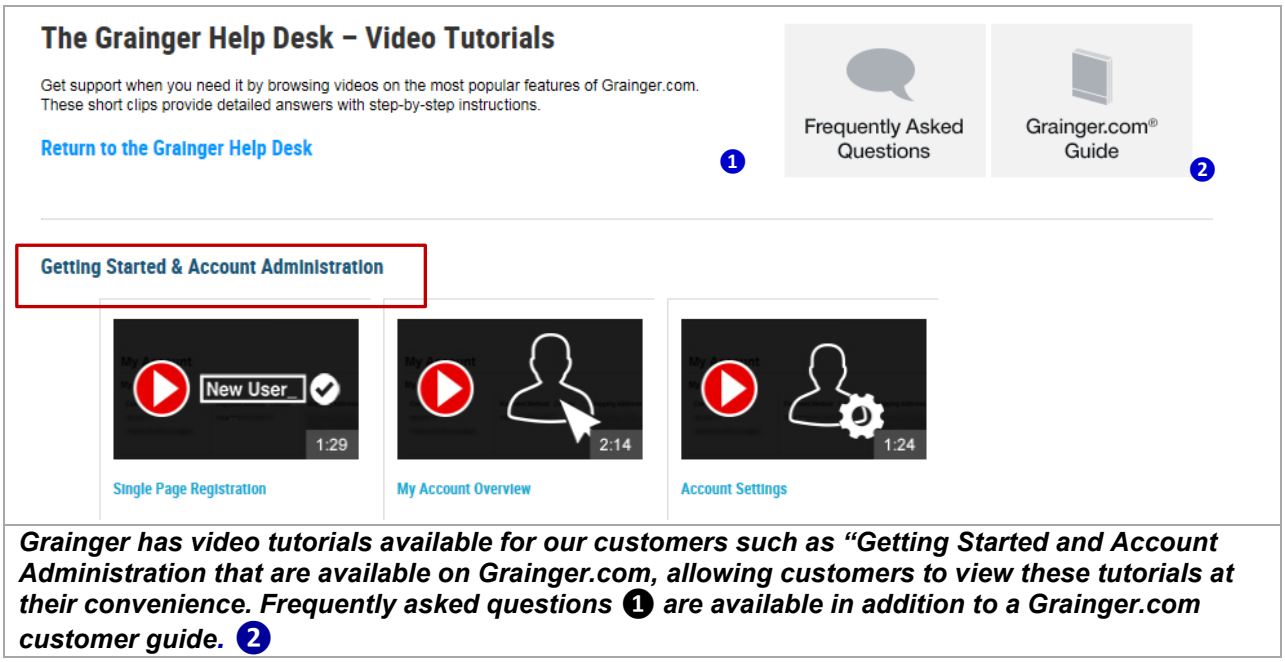
SUPPLIER / NAME OF SERVICE	NO CHARGE	BRIEF DESCRIPTION
Rubbermaid / LEED® Certification Support	✓	For customers pursuing LEED Certification Rubbermaid offers a site visit providing guidance, product recommendation and support with LEED implementation initiatives.
Hubbell / Energy Audit	✓	Gain insight into opportunities to leverage occupancy sensor technology to reduce energy costs. Service includes a site audit, occupancy sensor layout recommendations -drawing, detailed bill of materials and a return on investment (ROI) calculator to estimate savings potential and project payback.

Online Training

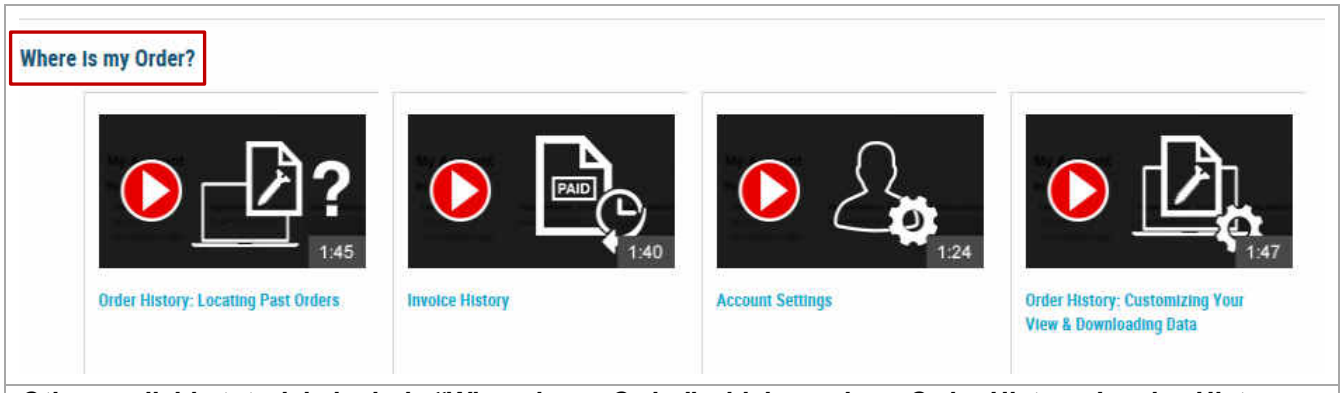
CHESS customers will have free access to various Grainger resources such as our "On the Job Webinar Series" that relate to work environment topics.

Grainger's "On the Job Webinar Series" addresses work environment issues such as:

- **Safety**
- **OSHA Regulations**
- **Productivity**
- **Procurement & Inventory Management**
- **Green Solutions**
- **Emergency Preparedness**



At Grainger's On the Job website, (**https://www.grainger.com/content/webinars**) you will be able to register and attend **FREE** online Webinars, all at the convenience from your desk. If a Member is unable to attend the scheduled live Webinar date, recordings of previous Webinars are readily available online.



Safety

MONTH	TOPIC	
June 2017	Slips, Trips and Falls, Part 1: Preventing Falls From Heights Using Engineering and Administrative Controls	View recording
June 2017	Slips, Trips and Falls, Part 2: Preventing Falls From Heights Using Personal Fall Arrest Systems	View recording
June 2017	Slips, Trips and Falls, Part 3: Preventing Slips, Trips and Falls on the Same Level	View recording

Additionally, Grainger offers the following Grainger.com online tutorials:

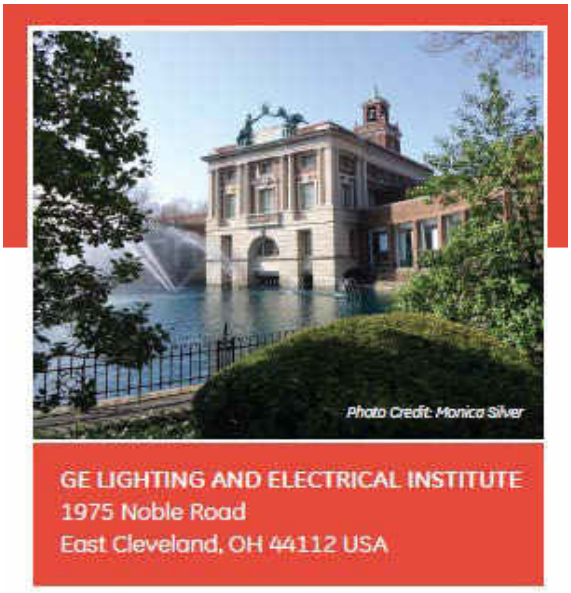
Grainger has video tutorials available for our customers such as "Getting Started and Account Administration that are available on Grainger.com, allowing customers to view these tutorials at their convenience. Frequently asked questions ❶ are available in addition to a Grainger.com customer guide. ❷

Other available tutorials include "Where is my Order" which previews Order History, Invoice History, Account Settings and Customizing your view and downloading data.

Key Grainger Supplier Training

CHESS customers will also have access to a variety of additional training at no charge. Through our relationship with industry leading manufacturers and suppliers, Grainger offers a variety of product training topics. While most of these training seminars are conducted at Member locations, other options are available. These programs include:

- **Proto Tools Hand tool safety seminar and film** – Training includes a demonstration of the correct method of tool usage through a presentation by Proto and Grainger representatives. A certificate is issued upon completion of class.
- **DeWalt Power Tools** – Training and customer safety presentations includes demonstrations of safe operating practices for power tools. Presented jointly by Grainger and DeWalt representatives.
- **Fire-Resistant Workwear Training** - Evaluation and training of hazards to help determine proper product selection and use, and identifying cost savings.



- **Fall Protection Training** - Specific courses designed to train for safety at heights, equipment inspection, rescue planning and tower climbing. Customized training courses are also available.
- **Hearing Protection & Conservation Training** – Training includes instruction on the importance of proper use of hearing protection devices and is designed to assist your business in becoming compliant with OSHA standard 29 CFR 1910.95.
- **Gas Detection Equipment Training** - Instruction on how to use gas detection products, including calibrating the equipment.

- **Arc Flash Awareness Seminar** - Designed to bring awareness to the National Fire Protection Agency. Topics include methods of assessment, Personal Protective Equipment (PPE), proper electrical tools, test instruments and labeling of hazards.
- **Fuses & Power Distribution Training** - Seminars are tailored to site safety requirements in proper application of fuses to help protect electrical equipment and power distribution systems.
- **Spill Containment Training** - Employees are trained to use correct products and procedures for specific spill control and absorbent applications. Assessment involves detailing current spill maintenance procedures, identification of new and enhanced procedures and suggested improvements.
- **Climbing Pro Ladder Training** - Includes training literature and video on safe and proper ladder use, how to select the correct ladders for the job and ladder inspection.

Grainger key suppliers' and manufacturers' dedicated field resources work to train and assist customer employees in energy reduction areas including:

Lighting and Electrical Training: GE provides training for Grainger customers at their Lighting and Electrical Institute. *(Class fee is waived, transportation to training is the customer's expense)*

Training Session includes:

- Trends in the Lighting Industry
- New Product Updates
- Lighting and Equipment and Controls
- Energy Legislation Updates
- LED Lamps, Fixtures, Systems

Special Topics include:

- GE Lamp and Fixture Solutions
- Lighting Fixture Layouts and Solutions
- Property Management & Office Lighting
- Outdoor and Industrial Lighting

Occupancy Sensor Layout: Grainger's supplier Hubbell is available to meet and discuss any project related to occupancy sensors. Grainger and Hubbell can provide an occupancy sensor layout based on blueprints, either in electronic or paper form and a bill of material (BOM). Hubbell has also developed a simple to use tool, the H-MOSS® ROI. This worksheet calculates present annual energy costs without sensors and estimated annual savings with sensors.

New Product Training

Grainger introduces new products continually which may be viewed by CHESS customers at: **NEW PRODUCTS**

Training for use and/or utilization of any of these products can be coordinated through Grainger's local Government Sales Representatives, local branch personnel and / or General Catalog manufacturers and suppliers. Grainger will work with CHESS customers to schedule training on new products for which they identify a need.

