The Basic version is an intuitive user interface that features one to one or group calling, alerts, multimedia messages, location tracking, talkgroup scanning, presence indicators and history information. The LMR version mirrors the operation of a traditional two-way radio with pre-defined talk groups and an all-in-one interface and supports Customers migrating from two-way radio. Using the Corporate Administration Tool (CAT) an administrator assigns the user interface mode (version) to each user. Users will see a notification if their version is changed.

EPTT Standard

AT&T EPTT Standard delivers almost instant voice communication with groups up to 250 people or an individual with the push of a button and supports:

- Presence services – provide real-time presence status indicators (available, unavailable, and do not disturb).
- Integrated Secure Messages- send highly secure messages to other EPTT subscribers, including text, multimedia and location information to a group or to individuals in the EPTT system.
- Location Tracking- allows an EPTT supervisor and the dispatcher of any talkgroup to check the current location of all talkgroup members on a map, to create a boundary (Geofence) for a talkgroup, and to receive notifications when members enter or leave the boundary.
- Alerts – provide the convenience of a quick alert for requesting a call back or displaying a missed call.
- Background Call Mode – allows the user to hear incoming EPTT calls while the EPTT application remains in the background.
- Broadcast Calling – initiates a preemptive one-way call to a large group of users at the same time.
- One Touch Calling – allows an EPTT user to call a particular contact or talkgroup or most recent history entry when the PTT button is pressed or allows the PTT button to be assigned to open the application to the preferred landing page (History, Contacts, Groups, Favorite Contacts, or Favorite Groups). Available on selected devices.
- Talkgroup Channels - assign up to 96 talkgroup channels using the EPTT LMR.
- History – provides EPTT call and message history.
- EPTT Voice Message Fallback – allows an EPTT call to be converted into a voice message if the called party is unavailable.
- Silent Mode Behavior (Privacy Mode) – provides alerting behaviors while the device is in silent mode, which can be controlled through the EPTT Privacy Mode setting.
- Supervisory Override (Talker Priority) – allows selected talkgroup members to place a PTT call and speak at any time during a call, even if the target callers are on an active PTT call.
- Talkgroup Scanning with Priority – allows an EPTT user to select up to 16 talkgroups for monitoring, with three that can be set as prioritized groups.
- Wi-Fi Support – allows the EPTT application to have access through Wi-Fi access points connected to the Internet.

EPTT Advanced

In addition to all the features of AT&T EPTT Standard, AT&T EPTT Advanced includes:

- **Emergency Calling**- enables an EPTT user to declare an emergency state using the EPTT application on-screen or the dedicated emergency hard-key on certified devices. When the feature is enabled by an administrator via the CAT, the EPTT platform prioritizes these EPTT calls over all other EPTT calls.
- **User Awareness Features**- available for use with CRUs only, these features are managed by an administrator who is authorized by the Customer through the use of the CAT.

- User Check – enables an authorized user to check an EPTT user’s battery level, signal strength (Wi-Fi and cellular) and current location if allowed by the device’s operating system.
- User Disable - enables an authorized user to remotely disable EPTT for a specific device. This disables the device from accessing EPTT and secured messaging.
- User Enable - enables an authorized user to remotely enable a user’s previously disabled device, granting back access to EPTT and secure messaging.
- **Additional Features** - AT&T EPTT Advanced includes AT&T Dynamic Traffic Management and the monthly reoccurring charges for Land Mobile Radio Interoperability at no additional charge.

Corporate Administration Tool (CAT)

The AT&T EPTT CAT can be used to manage a Customer’s contacts talkgroups and to designate roles to specific talkgroup that enable them to use EPTT situational and user awareness capabilities.

The features of the CAT include:

- Subscriber Profile Management - allows Customer authorized administrators to manage subscribers’ profiles, such as name and subscription type.
- Contacts Management - allows an administrator to manage subscribers’ contacts.
- Contacts Management - allows an administrator to manage user sets.
- Talkgroup Management - allows an administrator to manage talkgroups, including the ability to interrupt talkgroup conversations. There are three types of groups that can be managed: standard, dispatch, and broadcast groups.
- External Contacts Management - allows an administrator to add subscribers who are outside the Customer’s organization.
- Interoperability Connections Management - supports communications between EPTT and LMR systems.

WEB DISPATCH SOLUTION (WDS)

The optional Integrated Dispatch Console Feature is a Windows® based application that enables administrators and supervisors to manage daily dispatch operations. The CAT administrator is responsible for on-boarding the authorized Dispatcher and creating the necessary Dispatch talkgroups. The IDC enables a Dispatcher to:

- Establish a one-to-one call or send and receive an Instant Personal Alert (IPA) to or from a user. Dispatchers can send and receive alerts to and from talkgroup members as a request to call back.
- Start or end a PTT call, record a conversation, and see the speaker’s identity.
- Locate talkgroup members on the map, either individually or as a talkgroup.
- Text and share multimedia content (i.e., audios, files, images and videos) with talkgroup members.
- Allow a designated broadcaster to make high-priority one-way calls, typically used for making important announcements.
- See a map showing the locations of talkgroup members in the field and make PTT calls, send messages or send alerts to those talkgroup members

- directly from the map.
- Assign a virtual boundary (Geofence) to a talkgroup on the map. When a Geofence is applied to a talkgroup, a notification is sent to the Dispatcher and other fleet members whenever a talkgroup member crosses the fence's boundary.
- Access to User Awareness features, such as Emergency Calling, User Check, User Disable & Enable, and Discreet listening. Requires subscription to EPTT Advanced package.
- Enable Land Mobile Radio Interoperability. The non-recurring charges for LMR Interoperability are billed separately.

LMR LTE Interoperability

AT&T EPTT optionally interoperates with two-way Land Mobile Radio (LMR) systems, allowing group communications between the LMR and EPTT systems. The interoperability solution creates a "talk-path" that connects the two systems and manages the calls between the networks. IP Interoperability with traditional LMR systems can be delivered through various combinations of customer premise equipment and AT&T networking support.

Enhanced PTT Interoperability MPLS VPN Backhaul

EPTT Interoperability MPLS VPN Backhaul is an optional managed service that provides a private connection for voice traffic between a Land Mobile Radio system and the EPTT system. Customers must obtain access between each Customer site and an AT&T point-of-presence using clear channel digital dedicated access facilities obtained from AT&T or another provider. The service enforces traffic separation among Customers in accordance with the RFC2547 standard. The service components include 10 MB MPLS Ports and 10 MB Ethernet Access and Equipment Management. The MPLS Ports and Ethernet access provide the connection between Customer's IP network and the AT&T Network. Each MPLS Port at a Customer site requires a new access line or access channel installation/activation charges apply to such access arrangements.

AT&T Dynamic Traffic Management

Enhanced PTT subscribers may also receive or subscribe to AT&T Dynamic Traffic Management, which uses Quality of Service (QoS) network technology to enable qualified enterprise and government customers to receive a differentiated (i.e., enhanced versus "best effort") 4G LTE network experience for Approved Business Application data traffic originated on and traversing over the AT&T-owned domestic 4G LTE network (i.e., excluding microcells, AT&T Wi-Fi service, and roaming partners' networks). An enhanced, or higher, QoS is particularly valuable during times of network congestion. AT&T Dynamic Traffic Management is available only for use with Customer's qualified business applications that are used solely in connection with the transmission of Customer's data to and from its authorized CRU lines' 4G LTE-AT&T Dynamic Traffic Management enabled Equipment, including routers, determined solely by AT&T (each, an Approved Business Application). Approved Business Applications may include, without limitation, video calling/conferencing, push-to-talk, dispatch, logistics, command and control, telematics, and monitoring applications used by Customer's authorized CRU lines. If AT&T confirms that Customer has requested AT&T Dynamic Traffic Management for an Approved Business Application, Customer will also be required to identify a Customer representative who will be available to assist AT&T, at a mutually agreeable time and upon reasonable prior notice from AT&T, in: (a) validating and testing the Approved Business Application as part of the AT&T Dynamic Traffic Management set up; and (b)

in the event that Customer chooses to configure AT&T Dynamic Traffic Management with AT&T Private Mobile

Connection service, providing additional technical information and/or requesting any modifications or additions to the Approved Business Application. AT&T Dynamic Traffic Management is available only to a Customer's CRUs and only within the Domestic Coverage Area (i.e., U.S., Puerto Rico, and U.S. Virgin Islands) and only for AT&T Enhanced PTT traffic originated on and traversing over the AT&T-owned 4G LTE network, excluding microcells, MetroCells, AT&T Wi-Fi service and roaming partners' networks. When Customers subscribe to AT&T Dynamic Traffic Management, data usage from enabled devices is separately tracked and billed.

AT&T Dynamic Traffic Management is offered in two versions: AT&T Dynamic Traffic Management – Enterprise and AT&T Dynamic Traffic Management – Public Safety. AT&T Dynamic Traffic Management is included in EPTT subscriptions for FirstNet subscribers and is optional for other EPTT subscribers.

AT&T Dynamic Traffic Management – Enterprise may not be used with, among other things: (a) mobile video transmission applications, and (b) applications that transmit data to and receive data from all or substantially all Internet endpoints. Accordingly, for each business application identified by Customer for use with AT&T Dynamic Traffic Management – Enterprise, Customer must provide AT&T with sufficient information about the application to permit AT&T to determine whether the application is an Approved Business Application. Such information will include, at a minimum, the application name/version, application protocol, destination IP address and destination port. Customer further acknowledges and agrees that AT&T Dynamic Traffic Management – Enterprise (a) is available only within the Domestic Coverage Area and only for Customer's Approved Business Application data traffic originated on and traversing over the AT&T-owned domestic 4G LTE network; (b) does not provide priority access to the AT&T-owned domestic 4G LTE network; (c) does not prioritize Customer's Approved Business Application data traffic ahead of all other data traffic, as other data traffic may receive a similar or higher QoS; and (d) is not to be used for any data traffic originated on or over the Internet, other than Customer's Approved Business Application data traffic. AT&T Dynamic Traffic Management – Enterprise must be added to each CRU line separately. Per CRU line requirements include purchase of Enhanced PTT with an AT&T Dynamic Traffic Management - Enterprise plan and a qualified feature phone or qualified smartphone provisioned with the appropriate feature code.

AT&T Dynamic Traffic Management – Public Safety is limited to customers responsible for public safety and critical infrastructure (e.g., police and fire departments, EMT services departments, and emergency management agencies) that have been assigned one a qualifying North American Industry Classification System (NAICS) code. For details on qualifying codes, see an AT&T representative. Entities eligible for AT&T Dynamic Traffic Management—Public Safety are collectively referred to as "public safety customers". AT&T Dynamic Traffic Management - Public Safety provides priority access to the domestic AT&T 4G LTE network for a Customer's authorized CRU subscribers. AT&T Dynamic Traffic Management - Public Safety (a) is available only within the Domestic Coverage Area and only for Customer's Approved Business Application data traffic originated on and traversing over the AT&T-owned domestic 4G LTE network; (b) does not prioritize Customer's Approved Business Application data traffic ahead of all other data traffic, as other data traffic may receive a similar or higher QoS; (c) provides Customer's authorized CRUs priority access to available AT&T 4G LTE network resources but will not preempt other users' use of the network in order to make network resources available; and (d) is not to be used for any data traffic originated on or over the Internet, other than Customer's Approved Business Application data traffic. The traffic of qualified public safety customers will be assigned a higher QoS than the traffic of other customers that perform public safety functions. AT&T reserves the right to exercise its sole and reasonable discretion to determine which public safety customers may purchase AT&T Dynamic Traffic Management – Public Safety and the extent to which such customers may deploy and utilize AT&T Dynamic Traffic Management – Public Safety within their organizations. AT&T further reserves the right to limit or terminate use of AT&T Dynamic Traffic Management – Public Safety by customers that AT&T determines to be using AT&T Dynamic Traffic Management – Public Safety in a manner inconsistent

with the expressed or intended use of AT&T Dynamic Traffic Management – Public Safety. Customers choosing to combine AT&T Dynamic Traffic Management—Public Safety with AT&T Enhanced Push-to-Talk will be billed for both services on a bundled basis for each authorized CRU line. Customers also have the ability to designate AT&T Enhanced Push-to-Talk as an Approved Business Application and not as a bundled offer with AT&T Dynamic Traffic Management—Public Safety, in which case Customer will be billed for each service separately.

PTT-Customer Administration Set-Up & Training (Optional)

The PTT-Customer Administration Set-up & Training (PTT-CAST) program provides an initial configuration of Customer's PTT lines in the PTT Admin Tool based on Customer's requirements. PTT-CAST consists of the following: An AT&T Solution Consultant will configure the various PTT Admin Tool components, such as talkgroups, to support the use cases Customer has identified. The Solution Consultant will:

- Determine the Customer's intended use cases during a requirements-gathering call;
- Configure the PTT Admin Tool to implement Customer's use cases to the extent allowed by the tool; and
- Set up an online web conference with Customer's PTT administrator to:
 - Review the created configuration(s)
 - Discuss any limitations of the configuration or tool that may prevent full implementation of Customer's requirements
 - Demonstrate how to use the PTT Admin Tool

SD- 3.1. Customer Responsibilities

Customer is responsible for:

- Defining its intended use cases and operational needs for the PTT service during the scheduled call, including identification of any important parameters, such as talk group names and members;
- Assigning one or more administrators who will use the PTT Admin Tool to manage Customer's PTT lines and attend a web conference call to:
 - Review the configuration with the Solution Consultant;
 - Either agree with the configuration presented or make a one-time request for final changes; and
 - Review any final changes with the System Consultant after they are completed.

AT&T may withdraw this optional program at any time. If the program is withdrawn, if all ordered services are not completed or the full cost of the ordered service(s) will be credited to the Customer's account.

IMPORTANT INFORMATION

General - AT&T Enhanced Push-to-Talk, as described in this product brief (the “Solution”) is available only to eligible customers. For government customers, any Additional Product Terms not allowable under applicable law will not apply, and the Qualified Agreement will control in the event of any material conflict between the Qualified Agreement and the Additional Product Terms. The Solution is available to Customers, their Customer Responsibility Users (“CRUs”) and their Individual Responsibility Users (“IRUs”), and to consumers with a qualified AT&T rate plan and Enhanced PTT subscription, as described herein. Consumers will have access to features permitted to IRUs. The Corporate Administrator Tool and are only available for use with AT&T-subscribed CRUs. The Solution may not be available for purchase in all sales channels or in all areas and may not be accessible at all times. Additional hardware, software, service and/or network connections may be required to access the Solution. Availability, accessibility, security, delivery, speed, timeliness, accuracy, and reliability are not guaranteed by AT&T.

Requirements - The Solution is a voice-over-IP solution that requires wireless connectivity on compatible cellular or Wi-Fi networks. It requires use of a supported wireless device or a personal computer running Windows Vista OS or higher (“PC”). Use of the AT&T Enhanced PTT client for PCs may require that the PC be connected to AT&T’s wireless network through an integrated modem/aircard or mobile hotspot device with service on a qualified data plan. Use of the Solution on supported feature phones, smartphones and tablet devices requires download and installation of the Enhanced PTT client software onto such devices. Other software on an end user’s device may impair performance. For AT&T subscribed devices, usage of the Solution

requires a subscription to an Enhanced PTT rate plan or qualified AT&T data rate plan. Data service/plan requirements vary by device category. Certain AT&T data plans (e.g., MEdia Net) are not eligible.

Technical - The Solution is not compatible with traditional circuit-switched voice calls or certain other AT&T wireless services, including, without limitation, call waiting, call forward, voice mail/Visual Voice Mail, AT&T Address Book, and Wireless Priority Service. Wireless data coverage is not available in some areas and wireless service performance is subject to transmission limitations and terrain, system, capacity and other limitations. AT&T mobility coverage maps are available at www.att.com/business/datacoverage. Coverage areas of other mobility carriers are available from the carriers. Usage of the Service on networks other than AT&T wireless data networks is dependent on proper configuration and quality of the network connection. AT&T is unable to provide troubleshooting or configuration assistance for third-party network connections and may be limited in its ability to troubleshoot service problems for transmissions made using such networks. AT&T provides no customer support in this regard other than verifying connectivity to the AT&T network and the Service. The Enhanced PTT client must be installed on an AT&T certified device, and the device must be activated and turned on in order to originate and or receive Enhanced PTT calls. Use of non-certified devices is not fully supported. A list of certified devices is available at www.att.com/epttdevices, which is subject to change. Not all service features and functionality are available on all certified devices. See an AT&T representative for details. If the Customer attempts to access the Solution via a custom Access Point Name (APN), through a firewall or from a network that does not meet the specified network access criteria, the service will not work. The Solution is not compatible with devices provisioned through the AT&T Control Center or Enterprise On Demand platforms and cannot be transmitted over wireless Virtual Private Networks (VPNs).

Usage - The Solution can be used while roaming on compatible domestic and international wireless carriers. For AT&T subscribers, applicable roaming rates apply to international carriers except while roaming in Mexico and Canada. For other carriers' subscribers see applicable carriers' roaming rates. Data usage incurred by AT&T subscribers within AT&T's domestic wireless data network footprint in the United States and with roaming partner networks in Mexico and Canada in connection with Enhanced PTT will not be charged against the Customer's associated data plan. All other AT&T data usage, including, without limitation, data usage incurred in connection with use of the Service on all other international cellular roaming networks, will be charged at AT&T's scheduled rates. Data usage for devices subscribed to other carriers is billed to the end user by the subscribed carrier at that carrier's rates.

Customer must accept the Additional Product Terms as the party liable for each CRU and agrees in such case that the CRU will comply with the obligations under those terms. Customer is responsible for providing each CRU of an enabled mobile device with a copy of the Additional Product Terms. The Customer and the CRU are individually and jointly liable thereunder. Unless otherwise prohibited, this offer is subject to change, and may be modified, terminated, or discontinued at any time without notice.

Data Privacy - Customer Personal Data may be transferred to or accessible by (i) AT&T personnel around the world (ii) third-parties who act on AT&T's or AT&T's supplier's behalf as subcontractors; and (iii) third parties (such as courts, law enforcement or regulatory authorities) where required by law. Customer will only provide or make Customer Personal Data accessible when Customer has the legal authority to do so and for which it has obtained the necessary consents from its end users and will camouflage or securely encrypt Customer Personal Data in a manner compatible with the service. As used herein, the term Customer Personal Data includes, without limitation, name, phone number, email address, wireless location information or any other information that identifies or could reasonably be used to identify Customer or its end users. Customer is responsible for providing end users with clear notice of AT&T's and Customer's collection and use of Customer Personal Data obtained via the Solution and for obtaining end users' consent to that collection and use. Customer may satisfy its notification requirements as to AT&T by advising end users in writing that AT&T and its suppliers may collect and use Customer Personal Data by providing for end user review the relevant links to the product brief or other sales information that describes the Solution and to AT&T's Privacy Policy

Data plan Terms and Conditions

Pooling is restricted to pooling users on a single Billing Account Number. Multiple Billing Account Numbers do not pool together. Data plans offered under this section will not pool with other data plans that are currently available under the GSA Schedule. For example, the 5GB device agnostic pooled plan under this section will not pool with the data plans that are currently on the GSA Schedule. Cross-device pooling permitted only with eligible devices. Users may not increase their pooling contribution for already-billed services. There will be no additional charge for AT&T owned wireless Local Area Network (Wi-Fi) usage. AT&T has over 29,000 Wi-Fi hotspots in the United States.

Emergency Suspend: For devices used typically only in emergencies, the Government can use the Voluntary Suspend Plan to provide mobile devices at a moment's notice to personnel. Under this plan, a customer can suspend lines for up to 180 days. Lines in suspended status are charged a nominal established rate per month, per line. There is no additional monthly rate plan charge associated with the Suspend Plan. When an emergency arises, the customer can request that AT&T provision regular services (voice, data, text, etc.) on the lines (over the air.)

Suspended service prevents users from making and receiving calls on your wireless device, except for calling 611 to reach customer care and 911 in the event of an emergency. Monthly recurring fees accrue while the phone number is in a voluntary suspended status.

4.2 WIRELESS PRIORITY SERVICES

AT&T Mobility Priority Service gives emergency agencies priority handling for emergency calls in heavy network traffic. Now, the Departments of Defense and Homeland Security and civilian agencies have the priority access they need to help ensure they get their mission-critical calls through without delay. Sometimes, in large-scale emergencies, circuits can become overloaded and wireless networks can become jammed—delaying calls and crucial emergency response. Prompt access to your wireless network is critical in emergency situations.

A Simple Process When Speed is Critical

- Once your end user's SIM card is registered with Wireless Priority Service
- They can dial *272 plus the number you wish to reach
- Their call will be flagged as urgent communication and given priority to be connected over the next available channel
- Obtain approval from the National Communications System (NCS)

4.6.3 MobileIron from AT&T Additional Features

Docs@Work from AT&T

Docs@Work is an end-to-end security solution for both ActiveSync email attachments and SharePoint content. Docs@Work provides secure transport, local storage, viewing, and data wiping. MobileIron Docs@Work also creates a secure content hub on the iPhone or iPad for the end user to access and manage corporate documents utilizing policies, users, roles, groups, and permissions already set in MobileIron.

Web@Work from AT&T

Web@Work Enterprise Mobile Browser enables immediate, secure access to internal websites and web applications, while preserving a native and high-fidelity web browsing experience. Web@Work enables secure web browsing by protecting both data-in-motion and data-at-rest on the device.

AppConnect from AT&T

MobileIron AppConnect containerizes applications to protect application data-at-rest without touching personal data. Each application becomes a secure container whose data is encrypted, protected from unauthorized access, and removable. Because each user has multiple business applications, each application container is also connected to other secure application containers. This allows the sharing of policies like application single sign-on and the sharing of data like documents. All application containers are connected to MobileIron for policy management.

AppTunnel From AT&T

AppTunnel provides secure tunneling and access control to protect application data-in-motion without requiring a VPN. While the MobileIron platform also supports third-party VPNs, many customers do not want to open up VPN access to every application on a device. As an alternative, AppTunnel provides granular, application-by-application session security when connecting each application container to the corporate network.

Atlas (from AT&T) (no-charge option)

Atlas is a proactive advanced management console that provides highly scalable monitoring, troubleshooting, and management for administrators, users, applications, and devices across the Mobile IT lifecycle. Atlas collects information on device and application metrics and status, identifies issues, and provides actionable insights that enable an administrator and/or their delegates to assess critical information and apply corrective steps.

4.7.1 VMware Workspace ONE ("Workspace ONE" or "Solution")

VMware Workspace ONE ("Workspace ONE" or "Solution") is an enterprise platform that enables Customers to and manage apps on smartphones, tablets or laptops. By integrating app access management, unified endpoint management, and real-time application delivery, Workspace ONE is readily engaged by users, helps reduce the threat of data loss, and modernizes traditional IT operations.

The Workspace ONE editions allow organizations to license the technology based on user and endpoint requirements.

The Solution is offered via two editions -- Standard and Advanced -- that are offered in progressive layers to meet a Customer's specific needs for features and functionality. Recurring charge subscriptions to all cloud editions include a license plus the Application Service Desk ("ASD") Support Plan described below. For perpetual licenses for Cloud editions, an Application Service Desk Support Plan is required and must be purchased separately.

5.9.1.1 Workspace ONE Standard

The Workspace ONE Standard Edition includes the following:

5.9.1.1.1 Mobile Device Management ("MDM")

Mobile Device Management enables broad scale deployment of mobile devices with quick enrollment and easy configuration. Updates are provided over-the-air, and IT administrators can enforce policies, set restrictions, and help to secure devices while in use and if stolen. This Solution supports Android, iOS, Apple Mac OS, Google Chrome, and Windows operating systems from a single console. Customers can manage many functions from a single administrative portal using the same user name and password.

MDM can be deployed to manage both Customer-owned, individually-owned, and shared devices. It enables IT administrators to: gain near real-time visibility into the mobile devices in their environments; administer consistent policies across devices; enforce enterprise security and compliance standards; implement highly secure enterprise Data Loss Prevention (DLP) programs; automate processes and issue trouble resolutions; and analyze and report critical device information.

5.9.1.1.2 Mobile Application Management ("MAM")

Mobile Application Management offers a comprehensive set of services and tools that can be used to provide highly secure delivery, management, and tracking of mobile applications deployed on end users' devices. MAM supports the management of internal, public, and purchased applications from one central console (the "Console").

5.9.1.1.3 Container ("Container")

Container separates corporate and personal data on iOS or Android smartphone devices, helping to ensure that Customer resources are highly secure and employee privacy is maintained. Container creates a virtual container on devices where both VMware and internally developed applications may be viewed inside and outside the Container view but are protected through use of a shared container passcode. Access to the Customer's applications is granted to end users as apps in the container and can be managed by an administrator at the application level rather than the device level.

5.9.1.1.4 App Catalog

App Catalog enables Customers to manage and distribute enterprise applications via the Console. Customers' end users can locate and access applications within the App Catalog based on policy settings established within the Console, which can distribute, update, track and recommend applications in the App Catalog to end users.

5.9.1.1.5 VMware Identity Manager

VMware Identity Manager provides identity management that delivers one-touch access to nearly any app from subscribed devices that is optimized by the conditioned access provided by the Solution. Users have access to a self-service app store, and IT managers have a central place from which to manage user provisioning and access policies that support directory integration, identity federation and user analytics. Features include: (i) Enterprise Single Sign-On ("SSO"), which can be integrated with existing on-premises identity providers to aggregate SaaS ("Software-as-a-Service") and native mobile and Windows 10 apps into a single catalog; (ii) a Self-Service App Store that supports a Customer

branded self-service app store, which enables users to subscribe to applications across devices with automated or manual provisioning; and (iii) Identity Management with Adaptive Access, which establishes trust between users, devices and the hybrid cloud, providing conditional access controls.

5.9.1.1.6 Software Development Kit ("SDK")

SDK allows functionality to be applied to Customer developed iOS and Android applications, as well as other VMware applications. Customers can choose to apply profile settings and policies at an Organization Group ("OG") level. These options can be shared across applications located in the OG. Customers can also customize SDK profiles for SDK, App Wrapping, and other VMware applications.

Note: SDK technical support is available directly from VMware and Customers must also agree to the terms and conditions of a separate VMware Software Development Kit License Agreement to use SDK. A copy of the VMware Software Development Kit License Agreement is found at: https://www.vmware.com/download/eula/horizon_vse_sdk_eula.html

5.9.1.2 Workspace ONE Advanced

The Workspace ONE Advanced includes the Workspace ONE Standard edition plus App Wrapping, Boxer, Browser, Content Locker, and Telecom Management Tools.

5.9.1.2.1 Application Wrapping ("App Wrapping")

App Wrapping allows a Customer to incorporate additional functionality into its developed applications that may reduce or eliminate the need for development or code changes. The process of wrapping an application is initiated directly from the Console. Once an application is wrapped, the Customer can perform a number of administrative actions on the application, including actions to increase security. App Wrapping functionalities include the ability to detect and prevent access to compromised devices; prevent data-loss by disabling the copy and paste, Bluetooth and camera functions (on Android and iOS devices); control devices' ability to access networks based on network type or by service set identifiers ("SSIDs"); control offline access to applications; and redirect traffic using App Tunneling with the Mobile Access Gateway ("MAG") (which requires purchase of MAG Installation Professional Service).

5.9.1.2.2 VMWare Boxer ("Boxer")

Boxer is a fully containerized email management solution for iOS and Android devices. Boxer enables administrators to remotely configure and manage enterprise email accounts while keeping end users' personal and enterprise data separated. It supports Exchange ActiveSync and can be used to encrypt email messages and attachments. Boxer functionalities include the ability to: set a passcode required to access applications; restrict personal accounts from being added to the application; configure usage restrictions such as disabling copy/paste; restrict hyperlinks to only open in Browser; and provide attachment encryption using Secure Email Gateway (SEG). Android and iOS device requirements for Boxer may be obtained from an AT&T representative.

5.9.1.2.3 VMWare Browser ("Browser")

Browser is a highly secure Internet browsing alternative to native Internet browsers and provides Customers the ability to configure and enforce browsing policies for Internet and Intranet sites without requiring a device-level VPN. Browsing is enabled by utilizing either the Restricted or Kiosk mode. The Restricted Mode limits the device browser's functionality and its ability to access specified web content. It can also apply a blacklist or a whitelist to specific domains, and it supports wildcard entries, which allow Customers to whitelist or blacklist a comprehensive range of URLs. The Kiosk Mode restricts the device browser to a specific home page and disables the navigation bar, which limits navigation to links that appear on the home page.

5.9.1.2.4 VMWare Content Locker ("Content Locker")

Content Locker provides highly secure document distribution and mobile access to Customer documents using mobile applications on users' devices. Content Locker helps protect sensitive content in the highly secure container and provides users a central application they can use to access Customer documents from their mobile devices. Content Locker includes the ability to manage personal files and folders, as well as features such as editing, annotation and commenting capabilities on shared files. The VMware Content Locker Sync™ desktop functionality provides users with two-way synchronization of content between desktops and devices. VMware Content Locker for PCs provides users with highly secure access to corporate content on their personal computers. The web-based self-service portal allows users to add, manage and share personal content. Access to mobile applications is available for use on iOS, Android and Windows devices.

5.9.1.2.5 VMWare Telecom Management Tools ("Telecom")

Telecom includes all the capabilities available in MDM plus advanced capabilities to define users' usage plans, set usage thresholds and enforce compliance policies. Telecom can create telecom usage plans, either per device or by group, and define usage thresholds for voice, SMS and data usage based on plan limits. Compliance policies can be configured around usage thresholds to help prevent users from going over plan limits for voice, SMS and data usage by automatically triggering alerts or removing profiles at specified thresholds.

Hosting of the VMware software is provided by VMware on servers provided by VMware or its hosting suppliers ("Hosting Services"). A description of VMware Hosting Services and responsibilities and liabilities for those services is set forth in the TOS.

5.9.1.3 Professional Services

Professional Services are performed Monday through Friday, 9:00 a.m. to 5:00 p.m., local time. AT&T has attempted to accurately estimate the time required to successfully complete the project. Customer acknowledges and agrees that if impediments, complications, or Customer requested changes in scope arise (the "Changes"), these factors are out of the control of AT&T, and the schedule, services and fees could be impacted. In the event any Change(s) affect the schedule, services and fees, the parties will modify the Customer's Service Agreement accordingly by executing a Change Order form.

All Professional Service meetings are conducted remotely, unless otherwise agreed by the parties. Details regarding each Professional Services meeting can be obtained from an AT&T representative. Each such meeting is subject to a cancellation fee of up to \$500.00 if Customer cancels less than 24 hours before the scheduled meeting.

5.9.1.3.1 Premium Installation and Training for use of MDM Software (Required for the Installation of VMware Identity Manager, VMware Enterprise Mobility Software, VMware Cloud Connector and a Secure Email Gateway or PowerShell integration)

AT&T will provide premium installation and training implementation services connected with the purchase of associated VMware software licenses. The installation and training services will include installation of components located on the Customer's premise, including the Console, an optional VMware Cloud Connector and either a Secure Email Gateway or PowerShell integration for email management. These services include a total of four meetings.

AT&T will provide installation and training services connected with the purchase of the associated VMware software licenses. The installation and training services will include installation of components located on the Customer's premises, including the Console, an optional VMware Cloud Connector, either a Secure Email Gateway or PowerShell integration for email management, a Mobile Access Gateway for Content Management or secure Browsing, as well as installation, configuration, and training services for VMware Identity Manager. These services consist of a total of four meetings.

5.9.1.3.5 VMWare Content Locker - Advanced Installation and Training (Add-On Service to Premium Plus)

AT&T will provide implementation services connected with the purchase of the associated VMware Software Licenses and applicable Hosting Fees. The deployment will be conducted in a Customer hosted environment with integration provided by an existing Mobile Access Gateway. This project includes two meetings.

5.9.1.3.6 Customer Responsibilities Relating to Enterprise Mobility Management ("EMM") Deployment

This section identifies the Customer actions required to prepare for EMM deployment. A brief telephone call is strongly recommended in advance of the installation start date to review server configuration and reach agreement on which specific features should be implemented.

At a high level, these actions include:

- Both virtual and physical servers are supported and must be built to the specifications provided, including all additional Windows features and roles. The VMware installation files must be downloaded directly from VMware and must be available on each server to be incorporated in the VMware Mobile Device Management implementation. Customer must provision the physical server.
- Allocating IP addresses and Fully Qualified Domain Names ("FQDNs") for the platform. The IP addresses and FQDNs must be publicly accessible so mobile devices can access these platforms over the Internet.
- Ensuring access to Domain Name System ("DNS") servers.
- If Lightweight Directory Access Protocol ("LDAP") operation is desired, providing credentials for a system account allowing directory lookups.
- Opening required TCP and UDP ports on the firewall and communicating the necessary details during the pre-installation call with AT&T.
- Acquiring and/or preparing required certificates including the certificate for Apple Push Notification Service ("APNS").
- If using virtual machines ("VMs"), configuring VMs that meet the provided specifications and uploading the VMware installation file(s) to the VM data store(s).
- Providing AT&T's technical consultant remote access to the installation environment.
- Access to the fee based Apple Developer Program is required for the creation of the application signing certificate.

5.9.4.3.7 VMWare Secure Email Gateway ("SEG") Implementation and Configuration

AT&T will install, configure, and test the SEG or configure and test the SEG physical appliance to integrate the appliance with an existing VMware appliance.

5.9.4.3.7.1 VMWare Mobile Access Gateway (MAG) Implementation and Configuration (Optional)

AT&T will remotely configure and integrate one MAG into the VMware environment. Setup will include integration to one or all of the following: (i) internal document repositories and content using the secure Content Locker (SCL); (ii) internal websites using the secure Brower; and (iii) internal web applications with access to internal resources.

5.9.4.3.7.2 VMWare Cloud Connector (VCC) Implementation and Configuration

AT&T will remotely configure and integrate one VCC on the Customer's premise. Setup will include integration to one Active Directory server. Customer is responsible for provisioning a server on its premises in accordance with the configuration checklist to be provided.

5.9.4.3.8 Telecom Professional Services

AT&T will provide implementation services connected with the purchase of Telecom. The deployment will be conducted in an existing VMware hosted environment. This project consists of one meeting conducted.

5.9.4.3.9 Operations Training (Optional)

AT&T will conduct knowledge share and training for Customer's technical staff on the Solution. The engagement is up to five hours in duration. The training is delivered remotely via web conference and includes Customer hands-on configuration of these four features: (i) Boxer container setup; (ii) App Wrapping of one Customer developed application; (iii) secure Browsing; and (iv) Content Locker files on the VMware cloud

Platform, as applicable. Presentation Topics that can be selected by the Customer include: User Management; Device Registration and Retirement; Policy Management and Security; Device Configuration Management; and Reports and Logs. AT&T will coordinate the web conference and a pre-call will be set-up with the Customer by AT&T to review the session agenda and logistics. All server software installation must have been completed prior to this training. Software upgrades are not offered with this service.

5.9.4.3.10 Managed Service Health Check (Optional)

AT&T will inspect and review the current state of the VMware EMM platform and validate that the server, software implementation and configuration are consistent with the managed solution platform vendor and AT&T best practices and recommendations. The Health Check is typically delivered remotely over two days by an AT&T Professional Services Consultant. No travel expenses are required or included in this project. No hardware or software installation will be done on the Customer's premises. Any changes in scope that arise from discovery during the Health Check will be addressed via a separate professional service engagement. Included are the following: a methodological review of the existing VMware implementation; a review of platform configurations through inspection of configuration export (.XML) reports and/or the graphical configuration settings within the Console; a review of configuration policy definitions for error and completeness and a review of Device Status (pending, verified and wiped) and documentation of outstanding devices that should be under management. Policies are not reviewed for security efficacy. The following are also excluded: assessment of the state of the identity (Active Directory), collaboration (Exchange), or public key (certificates/SCEP) infrastructures, and implementation of any remediation recommended by the review.

Managed Health Check and System validation is provided remotely by one AT&T consultant. No hardware or software installation will be done on the Customer's premises.

5.9.4.3.11 Certificate Integration (Optional)

AT&T will implement and configure the integration settings to enable VMware to issue certificates to mobile devices from the Customer's Microsoft Certificate authority using the Customer's VMware-supported Public Key Infrastructure integration interface.

5.9.4.3.12 Policy Reviews for Customization (Optional)

Mobility Policy Reviews are available on a custom basis through AT&T Professional Services.

5.9.4.3.13 Advanced Authentication using Certificates and Kerberos Delegation (Optional)

All Professional Service meetings are conducted remotely, unless otherwise agreed by the parties. Details regarding each Professional Services meeting can be obtained from an AT&T representative. Each such meeting is subject to a cancellation fee of up to \$500.00 if Customer cancels less than 24 hours before the scheduled meeting.

5.9.4.3.13.1 Service Scope

AT&T will implement and configure the integration settings to enable the Solution to push certificates to mobile devices from a supported interface to the Customer's Certificate Authority. In completing the Certificate Authority integration AT&T will:

- Create one certificate template representing the Customer's desired type of identity certificate
- Define one device policy profile for Exchange ActiveSync auto-configuration using an MDM-pushed identity certificate
- Define one device policy profile for VPN Customer auto-configuration using an identity certificate
- Define one device policy profile for preferred Wi-Fi network auto-configuration using an identity certificate
- Configure the service accounts in Active Directory (User or Computer object) for Kerberos authentication delegation and create service principal names ("SPNs") if necessary
- Configure the email proxy service to request Kerberos delegated credentials on behalf of device users for mailbox access

AT&T will assist with the testing of each device profile on a single supported device.

Diagnosis and remediation of failed test cases to verify that a certificate of the correct type is issued by the Certificate Authority and installed within the device certificate store. The Customer is responsible for any diagnosis or remediation of authentication or authorization failures within the authentication, authorization and accounting ("AAA") infrastructure.

5.9.4.3.14 Application Service Desk ("ASD") Support Plan

The Solution consists of three components:

Mobile Application

Available in the applicable app stores, the Solution's mobile application runs in the background of a smartphone or tablet to help secure mobile devices 24/7. The app analyzes all apps, networks, and services used by the device to proactively help to identify known and emerging threats. In addition, it assesses the security state of the device itself, to determine if it has the proper security configuration. If threats are identified, the app can alert the mobile user, alert the Customer's IT department, and apply protection via relevant security policies.

Management Console

A central management console that can be deployed as cloud-based software, the Management Console gives organizations visibility into the state of their mobile security. Millions of data points are condensed to calculate a risk score so that Customer's IT can quickly discern the state of the overall system and the risk to each device. Admins can see which users or groups are most at risk and adjust policies appropriately. The console offers dashboards, reporting, risk management, configuration, integrations into other corporate platforms, and policy enforcement.

An existing integration with Microsoft Exchange allows devices to be quarantined from accessing sensitive information while they are under an active attack. The Solution's REST-based API also facilitates integration with SIEM and other security platforms. The Solution can proactively update devices with logic to protect against current threats.

Mobile Threat Intelligence

The Solution uses crowd wisdom to create a comprehensive picture of the Internet from a mobile perspective. This helps enterprises to differentiate between legitimate and malicious networks, apps, and configurations. This feature monitors devices all around the world and conducts millions of security tests on a monthly basis. By analyzing both the malicious and legitimate behavior of the services, apps, and networks touched by each device, predictions are made as to where attacks will happen next, including zero-day and advanced persistent threats.

The Solution helps to protect against network-based threats, malware, vulnerability exploits and other targeted attacks originating from both internal and external sources. The Solution's predictive technologies leverage mobile threat intelligence gathered via massive crowd intelligence and sophisticated machine learning.

The Solution uses a multi-layer approach to detect malware based on parameters such as signatures, user behavior, static/dynamic analysis, source origin, structure, permissions and known malicious application blacklists. It also utilizes a patented proactive approach to help secure mobile devices against network-based attacks. The Solution uses crowd intelligence and research to help identify attacks and notify OS vendors and users of required OS upgrades or patches.