Safety Training and Assessments

Through our strategic suppliers, the following training solutions are offered to CHESS Customers:

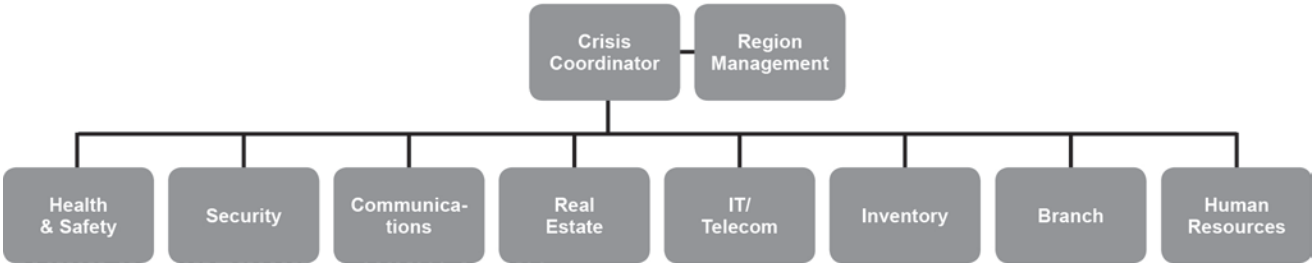
FALL PROTECTION — FROM HEIGHTS	Value Add
Fall Protection Assessment* A plant/site survey is conducted to identify potential fall protection hazards as well as suggest products or programs to minimize risk	√
Fall Protection Training (Basic) Specific courses designed to train for safety at heights, equipment inspection, rescue planning and tower climbing. Customized training courses are also available. Training can also be done using a mobile demonstration vehicle which demonstrates arresting forces workers would experience during a fall.	√
SAFETY COMMUNICATION	**Value Add**
Safety Paint Assessment Conducts an on-site survey to determine the condition and location of safety markings and recommend the proper safety coatings.	√
HAND PROTECTION	**Value Add**
Hand Protection & Glove Program Assessment Evaluates your glove program to determine proper selection and use, and identify cost savings. Samples are provided, allowing users to ensure proper fit and application.	√
EXTENDED STANDING/SITTING	**Value Add**
Ergonomic Matting Assessment Evaluates your facility to recommend anti-fatigue matting to help reduce back and lower leg fatigue for employees who stand while working. Identifies the proper mat for use in areas with oils or chemicals and provides 12" samples to stand on or test against chemicals.	√
FALL PREVENTION — FROM SLIPS & TRIPS	**Value Add**
Slips, Trips & Falls Assessment Provides a pedestrian safety site assessment that takes in customer facility observations and gives back recommended products and solutions to help your facility become safer for employees and guests	√
Floor Coating & Anti-Slip Assessment An evaluation based on application, hazard concerns and safety color-coded paint requirements.	√
LADDERS & SCAFFOLDING SAFETY	**Value Add**
Climbing Pro Ladder Safety Kit Includes training literature and video to help provide training on safe and proper ladder use, how to select the correct ladders for the job and ladder inspection. Includes a quiz to reinforce learning.	√
FALL PREVENTION — FROM FLOOR AND WALL OPENINGS	**Value Add**
Flexiguard™ Engineered Service Custom engineered Flexiguard™ systems create unique fall protection and access solutions that meet the requirements of your specific application. Also includes on-site assembly and user training services.	√
HEARING PROTECTION	**Value Add**
Hearing Protection & Conservation Training Designed to assist your business or institution in becoming compliant with OSHA standard 29 CFR 1910.95. Includes instruction on the importance of proper use of hearing protection devices.	√
ELECTRICAL SAFETY	**Value Add**

FALL PROTECTION — FROM HEIGHTS	Value Add
Arc Flash Awareness Seminar Designed to bring awareness to the NFPA 70E standard. Additional topics reviewed are methods of assessment, PPE equipment, proper electrical tools, test instruments and labeling of hazards.	√

Safety Fee-Based Training

SUPPLIER / NAME OF SERVICE	FEE BASED	BRIEF DESCRIPTION
Cree / SmartCast Wireless Lighting & Controls Commissioning	✓	Cree's SmartCast PoE embeds intelligence to make buildings more efficient and people more productive, while delivering far better light for less energy than ordinary LED lighting systems. Cree will provide onsite resources to support the commissioning of SmartCast enabled fixtures to optimize energy saving benefits.
Cree / Engineering Site Audit for Lighting & Controls	✓	For large sophisticated lighting and controls projects Cree offers an on-site walk-thru conducted by a Cree Engineer who will perform audit on applications and other services. Cree does the complete upfront engineering of the project, maximizing lighting performance, reducing maintenance and optimizing energy savings.
Cree / SmartCast PoE Energy Advisor	✓	The Cree SmartCast Advisor™ is a powerful suite of applications that offers immediate and actionable business insights. It intelligently monitors your building with the SmartCast® PoE lighting network and provides tips on making your business more profitable with recommendations for energy efficiency, putting your spaces to better use, and much more. SmartCast Advisor™ is available for a monthly fee.
Cree / Turnkey Project Management	✓	For customers seeking specialized expertise and support on large lighting & control opportunities - Cree offers a fee-based Turnkey Project Management service to manage lighting projects from engineering to installation to commissioning. Every aspect of the project is billed on one invoice.
Georgia-Pacific / Harmon Recycling Program	✓	GP Harmon's Retail & Distribution Solutions recycling program diverts paper, plastic and metal from landfills in order to avoid waste and minimize the environmental impact of your business. Our recycling program is unique and custom-designed to help meet, and even exceed, your sustainability goals.
Georgia-Pacific / Packaging System Optimization	✓	Collaborate with a team of engineers and packaging scientists to develop innovative packaging solutions that improve functionality and reduce waste.
GOJO / Dispenser Disposal & Recovery	✓	GOJO will coordinate the removal, transport, and sustainable disposal of old hand soap and sanitizer dispenser materials when completing a GOJO managed dispenser installation project. This is a great option for large installation/conversion projects and a great way to support sustainability initiatives within your facilities.
Henkel-LOCTITE / Air Leak Survey	✓	The sooner any loss of air, steam or other pressurized gases is detected in equipment, the faster it can be returned to optimal efficiency. To reduce consumption and costs this service includes a site survey, documented findings, cost savings analysis and training.
Henkel-LOCTITE / Terracycle Program	✓	For customers utilizing LOCTITE Anerobics or Light Cure Technologies Henkel has a solution to help you meet recycling goals and recycle items that were previously non-recyclable. Through an innovative partnership with TerraCycle® boxes are provided to enable convenient return shipping.

GRAINGER ONLINE SERVICES	Fee-Based
• Grainger Online SafetyManager® System† • Online Safety Training Library with Tracking • Authorized Online OSHA 10- & 30-Hour Outreach Training • Online NFPA 70E Electrical Safety Training	√



• SDS Management • Safety Prescription Eyewear Services • LOTO Procedure Services/ Training	
FOOTWEAR OFFERING	**Fee-Based**
• Customized Online Website • Grainger Footwear Center • Grainger Shoemobile (additional details presented in the following section)	√
FALL PROTECTION — FROM HEIGHTS	**Fee-Based**
Fall Protection Training (Competent Person) Covers the OSHA Fall Protection standards 29 CFR 1910 Subpart D and 29 CFR 1926 Subpart M for both General Industry and Construction. Special attention will be given to personal fall arrest systems. Participants evaluate hazards and develop practical resolutions within the general industry and construction environments. This training will give participants the skills necessary to fulfill the role of "competent person" as defined by OSHA for their company.	√
Flexi-guard™ Engineered Service Custom engineered Flexi-guard™ systems create unique fall protection and access solutions that meet the requirements of your specific application. Also includes on-site assembly and user training services.	√
HAZARD COMMUNICATION/GHS	**Fee-Based**
Haz-Comm/GHS Production Workshop This workshop combines regulatory training and Globally Harmonized System (GHS) label creation to help your business or institution meet OSHA GHS implementation requirements and sustain in-house compliance.	√
Hazardous Communication Training Focusing on the specific requirements of OSHA 29 CFR 1910.1200 Subpart Z, this course offers an overview of hazard communication standards, requirements and responsibilities; training requirements; how to make a hazard determination; hazard chemical characteristics; container labeling and other hazard warnings; safety data sheets; employee training requirements; hazard prevention; minimization; preparedness; and exposure monitoring plans.	√
ERGONOMICS	**Fee-Based**
Ergonomic Assessment* A comprehensive on-site ergonomic job assessment which reviews potential hazardous areas. Assessment includes a review of any job hazard analysis (JHAs) for the jobs, a review of employees performing jobs at workstations, measurements of workstations and tasks, and an outline of all findings and recommendations with an action list for each job reviewed.	√
FALL PREVENTION — FROM SLIPS & TRIPS	**Fee-Based**
Floor Coating Installation Service Includes an on-site professional survey, quote and installation of Rust-Oleum® floor coatings.	√
HEARING PROTECTION	**Fee-Based**
Audiometric Testing On-site audiometric testing employs state-of-the-art technology in a clean, comfortable setting. Designed to help you comply with OSHA's Hearing Conservation standard 29 CFR 1910.95.	√
ELECTRICAL SAFETY	**Fee-Based**
Arc Flash Hazard Assessment Designed to assist your facility in complying with the NFPA 70E standard. Includes identification, data collection, analysis and labeling of all electrical arc flash hazards in your facilities. Includes regulatory compliance training of qualified persons in safe workplace practices.	√
Arc Flash Training Safety seminar for anyone working on or near electricity. Topics include flash protection boundaries, PPE, hazard/risk category classifications, shock/electrocution, arc flash calculations, related regulations, and safe work practices and procedures. This training is required for electrical maintenance personnel, operators, troubleshooters, electricians, linemen, engineers, supervisors, site safety personnel or anyone exposed to energized equipment of 50 volts or more.	√

Capabilities 24	** In the event of a disaster, Participating Entities must continue its mission of teaching, research, public service, and patient care. Participating Entities is seeking information from suppliers who can provide equipment, supplies, resources, and/or services during emergency situations. Please describe your emergency response capabilities and response time, in the MRO category, and any other relevant emergency information. Please respond with the four items listed below: (a.) Capabilities (b.) CHESS/Participating Entity Priority (c.) Experience (d.) Ability to manage Emergency Response items for a Participating Entity*

(a) Capabilities: Grainger's emergency management plan assures immediate response and delivery of goods/services to address emergencies, large and small. Our plan is drawn from many years of experience and supported by unmatched inventory and supply chain resources and team Member expertise. Our supplier relationships and supply chain capability assures that product is directed to where and when it is needed. In any emergency situation, all products are provided at the CHESS / National IPA contract pricing.

Grainger's Crisis Management Team is the foundation of the effort to assist CHESS / National IPA emergency responders and their communities. The Crisis Response Team assists in planning and responding to weather events and other forecasted circumstances. It assesses needs to position supplies, personnel and other resources to locations prior to the incident so that distribution commences immediately. Much of the planning is drawn from Grainger participation in local first responder preparation exercises.

Crisis Management Team Chart

Grainger moves products from its 249 branch network and 13 regional Distribution Centers or directly from product suppliers. In the event of a damaged or destroyed branch, our expansive network allows us to continue to service customers under the most extreme conditions. Depending on the type of emergency, a tailored requirement and inventory assessment is pursued. If additional products are required, a critical element in Grainger expeditious response is its breadth of inventory, capability to determine where inventory is located, and its transportation proficiency, personnel with expertise and experience and long term relationships with state, county local and federal agencies.

For specific Participating Entities emergency needs, the local Grainger field representative will engage the Participating Entity to address the circumstance within 60 minutes to understand the challenge and to commence response. Grainger provides emergency response services, whether the incident is small or large, at any time, to all CHESS Participating Entities. The Grainger Call Center provides **24/7** service at our 1-**800-GRAINGER** service line. Upon receiving a call, the Grainger representative contacts the Crisis Management Team leadership and/or communicates with the local Branch representative to open the nearest branch location.

Other Goods and Services Grainger Offers:

- **Grainger's Emergency Preparedness Landing Page** highlights relevant product categories for

a wide range of emergency situations.

- **Additional Product Solutions** obtained to respond to the specific emergency
- **Preparation of Product Needs and Requirements** are provided and updated on our Emergency Landing Page
- **Custom Kitting** packaged in response to specific Participating Entity needs

(b) CHESS & Participating Entity Priority of Supplies: Grainger is cognizant of the need to ensure the health and safety of the public. In severe emergency situations, product can be prioritized for First Responders/First Receivers and government organizations. A pre-determined product list, coordinated with local emergency response agencies from the planning, is used to move supplies to the affected area. Local leadership works with the Crisis Management Team and emergency management agencies, local law enforcement, first responders and first receivers, along with others to ensure appropriate and fair distribution to those prioritized entities. Grainger has demonstrated its capability to meet some of the most demanding needs in New York City during 9/11 and for the Gulf Coast region's responders during Hurricanes Katrina and Rita.

(c) Experience: Summarized below are some recent examples of Grainger's disaster support capabilities.

***Hurricane Harvey - August 2017*:** Hurricane Harvey became the first major hurricane to make landfall in the US since 2005 when it made landfall as a category-4 hurricane near Rockport, Texas, in August. As the storm tracked toward Texas, Grainger activated the Crisis Management Team for briefings every morning and afternoon. Supply chain teams quickly repositioned critical supplies within the Grainger distribution network of branches and regional distribution centers (DC). Grainger field representatives maintained a supporting presence within the State Emergency Operations Center (EOC) as well as the Harris County-City of Houston EOC and the Texas Department of Transportation EOC. Grainger's Roanoke Distribution Center, located near Fort Worth, played a central role in the distribution of supplies throughout response and recovery operations. Grainger transportation managers expedited deliveries in coordination with State, County and Local emergency offices. Grainger supplied ten truckloads of MRE's and several truckloads of bottled water to City of Houston and Harris County facilities to support evacuation shelters.

Grainger supported evacuation shelter operations in Dallas, Austin, San Antonio and other jurisdictions throughout Texas. Thousands of cots, blankets, sheets, sanitary and other supplies were delivered. Grainger also supplied several incident command centers with cones, barriers, canopies and other products. Working with the Texas Department of Public Safety and the Department of Emergency Management, Grainger delivered water rescue suits, hard hats, gloves, respirator masks. Grainger supplied the Texas Department of Transportation items including waders, rain boots, insect repellent, nets, respirators, and rain suits. Other items prioritized for first-responders and first-receivers included thousands of generators, electric cords, fuses, emergency lighting solutions and personal protective equipment.

Hurricane Irma – September 2017: While ongoing support from Hurricane Harvey continued in Texas, Grainger responded with product and resources to support emergency response for Hurricane Irma in Florida. Hurricane Irma first made landfall as a category-4 hurricane with maximum sustained winds at 130mph. In preparation for Hurricane Irma, Governor Rick Scott declared a state of emergency for Florida. Grainger deployed field representatives to the Emergency Operations Center (EOC) in Tallahassee as well as local EOC's across the state to maintain support to prepare, respond, and recover

from the hurricane. Grainger leveraged its supply chain and DC in Jacksonville, FL to provide products such as sandbags, batteries, generators, and tarps.

Grainger played a central role in working with the EOC's to support First Responders throughout the state by providing supplies, equipment, and personal protective equipment. While Florida had the largest evacuation in the state's history, many people remained and needed recovery from dangerous situations. The hurricane left over 70% of the state without power putting generators in high demand. Working directly with the EOC's Grainger was able to provide truckloads of generators, electrical cords, and batteries to state agencies as well as local cities and counties. Many generators were provided to the Department of Transportation (DOT) to keep traffic signals operational.

Grainger also provided chain saws, cones, barriers, signs, and other various supplies to DOC and the Department of Public Safety Shelters were established throughout the state and Grainger worked directly with the Department of Health EOC and local cities / county's EOCs to supply medical equipment, lighting solutions, MRE's, water, paper products, tents, wheelchairs, sanitary products, cots, etc.

Grainger aligned directly with the Department of Health to help prevent the spread of disease (Zika) which was a major concern after the hurricane. Grainger provided insect repellant, netting, mosquito dunks, and personal protective equipment.

Northern and Southern California Wildfires - 2017: The Northern California wildfires, in October 2017, stretched across Napa, Sonoma, Lake, Mendocino, Butte and Solano counties. The December 2017 Southern California wildfires covered Ventura, Los Angeles, San Bernardino, Riverside and San Diego counties. Engaging protocols established by the California Department of General Services (DGS), Office of Emergency Services (OES) Cal Fire, City and County Fire and Emergency Medical departments and the Federal Emergency Management Agency, agencies were assigned a Grainger team member as a single point of contact to coordinate. Each team member coordinated product requirements, transportation and delivery to facilities, staging areas and other mobile locations for various agencies. Team members were also assigned to area hospitals and schools to support as needed. Team members worked and were on call 24/7 during the height of each of these emergencies.

The Grainger Crisis Management Team from Lake Forest, Field Sales, local branches, DCs and other units coordinated assistance and prioritization through twice-daily calls. Most items were same-day shipped from Grainger's Patterson, California DC and delivered to Fire Crews, supporting agencies such as Cal Trans, the shelters established for citizen fleeing the fires, and area hospitals. Items included carbon filters, air purifiers, N95 masks, gloves, cots, tents, and cleaning and sanitary products. Effort was also made to push product from other Grainger DCs and branch facilities to the emergency areas.

Zika Virus - April 2016: A Zika Virus core team was established to identify supply requirements and to assess product availability based upon the Centers for Disease Control and Prevention (CDC) guidance. Grainger quickly added additional product solutions to our product portfolio and distribution network. The Grainger Technical Product Services team prepared and published the Zika Virus Quick Tip Bulletin to the Grainger.com Info Library. A Mosquito-Borne Virus page was added to the Grainger.com/emergency landing page highlighting the wide range of solutions offered to help customers mitigate the risk posed by this new threat.

(d) Ability to manage Emergency Response items for a Participating Entity: Grainger has proven capability to manage Emergency Response items for Participating Entities. As a first measure to ensure a Participating Entity has specific product availability during an emergency, Grainger's branches and DCs can tailor their inventory to specific Participating Entity location preferences and actual product demand. This provides a higher concentration of critical material needs closer to the Participating Entity during a crisis.

Grainger transportation managers also expedite deliveries from within our distribution network in coordination with customer's key contacts to support emergencies such as Grainger did in Hurricane Irma to provide truckloads of generators, electrical cords, and batteries to state and local agencies. The Grainger Crisis Management Team from Lake Forest, Field Sales, local branches, DCs and other units bring their experience and knowledge as the corner stone to our response plan. The Crisis Management Team provides assistance in communication, product prioritization and command center status updates through scheduled drum-beat calls. Grainger's team aligns and communicates directly with the local, state and regional emergency management teams to ensure product availability for all types of emergencies and circumstances.

RE: W.W. Grainger, Inc., Letter of Exceptions to the Proposal RFP-MRO-UC System Wide-Jan3 12018

Dear Mr. Ferreira:

W.W. Grainger, Inc., ("Grainger") appreciates the opportunity to respond to the University of California (UC) Request for Proposal # RFP-MRO-UC System Wide-Jan31 2018 for California Higher Education Procurement of Maintenance Repair and Operations ("MRO") supplies and related services. As you know, Grainger's focus on contract compliance and customer satisfaction is second to none. To that end, Grainger respectfully requests the opportunity to incorporate, should we be awarded this contract, our agreed upon clarifications and exceptions into the terms of our agreement. Our objective is to earn the privilege of working with both UC and National IPA on this vitally important co-operative opportunity and doing so with an understanding that our expectations with respect to operationalization of this contract and its terms are aligned. In accordance with Section 5.4 of this RFP, your favorable consideration of the following *exceptions to the proposal RFP-MRO-UC System Wide-Jan3 12018* is requested:

2.6.1. **Original language**: Price Increase Documentation and Price Update Procedure: It should not be a forgone conclusion that Supplier automatically be granted a price increase each year on all items in the System or Market Basket. Supplier must provide a minimum 90-day notice of a price increase with supporting documentation. CHESS will evaluate price increase supporting documents and implement upon mutual acceptance. It is the intent of both parties that the Supplier(s) utilize best practices in Supply Chain Management to minimize cost increases.

Modified language: Price Increase Documentation and Price Update Procedure: It should not be a forgone conclusion that Supplier automatically be granted a price increase each year on all items in the Supplier's catalog ~~System~~ or Market Basket. Supplier must provide a minimum thirty (30) ~~90~~ day notice of a price increase ~~with supporting documentation~~. CHESS will evaluate price increase supporting documents if provided and implement upon mutual acceptance. It is the intent of both parties that the Supplier(s) utilize best practices in Supply Chain Management to minimize cost increases.

2.6.2. **Original language:** Volatile Product Price Increases: For any System or Local Market Basket Item, where such Volatile Product has a significant price increase in excess of 3%, the parties agree to review those prices as frequently as quarterly and to negotiate prices

for such Volatile Products individually in good faith between the parties. Increases must be mutually agreed upon by the parties.

Modified language: Volatile Product Pricinge ~~Increases~~: For any Supplier's catalog ~~System~~ or ~~Local~~ Market Basket Item deemed a ~~, where such~~ Volatile Product, pricing for that product will be based on market conditions at the time of purchase. ~~has a significant price increase in excess of 3%, the parties agree to review those prices as frequently as quarterly and to negotiate prices for such Volatile Products individually in good faith between the parties. Increases must be mutually agreed upon by the parties.~~

2.6.3. **Original language:** Price Decreases: UC accepts price decreases as soon as they are available and can be entered into e-procurement or e-commerce purchasing processes. Notwithstanding anything to the contrary, Supplier(s) shall upload new pricing files within five (5) business days of receipt or as otherwise indicated, such other time to be not less than five (5) business days.