A client application for iOS and Android devices that is "always on" and helps protect devices from multiple threats; notifies end users of all threats detected; reports all device status and threat information back to the Administrative Console; provides non-personally-identifiable threat data to the Solution's Real-Time Threat Intelligence services; and is available for use with company-owned or user-owned devices.

The Solution's administrative console gives IT managers near real-time visibility into covered devices, plus analytics and reporting on individual devices, identified threats and risks, and compliance with Customer policies. The console also facilitates management of user/device onboarding, notifications and alerts and EMM integration.

The Solution gathers near real-time threat intelligence that is active 24x7 to aggregate and correlate threat data from crowd wisdom that comes from non-personally-identifiable threat data collected from all subscribed mobile clients, dozens of threat feeds from third parties and dedicated Symantec research and collaboration with OS and other security vendors. The Solution integrates with popular enterprise mobility management (EMM) solutions, providing automated ability to establish remote communication, take control, or lock down any mobile device which is under attack.

The Solution protects end users' privacy as follows: The Solution does not analyze, nor save any data generated by end user mobile devices, except that generated by the Solution's client mobile application. In cases where a network threat has been identified on a specific network, end user Internet access may be routed through the Solution's VPN servers to maintain a secure connection while the threat is persistent. The Solution may collect information regarding the behavior and usage of suspicious applications on end user devices in order to provide detailed analysis with respect to potential threats. Such information may include specific device configurations and suspicious application binaries but will not include personal content stored by applications. The Solution does not monitor or store any content that end users upload or download, such as text messages, contact lists, email content, form field submissions, or data that a website retrieved. The stored data will be attributable to an end user only to the extent necessary to provide services. Thereafter, the Solution will anonymize the data and will not knowingly use the data to personally identify end users.

The Solution's two billable components are end-user licenses which are available for purchase on a per-device basis and required AT&T Configuration and Training Professional Services.

MDM Services: Upon completion of MDM Services, the Agency must either sign the acceptance document AT&T presents or provide it within five business days of the service completion date with a notice in writing to AT&T identifying any non-conforming MDM Services. If the Agency fails to provide such notice, the Agency is deemed to have accepted the MDM Services. The Agency acknowledges that AT&T and the Agency are

independent contractors. These MDM services are provided by AT&T remotely. The Agency will in a timely manner allow AT&T remote access as reasonably required for the MDM Services to equipment that the Agency controls. If the Agency requires these services to be performed on-site, additional costs for travel and associated expenses as well as additional terms and conditions may apply. The MDM Services provided shall be performed Monday through Friday, 9:00 a.m. to 5:00 p.m., local time. The mandatory software installation and configuration is estimated to take two days.

If the MDM Services provided in connection with the Virtual Smart Phone (VSP) are more complex than those described in this contract, then a separate statement of work describing the activity and related terms and pricing will be executed. If impediments, complications or Agency-requested changes in scope arise (Changes), the completion schedule, VSP and fees could be impacted. In the event any Change(s) affect the VSP or fees, the parties will modify Customer's order (or statement of work, if applicable) accordingly by executing a Change Order.

- Obtain Customer's shipping account information and desired default shipping method

5.3.2 Extended Device Warranty Service

The Extended Device Warranty Service includes normal use failure and accidental physical damage of covered devices. This warranty provides repair or replacement devices for a two-year period from the purchase date of each subscribed device. The Extended Device Warranty must be purchased at the time a device is purchased or within 30 days thereafter. AT&T will coordinate the repair or replacement process as required. Once repaired or replaced, the devices are restocked into Customer's spares pool maintained by AT&T at AT&T's staging facility.

Features of the Extended Device Warranty Service include the following:

1. **Provides coverage for both normal-use failure and accidental damage, including protection from:**
 - a. Mechanical failures
 - b. Drops and spills (including screen damage and water damage)
 - c. Integrated battery failures

If a device is not repairable, a refurbished or new like-model replacement device is provided

Items not covered:

- a. Lost or stolen devices
- b. Accessories
- c. Software issues or data, including viruses, spyware, lost or corrupted data or programs

Note: Extended Device Warranty must be purchased with the Advanced Exchange Service.

5.3.3 Advanced Exchange Service

AT&T's Advanced Exchange Service facilitates the shipment of replacement devices to end users whose devices are lost, stolen, damaged or otherwise need repair. The service includes provisions for repair or replacement devices to cover accidental physical damage of covered devices. This service option requires the subscribing Agency to order and purchase an additional 2.5% of devices (or a minimum of 5 devices per device type, whichever is greater). These additional devices are stocked in a spares pool and held, at AT&T's risk, in inventory at a secure AT&T staging facility location dedicated to the subscribing Agency. The service is carrier agnostic and the provision of transport services is not included in the offer.

AT&T will maintain a copy of the current baselined configuration requirements for the subscribing Agency's devices (called a "Gold Image") which is used to stage replacement devices. The Gold Image is mutually agreed upon by the subscribing Agency and AT&T during the on-boarding process. Upon the subscribing Agency's request, AT&T will load, test and ship a stored device to the end user and location designated by the subscribing Agency.

AT&T provides a Service Desk dedicated to handling Advanced Exchange requests Monday through Friday from 6am to 7pm Central Standard Time (CST), excluding AT&T designated holidays. AT&T will ship the configured replacement device within 24 hours of the request using overnight delivery or next day delivery. Specific activities performed in connection with Advanced Exchange service include the following:

- Maintenance of a current copy of the Gold Image configuration
- Activation of the device on behalf of the subscribing Agency
- Porting the telephone number from a lost, stolen or damaged device to the replacement device and/or providing a SIM swap option or porting instructions, if necessary
- Testing replacement device for connectivity
- Configuring replacement device based on approved Gold Image
- Quality assurance testing for compliance with base-lined Gold Image
- Shipping the device to the address specified by the subscribing Agency at the initiation of the replacement request
- Including a prepaid shipping label for the end user to return the damaged device to the AT&T Staging Facility (if applicable) using the same box and prepaid label (subscribing Agency's shipping account will be charged for shipment of the device and the return label)
- Coordinating the repair or replacement of damaged devices with the manufacturer warranty, outside service, or AT&T's Extended Device Warranty for hardware replacement or repair
- Collecting and updating asset data and tracking information

The subscribing Agency is responsible for replenishing devices in the spares pool when the stocked quantity has dropped below the agreed-upon threshold that is determined in the on-boarding process. A process for automatic replenishment or Agency-approved replenishment will be agreed upon during the on-boarding process.

11.0 Telematics

11.1 AT&T FLEET MANAGER SERVICE

AT&T Fleet Manager is a web based location and telematics vehicle fleet management solution. With these measurement and reporting tools, an Agency can lower costs, increase efficiency and safety, deliver enhanced service to constituents, and assist in meeting regulatory and environmental standards.

AT&T Fleet Manager's state-of-the-art Locator devices are installed in any type of fleet vehicle. The Locator transmits location and status information to AT&T Fleet Manager, a powerful web-based application that allows Agency fleet managers to make faster and better decisions.

- Features Real-time and historical GPS-based information
- Comprehensive on-board engine and vehicle diagnostics
- Automated data collection and reporting (down to 3 second reporting)
- Advanced reporting and dashboards
- Live Service Maps
- Route Completion
- GIS Maps
- Two-way voice and data communications
- A n extensive geofence feature set and an unlimited number of landmarks
- Electronic Logging devices with e-DVIR (Electronic Driver Vehicle Inspection Reports)
- In-vehicle navigation

How It Works

AT&T Fleet Manager consists of securing a small telematics/GPS tracking hardware unit underneath the dashboard or another hidden location in a truck or other vehicle where it can optionally connect securely to on-board electronic systems (e.g., OBDII / JBUS / CANbus).

This locator hardware is equipped with a combination GPS (satellite) antenna for location identification and GSM/GPRS wireless data antenna. The unit also uses an AT&T SIM card to establish the protocol for connecting to AT&T's cellular network. GPS location information, on-board vehicle computer information and other inputs are transmitted via the AT&T Mobility packet data network to a hosted server, where they are presented to the customer in a variety of formats and reports.

AT&T Fleet Manager's vehicle management system dynamically measures and reports both the status of a vehicle's performance and its geographic location. Once installed in a vehicle, AT&T Fleet Manager collects data from a host vehicle's on-board computer and systems, and location information from a global positioning system (GPS). It then transmits this data over the AT&T Mobility data network to a reporting server hosted and managed by WebTech (satellite connectivity for areas where there is not sufficient GPRS connectivity is available as an add-on option). The computer system analyzes the data and posts the results on a secure website, so that a fleet manager can access 24/7 from any computer with Internet access.

**INFORMATION FOR ORDERING ACTIVITIES
APPLICABLE TO ALL SPECIAL ITEM NUMBERS**

**SPECIAL NOTICE TO AGENCIES
Small Business Participation**

SBA strongly supports the participation of small business concerns in the Federal Acquisition Service. To enhance Small Business Participation SBA policy allows agencies to include in their procurement base and goals, the dollar value of orders expected to be placed against the Federal Acquisition Schedules, and to report accomplishments against these goals.

For orders exceeding the micropurchase threshold, FAR 8.404 requires agencies to consider the catalogs/pricelists of at least three schedule contractors or consider reasonably available information by using the GSA Advantage!® on-line shopping service (www.fss.gsa.gov). The catalogs/pricelists, GSA Advantage!® and the Federal Acquisition Service Home Page (www.fss.gsa.gov) contain information on a broad array of products and services offered by small business concerns.

This information should be used as a tool to assist ordering activities in meeting or exceeding established small business goals. It should also be used as a tool to assist in including small, small disadvantaged, and women-owned small businesses among those considered when selecting pricelists for a best value determination.

For orders exceeding the micropurchase threshold, customers are to give preference to small business concerns when two or more items at the same delivered price will satisfy their requirement.

AT&T General Terms and Conditions

As of February 10, 2023

1. Service.

1.1 AT&T Markets. Service is available for purchase only in AT&T Markets, as may be modified by AT&T from time to time.

1.2 Availability/Interruption. Service will be available only within the operating range of each Carrier's wireless system in AT&T Markets and where roaming is available through other carriers (each, a **Service Area**). AT&T may from time to time add or delete Service Areas, and AT&T may terminate Service to Customer's CRU(s) in any such deleted Service Area and/or terminate the Agreement if the Service Area deletion affects all of Customer's CRUs. Gaps in Service occur within the Service Areas shown on coverage maps, which, by their nature, are only approximations of actual coverage; therefore, AT&T does not guarantee Customer uninterrupted Service. Unless prohibited by law, Service may be interrupted, delayed or otherwise limited for a variety of reasons, including environmental conditions, unavailability of radio frequency channels, system capacity, priority access by National Security and Emergency Preparedness personnel in the event of a disaster or emergency, coordination with other systems, equipment modifications and repairs, and problems with the facilities of interconnecting carriers. AT&T may block access to certain categories of numbers (for example, 976, 900 and international destinations) at its sole discretion. In addition, AT&T may interrupt Service without notice for any reason, including, but not limited to, the following:

- (a) any conduct that AT&T believes violates the Agreement (including, without limitation, any terms and conditions of Customer's Plan) or AT&T's Acceptable Use Policy;
- (b) any conduct that involves the use of abusive, derogatory, insulting, threatening, vulgar or similarly unreasonable language or behavior directed at any of AT&T's employees or representatives, whether in person, over the phone, or in writing;
- (c) any abusive use of the AT&T network or Services;
- (d) Customer or a CRU uses any Equipment and/or Services for an unlawful or fraudulent purpose;
- (e) Customer or a CRU uses any Equipment and/or Services in any way that: (i) is harmful to, interferes with, or negatively affects AT&T's owned network, other customers, or the network of any other provider, (ii) is harmful to, interferes with, or negatively affects the Services or AT&T's operations, (iii) infringes intellectual property rights of AT&T or others, (iv) results in the publication of threatening, offensive or illegal material, or (v) generates or constitutes spam or other abusive messaging or calling, a security risk, or a violation of privacy;
- (f) Customer or a CRU resells the Services, either alone or as part of any other good or service;
- (g) upon receipt of an order by a state or federal agency;
- (h) LEFT INTENTIONALLY BLANK;
- (i) LEFT INTENTIONALLY BLANK;
- (j) LEFT INTENTIONALLY BLANK; or

- (k) Customer or a CRU modifies any Equipment from its manufacturer's specifications.

AT&T's rights under this Section are in addition to any specific rights that are reserved in other provisions of the Agreement to interrupt, Customer's Services.

3. Equipment.

3.1 Availability. With respect to Numbers provisioned from AT&T Markets, Customer may purchase available Equipment found at the "Equipment" page of the Program Website, the list of which may be modified by AT&T from time to time. Specific models of Equipment are subject to availability limitations.

3.2 General. Customer is responsible for all phones and other Equipment assigned to Customer and/or its CRUs under Customer's account. Equipment must be compatible with, and not interfere with, the Service and must comply with all applicable laws, rules, and regulations. Customer is responsible for the purchase and maintenance of any additional hardware, software and/or Internet access from PCs required to use the Service. Equipment not purchased from AT&T or its authorized distributors (a) may not provide some or all of the features included in the Service; and (b) may not allow use of features and functions when off of AT&T's wireless network, including those that work while on AT&T's wireless network, and CALLS TO 911 MAY NOT GO THROUGH ON ANY NETWORK. AT&T may periodically program Customer's Equipment remotely with system settings for roaming service, to direct Customer's Equipment to use network services most appropriate for Customer's CRUs' typical usage, and other features that cannot be changed manually. Customer agrees that Customer and/or its CRUs won't make any modifications to the Equipment or its programming to enable the Equipment to operate on any other system. AT&T may, at its sole and absolute discretion, modify the programming to enable the operation of the Equipment on other systems. Customer is solely responsible for complying with U.S. Export Control laws and regulations and the import laws and regulations of foreign countries when CRUs are traveling internationally with Customer's Equipment. Call timers included in the Equipment are not an accurate representation of actual billed usage.

3.3 Shipping, Title and Risk of Loss. Subject to availability, and AT&T's receipt of complete order information, AT&T will ship Equipment ordered by Customer and/or its End Users to the address specified in the order within two (2) to five (5) business days of AT&T's receipt of the order. Title and risk of loss to the Equipment will pass to Customer upon delivery of the Equipment to the address specified in the order; however, title and risk of loss to Equipment shipped to American Samoa, Guam, and the Northern Mariana Islands will pass to Customer over international waters.

4. Activation and Other Processes.

4.1 Service and Equipment. Customer will follow the policies and processes established by AT&T to purchase, activate, migrate, terminate, or otherwise modify a Service, including without limitation AT&T Mobile Services and Equipment, as may be modified from time to time. Customer authorizes AT&T to provide information about and to make changes to Customer's account, including adding new Service, upon the direction of any individual representative of Customer able to provide information AT&T deems sufficient to identify Customer. Customer consents to the use by AT&T or its authorized agents of regular mail, predictive or autodialing equipment, email, text messaging, facsimile or other reasonable means to contact Customer and/or its CRUs to advise Customer and/or its CRUs about AT&T's Services or other matters AT&T believes may be of interest to Customer and its CRUs. In any

event, AT&T reserves the right to contact Customer and/or its CRUs by any means regarding customer service-related notifications, or other such information.

Additional Products, Services, Equipment, and Programs. AT&T may make additional products, services, Equipment and/or programs available to Customer in accordance with FAR 8.402(f), Open Market Items. Open Market Items are available as incidental items to services purchased under the AT&T GSA Contract # 47QTCA19D00MV. Open Market Items must be purchased on the same order as the Federal Supply Schedule item that the Open Market Item is incidental to or on an order modification to an existing order that includes the Federal Supply Schedule item that the Open Market Item is incidental to. Open Market Items are to be clearly labeled on any resulting order as items not on the Federal Supply Schedule (FAR 8.402(f)(3)). All clauses applicable to items not on the Federal Supply Schedule are to be included in any resulting order (FAR 8.402(f)(4)).

4.2

4.3 Identification and Password. Before Customer may use certain AT&T online activation, enrollment, configuration and/or support services, an authorized representative of Customer must register with AT&T and create a login identification (**ID**) and password. Use of this ID and password will enable Customer and/or its employees and agents to make certain changes to Customer's and/or CRUs' account(s). Customer is solely responsible for maintaining adequate security and control of any and all IDs, passwords, or any other codes that are created by Customer, or issued to Customer by AT&T, for purposes of giving Customer access to activation, enrollment, configuration and support services. AT&T is entitled to rely on information it receives from Customer or its agents and may assume that all such information was submitted by or on behalf of Customer.

4.4 Supplemental Services. LEFT INTENTIONALLY BLANK

5. Payment and Charges.

5.1 Payment. Customer must pay all charges, including, without limitation, airtime, roaming, recurring monthly service, activation, optional feature charges, license fees, toll, collect call and directory assistance charges, Equipment, Supplemental Services, and any other charges or calls billed to a CRU's phone number. Customer may be billed for multiple types of usage simultaneously. Customer must also pay applicable taxes and governmental fees (regardless of whether they are imposed on Customer, a CRU, AT&T or a Carrier), administrative and late payment fees, restoral and reactivation charges, and any Other Monthly Charges (as defined below). For any termination (including when a Number is switched to another carrier), Customer will be responsible for payment of all fees and charges through the end of the billing cycle in which termination occurs. Payment is due upon receipt of the invoice.

5.1.1 Other Monthly Charges. In addition to the monthly cost of the Plan and any selected features, AT&T imposes the following charges: (a) a Regulatory Cost Recovery Charge to help defray its cost incurred in complying with obligations and charges imposed by state and federal telecom regulations, (b) a gross receipts surcharge, (c) state and federal universal service charges, and (d) other governmental assessments on AT&T, including, without limitation, a Property Tax Allotment surcharge applied with respect to each Corporate Responsibility User's assigned Number. These are not taxes or government-required charges. Customer understands and agrees that state and federal universal service fees and other governmentally imposed fees, whether or not assessed directly upon Customer, may be increased based upon the government's or AT&T's calculations. See att.com/mobilityfees for more detail on the applicable discretionary charges.

5.1.2 Auto Bill Pay. LEFT INTENTIONALLY BLANK

5.1.3 Payment Upon Cancellation. LEFT INTENTIONALLY BLANK

5.2 Charges.

5.2.1 Generally. If Equipment is shipped to Customer or a CRU, Services may be activated before delivery of the Equipment so that it can be used promptly upon receipt. Thus, Customer may be charged for Services while the Equipment is still in transit. Monthly service and certain other charges are billed in arrears, if Customer elects to receive invoices for Service combined with Customer's wireline phone bill (where available), Customer will be billed in advance as provided above. Unless otherwise provided in the corresponding Sales Information, if a selected Plan includes a predetermined allotment of services (for example, a predetermined amount of airtime, data, megabytes or text messages), any unused allotment of such services from one billing cycle will not carry over to any other billing cycle. AT&T may bill Customer in a format as AT&T determines from time to time. Invoices will be available electronically through the eBill application in AT&T's Premier platform. Additional charges may apply for paper summary invoices, additional copies of invoices, or for detailed information about Customer's usage of Services. All data and messaging allowances must be used in the billing period in which the allowance is provided. Billing of usage for calls, messages, data or other services (such as usage when roaming on other carriers' networks, including internationally) may occasionally be delayed. Such usage charges may appear in a later billing cycle, will be deducted from Anytime monthly minutes or other Service allotments for the month when the usage is actually billed, and may result in additional charges for that month. Those minutes will be applied against Customer's Anytime monthly minutes in the month in which the calls appear on Customer's bill. Customer also remains responsible for paying the monthly service fee if Service is suspended for nonpayment. Billing cycle end dates may change from time to time. When a billing cycle covers less than or more than a full month, AT&T may make reasonable adjustments and prorations. Service charges may differ by Service Area. Particular Services may incur charges in a different manner than set forth herein, and AT&T will advise Customer of any such differences in the corresponding Attachment and/or Sales Information. Certain Services (for example, select non-stocked Equipment) may be billed to Customer's or its CRUs' invoices, as applicable, by AT&T on behalf of the third-party provider pursuant to the terms and conditions of AT&T's Alliance Billing Service Attachment found at the Program Website. AT&T will advise Customer when the Alliance Billing Service applies.

5.2.2 Voice Service Charges. AIRTIME AND OTHER MEASURED USAGE (**CHARGEABLE TIME**) IS BILLED IN FULL-MINUTE INCREMENTS, AND ACTUAL CHARGEABLE TIME IS ROUNDED UP TO THE NEXT FULL-MINUTE INCREMENT AT THE END OF EACH CALL FOR BILLING PURPOSES. AT&T CHARGES A FULL MINUTE OF AIRTIME USAGE FOR EVERY FRACTION OF THE LAST MINUTE OF AIRTIME USED ON EACH WIRELESS CALL. UNLESS OTHERWISE PROVIDED IN THE SALES INFORMATION FOR A PARTICULAR PLAN OR FEATURE, MINUTES WILL BE DEPLETED ACCORDING TO USAGE IN THE FOLLOWING ORDER: NIGHT AND WEEKEND MINUTES, MOBILE TO MOBILE MINUTES, ANYTIME MINUTES AND ROLLOVER, EXCEPT THAT MINUTES THAT ARE PART OF BOTH A LIMITED PACKAGE AND AN UNLIMITED PACKAGE WILL NOT BE DEPLETED FROM THE LIMITED PACKAGE. Chargeable Time begins for outgoing calls when pressing SEND (or similar key) and for incoming calls when a signal connection from the caller is established with AT&T's facilities. Chargeable Time ends after pressing END (or similar key), but not until the Equipment's signal of call disconnect is received by AT&T's facilities and the call disconnect signal has been confirmed. All outgoing calls on AT&T's wireless network for which AT&T's systems receive answer supervision or which have at least thirty (30) seconds of airtime or other measured usage shall incur a minimum of one (1) minute airtime charge. Answer supervision is generally received when a call is answered; however, answer supervision may also be generated by voice mail systems, private branch exchanges, and interexchange switching equipment. Chargeable Time may (a) include time for AT&T to recognize that only one party has disconnected from the call, time to clear the channels in use, and ring time, and (b) occur from other uses of AT&T's facilities, including by way of example, voice mail deposits and retrievals, and call transfers. Calls that begin in one rate period and end in another rate period may be billed in their entirety at the rates for the period in which the call began.

5.2.3 Wireless Data Service Charges. DATA TRANSPORT OR USAGE IS CALCULATED IN FULL-KILOBYTE INCREMENTS, AND ACTUAL TRANSPORT OR USAGE IS ROUNDED UP TO THE NEXT FULL-KILOBYTE INCREMENT AT THE END OF EACH DATA SESSION FOR BILLING PURPOSES. AT&T CALCULATES A FULL KILOBYTE OF

DATA TRANSPORT/USAGE FOR EVERY FRACTION OF THE LAST KILOBYTE OF DATA TRANSPORT/USAGE USED ON EACH DATA SESSION. TRANSPORT OR USAGE IS BILLED EITHER BY THE KILOBYTE (**KB**) OR MEGABYTE (**MB**). IF BILLED BY MB, THE FULL KBs CALCULATED FOR EACH DATA SESSION DURING THE BILLING PERIOD ARE TOTALED AND ROUNDED UP TO NEXT FULL MB INCREMENT TO DETERMINE BILLING. IF BILLED BY KB, THE FULL KBs CALCULATED FOR EACH DATA SESSION DURING THE BILLING PERIOD ARE TOTALED TO DETERMINE BILLING. NETWORK OVERHEAD, SOFTWARE UPDATE REQUESTS, EMAIL NOTIFICATIONS AND RESEND REQUESTS CAUSED BY NETWORK ERRORS CAN INCREASE MEASURED KILOBYTES. DATA TRANSPORT/USAGE OCCURS WHENEVER CUSTOMER'S DEVICE IS CONNECTED TO AT&T'S WIRELESS NETWORK AND IS ENGAGED IN ANY DATA TRANSMISSION, AS DISCUSSED IN MORE DETAIL IN SECTION 4.4 OF THE ENTERPRISE CUSTOMERS: ADDITIONAL SERVICE AND EQUIPMENT RELATED TERMS PORTION OF THE AGREEMENT FOUND IN PRODUCT SPECIFIC TERMS AND CONDITIONS BELOW Utilizing compression solutions may or may not impact the amount of kilobytes calculated for data transport. For Wireless Data Service that permits Voice Service usage at pay per use rates, airtime and other measured usage will be billed in full minute increments and rounded up to the next full minute increment at the end of each call. Customer is responsible for all Wireless Data Service usage sent through AT&T's wireless network and associated with Equipment regardless of whether the Equipment actually receives the information. Network overhead, software update requests, and resend requests caused by network errors can increase measured kilobytes. If Customer or a CRU chooses to connect Equipment to a PC for use as a wireless modem, standard Wireless Data Service charges will apply in accordance with the corresponding Plan. Wireless Data Service usage is compiled as often as once per hour or only once every 24 hours. AT&T's system will then create a billing record representing (a) the Wireless Data Service usage for each data gateway or service accessed (for example, WAP, RIM) while on AT&T's wireless network; (b) the usage for each Carrier's domestic network; and (c) the Wireless Data Service usage for each international network. In some situations, billing for Wireless Data Service usage may be delayed; any delayed usage will create additional billing records for the actual day of the usage.

5.3 Software. Any software licensed separately by AT&T to Customer and/or its CRUs for use with the Service will be governed by the written terms and conditions applicable to such software. Title to software remains with AT&T or its supplier. Customer must comply with all such terms and conditions and they take precedence over the Agreement as to such software. For the avoidance of doubt, software referred to herein does not include Software (as defined in the Additional Service and Equipment Related Terms found below) or any Supplemental Service.

5.4 Disputed Charges. LEFT INTENTIONALLY BLANK

5.5 Late Payment Fee. LEFT INTENTIONALLY BLANK

5.6 Advance Payments and/or Deposits. LEFT INTENTIONALLY BLANK

6. Default, Cure, Termination, and Final Payment. LEFT INTENTIONALLY BLANK

7. DISCLAIMERS AND LIMITATIONS OF LIABILITY.

7.1 Disclaimer of Warranties. AT&T MAKES NO REPRESENTATIONS OR WARRANTIES, EXPRESS OR IMPLIED, AND SPECIFICALLY DISCLAIMS ANY REPRESENTATION OR WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE, NONINFRINGEMENT OR ANY WARRANTY ARISING BY USAGE OF TRADE OR COURSE OF DEALING. FURTHER, AT&T MAKES NO REPRESENTATION OR WARRANTY THAT WIRELESS CALLS OR OTHER TRANSMISSIONS WILL BE ROUTED OR COMPLETED WITHOUT ERROR OR INTERRUPTION (INCLUDING CALLS TO 911 OR ANY SIMILAR EMERGENCY RESPONSE NUMBER), OR GUARANTEE REGARDING NETWORK SECURITY, THE ENCRYPTION EMPLOYED BY ANY SERVICE, THE INTEGRITY OF ANY DATA THAT IS SENT, BACKED UP, STORED OR SUBJECT TO LOAD BALANCING, OR THAT AT&T'S SECURITY PROCEDURES WILL PREVENT THE LOSS OR ALTERATION OF, OR IMPROPER

ACCESS TO, CUSTOMER'S DATA AND INFORMATION. AT&T DOES NOT AUTHORIZE ANYONE TO MAKE A WARRANTY OF ANY KIND ON ITS BEHALF, AND CUSTOMER SHOULD NOT RELY ON ANYONE MAKING SUCH STATEMENTS. AT&T IS NOT THE MANUFACTURER OF EQUIPMENT PURCHASED BY OR PROVIDED TO CUSTOMER IN CONNECTION WITH USE OF THE SERVICE.

7.2 Limitation of Liability.

(a) AT&T'S ENTIRE LIABILITY, AND CUSTOMER'S EXCLUSIVE REMEDY, FOR DAMAGES ARISING OUT OF MISTAKES, OMISSIONS, INTERRUPTIONS, DELAYS, ERROR OR DEFECTS IN THE SERVICE THAT LAST MORE THAN TWENTY-FOUR (24) HOURS, AND NOT CAUSED BY CUSTOMER'S NEGLIGENCE, WILL IN NO EVENT EXCEED THE RECURRING SERVICE CHARGES FOR THE PERIOD DURING WHICH SUCH MISTAKE, OMISSION, INTERRUPTION, DELAY, ERROR OR DEFECT OCCURS AND CONTINUES. IN NO EVENT SHALL AT&T BE LIABLE TO CUSTOMER FOR ANY DAMAGES ARISING OUT OF MISTAKES, OMISSIONS, INTERRUPTIONS, DELAYS, ERROR OR DEFECTS THAT LAST LESS THAN TWENTY FOUR (24) HOURS.

(b) SECTION 7.2(a) WILL NOT APPLY TO:

(i) BODILY INJURY, DEATH, OR DAMAGE TO REAL OR TANGIBLE PROPERTY DIRECTLY CAUSED BY AT&T'S NEGLIGENCE;

(ii) BREACH OF SECTION 12 (Publicity and Advertising) OR SECTION 13.6 (Confidential Information); OR

(iii) DAMAGES ARISING FROM AT&T'S GROSS NEGLIGENCE OR WILLFUL MISCONDUCT.

(c) NEITHER AT&T NOR CUSTOMER WILL BE LIABLE TO THE OTHER PARTY FOR ANY INDIRECT, INCIDENTAL, CONSEQUENTIAL, PUNITIVE, RELIANCE, OR SPECIAL DAMAGES, INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOST PROFITS, ADVANTAGE, SAVINGS OR REVENUES, OR INCREASED COST OF OPERATIONS.

7.3 Disclaimer of Liability. AT&T WILL NOT BE LIABLE FOR ANY DAMAGES, EXCEPT TO THE EXTENT CAUSED BY AT&T'S GROSS NEGLIGENCE OR WILLFUL MISCONDUCT, ARISING OUT OF OR RELATING TO: INTEROPERABILITY, ACCESS OR INTERCONNECTION OF THE SERVICE WITH APPLICATIONS, EQUIPMENT, SERVICES, CONTENT OR NETWORKS PROVIDED BY CUSTOMER OR THIRD PARTIES; SERVICE DEFECTS, SERVICE LEVELS, DELAYS OR INTERRUPTIONS (EXCEPT FOR LIABILITY FOR SUCH EXPLICITLY SET FORTH IN THE AGREEMENT); ANY INTERRUPTION OR ERROR IN ROUTING OR COMPLETING CALLS OR OTHER TRANSMISSIONS (INCLUDING 911 CALLS OR ANY SIMILAR EMERGENCY RESPONSE NUMBER); LOST OR ALTERED MESSAGES OR TRANSMISSIONS; OR UNAUTHORIZED ACCESS TO OR THEFT, ALTERATION, LOSS, OR DESTRUCTION OF CUSTOMER'S, ITS AFFILIATE'S, END USERS', OR THIRD PARTIES' APPLICATIONS, CONTENT, DATA, PROGRAMS, INFORMATION, NETWORK, OR SYSTEMS.

7.4 Application and Survival. The disclaimer of warranties and limitations of liability set forth in the Agreement will apply regardless of the form of action, whether in contract, equity, tort, strict liability or otherwise and whether damages were foreseeable, and will apply so as to limit the liability of AT&T, Customer and their respective Affiliates, employees, directors, subcontractors, and suppliers. The limitations of liability and disclaimers set out in this Section 7 will survive failure of any exclusive remedies provided in this Agreement.

8. Force Majeure. LEFT INTENTIONALLY BLANK

9. Informal Dispute Resolution and Binding Individual Arbitration. - LEFT INTENTIONALLY BLANK

10. No Class Actions. To the greatest extent permitted by law, all claims between AT&T and Customer related to the Agreement will be litigated individually, and Customer will not consolidate or seek class treatment for any claim unless previously agreed to in writing by AT&T.

11. Use of Service.

11.1 Changes to Numbers. Except as otherwise provided by law, Customer has no property rights to any Number and AT&T may change any such Number.

11.2 Fraud Prohibited. Customer and its respective CRUs and IRUs (if applicable) will not use or assist others to use the Service or Equipment for any unlawful, unauthorized, abusive or fraudulent purpose. If Customer's Equipment is lost or stolen, Customer and/or its CRUs can report the Equipment as lost or stolen and suspend Service without a charge by contacting AT&T at the phone number listed on the monthly invoice or via your online account management portal (att.com/my/#/suspendrestore or att.com/premier, as applicable). Customer is responsible for all charges incurred until Customer or its CRU reports the theft or loss to AT&T except as otherwise provided by law, and Customer remains responsible for complying with all other obligations under the Agreement including, but not limited to, paying the Monthly Service Charge while the Equipment is suspended. Any Carrier may cancel Service to any Number if AT&T or that Carrier believes the Number is being used in an unlawful, abusive or fraudulent manner. Before a Carrier cancels any Service under this paragraph, the Carrier will give Customer notice of its intent to cancel. In the event Customer instructs the Carrier to retain Service, Customer will be responsible for paying all charges, authorized, unauthorized or fraudulent, associated with such Number, including but not limited to charges incurred by any clone or duplication of that Number. Additionally, Customer agrees to adopt, at no additional charge to Customer, any reasonable fraud prevention or fraud reduction processes or products recommended by AT&T or, if not adopted by Customer, to be responsible for any unauthorized charges on Numbers which do not adopt such processes or products.

11.3 Acceptable Use; Restrictions Regarding Service. All use of AT&T's wireless network and Service is governed by AT&T's Acceptable Use Policy, which can be found at att.com/AcceptableUsePolicy, as determined solely by AT&T. AT&T can revise its Acceptable Use Policy at any time without notice. Use of Service is also subject to any restrictions and/or prohibited uses described in the applicable Sales Information.

11.4 Ownership. AT&T owns or leases the exclusive rights to the frequencies related to the Service, Numbers and transmission facilities used by AT&T in the provision of Service to AT&T customers. FCC regulations strictly forbid any party that is not a wireless communications licensee from altering, enhancing or maintaining cellular radio signals. FCC regulations require AT&T to maintain control over any transmitting device that operates within AT&T's assigned frequencies. Neither Customer nor any of its Affiliates may install any amplifier, enhancer, repeater or other device or system on AT&T's wireless network or frequencies without AT&T's prior written approval.

11.5 Content. Customer is solely responsible for all content that it permits to be posted or transmitted onto or through the Service or any of AT&T's systems, including materials, code, data, text (whether or not perceptible by End Users), multimedia information (including but not limited to sound, data, audio, video, graphics, photographs, or artwork), e-mail, chat room content, bulletin board postings, or any other items or materials accessible through the Service or any of AT&T's systems (**Content**). Customer has sole responsibility for any losses resulting from Customer's or CRUs' downloading, access to, or use of any third-party Content, or from Customer's or CRUs' access to or use of the Service or the Internet, in any manner and for any purpose whatsoever. In providing Service, AT&T may permit End Users to transmit, receive and host content over its network and the Internet and may act as a "services provider" as defined in the Digital Millennium Copyright Act.

11.6 Customer's Notices to End Users. Customer will advise all its End Users that they must read all collateral materials concerning Service and use of the Equipment, including, without limitation, the Welcome Guide, Plan brochures, coverage maps, and materials related to Equipment and accessories. AT&T will make copies of such materials available to Customer upon request. Customer will also provide to End Users, and advise End Users to read, any additional printed materials and consumer information reasonably requested by AT&T from time to time to be so provided. Similarly, for purposes of determining which jurisdiction's taxes and other assessments to collect, federal law requires AT&T to obtain End Users' Place of Primary Use (**PPU**), which must be their residential or business street address and which must be within a Carrier's licensed Service Area. Customer agrees to provide its respective CRUs' PPU when ordering Service on behalf of such person(s), and to inform its End Users that they must provide their proper PPU when ordering Service in connection with the Agreement. If a CRU doesn't provide AT&T with a PPU, or if it falls outside AT&T's licensed Service Area, AT&T may reasonably designate a PPU within the licensed Service Area for such CRU. Each CRU must live and have a mailing address within AT&T's owned network coverage area or its assignee's.

11.7 AT&T Use of Location Information. AT&T collects information about the location of Customer's or its CRU's Equipment from AT&T's network and from the Equipment. AT&T monitors, collects, and uses this location information, together with other information AT&T gets from its network and the Equipment to provide the Services to Customer. AT&T also uses it to maintain and improve AT&T's network and the quality of Customer's wireless experience. For more information about the how AT&T may collect and use information, including location, please refer to the AT&T Privacy Policy at att.com/privacy. FirstNet customers should review the FirstNet Privacy Policy at firstnet.com.

12. Publicity and Advertising. Neither party will publish or use any advertising, sales promotion, press release or other publicity that uses the other party's name, logo, trademarks or service marks without the prior written approval of the other party.

13. Miscellaneous.

13.1 Defined Terms. Unless specifically excepted, all defined terms, regardless of where defined, will have the same meaning in all documents comprising the Agreement including, without limitation, the Cover Page (if applicable), the Program Description, the General Terms and Conditions, and all attachments. GSM Business National Pooled Plans Terms and Conditions

EXPLANATION OF RATES & CHARGES

Available only to business customers with a qualified AT&T Mobility business agreement and their respective Corporate Responsibility Users (CRUs) and Individual Responsibility Users (IRUs or Sponsorship Employees). Service is subject to the Business Agreement and, as applicable, the corresponding coverage map, the Service Agreement included with your device, and related materials. See your AT&T Mobility representative for complete details on the plans, features, and program benefits. Requires new activation and compatible device. Your device has been manufactured to operate exclusively on our network and cannot be activated with any other wireless carrier. Voice usage is measured during the time you are connected to our system, which is approximately from the time you press the button that initiates or answers the call until approximately the time the first party terminates the call on the AT&T Mobility GSM network or until approximately the time you press the button that terminates the call on any other network. Voice usage for each call is billed in full minute increments with partial minutes rounded up to the next full minute. While on the portion of our network that we own and operate, there is no charge for busy or unanswered calls if you end the call within 30 seconds. We may terminate your service if a majority of minutes in any three month period are used off of the portion of our network that we own and operate. Unused monthly minutes, megabytes and text messages are lost. Availability, timeliness and reliability of service are subject to radio transmission limitations caused by system capacity, system repairs and modifications, your equipment, terrain, signal strength, weather and other conditions. Different rates apply for calling card or credit card calls, international calls or operator assistance. Long distance charges for calls received while roaming are calculated from your home area code to the location where you received the call. Due to delayed reporting between carriers, usage may be billed in a subsequent month and will be charged as if used in the month billed. Not all features, service options or offers are available on all devices, on all rate plans or available for purchase or use in all areas. Voicemail, call waiting, three way calling and accessing voicemail will incur airtime or roaming plus applicable long distance charges. Call forwarding usage is charged at the same rate per minute as additional airtime plus applicable long distance charges and will not apply towards your Anytime Minutes. You will be billed for each text message sent from your device, regardless of delivery. With GSM service, you will automatically receive limited access to AT&T Mobility GPRS data service for \$0.03 per kilobyte on any domestic GPRS network. Any termination will be effective at the end of the billing cycle in which cancellation occurs and you will be responsible for payment of all fees and costs until that time. We reserve the right to deny porting of any number to another carrier when your service is suspended. The end user's principal residence must be within an eligible AT&T Mobility area. Eligibility requirements, pricing, features and calling areas are subject to change without notice, prior to purchase.

International Services: Certain restrictions and other charges apply. Per minute country rates range from \$0.09 per minute to \$3.49 per minute. Go to www.AT&T.com/AT&Tworld for rates.

Fees: Except as otherwise provided in your Business Agreement, the following fees apply: Reconnection—\$25 per line; 411 INFO—\$1.50 per use, plus airtime or roaming and applicable long distance, while on the portion of our network that we own and operate. Business National Pooled Plans Terms and Conditions

These rules and restrictions are in addition to the Explanation of Rates and Charges. CRUs and IRUs may activate select phones or devices on GSM National Pooled Plans ("GSM NPPs"); however IRUs may only pool lines on their individual billing account. IRUs may not pool with CRUs' or other IRUs' accounts. CRUs and IRUs may activate select phones or devices on GSM NPPs; however IRUs may only pool lines on their individual billing account. IRUs may not pool with CRUs' or other IRUs' accounts. Subject to these rules, Customer's end users active on any GSM NPP within a single billing account aggregate or "pool" their Included Minutes. A maximum of 1,000 end users can participate in a single billing account pool, and a pool cannot include end users on more than one billing account. End users on GSM NPPs cannot be in a single pool. End users on non-pooling AT&T Mobility rate plans may be included in the same billing account, but none of the pooling benefits apply to the non-pooling end users. Each billing cycle, Included Minutes used are deducted from the billing account pool in chronological order. Once the entire pool of Included Minutes is exhausted from the billing account pool, end users on that pool will be charged their corresponding additional minute rate for each additional minute used. Roaming, feature, included Mobile-to-Mobile Minutes and/or promotional minutes are not included in the billing account pool.

Mobile to Mobile Minutes: may be used when directly dialing or receiving calls from any other AT&T phone number from within your calling area. Mobile to Mobile Minutes may not be used for interconnection to other networks.

Night & Weekend Minutes: Nights are 9 p.m. to 6 a.m. Mon. - Fri.; weekends are 9 p.m. Fri. to 6 a.m. Mon. (based on time of day at switch providing your service).

Government Nation Pooled Plan* Terms and Conditions

When your entire pool of minutes has been retired, additional minutes inside the AT&T Business Pooled Nation plan National Service Area are \$0.25 each. Call-forwarded minutes are charged at the additional airtime per-minute rate of the rate plan. Night and Weekend Minutes and Mobile to Mobile Minutes cannot be pooled. See Explanation of Rates and Charges in this brochure for further details.

AT&T imposes the following charges: a Regulatory Cost Recovery Fee of up to \$1.25 to help defray its cost incurred in complying with obligations and charges imposed by State and Federal telecom regulations, a gross receipts surcharge, and State and Federal Universal Service Charges. These fees are not taxes or government-required charges. Taxes and other fees also apply.

EXPLANATION OF RATES & CHARGES FOR ALL POOLED PLANS LISTED ABOVE

Service is subject to the applicable agreement, coverage maps, corresponding plan, features and promotional brochures, and as applicable, the individual service agreement provided with service. See your AT&T account representative for complete details on the offers described in this brochure. Available only to customers with a qualified wireless business or government agreement ("Business Agreement") and their respective Corporate Responsibility Users ("CRUs"). Customer's CRUs may activate service on the Business Pooled Nation Plans described in this brochure ("Pooled Plans"). Customer's CRUs on a Pooled Plan aggregate or "pool" their Anytime Minutes in a single account (a "Pool"). Every billing cycle, each CRU first uses his or her Anytime Minutes. If a CRU does not use all his or her Anytime Minutes it creates an underage in the amount of unused Anytime Minutes ("Under Minutes"). If a CRU uses more than his or her Anytime Minutes it creates an overage with respect to Anytime Minutes ("Over Minutes"). The Pool's Under Minutes and Over Minutes are then aggregated respectively and compared. If the aggregate Under Minutes exceeds the aggregate Over Minutes, then no CRU in the Pool pays Additional Minute charges. If the aggregate Over Minutes exceeds the aggregate Under Minutes, then the ratio of Under Minutes to Over Minutes is applied to the Anytime Minutes of each CRU in the Pool with Overage Minutes, resulting in a monetary credit against the corresponding Additional Minute charges. For example, if a Pool has 900 Under Minutes and 1000 Over Minutes (90%), then each CRU with Over Minutes will receive a credit equal to 90% of his or her Additional Minute charges. CRUs changing price points or migrating to Pooled Plans during a bill cycle may result in one-time prorations or other minor impacts to the credit calculation. Customer may have more than one Pool; however an individual CRU can only be in one Pool at a time. AT&T reserves the right to limit the number of CRUs in a Pool due to business needs and system limitations. CRUs on Pooled Plans and end users on prior versions of AT&T's wireless pooled plans, including but not limited to Business National Pooled Plans and Business Local Pooled Plans, cannot be in the same Pool. End users on non-pooling wireless plans from AT&T may be included in the same account as CRUs on the Pooled Plans; however these non-pooling end users will not receive the pooling benefits or contribute Anytime Minutes to the Pool. Mobile -to- Mobile Minutes, Night & Weekend Minutes, and/or any other promotional minutes are not included in a Pool. Consolidated invoicing required. Minutes will be depleted according to usage in the following order: Night and Weekend Minutes, Mobile to Mobile Minutes and Anytime Minutes.

Minute Increment Billing and Usage: Airtime and other measured usage are billed in full-minute increments, and actual airtime and usage are rounded up to the next full increment at the end of each call for billing purposes. AT&T charges a full-minute increment of usage for every fraction of the last minute used on each wireless call. Calls placed on networks served by other carriers may take longer to be processed, and billing for these calls may be delayed. Those minutes will be applied against your Anytime monthly minutes in the month in which the calls appear on your bill. Unanswered calls of 30 seconds or longer incur airtime.

Pricing/Taxes/No Proration: Final month's charges are not prorated. Prices are subject to change. Prices do not include taxes.

Nights and Weekends: Nights are 9:00 p.m. to 6:00 a.m. Weekends are 9:00 p.m. Friday to 6:00 a.m. Monday (based on time of day at switch providing your service). Included long distance calls can be made from the 50 United States, Puerto Rico and U.S. Virgin Islands to the 50 United States, Puerto Rico, U.S. Virgin Islands, Guam and Northern Mariana Islands. Roaming charges do not apply when roaming within the service area of land-based networks of the 50 United States, Puerto Rico and U.S. Virgin Islands (if you go to Guam and Northern Mariana Islands, you are roaming). International long distance rates vary. Additional charges apply to services used outside the U.S. and its territories. AT&T reserves the right to terminate your service if less than 50% of your usage over three consecutive billing cycles is on AT&T-owned systems. Customer must (1) use an AT&T GSM dual-band handset programmed with AT&T's preferred roaming database; (2) have a mailing address and live in the immediate geographic area in which subscription is made.

Caller ID Blocking: Your billing name may be displayed along with your wireless number on outbound calls to other wireless and landline phones with Caller ID capability. Contact customer service for information on blocking the display of your name and number. You may be charged for both an incoming and an outgoing call when incoming calls are routed to voicemail, even if no message is left. In the event that the conditions of the Plan as described above are violated, AT&T may move subscriber to another calling plan or terminate customer's service. Additional terms and Conditions apply. See Wireless Service Agreement for additional conditions and restrictions.

Mobile to Mobile Minutes: Mobile to Mobile Minutes may be used when directly dialing or receiving calls to and from any other wireless phone number from AT&T within your calling area. Mobile to Mobile Minutes may not be used for interconnection to other networks.

Government National Plan Terms and Conditions

EXPLANATION OF RATES & CHARGES

Available only to business customers with a qualified AT&T Mobility business agreement and their respective Corporate Responsibility Users (CRUs) and Individual Responsibility Users (IRUs or Sponsorship Employees). Service is subject to the Business Agreement and, as applicable, the corresponding coverage map, the Service Agreement included with your device, and related materials. See your AT&T Mobility representative for complete details on the plans, features, and program benefits. Requires new activation and compatible device. Your device has been manufactured to operate exclusively on our network and cannot be activated with any other wireless carrier. Voice usage is measured during the time you are connected to our system, which is approximately from the time you press the button that initiates or answers the call until approximately the time the first party terminates the call on the AT&T Mobility GSM network or until approximately the time you press the button that terminates the call on any other network. Voice usage for each call is billed in full minute increments with partial minutes rounded up to the next full minute. While on the portion of our network that we own and operate, there is no charge for busy or unanswered calls if you end the call within 30 seconds. We may terminate your service if a majority of minutes in any three month period are used off of the portion of our network that we own and operate. Unused monthly minutes, megabytes and text messages are lost. Availability, timeliness and reliability of service are subject to radio transmission limitations caused by system capacity, system repairs and modifications, your equipment, terrain, signal strength, weather and other conditions. Different rates apply for calling card or credit card calls, international calls or operator assistance. Long distance charges for calls received while roaming are calculated from your home area code to the location where you received the call. Due to delayed reporting between carriers, usage may be billed in a subsequent month and will be charged as if used in the month billed. Not all features, service options or offers are available on all devices, on all rate plans or available for purchase or use in all areas. VoiceInfo, call waiting, three way calling and accessing voicemail will incur airtime or roaming plus applicable long distance charges. Call forwarding usage is charged at the same rate per minute as additional airtime plus applicable long distance charges and will not apply towards your Anytime Minutes. You will be billed for each text message sent from your device, regardless of delivery. With GSM service, you will automatically receive limited access to AT&T Mobility GPRS data service for \$0.03 per kilobyte on any domestic GPRS network. Any termination will be effective at the end of the billing cycle in which cancellation occurs and you will be responsible for payment of all fees and costs until that time. We reserve the right to deny porting of any number to another carrier when your service is suspended. The end user's principal residence must be within an eligible AT&T Mobility area. Eligibility requirements, pricing, features and calling areas are subject to change without notice, prior to purchase.

International Services: Certain restrictions and other charges apply. Per minute country rates range from \$0.09 per minute to \$3.49 per minute. Go to www.AT&T.com/AT&Tworld for rates.

Fees: Except as otherwise provided in your Business Agreement, the following fees apply: Reconnection – \$25 per line; 411 INFO – \$1.79 per use, plus airtime or roaming and applicable long distance, while on the portion of our network that we own and operate. Not available in Puerto Rico or Alaska. Monthly Regulatory Programs Fee \$1.75 per line. Various taxes, surcharges, fees and other assessments (e.g. Universal Connectivity Charge) apply. We have a long-standing policy of protecting customer privacy. You can view our Privacy Policy at AT&T.com/privacy, or ask a sales associate for a copy. Additional Information Regarding Additional Lines: Whenever you add additional lines to share minutes and shareable features you must agree to a new contract term for all lines on your account. Your migration to a non-qualified rate plan or any other termination will result in termination of all lines and applicable termination fees will apply to each. Credit of \$10 will appear on your monthly invoice for only your additional lines.

Terms Applicable to AT&T Nation® GSM Plans: Subscriber must live and have a mailing address within AT&T's owned network coverage area. An early termination fee of \$175 applies if service is terminated before the end of the contract term. If phone is returned within 3 days, activation fee will be refunded. If phone is returned within 30 days in like-new condition with all components, early termination fee will be waived. All other charges apply. Some dealers impose additional fees.

Minute Increment Billing and Usage: Airtime and other measured usage are billed in full-minute increments, and actual airtime and usage are rounded up to the next full increment at the end of each call for billing purposes. AT&T charges a full-minute increment of usage for every fraction of the last minute used on each wireless call. Minutes will be depleted according to usage in the following order: Night and Weekend Minutes, Mobile to Mobile Minutes, Anytime Minutes and Rollover Minutes. Calls placed on networks served by other carriers may take longer to be processed, and billing for these calls may be delayed. Those minutes will be applied against your Anytime monthly minutes in the month in which the calls appear on your bill. Unanswered outgoing calls of 30 seconds or longer incur airtime. You may obtain usage information by calling customer service or using one of our automated systems.

Pricing/Taxes/No Proration: Final month's charges are not prorated. Prices are subject to change. Prices do not include taxes.

Nights and Weekends: Nights are 9:00 p.m. to 6:00 a.m. Weekends are 9:00 p.m. Friday to 6:00 a.m. Monday (based on time of day at switch providing your service). Included long distance calls can be made from the 50 United States, Puerto Rico and U.S. Virgin Islands to the 50 United States, Puerto Rico, U.S. Virgin Islands, Guam and Northern Mariana Islands. Roaming charges do not apply when roaming within the service

area of land-based networks of the 50 United States, Puerto Rico and U.S. Virgin Islands. International long distance rates vary. Additional charges apply to services used outside the land borders of the U.S., Puerto Rico and U.S. Virgin Islands.

Unlimited Voice Services: Unlimited voice services are provided solely for live dialog between two individuals. Unlimited voice services may not be used for conference calling, call forwarding, monitoring services, data transmissions, transmission of broadcasts, transmission of recorded material, or other connections which do not consist of uninterrupted live dialog between two individuals. If AT&T finds that you are using an unlimited voice service offering for other than live dialog between two individuals, AT&T may, at its option, terminate your service or change your plan to one with no unlimited usage components. AT&T will provide notice that it intends to take any of the above actions, and you may terminate the agreement.

Off-net Usage: If your minutes of use (including unlimited services) on other carrier networks ("off-net usage") during any two consecutive months exceed your off-net usage allowance, AT&T may, at its option, terminate your service, deny your continued use of other carriers' coverage, or change your plan to one imposing usage charges for off-net usage. Your off-net usage allowance is equal to the lesser of 750 minutes or 40% of the Anytime Minutes included with your plan. AT&T will provide notice it intends to take any of the above actions, and you may terminate the agreement.

Caller ID Blocking: Your billing name may be displayed along with your wireless number on outbound calls to other wireless and landline phones with Caller ID capability. Contact customer service for information on blocking the display of your name and number. You may be charged for both an incoming and an outgoing call when incoming calls are routed to voicemail, even if no message is left. See Wireless Service Agreement for additional conditions and restrictions.

Rollover Minutes: Rollover Minutes accumulate and expire through 12 rolling bill periods. Bill Period 1 (activation) unused Anytime Minutes will not carry over. Bill Period 2 unused Anytime Minutes will begin to carry over. Rollover Minutes accumulated starting with Bill Period 2 will expire each bill period as they reach a 12 bill period age. Rollover Minutes will also expire immediately upon default or if customer changes to a non-Rollover plan. If you change plans (including the formation of a FamilyTalk plan), or if an existing subscriber joins your existing FamilyTalk plan, any accumulated Rollover Minutes in excess of your new plan or the primary FamilyTalk line's included Anytime Minutes will expire. Rollover Minutes are not redeemable for cash or credit and are not transferable.

Mobile to Mobile Minutes: Mobile to Mobile Minutes may be used, subject to the above provisions governing unlimited usage, when directly dialing or receiving calls from any other AT&T wireless phone number from within your calling area. Mobile to Mobile Minutes may not be used for interconnection to other networks. Calls to AT&T voicemail and return calls from voicemail not included.

Enterprise Site licensing is intended for companies that want to use Enterprise Paging with IRU and consumer users who do not expense back their wireless charges to the company but still want to use Enterprise Paging service for urgent notifications. The Enterprise Site Licensing allows those enterprises to purchase the Enterprise Paging service on a single CRU account and then via a web administration interface apply the service to any AT&T device/account.

Enterprise Site Licensing provides enterprise customers a pack of licenses (seats) to fit the number of users (employees at their company with AT&T services) that need access to enterprise paging functionality. Each feature comes with a set number of licenses, as well as a management tool used by an administrator to manage the Enterprise Paging user accounts, allowing them to use their enterprise paging applications. The administrator (usually the IT/Telecom manager) has the Enterprise Licensing feature added to their service, and one of the seat licenses is automatically provisioned for that user. The administrator is then sent a text message with the login information and URL for the Enterprise Account Management (EAM) tool. The administrator then assigns remaining licenses to other AT&T subscribers via this tool, allowing them to use their enterprise applications with their AT&T devices and service.

The benefit of Enterprise Licensing is that the “Manage Users” section of the EAM web page allows an administrator to add users and then perform a variety of functions to the account. These functions include activate, deactivate, test, and delete. There is also an edit function to update account information.

iPhone Terms and Conditions

(Including Exhibit A, “Modified iPhone SLA”; and Exhibit B, “Standard iPhone SLA”)

General. Pursuant to the terms and conditions of the Contract and these supplemental terms and conditions, Contractor will provide Service for iPhones (the “iPhone Solution”) to the Government and its qualified End Users.

Plans. The iPhone Solution requires subscription to qualified Voice Service and Wireless Data Service. The iPhone Solution requires that the End User has an iPhone that is compatible with both the AT&T GSM/GPRS/EDGE network and/or the AT&T 3G (HSDPA/UMTS) network (“iPhone 3G”). Certain legacy Voice Service Plans (including, without limitation, TDMA and analog Plans) are not available for use with iPhones. iPhone Plans may not be used with other computing devices (including but not limited to iPhone, personal computers, and PC Data Cards) either by SIM card transfer or any other means. Additionally, tethering is prohibited unless the Plan expressly allows it.

2.1 Requirements. End Users must have (a) an eligible Voice Service Plan with a minimum Monthly Service Charge of \$39.99 (or an AT&T FamilyTalk Add-a-Line Plan, a Shared Business Solutions Add-a-Line Plan, or other business-only Voice Service Plan for which they qualify), and (b) a 3G iPhone-eligible Wireless Data Service Plan for iPhone. Use of the 3G iPhone Solution to access corporate email, company intranet sites, and/or other business applications requires a 3G iPhone-eligible Wireless Data Service Plan as AT&T may designate from time to time.

3. **Pricing.** Contractor will provide Service to End Users activated on a qualified iPhone Solution at the prices set forth in the Contract. Contractor will also provide such End Users with any available credit or waived fee set forth in the Contract.
4. **Apple iPhone Terms and Conditions.** The iPhone Solution utilizes third party software and, accordingly, is subject to a customized version of Apple’s software license agreement for iPhone (the “Modified iPhone SLA”). Government acknowledges and agrees to such Modified iPhone Terms and Conditions set forth below in Exhibit “A”. From time to time, Apple may modify its standard iPhone software license agreement, and such modifications may require the Modified iPhone SLA set forth herein to be similarly modified. Government and Contractor hereby acknowledge and agree that under such circumstances, this Contract may need to be modified and that they will cooperate in good faith to reach corresponding mutually acceptable terms and conditions.
5. **Restrictions.** The iPhone Solution is not compatible with any Wireless Data Service Plans not referenced herein and may not be compatible with certain additional features (e.g., OfficeReach™ and Unified Messaging), which will be disabled or removed at time of iPhone activation. The iPhone Solution includes Visual Voicemail, which requires End Users to establish a new voice mail box. All current voice mail messages will be erased at the time of iPhone activation, so End Users are advised to listen to any existing voicemails before completing the activation process.
6. **Policies and Processes.** The Government and its End Users must follow the policies and processes established by AT&T to purchase iPhones and to activate, migrate to or from, or terminate the iPhone Solution, as such policies and processes may be modified from time to time. More specifically, and without limiting the foregoing, the following processes and procedures must be followed by the Government: (a) each End User must complete the iPhone Solution activation process with his or her Ordering Agency’s designated representative; and (b) each End User with the iPhone Solution (whether on a new activation or receiving an existing, active iPhone from another End User) must execute an end user license consent similar in form and substance to that set forth below in Exhibit “B”, by which such End User will agree to Apple’s then-current, standard iPhone software license agreement, also set forth in Exhibit “B”.

Except as permitted in Section 2(b) below, this License does not allow the iPhone Software to exist on more than one Apple-branded iPhone at a time or on any other phone, and you may not distribute or make the iPhone Software available over a network where it could be used by multiple devices at the same time. This License does not grant you any rights to use Apple proprietary interfaces and other intellectual property in the design, development, manufacture, licensing or distribution of third party devices and accessories, or third party software applications, for use with the iPhone. Some of those rights are available under separate licenses from Apple. For more information on developing third party devices and accessories for the iPhone, please email madeforipod@apple.com. This License does not allow you to update or restore iPhones that you do not control or own, and you may not distribute or make the iPhone Software Updates available over a network where they could be used by multiple devices or multiple computers at the same time. You may make one copy of the iPhone Software Updates stored on your computer in machine-readable form for backup purposes only, provided that the backup copy must include all copyright or other proprietary notices contained on the original.
 - (c) You may not and you agree not to, or to enable others to, copy (except as expressly permitted by this License), decompile, reverse engineer, disassemble, attempt to derive the source code of, decrypt, modify, or create derivative works of the iPhone Software or any services provided by the iPhone Software, or any part thereof (except as and only to the extent any foregoing restriction is prohibited by applicable law or to the extent as may be permitted by licensing terms governing use of open-sourced components included with the iPhone Software). Any attempt to do so is a violation of the rights of Apple and its licensors of the iPhone Software.
 - (d) By storing content on your iPhone you are making a digital copy. In some jurisdictions, it is unlawful to make digital copies without prior permission from the rights holder. The iPhone Software may be used to reproduce materials so long as such use is limited to reproduction of non-copyrighted materials, materials in which you own the copyright, or materials you are authorized or legally permitted to reproduce.
3. **Transfer.** You may not rent, lease, lend, sell, redistribute, or sublicense the iPhone Software. You may, however, make a one-time permanent transfer of all of your license rights to the iPhone Software to another party in connection with the transfer of ownership of your iPhone, provided that: (a) the transfer must include your iPhone and all of the iPhone Software, including all its component parts, original media, printed materials and this License; (b) you do not retain any copies of the iPhone Software, full or partial, including copies stored on a computer or other storage device; and (c) the party receiving the iPhone Software reads and agrees to accept the terms and conditions of this License.
 4. **Consent to Use of Non-Personal Data.**
 - (a) Anonymous Diagnostic and Usage Data. You agree that Apple and its subsidiaries and agents may collect, maintain, process and use diagnostic technical, usage, and related information, including but not limited to information about your iPhone, computer, system and application software, and peripherals, that is gathered periodically to facilitate the provision of software updates, product support and other services to you (if any) related to the iPhone Software, and to verify compliance with the terms of this License. Apple may use this information, as long as it is collected anonymously in a form that does not personally identify you, to improve our products or to provide services or technologies to you.

- (b) **Location Data.** Apple and its partners and licensees may provide certain services through your iPhone that rely upon location information. To provide and improve these services, where available, Apple and its partners and licensees may transmit, collect, maintain, process and use your location data, including the real-time geographic location of your iPhone, and location search queries. The location data and queries collected by Apple are collected in a form that does not personally identify you and may be used by Apple and its partners and licensees to provide and improve location-based products and services. You agree and consent to Apple's and its partners' and licensees' transmission, collection, maintenance, processing and use of the user's location data and queries to provide and improve such products and services so long as you continue to use the location-based features. You may withdraw this consent at any time by going to the Location Services setting on your iPhone and either turning off the global Location Services setting or turning off the individual location settings of each location-aware application on your iPhone. Not using these location features will not impact the functionality of your iPhone. Users who elect to use third party applications or services on the iPhone that use or provide location data, should review such third party's terms and privacy policy on use of location data by such third party applications or services.
 - (c) **Video Calls.** The video call feature of the iPhone Software ("Video Call") requires Internet access and may not be available in all countries or regions. Your use of Video Call is subject to your compliance with Section 2(e) above and you understand that your iPhone's telephone number will be displayed to the other party on the Video Call, even if you have a blocked number. By using the iPhone Software, you agree that Apple may use and maintain your iPhone's telephone number as a unique account identifier for the purpose of providing and improving the Video Call feature. You may turn off the Video Call feature by going to the Restrictions setting on your iPhone and enabling the Video Calls restriction.
 - (d) **Interest-Based Advertising.** Apple may provide mobile, interest-based advertising to you. If you do not want to receive relevant ads on your iPhone, you can opt out by going to this link on your iPhone: <http://oo.apple.com>. If you opt out, you will continue to receive the same number of mobile ads, but they may be less relevant because they will not be based on your interests. You may still see ads related to the content on a web page or in an application or based on other non-personal information. This opt-out applies only to Apple advertising services and does not affect interest-based advertising from other advertising networks.
- At all times your information will be treated in accordance with Apple's Privacy Policy, which is incorporated by reference into this License and can be viewed at: www.apple.com/legal/privacy/.

5. Services and Third Party Materials.

- (a) The iPhone Software enables access to Apple's iTunes Store, App Store and other Apple and third party services and web sites (collectively and individually, "Services"). Use of the Services requires Internet access and use of certain Services requires the user to accept additional terms. In order to use this software in connection with an iTunes Store account, the user will have to agree to the latest iTunes Store terms of Service, which you may access and review at <http://www.apple.com/legal/itunes/www/>.
- (b) You understand that by using any of the Services, you may encounter content that may be deemed offensive, indecent, or objectionable, which content may or may not be identified as having explicit language, and that the results of any search or entering of a particular URL may automatically and unintentionally generate links or references to objectionable material. Nevertheless, you agree to use the Services at your sole risk and that Apple shall have no liability to you for content that may be found to be offensive, indecent, or objectionable.
- (c) Certain Services may display, include or make available content, data, information, applications or materials from third parties ("Third Party Materials") or provide links to certain third party web sites. By using the Services, you acknowledge and agree that Apple is not responsible for examining or evaluating the content, accuracy, completeness, timeliness, validity, copyright compliance, legality, decency, quality or any other aspect of such Third Party Materials or web sites. Apple, its officers, affiliates and subsidiaries do not warrant or endorse and do not assume and will not have any liability or responsibility to you or any other person for any third-party Services, Third Party Materials or web sites, or for any other materials, products, or services of third parties. Third Party Materials and links to other web sites are provided solely as a convenience to you.
- (d) Financial information displayed by any Services is for general informational purposes only and should not be relied upon as investment advice. Before executing any securities transaction based upon information obtained through the Services, you should consult with a financial professional. Location data provided by any Services is for basic navigational purposes only and is not intended to be relied upon in situations where precise location information is needed or where erroneous, inaccurate, time-delayed or incomplete location data may lead to death, personal injury, property or environmental damage. Neither Apple nor any of its content providers guarantees the availability, accuracy, completeness, reliability, or timeliness of stock information, location data or any other data displayed by any Services.
- (e) You agree that the Services contain proprietary content, information and material that is owned by Apple and/or its licensors, and is protected by applicable intellectual property and other laws, including but not limited to copyright, and that you will not use such proprietary content, information or materials in any way whatsoever except for permitted use of the Services. No portion of the Services may be reproduced in any form or by any means. You agree not to modify, rent, lease, loan, sell, distribute, or create derivative works based on the Services, in any manner, and you shall not exploit the Services in any unauthorized way whatsoever, including but not limited to, by trespass or burdening network capacity. Apple, at its discretion, may make available future updates to the iPhone OS software for your iPhone. 2. **Permitted License Uses and Restrictions.**
 - (a) Subject to the terms and conditions of this License, you are granted a limited non-exclusive license to use the iPhone Software on a single Apple-branded iPhone. Except as permitted in Section 2(b) below, this License does not allow the iPhone Software to exist on more than one Apple-branded iPhone at a time or on any other phone, and you may not distribute or make the iPhone Software available over a network where it could be used by multiple devices at the same time. This License does not grant you any rights to use Apple proprietary interfaces and other intellectual property in the design, development, manufacture, licensing or distribution of third party devices and accessories, or third party software applications, for use with the iPhone. Some of those rights are available under separate licenses from Apple. For more information on developing third party devices and accessories for the iPhone, please email made4oripod@apple.com.  - (b) Subject to the terms and conditions of this License, you are granted a limited non-exclusive license to download iPhone Software Updates that may be made available by Apple for your model of the iPhone to update or restore the software on any such iPhone that you own or control. This License does not allow you to update or restore iPhones that you do not control or own, and you may not distribute or make the iPhone Software Updates available over a network where they could be used by multiple devices or multiple computers at the same time. You may make one copy of the iPhone Software Updates stored on your computer in machine-readable form for backup purposes only, provided that the backup copy must include all copyright or other proprietary notices contained on the original.
 - (c) You may not and you agree not to, or to enable others to, copy (except as expressly permitted by this License), decompile, reverse engineer, disassemble, attempt to derive the source code of, decrypt, modify, or create derivative works of the iPhone Software or any services provided by the iPhone Software, or any part thereof (except as and only to the extent any foregoing restriction is prohibited by applicable law or to the extent as may be permitted by licensing terms governing use of open-sourced components included with the iPhone Software). Any attempt to do so is a violation of the rights of Apple and its licensors of the iPhone Software.
 - (d) By storing content on your iPhone you are making a digital copy. In some jurisdictions, it is unlawful to make digital copies without prior permission from the rightsholder. The iPhone Software may be used to reproduce materials so long as such use is limited to reproduction of non-copyrighted materials, materials in which you own the copyright, or materials you are authorized or legally permitted to reproduce.

(e) You agree to use the iPhone Software and the Services (as defined in Section 5 below) in compliance with all applicable laws, including local laws of the country or region in which you reside or in which you download or use the iPhone Software and Services.

3. Transfer. You may not rent, lease, lend, sell, redistribute, or sublicense the iPhone Software. You may, however, make a one-time permanent transfer of all of your license rights to the iPhone Software to another party in connection with the transfer of ownership of your iPhone, provided that:

- a) the transfer must include your iPhone and all of the iPhone Software, including all its component parts, original media, printed materials and this License;

- c) the party receiving the iPhone Software reads and agrees to accept the terms and conditions of this License.

4. Consent to Use of Data.

- a) Anonymous Diagnostic and Usage Data. You agree that Apple and its subsidiaries and agents may collect, maintain, process and use diagnostic, technical, usage, and related information, including but not limited to information about your iPhone, computer, system and application software, and peripherals, that is gathered periodically to facilitate the provision of software updates, product support and other services to you (if any) related to the iPhone Software, and to verify compliance with the terms of this License. Apple may use this information, as long as it is collected anonymously in a form that does not personally identify you, to improve our products or to provide services or technologies to you.
- b) Location Data. Apple and its partners and licensees may provide certain services through your iPhone that rely upon location information. To provide and improve these services, where available, Apple and its partners and licensees may transmit, collect, maintain, process and use your location data, including the real-time geographic location of your iPhone, and location search queries. The location data and queries collected by Apple are collected in a form that does not personally identify you and may be used by Apple and its partners and licensees to provide and improve location-based products and services. By using any location-based services on your iPhone, you agree and consent to Apple's and its partners' and licensees' transmission, collection, maintenance, processing and use of your location data and queries to provide and improve such products and services. You may withdraw this consent at any time by going to the Location Services setting on your iPhone and either turning off the global Location Services setting or turning off the individual location settings of each location-aware application on your iPhone. Not using these location features will not impact the non location-based functionality of your iPhone. When using third party applications or services on the iPhone that use or provide location data, you are subject to and should review such third party's terms and privacy policy on use of location data by such third party applications or services.
- c) Video Calls. The video call feature of the iPhone Software ("Video Call") requires Internet access and may not be available in all countries or regions. Your use of Video Call is subject to your compliance with Section 2(e) above and you understand that your iPhone's telephone number will be displayed to the other party on the Video Call, even if you have a blocked number. By using the iPhone Software, you agree that Apple may use and maintain your iPhone's telephone number as a unique account identifier for the purpose of providing and improving the Video Call feature. You may turn off the Video Call feature by going to the Restrictions setting on your iPhone and enabling the Video Calls restriction.
- d) Interest-Based Advertising. Apple may provide mobile, interest-based advertising to you. If you do not want to receive relevant ads on your iPhone, you can opt out by going to this link on your iPhone: <http://oo.apple.com>. If you opt out, you will continue to receive the same number of mobile ads, but they may be less relevant because they will not be based on your interests. You may still see ads related to the content on a web page or in an application or based on other non-personal information. This opt-out applies only to Apple advertising services and does not affect interest-based advertising from other advertising networks.

At all times your information will be treated in accordance with Apple's Privacy Policy, which is incorporated by reference into this License and can be viewed at: www.apple.com/legal/privacy/.

5. Services and Third Party Materials.

- a) The iPhone Software enables access to Apple's iTunes Store, App Store and other Apple and third party services and web sites (collectively and individually, "Services"). - b) You understand that by using any of the Services, you may encounter content that may be deemed offensive, indecent, or objectionable, which content may or may not be identified as having explicit language, and that the results of any search or entering of a particular URL may automatically and unintentionally generate links or references to objectionable material. Nevertheless, you agree to use the Services at your sole risk and that Apple shall have no liability to you for content that may be found to be offensive, indecent, or objectionable.
- c) Certain Services may display, include or make available content, data, information, applications or materials from third parties ("Third Party Materials") or provide links to certain third party web sites. By using the Services, you acknowledge and agree that Apple is not responsible for examining or evaluating the content, accuracy, completeness, timeliness, validity, copyright compliance, legality, decency, quality or any other aspect of such Third Party Materials or web sites. Apple, its officers, affiliates and subsidiaries do not warrant or endorse and do not

assume and will not have any liability or responsibility to you or any other person for any third-party Services, Third Party Materials or web sites, or for any other materials, products, or services of third parties. Third Party Materials and links to other web sites are provided solely as a convenience to you.

- (d) Financial information displayed by any Services is for general informational purposes only and should not be relied upon as investment advice. Before executing any securities transaction based upon information obtained through the Services, you should consult with a financial or securities professional who is legally qualified to give financial or securities advice in your country or region. Location data provided by any Services is for basic navigational purposes only and is not intended to be relied upon in situations where precise location information is needed or where erroneous, inaccurate, time-delayed or incomplete location data may lead to death, personal injury, property or environmental damage. Neither Apple nor any of its content providers guarantees the availability, accuracy, completeness, reliability, or timeliness of stock information, location data or any other data displayed by any Services.
- (e) You agree that the Services contain proprietary content, information and material that is owned by Apple and/or its licensors, and is protected by applicable intellectual property and other laws, including but not limited to copyright, and that you will not use such proprietary content, information or materials in any way whatsoever except for permitted use of the Services or in any manner that is inconsistent with the terms of this License or that infringes any intellectual property rights of a third party or Apple. No portion of the Services may be reproduced in any form or by any means. You agree not to modify, rent, lease, loan, sell, distribute, or create derivative works based on the Services, in any manner, and you shall not exploit the Services in any unauthorized way whatsoever, including but not limited to, using the Services to transmit any computer viruses, worms, trojan horses or other malware, or by trespass or burdening network capacity. You further agree not to use the Services in any manner to harass, abuse, stalk, threaten, defame or otherwise infringe or violate the rights of any other party, and that Apple is not in any way responsible for any such use by you, nor for any harassing, threatening, defamatory, offensive, infringing or illegal messages or transmissions that you may receive as a result of using any of the Services.
- (f) In addition, Services and Third Party Materials that may be accessed from, displayed on or linked to from the iPhone are not available in all languages or in all countries or regions. Apple makes no representation that such Services and Materials are appropriate or available for use in any particular location. To the extent you choose to use or access such Services and Materials, you do so at your own initiative and are responsible for compliance with any applicable laws, including but not limited to applicable local laws. Apple and its licensors reserve the right to change, suspend, remove, or disable access to any Services at any time without notice. In no event will Apple be liable for the removal of or disabling of access to any such Services. Apple may also impose limits on the use of or access to certain Services, in any case and without notice or liability.

YOUTUBE TERMS AND CONDITIONS

1. Your Acceptance

- A. By using and/or visiting this website (collectively, including all content and functionality available through the YouTube.com domain name, the "YouTube Website", or "Website"), you signify your agreement to (1) these terms and conditions (the "Terms of Service"), (2) YouTube's privacy notice, found at <http://www.youtube.com/t/privacy> and incorporated here by reference, and (3) YouTube's Community Guidelines, found at http://www.youtube.com/t/community_guidelines and also incorporated here by reference. If you do not agree to any of these terms, the YouTube privacy notice, or the Community Guidelines, please do not use the YouTube Website.
- B. Although we may attempt to notify you when major changes are made to these Terms of Service, you should periodically review the most up-to-date version <http://www.youtube.com/t/terms>. YouTube may, in its sole discretion, modify or revise these Terms of Service and policies at any time, and you agree to be bound by such modifications or revisions. Nothing in this Agreement shall be deemed to confer any third-party rights or benefits.

2. YouTube Website

- A. These terms of Service apply to all users of the YouTube Website, including users who are also contributors of video content, information, and other materials or services on the Website. The YouTube Website includes all aspects of YouTube, including but not limited to all products, software and services offered via the website such as the YouTube channels, the YouTube "Embeddable Player," the YouTube "Uploader" and other applications.
- B. The YouTube Website may contain links to third party websites that are not owned or controlled by YouTube. YouTube has no control over, and assumes no responsibility for, the content, privacy policies, or practices of any third party websites. In addition, YouTube will not and

cannot censor or edit the content of any third-party site. By using the Website, you expressly relieve YouTube from any and all liability arising from your use of any third-party website.

- C. Accordingly, we encourage you to be aware when you leave the YouTube Website and to read the terms and conditions and privacy policy of each other website that you visit.

3. YouTube Accounts

- A. In order to access some features of the Website, you will have to create a YouTube account. You may never use another's account without permission. When creating your account, you must provide accurate and complete information. You are solely responsible for the activity that occurs on your account, and you must keep your account password secure. You must notify YouTube immediately of any breach of security or unauthorized use of your account.
- B. Although YouTube will not be liable for your losses caused by any unauthorized use of your account, you may be liable for the losses of YouTube or others due to such unauthorized use.

4. General Use of the Website; Permissions and Restrictions

YouTube hereby grants you permission to access and use the Website as set forth in these Terms of Service, provided that:

- A. You agree not to distribute in any medium any part of the Website, including but not limited to User Submissions (defined below), without YouTube's prior written authorization.
- B. You agree not to alter or modify any part of the Website, including but not limited to YouTube's Embeddable Player or any of its related technologies.
- C. You agree not to access User Submissions (defined below) or YouTube Content through any technology or means other than the video playback pages of the Website itself, the YouTube Embeddable Player, or other explicitly authorized means YouTube may designate.
- D. You agree not to use the Website, including the YouTube Embeddable Player for any commercial use, without the prior written authorization of YouTube. Prohibited commercial uses include any of the following actions taken without YouTube's express approval:
- sale of access to the Website or its related services (such as the Embeddable Player) on another website;
 - use of the Website or its related services (such as the Embeddable Player), for the primary purpose of gaining advertising or subscription revenue;
 - the sale of advertising, on the YouTube website or any third-party website, targeted to the content of specific User Submissions or YouTube content;
 - and any use of the Website or its related services (such as the Embeddable player) that YouTube finds, in its sole discretion, to use YouTube's resources or User Submissions with the effect of competing with or displacing the market for YouTube, YouTube content, or its User Submissions. (For more information about prohibited commercial uses, see our FAQ.)
- E. Prohibited commercial uses do not include:
- uploading an original video to YouTube, or maintaining an original channel on YouTube, to promote your business or artistic enterprise;
 - using the Embeddable Player to show YouTube videos on an ad-enabled blog or website, provided the primary purpose of using the Embeddable Player is not to gain advertising revenue or compete with YouTube;
 - any use that YouTube expressly authorizes in writing.

(For more information about what constitutes a prohibited commercial use, see our FAQ.)

- F. If you use the YouTube Embeddable Player on your website, you must include a prominent link back to the YouTube website on the pages containing the Embeddable Player and you may not modify, build upon, or block any portion of the Embeddable Player in any way.
- G. If you use the YouTube Uploader, you agree that it may automatically download and install updates from time to time from YouTube. These updates are designed to improve, enhance and further develop the Uploader and may take the form of bug fixes, enhanced functions, new software modules and completely new versions. You agree to receive such updates (and permit YouTube to deliver these to you) as part of your use of the Uploader.
- H. You agree not to use or launch any automated system, including without limitation, "robots," "spiders," or "offline readers," that accesses the Website in a manner that sends more request messages to the YouTube servers in a given period of time than a human can reasonably produce in the same period by using a conventional on-line web browser. Notwithstanding the foregoing, YouTube grants the operators of public search engines permission to use spiders to copy materials from the site for the sole purpose of and solely to the extent necessary for creating publicly available searchable indices of the materials, but not caches or archives of such materials. YouTube reserves the right to revoke these exceptions either generally or in specific cases. You agree not to collect or harvest any personally identifiable information, including account names, from the Website, nor to use the communication systems provided by the Website (e.g. comments, email) for any commercial solicitation purposes. You agree not to solicit, for commercial purposes, any users of the Website with respect to their User Submissions.
- I. In your use of the website, you will otherwise comply with the terms and conditions of these Terms of Service, YouTube Community Guidelines, and all applicable local, national, and international laws and regulations.
- J. YouTube reserves the right to discontinue any aspect of the YouTube Website at any time.