Modified language: Price Decreases: UC will be provided ~~accepts~~ product price decreases as soon as they are available and can be entered into e-procurement or e-commerce purchasing processes. Notwithstanding anything to the contrary, Supplier~~(s)~~ shall upload new product content files reflecting price~~ing files~~ decreases up to three (3) times per year.~~within five (5) business days of receipt or as otherwise indicated, such other time to be not less than five (5) business days.~~

2.6.5 **Original language:** Manufacture Direct Pricing Agreement: UC may request Supplier(s) to negotiate directly with manufactures for better pricing and or discounts, for the benefit of UC and/or each Participating Entity. Further, UC reserves the right to negotiate directly with manufactures for items purchased. Upon mutual agreement, Supplier may be selected to distribute the Product to UC and/or Participating Entity.

Modified language: Manufacture Direct Pricing Agreement: UC may request Supplier(s) to negotiate directly with manufactures for better pricing and or discounts, for the benefit of UC and/or each Participating Entity. Further, UC reserves the right, as mutually agreed upon, to negotiate directly with manufactures for items purchased. Upon mutual agreement, Supplier may be selected to distribute the Product to UC and/or Participating Entity.

2.6.6 **Original language:** Contractor Participation Contractors and Subcontractors: At the direction of Participating Public Agencies, to other Participating Agency Contractors or subcontractors, contractors shall extend this Agreement's pricing and category discounts to other UC Contractors and Subcontractors (herein referred to as "Other UC Contractor") for UC-related spend if Other UC Contractor provides Contractor with valid UC project number/project name and the Product is to be shipped directly to the Participating Entity related to the project. Contractor has the right to verify with UC and the UC Project Number/Project Name. Contractor also has the right to limit or terminate an Other UC Contractor use of this Agreement if the Other UC Contractor fails to timely pay Contractor for Product, fails to establish and maintain adequate credit worthiness or utilizes this Agreement for the benefit of anyone other than the Participating Entity for which the project relates.

Modified language: Contractor Participation Contractors and Subcontractors: At the direction of Participating Public Agencies, to other Participating Agency Contractors or subcontractors, contractors shall extend this Agreement's pricing and category discounts to other UC Contractors and Subcontractors (herein referred to as "Other UC Contractor") for UC-related spend if Other UC Contractor provides Contractor with valid UC issued Letter of Authorization which shall include project number/project name and the Product is to be shipped directly to the Participating Entity related to the project. Contractor has the right to verify with UC and the UC Project Number/Project Name. Contractor also has the right to limit or terminate an Other UC Contractor use of this Agreement if the Other UC Contractor fails to timely pay Contractor for Product, fails to establish and maintain adequate credit worthiness or utilizes this Agreement for the benefit of anyone other than the Participating Entity for which the project relates.

2.6.7 **Original language:** Core Lists:

a) National Core List- Provides for the deepest discounts on a variety of products to agencies nationwide. Pricing on the National Core List shall be provided to all Participating Agencies.

b) Customized Core List- In addition to the National Core List, Offerors MUST provide customized core lists to agencies, structure, implementation, and management. Custom Core List pricing will be held for a period of one (1) year, evaluation and selection of items will be mutually agreed upon. Supplier(s) will support a Participating Entity, if assistance is needed to create a Customized Core List that brings greatest value.

Modified language: Core Lists:

a) National Core List, which is also referred to as the Market Basket - Provides for the deepest discounts on a variety of products to agencies nationwide. Pricing on the National Core List shall be provided to all Participating Agencies.

b) Customized Core List, which is also referred to as the Hot List - In addition to the National Core List, Offerors MUST provide customized core lists to agencies, structure, implementation, and management. Custom Core List pricing will be held for a period of one (1) year, evaluation and selection of items will be mutually agreed upon. Supplier(s) will support a Participating Entity, if assistance is needed to create a Customized Core List that brings greatest value.

2.7.1 **Original language:** Price Updates. As described above in Product Pricing, prices for Core List shall be reviewed and subject to change one per year from 1st January. Third Party Product pricing and pricing for special price promotions shall be reviewed and updated on a quarterly basis (or earlier if mutually agreed). Price decreases shall be implemented on the quarterly review (or such earlier date mutually agreed by the parties). Changes to price file shall be submitted to UC and shall have a maximum period of 30 days to review and approve updates or raise objections. Objections shall be reviewed on a case by case basis with the balance of price amendments being approved for upload. In the event that UC does not approve or reject any updates within 45 days of the revised file being submitted to UC, then Seller shall be entitled to load the new pricing.

Modified language: Price Updates. As described above in Product Pricing, prices for Core

List shall be reviewed and subject to change once per year from 1st January. Third Party Product pricing and pricing for special price promotions shall be reviewed and updated up to three (3) times per year~~on a quarterly basis (or earlier if mutually agreed)~~. Price decreases shall be implemented as described above up to three (3) times per year.~~ on the quarterly review (or such earlier date mutually agreed by the parties)~~. Changes to price file shall be submitted to UC and shall have a maximum period of thirty (30) days to review and approve updates or raise objections. Objections shall be reviewed on a case by case basis with the balance of price amendments being approved for upload. In the event that UC does not approve or rejects any proposed updates within thirty (30~~45~~) days of the revised file being submitted to UC, then Seller shall be entitled to load the new pricing.

2.15 **Original language:** LAST MILE DELIVERY MODEL INCENTIVE:

In this delivery model the Supplier(s) has the ability to provide an incentive to Participating Entity for a Centralized Delivery model. The Participating Entity will provide Last Mile Delivery at their location. Individual Participating Entities will work with Supplier based upon their individual location needs to determine the most appropriate delivery model and financial terms for their situation. If a location elects to change business models during the Term of this Agreement or any Extensions to the Agreement, the Supplier will provide an Incentive to that location consistent with the Incentives offered to the Participating Entities. Proposed incentive and all program details in the Value Add section of the Questions.

Modified language: LAST MILE DELIVERY MODEL INCENTIVE:

In this delivery model the Supplier(s) has the ability to provide an incentive to Participating Entity for a Centralized Delivery model. The Participating Entity will provide Last Mile Delivery at their location. Individual Participating Entities will work with Supplier based upon their individual location needs to determine, as mutually agreed upon, the most appropriate delivery model and financial terms for their situation. If a location elects to change business models during the Term of this Agreement or any Extensions to the Agreement, the Supplier will provide an Incentive to that location consistent with the Incentives offered to the Participating Entities. Proposed incentive and all program details in the Value Add section of the Questions.

3.1 **Original language:** Settlement Method and Terms are outlined in Attachment I.

Modified language: Supplier will invoice UC in accordance with Option 1, payment Net 30, minus "ACH 2% 10", as outlined in ~~Settlement Method and Terms are outlined in~~ Attachment I, Supplier Invoicing, Terms and Settlement Matrix.

3.10.1. **Original language:** Stock Item Delivery: Orders placed before 5:00 p.m. local time will ship the same day for next day delivery.

Modified language: Stock Item Delivery: Orders placed before 5:00 p.m. local time should be ~~will~~ shipped the same day for next day delivery.

3.10.4. **Original language:** Returns: Full credit guaranteed on any return regardless of reason if within thirty (30) days of receipt with receipt, invoice, packing slip or similar documentation.

Modified language: Returns: Full credit guaranteed, minus special handling and/or shipping cost, if applicable, -on any return regardless of reason if within thirty (30) days of receipt with receipt, invoice, packing slip or similar documentation.

3.10.5 **Original language:** Return Pick-up: Pick-up will occur within five (5) days from request. Return time frame begins as of date of request for pick-up.

Modified language: Return Pick-up: ~~Pick-up will occur within five (5) days from request. Return time frame begins as of date of request for pick-up.~~ All products sold are warranted by Grainger only to purchasers for use in business or original equipment manufacturer. The warranty covers defects in workmanship or materials, under normal use, for one year from date of purchase from Grainger, unless otherwise stated in the product listing in the General Catalog. Any part which is determined by Grainger to be defective in material or workmanship and returned to a Grainger branch or authorized service location, as Grainger designates, with shipping costs prepaid, will be, as the exclusive remedy, repaired or replaced, at Grainger's option.

3.10.12. **Original language:** Quote Turnaround: 24 hours

Modified language: Quote Turnaround: Customer requests for quotes for product or services not found in Suppliers catalog and/or online offering, also known as Sourced product and/or service requests, will generally be returned to the customer within 24 to 48 hours.

ATTACHMENT A - PRICING

Original language: 2.0. Please provide the percentage off list pricing for any of the categories you want to propose in the table below. The proposed discount percentages must not exceed 2 digits (i.e., 10.37% is acceptable while10.37862% is not).

Modified language: 2.0. Please provide the percentage off Contract Reference Price~~list~~ ("CRP") ~~pricing~~ for any of the categories you want to propose in the table below. All percentage-off discounts for Catalog Products shall be deducted from the CRP in effect at the time the Catalog Product is purchased by UC from Supplier. Current Contract Reference Prices for Catalog Products shall be available when UC logs into its account on Supplier's Website. The proposed discount percentages must not exceed 2 digits (i.e., 10.37% is acceptable while10.37862% is not).

EXHIBIT A- RESPONSE FOR NATIONAL COOPERATIVE CONTRACT

1.2. **Last Indented Section. Original language:** Suppliers are required to pay an administrative fee of 3% of the greater of the Contract Sales under the Master Agreement and Guaranteed Contract Sales under this Request for Proposal. Supplier will be required to execute the National IPA Administration Agreement (refer to Exhibit B).

Last Indented Section. Modified language: In the event of a single award, Suppliers are required to pay an administrative fee of 3% of the total ~~greater~~ of the Contract Sales under the Master Agreement and Guaranteed Contract Sales under this Request for Proposal. Supplier will

be required to execute the National IPA Administration Agreement (refer to Exhibit B).

Supplier shall pay National IPA an administrative fee in the amount of three percent (3%) of the total purchase price paid to Supplier in the event of a single award or two percent (2%) in the event of a multiple award, less refunds, credits on returns, rebates and discounts, shipping fees and any applicable taxes for the sale of products and/or services pursuant to the Master Agreement (as amended from time to time and including any renewal thereof) ("Contract Sales"). Supplier shall provide National IPA with an electronic accounting report, in Microsoft Excel, in the format prescribed by National IPA, on a monthly basis summarizing all Contract Sales for such month. A sample of the Contract Sales reporting format is provided as Exhibit 5, attached hereto and incorporated herein by reference. To the extent Supplier has guaranteed minimum Contract Sales pursuant to the terms of the Master Agreement in accordance with the terms of its proposal, the administrative fee shall be calculated based on the greater of the Contract Sales and the guaranteed Contract Sales set forth in Supplier's proposal.

1.5. B. **Original language:** Establish the Master Agreement as the Supplier's primary go to market strategy to Public Agencies nationwide;

Modified language: Establish the Master Agreement as one of the Supplier's primary go to market cooperative strategies to Public Agencies nationwide;

2.1 Corporate Commitment
Original language: Supplier commits that (1) the Master Agreement has received all necessary corporate authorizations and support of the Supplier's executive management, (2) the Master Agreement is Supplier's primary "go to market" strategy for Public Agencies, (3) the Master Agreement will be promoted to all Public Agencies, including any existing customers, and Supplier will transition existing customers, upon their request, to the Master Agreement, and (4) that the Supplier has read and agrees to the terms and conditions of the Administration Agreement with National IPA and will execute such agreement concurrent with and as a condition of its execution of the Master Agreement with the Principal Procurement Agency. Supplier will identify an executive corporate sponsor and a separate national account manager within the RFP response that will be responsible for the overall management of the Master Agreement.

Corporate Commitment
Modified language: Supplier commits that (1) the Master Agreement has received all necessary corporate authorizations and support of the Supplier's executive management, (2) the Master Agreement is one of Supplier's ~~primary~~ "go to market" cooperative strategies for Public Agencies, (3) the Master Agreement will be promoted to all Public Agencies, including any existing customers, and Supplier will transition existing customers, upon their request, to the Master Agreement, and (4) that the Supplier has read and agrees to the terms and conditions of the Administration Agreement with National IPA and will execute such agreement concurrent with and as a condition of its execution of the Master Agreement with the Principal Procurement Agency. Supplier will identify an executive corporate sponsor and a separate national account manager within the RFP response that will be responsible for the overall management of the Master Agreement.

2.2 Pricing Commitment
Original language: Supplier commits the not-to-exceed pricing provided under the Master

Agreement pricing is its lowest available (net to buyer) to Public Agencies nationwide and further commits that if a Participating Public Agency is eligible for lower pricing through a national, state, regional or local or cooperative contract, that the Supplier will match such lower pricing to that Participating Public Agency under the Master Agreement.

Pricing Commitment

Modified language: ~~Supplier commits the not-to-exceed pricing provided under the Master Agreement pricing is its lowest available (net to buyer) to Public Agencies nationwide and further commits that if a Participating Public Agency is eligible for lower pricing through a national, state, regional or local or cooperative contract, that the Supplier will match such lower pricing to that Participating Public Agency under the Master Agreement.~~ Supplier's prices for items sold to UC will not exceed the price for the same or similar items sold to other government customers for the same of similar quantities of product in a similar product mix, under the same or similar terms and conditions. UC acknowledges, that due to the vast numbers of items sold by Supplier and Supplier's extensive customer base, as well as the different ways customers structure requests for proposals and bids, Supplier cannot assure UC that items sold to other customers for products will not be sold at a better price or discount. Even within the Master Agreement, since Supplier will provide customized Market Baskets to NIPA Participating Public Agencies, these members will receive different pricing and discounts on products. This is also true for other customers.

3.3 Marketing and Sales

A. **Original language:** Provide a detailed ninety-day plan beginning from award date of the Master Agreement describing the strategy to immediately implement the Master Agreement as your company's primary go to market strategy for Public Agencies to your teams nationwide, to include, but not limited to:

i. Executive leadership endorsement and sponsorship of the award as the public sector go-to-market strategy within first 10 days

A. Modified language: Provide a detailed ninety-day plan beginning from award date of the Master Agreement describing the strategy to immediately implement the Master Agreement as one of your company's ~~primary~~ go to market cooperative strateg~~y~~ies for Public Agencies to your teams nationwide, to include, but not limited to:

ii. Executive leadership endorsement and sponsorship of the award as one of your company's ~~the~~ public sector go-to-market cooperative strateg~~y~~ies within first 10 days

M. **Original language:** Provide the Contract Sales (as defined in Section 10 of the National Intergovernmental Purchasing Alliance Company Administration Agreement) that your company will guarantee each year under the Master Agreement for the initial three years of the Master Agreement ("Guaranteed Contract Sales").

M. **Modified language:** Provide the Contract Sales (as defined in Section 10 of the National Intergovernmental Purchasing Alliance Company Administration Agreement) that your company will use reasonable commercial efforts to ensure ~~guarantee~~ each year under the Master Agreement for the initial three years of the Master Agreement ("Guaranteed Contract Sales").

$_____.00 in year one
$_____.00 in year two
$_____.00 in year three

This RFP response has been specifically tailored for National IPA and Participating Public Agencies with a focus on city, county and education customers. Upon contract award, the Master Agreement will be offered as an option to National IPA's Participating Public Agencies. Further, Grainger will work with the National IPA in marketing the contract with a goal of trending growth.

EXHIBIT 4 - CHESS REQUIREMENTS

3.4 **Original language:** All employees of the Contractor shall wear a company uniform identified with the company name consisting of a minimum of one of the following:

Modified language: All third party suppliers and vendors ~~employees~~ of the Contractor shall wear a company uniform identified with the company name consisting of a minimum of one of the following:

Appendix – Data Security and Privacy.

Original language: Data Security and Privacy.

Modified language: Data Security and Privacy. This Appendix is not applicable as Supplier will not connect to UC Information Resources and/or gain access to Non-public Information.

Attachment A-1 Price Workbook - Power Tools & Accessories
Attachment A-1 Price Workbook - Outdoor Equipment
Attachment A-1 Price Workbook - Hand Tools
Attachment A-1 Price Workbook – Fasteners
Attachment A-1 Price Workbook – Electrical

Original and modified language is incorporated into the following market basket line item product overview, which contains line items from the above referenced Attachment A-1 Workbooks. These line items are highlighted to illustrate Unit of Measure ("UOM") differences between Grainger product offered and UC Workbook product UOM requirements. Spreadsheet formatting does not allow for UOM variances.

Note:

***This Pricing discount structure (%) must comply with pricing proposed in ATTACHMENT A-1 PRICING ANALYSIS WORKBOOK.**

As part of Grainger's 2017 strategic pricing initiative, Grainger introduced Contract Reference Prices ("CRP") as the new basis for its contract customer pricing. Grainger's CRP prices are market-based and lower than Grainger's historic List Prices. Because CRP prices are lower than Grainger's prior List Prices, contract category discounts are also lower. As a result, a larger category discount percentage offered by a competitor may not yield a lower product price.

More Products. Thousands of Solutions. One Source.

INVENTORY MANAGEMENT SOLUTIONS FOR YOUR LAB

Helping you take costs out of your business.

KeepStock®
A Managed Inventory Solution

Get Control of Your Inventory

Grainger KeepStock® solutions can help you save money, time and space when it comes to managing your lab inventory. Let us help make sure you always have the right products, in the right quantity, when and where you need them.

Avoid Stock-Outs

- Help productivity, reduce emergency purchases and avoid downtime by having critical products readily available.

Better Data Intelligence & Reduce Loss

- Support your lab by only purchasing what you need. Plus know who is using what, when, how much and where.

Reduce Complexity & Improve Processes

- Simplify finding, counting and reordering key lab products, making your purchasing approvals faster and easier.

CAREER & TECHNICAL EDUCATION EQUIPMENT

Keeping your classroom equipt is no easy task. Let Grainger help. We carry a variety of supplies and equipment to help create a real-world learning environment for your students and staff.

AUTOMOTIVE

CONSTRUCTION

ELECTRONICS

HEALTHCARE

HVAC

MAKERSPACES

MANUFACTURING

PLUMBING

PUBLIC SAFETY

One-Stop Source for All Your Classroom Needs

Make Grainger your one-stop shop for equipment and supplies that will support your curriculum and fit your budget. From skilled trades like metalworking and manufacturing to public safety and healthcare, we support a variety of career clusters, helping you create exciting, real-world learning opportunities. With over 1.5 million products, we have what you need to help keep your students engaged and inspired all school year long.

Maxmize Your Contract Benefits

Grainger has been awarded many competitively bid state, local and cooperative contracts for the items you need. Count on us to help you spend less time shopping for products and more time on your organization's priorities.

Tooling Up Tomorrow's Workforce for Success

Since 2006, Grainger has awarded over $4 million through the Tools for Tomorrow® scholarship program. The scholarship recognizes outstanding students with a $2,000 scholarship and a customized Westward® toolkit upon successful completion of the student's technical education program. Visit **graingercsr.com** to learn more.

Introducing the Click2Buy℠ Direct Solution

An Innovative Maintenance Management Solution

Educational institutions can face hurdles like addressing maintenance routines, responding to repair requests, assigning personnel, acquiring parts and supplies, staying compliant with purchasing requirements and reconciling expenditures. Traditionally, these have been very distinct and disjointed processes resulting in lost time, financial implications, customer frustration and inconsistency of information.

The Click2Buy Direct solution helps you gain efficiencies by combining work order management, the purchase of supplies and inventory management into one comprehensive solution—helping to save you time, money and inventory space. This allows you to spend more time focused on maintaining your campus and school, and less time on paperwork and administrative tasks.

This innovative solution helps:

- Automate and standardize the work order, purchase order, invoice and reconciliation processes.
- Improve tracking with the ability to add financial assignments (account codes, cost centers, blanket PO #'s and budget codes) and simplify reconciliation with automated carry-through of work order numbers all at the line item level.
- Control spend with the ability to add spend controls like minimums, maximums, hierarchy approval and more.
- Streamline the payment process. Sign on to your Grainger.com® account through SchoolDude® once and you never need to sign in again.

For more information, email us at Click2Buy@Grainger.com today!

Click2Buy℠ Direct Solution Frequently Asked Questions

What is the Click2Buy Direct solution?
An integrated work order management parts ordering solution jointly offered by SchoolDude® and Grainger.com®.

Who is SchoolDude?
SchoolDude is a leading provider of cloud-based facility and asset management solutions for educational institutions. Their flagship MaintenanceDirect® platform is a work order management solution that allows clients to initiate, submit, route, assign and complete work orders electronically. This software also allows clients to capture parts, labor and other costs associated with work orders.

The Click2Buy Direct solution is a fully-integrated ordering solution between SchoolDude and Grainger.com. Through this functionality, customers can manage work orders in SchoolDude while identifying parts needed for each job, as well as product cost and any other related costs when ordering via Grianger.com.

What are the benefits of the Click2Buy Direct solution?
Education institutions face hurdles like addressing maintenance routines, responding to repair requests, assigning personnel, acquiring parts and supplies, staying compliant with purchasing requirements and reconciling expenditures. Often these have been very distinct and disjointed processes resulting in lost time, financial implications, customer frustrations and inconsistency in information. The Click2Buy Direct solution integrates SchoolDude MaintenanceDirect software with Grainger.com, allowing you to gain efficiencies by combining work order management, the purchase of supplies and everything you value about Grainger into one comprehensive solution—helping you save time, money and inventory space.