5. Your Use of Content on the Site

In addition to the general restrictions above, the following restrictions and conditions apply specifically to your use of content on the YouTube Website.

- A. The content on the YouTube Website, except all User Submissions (as defined below), including without limitation, the text, software, scripts, graphics, photos, sounds, music, videos, interactive features and the like ("Content") and the trademarks, service marks and logos contained therein ("Marks"), are owned by or licensed to YouTube, subject to copyright and other intellectual property rights under the law. Content on the Website is provided to you AS IS for your information and personal use only and may not be downloaded, copied, reproduced, distributed, transmitted, broadcast, displayed, sold, licensed, or otherwise exploited for any other purposes whatsoever without the prior written consent of the respective owners. YouTube reserves all rights not expressly granted in and to the Website and the Content.
- B. You may access User Submissions solely:
 - for your information and personal use;
 - as intended through the normal functionality of the YouTube Service; and
 - for Streaming.

"Streaming" means a contemporaneous digital transmission of an audiovisual work via the Internet from the YouTube Service to a user's device in such a manner that the data is intended for real-time viewing and not intended to be copied, stored, permanently downloaded, or redistributed by the user. Accessing User Videos for any purpose or in any manner other than Streaming is expressly prohibited. User Videos are made available "as is."

- C. User Comments are made available to you for your information and personal use solely as intended through the normal functionality of the YouTube Service. User Comments are made available "as is," and may not be used, copied, reproduced, distributed, transmitted, broadcast, displayed, sold, licensed, downloaded, or otherwise exploited in any manner not intended by the normal functionality of the YouTube Service or otherwise as prohibited under this Agreement.
- D. You may access YouTube Content, User Submissions and other content only as permitted under this Agreement. YouTube reserves all rights not expressly granted in and to the YouTube Content and the YouTube Service.
- E. You agree to not engage in the use, copying, or distribution of any of the Content other than expressly permitted herein, including any use, copying, or distribution of User Submissions of third parties obtained through the Website for any commercial purposes.
- F. You agree not to circumvent, disable or otherwise interfere with security-related features of the YouTube Website or features that prevent or restrict use or copying of any Content or enforce limitations on use of the YouTube Website or the Content therein.
- G. You understand that when using the YouTube Website, you will be exposed to User Submissions from a variety of sources, and that YouTube is not responsible for the accuracy, usefulness, safety, or intellectual property rights of or relating to such User Submissions. You further understand and acknowledge that you may be exposed to User Submissions that are inaccurate, offensive, indecent, or objectionable, and you agree to waive, and hereby do waive, any legal or equitable rights or remedies you have or may have against YouTube with respect thereto, and agree to indemnify and hold YouTube, its Owners/Operators, affiliates, and/or licensors, harmless to the fullest extent allowed by law regarding all matters related to your use of the site.

6. Your User Submissions and Conduct

- A. As a YouTube account holder you may submit video content ("User Videos") and textual content ("User Comments"). User Videos and User Comments are collectively referred to as "User Submissions." You understand that whether or not such User Submissions are published, YouTube does not guarantee any confidentiality with respect to any User Submissions.
- B. You shall be solely responsible for your own User Submissions and the consequences of posting or publishing them. In connection with User Submissions, you affirm, represent, and/or warrant that: you own or have the necessary licenses, rights, consents, and permissions to use and authorize YouTube to use all patent, trademark, trade secret, copyright or other proprietary rights in and to any and all User Submissions to enable inclusion and use of the User Submissions in the manner contemplated by the Website and these Terms of Service.
- C. For clarity, you retain all of your ownership rights in your User Submissions. However, by submitting User Submissions to YouTube, you hereby grant YouTube a worldwide, non-exclusive, royalty free, sublicenseable and transferable license to use, reproduce, distribute, prepare derivative works of, display, and perform the User Submissions in connection with the YouTube Website and YouTube's (and its successors' and affiliates') business, including without limitation for promoting and redistributing part or all of the YouTube Website (and derivative works thereof) in any media formats and through any media channels. You also hereby grant each user of the YouTube Website a non-exclusive license to access your User Submissions through the Website, and to use, reproduce, distribute, display and perform such User Submissions as permitted through the functionality of the Website and under these Terms of Service. The above licenses granted by you in User Videos terminate within a commercially reasonable time after you remove or delete your User Videos from the YouTube Service. You understand and agree, however, that YouTube may retain, but not display, distribute, or perform, server copies of User Submissions that have been removed or deleted. The above licenses granted by you in User Comments are perpetual and irrevocable.
- D. In connection with User Submissions, you further agree that you will not submit material that is copyrighted, protected by trade secret or otherwise subject to third party proprietary rights, including privacy and publicity rights, unless you are the owner of such rights or have permission from their rightful owner to post the material and to grant YouTube all of the license rights granted herein.

- E. You further agree that you will not, in connection with User Submissions, submit material that is contrary to the YouTube Community Guidelines, found at http://www.youtube.com/t/community_guidelines, which may be updated from time to time, or contrary to applicable local, national, and international laws and regulations.
- F. YouTube does not endorse any User Submission or any opinion, recommendation, or advice expressed therein, and YouTube expressly disclaims any and all liability in connection with User Submissions. YouTube does not permit copyright infringing activities and infringement of intellectual property rights on its Website, and YouTube will remove all Content and User Submissions if properly notified that such Content or User Submission infringes on another's intellectual property rights. YouTube reserves the right to remove Content and User Submissions without prior notice.

7. Account Termination Policy

- A. YouTube will terminate a User's access to its Website if, under appropriate circumstances, they are determined to be a repeat infringer.
- B. YouTube reserves the right to decide whether Content or a User Submission is appropriate and complies with these Terms of Service for violations other than copyright infringement, such as, but not limited to, pornography, obscene or defamatory material, or excessive length. YouTube may remove such User Submissions and/or terminate a User's access for uploading such material in violation of these Terms of Service at any time, without prior notice and at its sole discretion.

8. Digital Millennium Copyright Act

- A. If you are a copyright owner or an agent thereof and believe that any User Submission or other content infringes upon your copyrights, you may submit a notification pursuant to the Digital Millennium Copyright Act ("DMCA") by providing our Copyright Agent with the following information in writing (see 17 U.S.C 512(c)(3) for further detail):
- A physical or electronic signature of a person authorized to act on behalf of the owner of an exclusive right that is allegedly infringed;
 - Identification of the copyrighted work claimed to have been infringed, or, if multiple copyrighted works at a single online site are covered by a single notification, a representative list of such works at that site;
 - Identification of the material that is claimed to be infringing or to be the subject of infringing activity and that is to be removed or access to which is to be disabled and information reasonably sufficient to permit the service provider to locate the material;
 - Information reasonably sufficient to permit the service provider to contact you, such as an address, telephone number, and, if available, an electronic mail;
 - A statement that you have a good faith belief that use of the material in the manner complained of is not authorized by the copyright owner, its agent, or the law; and
 - A statement that the information in the notification is accurate, and under penalty of perjury, that you are authorized to act on behalf of the owner of an exclusive right that is allegedly infringed. YouTube's designated Copyright Agent to receive notifications of claimed infringement is: Shadie Farazian, 901 Cherry Ave., San Bruno, CA 94066, email: copyright@youtube.com, fax: 650-872-8513. For clarity, only DMCA notices should go to the Copyright Agent; any other feedback, comments, requests for technical support, and other communications should be directed to YouTube customer service through <http://www.google.com/support/youtube>. You acknowledge that if you fail to comply with all of the requirements of this Section 5(D), your DMCA notice may not be valid.
- B. Counter-Notice. If you believe that your User Submission that was removed (or to which access was disabled) is not infringing, or that you have the authorization from the copyright owner, the copyright owner's agent, or pursuant to the law, to post and use the content in your User Submission, you may send a counter-notice containing the following information to the Copyright Agent:
- Your physical or electronic signature;
 - Identification of the content that has been removed or to which access has been disabled and the location at which the content appeared before it was removed or disabled;
 - A statement that you have a good faith belief that the content was removed or disabled as a result of mistake or a misidentification of the content; and
 - Your name, address, telephone number, and e-mail address, a statement that you consent to the jurisdiction of the federal court in San Francisco, California, and a statement that you will accept service of process from the person who provided notification of the alleged infringement. If a counter-notice is received by the Copyright Agent, YouTube may send a copy of the counter-notice to the original complaining party informing that person that it may replace the removed content or cease disabling it in 10 business days. Unless the copyright owner files an action seeking a court order against the content provider, member or user, the removed content may be replaced, or access to it restored, in 10 to 14 business days or more after receipt of the counter-notice, at YouTube's sole discretion.

TO THE FULLEST EXTENT PERMITTED BY LAW, YOUTUBE, ITS OFFICERS, DIRECTORS, EMPLOYEES, AND AGENTS DISCLAIM ALL WARRANTIES, EXPRESS OR IMPLIED, IN CONNECTION WITH THE WEBSITE AND YOUR USE THEREOF. AS WITH THE PURCHASE OF A PRODUCT OR SERVICE THROUGH ANY MEDIUM OR IN ANY ENVIRONMENT, YOU SHOULD USE YOUR BEST JUDGMENT AND EXERCISE CAUTION WHERE APPROPRIATE.

10. Limitation of Liability

IN NO EVENT SHALL YOUTUBE, ITS OFFICERS, DIRECTORS, EMPLOYEES, OR AGENTS, BE LIABLE TO YOU FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES WHATSOEVER RESULTING FROM ANY (I) ERRORS, MISTAKES, OR INACCURACIES OF CONTENT, (II) PERSONAL INJURY OR PROPERTY DAMAGE, OF ANY NATURE WHATSOEVER, RESULTING FROM YOUR ACCESS TO AND USE OF OUR WEBSITE, (III) ANY UNAUTHORIZED ACCESS TO OR USE OF OUR SECURE SERVERS AND/OR ANY AND ALL PERSONAL INFORMATION AND/OR FINANCIAL INFORMATION STORED THEREIN, (IV) ANY INTERRUPTION OR CESSATION OF TRANSMISSION TO OR FROM OUR WEBSITE, (IV) ANY BUGS, VIRUSES, TROJAN HORSES, OR THE LIKE, WHICH MAY BE TRANSMITTED TO OR THROUGH OUR WEBSITE BY ANY THIRD PARTY, AND/OR (V) ANY ERRORS OR OMISSIONS IN ANY CONTENT OR FOR ANY LOSS OR DAMAGE OF ANY KIND INCURRED AS A RESULT OF YOUR USE OF ANY CONTENT POSTED, EMAILED, TRANSMITTED, OR OTHERWISE MADE AVAILABLE VIA THE YOUTUBE WEBSITE, WHETHER BASED ON WARRANTY, CONTRACT, TORT, OR ANY OTHER LEGAL THEORY, AND WHETHER OR NOT THE COMPANY IS ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. The Website is controlled and offered by YouTube from its facilities in the United States of America. YouTube makes no representations that the YouTube Website is appropriate or available for use in other locations. Those who access or use the YouTube Website from other jurisdictions do so at their own volition and are responsible for compliance with local law.

11. Indemnity

You agree to defend, indemnify and hold harmless YouTube, its parent corporation, officers, directors, employees and agents, from and against any and all claims, damages, obligations, losses, liabilities, costs or debt, and expenses (including but not limited to attorney's fees) arising from: (i) your use of and access to the YouTube Website; (ii) your violation of any term of these Terms of Service; (iii) your violation of any third party right, including without limitation any copyright, property, or privacy right; or (iv) any claim that one of your User Submissions caused damage to a third party. This defense and indemnification obligation will survive these Terms of Service and your use of the YouTube Website.

It is possible that other software on the end user's device could impair performance of the EPTT service. The end user must accept the End User License Agreement (EULA) prior to installation of the software.
 - 1.2 **EPTT Supported Devices.** EPTT will be available on a variety of smartphone platforms and ruggedized devices running various operating systems. EPTT service requires use of a supported AT&T wireless device or a Personal Computer running Windows Vista OS or higher ("PC"). A list of supported devices is available at www.att.com/eptt. The User interface and service performance may vary by device. Some features may not be available on some devices.
2. **Terms of the Service**
 - 2.1 **Coverage and Availability.** EPTT is designed to work over an AT&T wireless data network connection. Wireless data coverage is not available in some areas. AT&T mobility coverage maps are available at www.att.com/business/datacoverage. Wireless data coverage is subject to transmission limitations and terrain, system, capacity and other limitations.
 - 2.2 **Limitations.** EPTT Services are not intended for use in emergency or critical communications settings, or where end - to-end data in transit encryption is required. Availability, security, speed, timeliness, accuracy and reliability of service are not guaranteed by AT&T. If the customer uses a custom APN or other firewalled network configuration which does not allow for IPv4 access to the publicly routable addresses of the EPTT servers and the corresponding required network ports, EPTT service will not work. Usage of the Enhanced PTT client for PCs requires that the PC be connected to AT&T's wireless network through an integrated modem/aircard or mobile hotspot device with qualified data plan service.
 - 2.3 **Usage and Billing.** Measured data usage incurred in connection with EPTT will not be charged against the customer's associated data plan. All other data usage will be charged at normal rates.
 - 2.4 **Data Service Requirements.** EPTT service requires a subscription to a qualified AT&T wireless data pay-per-use data service or data rate plan and access to the public Internet. Data service/plan requirements vary by device category. Certain AT&T data plans (e.g. MEdia Net) are not eligible.
 - 2.5 **International Usage and Domestic Roaming.** Enhanced PTT is designed for use in areas covered by AT&T's domestic wireless data network footprint only. Service is disabled while using international or domestic roaming networks. Customer shall be responsible for compliance with all export/import laws that apply to cross-border transfers of devices, software and technology; Customer is responsible for obtaining its own legal advice regarding countries that are subject to varying levels of U.S. and multinational trade embargoes, which may have an effect on Customer's ability to use the Service or carry a device into a particular country.
 - 2.6 **Compatibility.** Additional hardware, software, subscription, and/or special network connections may be required. EPTT service is not compatible with traditional circuit-switched voice calls or certain other wireless services from AT&T, including, without limitation, voice mail/Visual Voice Mail, Wireless Priority Service, and AT&T Satellite Augmented Mobile service. EPTT service is not compatible with devices provisioned through the AT&T Control Center or Enterprise On Demand platforms. It is the responsibility of the customer and/or its associated CRUs or IRUs to drive safely and observe all traffic rules.
 - 2.7 **Service Agreement.** EPTT is available only to customers with a qualified AT&T agreement and their respective users. EPTT may not be available for purchase in all sales channels or in all areas. EPTT service can be cancelled at any time. All Agency data usage up to the date service is terminated will be billed.
 - 2.8 **Integration.** EPTT Service is subject to applicable data coverage map(s) and acceptance of the Enhanced PTT software End User License Agreement. See applicable materials for details. AT&T's privacy policy may be viewed at www.att.com/privacy. Additional restrictions may apply. These offers are subject to change.
 - 2.9 **Acceptable Use.** Customer must comply with AT&T's Acceptable Use Policy. AT&T may suspend or limit Customer's use of the Service, if (a) Customer seeks to hack or break any security mechanism of the Service resulting in imminent danger to AT&T's network; (b) Customer's use poses an imminent security or service risk to AT&T or its customers, or subjects AT&T or its customers to immediate danger or exposes AT&T to sanctions, prosecution, civil action or any other liability; (c) Customer uses the service in a way that disrupts or threatens AT&T's network or other services; (d) AT&T receives notice or otherwise determines that the Customer may be using the Service for any illegal purpose or in a way that violates the law or the rights of a third party; or (e) AT&T determines that providing the Service to Customer is prohibited by law.

In the event of a suspension or limitation hereunder, AT&T will provide commercially reasonable notice where possible, but may in its discretion take action immediately and without notice where necessary to protect the Service, its Suppliers, its network or its other customers. On the termination of the Service for any reason (i) the rights granted to Customer herein, including all licenses to the Property

and Confidential Information will terminate and (ii) Customer must immediately cease all use of the Service and the Software, and all other aspects and components of the Service.

- 2.10 Protection of Rights.** AT&T or its Suppliers retain all right, title and interest, including, without limitation, all intellectual property rights, in and to the Service and Software. Customer will not, and will not permit any person to (i) reverse engineer, disassemble, reconstruct, decompile, translate, modify, copy, adapt or create derivative works of the Software, including, without limitation, any aspect or portion thereof, source code and algorithms, or (ii) use the Service in any way that will (or will attempt to) intentionally or willfully infringe on any AT&T or third party intellectual property rights; (iii) rent, lease, redistribute, resell or display any part of the Service, (iv) hack or break any security mechanism of the Service or (v) reproduce, archive, retransmit, distribute, disseminate, sell, lease, rent, exchange, modify, broadcast, synchronize, publicly perform, publish, publicly display, make available to third parties, transfer or circulate the Service except as otherwise allowed herein.
- 2.11 Privacy.** Customer shall comply with all applicable privacy, consumer data and protection laws, marketing and data best practices, and all laws that apply to collecting, accessing, storing, processing, using, disclosing and securing User data, including any obligations to notify and obtain consents of End Users regarding any Customer access to End Users' personal information. The Service must not be used to conduct unauthorized surveillance.

- 3.2** AT&T shall indemnify the Government and its officers, employees and agents against liability, including costs, for actual or alleged direct or contributory infringement of, or inducement to infringe, any United States or foreign patent, trademark or copyright, arising out of the enhanced PTT.

If at any time after reviewing the Software you wish to terminate this License, you must un-install and remove the Software from your Device, and delete any copy in your possession. If AT&T makes any updates or upgrades to the Software available to you, such updates or upgrades shall be subject to the terms and conditions of this License unless the Software is expressly provided to you under other, or additional terms and conditions, in which case, those other, or additional terms and conditions (which may include the payment of additional fees), shall apply only if subsequently approved by you.
- 2. RESTRICTIONS.** Except as expressly and unambiguously permitted by this Agreement, you shall not, nor permit anyone else to, directly or indirectly: (i) copy, modify, or distribute the Software; (ii) reverse engineer, disassemble, decompile or otherwise attempt to discover the

4. **WARRANTY DISCLAIMER.** LICENSOR PROVIDES THE SOFTWARE ON AN "AS IS" AND "AS AVAILABLE" BASIS, AND THAT YOUR USE OF OR RELIANCE UPON THE SOFTWARE AND ANY THIRD PARTY CONTENT AND SERVICES ACCESSED THEREBY IS AT YOUR SOLE RISK AND DISCRETION. FURTHERMORE, AT&T AND ITS COLLABORATORS, SUPPLIERS AND LICENSORS MAKE NO WARRANTY THAT (I) THE SOFTWARE OR THIRD PARTY CONTENT AND SERVICES WILL MEET YOUR REQUIREMENTS; (II) THE SOFTWARE OR THIRD PARTY CONTENT AND SERVICES WILL BE UNINTERRUPTED, ACCURATE, RELIABLE, TIMELY, SECURE, FREE FROM VIRUSES OR OTHER HARMFUL COMPONENTS OR ERROR-FREE; (III) THE QUALITY OF ANY PRODUCTS, SERVICES, INFORMATION OR OTHER MATERIAL ACCESSED OR OBTAINED BY YOU THROUGH THE SOFTWARE WILL BE AS REPRESENTED OR MEET YOUR EXPECTATIONS; OR (IV) ANY ERRORS IN THE SOFTWARE OR THIRD PARTY CONTENT AND SERVICES WILL BE CORRECTED. AT&T DOES NOT CONTROL AND IS NOT RESPONSIBLE FOR ANY ACCESS TO, USE OR MISUSE OF YOUR INFORMATION BY YOUR COMPANY, AND HEREBY DISCLAIMS ANY AND ALL REPRESENTATIONS, WARRANTIES AND GUARANTIES REGARDING YOUR COMPANY'S ACCESS TO, USE OR MISUSE OF YOUR INFORMATION. AT&T DOES NOT WARRANT THAT THE SOFTWARE WILL BE COMPATIBLE OR INTEROPERABLE WITH YOUR DEVICE OR ANY OTHER PIECE OF HARDWARE, SOFTWARE, EQUIPMENT OR DEVICE INSTALLED ON OR USED IN CONNECTION WITH YOUR DEVICE. FURTHERMORE, YOU ACKNOWLEDGE THAT COMPATIBILITY AND INTEROPERABILITY PROBLEMS CAN CAUSE THE PERFORMANCE OF YOUR DEVICE TO DIMINISH OR FAIL COMPLETELY, AND MAY RESULT IN PERMANENT DAMAGE TO YOUR DEVICE, LOSS OF THE DATA LOCATED ON YOUR DEVICE, AND CORRUPTION OF THE SOFTWARE AND FILES LOCATED ON YOUR DEVICE. If you no longer wish to allow your company to have access to your personal information as described above, you must uninstall the software and delete the Software from your device.
8. **SEVERABILITY.** If any provision of this License is held to be invalid or unenforceable with respect to a party, the remainder of this License, or the application of such provision to persons other than those to whom it is held invalid or unenforceable shall not be affected and each remaining provision of this License shall be valid and enforceable to the fullest extent permitted by law.
9. **WAIVER.** Except as provided herein, the failure to exercise a right or require performance of an obligation under this License shall not affect a party's ability to exercise such right or require such performance at any time thereafter nor shall the waiver of a breach constitute waiver of any subsequent breach.
10. **INDEMNIFICATION.** You will promptly notify AT&T in writing of any third-party claim arising out of or in connection with your access to or use of the Software. These obligations survive termination of this License

Data Plan Terms and Conditions

Available to government customers with a valid, eligible Government Agreement and that otherwise meet and maintain the eligibility criteria set forth in this brochure. Only the government customer's corporate responsibility users ("CRUs") may activate phones or devices on the Pooled Data Connect plan. The government customer's individual responsibility users ("IRUs" or "Sponsorship Employees") may not activate phones or devices on this plan. The government customer must utilize consolidated invoicing for its CRUs on this plan. End user invoicing is not available. To pool together, all eligible CRUs must be on the same government customer's billing account, and subscribe to a pooled data plan that has the same monthly service charges and included megabytes. You cannot pool CRUs who are under different billing accounts within your FAN.

Within each government customer billing account, all of the megabytes included in the pooled data plan for each eligible CRU are included in an account-level pool. As data is used, included data is deducted from the account-level pool in chronological order. Once the available pool of included data has been exhausted during each billing cycle for the entire account, CRUs will thereafter be charged for their data use in that billing cycle in accordance with their applicable Pooled Data Connect plan. Additional data usage is not billed to an eligible CRU until such CRU's account-level pool of available included data is used up. End users on non-pooling rate plans may be included on the same corporate billing account as end users on one of the pooled data plans. None of the pooling benefits will apply to non-pooling end users. No more than 1,000 end users may be on the same corporate billing account. Accordingly, if you have more than 1,000 eligible CRUs, they cannot all participate in the same pool.

The Data plan Terms and Conditions plans may only be used with approved, certified devices for the following purposes: (i) Internet browsing, (ii) email, and (iii) intranet access to government intranets, email and other government productivity applications like security and law enforcement, data collection and field inspection). The plans may not be used with server devices or with host computer applications. Such prohibited uses include, but are not limited to, Web camera posts or broadcasts, video streaming, continuous JPEG file transfers, automatic data feeds, telemetry applications, automated functions or any other machine-to-machine applications. The plans may not be used to provide full-time connections, including without limitation, private lines or frame relay.

Wireless Priority Services Terms and Conditions

Important Information

Wireless Priority Service (WPS) is a Department of Homeland Security service that provides end-to-end voice priority over the AT&T mobility network, including interoperability with other carriers. Customer qualification is managed by the Cybersecurity and Infrastructure Security Agency's Emergency Communications Division (ECD). FirstNet subscribers on the dedicated FirstNet Core can have WPS and FirstNet on the same device. Go to <https://www.cisa.gov/about-pts> to learn more about WPS and how to establish a POC or contact your AT&T representative for complete details regarding availability. WPS provides users a higher probability of call completion in times of emergency and congestion. If you use WPS, AT&T is required to share your WPS call usage information with the ECD and its authorized agents. There is no setup fee, usage charges [Minutes of Use(MOU)], or a Monthly Recurring Charge (MRC) for WPS services. Contact your AT&T representative for complete details on WPS.

Customer may participate in the defense and settlement at Customer's sole expense. If such a claim occurs, or in MobileIron's opinion is reasonably likely to occur, MobileIron, at its expense and at its sole discretion, may, in addition to its indemnification obligations hereunder: (i) procure the right to allow Customer to continue to use the Software, or (ii) modify or replace the Software or infringing portions thereof to become non-infringing, or (iii) if neither (i) nor (ii) is commercially feasible, terminate Customer's right to use the affected portion of the Software and refund any license fees paid by Customer corresponding to such Software, pro-rated over a three (3) year period from delivery (unless the License Term is shorter than three years in which case the prorated period shall be equal to the License Term). Notwithstanding the foregoing, MobileIron shall have no obligations under this Section to the extent any infringement claim is based upon or arises out of: (aa) any modification or alteration to the Software not made by MobileIron or its contractors or authorized by MobileIron; (bb) any combination or use of the Software with products or services not approved by MobileIron in writing; (cc) Customer's continuance of allegedly infringing activity a reasonable period after being notified thereof; (dd) Customer's failure to use Upgrades made available by MobileIron; and/or (ee) use of the Software not in accordance with the applicable Documentation or outside the scope of the license granted under this Agreement. The remedies set forth in this Section constitute Customer's sole and exclusive remedies, and MobileIron's entire liability, with respect to infringement or violation of third party intellectual property rights.
8. **Ownership.** The Software is licensed and not sold. MobileIron and its licensors shall own and retain all right, title, and (except as expressly licensed hereunder) interest in and to the Software and all copies or portions thereof, and any derivative works thereof (by whomever created). All suggestions or feedback provided by Customer or its employees or agents (including Customer Representatives) to MobileIron or its Authorized Resellers with respect to the Software shall be MobileIron's property and deemed Confidential Information of MobileIron, and Customer hereby assigns the same to MobileIron. For clarity, Customer has no obligation to provide any suggestions or feedback regarding the Software.

DISCLAIMERS. EXCEPT FOR THE WARRANTIES EXPRESSLY DESCRIBED HEREIN, THE SOFTWARE, MOBILEIRON SERVICES, AND/OR MOBILEIRON HARDWARE ARE PROVIDED "AS IS", AND MOBILEIRON AND ITS LICENSORS PROVIDE NO OTHER WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED WITH REGARD TO THE SAME. EXCEPT AS EXPRESSLY SPECIFIED IN THIS AGREEMENT, ALL EXPRESS OR IMPLIED CONDITIONS, REPRESENTATIONS, AND WARRANTIES INCLUDING, WITHOUT LIMITATION, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, NON-INFRINGEMENT, SATISFACTORY QUALITY, NON-INTERFERENCE, OR ACCURACY OF INFORMATIONAL CONTENT, OR ARISING FROM A COURSE OF DEALING, LAW, USAGE, OR TRADE PRACTICE, ARE HEREBY EXCLUDED TO THE EXTENT ALLOWED BY APPLICABLE LAW AND ARE EXPRESSLY DISCLAIMED BY MOBILEIRON, ITS SUPPLIERS AND LICENSORS. TO THE EXTENT AN IMPLIED WARRANTY CANNOT BE EXCLUDED, SUCH WARRANTY IS LIMITED IN DURATION TO THE EXPRESS WARRANTY PERIOD. FURTHER, MOBILEIRON AND ITS LICENSORS DO NOT WARRANT THE RESULTS OF USE OF THE SOFTWARE OR THAT THE SOFTWARE IS BUG/ERROR FREE OR THAT ITS USE WILL BE UNINTERRUPTED. THIS DISCLAIMER OF WARRANTY CONSTITUTES AN ESSENTIAL PART OF THIS AGREEMENT. IN ADDITION, DUE TO CONTINUAL DEVELOPMENT OF NEW TECHNIQUES FOR INTRUDING UPON/ATTACKING MOBILE DEVICES AND SOFTWARE, MOBILEIRON DOES NOT WARRANT THAT THE SOFTWARE OR ANY EQUIPMENT, SYSTEM, OR NETWORK ON WHICH THE SOFTWARE IS USED WILL BE FREE OF VULNERABILITY TO INTRUSION OR ATTACK. MOBILEIRON DOES NOT WARRANT THAT ANY SERVICES CONNECTING TO THE SOFTWARE PROVIDED BY THIRD PARTIES OR ANY DATA PROVIDED BY SUCH THIRD PARTIES WILL BE FREE FROM ERRORS OR INTERRUPTIONS OF SERVICE. BECAUSE SOME STATES OR JURISDICTIONS DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS, THE ABOVE LIMITATION MAY NOT APPLY. THIS WARRANTY GIVES CUSTOMER SPECIFIC LEGAL RIGHTS, AND CUSTOMER MAY ALSO HAVE OTHER RIGHTS WHICH VARY FROM JURISDICTION TO JURISDICTION.

13. Limitation of Liabilities. EXCEPT FOR ANY LIABILITY ARISING UNDER SECTION 2 (LICENSE), SECTION 4 (RESTRICTIONS), SECTION 7 (INDEMNITY), OR SECTION 11 (CONFIDENTIALITY): (a) IN NO EVENT WILL CUSTOMER OR CUSTOMER REPRESENTATIVES OR MOBILEIRON OR MOBILEIRON'S LICENSORS OR SUPPLIERS BE LIABLE TO THE OTHER PARTY FOR ANY LOST REVENUE, PROFIT, OR LOST OR DAMAGED DATA, BUSINESS INTERRUPTION, LOSS OF CAPITAL, OR FOR SPECIAL, INDIRECT, CONSEQUENTIAL, INCIDENTAL, OR PUNITIVE DAMAGES HOWEVER CAUSED AND REGARDLESS OF THE THEORY OF LIABILITY OR WHETHER ARISING OUT OF THE USE OF OR INABILITY TO USE SOFTWARE OR OTHERWISE AND EVEN IF SUCH PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES; AND (b) IN NO EVENT WILL THE AGGREGATE LIABILITY OF EITHER PARTY OR MOBILEIRON'S LICENSORS OR SUPPLIERS UNDER THIS AGREEMENT (UNDER ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, TORT OR OTHERWISE) EXCEED THE FEES RECEIVED BY MOBILEIRON FROM CUSTOMER FOR THE RELEVANT PRODUCT OR SERVICE (AND IN THE CASE OF CUSTOMER'S LIABILITY EXCEED THE FEES PAID AND DUE TO MOBILEIRON OR ITS AUTHORIZED RESELLER), WHETHER ANY REMEDY SET FORTH HEREIN FAILS OF ITS ESSENTIAL PURPOSE OR OTHERWISE. BECAUSE SOME STATES OR JURISDICTIONS DO NOT ALLOW LIMITATION OR EXCLUSION OF CONSEQUENTIAL OR INCIDENTAL DAMAGES, THE ABOVE LIMITATION MAY NOT APPLY TO CUSTOMER. This clause shall not impair the U.S. Government's right to recover for fraud or crimes arising out of or related to this Agreement under any federal fraud statute, including the False Claims Act, 31 U.S.C. §§ 3729-3733.

14. General

Consistent with FAR 12.212 and DoD FAR Supp. 227.7202-1 through 227.7202-4, and notwithstanding any other FAR or other contractual clause to the contrary in any agreement into which this Agreement may be incorporated, Customer may provide to Government end user or, if this Agreement is direct, Government end user will acquire, the Software and Documentation with only those rights set forth in this Agreement. Use of either the Software or Documentation or both constitutes

agreement by the Government that the Software and Documentation are "commercial computer software" and "commercial computer software documentation," and constitutes acceptance of the rights and restrictions herein.

- e) **Choice of Law; Venue.** This Agreement shall be governed by and construed in accordance with the Federal laws of United States, without reference to or application of choice of law rules or principles. Notwithstanding any choice of law provision or otherwise, the Uniform Computer Information Transactions Act (UCITA) and the United Nations Convention on the International Sale of Goods shall not apply. If any portion hereof is found to be invalid, void or unenforceable, such portion shall be enforceable to the maximum extent permissible, and the remaining provisions of the Agreement shall remain in full force and effect.
- f) **Data Communications; Aggregated Anonymous Statistical Data.** To the extent any personally identifiable data relevant to Customer or Customer Representatives is obtained by MobileIron or communicated to MobileIron by Customer in connection with this Agreement, MobileIron agrees that it (and/or its contractors) will use or disclose any such personally identifiable data received (if any is ever received) only to implement and deliver the features and services associated with the normal use of the Software and to perform its obligations hereunder. MobileIron (and/or its contractors) may collect aggregated, anonymous, statistical data and information about devices and usage activity provided such data and information does NOT contain any information which is identifiable to any individual or Customer ("Aggregated Anonymous Data"), and MobileIron (and/or its contractors) may use, store, analyze, and disclose such Aggregate Anonymous Data. For clarity, Aggregate Anonymous Data shall only include aggregated data or information which is specifically NOT identifiable to any individual or to Customer. Customer understands and agrees that such Aggregate Anonymous Data shall be owned by MobileIron.
- g) **Entire Agreement; Modifications.** This Agreement includes the terms herein and the attached exhibits and any terms incorporated herein by reference and any related Product Schedule ("Agreement") and constitutes the entire agreement between the parties with respect to the license of the Software and delivery of support and maintenance services (where relevant) and delivery of MobileIron Hardware (where relevant). Except as expressly provided herein, this Agreement supersedes and cancels all previous written and previous or contemporaneous oral communications, proposals, representations, and agreements relating the subject matter contained herein. This Agreement prevails over any pre-printed terms or other conflicting or additional terms of any purchase order, ordering document, acknowledgement or confirmation or other document issued by Customer, even if signed and returned. Additionally, with respect to any Software licensed hereunder, this Agreement supersedes and cancels any "click wrap" or "click accept" agreement incorporated into such Software. Except as expressly provided herein, this Agreement may be amended, or any term or condition set forth herein waived, only by a writing executed by both parties.
- h) **Illegality.** Should any term of this Agreement be declared void or unenforceable by any court of competent jurisdiction, that provision shall be modified, limited or eliminated to the minimum extent necessary and such declaration shall have no effect on the remaining terms hereof, which shall continue in full force and effect.
- i) **Waiver.** The failure of either party to enforce any rights granted hereunder or to take action against the other party in the event of any breach hereunder shall not be deemed a waiver by that party as to subsequent enforcement of rights or subsequent actions in the event of future breaches.
- j) **Assignment.** This Agreement may not be assigned or transferred without the other party's prior written consent, provided each party expressly reserves the right to assign this Agreement to a successor in interest of all or substantially all of its business or assets. Any action or conduct in violation of the foregoing shall be void and without effect. MobileIron may delegate any of its obligations hereunder, provided it shall remain fully liable and responsible for its delegates' actions or inactions in violation of this Agreement. All validly assigned rights and obligations of the parties hereunder shall be binding upon and inure to the benefit of and be enforceable by and against the successors and permitted assigns.
- k) **Legal Fees.** The party prevailing in any dispute under this Agreement shall be entitled to its costs and legal fees.
- l) **Notice.** Any and all notices or other information to be given by one of the parties to the other shall be deemed sufficiently given when sent by certified mail (receipt requested), or by courier, or by hand delivery to the other party to the address set forth in the signature lines of this Agreement or other such address provided by the parties from time to time. Such notices shall be deemed to have been effective on the first business day following the day of such delivery.
- m) **Basis of the Bargain.** Customer acknowledges and agrees that MobileIron has set its prices and entered into this Agreement in reliance upon the disclaimers of warranty and the limitations of liability set forth herein, that the same reflect an allocation of risk between the parties (including the risk that a contract remedy may fail of its essential purpose and cause consequential loss), and that the same form an essential basis of the bargain between the parties.

MobileIron Support and Maintenance Agreement

This MobileIron Support and Maintenance Agreement (“SMA”) sets forth the terms and conditions under which MobileIron (or its authorized representative) agrees to provide the “**Support and Maintenance Services**” (as described herein) to Customer for the Software for which support and maintenance services have been purchased (collectively the “Product”).

All capitalized terms used herein shall have the meaning set forth in the Agreement, except as otherwise defined herein.

MAINTENANCE TERM AND TERMINATION.

“**Maintenance Term**” shall be defined as follows: (a) if Customer has purchased a subscription license to Software, then the Maintenance Term for such Software shall be for the duration of the subscription license purchased; or (b) if Customer has purchased Support and Maintenance Services in connection with a perpetual license to Software, then the Maintenance Term for the support of such Software will be twelve (12) months from the delivery of the Software, unless an extended Maintenance Term is purchased, in which case the Maintenance Term will include the extended term identified in the Product Schedule. The Maintenance Term may be renewed by mutual agreement of the parties for additional twelve (12) month periods or any other period mutually agreed to in a Product Schedule (as relevant) (each an additional Maintenance Term), beginning upon the day immediately following the end of the then-current Maintenance Term, provided MobileIron receives payment of the then-current Support and Maintenance Fees required for the renewal term. This SMA shall also terminate: (a) immediately upon termination of the Agreement and (b), in accordance with FAR 52.212-4 (l) and (m), upon thirty (30) days written notice, if Customer materially breaches any provision of this Agreement and such breach remains uncured after such thirty (30) day notice period expires. Customer may also terminate this SMA at any time for convenience, provided that if Customer terminates this SMA for convenience, the Support and Maintenance Fee paid is not refundable.

PAYMENT. Unless a “Subscription” license is purchased (where the support and maintenance fee is included in the license fee charged), as clearly indicated on the relevant Product Schedule, then payment for the services and rights specified herein (“Support and Maintenance Fee”) shall be payable in U.S. dollars and are due within thirty (30) days of Customer’s receipt of MobileIron’s invoice (if purchased directly from MobileIron). The Support and Maintenance Fee is net of all taxes and duties. Customer agrees to pay all applicable taxes and duties due in connection with the Support and Maintenance Services, other than taxes on MobileIron’s net income.

REINSTATEMENT AFTER TERMINATION. If there is a lapse in the Maintenance Term, and Customer does not renew this SMA for a period of time, Customer may renew support and maintenance services based on MobileIron’s then-current support and maintenance terms on the GSA Pricelist, subject to payment of then-current Support and Maintenance Fee plus an amount equal to the Support and Maintenance Fees that would have been payable during the period of lapse (as pro-rated for any partial year).

SUPPORT AND MAINTENANCE SERVICES FOR SOFTWARE. Subject to the terms of this SMA, during the Maintenance Term, and provided Customer is current on its obligations to pay the Support and Maintenance Fees due, MobileIron will use commercially reasonable efforts to provide Customer the following “Support and Maintenance Services”:

- a) **Software Maintenance.** MobileIron will provide the Customer access to all Upgrades of the Software, to the extent created and generally released to other MobileIron customers who purchase Support and Maintenance Services without any additional charge.
- b) **Telephone, Email and Web Support.** MobileIron agrees to provide Customer access to MobileIron’s customer support personnel via telephone, email, and the web to assist Customer in resolving technical questions regarding the Product and the use of the Product during MobileIron’s normal business hours, currently 6 a.m. to 6 p.m. p.s.t. for standard support. Please refer to <http://support.mobileiron.com> (or such other URL provided by MobileIron from time to time) for specific information concerning telephone and web support business hours.
- c) **Software Error Correction; Bug Fixes.** Customer shall document and report all suspected errors or malfunctions of the Software to MobileIron via email or MobileIron’s case tracking system, and cooperate with MobileIron in its bug investigation by phone, email, and through MobileIron’s case tracking system. MobileIron will provide Customer with a trouble ticket number that Customer will use to track the status of any confirmed error or malfunction in the Software (i.e. any confirmed failure for the Software to meet the MobileIron specifications for the Software) (“Confirmed Error”). MobileIron may close the trouble ticket without further responsibility if Customer does not provide requested feedback to MobileIron within thirty (30) days of receiving a patch or workaround, or if Customer fails to respond to a request for additional information.