When materials are purchased via the Click2Buy Direct solution, all material costs systematically flow through from Grainger.com to SchoolDude and are tied to the associated work orders. This eliminates the need to rekey purchasing information from Grainger.com into SchoolDude. This allows you to spend more time focused on maintaining your campus and school, and less time on paperwork and administrative tasks.

How is Grainger.com integrated with SchoolDude?
Grainger.com is accessed directly from the SchoolDude MaintenanceDirect software via a "Grainger" button. This is located within each work order, making it simple to quickly access Grainger.com and capture associated product costs via SchoolDude when orders are placed on Grainger.com. If you already have access to SchoolDude, activation of the Grainger integration is quick, simple and best of all, it is **free of charge**!

What is required to activate the Click2Buy Direct solution?
The Click2Buy Direct solution is composed of both SchoolDude and Grainger.com, hence you must:

- Be a SchoolDude MaintenanceDirect client
- Have an active Grainger.com account
- Enable the "Grainger" button via a request with SchoolDude; **it is easy** and it's Free!

If my organization does not have SchoolDude, can I still enable the Click2Buy Direct solution?
The Click2Buy Direct solution requires a subscription to SchoolDude Maintenance Direct software.

If you are not a SchoolDude customer and you are interested in learning more about the software and services, please contact SchoolDude Sales Directly at 1-877-868-3833.

I am a Grainger customer, but do not have a Grainger.com account, how do I get started?
Registration is easy. Here are some key things you should keep in mind when registering:

- If you already have a Grainger Account number, please have that handy when registering. It gives you access to your Grainger account offline benefits directly on Grainger.com. Additionally, you will have visibility into your orders, invoice history and other information across all purchasing channels. If you are having an issue accessing your account information, chat with an agent or call 1-800-GRAINGER (1-800-472-4643).

-If you received an email invitation to register and you can't seem to locate that email, chat with one of our agents or call 1-800-GRAINGER (1-800-472-4643) to have it resent.

-It may take up to 24 hours for your account data to be fully synced with Grainger.com for security verification purposes.

-If you would like to establish a line of credit with Grainger to use open account billing on Grainger.com, please contact 1-800-GRAINGER (1-800-472-4643) once you are notified of your account number.

To learn more about your Grainger.com benefits and take full advantage of features that help save you time and money, visit grainger.com/help.

I am interested in the Click2Buy solution and would like to integrate it with my purchasing system.
At this time, the Click2Buy Direct solution is available via the ePS Marketplace, integrating the power of SchoolDude and Grainger! Find out more about all of the Click2Buy solutions to learn which one is the right fit for your organization by requesting a live demo today! Visit grainger.com/click2buy or email us with questions at Click2Buy@Grainger.com.

I am interested in the Click2Buy Direct solution, but I have questions; who can help me?
For questions about the Click2Buy Direct solution, customer service or technical help, please email Grainger at Click2Buy@Grainger.com.

Service Name	Value Add	Fee Based	Description
Safety Training & Assessments			
Fall Protection Assessment	•		A plant/site survey is conducted to identify potential fall protection hazards as well as suggest products or programs to minimize risk
Fall Protection Training (Basic)	•		Specific courses designed to train for safety at heights, equipment inspection, rescue planning and tower climbing
Safety Paint Assessment	•		Conducts an on-site survey to determine the condition and location of safety markings and recommend the proper safety coatings
Hand Protection & Glove Program	•		Assessment Evaluates your glove program to determine proper selection and use, and identify cost savings. Samples are provided, allowing users to ensure proper fit and application.
Ergonomic Matting Assessment	•		Evaluates your facility to recommend anti-fatigue matting to help reduce back and lower leg fatigue for employees who stand while working. Identifies the proper mat for use in areas with oils or chemicals and provides 12" samples to stand on or test against chemicals.
Slips, Trips & Falls Assessment	•		Provides a pedestrian safety site assessment that takes in customer facility observations and gives back recommended products and solutions to help your facility become safer for employees and guests
Floor Coating & Anti-Slip Assessment	•		An evaluation based on application, hazard concerns and safety color-coded paint requirements.
Climbing Pro Ladder Safety Kit	•		Includes training literature and video to help provide training on safe and proper ladder use, how to select the correct ladders for the job and ladder inspection. Includes a quiz to reinforce learning.
Flexiguard™	•		Engineered Service Custom engineered Flexiguard™ systems create unique fall protection and access solutions that meet the requirements of your specific application. Also includes on-site assembly and user training services.
Hearing Protection & Conservation Training	•		Designed to assist your business or institution in becoming compliant with OSHA standard 29 CFR 1910.95. Includes instruction on the importance of proper use of hearing protection devices.
Arc Flash Awareness Seminar	•		Designed to bring awareness to the NFPA 70E standard. Additional topics reviewed are methods of assessment, PPE equipment, proper electrical tools, test instruments and labeling of hazards.
Fall Protection — From Heights		•	Fall Protection Training (Competent Person) Covers the OSHA Fall Protection standards 29 CFR 1910 Subpart D and 29 CFR 1926 Subpart M for both General Industry and Construction. Special attention will be given to personal fall arrest systems. Participants evaluate hazards and develop practical resolutions within the general industry and construction environments. This training will give participants the skills necessary to fulfill the role of “competent person” as defined by OSHA for their company.
		•	Flexi-guard™ Engineered Service Custom engineered Flexi-guard™ systems create unique fall protection and access solutions that meet the requirements of your specific application. Also includes on-site assembly and user training services.
Hazard Communication Ghs		•	Haz-Comm/GHS Production Workshop This workshop combines regulatory training and Globally Harmonized System (GHS) label creation to help your business or institution meet OSHA GHS implementation requirements and sustain in-house compliance.
		•	Hazardous Communication Training Focusing on the specific requirements of OSHA 29 CFR 1910.1200 Subpart Z, this course offers an overview of hazard communication standards, requirements and responsibilities;

			training requirements; how to make a hazard determination; hazard chemical characteristics; container labeling and other hazard warnings; safety data sheets; employee training requirements; hazard prevention; minimization; preparedness; and exposure monitoring plans.
Ergonomics		•	Ergonomic Assessment* A comprehensive on-site ergonomic job assessment which reviews potential hazardous areas. Assessment includes a review of any job hazard analysis (JHAs) for the jobs, a review of employees performing jobs at workstations, measurements of workstations and tasks, and an outline of all findings and recommendations with an action list for each job reviewed.
Fall Prevention from slips & trips		•	Floor Coating Installation Service Includes an on-site professional survey, quote and installation of Rust-Oleum® floor coatings.
Hearing Protection		•	Audiometric Testing On-site audiometric testing employs state-of-the-art technology in a clean, comfortable setting. Designed to help you comply with OSHA's Hearing Conservation standard 29 CFR 1910.95.
Electrical Safety		•	Arc Flash Hazard Assessment Designed to assist your facility in complying with the NFPA 70E standard. Includes identification, data collection, analysis and labeling of all electrical arc flash hazards in your facilities. Includes regulatory compliance training of qualified persons in safe workplace practices.
		•	Arc Flash Training Safety seminar for anyone working on or near electricity. Topics include flash protection boundaries, PPE, hazard/risk category classifications, shock/electrocution, arc flash calculations, related regulations, and safe work practices and procedures. This training is required for electrical maintenance personnel, operators, troubleshooters, electricians, linemen, engineers, supervisors, site safety personnel or anyone exposed to energized equipment of 50 volts or more.

Safety Resources			
Grainger Online SafetyManager®			This online solution gives you instant access to a set of comprehensive safety management tools and resources. Save time, money and create a safer workplace! Reduce injuries, accidents and exposure to fines Manage compliance, documents and SDSs from your PC Share assign and track training and documentation Ensure compliance and drive standardization Support your transition to GHS (Globally Harmonized System) Grainger Online SafetyManager includes a set of comprehensive safety management tools and resources for one administrator (plus document sharing and tracking of training for of up to 250 employees, with more Employee Seats available as a cost option). Online training courses covering more than 100 different safety topics are also available for purchase via "tokens." One token is required per participant, per training course. Or, an Unlimited Training Option, a 12-month subscription allowing unlimited individual access to all online training courses, is available.

Shoemobile Safety Footwear is purchased through this value added service. Restrictions do apply	•		Grainger offers more than 40 years of experience in the protective toe footwear industry, with expertise consisting of members of the ASTM F13 committee that develops standards for industrial footwear. Grainger's Shoemobile fleet is unsurpassed in the industry. We operate a growing fleet of 45' tractor-trailers and 26' trucks. These Shoemobiles display and stock a variety of safety footwear options to help meet your needs. As a leading distributor of protective toe footwear, Grainger carries more than 500 styles and has over 100,000 pairs in stock for same-day shipping. Up to 2,000 pairs of shoes can be inventoried on our large shoemobile for a visit. With over 40 brand names and comfort technologies and one of the largest selections of women's protective toe styles in the industry, we will find the right fit for your employees. During scheduled visits, trained professionals measure your employees to help ensure a proper fit. Grainger will maintain and provide a selection of footwear styles on the Shoemobile that comply with your safety footwear program's guidelines. Shoes are given to your employee during the shoemobile visit, as Grainger meets an average 96% fulfillment rate for Shoemobile visits. If a particular shoe is not inventoried in your employee's size, it will be mailed directly to them for no additional charge.
Eyewear Solutions	•		A simple process for customer's to purchase prescription safety eyewear through a national network of independent eye care professionals.