LIMITATIONS. MobileIron is only responsible to provide Customer’s Designated Support Contacts (described below) with the Support and Maintenance Services described herein. MobileIron shall be responsible for a Confirmed Error in Software, however, MobileIron shall not be responsible for any errors in Software that cannot be reproduced by MobileIron on unmodified Software, or for software, firmware, hardware not supplied by MobileIron, or for information or memory data contained in, stored on or integrated with any Product returned to MobileIron pursuant to this SMA. Services described herein do not include any support of any failure or defect in the Product due to Customer, Customer Representatives or any damage caused by Customer or Customer Representatives from improper storage, accident, abuse or misuse of Product (or any component thereof), or if Product (or any component thereof) has been used or maintained in a manner not conforming to the requirements or suggestions in Documentation or in the Agreement, or if Product (or any component thereof) is used by Customer or Customer

Representatives on unsupported platform or hardware or has been altered or modified by Customer or Customer Representative, or has had any serial number removed or defaced. Service or repair of the Product by anyone other than MobileIron (or an authorized representative of MobileIron) will void MobileIron's obligations herein. MobileIron's obligations stated herein shall apply only to the most current release of the Product and the prior release. If MobileIron agrees to remedy any errors or problems not covered by the terms of this SMA, MobileIron may perform such work after receiving Customer's instruction to proceed at MobileIron's then-current standard time and material rates.

CUSTOMER OBLIGATIONS; DESIGNATED SUPPORT CONTACTS. Customer shall appoint up to two (2) individuals who are knowledgeable in the operation of the Product to serve as primary Customer contacts with MobileIron for support calls ("Designated Support Contacts"). All support calls shall be initiated through these contacts. Customer may change its primary or alternate contacts at any time upon written notification to MobileIron. Customer may appoint additional primary contacts upon receipt by MobileIron of the standard fees due for such additional support contacts. Customer may inquire with MobileIron support personnel to obtain the then-current pricing for such additional support contacts. Customer may not share login passwords or other benefits of this SMA with any other persons nor use any software updates or software upgrades or other Services furnished to Customer under this SMA for any product for which Customer has not purchased Services.

THIRD PARTY SERVICES. Product accesses certain third party services ("Third Party Services"). Customer may only access and use such Third Party Services for so long as Customer has a current SMA in place with MobileIron for Software and is current on payment of the Support and Maintenance Fees for such Software. Customer's use and/or access to Third Party Services shall be limited to those uses and access rights permitted by the third party service providers. If during the Maintenance Term a third party provider terminates access to the Third Party Services, then MobileIron will notify Customer of the same, and access to such services will terminate as of the effective date specified by such third party provider. Within thirty (30) days of the notification by MobileIron of the termination of Third Party Services, the Customer may terminate this SMA for convenience (effective no earlier than the date the service access rights are terminated). Upon such termination, Customer shall be entitled to receive a pro-rata refund on any Support and Maintenance Fees paid (if any) for the relevant period remaining in the then-current Maintenance Term. MobileIron shall have no liability to Customer in connection with any termination of such services or the Customer's use of the Third Party Services. All warranties associated with such services are only those directly provided by the third party service provider to Customer.

GENERAL. This SMA is subject to the term and conditions of the Agreement attached hereto (including the disclaimer and limitations on liability described therein). WITHOUT LIMITING THE FOREGOING, CUSTOMER UNDERSTANDS AND AGREES THAT THE AGGREGATE LIABILITY OF MOBILEIRON AND ITS SUPPLIERS AND LICENSORS IN CONNECTION WITH THIS SMA, INCLUDING FOR ANY SERVICES, THIRD PARTY SERVICES, SOFTWARE AND/OR PRODUCTS PROVIDED HEREUNDER, REGARDLESS OF THE FORM OF THE ACTION GIVING RISE TO SUCH LIABILITY (WHETHER IN CONTRACT, TORT INCLUDING NEGLIGENCE OR OTHERWISE), SHALL NOT EXCEED THE SUPPORT AND MAINTENANCE FEE PAID BY CUSTOMER FOR THE RELEVANT MAINTENANCE TERM. MobileIron may revise the terms of this SMA with sixty (60) days written notice, provided such revision is in connection with a standard change made to its then-current standard support and maintenance terms and such revision only applies to future renewal Maintenance Term (if any).

If such a claim occurs, or in MobileIron's opinion is reasonably likely to occur, MobileIron, at its expense and at its sole discretion, may: (x) procure the right to allow Customer Indemnitees to continue to use the infringing portions of Cloud Service, or (y) modify or replace the Cloud Service or infringing portions thereof to become non-infringing, or (z) if neither (x) nor (y) is available on commercially reasonable terms, terminate Customer's right to use the Cloud Service and refund any prepaid, unused subscription fees received by MobileIron. 8. **Ownership.** The Software is licensed and not sold. As between the parties, MobileIron and its licensors shall own and retain all right, title, and (except as expressly licensed hereunder) interest in and to the Cloud Service and all copies or portions thereof, and any derivative works thereof (by whomever created). All suggestions or feedback provided by Customer (and Customer Representatives) to MobileIron or its Authorized Resellers with respect to the Cloud Services shall be MobileIron's property and deemed Confidential Information of MobileIron, and Customer hereby assigns the same to MobileIron. International Services – Terms and Conditions

Certain eligibility restrictions apply which may be based on service tenure, payment history and/or credit. These rates are subject to change. For countries, rates, and additional details, [see att.com/global](http://att.com/global).

International Long Distance: International rates apply for calls made and messages sent from the U.S., Puerto Rico and U.S.V.I. to another country. Calling or messaging to some countries may not be available. Calls to wireless numbers and numbers for special services, such as Premium Rated Services, may cost more than calls to landline numbers. If a customer calls an overseas landline number and the call is forwarded to a wireless number, the customer will be charged for a call terminated to a wireless number. International Long Distance calling rates are charged per minute and apply throughout the same footprint in which the customer's airtime package minutes apply.

International Long Distance Text, Picture & Video Messaging: Additional charges apply for premium messages and content. Messages over 300 KBs are billed an additional 50¢/message. For full details on Messaging, see att.com/dataterms. For a complete list of countries, please visit att.com/text2world.

International Roaming: Compatible Device required. Your plan may include the capability to make and receive calls while roaming internationally. AT&T, in its sole discretion, may block your ability to use your Device while roaming internationally until eligibility criteria are met. International roaming rates, which vary by country, apply for all calls placed or received while outside the U.S., Puerto Rico and U.S.V.I. Please consult att.com/global or call 866-246-4852 for a list of currently available countries and carriers. All countries may not be available for roaming. All carriers within available countries may not be available on certain plans or packages. Availability, quality of coverage and services while roaming are not guaranteed. When roaming internationally, you will be charged international roaming airtime rates including when incoming calls are routed to voicemail, even if no message is left. Substantial charges may be incurred if Device is taken out of the U.S. even if no services are intentionally used. Billing for international roaming usage may be delayed up to three billing cycles due to reporting between carriers. Taxes are additional. If you want to block the ability to make and receive calls or use data functions while roaming internationally, you may request that by calling 1-916-843-4685 (at no charge from your wireless phone).

International Data: Many devices, including iPhone transmit and receive data messages without user intervention and can generate unexpected charges when powered "on" outside the U.S., Puerto Rico and U.S.V.I. AT&T may send "alerts" via SMS or email, to notify you of data usage. These are courtesy alerts. There is no guarantee you will receive them. They are not a guarantee of a particular bill limit. Receipt of Visual Voicemail messages are charged at international data pay-per-use rates unless customer has an international data plan, in which case receipt of Visual Voicemail messages decrement Kilobytes included in such plan. For terms and conditions regarding specific international data plans, see att.com/dataterms.

Data Global Add-Ons and Global Messaging Plans require that domestic data or messaging capability be in place. Rates apply only for usage within "roam zone" comprised of select carriers. Within the roam zone, coverage rate applies if you exceed the MB allotted for any Data Global Add-On Plan or the messages allotted for any Global Messaging Package. International roaming pay-per-use rates apply in countries outside the roam zone. See att.com/dataconnectglobal for current roam zone list. If you enroll after the beginning date of your billing cycle, the monthly charge and the data/message allotment included will be correspondingly reduced per day.

Data Connect Global/North America Plans do not include capability to place a voice call and require a 1 year agreement.

Cruise Ship Roaming: Cruise ship roaming rates apply for calls placed or data used while on the ship.

Export Restrictions: Certain international destinations are subject to trade sanctions, embargoes and restrictions under U.S. law and import licensing under foreign laws. As of May 1, 2009, the U.S. had embargoes or export restrictions with five countries, including Syria and Sudan, which may require an export license for your wireless Device. See <http://www.treas.gov/offices/enforcement/ofac/programs/> and <http://www.bis.doc.gov> for specific information. You are solely responsible for complying with U.S. Export Control laws and regulations, and the import laws and regulations of foreign countries when traveling internationally with your Device.

If deviations from the requirements set forth in the Software Warranty occur within the Software Warranty Period, the Software is considered nonconforming and, upon written notice to AirWatch within the Software Warranty Period, AirWatch will, without additional compensation, either (1) use its reasonable efforts to repair, at its facilities, the Software; or (2) replace the Software, in each case to correct the nonconformity. If, in AirWatch's discretion, AirWatch is unable to correct the nonconformity within a reasonable period, or if neither option (1) nor (2) is commercially feasible, then (i) AirWatch shall provide written notice to User and (ii) User shall terminate this EULA and the relevant Subscription or Perpetual License. Upon such User termination, AirWatch shall refund the appropriate amount as set forth below. The Software Warranty Period is not extended in any way by any Enhancement or Update, by placing more Licensed Units under license, or by any delivery of additional Software and replacement or repair of the Software does not extend the Limited Warranty Period, provided, however, the foregoing events are governed by the Maintenance Warranty described in Section 11.6, for so long as User is subscribed to Maintenance. For clarity, newly purchased User Licenses receive the Software Warranty from their Delivery Date, but purchasing new User Licenses does not extend the Software Warranty Period for previously purchased User Licenses. The Software Warranty does not cover any Software: (i) that has not been used in accordance with this EULA and the Documentation; (ii) that has been altered in any way by User or any third party not under the control of AirWatch, or their employees or agents; (iii) that is used in an operating environment other than as specified in the Documentation; (iv) where such nonconformity in the Software is due to abuse, neglect, or other improper use by User; or (v) where reported errors or nonconformities cannot be reproduced by AirWatch, working, in good faith, with User's assistance.
- 11.1.1 Refund of Subscription License.** If User terminates this EULA and a related Subscription License pursuant to Section 11.1, with respect to the affected Software, (i) AirWatch shall refund to User any Subscription License Fees and any unused Other Fees that have been prepaid to AirWatch by User and (ii) User shall comply with Section 12.3.1.
- 11.1.2 Refund of Perpetual License.** If User terminates this EULA and a related Perpetual License pursuant to Section 11.1, then with respect to the affected Software, (i) AirWatch shall refund to User any Perpetual License Fees paid by User and the unused remainder of any Other Fees prepaid to AirWatch by User and (ii) User shall comply with Section 12.3.1.
- 11.2 Infringement Claims.** In the event of any third party claim against User that User's use of the Software, as delivered by AirWatch to User and used in accordance with this EULA and the Documentation, directly infringes a third party copyright, patent issued by the U.S. Patent and Trademark Office, or misappropriates a trade secret, the Department of Justice shall have the right to exercise sole control of such case. At any point during the case, AirWatch may consult with the Department of Justice concerning the case and may intervene in the proceedings, at its own expense and through counsel of its own. Upon first learning of such third party claim against User, User shall (i) notify AirWatch in writing within thirty (30) days of the claim; and (ii) provide AirWatch with the information, assistance and authority to enable AirWatch to perform assist or intervene in the proceedings pursuant to this Section 11.2. In any action based on claim of infringement, AirWatch may, at its option and own expense and as its entire obligation to User with respect to such claims, either: (1) procure the right for User to continue using the Software in accordance with the provisions of this EULA; (2) make such alterations, modifications or adjustments to the Software so that the infringing Software becomes noninfringing without incurring a material diminution in performance or function; (3) replace the Software with a noninfringing substantially similar substitute; or (4) if neither (1), (2), nor (3) can be achieved after the exercise of commercially reasonable efforts, AirWatch shall provide written notice that neither (1), (2), nor (3) may be achieved and User shall terminate this EULA and the Subscription or Perpetual License(s), as the case may be, for the affected Software. Following such User termination AirWatch shall issue a refund to User as described below. AirWatch shall have no liability or obligations for an infringement claim pursuant to this Section 11.2 to the extent that it results from: (a) modifications to the Software made by a party other than AirWatch, if the claim would not have occurred but for such modifications; (b) the combination, operation or use of the Software with non-AirWatch equipment, devices, software or data, unless the claim would not have occurred but for the use of the Software in the combination, operation or use; (c) the use of an unsupported version of the Software; (d) use of the Software outside the scope of this EULA or the Documentation; (e) AirWatch's use of any designs, plans, instructions, specifications, diagrams or the like, provided by User; or (f) User's failure to use all applicable Enhancements and Upgrades to the Software made available to User by AirWatch, if the claim would not have occurred but for such failure. Nothing in this provision shall be construed as a limitation on User's ability to retain legal counsel at its own expense to monitor the proceedings.

Refund of Subscription License. If User terminates this EULA and a related Subscription License pursuant to Section 11.2, with respect to

the affected Software, (i) AirWatch shall refund to User the unused remainders of any Subscription License Fees and Other Fees that have been prepaid to AirWatch by User; and (ii) User shall comply with Section 12.3.1.

Refund of Perpetual License. If User terminates this EULA and a related Perpetual License pursuant to Section 11.2, with respect to the affected Software, (i) AirWatch shall refund to User the Perpetual License Fees amortized over a three (3) year depreciation period from the Delivery Date and the unused remainder of any prepaid Other Fees and (ii) User shall comply with Section 12.3.1.

11.3 Anti-Virus and Disabling Code Warranty and Remedies. In connection with User Licenses granted hereunder, AirWatch warrants that it shall use industry standard anti-virus software to scan the Software for Viruses prior to delivery (the “**Anti-Virus Warranty**”). “**Virus**” means any computer virus, software code, or device designed to disable, damage, impair, erase, deactivate, or electronically repossess the Software. Notwithstanding the foregoing, (i) any enabling or license keys included with the Software for the purpose of activating the Software, and/or (ii) any tracking mechanisms for measuring or ascertaining the number of Licensed Units under license, User’s conformance with the license restrictions set forth in Section 3 of this EULA, and/or other compliance matters included with the Software, shall not constitute a Virus for purposes of this Section 11.3. With respect to any alleged breach of the warranty set forth in this Section 11.3, AirWatch shall only be liable to User for a breach of the Anti-Virus Warranty, if User notifies AirWatch within the thirty (30) day time period immediately following the discovery of the Virus by User. User’s sole and exclusive remedy and AirWatch’s sole obligation for a breach of the Anti-Virus Warranty is to replace all copies of the affected Software in the possession of User with copies that do not contain a Virus.

11.4 Limited Hosted Services Warranty and Remedies. If and only if User is receiving Hosted Services, AirWatch warrants that User will have Access to the Hosted Services 99.9% of the calendar month (the “**Hosted Services Warranty**”). To the extent that the Hosted Services fail to conform to the Hosted Services Warranty, User may request service credits (“**Outage Credits**”) in accordance with this Section 11.4 as User’s sole and exclusive remedy and AirWatch’s sole obligation. All Outage measurements will be rounded up or down to the nearest one minute increment, with increments equal to or greater than 30 seconds being rounded up to the next minute. Outage Credits are based on cumulative periods of Outage over a calendar month. Final determinations of the length of the cumulative periods of Outage over a calendar month shall be based on AirWatch’s internal monitoring equipment and records. Outage Credits will be taken against only the Hosted Service Fees for the month in which the Outage occurred. Outage Credits will be calculated in accordance with the following table:

CUMULATIVE DURATION OF OUTAGE PERIODS WITHIN A PARTICULAR CALENDAR MONTH	PERCENTAGE OF THE HOSTED SERVICES FEES TO BE CREDITED AS AN OUTAGE CREDIT
45 MINUTES THROUGH 3 HOURS, 36 MINUTES	10%
3 HOURS, 37 MINUTES THROUGH 7 HOURS, 12 MINUTES	20%
GREATER THAN 7 HOURS, 12 MINUTES	30%

In no event will the Outage Credits accrued in any calendar month exceed, in the aggregate across all events, thirty percent (30%) of the amount invoiced in that calendar month for the Hosted Service Fees. The Outage Credits set forth herein are not cumulative and may not be carried from one month to the next. User must request any Outage Credit due hereunder within sixty (60) days of the date it accrues (i.e. upon a report that the last Outage for the calendar month has been resolved). User waives any right to credits not requested within such sixty (60) day period. Outage Credits will be issued once validated by AirWatch and applied toward the next invoice following the month in which the Outage Credit is validated by AirWatch. This Section 11.4, including the Outage Credits provides User’s sole and exclusive remedy for any interruptions, deficiencies, or failures of any kind of the Hosted Services. This Section 11.4 and any Outage Credits will not apply in the case of an Excluded Event. “**Excluded Event**” means any event that adversely impacts the Hosted Services that is caused by (a) the acts or omissions of User, its employees, customers, contractors or agents; (b) the failure or malfunction of equipment, applications or systems not owned or controlled by AirWatch; (c) Force Majeure events; (d) a Scheduled Maintenance Window; (e) any suspension of Hosted Services pursuant to Section 9; or (f) the unavailability of any User personnel required to restore Hosted Services, including as a result of User’s failure to provide AirWatch with accurate, current contact information.

In the event the Third Party Appliance fails to operate with the Software during the Appliance Warranty Period, upon User’s written notice to AirWatch within the Appliance Warranty Period, AirWatch shall either (i) use its reasonable efforts to repair at its facilities the Third Party Appliance; or (ii) replace the Third Party Appliance. AirWatch reserves the right to replace any non-conforming Third Party Appliance with another product of similar quality and purpose. Replacement or repair of the Third Party Appliance during the Appliance Warranty Period does not extend the Appliance Warranty Period and the delivery of additional Third Party Appliances does not extend the Appliance Warranty Period. The Appliance

Warranty does not cover any Third Party Appliance: (a) that is not used in accordance with the third party manufacturer's documentation; (b) that has been altered in any way by User or any third party, or their employees or agents; (c) to which additional software has been added by User or any third party, or their employees or agents; (d) where nonconformities in the Third Party Appliance are due to abuse, neglect, or other improper use by User; or (e) where reported errors or nonconformities cannot be reproduced by AirWatch, working in good faith, with User's assistance.

If, in AirWatch's discretion, AirWatch is unable to correct the nonconformities within a reasonable period, or if neither option (1) nor (2) is commercially feasible, AirWatch shall provide written notice and the User shall terminate this EULA and relevant Subscription or Perpetual licenses. Upon such User termination:
- (i) under a Subscription license, User shall receive a refund of the unused remainders of any prepaid Subscription License Fees and Other Fees that have been prepaid to AirWatch by User; and
 - (ii) under a Perpetual License, User shall receive a pro---rata refund of any Maintenance Fees paid for the then---current Maintenance Period.

THE MAINTENANCE WARRANTY SHALL NOT APPLY IN INSTANCES WHERE USER HAS NOT PURCHASED OR HAS DISCONTINUED MAINTENANCE. The Maintenance

Warranty does not cover any Maintenance, Updates, or Enhancements: (a) that have not been used in accordance with this EULA and the Documentation; (b) that have been altered in any way by User or any third party, or their employees or agents; (c) that are used in an operating environment other than as specified by AirWatch; (d) where the nonconformities are due to abuse, neglect, or other improper use by User; (e) where reported errors or nonconformities cannot be reproduced by AirWatch working in good faith, with User's assistance; or (f) where Maintenance Fees not subject to a good faith dispute have not been timely paid pursuant to Section 9 .

- 11.7 Limited Professional Services Warranty and Remedies.** AirWatch warrants to User that, solely with respect to Professional Services, for a period of ninety (90) days following the completion of such Professional Services (the "**Services Warranty Period**"), (i) any Professional Services provided will be consistent with generally accepted industry standards for the performance of services of a similar nature and (ii) any Professional Services provided and any Deliverables resulting therefrom will substantially conform, in all material respects, to such specifications as are agreed to by the Parties in an SOW or Order (the "**Services Warranty**"). If deviations from the requirements set forth in the Services Warranty occur within the Services Warranty Period, the Professional Services are considered non---conforming and, upon written notice to AirWatch within the Services Warranty Period, AirWatch will, without additional compensation, either (1) use its reasonable efforts to repair the nonconformities; or (2) re---perform the Professional Services to eliminate the nonconformities. If, in AirWatch's discretion, AirWatch is unable to correct the nonconformities within a reasonable period, or if neither option (1) nor (2) is commercially feasible, AirWatch shall refund to User any fees paid for the nonconforming Professional Services. Replacement or repair of the Professional Services during the Services Warranty Period does not extend the Services Warranty Period. The Services Warranty does not cover any Professional Services or Deliverables: (a) that have not been used in accordance with this EULA and any specifications related to the Professional Services or Deliverables; (b) that have been altered in any way by User or any third party, or their employees or agents; (c) that are used in an operating environment other than as specified in the Documentation; (d) where the nonconformities are due to abuse, neglect, or other improper use by User; or (e) where reported errors or nonconformities cannot be reproduced by AirWatch working in good faith, with User's assistance.

- 2.2 Third Party Agents. Under the License granted to You in Section 2.1 (General License Grant) above, You may permit Your Third Party Agents to access, use, and/or operate the Software on Your behalf for the sole purpose of delivering services to You, provided that You will be fully responsible for Your Third Party Agents' compliance with terms and conditions of this EULA and any breach of this EULA by a Third Party Agent shall be deemed to be a breach by You.
- 2.3 Copying Permitted. You may copy the Software and Documentation as necessary to install and run the quantity of copies licensed, but otherwise for archival purposes only.
- 2.4 Benchmarking. You may use the Software to conduct internal performance testing and benchmarking studies. You may only publish or otherwise distribute the results of such studies to third parties as follows: (a) if with respect to VMware's Workstation or Fusion products, only if You provide a copy of Your study to benchmark@vmware.com prior to distribution; (b) if with respect to any other Software, only if VMware has reviewed and approved of the methodology, assumptions and other parameters of the study (please contact VMware at benchmark@vmware.com to request such review and approval) prior to such publication and distribution.
- 2.5 VMware Tools. You may distribute the VMware Tools to third parties solely when installed in a Guest Operating System within a Virtual Machine, provided that You agree to be liable for compliance by those third parties with the terms and conditions of this EULA.

2.6 Open Source Software. Notwithstanding anything herein to the contrary, Open Source Software is licensed to You under such OSS's own applicable license terms, which can be found in the open_source_licenses.txt file, the Documentation or, as applicable, the corresponding source files for the Software available at www.vmware.com/download/open_source.html. These OSS license terms are consistent with the license granted in Section 2 (License Grant), and may contain additional rights benefiting You. The OSS license terms shall take precedence over this EULA to the extent that this EULA imposes greater restrictions on You than the applicable OSS license terms. To the extent the license for any Open Source Software requires VMware to make available to You the corresponding source code and/or modifications (the "Source Files"), You may obtain a copy of the applicable Source Files from VMware's website at www.vmware.com/download/open_source.html or by sending a written request with Your name and address to: VMware, Inc., 3401 Hillview Avenue, Palo Alto, CA 94304, United States of America. All requests should clearly specify: Open Source Files Request, Attention: General Counsel. This offer to obtain a copy of the Source Files is valid for three years from the date You acquired this Software.

3. RESTRICTIONS; OWNERSHIP.

3.1 License Restrictions. Without VMware's prior written consent, You must not, and must not allow any third party to: (a) use Software in an application services provider, service bureau, or similar capacity for third parties; (b) disclose to any third party the results of any benchmarking testing or comparative or competitive analyses of VMware's Software done by or on behalf of You, except as specified in Section 2.4 (Benchmarking); (c) make available Software in any form to anyone other than Your employees or contractors who require access to use Software on behalf of You in a matter permitted by this EULA, except as specified in Section 2.2 (Third Party Agents); (d) transfer or sublicense Software or Documentation to any third party, except as expressly permitted in Section 12.1 (Transfers; Assignment); (e) use Software in conflict with the terms and restrictions of the Software's licensing model and other requirements specified in Product Guide and/or VMware quote; (f) except to the extent permitted by applicable mandatory law, modify, translate, enhance, or create derivative works from the Software, or reverse engineer, decompile, or otherwise attempt to derive source code from the Software, except as specified in Section 3.2 (Decompilation); (g) remove any copyright or other proprietary notices on or in any copies of Software; or (h) violate or circumvent any technological restrictions within the Software or specified in this EULA, such as via software or services.

3.2 Decompilation. Notwithstanding the foregoing, decompiling the Software is permitted to the extent the laws of the Territory give You the express right to do so to obtain information necessary to render the Software interoperable with other software; provided, however, You must first request such information from VMware, provide all reasonably requested information to allow VMware to assess Your claim, and VMware may, in its discretion, either provide such interoperability information to You, impose reasonable conditions, including a reasonable fee, on such use of the Software, or offer to provide alternatives to ensure that VMware's proprietary rights in the Software are protected and to reduce any adverse impact on VMware's proprietary rights.

3.3 Ownership. The Software and Documentation, all copies and portions thereof, and all improvements, enhancements, modifications and derivative works thereof, and all Intellectual Property Rights therein, are and shall remain the sole and exclusive property of VMware and its licensors. Your rights to use the Software and Documentation shall be limited to those expressly granted in this EULA and any applicable Order. No other rights with respect to the Software or any related Intellectual Property Rights are implied. You are not authorized to use (and shall not permit any third party to use) the Software, Documentation or any portion thereof except as expressly authorized by this EULA or the applicable Order. VMware reserves all rights not expressly granted to You. VMware does not transfer any ownership rights in any Software.

3.4 Guest Operating Systems. Certain Software allows Guest Operating Systems and application programs to run on a computer system. You acknowledge that You are responsible for obtaining and complying with any licenses necessary to operate any such third-party software.

4. ORDER. Your Order is subject to this EULA, except as required by applicable law or the Schedule's Order of Precedence clause. No Orders are binding on VMware unless this EULA is expressly incorporated in each Order and the Order is accepted by VMware. Orders for Software are deemed to be accepted upon VMware's delivery of the Software included in such Order.

5. RECORDS AND AUDIT. During the License Term for Software and for two (2) years after its expiration or termination, You will maintain accurate records of Your use of the Software sufficient to show compliance with the terms of this EULA. During this period, VMware will have the right to audit Your use of the Software, at VMware's own expense, to confirm compliance with the terms of this EULA. That audit is subject to reasonable notice by VMware and will not unreasonably interfere with Your business activities. VMware may conduct no more than one (1) audit in any twelve (12) month period, and only during normal business hours. VMware, and any third-party auditor, shall not have physical access to Your computing devices in connection with any such audit without Your prior written consent. You will reasonably cooperate with VMware and any third party auditor. VMware reserves the right to seek recovery of any underpayments revealed by the audit in accordance with the Contract Disputes Act and the Disputes clauses in the FAR, GSAR, or other applicable agency supplement. No payment obligation shall arise on Your behalf until conclusion of the dispute process. In the event an audit necessitates access to classified information as that term is defined in the National Industrial Security Program Operating Manual (NISPOM), the audit will be conducted by auditor(s) possessing a personal security

clearance ("PCL", as defined in the NISPOM) at the appropriate level. Classified information will be disclosed only to person(s) having a need-to-know who possess a PCL.

6. SUPPORT AND SUBSCRIPTION SERVICES. Except as expressly specified in the Product Guide, VMware does not provide any Support or Subscription Services for the Software under this EULA. You have no rights to any updates, upgrades, or extensions or enhancements to the Software developed by VMware unless you separately purchase VMware Support or Subscription Services. These Support or Subscription Services are subject to the Support Services Terms.

7. WARRANTIES.

7.1 Software Warranty, Duration and Remedy. VMware warrants to You that the Software will, for a period of ninety (90) days following notice of availability for electronic download or delivery ("Warranty Period"), substantially conform to the applicable Documentation, provided that the Software: (a) has been properly installed and used at all times in accordance with the applicable Documentation; and (b) has not been modified or added to by persons other than VMware or its authorized representative. VMware will, at its own expense and as its sole obligation and Your exclusive remedy for any breach of this warranty, either replace that Software or correct any reproducible error in that Software reported to VMware by You in writing during the Warranty Period. If VMware determines that it is unable to correct the error or replace the Software, VMware will refund to You the amount paid by You for that Software, in which case the License for that Software will terminate.

7.2 Software Disclaimer of Warranty. OTHER THAN THE WARRANTY ABOVE, AND TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, VMWARE AND ITS SUPPLIERS MAKE NO OTHER EXPRESS WARRANTIES UNDER THIS EULA, AND DISCLAIM ALL IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE AND NON-INFRINGEMENT, AND ANY WARRANTY ARISING BY STATUTE, OPERATION OF LAW, COURSE OF DEALING OR PERFORMANCE, OR USAGE OF TRADE. VMWARE AND ITS LICENSORS DO NOT WARRANT THAT THE SOFTWARE WILL OPERATE UNINTERRUPTED OR THAT IT WILL BE FREE FROM DEFECTS OR THAT IT WILL MEET YOUR REQUIREMENTS.

8. INTELLECTUAL PROPERTY INDEMNIFICATION.

8.1 Defense and Indemnification. Subject to the remainder of this Section 8 (Intellectual Property Indemnification) and 28 U.S.C. § 516, in the event of any third party claim that the Software infringes any patent, trademark, or copyright of such third party, or misappropriates a trade secret (but only to the extent that the misappropriation is not a result of Your actions) under the laws of: (a) the United States and Canada; (b) the European Economic Area; (c) Australia; (d) New Zealand; (e) Japan; or (f) the People's Republic of China, to the extent that such countries are part of the Territory for the License ("Infringement Claim"), VMware shall indemnify You from the resulting costs and damages finally awarded against You to such third party by a court of competent jurisdiction or agreed to in settlement approved by VMware; provided that You: (i) promptly notify VMware in writing of the Infringement Claim; (ii) allow VMware such opportunity to participate in the defense of such Infringement Claim and any settlement negotiations as is offered by applicable laws, rules, or regulations; and (iii) reasonably cooperate in response to VMware requests for assistance. You shall make every effort to permit VMware to participate fully in the defense and/or settlement of any such Infringement Claim; however, VMware understands that such participation will be under the control of the U.S. Department of Justice.

8.2 Remedies. Should the Software become, or in VMware's opinion be likely to become, the subject of an Infringement Claim, VMware will, at VMware's option and expense, do one of the following: (a) procure the rights necessary for You to make continued use of the affected Software; (b) replace or modify the affected Software to make it non-infringing; or (c) if VMware determines that the foregoing alternatives are not reasonably available, You agree to terminate the License to the affected Software and discontinue the related support services on VMware's written request, and upon Your certified deletion of the affected Software, VMware will refund: (i) the fees paid by You for the License to the affected Software, less straight-line depreciation over a three (3) year useful life beginning on the date such Software was delivered; and (ii) any pre-paid service fee attributable to related support services to be delivered after the date such service is stopped. Nothing in this Section 8.2 (Remedies) shall limit VMware's obligation under Section 8.1 (Defense and Indemnification) to defend and indemnify You, provided that You replace the allegedly infringing Software upon VMware's making alternate Software available to You and/or You discontinue using the allegedly infringing Software upon receiving VMware's written request to terminate the affected License. This is subject and limited to the Government's right to require continued use of the Software pursuant to 28 U.S.C. § 1498. In the event of such continued use, You agree to notify VMware in writing and undertake at Your expense the defense of any Infringement Claim against You, and VMware shall have no further indemnification obligation; however, VMware may participate at its own expense in the defense of any such action if such claim is against VMware.

8.3 Exclusions. Notwithstanding the foregoing, VMware will have no obligation under this Section 8 (Intellectual Property Indemnification) or otherwise with respect to any claim based on: (a) a combination of Software with non-VMware products (other than non-VMware products that are listed on the Order and used in an unmodified form); (b) use for a purpose or in a manner for which the Software was not designed; (c) use of any older version of the Software when use of a newer VMware version would have avoided the infringement; (d) any modification to the Software made without VMware's express written approval; (e) any claim that relates to open source software or freeware technology or any derivatives or

other adaptations thereof that is not embedded by VMware into Software listed on VMware's commercial price list; or (f) any Software provided on a no charge, beta or evaluation basis. TO THE EXTENT PERMITTED BY APPLICABLE LAW, THIS SECTION 8 (INTELLECTUAL PROPERTY INDEMNIFICATION) STATES YOUR SOLE AND EXCLUSIVE REMEDY AND VMWARE'S ENTIRE LIABILITY FOR ANY INFRINGEMENT CLAIMS OR ACTIONS.

9. LIMITATION OF LIABILITY.

9.1 Limitation of Liability. TO THE MAXIMUM EXTENT NOT PROHIBITED BY LAW, IN NO EVENT WILL VMWARE AND ITS LICENSORS BE LIABLE FOR ANY LOST PROFITS OR BUSINESS OPPORTUNITIES, LOSS OF USE, LOSS OF REVENUE, LOSS OF GOODWILL, BUSINESS INTERRUPTION, LOSS OF DATA, OR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES UNDER ANY THEORY OF LIABILITY, WHETHER BASED IN CONTRACT, TORT, NEGLIGENCE, PRODUCT LIABILITY, OR OTHERWISE. BECAUSE SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF LIABILITY FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES, THE PRECEDING LIMITATION MAY NOT APPLY TO YOU. VMWARE'S AND ITS LICENSORS' LIABILITY UNDER THIS EULA WILL NOT, IN ANY EVENT, REGARDLESS OF WHETHER THE CLAIM IS BASED IN CONTRACT, TORT, STRICT LIABILITY, OR OTHERWISE, EXCEED THE LESSER OF THE LICENSE FEES YOU PAID FOR THE SOFTWARE GIVING RISE TO THE CLAIM OR ONE MILLION U.S. DOLLARS (\$1,000,000.00 USD). THE FOREGOING LIMITATIONS SHALL APPLY REGARDLESS OF WHETHER VMWARE OR ITS LICENSORS HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES AND REGARDLESS OF WHETHER ANY REMEDY FAILS OF ITS ESSENTIAL PURPOSE. THIS CLAUSE SHALL NOT IMPAIR THE U.S. GOVERNMENT'S RIGHT TO RECOVER FOR FRAUD OR CRIMES ARISING OUT OF THIS AGREEMENT TO NO GREATER EXTENT THAN PERMITTED UNDER ANY APPLICABLE FEDERAL FRAUD STATUTE, INCLUDING THE FALSE CLAIMS ACT (31 U.S.C. 3729-3733).

9.2 Further Limitations. VMware's licensors shall have no liability of any kind under this EULA and VMware's liability with respect to any third party software embedded in the Software shall be subject to Section 9.1 (Limitation of Liability). You may not bring a claim under this EULA more than eighteen (18) months after the cause of action arises or such longer period as is mandated by the Contract Disputes Act of 1978 (41 U.S.C. 7101-7109).

10. TERMINATION.

10.1 EULA Term. The term of this EULA begins on the notice of availability for electronic download or delivery of the Software and continues until this EULA is terminated in accordance with this Section 10.

10.2 Termination for Breach. Subject to, and to the extent not prohibited by, the Contract Disputes Act and FAR 52.233-1 (Disputes), VMware may terminate Your License if it is determined that You failed to comply with the terms stated herein.

10.3 Termination for the Government's Convenience. You may terminate Your License in accordance with GSAR 552.212-4(l), if applicable.

10.4 Effect of Termination. Upon termination of this EULA by either party: (a) all Licensed rights to all Software granted to You under this EULA will immediately cease; and (b) You must cease all use of all Software, and return or certify destruction of all Software and License Keys (including copies) to VMware, and return, or if requested by VMware, destroy, any related VMware Confidential Information in Your possession or control and certify in writing to VMware that You have fully complied with these requirements. Any provision will survive any termination or expiration if by its nature and context it is intended to survive, including Sections 1 (Definitions), 2.6 (Open Source Software), 3 (Restrictions; Ownership), 5 (Records and Audit), 7.2 (Software Disclaimer of Warranty), 9 (Limitation of Liability), 10 (Termination), 11 (Confidential Information) and 12 (General).

11. CONFIDENTIAL INFORMATION.

11.1 Definition. "Confidential Information" means information or materials provided by one party ("Discloser") to the other party ("Recipient") which are in tangible form and labelled "confidential" or the like, or, information which a reasonable person knew or should have known to be confidential. The following information shall be considered Confidential Information whether or not marked or identified as such: (a) License Keys; (b) information regarding VMware's product roadmaps or strategic marketing plans; and (c) non-public materials relating to the Software. Confidential Information does not include Classified Information as defined in the NISPOM.

11.2 Protection. Recipient may use Confidential Information of Discloser; (a) to exercise its rights and perform its obligations under this EULA; or (b) in connection with the Parties' ongoing business relationship. Recipient will not use any Confidential Information of Discloser for any purpose not expressly permitted by this EULA, and will disclose the Confidential Information of Discloser only to the employees or contractors of Recipient who have a need to know such Confidential Information for purposes of this EULA and who are under a duty of confidentiality no less

restrictive than Recipient's duty hereunder. Recipient will protect Confidential Information from unauthorized use, access, or disclosure in the same manner as Recipient protects its own confidential or proprietary information of a similar nature but with no less than reasonable care.

11.3 Exceptions. Recipient's obligations under Section 11.2 (Protection) with respect to any Confidential Information will terminate if Recipient can show by written records that such information: (a) was already known to Recipient at the time of disclosure by Discloser; (b) was disclosed to Recipient by a third party who had the right to make such disclosure without any confidentiality restrictions; (c) is, or through no fault of Recipient has become, generally available to the public; or (d) was independently developed by Recipient without access to, or use of, Discloser's Information. In addition, Recipient will be allowed to disclose Confidential Information to the extent that such disclosure is required by law or by the order of a court of similar judicial or administrative body, provided that Recipient notifies Discloser of such required disclosure promptly and in writing and cooperates with Discloser, at Discloser's request and expense, in any lawful action to contest or limit the scope of such required disclosure. To the extent Confidential Information becomes subject to the Freedom of Information Act (5 U.S.C. § 552), You agree that such Confidential Information is considered by VMware to be VMware trade secrets which would cause undue business hardship and a waiver from disclosure is applicable. You will provide VMware timely notice of any FOIA request for its Confidential Information and permit VMware the opportunity to object to its release.

12. GENERAL.

12.1 Transfers; Assignment. Except to the extent transfer may not legally be restricted or as permitted by VMware's transfer and assignment policies, in all cases following the process set forth at www.vmware.com/support/policies/licensingpolicies.html, You will not assign this EULA, any Order, or any right or obligation herein or delegate any performance without VMware's prior written consent, which consent will not be unreasonably withheld. VMware may assign its right to receive payment in accordance with the Assignment of Claims Act (31 U.S.C. § 3727) and FAR 52.212-4(b), and VMware may assign this EULA to the extent not prohibited by the Anti-Assignment Act (41 U.S.C. § 15). Subject to the requirements of FAR 42.12 (Novation and Change-of-Name Agreements), the Customer shall recognize VMware's successor in interest following a transfer of VMware's assets or a change in VMware's name. Any attempted assignment or transfer in violation of the foregoing will be void. Subject to the foregoing, this EULA will be binding upon and will inure to the benefit of the Parties and their respective successors and assigns. VMware may use its affiliates or other sufficiently qualified subcontractors to provide services to You, provided that VMware remains responsible to You for the performance of the services.

12.2 Notices. Any notice delivered by VMware to You under this EULA will be delivered via mail, email or fax.

12.3 Waiver. Failure to enforce a provision of this EULA will not constitute a waiver.

12.4 Severability. If any part of this EULA is held unenforceable, the validity of all remaining parts will not be affected.