Energy Services			The Grainger Energy Services team serves as your resource to help identify and implement a wide range of efficient solutions for your agency through its network of qualified, insured and licensed service providers. Working closely with you, our service providers can help identify and facilitate the installation of energy-saving and water conservation measures with minimal disruption to your agency. Our service can help Members secure applicable incentives and rebates for energy and water-saving projects.
Lighting Projects		•	Auditing, specifying, supplying, installing and commissioning/verifying energy-efficient retrofit lighting projects
HVAC Projects		•	Auditing, specifying, supplying, installing and commissioning/verifying energy-efficient retrofit HVAC projects.
Motor and Pump Projects		•	– Auditing, specifying, supplying, installing and commissioning/verifying energy-efficient retrofit motor and pump projects.
Compressed Air System Studies and Upgrade Projects		•	Auditing, specifying, optimizing, supplying, installing and commissioning/verifying energy-efficient compressed air retrofit projects.
Dust Collection System Studies and Upgrade Projects		•	Auditing, specifying, optimizing, supplying, installing and commissioning/verifying energy-efficient dust collection system projects.
Electric Vehicle Charging Station Projects		•	Specifying, supplying, installing and commissioning electric vehicle charging stations and accessories
Steam Trap System Studies and Upgrade Projects		•	Auditing, specifying, optimizing, supplying, installing and commissioning/verifying energy-efficient steam trap retrofit projects
Water Conservation Upgrade Projects		•	Auditing, specifying, optimizing, supplying, installing and commissioning/verifying energy-efficient plumbing solutions
Recycling Services		•	Grainger's recycling service solves the disposal problem for environmentally hazardous bulbs, dry batteries, and ballasts.
Janitorial		•	In addition to reducing product and labor cost, minimizing waste and maximizing cost savings, Grainger's sales professionals team up with key supplier product experts such as GoJo, Ramsey, 3M, and Georgia Pacific to perform materials analysis at your location. Grainger can help customers meet OSHA requirements through the implementation of a secondary labeling program and CDC hand hygiene compliance through installation of the GoJo Purell Portal Program, including employee training and certification.
KeepStock Inventory Management Services **Customer Managed Inventory(CMI)** **Onsite** **Secure Vending**	• • • •		KeepStock® is Grainger's portfolio of inventory management solutions that help businesses better understand their inventory and reduce the costs associated with managing it. This portfolio provides both customer-managed (CMI) and Grainger-managed (GMI) inventory options, including Vending
Managed MRO Services		•	Grainger's Managed MRO Solution provides customers with daily, onsite, expert support services to help maximize the value of their entire MRO inventory investment. Managed MRO is a fee-based service where our Inventory Specialists work at your facility to manage all of your indirect materials—both Grainger and non-Grainger product
KeepStock Organize		•	This service is a comprehensive offering focused on inventory organization that includes storeroom layout, organization, fixture construction, and content development for existing and new tool cribs. KeepStock® Organize consists of three (3) fee-based parts or phases which can be deployed together or independently.
KeepStock Layout		•	Comprehensive inventory management planning, virtual layout

			configuration, and project planning. (There is a flat fee for this service. The fee is waived if racking and shelving is purchased from Grainger).
KeepStock Cleanup		•	Execution of the project plan including labor for teardown of current storage fixtures, repositioning of retained fixtures, build of new fixtures, product movement and product positioning. (Quotes for this service depend on the KeepStock® Layout assessment.)
KeepStock Content		•	Capture current inventory items, their attribute elements, providing the ability to upload the data into a computerized materials management system. This may also include ongoing item database management. (Quotes for this service are dependent on a defined scope-of-work.)

Consulting Services	•		Grainger Consulting Services (GCS) engages with customers to evaluate their MRO Supply Chain. This evaluation employs a strategic framework of identified cost drivers to benchmark and provide ideal and cost effective solutions. Based on our findings, most customers have the opportunity to take as much as 25% or more out of their costs.
Technical Support	•		Grainger provides direct technical support from knowledgeable field personnel and manufacturers' field representatives
Technical Training	•		Grainger will work with our customers to identify products and product categories for which they would like additional training. Grainger will work with our General Catalog manufacturers and suppliers to develop training programs as required to meet your needs
Environmentally Preferred Product (EPP) Services, Training and Solutions			
Cree Lighting Audit	•		For customers considering large indoor or outdoor lighting projects, Cree offers lighting audit services. The audit consists of a site walk-thru, fixture count, energy audit, return on investment and payback analysis, utility rebate assistance, applications (photometrics) and future commissioning.
Cree SmartCast Wireless Lighting & Controls Commissioning	•		Cree's SmartCast PoE embeds intelligence to make buildings more efficient and people more productive, while delivering far better light for less energy than ordinary LED lighting systems. Cree will provide onsite resources to support the commissioning of SmartCast enabled fixtures to optimize energy saving benefits.
Cree Photometric Application for Indoor & Outdoor Lighting	•		Cree application Engineering develop a report identifying fixture locations and light levels for the specific application which is critical for outdoor lighting and large indoor applications. Provides point by point lighting calculations on the end user's CAD drawing, resulting in optimized energy savings.
Cree Utility Rebate Assistance	•		Cree's Rebate Team works directly with Grainger's Mid-Stream Rebate Team and sellers to identify and offer mid-stream rebate opportunities for light fixtures and retrofit kits.
Diversey Greenguard Certification	•		Minimize contaminants introduced to the air during cleaning and improve indoor air quality. Greenguard certification identifies the proper products, tools and processes to clean the facility. Diversey supports certification efforts via on-site setup, training and system auditing.
Diversey Floor Care Productivity Survey	•		Improve productivity, appearance and reduce waste in your floor care processes. Diversey provides support via a facility survey identifying potential improvements to your current floor care program. Identifies opportunities to realize potential cost savings in overall labor costs and/or chemical usage costs.
Air Handler Air Filtration Audits	•		Realize opportunities to reduce pressure drop and save energy. This filter audit analyzes air filtration systems and current filter list to generate recommendations that will reduce operating costs.
Georgia-Pacific Dispenser Refurbish, Recycle, Reuse (RRR) Program	•		Providing an end of life solution for old paper towel and toilet paper dispensers. GP team removes old dispensers and reuses components. Old dispenser components are utilized in manufacturing new products, such as computers and automobile parts. Dispensers are picked up at the end user's location.
Georgia-Pacific LEED® Calculator & LEED® Reporting	•		For customers interested in earning LEED® credits under the LEED® v4 Operations & Maintenance (O+M) Rating System. Georgia Pacific can generate a report for you illustrating & calculating how GP Pro products can support your efforts. Reports can be downloaded and provided to your LEED auditor.
Georgia-Pacific Battery Recycling	•		Reduce the number of batteries in landfills. Through this service

Program			boxes are provided to enable the collection of used batteries in the area of your choice. Boxes are picked up at the facility and new boxes are provided for continued collection and environmental disposition.
GOJO Dispenser Disposal & Recovery	•		GOJO will coordinate the removal, transport, and sustainable disposal of old hand soap and sanitizer dispenser materials when completing a GOJO managed dispenser installation project. This is a great option for large installation/conversion projects and a great way to support sustainability initiatives within your facilities.
GOJO Pre-Installation Site Survey	•		For large hand soap & sanitizer installation or conversion projects (> 250 dispensers), GOJO will conduct a site walk-thru with material planning and project management. This service addresses challenges related to storage space constraints and reduces materials that must be moved, stored, shipped, or disposed of.
Acuity Lighting & Controls - Audit & Design	•		For large lighting projects Acuity offers on-site audit of lighting & controls, recommendations, layout & design, ROI analysis, assistance with utility rebates & project management support with installer.
Zing Lockout Audit	•		To ensure compliance of lockout programs Zing offers a site survey conducted by a specialist to audit your current lockout program and provide recommendations.
Rubbermaid Innovative Solutions - Mobile Showroom	•		Discover more ways to reduce cost, improve productivity and enhance employee safety. Rubbermaid's mobile showcase vehicle provides an interactive experience and hands-on demonstrations featuring innovative solutions.
Rubbermaid Recycling Solutions	•		Explore solutions designed to support your recycling efforts. Rubbermaid's mobile showcase vehicle presents innovative solutions to help you achieve your recycling goals.
Rubbermaid Waste Audits	•		For those interested in waste-reduction or recycling initiatives Rubbermaid offers on-site audits designed to help educate users on the impact of implementing a recycling system. This service provides an evaluation of current waste stream habits and processes and diversion practices and provides recommendations and assistance in designing a recycling system.
Rubbermaid Site Assessments & ROI Calculators	•		Rubbermaid representatives share their expertise and recommendations through an on-site assessment with ROI calculators to support recycling, hand hygiene and many other common facility initiatives.
Rubbermaid LEED® Certification Support	•		For customers pursuing LEED Certification Rubbermaid offers a site visit providing guidance, product recommendation and support with LEED implementation initiatives.
Hubbell Energy Audit	•		Gain insight into opportunities to leverage occupancy sensor technology to reduce energy costs. Service includes a site audit, occupancy sensor layout recommendations -drawing, detailed bill of materials and a return on investment (ROI) calculator to estimate savings potential and project payback.
Cree SmartCast Wireless Lighting & Controls Commissioning		•	Cree's SmartCast PoE embeds intelligence to make buildings more efficient and people more productive, while delivering far better light for less energy than ordinary LED lighting systems. Cree will provide onsite resources to support the commissioning of SmartCast enabled fixtures to optimize energy saving benefits.
Cree Engineering Site Audit for Lighting & Controls		•	For large sophisticated lighting and controls projects Cree offers an on-site walk-thru conducted by a Cree Engineer who will perform audit on applications and other services. Cree does the complete upfront engineering of the project, maximizing lighting performance, reducing maintenance and optimizing energy savings.

Cree SmartCast PoE Energy Advisor		●	The Cree SmartCast Advisor™ is a powerful suite of applications that offers immediate and actionable business insights. It intelligently monitors your building with the SmartCast® PoE lighting network and provides tips on making your business more profitable with recommendations for energy efficiency, putting your spaces to better use, and much more. SmartCast Advisor™ is available for a monthly fee.
Cree Turnkey Project Management		●	For customers seeking specialized expertise and support on large lighting & control opportunities - Cree offers a fee-based Turnkey Project Management service to manage lighting projects from engineering to installation to commissioning. Every aspect of the project is billed on one invoice.
Georgia-Pacific Harmon Recycling Program		●	GP Harmon's Retail & Distribution Solutions recycling program diverts paper, plastic and metal from landfills in order to avoid waste and minimize the environmental impact of your business. Our recycling program is unique and custom-designed to help meet, and even exceed, your sustainability goals.
Georgia-Pacific Packaging System Optimization		●	Collaborate with a team of engineers and packaging scientists to develop innovative packaging solutions that improve functionality and reduce waste.
GOJO Dispenser Disposal & Recovery		●	GOJO will coordinate the removal, transport, and sustainable disposal of old hand soap and sanitizer dispenser materials when completing a GOJO managed dispenser installation project. This is a great option for large installation/conversion projects and a great way to support sustainability initiatives within your facilities.
Henkel-LOCTITE Air Leak Survey		●	The sooner any loss of air, steam or other pressurized gases is detected in equipment, the faster it can be returned to optimal efficiency. To reduce consumption and costs this service includes a site survey, documented findings, cost savings analysis and training.
Henkel-LOCTITE Terracycle Program		●	For customers utilizing LOCTITE Anerobics or Light Cure Technologies Henkel has a solution to help you meet recycling goals and recycle items that were previously non-recyclable. Through an innovative partnership with TerraCycle® boxes are provided to enable convenient return shipping.

ATTACHMENT E – National IPA Requirements

See RFP and Supplier's response to RFP for National IPA requirements.

ATTACHMENT G - UC PARTICIPATING ENTITIES

ATTACHMENT K – SUSTAINABILITY SPECIFICATIONS

California higher education schools have a long history of being leaders in sustainability, including in environmentally and socially responsible purchasing. For example, in 2007, the University of California expanded its UC Sustainable Practices Policy to include environmentally preferable purchasing. Among other directives, these policies advise the UC to:

- Determine the appropriate sustainability requirements to be included in RFPs,
- Recognize and value total cost of ownership, closed loop systems, and contribution to LEED credits when evaluating suppliers,
- Recognize recycled content and third party certifications, and negotiate better pricing on products with these recognized criteria where opportunities exist,
- Require suppliers to report quarterly on the UC's spend on environmentally preferable products,
- Require suppliers to document their packaging practices, verify compliance with the UC's packaging criteria, and work with its suppliers to establish end-of-life reuse, recycling, or "take-back" programs at no extra cost to the University

In addition, the *UC Sustainable Practices Policy* identifies green building design and operation standards, a zero-waste by 2020 target, a climate neutrality goal by 2025, and stringent water consumption reduction goals.

To further reductions in energy, water, and toxics use, and increase the purchase of recycled-content products, the following specifications are included as directed by the above policy. Vendors participating in the CHESS Maintenance Repair and Operations Solicitation shall strive to comply with all technical and environmental specifications provided herein.

1. **Labeling**
   Environmental benefit claims concerning products or services must be consistent with the Federal Trade Commission's Guidelines for the Use of Environmental Marketing Claims. In addition, products claiming environmental benefits shall include the industry standard it meets or third party certification it has received (see below list of preferred technical and environmental specifications) in the catalog product description. A copy of the certification claimed by the vendor must be supplied upon request if it is not publically available for verification. Products offered on this contract that contain recycled content shall list in the hosted and punchout catalogs the amount of recycled content, reflecting both total recycled content (TRC) and post-consumer recycled content (PCRC).

2. **Usage Reports**
   Vendors must submit quarterly usage reports for all purchases made on this contract in the format outlined in EXHIBIT – QUARTERLY REPORT. Many campuses report on progress towards meeting the goals set forth in their respective Environmentally Preferable Purchasing (EPP) policies, and any available data that can be reported on actual EPP purchases and their associated environmental, health, and fiscal impacts is beneficial for this purpose.

3. **Environmentally Preferable Products**
   Campuses may establish a preference for Environmentally Preferable Products (EPPs), adopt additional specifications for certain categories of products, and/or negotiate during the Contract term to permit the substitution or addition of EPPs to the Contract when such products are readily available at a competitive cost and satisfy the department's performance needs.

4. **Mercury Containing Products**
   The California Environmental Protection Agency regulates the disposal of mercury waste because mercury is toxic to people and to the environment. California law restricts the level of mercury in some products (such as general purpose lights and packaging), and bans the sale of other mercury-containing products outright (such as mercury-containing thermometers, barometers, flow meters, etc.). Vendors must ensure that their processes for the selling, handling and disposing of products containing mercury meets all California mercury control laws:
   http://www.dtsc.ca.gov/HazardousWaste/Mercury_Reduction.cfm.

5. **Volatile Organic Compounds (VOCs):** Campuses seek to procure products that contain no or low amounts of Volatile Organic Compounds (VOCs), wherever feasible, including but not limited to furniture, flooring, paint, sealants, architectural coatings, and building materials. Vendor shall provide low- or no-VOC product options in the above categories. To the greatest extent possible, vendors shall offer and label products that are low emitting and that contain zero or low VOCs.

6. **Energy- and Water-Efficient Products:** For product categories where ENERGY STAR® -rated or WaterSense® certified products are available, the California Higher Education System Schools seek to focus their procurement efforts only on products with an ENERGY STAR® rating or WaterSense® certification, delivered with energy efficiency and conservation features enabled. Products in applicable categories shall be offered and labeled with ENERGY STAR and WaterSense programs.

7. **Recycled Content:** Products shall be provided and labeled that meet or exceed the minimum recycled-content specifications as outlined in the EPA's Comprehensive Procurement Guidelines: https://www.epa.gov/smm/comprehensive-procurement-guideline-cpg-program#products. Product categories include construction products, landscaping products, office products, paper products, park and recreation products, transportation products, vehicular products, and other miscellaneous products.

8. **Packaging:** All packaging (including carrying cases, wrappers and wrapping films, bags, and tubs) and packaging components (such as inks, labels, dyes, pigments, adhesives, stabilizers, or any other additives) must be free of Expanded Polystyrene (EPS) and polyvinyl chloride (PVC), and compliant with the Toxics in Packaging Prevention Act (AB 455) as to be free of any intentionally introduced lead, cadmium, mercury or hexavalent chromium, and containing no incidental concentrations of these regulated metals greater than 100 parts per million (ppm) by weight. In addition, all packaging must have the option to meet at least one, and preferably more than one, of the criteria listed below.

a. Uses bulk packaging.
b. Uses reusable/returnable packaging.
c. Uses innovative packaging that reduces the weight of packaging, reduces packaging waste, or utilizes packaging that is a component of the product.
d. Maximizes recycled content
e. Uses easily recyclable or compostable packaging.

9. **CHESS SUGGESTED Prohibited Products and Materials: (May vary by location)**

a. *Aerosols* and products in aerosol containers

b. *Antimicrobials additives* used in hand soaps, furniture coatings, and any other products.

c. *Bottled Water*

d. *Compact Fluorescent Lamps (CFLs)*

e. *Compost* that includes any chromated copper arsenate (CCA) pressure treated wood products. Provide certification that wood products are free from CCA products or byproduct.

f. *Disinfectants and Sanitizers* that contain known, suspected, reasonably anticipated, or probable human carcinogens per IARC, NTP or the State of California; reproductive toxins per the State of California; Asthmagens per AOEC (listed with a G, Rs, Rrs or Rr designation); Nonylphenol ethoxylates or other alkyl phenol ethoxylates (APEs); Chlorine Bleach (Sodium hypochlorite), Hydrogen chloride (HCL), Phenols, Pine oil, Quaternary ammonium chloride compounds, Silver, or Thyme oil.

g. *Expanded Polystyrene (EPS)* other than that utilized for laboratory supply or medical packaging. Prohibited products include but are not limited to EPS in foodservice products, and packaging.

h. *Flashlights* that do not use an LED light source

i. *Hand sanitizing wipes* unless they contain ethyl alcohol or isopropanol active ingredients only

j. *Incandescent light bulbs* that are standard size (size A19)

k. *Pesticides* that are harmful to pollinators including the following Neonicotinoids: Imidacloprid, Clothianidin, Thiamethoxam, Acetamiprid, Dinotefuran.

l. *Polyvinyl chloride (PVC)* - Products shall be free of PVC whenever an alternative exists. PVC-containing products must be identified in catalogs.

m. *Prop 65 Chemicals* (known to cause cancer or birth defects or other reproductive harm) unless clearly identified and labeled on all products containing them.

10. **Vendor Must Make the Following Environmentally Preferable Products Available on the Contract:**

a. *Adhesives* that comply and are labeled with at least one of the following third-party certifications: Cradle to Cradle, Green Seal, SCS FloorScore, UL GREENGUARD Gold, UL EcoLogo, Carpet and Rug Institute (CRI) Green Label Plus

b. *Batteries* with rechargeable nickel metal hydride (NiMH) that are low-self discharge and are delivered pre-charged in the following battery sizes: AA, AAA and D. All batteries shall have a minimum power rating in milliamp hours (mAh) as follows:

i. AAA batteries: 700 mAh
ii. AA batteries: 2000 mAh
iii. C batteries: 2200 mAh
iv. D batteries: 2200 mAh
v. 9-volt batteries: 175 mAh
vi. All chargers must be Energy Star

c. *Disinfectants and Sanitizers* that contain only Hydrogen Peroxide (including Accelerated Hydrogen Peroxide), Citric Acid, Lactic Acid, or Caprylic Acid as active ingredients.

d. *Electric Hand Dryers* that meet the following specifications:
i. Ability to dry hands in 15 seconds or less with maximum 135 degree Fahrenheit air
ii. Operate at a sound level of less than 80 dBA
iii. Energy consumption should match NEC or CEC requirements.
iv. Adherence to ADA protrusion requirements
v. Internal air filtration

e. *Hydraulic Fuel and Lubricating Oil* that meets the following specifications:
i. Hydraulic fluid contains a minimum of 55% re-refined base stock and/or certified by EcoLogo CCD-068 and listed in the USDA BioPreferred Catalog
ii. Lubricating oil containing a minimum of 75% re-refined base stock or certified by EcoLogo CCD-054 or Green Seal-3

f. *Luminaires and light bulbs* that are LED, high-efficiency and CEC code compliant.

g. *Motors* that are certified with the National Electronic Manufacturers Association's (NEMA) Premium Energy Efficient Motors Program.

h. *Paint products* that are certified by Green Seal and the Master Painter Institute (MPI) under its Green Performance Standards; and reprocessed and/or re-blended paint products with a minimum of 10% post-consumer recycled content paint, CARB compliant, and a total recycled content of 50%, that meet the specifications of conventional paints used for the same applications.

i. *Plastic Lumber* that conforms to standard wood dimensional lumber sizing, contains UV inhibitors and is consistent in color and nominal dimension(s) through the entire profile, contains a minimum of 90% total recovered materials, at least 25% of which must be post-consumer plastic. All plastic lumber must be guaranteed against undue warping, sagging, cracking, splitting, rotting, and insect infestation for a minimum of ten (10) years.

j. *Pesticides* that contain only active ingredients listed on the EPA's list of Active Ingredients Allowed in Minimum Risk Pesticide Products: http://www.epa.gov/minimum-risk-pesticides/active-ingredients-allowed-minimum-risk-pesticide-products or are listed on the 2015 San Francisco Reduced-Risk Pesticide List:
http://www.sfenvironment.org/sites/default/files/fliers/files/sfe_reduced_risk_pesticide_list_2015_finaldraft.pdf

k. *Powered cleaning equipment* that meets the following specifications:
i. Is equipped with controls or other devices for capturing and collecting particulates;
ii. Operates at a sound level less than 70 dBA;
iii. Floor Maintenance equipment: has low-emission engines certified by the California Air Resources Board under the Small Off-Road Engines or Equipment (SORE) program and is equipped with catalytic and exhaust monitoring systems;
iv. Scrubbers: are equipped with a control method for variable rate dispensing to optimize the use of cleaning fluids;
v. Steam Cleaners: use a dry steam application and steam heat to a minimum 200 degrees F.

l. *Roofing Materials* that are ENERGY STAR certified, approved by the Cool Roof Rating Council (CRRC), and made with recycled materials

m. *Solvents and Degreasers* certified by Green Seal.

n. *Sorbents* that contain 100% total recycled content (compliant with EPA's Comprehensive Procurement Guidelines for Sorbents: http://www.epa.gov/osw/conserve/tools/Comprehensive Procurement Guidelines/products/sorbents.htm), or USDA-certified biobased.

a. *Wood Lumber* that is FSC Certified.

11. **Additional Market Basket Pricing**
During the life of the contract, the University reserves the right to negotiate the addition of new environmentally preferable products into the market basket for the most preferential pricing.