12.5 Compliance with Laws; Export Control; Government Regulations. Each party shall comply with all laws applicable to the actions contemplated by this EULA. You acknowledge that the Software is of United States origin, is provided subject to the U.S. Export Administration Regulations, may be subject to the export control laws of the applicable territory, and that diversion contrary to applicable export control laws is prohibited. You represent that (1) you are not, and are not acting on behalf of, (a) any person who is a citizen, national, or resident of, or who is controlled by the government of any country to which the United States has prohibited export transactions; or (b) any person or entity listed on the U.S. Treasury Department list of Specially Designated Nationals and Blocked Persons, or the U.S. Commerce Department Denied Persons List or Entity List; and (2) you will not permit the Software to be used for, any purposes prohibited by law, including, any prohibited development, design, manufacture or production of missiles or nuclear, chemical or biological weapons. The Software and accompanying documentation are deemed to be "commercial computer software" and "commercial computer software documentation", respectively, pursuant to DFARS 227.7202 and FAR 12.212, as applicable. Any use, modification, reproduction, release, performing, displaying or disclosing of the Software and documentation by or for the U.S. Government shall be governed solely by the terms and conditions of this EULA.

12.6 Construction. The headings of sections of this EULA are for convenience and are not to be used in interpreting this EULA. As used in this EULA, the word 'including' means "including but not limited to".

12.7 Governing Law. This EULA is governed by the applicable federal laws of the United States. The U.N. Convention on Contracts for the International Sale of Goods does not apply.

12.8 Third Party Rights. Other than as expressly set out in this EULA, this EULA does not create any rights for any person who is not a party to it, and no person who is not a party to this EULA may enforce any of its terms or rely on any exclusion or limitation contained in it. Notwithstanding the foregoing, for any Orders placed with a VMware authorized reseller, the reseller may at VMware's request bring a claim on VMware's behalf to enforce the terms of this EULA.

12.9 Product Guide. In addition to the above sections, Your use of the Software is subject to the terms and conditions of the Product Guide, which is incorporated herein by reference, but only to the extent that all terms and conditions in the Product Guide are consistent with Federal Law (e.g., the Anti-Deficiency Act (31 U.S.C. § 1341 and 41 U.S.C. §6301), the Contracts Disputes Act of 1978 (41 U.S.C. § 601-613), the Prompt Payment Act, the Anti-Assignment statutes (41 § U.S.C.6405), 28 U.S.C. § 516 (Conduct of Litigation Reserved to Department of Justice (DOJ)), and 28 U.S.C. § 1498 (Patent and copyright cases)). To the extent the terms and conditions in the Product Guide or this EULA are inconsistent with Federal Law (See FAR 12.212(a)), they shall be deemed deleted and unenforceable as applied to any Orders under this EULA. GSA has not vetted or approved the contents of the Product Guide.

For each version of the Software, VMware will not change the generally applicable terms of this EULA for which the Customer obtains a license. This EULA shall not be modified by any terms embedded in and/or delivered with any new release of the Software, including Major Releases, Minor Releases and Maintenance Releases, each as defined in the Support Services Terms, made available to You after the Effective Date of this EULA, provided, however, that any new release of the Software will be subject to the product-specific terms in the then-current Product Guide. Such product-specific terms may include the license metric for the Software and license terms related to third party code that has been incorporated in the Software. Notwithstanding any provision of the Support Services Terms, for the "Major Release" of the Software available at the time of Your Order, any change in the Product Guide to license notes for the Software for any "Minor Releases" of the Software made available to You after the date of purchase will not apply to You except to the extent that the change is required in order to comply with the license terms related to third party code that has been incorporated in the Software, and all such Product Guide license notes will be generally applicable to VMware's licensees. "Major Release" and "Minor Release" have the meaning attributed to them in the Support Services Terms.

12.10 Entire Agreement. This EULA, and any amendments hereto, , and the Product Guide contain the entire agreement of the Parties with respect to the subject matter of this EULA and supersede all previous or contemporaneous communications, representations, proposals, commitments, understandings and agreements, whether written or oral, between the Parties regarding the subject matter hereof.

12.11 Contact Information. Please direct legal notices or other correspondence to VMware, Inc., 3401 Hillview Avenue, Palo Alto, California 94304, United States of America, Attention: Legal Department.

 - (vii) any issue not covered by Technical Support.
- Customer may request assistance from VMware for such problems, for an additional fee.

(b) In the event that VMware suspects that a reported problem may be related to Modified Code, VMware, may, in its sole discretion, (i) request that the Modified Code be removed, and/or (ii) inform Customer that additional assistance may be obtained by Customer directly from various product discussion forums or by engaging VMware's consulting services group for an additional fee.

2.5 Customer Responsibilities. VMware's obligations regarding Services are subject to the following:

- (a) Customer agrees to receive from VMware communications via e-mail, telephone, and other formats, regarding Services (such as communications concerning support coverage, Errors or other technical issues and the availability of new releases of the Software).
- (b) Customer's technical contact shall cooperate to enable VMware to deliver the Services.
- (c) Customer is solely responsible for the use of the Software by its personnel and shall properly train its personnel in the use and application of the Software.
- (d) Customer shall promptly report to VMware all problems with the Software, and shall implement any corrective procedures provided by VMware reasonably promptly after receipt.
- (e) Customer is solely responsible for protecting and backing up the data and information stored on the computers on which the Software is used and should confirm that such data and information is protected and backed up in accordance with any internal or regulatory requirements as applicable, before contacting VMware for Technical Support. VMware is not responsible for lost data or information in the event of errors or other malfunction of the Software or computers on which the Software is used.
- (f) Customer will have dedicated resources available to work 24X7 on Severity One Errors.

3. Services Offerings and Fees.

3.1 Services Fee Terms.

- (a) Services Fees are payable on the date for payment as set forth in the Order. Services Fees are specified in the applicable price list and are non-refundable for Services provided.
- (b) In the event that Customer renews or adds a Services offering that has a minimum term of one (1) year, Customer may elect to make Services for all or a portion of its Software Licenses coterminous with the renewed or added Services. In such case, VMware will prorate the applicable Services Fees to extend the current Services Period to make it coterminous with such renewed or added Services.

(c) For Software that is licensed on a perpetual basis, if a Customer purchases Services after acquiring the Software Licenses, or had elected not to renew Services and later wishes to re-enroll in the Services, Customer must move to the then-current Major Release of the Software and Schedule Holder, on behalf of VMware, shall invoice Customer: (i) the applicable Services Fees for the current Services Period; (ii) the amount of Services Fees that would have been paid for the period of time that Customer had not enrolled in the Services, and (iii) a twenty-percent (20%) reinstatement fee on the sum of the Services Fees in (i) and (ii).

(d) In cases where Customer purchases a License to migrate up from one edition of the Software to another (e.g., VMware vSphere Standard to VMware vSphere Enterprise Plus), any unused period of the Services Period on the original License will be converted and used to extend the Services Period for the newly purchased upgraded License. This paragraph (d) shall not apply to enterprise license agreements.

(e) If Customer originally purchased Services from a VMware Authorized Service Provider and is now renewing only Technical Support through such VMware Authorized Service Provider, Customer may purchase Subscription Services separately on a renewal basis from VMware. The renewal fee for such Subscription Services shall be as set forth in the Order that Customer has issued directly to VMware for such renewal, subject to VMware's acceptance of such Order. "Authorized Service Provider" means a third party that is authorized under contract by VMware to provide first and/or second level Technical Support for the Software.

3.2 Advanced and Complimentary Offerings.

(a) Certain Services (e.g., Business Critical Support and Mission Critical Support) require that Customer also purchase a base level of support. See the applicable price list for details.

(b) VMware may offer complimentary Services, including VMware Complimentary Update Services for certain Software, as more fully described at the VMware Technical Support Services website. "VMware Complimentary Update Services" means the provision of Maintenance Releases and Minor Releases, if any, to Customer. This VMware Complimentary Update Service does not include the provision of any Major Releases.

(c) Services for Software made available under open source licenses may be subject to additional policies located at <https://www.vmware.com/support/policies/opensource.html>, but only to the extent that all terms and conditions set forth at <https://www.vmware.com/support/policies/opensource.html> are consistent with federal law that is applicable, mandatory, and controlling. To the extent the terms and conditions set forth at https://www.vmware.com/files/pdf/support/support_terms_conditions.pdf are inconsistent with federal Law that is applicable, mandatory, and controlling (See FAR 12.212(a)), they shall be deemed deleted and unenforceable as applied to any Orders under this Agreement.

4. Miscellaneous Terms

4.1 Payment Terms. Services Fees are exclusive of any taxes, duties, or similar charges imposed by any government. Schedule Holder, acting on behalf of VMware, shall invoice Customer for all federal, state, dominion, provincial, or local sales, use, personal property, excise, value added, withholding or other taxes, fees, or duties relating to the transactions contemplated by this Agreement (other than taxes on the net income of VMware) unless Customer is exempt from any such taxes, fees or duties, then such taxes, fees or duties shall not be charged to Customer upon VMware's receipt of documentation reasonably acceptable to VMware evidencing Customer's tax-exempt status. All invoices issued hereunder by VMware are due and payable as set forth in the Order.

4.2 Limited Warranty. VMware warrants that the Services to be performed hereunder will be done in a workmanlike manner and shall conform to industry standards. Upon Customer providing VMware with a reasonably detailed written notice to cure within thirty (30) days of occurrence of the nonconformance, VMware will re-perform the Services to achieve commercially reasonable conformance with the above warranty. TO THE MAXIMUM EXTENT PERMITTED BY LAW, THIS WARRANTY IS GIVEN EXPRESSLY AND IN PLACE OF ALL OTHER WARRANTIES, STATUTORY, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NON-INFRINGEMENT. TO THE MAXIMUM EXTENT MANDATED BY LAW, THIS REMEDY WILL BE CUSTOMER'S SOLE AND EXCLUSIVE REMEDY WITH RESPECT TO NONCONFORMANCE OF SERVICES.

4.3 Limitation of Liability. TO THE MAXIMUM EXTENT MANDATED BY LAW, VMWARE SHALL NOT BE LIABLE FOR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, WHETHER BASED UPON CONTRACT, TORT OR ANY OTHER LEGAL THEORY, ARISING FROM ITS PERFORMANCE OR NON-PERFORMANCE UNDER THIS AGREEMENT. BECAUSE SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF LIABILITY FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES, THE PRECEDING LIMITATION MAY NOT APPLY TO CUSTOMER. VMWARE'S LIABILITY UNDER THIS AGREEMENT WILL NOT, IN ANY EVENT, EXCEED THE SERVICES FEES PAID BY CUSTOMER TO VMWARE UNDER THIS AGREEMENT DURING THE TWELVE (12) MONTHS IMMEDIATELY

PRECEDING THE DATE OF THE EVENT MOST DIRECTLY GIVING RISE TO THE CLAIM. THIS CLAUSE SHALL NOT IMPAIR THE U.S. GOVERNMENT'S RIGHT TO RECOVER FOR FRAUD OR CRIMES ARISING OUT OF THIS AGREEMENT TO NO GREATER EXTENT THAN PERMITTED UNDER ANY APPLICABLE FEDERAL FRAUD STATUTE, INCLUDING THE FALSE CLAIMS ACT (31 U.S.C. 3729-3733).

4.4 Termination. Subject to, and to the extent not prohibited by, the Contract Disputes Act and FAR 52.233-1 (Disputes), VMware may terminate the Agreement and all Services at any time if (1) it is discovered that Customer is currently in breach of its Software license restrictions, pursuant to Customer's Software license or (2) Customer is in material breach of this Agreement.

4.5 Data Protection. Customer acknowledges that correspondence and log files generated in conjunction with a request for Services may contain sensitive, confidential or personal information. Customer is solely responsible for taking the steps it considers necessary to protect such data, including obfuscating the logs or otherwise guarding such information prior to sending it to VMware.

4.6 Other. Customer may not assign or delegate this Agreement to any third party without the prior written consent of VMware, except to the extent such assignment or delegation is not legally restricted or permitted. This Agreement shall be governed by the applicable Federal law. This Agreement constitutes the entire agreement of the parties with respect to the provision of the Services by VMware to Customer, and supersedes all prior written or oral communications, understandings and agreements. Any waiver of the provisions of this Agreement must be in writing to be effective. Except as expressly set forth herein, no terms of any purchase order or other business form that Customer may use will affect the obligations of the parties under this Agreement, and any such purchase order or other business form of Customer which contains additional or conflicting terms are hereby rejected by VMware, unless such terms and conditions are mandated by applicable federal law. If any provision of this Agreement is found to be invalid or unenforceable, the remaining terms will continue to be valid and enforceable to the fullest extent permitted by law. The version of the Technical Support guide found at https://www.vmware.com/files/pdf/support/tech_support_guide.pdf and the policies located at <https://www.vmware.com/support/policies/index/> are the governing versions of such documents/policies; any translation into other languages is for convenience only. VMware may update the Technical Support guide and support policies periodically, without prior notice. VMware may assign its right to receive payment in accordance with the Assignment of Claims Act (31 U.S.C. § 3727) and FAR 52.212-4(b), and VMware may assign this Agreement to the extent not prohibited by the Anti-Assignment Act (41 U.S.C. § 15). Subject to the requirements of FAR 42.12 (Novation and Change-of-Name Agreements), the Customer shall recognize VMware's successor in interest following a transfer of VMware's assets or a change in VMware's name. Any attempted assignment or transfer in violation of the foregoing will be void. Subject to the foregoing, this Agreement will be binding upon and will inure to the benefit of the parties and their respective successors and assigns. VMware may use its affiliates or other sufficiently qualified subcontractors to provide services to Customer, provided that VMware remains responsible to Customer for the performance of the services.

VMware Cloud Services Terms of Service

By using a VMware cloud service offering ("Service Offering"), you agree to be bound by these terms of service between you and VMware ("Terms of Service"), and by the applicable Service Description, the VMware Data Processing Addendum, the applicable Support Policy, and the applicable Service Level Agreement, Terms, all of which together constitute the "Agreement". If you do not agree to these Terms of Service or to any other portion of the Agreement you must not use the Service Offering. "You" means you individually (and, as applicable, your Users) or the entity that you represent. If you are entering into the Agreement for an entity, you represent that you have the authority to bind that entity. "VMware", "we" or "us" means VMware, Inc., a Delaware corporation, if the billing address for your Order is in the United States, or VMware International Limited, a company organized and existing under the laws of Ireland, if the billing address for your Order is outside the United States. Capitalized terms used in these Terms of Service are defined throughout these Terms of Service and in Section 14 ("Definitions"). Section references in this document are to the provisions of these Terms of Service.

1. THE SERVICE OFFERING.

1.1 Generally. We may deliver the Service Offering with the assistance of our affiliates, licensors, and service providers. For purposes of the Agreement, a "Service Offering" includes services to host, on your behalf, VMware Software to enable you to use the software in a production environment via internet-based consoles.

1.2 Use of the Service Offering.

1.2.1 You and your Users must comply with all laws, rules, and regulations applicable to your use of the Service Offering and to any Content.

1.2.2 You may use the Service Offering only (a) during the Subscription Term, (b) for your own benefit, and (c) in accordance with the Agreement. To use the Service Offering you must register and set up an authorized account with Login Credentials. You must keep your registration information accurate and complete during the term of the Agreement. You must keep your Login Credentials confidential. You can manage your Service Offering account through the Service Offering portal as specified in the Service Description.

1.2.3 You are responsible for any use of the Service Offering that occurs under your Login Credentials. You are responsible for your Users' compliance with the Agreement. If you become aware of any User's violation of the Agreement you must immediately terminate that User's (a) access to Content and (b) use of the Service Offering. If you believe your account has been compromised, including any unauthorized access to or use or disclosure of any account information, passwords, user names, or Login Credentials, you must notify us as soon as possible by submitting a Severity 1 Service Request (see the applicable Support Policy) or as we may otherwise notify you from time to time.

1.2.4 You may receive software from us, incidental to your use of the Service Offering, which must be installed in your on-premises environment to enable you to use the Service Offering. If that software is subject to an accompanying license agreement, you must comply with the terms of that license. If that software does not have an accompanying license agreement, we grant you a limited license to use that software, only (a) in connection with your use of the Service Offering, (b) for the Subscription Term, and (c) in accordance with the Agreement.

1.3 Verifying Compliance. We have the right to verify your and your Users' compliance with the Agreement. We may request information from you to assist in that verification, which you must provide to us. If we reasonably believe a problem with the Service Offering may be attributable to any Content or to your or your Users' use of the Service Offering, you must cooperate with us to identify the source of the problem and to resolve the problem.

1.4 Monitoring. We may monitor your and your Users' use of the Service Offering, and collect configuration, performance, usage, and consumption data relating to such use: (a) to facilitate delivery of the Service Offering (such as tracking entitlements, providing support, monitoring the performance, integrity, and stability of the Service Offering's infrastructure, and preventing or addressing service or technical issues); and (b) to improve our products and services, and your and your Users' experience. You may not block or interfere with any such monitoring.

1.5 Third Party Content. As part of your use of the Service Offering you may receive access to Third Party Content. You are responsible for complying with any terms that may be presented to you when you access that Third Party Content. Third Party Content is available "AS IS" without indemnification, support (unless otherwise specified in the Agreement), or warranty or condition of any kind. We may suspend or terminate provision of any Third Party Content at any time, and any such suspension or termination will not be deemed a material, detrimental change.

1.6 Evaluation and Beta Use. We may offer any new Service Offering, or a new feature or functionality of an existing Service Offering, on an evaluation or beta basis ("Evaluation Service"). If you use any Evaluation Service, the terms of this Section 1.6 govern that use, and control over any conflicting provision of these Terms of Service; provided however that the term "Service Offering" will include an Evaluation Service in all provisions that are not in conflict with the provisions of this Section 1.6. If you have already joined a separate beta program, then the terms of that program will apply.

1.6.1 You may only use an Evaluation Service (a) for internal testing and evaluation purposes, and (b) for the period we specify. Unless we specify otherwise use of an Evaluation Service will be for a period of 30 days beginning on the date we provide you Login Credentials for or access to the Evaluation Service. You will not have access to the Evaluation Service or to Content in the Evaluation Service after your authorized use period ends.

1.6.2 Use of an Evaluation Service may require additional terms from a third party service provider.

1.6.3 You may use the Documentation provided with an Evaluation Service solely in support of your authorized use of the Evaluation Service.

- 1.6.4 We will provide the Evaluation Service (a) free of charge, (b) without support, (c) "AS IS", and (d) without indemnification, warranty or condition of any kind. No service level commitment will apply to the Evaluation Service.
- 1.6.5 The Data Processing Addendum does not apply to your use of any Evaluation Service.
- 1.6.6 You must not put any of the following into an Evaluation Service: (a) production data; or (b) any information relating to an identified or identifiable natural person; or (c) Prohibited Data. If you put any such data into an Evaluation Service, you do so at your own risk, and we will not be responsible for the consequences of that use.
- 1.6.7 If you use an Evaluation Service in violation of the terms of the Agreement, including Section 1.6.6, you will indemnify us as specified in Section 10.1.
- 1.6.8 Certain features or functionality of a particular Service Offering, as specified in the applicable Service Description, may not be available in an Evaluation Service for any feature or functionality within that Service Offering. Provision of any Evaluation Service, or any feature or functionality in an Evaluation Service, does not constitute our commitment to offer it or the Evaluation Service on a generally available basis.
- 1.6.9 We may terminate or modify an Evaluation Service at any time, and any such suspension or termination will not be deemed a material, detrimental change.
- 1.6.10 As consideration for access to and use of an Evaluation Service, you will, from time to time, as we may reasonably request, provide feedback (including comments and suggestions) to us, and only to us, concerning (a) information that we may disclose in Feedback Sessions, and (b) the functionality and performance of the Evaluation Service. We may use any feedback you provide with regard to the Evaluation Service as specified in Section 1.8.
- 1.6.11 You will use reasonable efforts to participate in marketing and publicity activities related to an Evaluation Service, as we may reasonably request from time to time.
- 1.7 Open Source Software. You may receive open source software when you use the Service Offering or any Evaluation Service. The open source software you receive, as well as open source software that you may interact with when using the Service Offering and that we are required to disclose to you, is made available under the applicable open source licenses, found at http://www.vmware.com/download/open_source.html. You can obtain a copy of these licenses and any source code (and modifications) that we are required to make available under these licenses ("Source Files") at the foregoing URL or by sending a written request, with your name and address, to: VMware, Inc., Attention: General Counsel, 3401 Hillview Avenue, Palo Alto, CA 94304, United States of America. All requests must clearly specify: "Open Source Files Request". This offer to obtain a copy of the Source Files is valid for three years from the date you last received open source software or interacted with the open source software when using the Service Offering.
- 1.8 Feedback. We may elect in our sole discretion to use, for any purpose, any feedback (such as comments or suggestions) that you or any User provide to us regarding the Service Offering. You represent that you have the right to give us that feedback. You must not submit any Confidential Information to us as feedback without our express prior written consent. You hereby grant us a non-exclusive, perpetual, irrevocable, royalty-free, transferable, worldwide right and license, with the right to sublicense, to use, reproduce, perform, display, disclose, distribute, modify, prepare derivative works of, and otherwise exploit the feedback without restriction in any manner now known or in the future conceived, and to make, use, sell, offer to sell, import, and export any product or service that incorporates the feedback.
- 1.9 Modifications.
- 1.9.1 We may from time to time change (a) the Service Offering, (b) the terms of your access to the Service Offering, or (c) any portion of the Agreement. We will post notice of updates on the My VMware portal, or other sites, pursuant to our standard policies. If we make a material, detrimental change to the Service Level Agreement, we will post notice at least 90 days prior to the effective date of the change. The modified Agreement will become effective as of the date specified in our notice. Your continued use of the Service Offering after the effective date of any modification to the Agreement will be deemed acceptance of the modified terms. It is your responsibility to check the Service Offering portal and the My VMware portal regularly for updates.
- 1.9.2 If we make a material, detrimental change to the Service Offering or to any part of the Agreement you may terminate the Agreement by notifying us not later than 30 days after the effective date of the change. If you terminate the Agreement pursuant to this Section 1.9.2, the termination will be effective as of (a) the date we receive your notice or (b) any later date specified in your notice (but in any event the effective termination date will not be more than 45 days after the date on which we receive your notice). If you terminate a subscription-based Service Offering pursuant to this Section 1.9.2 we will refund any prepaid fees prorated as of the effective date of the termination, less any discounts not earned as of the effective date of the termination.
- 1.9.3 If we agree (in our sole discretion) to any modifications to these Terms of Service with regard to any Service Offering, those modifications must be in a written agreement signed by both you and us. Those modifications will continue to apply to future versions of these Terms of Service with respect to that Service Offering, unless the written agreement specifies otherwise.
- 1.10 Disclosures. If VMware is required by a subpoena, court order, agency action, or any other legal or regulatory requirement, to disclose any of your or any User's Confidential Information or any Content, we will provide you with notice and a copy of the demand, as soon as practicable, unless we are prohibited from doing so pursuant to applicable law or regulation. If you or the User request, we will, at your (or the User's) request and expense, take reasonable steps to contest and to limit the scope of any required disclosure.
2. DATA PROTECTION AND SECURITY. We will process Content in accordance with the Data Processing Addendum. You are responsible for ensuring that the security of the Service Offering is appropriate for your intended use of the Service Offering and the storage, hosting, or processing of any Content. You are responsible for taking and maintaining appropriate steps to protect the confidentiality, integrity, and

security of all Content from unauthorized access, use, loss, or destruction. Those steps include (a) controlling access you provide to your Users, (b) configuring the Service Offering appropriately, (c) ensuring the security of Content while it is in transit to and from the Service Offering, (d) using encryption technology to protect Content, and (e) backing up Content. You are responsible for providing any necessary notices to Users, and establishing relevant legal grounds and/or obtaining any legally required authorizations or consents from Users regarding their use of the Service Offering.

3. ACCEPTABLE USE.

3.1 General Restrictions. You and your Users must not: (a) resell or sublicense the Service Offering; or (b) use the Service Offering (i) in a way prohibited by law, regulation, or governmental order or decree,

(ii) to violate any rights of others, (iii) to try to gain unauthorized access to, test the vulnerability of, or disrupt the Service Offering or any other service, device, data, account, or network, (iv) to distribute spam or malware, (v) in a way that could harm the Service Offering or impair anyone else's use of it, (vi) in a way intended to work around the Service Offering's technical limitations, recurring fees calculation, or usage limits, or (vii) for any High Risk Activities.

3.2 Content Restrictions.

3.2.1 You must not post, and you must take steps to ensure that no User posts, any Content that: (a) may create a risk of harm, physical or mental injury, emotional distress, death, disability, disfigurement, or physical or mental illness, or any other loss or damage to any person or property; (b) may constitute or contribute to a crime or a tort; (c) includes any data that is illegal, unlawful, harmful, abusive, pornographic, racially or ethnically offensive, defamatory, infringing, invasive of personal privacy or publicity rights, harassing, humiliating to other people (publicly or otherwise), libelous, threatening, or otherwise objectionable; or (d) contains any information or content that you or the User do not have a right to upload into the Service Offering.

3.2.2 Some Service Offerings may not permit any Prohibited Data to be uploaded to, hosted by, stored in, or processed by the Service Offering. You must not use any such Service Offering to transmit, store, host, or process any Prohibited Data; if you do, then you are solely responsible for the consequences of such use, and you will indemnify VMware as specified in Section 10.1.

3.2.3 The Service Offerings are not intended for use by children under the age of 13 (in the United States) or such other age as provided by applicable law in other countries. Unless you have obtained the appropriate prior consent for such use, you may not allow any such Service Offering to be offered to children under the applicable statutory age of consent, and you must not use the Service Offering to collect, disclose, publish, or store information about children under the legal age of consent where prohibited by applicable law.

3.3 Violations of Acceptable Use. If you become aware that any Content or any User's use of the Service Offering violates Section 3.1 ("Acceptable Use; General Restrictions") or Section 3.2 ("Acceptable Use; Content Restrictions") you must take immediate action to remove the applicable Content and/or to suspend the User's use of the Service Offering. We may ask you to take action within a certain time period. If you fail to comply with our request we may suspend your account pursuant to Section 6 ("Suspension").

3.4 Notification of Infringement Concerns. If you believe that your copyrighted work has been copied and is accessible on the Service Offering in a way that constitutes copyright infringement you may send a notice to our copyright agent, providing the following information: (a) a description of the copyrighted work that you claim has been infringed and a description of the infringing activity; (b) the location of the material that you claim is infringing, such as the URL where it is posted; (c) your name, address, telephone number, and email address; (d) a statement by you that you have a good faith belief that the disputed use of the material is not authorized by the copyright owner, its agent, or the law; (e) your statement under penalty of perjury that the information in your notice of infringement concern is accurate, and that you are the copyright owner or are authorized to act on the copyright owner's behalf; and (f) your electronic or physical signature, as the copyright owner or as the person authorized to act on the copyright owner's behalf. Solely for purposes of reporting copyright infringement, please contact VMware's copyright agent as follows:

4. INTELLECTUAL PROPERTY OWNERSHIP.

4.1 Ownership of Service Offering. As between you and us, we and our licensors and service providers own and retain all right, title, and interest in and to the Service Offering and any related VMware Software, including all improvements, enhancements, modifications, and derivative works thereof, and all Intellectual Property Rights therein. This includes any information we collect and analyze in connection with the Service Offering. Your rights to use the Service Offering are limited to those expressly granted in the Agreement. No other rights with respect to the Service Offering, any related VMware Software, or any related Intellectual Property Rights are implied.

4.2 Ownership of Content. As between you and us, you and your Users retain all right, title and interest in and to any Content and all Intellectual Property Rights therein. Our rights to access and use Content are limited to those expressly granted in the Agreement.

5. ORDERS, DELIVERY, PAYMENT, AND TAXES.

5.1 Orders Generally. All Orders are subject to the terms of the Agreement and are not binding until accepted by us. Your Order will be deemed accepted when we provide your Login Credentials. We are not required to provide the Service Offering to you until you provide to us all information we require for processing your Order and provisioning the Service Offering for you. All Orders are non-refundable and non-cancellable except as expressly provided in the Agreement.

5.2 Delivery. When we accept your Order, we will deliver your Login Credentials to the email address associated with your account. If we ship a physical object in connection with an add-on feature of a Service Offering, shipping and delivery terms are Ex Works VMware's regional fulfillment facility (INCOTERMS 2010).

5.3 Direct Orders. This Section 5.3 applies only to Orders directly with VMware. If you purchase the Service Offering through a VMware authorized reseller, different terms regarding invoicing, payment, and taxes may apply.

5.3.2 Invoicing and Payment. Unless you and we have agreed otherwise, fees for the Service Offering will be governed by the applicable price list at the time of invoicing. You must pay all fees for use of the Service Offering in the amount and currency specified in your invoice, not later than 30 days after the date of the invoice. Some Service Offerings may permit you to pay fees for your use of the Service Offering through a credit card. If you are required to pay any Tax to a taxing authority, you must also provide documentation to us showing that you paid those Taxes. You confirm that we can rely on the name and address you provide to us when you register for the Service Offering or in connection with your payment method as being the place of supply for sales tax and income tax purposes, or as being the place of supply for VAT purposes where you have established your business.

We will give you notice before any suspension if permitted by applicable law or unless we reasonably determine that providing notice presents a risk of harm to the Service Offering or to any person or property.

6.2 Effect of Suspension. You will remain responsible for all fees incurred before or during any suspension. You will not be entitled to any service credits under the Service Level Agreement that you might have otherwise accrued during any suspension.

7. TERM; TERMINATION.

7.1 Term of Agreement. The Agreement takes effect when you click "I accept" or similar button or check box presented to you as part of the sign-up process or when you first use the Service Offering, whichever is earlier, and will remain in effect during the relevant Subscription Term or until terminated as specified in the Agreement. The applicable Service Description for any Service Offering sets forth details on renewal, including any auto-renew feature, and termination of the Subscription Term.

7.2 Termination for Cause. We may terminate the Agreement effective immediately upon sending you an email notice if you: (a) breach any provision of Section 3.1 ("Acceptable Use; General Restrictions"), Section 3.2 ("Acceptable Use; Content Restrictions"), or Section 13.5 ("Compliance with Laws; Export Control"); (b) do not resolve the underlying cause resulting in a suspension pursuant to Section 6.1 ("Suspension; Generally") (other than suspension due to a subpoena, court order, or other legal requirement) within 10 days after your account is suspended; (c) commit a material breach of the Agreement that cannot be cured; or (d) terminate or suspend your business.

7.3 Termination for Insolvency. 7.4 Effect of Termination.

7.4.1 Upon the effective date of termination of the Agreement for any reason: (a) all rights granted to you under the Agreement, including your ability to use the Service Offering, will immediately terminate; and (b) you must promptly discontinue all use of the Service Offering and delete or destroy any of our Confidential Information. Deletion of Content remaining in the Service Offering will occur as specified in the applicable Service Description. As between you and VMware, you are responsible for ensuring that you have necessary copies of all Content prior to the effective date of any termination.

7.4.2 The Data Processing Addendum (to the extent we continue to process Personal Data (as defined in the Data Processing Addendum) following any termination of the Agreement), and the following sections of these Terms of Service, will survive termination of the Agreement: Sections 1.7 ("The Service Offering; Open Source Software"), 3 ("Acceptable Use"), 4 ("Intellectual Property Ownership"), 5 ("Orders, Delivery, Payment and Taxes"), 7 ("Term; Termination"), 9 ("Disclaimer of Warranties"), 11 ("Limitation of Liability"), 12 ("Confidential Information"), 13

8. SUPPORT. We will provide support for the Service Offering in accordance with the applicable Support Policy, and as specified in the applicable Service Description. We will not provide support to end users of any Content.

9. DISCLAIMER OF WARRANTIES. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, WE, FOR OURSELVES AND ON BEHALF OF OUR AFFILIATES, LICENSORS, AND SERVICE PROVIDERS, EXPRESSLY DISCLAIM ALL WARRANTIES RELATING TO THE SERVICE OFFERING OR TO ANY MATERIALS OR SERVICES PROVIDED TO YOU UNDER THE AGREEMENT, WHETHER SUCH WARRANTIES ARE EXPRESS, IMPLIED, OR STATUTORY, INCLUDING ANY WARRANTIES OF MERCHANTABILITY, SATISFACTORY QUALITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE, AND NON-INFRINGEMENT, AND ANY WARRANTIES ARISING FROM COURSE OF DEALING OR COURSE OF PERFORMANCE. WE AND OUR AFFILIATES, LICENSORS, AND SERVICE PROVIDERS DO NOT WARRANT THAT THE SERVICE OFFERING WILL BE UNINTERRUPTED OR FREE FROM DEFECTS, OR THAT THE SERVICE OFFERING WILL MEET (OR IS DESIGNED TO MEET) YOUR BUSINESS REQUIREMENTS. WE DO NOT COMMIT TO FIXING ALL ERRORS. THE SERVICE OFFERING, OR ANY PART OF IT, IS NOT DESIGNED OR INTENDED FOR HIGH RISK ACTIVITIES.

10. INDEMNIFICATION.

10.1 Indemnification by You. If we are subject to any third party claim arising from or relating to (a) any Content, (b) any infringement or misappropriation of any Intellectual Property Rights by you or any Users in connection with use of the Service Offering, (c) any violation of law by you or your Users in connection with use of the Service Offering, (d) your use or your Users' use of the Service Offering and any Evaluation Service in violation of the Agreement, or (e) your use or your Users' use of any Third Party Content; then you will indemnify us from costs, fines, and damages finally awarded against us by a court of competent jurisdiction or a governmental agency, or agreed to by us in settlement of the claim. We will

- (i) provide you with notice of the claim within a reasonable period of time after learning of the claim, and
- (ii) have sole control over the claim's defense and settlement. You will reasonably cooperate in response to our requests for assistance.

You may not settle or compromise any indemnified third party claim subject to this Section 10.1 without our prior written consent.

10.2 Indemnification by VMware.

10.2.1 Subject to the remainder of this Section 10.2, we will (a) defend you against an Infringement Claim, and (b) indemnify you from costs, fines, and damages finally awarded against you by a court of competent jurisdiction or a government agency, or agreed to by us in settlement. You will: (i) provide us with notice of any Infringement Claim within a reasonable period of time after learning of the claim; (ii) allow us sole control over the claim's defense and settlement; and (iii) reasonably cooperate in response to our requests for assistance. You may not settle or compromise any Infringement Claim without our prior written consent.

10.2.2 If the Service Offering becomes or in our opinion is likely to become the subject of an Infringement Claim, we will at our option and expense: (a) procure the rights necessary for you to keep using the Service Offering; or (b) modify or replace the Service Offering to make it non-infringing; or (c) terminate the Agreement and refund any prepaid fees, prorated for the remaining portion of the Subscription Term.

10.2.3 We will have no obligation under this Section 10.2 or otherwise with respect to any claim based on:

- (a) a combination of VMware Software with non-VMware products or content, including any Content and/or any Third Party Content; (b) use of the Service Offering for a purpose or in a manner not permitted by the Agreement; (c) any modification to the Service Offering made without our express written approval; or (d) any Service Offering provided on a no-charge basis, including an Evaluation Service.

11. LIMITATION OF LIABILITY.

11.1 Disclaimer. TO THE MAXIMUM EXTENT PERMITTED BY LAW, IN NO EVENT WILL WE, OUR AFFILIATES, LICENSORS, OR SERVICE PROVIDERS BE LIABLE FOR ANY COSTS, COMPENSATION, OR REIMBURSEMENT WITH REGARD TO LOST PROFITS OR BUSINESS OPPORTUNITIES, LOSS OF USE OF THE SERVICE OFFERING OR OF ANY CONTENT, OR LOSS OF DATA, FOR ANY REASON INCLUDING POWER OUTAGES, SYSTEM FAILURES, SUPPLY FAILURES BY SERVICE PROVIDERS, OR OTHER INTERRUPTIONS (SUBJECT TO OUR OBLIGATIONS UNDER THE APPLICABLE SERVICE LEVEL AGREEMENT), LOSS OF REVENUE, LOSS OF GOODWILL, BUSINESS INTERRUPTION, OR FOR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES UNDER ANY THEORY OF LIABILITY, WHETHER BASED IN CONTRACT, TORT, NEGLIGENCE, PRODUCT LIABILITY, OR OTHERWISE. THIS LIMITATION WILL APPLY REGARDLESS OF WHETHER WE OR OUR AFFILIATES, LICENSORS, OR SERVICE PROVIDERS HAVE BEEN ADVISED OF THE POSSIBILITY OF THOSE DAMAGES AND REGARDLESS OF WHETHER ANY REMEDY FAILS OF ITS ESSENTIAL PURPOSE. BECAUSE SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF LIABILITY FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES, THE FOREGOING LIMITATION MAY NOT APPLY TO YOU.

11.2 Cap on Monetary Liability. OUR AND OUR AFFILIATES' AGGREGATE LIABILITY FOR ANY CLAIM UNDER THE AGREEMENT WILL NOT EXCEED THE GREATER OF: (a) AN AMOUNT EQUAL TO THE TOTAL FEES PAID OR PAYABLE TO US FOR YOUR USE OF THE PARTICULAR SERVICE OFFERING GIVING RISE TO THE CLAIM IN THE TWELVE (12) MONTHS PRIOR TO THE EVENT GIVING RISE TO THE CLAIM, OR (b) FIVE THOUSAND U.S. DOLLARS (\$5,000 USD) (OR THE EQUIVALENT IN LOCAL CURRENCY). THE LIMITATIONS OF

LIABILITY IN THIS SECTION 11.2 WILL NOT APPLY TO (i) VMWARE'S INDEMNIFICATION OBLIGATIONS UNDER THE AGREEMENT OR (ii) ANY LIABILITY WHICH MAY NOT BE EXCLUDED BY APPLICABLE LAW.

11.3 Further Limitations.

11.3.1 Our licensors and service providers have no liability of any kind under the Agreement. You may not bring a claim directly against any of them under the Agreement.

11.3.2 You may not bring a claim under the Agreement more than eighteen (18) months after the cause of action arises.

12. CONFIDENTIAL INFORMATION.

12.1 Protection. Either party (the "recipient") may use Confidential Information of the other party (the "discloser") solely to exercise its rights and perform its obligations under the Agreement or as otherwise permitted by the Agreement. You and we will each use reasonable care to protect the other party's Confidential Information in the same manner as we each protect our own Confidential Information of a similar nature, but in any event with not less than reasonable care. The recipient may disclose the discloser's Confidential Information only to the recipient's employees, or to third parties, who have a need to know the Confidential Information for purposes of the Agreement, and who are under a duty of confidentiality no less restrictive than as specified in this Section 12. The recipient may also disclose the discloser's Confidential Information, in accordance with the procedures set forth in Section 1.10.

12.2 Exceptions. The recipient's obligations under Section 12.1 ("Confidential Information; Protection") with respect to any of the discloser's Confidential Information will terminate if the recipient can show by written records that the information: (a) was, at the time of disclosure by the discloser, already rightfully known to the recipient without any obligation of confidentiality; (b) was disclosed to the recipient by a third party who had the right to make the disclosure without any confidentiality restrictions; (c) at the time of disclosure is, or through no fault of the recipient has become, generally available to the public; or (d) was independently developed by the recipient without access to or use of the discloser's Confidential Information.

13. GENERAL.

13.1 Assignment. (b) the assignee agrees in writing to be bound by the Agreement. We may prohibit any assignment to a competitor of ours. Any attempted assignment or transfer of the Agreement without our consent will be void and will be a breach of the Agreement. 13.2 Notices. Any notice by us to you under the Agreement will be given (a) by email to the email address associated with your account or (b) by posting on either the Service Offering portal or the My VMware portal, except as otherwise set forth in the Agreement. You must direct legal notices or other correspondence to VMware, Inc., 3401 Hillview Avenue, Palo Alto, California 94304, United States of America, Attention: Legal Department.

13.3 Waiver. Waiver of a breach of any provision of the Agreement will not constitute a waiver of any later breach of that provision, or waiver of a breach of any other provision.

13.4 Severability. If any provision of the Agreement is held to be invalid or unenforceable, the remaining provisions of the Agreement will remain in force to the extent feasible.

13.5 Compliance with Laws; Export Control. Each party will comply with all laws applicable to the actions contemplated by the Agreement. You acknowledge that the Service Offering is of United States origin, is provided subject to the U.S. Export Administration Regulations (including "deemed export" and "deemed re-export" regulations), and may be subject to the export control laws of any other applicable country. You represent and warrant that (a) you, and any User, are not, and are not acting on behalf of, (i) any person who is a citizen, national or resident of, or who is controlled by, the government of any country to which the United States has prohibited export transactions; or (ii) any person or entity listed on the U.S. Treasury Department list of Specially Designated Nationals and Blocked Persons, or the U.S. Commerce Department Denied Persons List or Entity List, or any similar designated persons list published for the jurisdiction in which the applicable data center is located; (b) you, and any User, will not permit the Service Offering to be used for any purposes prohibited by law, including any prohibited development, design, manufacture or production of missiles or nuclear, chemical or biological weapons; (c) no Content will be classified or listed on the United States Munitions list or similar list published for the jurisdiction in which the applicable data center is located, or contain defense articles, defense services or ITAR-related data;

(d) no Content will require an export license nor is restricted under applicable export control laws from export to any country where VMware or VMware's service providers maintain facilities or personnel; and

(e) you, and any User, are not subject, either directly or indirectly, to any order issued by any agency of the United States government revoking or denying, in whole or in part, your United States export privileges. You must notify VMware immediately if you or any User becomes subject to any such order.

13.6 Force Majeure. Neither party will be liable for any delay or failure to perform its obligations under the Agreement, except for your payment obligations, due to any cause beyond its reasonable control including labor disputes or other industrial disturbances, systemic electrical, telecommunications or other utility failures, earthquakes, storms or other acts of nature, embargoes, riots, acts or orders of government, acts of terrorism, or war.

13.10 **Third Party Rights.** Other than as expressly provided in the Agreement, the Agreement does not create any rights for any person who is not a party to it, and no person who is not a party to the Agreement may enforce any of its terms or rely on any exclusion or limitation contained in it; provided however our licensors and service providers are beneficiaries of the warranty disclaimers and limitations of liability in the Agreement.

13.11 **Order of Precedence.** The terms of the Agreement will supersede and control over any conflicting or additional terms and conditions of any purchase order or other purchasing-related document issued by you in connection with any Order for the Service Offering.

13.12 **Entire Agreement.** The Agreement as it may be modified from time to time is the entire agreement of the parties regarding its subject matter. WE AND OUR AFFILIATES, LICENSORS AND SERVICE PROVIDERS DO NOT WARRANT THAT THE SERVICE OFFERING WILL BE UNINTERRUPTED OR FREE FROM DEFECTS, OR THAT THE SERVICE OFFERING WILL MEET (OR IS DESIGNED TO MEET) YOUR BUSINESS REQUIREMENTS. WE DO NOT COMMIT TO FIXING ALL ERRORS. THE SERVICE OFFERING, OR ANY PART OF IT, IS NOT DESIGNED, MANUFACTURED OR INTENDED FOR HIGH RISK ACTIVITIES."

16.13 Modify Section 10.1 ("Indemnification by You") by adding the following language to the end of the section:

You will: (i) provide us with notice of any Infringement Claim within a reasonable period of time after learning of the claim; (ii) allow us the opportunity to participate in the claim's defense and settlement as provided in applicable laws, rules or regulations; and (iii) reasonably cooperate in response to our requests for assistance. You shall make every effort to permit us to participate fully in the defense or settlement of any Infringement Claim; however, we acknowledge that such participation will be under the control of the U.S. Department of Justice if you are a federal government entity, or may be under the control of the applicable state attorney general's office if you are a state or local government entity."

16.17 Replace Section 13.1 ("Assignment") with the following:

"Except to the extent transfer may not legally be restricted, you will not assign the Agreement, any Order, or any right or obligation under the Agreement, or delegate any performance, without our prior written consent, which consent will not be unreasonably withheld. We may assign our right to receive payment in accordance with the Assignment of Claims Act (31 U.S.C. § 3727) and FAR 52.212-4(b), and we may assign the Agreement to the extent not prohibited by the Anti-Assignment Act (41 U.S.C. § 15). Subject to the requirements of FAR 42.12 (Novation and Change-of-Name Agreements), you shall recognize our successor in interest following a transfer of our assets or a change in our name. Any attempted assignment or transfer in violation of the foregoing will be void. Subject to the foregoing, the Agreement will be binding upon and will inure to the benefit of the parties and their respective successors and assigns."

16.18 Replace Section 13.9 ("Governing Law") with the following:

"If you are a federal government entity, the Agreement is governed by the applicable federal laws of the United States. If the federal laws of the United States are not dispositive, then to the extent permitted by federal law, the Agreement will be governed by the laws of the State of California, excluding its conflict of law principles. If you are a state or local government entity, the Agreement is governed by the laws of your state, excluding its conflict of laws principles. The Agreement does not affect statutory rights that cannot be waived or changed by contract."

16.19 Add the following to the end of Section 13.10 ("Third Party Rights"):

"Notwithstanding the foregoing, for any Orders placed with a VMware authorized reseller, the reseller may, at our request, bring a claim against you on our behalf to enforce the terms of the Agreement."

16.20 Replace Section 13.11 ("Order of Precedence") with the following:

To the extent terms and conditions of the Agreement are inconsistent with federal law and regulations that are applicable, mandatory, and controlling (see FAR 12.212(a)), they shall be deemed deleted and unenforceable as applied to any Orders."

16.21 Add the following new Section 14.17 to Section 14 ("Definitions"):

16.22 Replace Section 15 titled "Provisions for Specific Data Centers" with the following:

16.23 Government Regulations. Any use, modification, reproduction, release, performing, displaying or disclosing of the Service Offering and Documentation by or on behalf of the U.S. Government will be governed by the terms and conditions of the Agreement, in conjunction with statutes, regulations, and the terms of the Schedule, and in accordance with the Order of Precedence provision in Section 16.20 of the Terms of Service.

AT&T Mobile Device Deployment Service - Terms and Conditions

AT&T Mobile Device Deployment Service is available only to customers with a qualified AT&T business or government agreement ("Enterprise Agreement") and their Customer Responsibility Users ("CRUs"). Covered devices include most major mobile smartphone and tablet devices. Other devices may be qualified for the service with specific approval from AT&T. The subscribing Agency must have a business shipping account, and information on such account must be provided to AT&T for use in shipping devices, including replacement device shipment to end users and prepaid shipping labels for return of damaged devices.

The subscribing Agency is responsible for shipping damaged devices back to AT&T within 3 business days of receipt of the replacement. Any delay in return of damaged devices could result in service delays and limit AT&T's ability to support other replacement requests, as well as shortages in the spares pool for which AT&T is not responsible.

If the subscribing Agency requires AT&T to work directly with the Agency's third party vendors/suppliers, the following terms will apply:

If the subscribing Agency's spares pool falls below 0.5% or 2 devices per device type, whichever is greater, AT&T will order devices on behalf of the subscribing Agency's account to replenish the spares pool. At the initiation of the AT&T Mobile Device Deployment Services, the subscribing Agency will send a letter of agency to the subscribing Agency's third party vendors (if required) which will instruct the third party vendors that any inquiries and purchases from AT&T are to be treated in the same manner as inquiries or purchases currently received directly from the subscribing Agency. THE SUBSCRIBING AGENCY WILL BE RESPONSIBLE FOR ALL CHARGES FROM A THIRD PARTY VENDOR OR AT&T FOR PURCHASED EQUIPMENT.

The cost of the devices kept in the spares pool is subject to change and reflects the non-activated or full list price of the devices at time of purchase.

If the subscribing Agency's device is out of stock or discontinued, the subscribing Agency will instruct AT&T to either wait for device to be restocked or opt to order a new device make and model. If the subscribing Agency chooses a new make and model a new Gold Image may be required and agrees to pay AT&T the charges associated with creating the new Gold Image.

The Advance Exchange monthly maximum return rate is 2% (24% annually) and is reconciled annually. The subscribing Agency will receive monthly reports reflecting Advance Exchange requests processed against the annual maximum.

Advance Exchange requests above 24% annually are billed at \$45 per incident.

AT&T is not required to fulfill Advance Exchange requests if there are insufficient devices in the Agency's spares pool.

The subscribing Agency is responsible for establishing an internal help desk for Tier 1 end user support. Only Tier-2 (Customer Help Desk to AT&T Service Desk) support for Advance Exchange damage reports is included in the fees listed above.

International shipping is optional. The subscribing Agency is responsible for managing customs clearing processes and any associated fees, tariffs or other charges.

AT&T's exclusive warranties to the subscribing Agency and subscribing Agency's exclusive remedy with regard to AT&T Advance Exchange Service are that (i) AT&T will perform the service in a workmanlike manner that meets commercial industry standards in the field to which the work pertains and (ii) AT&T will re-perform any work that fails to comply with the standards set forth as documented specifically with the subscribing Agency without additional charge. EXCEPT AS SET FORTH ABOVE, AT&T MAKES NO REPRESENTATIONS OR WARRANTIES, EXPRESS OR IMPLIED, SPECIFICALLY DISCLAIMS ANY REPRESENTATION OR WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE, OR NON-INFRINGEMENT AND SPECIFICALLY DISCLAIMS ANY WARRANTY ARISING BY USAGE OF TRADE OR BY COURSE OF DEALING.

AT&T reserves the right to discontinue the Service in whole or in part and/or terminate the Service at any time without cause.

AT&T IT Professional Services – General Terms and Conditions

1. INTRODUCTION

- 1.1 These General Terms and Conditions shall apply to all AT&T IT Professional Services ("Services") AT&T provides Customer and its Users under AT&T Mobility GSA Schedule Contract Number 47QTCA19D00MV("Agreement"):
- a) **SOW.** A "SOW" means a statement of work that is later executed by the parties and references the Agreement. (b) **Acceptable Use Policy.** AT&T's Acceptable Use Policy ("AUP") applies to (i) Services provided over or accessing the Internet and (ii) wireless (i.e., cellular) data and messaging Services. The AUP can be found at att.com/aup or other locations AT&T may designate.
- 1.2 SOWs are effective, and become part of an Order, when signed by both the Customer and AT&T. ASOW is deemed terminated when the parties' respective obligations have been fully performed, or when it is otherwise terminated according to its terms. In the event of an inconsistency among terms between the Agreement and a SOW, the terms of the SOW shall have priority.

2. CHARGES AND BILLING

- 2.1 Customer shall pay AT&T for the Services at the rates and charges specified in the SOWs. Charges set forth in the SOWs are exclusive of any applicable taxes.
- 2.2 Customer will pay surcharges, recovery fees, levies and other similar charges relating to the installation, license, use or provision of the Services, except to the extent Customer provides a valid exemption certificate prior to the delivery of Services.
- 2.3 Invoices for Services are issued monthly. Payment is due within 30 days after the date of the invoice and must refer to the invoice number. Charges must be paid in the currency specified in the invoice.
- 2.4 All fees paid are non-refundable. Restrictive endorsements or other statements on checks are void. Customer will reimburse AT&T for all costs associated with collecting delinquent or dishonored payments, including reasonable attorneys' fees. AT&T may charge late payment fees at the lower of 1.5% per month (18% per annum) or (c) the maximum rate allowed by law for overdue payments.
- 2.5 If Customer disputes a charge, Customer will provide notice to AT&T specifically identifying the charge and the reason it is disputed within 6 months after the date of the affected invoice, or Customer waives the right to dispute the charge. The portion of charges in dispute may be withheld and will not be considered overdue until AT&T completes its investigation of the dispute, but Customer may incur late payment fees in accordance with Section 2.4. Following AT&T's notice of the results of its investigation to Customer, payment of all properly due charges must be made within 10 business days, and AT&T will reverse any late payment fees that were invoiced in error.

3. RESPONSIBILITIES OF THE PARTIES

- 3.1 AT&T will assign resources with the appropriate skills to meet the Customer's project requirements. However, any tasks identified that are outside the scope of projects described in the SOWs will be addressed with additional services offered to the Customer through a change order. If the scope of the project, number or locations of Sites, start and finish dates, work to be done, or other material parameters of the project change, AT&T and Customer shall revise the SOWs accordingly or use the change order process and make appropriate revisions to the charges for the Services.
- 3.2 Customer agrees to provide all information and cooperation necessary for implementation of the Services, including but not limited to access to individuals, determination of schedules, and selection from among alternative designs. Customer shall provide a single point of contact through whom AT&T may obtain information and assistance regarding projects between the parties. AT&T will rely on all information provided by Customer and will not be responsible or held liable for any damages or costs that result from errors or omissions in such information. Customer will provide a safe working environment, free of Hazardous Materials and reasonably suitable for the Services. **"Hazardous Materials"** mean any substance or material capable of posing an unreasonable risk to health, safety or property or whose use, transport, storage, handling, disposal or release is regulated by any law related to pollution, to protection of air, water or soil or to health and safety. AT&T shall have no obligation to perform work at a location that is not a suitable and safe working environment.
- 3.3 Each party shall comply with all applicable laws and regulations.
- 3.4 Customer will in a timely manner allow AT&T access as reasonably required for the Services to property and equipment that Customer controls and will obtain at Customer's expense timely access for AT&T as reasonably required for the Services to property controlled by third parties such as Customer's landlord. AT&T will coordinate with and, except in an emergency, obtain Customer's consent to enter upon Customer's property and premises, which consent shall not be unreasonably withheld. Customer will furnish any conduit, holes, wireways, wiring, plans, equipment, space, power/utilities and other items as AT&T reasonably requires for the Services and will obtain any necessary licenses, permits and consents (including easements and rights-of-way).
- 3.5 Customer may not resell the Services or rebrand the Services for resale to third parties without AT&T's written consent.

4. CONFIDENTIAL INFORMATION

- 4.1 Confidential Information means: (a) information the parties or their Affiliates share with each other in connection with this Agreement or in anticipation of providing Services under this Agreement (including pricing or other proposals), but only to the extent identified as Confidential Information in writing; and (b) except as may be required by applicable law or regulation, the terms of this Agreement.

- 4.2 A disclosing party's Confidential Information will, for a period of 3 years following its disclosure to the other party (except in the case of software, for which the period is indefinite): (a) not be disclosed, except to the receiving party's employees, agents and contractors having a need-to-know (but only if such agents and contractors are not direct competitors of the other party and agree in writing to use and disclosure restrictions as restrictive as this Section 4) or to the extent authorized to be revealed by law, governmental authority or legal process (but only if such disclosure is limited to that which is so authorized and prompt notice is provided to the disclosing party to the extent practicable and not prohibited by law, governmental authority or legal process); (b) be held in confidence; and (c) be used only for purposes of using the Services, evaluating proposals for new services or performing this Agreement (including in the case of AT&T to detect fraud, to check quality and to operate, maintain and repair the Services).
- 4.3 The restrictions in this Section 4 will not apply to any information that: (a) is independently developed by the receiving party without use of the disclosing party's Confidential Information; (b) is lawfully received by the receiving party free of any obligation to keep it confidential; or (c) becomes generally available to the public other than by breach of this Agreement.
- 4.4 Each party is responsible for complying with the privacy laws applicable to its business. If Customer does not want AT&T to comprehend Customer data to which it may have access in performing Services, Customer must encrypt such data so that it will be unintelligible. Customer is responsible for obtaining consent from and giving notice to its Users, employees and agents regarding AT&T's processing the User, employee or agent information in connection with providing Service. Unless otherwise directed by Customer in writing, if AT&T designates a dedicated account representative as Customer's primary contact with AT&T, Customer authorizes that representative to discuss and disclose Customer's customer proprietary network information to any employee or agent of Customer without a need for further authentication or authorization.

5. INTELLECTUAL PROPERTY RIGHTS

- 5.1 Any software that AT&T furnishes to Customer will be governed by the written terms and conditions applicable to such software. Title to such software remains with AT&T or its supplier. Customer must comply with all such terms and conditions, and they take precedence over this Agreement as to such software.
- 5.2 Except as otherwise expressly set forth in a SOW issued under this Agreement, Customer acknowledges that AT&T and its suppliers retain all Intellectual Property Rights and title in and to all of their Confidential Information or other proprietary information, products, services, and the ideas, concepts, techniques, inventions, processes, software or works of authorship developed, embodied in, or practiced in connection with the Services provided by AT&T under this Agreement, including without limitation all modifications, enhancements, derivative works, configurations, translations, upgrades, and interfaces thereto (all of the foregoing "AT&T Works"), and neither ownership nor title to any such property will pass to Customer. The AT&T Works do not include Customer's preexisting hardware, software, or networks. Except as otherwise expressly provided herein (or in a SOW issued under this Agreement), nothing in this Agreement creates any right of ownership or license in and to the other party's Intellectual Property Rights, and each party continues to independently own and maintain its Intellectual Property Rights.
- 5.3 Customer shall own those copies of any reports produced and furnished to Customer by AT&T ("Reports"), and Customer is hereby granted, under AT&T's copyrights, the perpetual, non-exclusive, personal and non-transferable right to reproduce and modify Reports for Customer's own internal business purposes. For avoidance of doubt, "internal business purposes" exclude public distribution, resale to third parties and revenue generation purposes.
- 5.4 AT&T grants to Customer a limited, non-exclusive, non-transferable, non-sublicenseable license to use any Software developed and provided by AT&T or its suppliers as a result of this Agreement in object code form on systems under Customer's control solely in connection with Customer's use of the Service for which such copy was provided and sold in accordance with the applicable instructions or documentation and any end-user license restrictions, if applicable. Customer is expressly prohibited from copying, sublicensing, selling, renting, leasing or otherwise distributing copies of the Software, or permitting either direct or indirect use of the Software by any third party. Customer agrees not to modify, disassemble, decompile, reverse engineer, create derivative works of, or make any other attempt to discover or obtain the source code for the Software. In the event any modifications are made to the Software by anyone other than AT&T or its authorized subcontractors (excluding Customer), any and all warranties with respect to the Software immediately terminate. Notwithstanding the foregoing, the license rights set forth above may be limited with respect to particular Software in the manner set forth in any applicable SOW.
- 5.5 AT&T hereby grants to Customer the non-exclusive, personal, and non-transferable right to use any items other than Software and Reports produced and furnished to Customer by AT&T under this Agreement, solely for Customer's own internal business purposes during the term of this Agreement, or for such other purposes as may be mutually agreed in writing by the parties.
- 5.6 Except as otherwise specified herein, no other right or license to or under any of AT&T's intellectual property rights is either granted or implied under this Agreement.

6. LICENSES AND THIRD PARTY MAINTENANCE

Software and maintenance resold to Customer hereunder may be subject to additional license terms and/or other requirements or restrictions imposed by the manufacturer, supplier or publisher. Customer is solely responsible for ensuring its adherence to such terms, requirements, and restrictions, and is deemed to have accepted them upon receipt of the software, or on commencement of maintenance. For purposes of this

Agreement, "Services" does not include maintenance even if AT&T, as agent for a third party, facilitates the purchase of or invoices for such maintenance.

7. LIMITATIONS OF LIABILITY AND DISCLAIMERS

7.1 Limitation of Liability.

- a) EITHER PARTY'S ENTIRE LIABILITY AND THE OTHER PARTY'S EXCLUSIVE REMEDY FOR DAMAGES ON ACCOUNT OF ANY CLAIM ARISING OUT OF AND NOT DISCLAIMED UNDER THIS AGREEMENT SHALL BE:
 - (i) FOR BODILY INJURY, DEATH OR DAMAGE TO REAL PROPERTY OR TO TANGIBLE PERSONAL PROPERTY PROXIMATELY CAUSED BY A PARTY'S NEGLIGENCE, PROVEN DIRECT DAMAGES;
 - (ii) FOR BREACH OF SECTION 4 (Confidential Information), SECTION 11.3 (Publicity) OR SECTION 11.4 (Trademarks), PROVEN DIRECT DAMAGES;
 - (iii) FOR ANY THIRD-PARTY CLAIMS, THE REMEDIES AVAILABLE UNDER SECTION 8 (Third Party Claims);
 - (iv) FOR CLAIMS ARISING FROM THE OTHER PARTY'S GROSS NEGLIGENCE OR WILLFUL MISCONDUCT, PROVEN DAMAGES; OR
 - (v) FOR CLAIMS OTHER THAN THOSE SET FORTH IN SECTION 7.1(a)(i)-(iv), PROVEN DIRECT DAMAGES NOT TO EXCEED, ON A PER CLAIM OR AGGREGATE BASIS DURING ANY 12 MONTH PERIOD, AN AMOUNT EQUAL TO THE TOTAL NET CHARGES INCURRED BY CUSTOMER FOR THE AFFECTED SERVICE IN THE RELEVANT COUNTRY DURING THE 3 MONTHS PRECEDING THE MONTH IN WHICH THE CLAIM AROSE.
- b) EXCEPT AS SET FORTH IN SECTION 8 (Third Party Claims) OR IN THE CASE OF A PARTY'S GROSS NEGLIGENCE OR WILLFUL MISCONDUCT, NEITHER PARTY WILL BE LIABLE TO THE OTHER PARTY FOR ANY INDIRECT, INCIDENTAL, CONSEQUENTIAL, PUNITIVE, RELIANCE OR SPECIAL DAMAGES, INCLUDING WITHOUT LIMITATION DAMAGES FOR LOST PROFITS, ADVANTAGE, SAVINGS OR REVENUES OR FOR INCREASED COST OF OPERATIONS.
- c) THE LIMITATIONS IN THIS SECTION 7.1 SHALL NOT LIMIT CUSTOMER'S RESPONSIBILITY FOR THE PAYMENT OF ALL PROPERLY DUE CHARGES UNDER THIS AGREEMENT.

7.2 Disclaimer of Liability. AT&T WILL NOT BE LIABLE FOR ANY DAMAGES ARISING OUT OF OR RELATING TO: INTEROPERABILITY, ACCESS OR INTERCONNECTION OF THE SERVICES WITH APPLICATIONS, DATA, EQUIPMENT, SERVICES, CONTENT OR NETWORKS PROVIDED BY CUSTOMER OR THIRD PARTIES; SERVICE DEFECTS, SERVICE LEVELS, DELAYS OR ANY SERVICE ERROR OR INTERRUPTION, INCLUDING INTERRUPTIONS OR ERRORS IN ROUTING OR COMPLETING ANY 911 OR OTHER EMERGENCY RESPONSE CALLS OR ANY OTHER CALLS OR TRANSMISSIONS, (EXCEPT FOR CREDITS EXPLICITLY SET FORTH IN THIS AGREEMENT); LOST OR ALTERED MESSAGES OR TRANSMISSIONS; OR UNAUTHORIZED ACCESS TO OR THEFT, ALTERATION, LOSS OR DESTRUCTION OF CUSTOMER'S (OR ITS AFFILIATES', USERS' OR THIRD PARTIES') APPLICATIONS, CONTENT, DATA, PROGRAMS, INFORMATION, NETWORKS OR SYSTEMS.

7.3 Disclaimer of Warranties. AT&T MAKES NO REPRESENTATIONS OR WARRANTIES, EXPRESS OR IMPLIED, SPECIFICALLY DISCLAIMS ANY REPRESENTATION OR WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE OR NON-INFRINGEMENT AND SPECIFICALLY DISCLAIMS ANY WARRANTY ARISING BY USAGE OF TRADE OR BY COURSE OF DEALING. FURTHER, AT&T MAKES NO REPRESENTATION OR WARRANTY THAT TELEPHONE CALLS OR OTHER TRANSMISSIONS WILL BE ROUTED OR COMPLETED WITHOUT ERROR OR INTERRUPTION (INCLUDING CALLS TO 911 OR ANY SIMILAR EMERGENCY RESPONSE NUMBER) AND MAKES NO GUARANTEE REGARDING NETWORK SECURITY, THE ENCRYPTION EMPLOYED BY ANY SERVICE, THE INTEGRITY OF ANY DATA THAT IS SENT, BACKED UP, STORED OR SUBJECT TO LOAD BALANCING OR THAT AT&T'S SECURITY PROCEDURES WILL PREVENT THE LOSS OR ALTERATION OF OR IMPROPER ACCESS TO CUSTOMER'S DATA AND INFORMATION.

7.4 Application and Survival. The disclaimer of warranties and limitations of liability set forth in this Agreement will apply regardless of the form of action, whether in contract, equity, tort, strict liability or otherwise, of whether damages were foreseeable and of whether a party was advised of the possibility of such damages and will apply so as to limit the liability of each party and its Affiliates and their respective employees, directors, subcontractors and suppliers. The limitations of liability and disclaimers set out in this Section 7 will survive failure of any exclusive remedies provided in this Agreement.

8. THIRD PARTY CLAIMS

8.1 AT&T's Obligations. AT&T agrees at its expense to defend and either to settle any third-party claim against Customer, its Affiliates and its and their respective employees and directors or to pay all Damages that a court finally awards against such parties for a claim alleging that a Service provided to Customer under this Agreement infringes any patent, trademark, copyright or trade secret, but not where the claimed infringement arises out of or results from: (a) third-party software furnished under this Agreement; (b) Customer's, its Affiliate's or a User's content; (c) modifications to the Service by Customer, its Affiliate or a third party, or combinations of the Service with any non-AT&T services or products by Customer or others; (d) AT&T's adherence to Customer's or its Affiliate's written requirements; or (e) use of a Service in violation of this Agreement.

8.2 Reserved

8.3 Infringing Services. Whenever AT&T is liable under Section 8.1, AT&T may at its option either procure the right for Customer to continue using, or may replace or modify, the Service so that it is non-infringing.

8.4 Notice and Cooperation. The party seeking defense or settlement of a third-party claim under this Section 8 will provide notice to the other party promptly upon learning of any claim for which defense or settlement may be sought, but failure to do so will have no effect except to the extent the other party is prejudiced by the delay. The party seeking defense or settlement will allow the other party to control the defense and settlement of the claim and will reasonably cooperate with the defense. The defending party will use counsel reasonably experienced in the subject matter at issue and will not settle a claim without the written consent of the party being defended, which consent will not be unreasonably withheld or delayed, except that no consent will be required to settle a claim where relief against the party being defended is limited to monetary damages that are paid by the defending party under this Section 8.

9. RESERVED**10. IMPORT/EXPORT CONTROL**

Neither party will use, distribute, transfer or transmit any equipment, services, software or technical information provided under this Agreement (even if incorporated into other products) except in compliance with all applicable import and export laws, conventions and regulations.

11. GENERAL PROVISIONS

11.1 Independent Contractors. The parties to this Agreement are independent contractors. Neither party is an agent, representative, joint venturer, or partner of the other party. Neither party has any right, power or authority to enter into any agreement for or on behalf of, or incur any obligation or liability of, or to otherwise bind, the other party. Each party must bear its own costs and expenses in performing this Agreement.

11.2 Hire. During the term stated in a SOW and for a period of one year thereafter, Customer will not knowingly recruit, solicit nor hire any of AT&T's employees assigned to such effort. Notwithstanding the foregoing, former employees of AT&T who have left the employ of AT&T for a period of 6 months after last performing under the applicable SOW are not subject to this provision.

11.3 Publicity. Neither party may issue any public statements or announcements relating to the terms of this Agreement or to the provision of Services without the prior written consent of the other party.

11.4 Trademarks. Each party agrees not to display or use, in advertising or otherwise, any of the other party's trade names, logos, trademarks, service marks or other indicia of origin without the other party's prior written consent, which consent may be revoked at any time by notice.

11.5 Force Majeure. Except for payment of amounts due, neither party will be liable for any delay, failure in performance, loss or damage due to fire, explosion, cable cuts, power blackout, earthquake, flood, strike, embargo, labor disputes, acts of civil or military authority, war, terrorism, acts of God, acts of a public enemy, acts or omissions of carriers or suppliers, acts of regulatory or governmental agencies or other causes beyond such party's reasonable control.

11.6 Amendments and Waivers. Any supplement to or modification or waiver of any provision of an Order must be in writing and signed by authorized representatives of both parties. A waiver by either party of any breach of this Agreement will not operate as a waiver of any other breach of this Agreement.

11.7 AT&T may, with Customer's consent, assign in whole or relevant part its rights and obligations under this Agreement to an AT&T Affiliate. In no other case may this Agreement be assigned without the prior written consent of the Customer (which consent will not be unreasonably withheld or delayed). In the case of any assignment, AT&T shall remain financially responsible for the performance of the assigned obligations. AT&T may subcontract to an Affiliate or a third party work to be performed under this Agreement but will remain financially responsible for the performance of such obligations. In countries where AT&T does not have an Affiliate to provide a Service, AT&T may assign its rights and obligations related to such Service to a local service provider, but AT&T will remain responsible to Customer for such obligations. In certain countries, Customer may be required to contract directly with the local service provider.

11.8 Severability. If any portion of this Agreement is found to be invalid or unenforceable or if, notwithstanding Section 11.11 (Governing Law), applicable law mandates a different interpretation or result, the remaining provisions will remain in effect and the parties will negotiate in good faith to substitute for such invalid, illegal or unenforceable provision a mutually acceptable provision consistent with the original intention of the parties.

11.9 Legal Action. Any legal action arising in connection with this Agreement must be filed within two (2) years after the cause of action accrues, or it will be deemed time-barred and waived. The parties waive any statute of limitations to the contrary.

11.10 Notices. Any required notices under this Agreement shall be in writing and shall be deemed validly delivered if made by hand (in which case delivery will be deemed to have been effected immediately), or by overnight mail (in which case delivery will be deemed to have been effected 1 business day after the date of mailing), or by first class pre-paid post (in which case delivery will be deemed to have been effected 5 days after the date of posting), or by facsimile or electronic transmission (in which case delivery will be deemed to have been effected on the day the transmission was sent). Any such notice shall be sent to the office of the recipient set forth on the cover page of this Agreement or to such other office or recipient as designated in writing from time to time.

- 11.11 Governing Law.** This Agreement will be governed by the laws of the United States Government, without regard to its conflict of law principles, unless a regulatory agency with jurisdiction over the applicable Service applies a different law. The United Nations Convention on Contracts for International Sale of Goods will not apply.
- 11.12 No Third Party Beneficiaries.** This Agreement does not provide any third party (including Users) the right to enforce it or to bring an action for any remedy, claim, liability, reimbursement or cause of action or any other right or privilege.
- 11.13 Survival.** The respective obligations of Customer and AT&T that by their nature would continue beyond the termination or expiration of this Agreement, including the obligations set forth in Section 4 (Confidential Information), Section 7 (Limitations of Liability and Disclaimers) and Section 8 (Third Party Claims), will survive such termination or expiration.
- 11.14 Agreement Language.** The language of this Agreement is English. If there is a conflict between this Agreement and any translation, the English version will take precedence.
- 11.15 Entire Agreement.** This Agreement constitutes the entire agreement between the parties with respect to its subject matter. Except as provided in Section 5.1 (Software), this Agreement supersedes all other agreements, proposals, representations, statements and understandings, whether written or oral, concerning the Services or the rights and obligations relating to the Services, and the parties disclaim any reliance thereon. This Agreement will not be modified or supplemented by any written or oral statements, proposals, representations, advertisements, service descriptions or purchase order forms not expressly set forth in this Agreement.

12. DEFINITIONS

In addition to the terms defined elsewhere, these terms will have the following meanings in this Agreement:

“Affiliate” of a party means any entity that controls, is controlled by or is under common control with such party.

“Damages” means collectively all injury, damage, liability, loss, penalty, interest and expense incurred.

Enterprise on Demand Terms and Conditions

1. Enterprise On-Demand (EOD)

- 1.1 Eligibility.** Pursuant to the terms and conditions of this contract, AT&T provides the subscribing Agency the ability to conduct EOD Management through the EOD Portal, and receive the subscribing Agency's supported service invoices through EOD. The subscribing Agency must be in compliance with the contract to be eligible for EOD. EOD is only available to the subscribing Agency and its Corporate Responsibility Users ("CRUs"). EOD is not available to Individual Responsibility Users ("IRUs").
- 1.2 EOD Service.** The Service available in connection with EOD (the "EOD Service") is either (i) EOD Wireless Data Service or (ii) EOD Wireless Data Service and EOD Basic Voice Service. The subscribing Agency may not activate EOD Basic Voice Service as a stand-alone EOD Service.

2. EOD Management.

- 2.1 EOD SIMs.** EOD requires an EOD specific SIM for each device managed through the EOD Portal.
- 2.2 Ordering SIMs.** The subscribing Agency must purchase inactive SIMs from AT&T, open market, through the Portal when ordering EOD service for an additional charge plus applicable taxes.
- 2.3 Initial Number Assignment and Subsequent Orders.** Subject to (i) the availability of SIMs and Numbers, (ii) the imposition of additional processes on AT&T by third parties in order to obtain the SIMs and/or Numbers, and (iii) the capacity of AT&T's facilities, AT&T will supply SIMs and Numbers to The subscribing Agency under normal circumstances within eight (8) weeks after AT&T's receipt of the completed Portal order.
- 2.4 Activation and Deactivation.**
- 2.4.1 Orders.** The subscribing Agency may order Activations and/or Deactivations by submitting an activation request through the Portal. Each Activation request must include the ICCID number, the proposed activation date, the qualified Plan, the Place of Primary Use, and such other information as may be required by AT&T. Each Deactivation request must include the ICCID number and such other information as may be required by AT&T. Normal activation charges apply to Activations.

Orders typically will be processed within four (4) business hours. Customers will be charged the full month's Monthly Service Charge for months in which Deactivations occur. AT&T has the right to unilaterally establish policies regarding the length of time between deactivating and reactivating the same ICCID.
- 2.4.3 Plans.** The subscribing Agency may only activate Numbers on Devices on the qualified Plans posted on the Portal. Such Plans consist of EOD Basic Voice Service Plans and EOD Wireless Data Service Plans, and any other Plan that AT&T makes available for EOD activation from time to time. AT&T may modify the list of qualified Plans posted on the Portal at any time. Such plans will remain subject to the applicable terms and conditions for the plans as specified in this Agreement.
- 2.4.3.1 EOD Basic Voice Service Plans.** A Basic Voice Service Plan may only be activated (i) as an add-on to a qualified Wireless Data Service Plan and (ii) on a Device that supports both Wireless Data Service and Voice Service. If the Wireless Data Service is deactivated, the Basic Voice Service is also automatically deactivated and the associated Number is released. Basic Voice Service and the associated Number cannot be suspended and resumed. EOD does not support certain voice plan features (including, but not limited to, Push To Talk, OfficeReach™ Enterprise Paging, AT&T® World Traveler, and Rollover® Minutes). Optional Voice Service features are subject to (i) Device compatibility limitations, (ii) EOD availability limitations, and (iii) applicable feature charges.

Prior to ordering an Activation, any applications used by the subscribing Agency in connection with EOD must pass all certification testing standards as may be established by AT&T from time to time.
- 2.4.4.2 Number of Devices.** A Number may not be associated with more than one Device at the same time, unless otherwise approved by AT&T.
- 2.4.4.3 Activation Denials.** AT&T reserves the right to deny an Activation if the corresponding Number or Device appears on AT&T's "service-deny" lists for one of a variety of reasons, including cases where the Device is stolen, has been used for fraudulent purposes, or is defective. AT&T will notify the subscribing Agency in such cases with the denial reason. AT&T is not liable to the subscribing Agency or any CRU if activation, modification, or other Service request is so denied.

- 3.5 **No Third-Party SIMs and/or Devices.** The subscribing Agency may not purchase SIMs and/or Devices for use with EOD from any source not approved by AT&T, even if the SIMs or Devices originally came from AT&T. The subscribing Agency may not use SIMs purchased from any party not authorized by AT&T in any Device to be activated on the AT&T Network. The subscribing Agency must inform AT&T of any other individuals or entities that it learns are offering SIMs alleged to be compatible with AT&T's Network and must cooperate with AT&T in any investigation regarding such SIM distribution.
- 3.6 **Return of SIMs.** Upon the expiration or termination of the Agreement, The subscribing Agency may promptly return all unused, undamaged, or new SIMs in their original packaging in increments of 500 as of the date of such expiration or termination. AT&T will refund to the subscribing Agency amounts paid for SIMs returned in such manner.
4. **Portal.** AT&T will provide the subscribing Agency with the Portal. The subscribing Agency may use the Portal in accordance with and subject to the terms and conditions of this contract. The subscribing Agency must supply all its own computer equipment, peripherals, Internet service, software and related means at its sole cost and expense. AT&T may reasonably rely on the authority and capacity of any person who executes an order on the subscribing Agency's behalf and, accordingly, AT&T may rely on the information provided through the Portal. - 6.3 **Tier-Two Technical Support.** AT&T will provide Tier-Two support to the subscribing Agency in connection with EOD. The subscribing Agency will cooperate with AT&T in any trouble-shooting that may be required to maintain the efficient operation of the Service and the Network. AT&T will not provide Tier-Two support directly to the subscribing Agency's mobile device end users. The subscribing Agency may escalate Tier-Two issues to AT&T only after clear identification and isolation of the issue with a reasonable determination that the error lies within AT&T's control.
7. **Default.** If the subscribing Agency breaches any terms or conditions of this contract, then the subscribing Agency will be in default and AT&T may:

AT&T Control Center Terms and Conditions

SECTION 1. Description of Service. AT&T Control Center powered by Jasper (the "Service") provides Customer with Machine-to-Machine Wireless Services, as stated in the AT&T Control Center Service Description, as incorporated in this AT&T Mobility IT70 Schedule. The Service is not to be used for international roaming, except on a rare and incidental basis. With respect to any international roaming that may occur, Customer shall not characterize the services or devices it provides as involving the sale, resale or provision of wireless services, advertise that it is selling or providing wireless service, or charge third parties separately for wireless service. AT&T Control Center services are subject to Jasper Technology Inc.'s (formerly known as Jasper Wireless, Inc.) Terms of Use and Privacy Policy, as incorporated in this AT&T Mobility IT70 Schedule, which are a separate, supplemental agreement between Jasper and Customer, and do not modify or amend the terms and conditions between AT&T and Customer. Provision of the Control Center to Customer is subject to continued availability to AT&T of the Control Center from Jasper. AT&T may withdraw availability of the Control Center on six (6) months advance written notice, and in such event AT&T will continue to provide AT&T wireless services to deployed devices and SIMs using alternative service delivery platforms and at the same prices. All Devices activated under this Agreement must contain a radio module that is compatible with, and will be activated on, AT&T's LTE Network. AT&T is not obligated to maintain any particular wireless technology, and AT&T may reduce or terminate wireless Network technologies at any time in its sole discretion. AT&T will provide Customer twelve (12) months prior written notice of its intention to terminate a significant wireless technology on a nationwide basis, or prohibit future activations or reactivations of SIMs using a particular wireless technology on a nationwide basis. Services provided by roaming carrier Networks may be reduced or terminated on a different schedule with or without prior notice.

Section 2. Service Plans. For each active Control Center SIM, Customer may select any qualified Service Plans, as incorporated in this AT&T Mobility IT70 Schedule. Mid-cycle changes of rate plans, correctly submitted via application program interface calls ("API Calls") or the Control Center platform commands for completion at least 24 hours prior to the closing date of the current billing cycle, shall be set as effective at the beginning of the billing cycle and will be applied in the same billing cycle in its entirety on a non prorated basis for data plan rating purposes.

Section 3: Statement Regarding Section 508. The AT&T Control Center management platform is compliant to Section 508 requirements with some exceptions. The management console application may not be accessible to all users with disabilities with the same effectiveness as non-disabled users as described in Section 508. For this reason, Agency management should carefully review the Product Assessment report of the AT&T Control Center before purchasing solutions that includes this platform for Agency use.

Section 4: VPN Service Terms. Customer may either order routers and VPN connectivity from AT&T or provide VPN connectivity itself. If Customer elects to order VPN service from AT&T for use with the Control Center, two AT&T-owned VPN routers will be provided and pre-configured to support AT&T Control Center Service and these routers will be used only for AT&T Control Center. Customer is responsible for any liability, loss or theft of, to or relating the routers and will return the routers in good condition or reimburse AT&T for their cost at the conclusion of the term. Customer may also provide its own VPN service by supplying two VPN routers to work with AT&T's data centers. Routers must meet AT&T specifications and must be configured according to AT&T requirements. Additional charges apply for VPN service.

Any Devices used by a Customer in connection with M2MWS must pass all certification testing standards as may be established by AT&T from time-to-time, as well as any applicable industry or FCC requirements for use on wireless networks.

Any Applications used by a Customer in connection with M2MWS which may affect network service and connectivity may be subject to evaluation by AT&T from time-to-time to verify that they are and remain Acceptable Applications. Devices may be supplied by Customer or may be purchased from AT&T. Customer may permit its End Users to utilize the Service but shall remain responsible for the Service including all payment obligations. The Service is provided to Customer for Customer's use and not for resale. Customer shall not characterize its transactions with its End Users as involving the sale or resale of telecommunications service, describe or advertise that it is selling telecommunications service, or charge its customers expressly for telecommunications service. Notwithstanding the foregoing, Customer may charge its End Users for Customer's services that incorporate all or a portion of the Service, provided such charges are not based upon measurements of wireless Service use.

SD-1.2. SIMS

Customers must purchase all SIMs for use with M2MWS from AT&T or a third party provider of SIMs approved by AT&T in writing. SIMs purchased from an approved third party provider must be certified for use on the AT&T network.

Customers may only purchase from AT&T a quantity of SIMs that may reasonably be used for Activations. AT&T may limit or cancel sales of SIMs to a Customer if an unreasonably high percentage of SIMs remains inactive. AT&T may establish limits on quantities of SIMs shipped to a Customer within a time interval which could significantly impact other customers. Customers may purchase SIMs from AT&T in minimum quantities of fifty (50).

Customers may not program, re-program, or tamper with a SIM in any manner. Customers may not insert SIMs into Devices bearing an AT&T mark, or Devices that were purchased from AT&T that have been packaged with an AT&T SIM. Further, Customers may not insert SIMs into anything other than an Approved Device or sell SIMs separate from an Approved Device.

Customers may order Activations and/or Deactivations by submitting a request to AT&T through Control Center. Each Activation request must include the ICCID number, the proposed activation date, the qualified Plan, the PPU, and such other information as AT&T requires. Activation charges may apply to Activations. Each Deactivation request must include the ICCID number and such other information as AT&T may require.

AT&T will process Activations and Deactivations as soon as practicable following receipt of properly submitted orders. AT&T may impose restrictions, in its sole discretion, regarding the length of time between deactivating and reactivating the same ICCID.

SD-1.3. Applications and Devices

Customers are responsible for all Devices assigned to them under the Customer's account. All Devices used by Customers must be compatible with, and not interfere with, any AT&T services and must comply with all applicable laws, rules, and regulations. Customers are responsible for the purchase and maintenance of any additional hardware or software required to use M2MWS. AT&T may periodically program Customers' Devices remotely with new system settings.

All Devices used in connection with M2MWS must be approved by AT&T for use on its Network. Once AT&T has evaluated and approved a Device, it is then classified as an Approved Device. A current list of Approved Devices can be found on AT&T's website (developer.att.com), as it may be changed from time-to-time; additionally, AT&T may specify additional Approved Devices in the Service Agreement.

Customer Applications must be Acceptable Applications, i.e., be compatible with the efficient operation of the AT&T Network and not interfere with the Services of other AT&T customers, result in inefficient or excessive use of the AT&T Network or the networks of its Roaming Carriers, or be inconsistent with AT&T network policies and practices. AT&T may, at its option, require Customers to provide information about how their Applications interact with the AT&T network, and may limit, restrict or prohibit use of Applications which fail to meet the requirements of this paragraph.

Devices purchased from AT&T for use on AT&T's system are designed for use exclusively on AT&T's Network unless explicitly documented by AT&T for cross-carrier use. Customers may not make any modifications to the Device or programming to enable the Device to operate on any other system. AT&T may, at its sole and absolute discretion, modify the programming to enable the Device to operate on other systems.

Customers are responsible for compliance with laws and regulations governing the export, import, use, and disposal of Customer Devices containing SIMs. This obligation includes (a) compliance with rules on data privacy, data retention, encryption, chemical substances and hazardous materials; (b) the duty to obtain and remain in compliance with licenses and registrations; and (c) any required reporting to government agencies.

SD-1.4. Use of M2MWS

SD-1.4.1. Establishment of Service

Customers must connect to the AT&T Network in order to receive Service. Before a Customer may use certain AT&T online activation, enrollment, configuration and/or support services, an authorized representative of the Customer must register with AT&T and create a login identification ("ID") and password. Use of this login ID and password will enable Customers and/or their employees and agents to make certain changes to the Customer's account(s). Customers are solely responsible for maintaining adequate security and control of any and all login IDs, passwords, or any other codes that they create or that AT&T issues to them for the purpose of giving them access to any activation, enrollment, configuration and support services. AT&T is entitled to rely on information it receives from anyone using those login IDs, passwords and other codes and may assume that all such information was submitted by a Customer or on its behalf.

SD-1.4.2. Modification or Termination of Service

If a Customer desires to modify or terminate any Service or SIM, or to change Service Plans, the Customer must advise AT&T through use of AT&T's Service Delivery Platforms. Changes will become effective as determined by AT&T, based on dates requested by Customer.

SD-1.4.3. Support and Trouble-shooting

Customers must maintain and staff a centralized information help-desk or a dedicated internal care group to manage support for M2M Service. Some products may be offered to customers and a phone support model will be followed. Customers must cooperate with AT&T in any trouble-shooting that may be required to maintain the efficient operation of AT&T Mobile Services and AT&T's wireless network. Customers may escalate issues to AT&T only after there has been a clear identification and isolation of the issue and a reasonable determination that the error lies within AT&T's control.

Support for M2M Service includes web portal trouble ticket notices and phone support on a 24x7x365 basis. There is no separate charge for Support. AT&T does not provide customer support for non-AT&T products and services.

AT&T will provide network monitoring support, technical assistance support and trouble-shooting support only to Customers, and not directly to End Users. Customers must cooperate with AT&T in any trouble-shooting of Equipment or the Network as required to maintain the efficient operation of a Service.

SD-1.4.4. Roaming Service

AT&T will provide the same access to roaming capabilities (including "in-area" roaming where available) that is made available by AT&T to other similarly situated Customers provided that equipment with similar technical capabilities and programming is used by the Customer or its End Users. The availability of roaming services, and the charges for those services, are dependent in part on the type of equipment used by the Customer for its End Users and the programming of that equipment. Roaming services cannot be used in violation of AT&T's agreements with its roaming providers. The quality, availability, and characteristics of roaming services are under the control of the provider of the roaming service, and may be changed, modified, withdrawn or terminated as determined by the roaming provider.

If AT&T, or if another entity with whom AT&T has a roaming agreement, discovers or suspects abuse or fraud with respect to certain numbers, then roaming privileges may be suspended with respect to such numbers.

To the extent AT&T provides Customers with access to roaming capabilities, use of such capabilities is deemed to be a service provided hereunder, and the use of such roaming by Customer or End Users is governed by the provisions herein.

SD-1.4.5. Security Requirements for External Applications Gateway

The AT&T External Application Gateway or any successor platform ("EAG") enables connectivity for the delivery of content and applications by Customer through the AT&T wireless data networks. EAG supports the delivery of content and applications through a variety of delivery methods, including short messaging service ("SMS"), multi-media messaging service ("MMS"), device capabilities service ("DC"), and terminal location service ("TL" or "LBS"). Should Customer use EAG in connection with M2MWS, Customer shall: (1) have and use a documented process to remediate security vulnerabilities in Customer's Information Resources and apply appropriate security patches promptly; (2) assign security administration responsibilities for configuring host operating systems to specific individuals; (3) ensure that its information security staff has reasonable and necessary experience in information and network security; (4) ensure that all of Customer's Information Resources are and

remain “hardened” including, but not limited to, removing or disabling unused network and other services and installing a system firewall or similar technology; (5) change all default account names and/or default passwords on Customer’s Information Resources; (6) enforce the rule of least privilege (i.e. limiting access to only the commands and Information Resources necessary to perform authorized functions according to one’s job function); (7) In environments where antivirus software is commercially available and to the extent practicable, have current antivirus software installed and running to scan for and promptly remove or quarantine viruses and other malware; (8) promptly notify AT&T whenever there is unauthorized access to or other security breach of Customer’s Information Resources in connection with M2MWS by contacting the Customer’s contact within AT&T for the Services; (9) use only the mutually agreed upon facilities and connection methodologies to connect to the EAG; and (10) implement a firewall or other security gateway and maintain logs of all sessions of connectivity to the EAG. These logs must include sufficiently detailed information to identify the end user or application, origination IP address, destination IP address, ports/service protocols used and duration of access. These logs must be retained for a minimum of ninety (90) days. The term “Information Resources” for purposes of this section means systems, applications, networks, network elements, and other computing and information storage devices used by Customer in connection with EAG.

SD-2. Charges, Billing and Payments

Customers may change to another available Service Plan at any time provided they pay any applicable early cancellation or change fee. The change will normally be made within twenty- four business hours of AT&T’s receipt of the request from a Customer (including changes submitted through a Service Delivery Platform) and will normally become effective on the first day of the following month’s billing cycle.

Roaming charges may apply when a Device is used outside of the AT&T Network. Roaming rates may be separate from on-network rates. All international calling is roaming; some domestic calling is roaming. Lagging data records will be applied the day they are received by AT&T and not the date used.

SD-3. AT&T Control Center Powered by Jasper (“Control Center Service”)

SD-3.1. Control Center Service – General

Control Center Service is a “software as a service” (“SaaS”) offering. It provides Customers a web-based interface that enables them to manage Rate Plans, perform diagnostics, receive usage alerts, perform billing and maintenance, and order, activate, monitor and control certain services they obtain from AT&T. Control Center consists of the SaaS capability and the associated systems by which AT&T will make wireless services and Control Center Service available to Customers for their use.

Customers are responsible for providing all workstations, data services and network connectivity required to access and use Control Center Service and its SaaS capability. Customers are also responsible for complying with the security, registration, access, and use requirements imposed by AT&T or Jasper relating to use of Control Center Service and SaaS.

SD-3.2. Available Control Center Service Plans

There are two types of Control Center Service Plans: (1) Control Center Wireless Data Service Plans, and (2) Control Center Wireless Data Service with Voice Dispatch Service (“CC/VDS”). For each active SIM on Control Center Service, a Customer may select any of the Control Center Service Plans available in the applicable Service Agreement. If a Service Plan requires a term commitment, the fee for early cancellation of service on that Plan will be specified in the Service Plan description. The fee will be applied in a billing cycle only to the extent that the number of deactivations on those Plans exceeds the number of activations on those Plans during that billing cycle. No other Service Plans are eligible for service hereunder.

Customers may only activate Numbers on Devices on the qualified Control Center Plans specified in their Service Agreement, or if no Plans are specified in the Service Agreement, by choosing a qualified Plan posted on the Portal. Such Plans consist of Control Center Wireless Data Service Plans and Control Center Wireless Data Service with Voice Dispatch Service Plans and any other Plan(s) that AT&T makes available for Control Center Service activation from time-to-time. AT&T may modify the list of qualified Plans posted on the Portal at any time. If 25% or more of the data usage in any three month period is used off the AT&T owned and operated domestic data network, AT&T reserves the right, at its option, with prior written notice, to terminate the Control Center Service or move all or a portion of Customer’s Numbers to another data plan for which they may otherwise qualify. There is no per SIM or other change fee for changing between Service Plan.

SD-3.3. Control Center Wireless Data Service

Control Center Wireless Data Service permits the transmission of specified amounts of data each month for a stated price. Control Center Wireless Data Service does not support certain features (including, but not limited to, Enterprise Paging and AT&T Wi-Fi service). Optional Wireless Data Service features are subject to (i) Device compatibility limitations, (ii) Control Center availability limitations, and (iii) applicable feature charges. Control Center Wireless Data Service and the associated Number cannot be suspended and resumed. No voice service is available with Control Center Wireless Data Service. Control Center Wireless Data Service Plans include data, messaging, and roaming services.

SD-3.4. Messaging Services with Control Center

SD-3.4.1. Messaging Services — General

Customer must interconnect with AT&T's dedicated Control Center data center for Messaging Service using Control Center using an SMPP Bind, or a Control Center API. NSG is not available with Control Center. An SMPP Bind used for EOD cannot be used for Control Center, and a separate SMPP Bind is necessary. Customer must use the Messaging Service only to transmit Messages through the Messaging Application on its own or another's behalf. Customer is responsible for all acts or omissions of its End Users or others using its Messaging Service. Messaging activity will only be between a computer owned and/or operated by Customer ("Host Computer") and an Approved Device using approved Short Codes (either generic or vanity). API supports the delivery of content and applications through short messaging service ("SMS").

Customer's Routing Number must be populated as the source address on mobile terminated Messages for such Messages to be delivered. Customer may utilize more than one Routing Number subject to Company's reasonable written approval. In addition, subject to Company's written approval, Customer may obtain the use of "vanity" Short Code[s] (e.g., specific numbers requested by Customer).

Upon request, Customer will on a quarterly basis provide Company with a non-binding twelve month rolling projection of its anticipated Messaging Service demand in such form as requested by Company. Upon request, Customer will also provide Company with monthly Messaging reports identifying such information as requested by Company, which may include but not be limited to the following information by day and by Messaging Application for the subject month: unique End Users, mobile-originated Messages ("MO's"), mobile-terminated Messages ("MT's"), transactions (if appropriate), most active MSISDNs, and most active cities. In addition, Customer will supply such additional reports as reasonably requested by Company.

SD-3.4.2. Messaging Applications

Messaging Applications for SMPP Gateways consist of Messaging Services pursuant to which Customer will establish a connection to the SMPP Gateway and will deliver Messages from such SMPP Gateway (a) from Customer to End Users Devices, or (b) from End User Devices to Customer. Customer must identify whether a connection to the SMPP Gateway will allow either

- a) only sending of messages to End Users ("One Way Connection"), or b) both the sending and receiving of messages to and from End Users ("Two Way Connection").

Messaging Applications for API consist of Messaging Services pursuant to which Customer will deliver native SMPP Messages or web based APIs for Messaging. Customer must meet the technical and integration requirements set forth in the Company protocol-specific guides and Company connectivity guides as modified from time-to-time (collectively, "API's").

Customer must deliver notice of desire to test a Messaging Application(s) for either SMPP or Control Center API at least ninety (90) days in advance of proposed launch and deliver the computer code for the Messaging Application(s) at least sixty (60) days prior to proposed launch. Company will conduct end-to-end testing (including opt-out functionality and end-to- User flows) of the fully integrated and documented Messaging Applications. Customer will use commercially reasonable efforts to correct any defects identified by Company during testing within thirty six (36) hours and Customer will promptly re-submit for testing. Additional Messaging Applications must be submitted to Company for end-to-end testing at least thirty (30) days prior to their proposed launch. If Customer desires to make a material modification to any Messaging Application, it may do so upon written notice to Company and testing and re- certification of the Messaging Application at least thirty (30) days prior to proposed launch. Company may, in its sole discretion, require re-testing or re-certification of an Application if any proposed modification will result in a change to the way Customer must connect to Company's Network. Customer will not: (a) provide ring tones, graphics, true tones or any other non-text content through any Messaging Application and/or provide content for use by consumer End Users. Customer will, at its sole expense, provide and maintain its Messaging Applications.

SD-3.4.3. Controls and Delivery

For both SMPP and Control Center API, the time it takes to transfer Messages to an End User or Device, whether the intended recipient receives the Message, and the time it takes a Message to be received from a Device to an Acceptable Application is dependent upon the conditions prevailing at the time of submission, including, but not limited to, whether: (i) the recipient has compatible equipment; (ii) the message is sent to the correct ten-digit telephone number, network entity identifier, or such other data (including the domain of the Messaging Service) and or messaging number (s); (iii) the device is turned on and within the area covered by the Messaging Service; (iv) the device has memory slots available for new Messages; (v) Network architecture; and (vi) the intended recipient is an End User. For these reasons and because of capacity and technical constraints, the timing and quality of the Messaging Service may vary and is not guaranteed. Delays may be encountered and Company will not be responsible for such service degradation and will not notify Customer of any delay in delivery of Messages. Typically Company will make efforts to deliver the Message for a maximum of 72 hours. Any Messages not delivered within 72 hours will be discarded by the Network without notice to Customer. Company may, in its sole discretion, increase or decrease the number of hours after which Messages will be discarded.

The delivery of Messages will be subject to Company controls concerning the maximum number of Messages that can be sent by Customer during a period of time ("Throttling Rate"). If Customer receives an error code from Company indicating that Customer has exceeded the Throttling Rate, Customer must stop sending Messages for fifteen (15) seconds then resume at a level below the Throttling Rate. Customer must re-send any Messages that exceeded the Throttling Rate in order for such Messages to be delivered. Customer may be limited in the number of

unacknowledged Messages in the queue for transmission ("Flow Control Rate"). The Messages in the queue must be acknowledged before additional Messages will be sent. Company may change either the Flow Control Rate or the Throttling Rate from time-to-time in its sole discretion on notice to Customer.

As specifically provided in the API's, Messages delivered may be rejected or altered by Company if the size of the Messages (or number of characters included in the Messages) exceeds AT&T's written standards or if Messages otherwise violate AT&T's delivery standards.

If a Customer has multiple SMPP Binds to Company, the Customer must balance all Messages over all of its available Binds so that approximately equal numbers of Messages are carried over each Bind.

Customer is required to receive Company's prior approval to establish delivery receipt. If approved, when a message is delivered, expired, or rejected, Company will return a delivery receipt to Customer. in a PDU/packet data unit (deliver_sm).

SD-3.4.4. Message Content

Company reserves the right to refuse to transmit Messages that violate the law, a governmental order, Company's privacy policy, or other network or subscriber protective measures. Customer

is solely responsible for the content of Messages that it generates and sends to End Users through the Messaging Service. Unless Company notifies Customer otherwise in writing, text messages are limited to 160 characters and characters in excess of such length will be silently discarded. Customer will comply with all applicable laws, rules, and regulations while using the Messaging Service and not transmit any communication that would violate any federal, state, or local law, court order, or regulation. Customer will cooperate with Company and/or governmental authorities in investigations alleging a violation of any law, rule, or regulation. Customer will comply with applicable international, import, and export laws.

With respect to Customer's Messages, Customer will not (a) deliver to Company for transmission or disseminate material that is harassing, defamatory, libelous, abusive, threatening, obscene, coercive, or objectionable, including material that is false, misleading, or inaccurate; (b) deliver to Company for transmission or disseminate material that violates the rights of any person or company protected by copyright, trade secret patent or other intellectual property or similar laws or regulations; (c) use the Service to transmit or disseminate unsolicited material, including without limitation "junk mail" or "unsolicited bulk e-mail," or other advertising material to persons or entities that have not specifically agreed to receive Messages from Customer; (d) use the Messaging Service to introduce malicious programs into End Users' equipment or Company's Network, SMPP Gateway, API, or server including viruses, worms, Trojan horses, e-mail bombs, cancel bots, or other computer programming routines that are intended to damage, interfere with, intercept or expropriate any system, data, or personal information, including executing any form of network monitoring that will intercept data not expressly approved for use; or (e) deliver Messages to any Device except an End Users' Device. With respect to Messages created and sent by End Users, Customer will require agreement from End Users to content restrictions similar in substance to those contained in this Section. Additionally, Customer agrees that all Messages sent through the SMPP Gateway will only be in ASCII format. Binary messages are prohibited from transmission across Company's Network, unless specifically authorized by Company in writing. Unauthorized binary messages, as well as any Messages which violate this Service Description or the Agreement, will be discarded by Company without notice to Customer or End User.

Messages may be transmitted in an unencrypted format and Company does not guarantee the privacy of any message. To the extent permitted by law, Company has the right to intercept and disclose any transmissions over its facilities in order to protect its rights or property, including without limitation, to protect the efficient operation of its network or to comply with governmental authorities. Customer is solely responsible for the content of Messages it generates and sends through the Messaging Service, including Messages generated by Customer's content sources. Customer recognizes and agrees that Company is a passive conduit in transmitting and storing Messages. Company may reject or fail to deliver Messages that include digital rights management identification or tools that are not supported by Company.

Company at any time may require Customer to store and transport certain sensitive customer information in an encrypted form ("SubID/MSISDN Policy"). Company will provide Customer with written notice of such SubID/MSISDN Policy and Customer will have at least sixty (60) days to implement such policy. If Customer determines that it is unable to comply with the SubID/MSISDN Policy it may terminate its Service without penalty on at least thirty (30) days' written notice, which must be delivered to AT&T within sixty (60) days of AT&T's provision of notice of the SubID/MSISDN Policy.

Except with Company's written consent, Customer may not send any Messages, content or advertisements of any kind over the SMPP Gateway or API (a) outside the scope of, or through any means other than, the Messaging Applications, or (b) to any equipment other than End User Devices operating on Company's wireless network or the network of a carrier with which Company has a roaming agreement that would cover the Messages.

SD-3.4.5. Interconnection using SMPP

Prior to integration of the Messaging Application with the SMPP Gateway, Customer must complete and submit to Company the information or other documentation requested by Company in connection with establishing this connection. Customer must provide Company with at least 30 business days to test Customer's connection to the Network. Customers using SMPP must connect to Company's network in order to receive

Messaging Service. SMPP Connectivity must be achieved through a virtual private connection (VPN.) Customer must comply with all reasonable security requirements and procedures established by Company and provided to Customer with respect to the Persistent Connection and must use an industry standard virus protection program on all networks that Customer maintains that may be accessed by the Persistent Connection. The Persistent Connection will be maintained for as long as necessary (but in any case shall terminate immediately upon termination or expiration of the Agreement). Company shall provide Customer with prompt written notice of any suspension or interruption of the Persistent Connection as well as (i) an explanation of the same, and (ii) an estimate when the Persistent Connection will be restored. In the event of termination or suspension of the Persistent Connection, Customer will not be responsible for performance of any obligations pursuant to this Addendum that cannot reasonably be performed without the Persistent Connection. If Company suspends or terminates the Persistent Connection for longer than 3 days, Customer, within 2 days of such date, may, but is not obligated to, provide written notice to Company of its intention to terminate the Agreement within three days. Customer will only access the SMPP Gateway to (a) transmit or disseminate Messages to End Users that have specifically authorized Customer to send the quantity and type of Message(s) Customer is transmitting, or (b) receive Messages from End Users. Messages cannot be sent from one End User directly to another End User through the SMPP gateway.

SD-3.4.6. Interconnection using API

Customer will obtain and pay for all data networking hardware, software and data links required for Control Center API interconnection on Customer's end to connect its network to the Messaging Service. Any such interconnection or integration must (a) comply with AT&T Control Center API requirements and (b) pass any end-to-end testing by AT&T.

Customer will be responsible for maintaining security for connectivity between Customer and the AT&T network in accordance with the AT&T security requirements. If, despite commercially reasonable efforts, Customer does not promptly implement AT&T security requirements, including any revisions or updates to such requirements, AT&T may terminate Customer's Messaging Service by written notice to Customer.

SD-3.5. Control Center Features

The methods of providing Control Center features and the scope and extent thereof shall be determined by AT&T in its sole discretion. The Control Center features are:

- Automated and real-time provisioning, including rules-driven provisioning, auto provisioning, and overage controls.
- Flexible rating and billing administration, using Customer selectable rate plans (as appropriate), and invoicing summary and detailed information.
- Real-time diagnostics, including SIM troubleshooting and real-time connection status and history
- Analytics and reporting, including alerts for provisioning or usage, provisioning status reports, billing and usage information, historical usage reports, and invoicing billing details

SD-3.6. Optional Virtual Private Network ("VPN") Services for Control Center

The following terms and conditions apply to optional VPN Services that may be obtained in connection with a Customer's use of Control Center Service. If a Customer intends to use short message peer-to-peer ("SMPP") protocol, it must implement a VPN for SMPP encrypted traffic.

SD-3.6.1. AT&T CPE (Customer Premises Equipment) VPN Services Terms

In connection with optional AT&T CPE VPN Service for use with Control Center Service, Jasper will pre-configure and AT&T will provide two AT&T-owned VPN routers ("AT&T Routers") to work with the Jasper data centers that support Control Center Service. Customers may only use those AT&T Routers to facilitate their use of Control Center Service and may not use the AT&T Routers for any other purpose. The AT&T Routers are managed remotely and permit only AT&T or its vendor to have access to their root administration. These routers will be supported through their manufacturer at AT&T's discretion. Prices for Optional AT&T CPE VPN Services are stated below.

Upon the termination or expiration of Control Center Service, Customers must return the AT&T Routers in good condition and repair (less ordinary wear and tear) at their expense or promptly reimburse AT&T for their value as determined by AT&T.

SD-3.6.2. COAM (Customer Owned and Maintained) VPN Service Terms

Customers electing to obtain optional COAM VPN Service to facilitate the use of Control Center Service must supply two VPN routers ("Customer Routers") to work with AT&T's data centers. Customer Routers must be approved by AT&T.

Customer Routers must be configured according to AT&T's specification for connection to the Control Center. If Customer Routers must be shipped to an AT&T location for configuration, the Customer must pay reasonable shipping and handling costs.

Customer Routers may only be used to facilitate the Customer's use of the Control Center Services and may not be used for any other purpose. If a Customer does not incorporate the Customer Routers into its system facilities (i.e., provide appropriate space, power and connectivity; assign address space and point to a new route) solely for use with Control Center Services within 60 days of the Effective Date, AT&T reserves the right to withdraw its support for optional COAM VPN Service.

Customers must manage Customer Routers. Customers will have sole access to the root administration of these routers consistent with AT&T's specifications and will provide all support for these routers. In particular, Customers are solely responsible for maintaining software updates, configuration, and availability of the routers and associated network, including network monitoring on the routers. Customer is solely responsible for any loss or theft of routers or information from routers.

Control Center Pricing

P-1. Control Center Data Usage

Control Center Pricing is Individual Case Basis. Data usage charges will apply to data transmissions, text messages, downloadables, alerts, and any other information sent through the Network using Control Center and associated with a Device. Those charges are set forth in the applicable Service Plan. Unless stated otherwise, all data will be calculated and billed in kilobytes. AT&T calculates a full kilobyte of data transport for every fraction of the last kilobyte of data transport used on each data session.

Data transmissions may be involuntarily interrupted ("dropped") for a variety of reasons beyond AT&T's control. Dropped transmissions will be billed as any other transmission. In addition, AT&T may try to re-send a dropped transmission, which will result in additional charges. If a Customer has a problem with dropped transmissions, the Customer should call the AT&T support service line. If AT&T believes a credit is appropriate, it may reduce the charges accordingly.

P-2. Control Center Features

Feature charges (if any) will be billed on a monthly basis for any billing cycle during which the billable feature is activated or deactivated. AT&T may, in its discretion, limit the number of features and promotions that can be assigned to a SIM.

P-3. Control Center Wireless Data Service Plan Pricing Structure

US Government. If you are a US Government User there are modified/additional terms that apply to you; as reproduced here.

US Government Terms of Service

If you are a United States government user or otherwise accessing or using any Mapbox service in a U.S. government capacity, this Amendment applies to you. If you aren't, go check out our standard Terms of Service.

This Amendment is an agreement between Mapbox, Inc. ("Mapbox") and U.S. Government users, and applies solely to the U.S. Government users, account holders, and subscribers who use or access the Services on behalf of a U.S. Government agency ("you"). It applies only to Mapbox users in their capacity as government or public entities or in their capacity as employees of a government or public entity.

Federal agencies, because of their status as U.S. Government entities, are required, when entering into agreements with other parties, to follow applicable federal laws and regulations, including those related to ethics; privacy and security; accessibility; limitations on indemnification; fiscal law constraints; advertising and endorsements; freedom of information; document retention; and governing law and dispute resolution forum. Mapbox and you (together, the "Parties") agree that modifications to Mapbox's standard Terms of Service, are appropriate to accommodate your legal status, your public (in contrast to private) mission, and other special circumstances.

Accordingly, the TOS is hereby modified by this Amendment to allow for your use of the Mapbox Site.

A. Indemnification: All indemnification, liability and damages provisions of the TOS are hereby waived. Liability of Agency for any breach of the TOS or this Agreement, or any claim arising from the TOS or this Agreement, shall be determined under the Federal Tort Claims Act, the Contract Disputes Act, or other governing authority. Liability of Mapbox for any breach of the TOS or this Agreement, or any claim arising from the TOS or this Agreement, shall be determined by applicable federal law. In any event, neither party shall be liable for consequential damages. The claim period within which a cause of action must be commenced by either party will be governed by federal law.

B. Governing law and jurisdiction: The TOS and this Amendment shall be governed, interpreted and enforced in accordance with the federal laws of the United States of America.

C. Limitation of liability: The Parties agree that nothing in the Warranty or Limitation of Liability provisions in the TOS in any way grants Mapbox a waiver from, release of, or limitation of liability pertaining to, any past, current or future violation of federal law.

E. No endorsement: Mapbox agrees that your seals, trademarks, logos, service marks, trade names, and the fact that you use the software, services, maps, and other content of the Mapbox Site shall not be used by Mapbox in such a manner as to state or imply that Mapbox's products or services are endorsed, sponsored or recommended by you or by any other entity of the Federal Government, or are considered by these federal entities as superior to any other company's products or services. Mapbox agrees not to display any Agency or government seal or logo on the Mapbox homepage or elsewhere on the Mapbox Site, unless permission to do has been granted by the Agency or by other relevant federal government authority. Mapbox may list the Agency's name in a publicly available user list so long as the name is not displayed in a more prominent fashion than that of any other third party name, and reference your Agency as a Mapbox user.

F. No business relationship created: The Parties are independent entities and nothing in the TOS or this Amendment creates an agency, partnership, joint venture, or employer/employee relationship.

G. Fee based services: The Parties understand that fee-based services are categorically different than free products, and are subject to federal procurement rules and processes. Before you decide to enter into a premium or enterprise subscription, or any other fee-based service that Mapbox or alternative providers may offer now or in the future, you agree to determine your Agency has a need for those additional services for a fee, to consider the subscription's value in comparison with comparable services available elsewhere, to determine that Agency funds are available for payment, to properly use the Government Purchase Card if that Card is used as the payment method, to review any then applicable TOS for conformance to federal procurement law, and in all other respects to follow applicable federal acquisition laws, regulations, and agency guidelines when initiating that separate action.

H. Assignment: Neither party may assign its obligations under this Amendment to any third party without prior written consent of the other.

I. Precedence; Further Amendment; Termination: If there is any conflict between this Amendment and the TOS, or between this Amendment and other rules or policies on the Mapbox Site, this Amendment shall prevail. This Amendment may be further amended only upon written agreement executed by both Parties. You may terminate this Amendment at any time. Mapbox may terminate this Amendment on 30 days written notice.

J. Posting and availability of this Amendment: The Parties agree this Amendment contains no confidential or proprietary information, and you may release it to the public upon request and to other agencies interested in using the Mapbox Site.

K. Security: Mapbox will, in good faith, exercise due diligence using generally accepted commercial business practices for IT security, to ensure that systems are operated and maintained in a secure manner, and that management, operational and technical controls will be employed to ensure security of systems and data. Recognizing the changing nature of the Internet, Mapbox will continuously work with users to ensure that its products and services meet users' requirements for the security of systems and data.

L. Title and Intellectual Property Rights: To the extent permitted under Federal law, all rights, title and interest to any and all work produced and created by User pursuant to or in connection with the use of the Mapbox Site shall vest in the User. Ownership or possession of such rights, title and interest shall not be affected by any alleged or actual breach of the TOS or this Amendment. Under no circumstances may Mapbox claim a right, title or interest in Content that is in the public domain.

M. Permanent Geocoding API: Use of the API is restricted in accordance with the LIMITED or RESTRICTED rights as described in any applicable DFARS, FAR. In case of conflict between any of the FAR and/or DFARS that may apply to the API, the construction that provides greater limitations on the Government's rights shall control. For purposes of any public disclosure provision under any federal, state, or local law, it is agreed that the databases powering the API and any geocoding results derived from the API are trade secrets and proprietary commercial products and not subject to disclosure.

Additional Items for Discussion and Possible Inclusion in this Agreement: Mapbox understands current federal law, regulation and policy may affect your use of Mapbox products and services in ways not addressed in the list of clauses above. Much depends on the nature of the products and services offered by Mapbox (which may change from time to time), and how you intend to use those services (which also may change). Among the topics the Parties may need to discuss, and which may lead to the insertion of additional clauses in this Agreement, are Privacy and Accessibility.

Google Terms of Service

Last modified: April 14, 2014 ([view archived versions](#))

Welcome to Google!

Thanks for using our products and services ("Services"). The Services are provided by Google Inc. ("Google"), located at 1600 Amphitheatre Parkway, Mountain View, CA 94043, United States.

By using our Services, you are agreeing to these terms. Please read them carefully.

Our Services are very diverse, so sometimes additional terms or product requirements (including age requirements) may apply. Additional terms will be available with the relevant Services, and those additional terms become part of your agreement with us if you use those Services.

Using our Services

You must follow any policies made available to you within the Services.

Don't misuse our Services. For example, don't interfere with our Services or try to access them using a method other than the interface and the instructions that we provide. You may use our Services only as permitted by law, including applicable export and re-export control laws and regulations. We may suspend or stop providing our Services to you if you do not comply with our terms or policies or if we are investigating suspected misconduct.

Using our Services does not give you ownership of any intellectual property rights in our Services or the content you access. You may not use content from our Services unless you obtain permission from its owner or are otherwise permitted by law. These terms do not grant you the right to use any branding or logos used in our Services. Don't remove, obscure, or alter any legal notices displayed in or along with our Services.

Our Services display some content that is not Google's. This content is the sole responsibility of the entity that makes it available. We may review content to determine whether it is illegal or violates our policies, and we may remove or refuse to display content that we reasonably believe violates our policies or the law. But that does not necessarily mean that we review content, so please don't assume that we do.

In connection with your use of the Services, we may send you service announcements, administrative messages, and other information. You may opt out of some of those communications.

Some of our Services are available on mobile devices. Do not use such Services in a way that distracts you and prevents you from obeying traffic or safety laws.

Your Google Account

You may need a Google Account in order to use some of our Services. You may create your own Google Account, or your Google Account may be assigned to you by an administrator, such as your employer or educational institution. If you are using a Google Account assigned to you by an administrator, different or additional terms may apply and your administrator may be able to access or disable your account.

To protect your Google Account, keep your password confidential. You are responsible for the activity that happens on or through your Google Account. Try not to reuse your Google Account password on third-party applications. If you learn of any unauthorized use of your password or Google Account, follow these instructions.

Privacy and Copyright Protection

Google's privacy policies explain how we treat your personal data and protect your privacy when you use our Services. By using our Services, you agree that Google can use such data in accordance with our privacy policies.

We respond to notices of alleged copyright infringement and terminate accounts of repeat infringers according to the process set out in the U.S. Digital Millennium Copyright Act.

We provide information to help copyright holders manage their intellectual property online. If you think somebody is violating your copyrights and want to notify us, you can find information about submitting notices and Google's policy about responding to notices in our Help Center.

Your Content in our Services

Some of our Services allow you to upload, submit, store, send or receive content. You retain ownership of any intellectual property rights that you hold in that content. In short, what belongs to you stays yours.

When you upload, submit, store, send or receive content to or through our Services, you give Google (and those we work with) a worldwide license to use, host, store, reproduce, modify, create derivative works (such as those resulting from translations, adaptations or other changes we make so that your content works better with our Services), communicate, publish, publicly perform, publicly display and distribute such content. The rights you grant in this license are for the limited purpose of operating, promoting, and improving our Services, and to develop new ones. This license continues even if you stop using our Services (for example, for a business listing you have added to Google Maps). Some Services may offer you ways to access and remove content that has been provided to that Service. Also, in some of our Services, there are terms or settings that narrow the scope of our use of the content submitted in those Services. Make sure you have the necessary rights to grant us this license for any content that you submit to our Services.

Our automated systems analyze your content (including emails) to provide you personally relevant product features, such as customized search results, tailored advertising, and spam and malware detection. This analysis occurs as the content is sent, received, and when it is stored.

If you have a Google Account, we may display your Profile name, Profile photo, and actions you take on Google or on third-party applications connected to your Google Account (such as +1's, reviews you write and comments you post) in our Services, including displaying in ads and other commercial contexts. We will respect the choices you make to limit sharing or visibility settings in your Google Account. For example, you can choose your settings so your name and photo do not appear in an ad.

You can find more information about how Google uses and stores content in the privacy policy or additional terms for particular Services. If you submit feedback or suggestions about our Services, we may use your feedback or suggestions without obligation to you.

About Software in our Services

When a Service requires or includes downloadable software, this software may update automatically on your device once a new version or feature is available. Some Services may let you adjust your automatic update settings.

Google gives you a personal, worldwide, royalty-free, non-assignable and non-exclusive license to use the software provided to you by Google as part of the Services. This license is for the sole purpose of enabling you to use and enjoy the benefit of the Services as provided by Google, in the manner permitted by these terms. You may not copy, modify, distribute, sell, or lease any part of our Services or included software, nor may you reverse engineer or attempt to extract the source code of that software, unless laws prohibit those restrictions or you have our written permission.

Open source software is important to us. Some software used in our Services may be offered under an open source license that we will make available to you. There may be provisions in the open source license that expressly override some of these terms.

Modifying and Terminating our Services

We are constantly changing and improving our Services. We may add or remove functionalities or features, and we may suspend or stop a Service altogether.

You can stop using our Services at any time, although we'll be sorry to see you go. Google may also stop providing Services to you, or add or create new limits to our Services at any time.

We believe that you own your data and preserving your access to such data is important. If we discontinue a Service, where reasonably possible, we will give you reasonable advance notice and a chance to get information out of that Service.

Our Warranties and Disclaimers

We provide our Services using a commercially reasonable level of skill and care and we hope that you will enjoy using them. But there are certain things that we don't promise about our Services.

OTHER THAN AS EXPRESSLY SET OUT IN THESE TERMS OR ADDITIONAL TERMS, NEITHER GOOGLE NOR ITS SUPPLIERS OR DISTRIBUTORS MAKE ANY SPECIFIC PROMISES ABOUT THE SERVICES. FOR EXAMPLE, WE DON'T MAKE ANY COMMITMENTS ABOUT THE CONTENT WITHIN THE SERVICES, THE SPECIFIC FUNCTIONS OF THE SERVICES, OR THEIR RELIABILITY, AVAILABILITY, OR ABILITY TO MEET YOUR NEEDS. WE PROVIDE THE SERVICES "AS IS".

SOME JURISDICTIONS PROVIDE FOR CERTAIN WARRANTIES, LIKE THE IMPLIED WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NON-INFRINGEMENT. TO THE EXTENT PERMITTED BY LAW, WE EXCLUDE ALL WARRANTIES.

Liability for our Services

WHEN PERMITTED BY LAW, GOOGLE, AND GOOGLE'S SUPPLIERS AND DISTRIBUTORS, WILL NOT BE RESPONSIBLE FOR LOST PROFITS, REVENUES, OR DATA, FINANCIAL LOSSES OR INDIRECT, SPECIAL, CONSEQUENTIAL, EXEMPLARY, OR PUNITIVE DAMAGES.

TO THE EXTENT PERMITTED BY LAW, THE TOTAL LIABILITY OF GOOGLE, AND ITS SUPPLIERS AND DISTRIBUTORS, FOR ANY CLAIMS UNDER THESE TERMS, INCLUDING FOR ANY IMPLIED WARRANTIES, IS LIMITED TO THE AMOUNT YOU PAID US TO USE THE SERVICES (OR, IF WE CHOOSE, TO SUPPLYING YOU THE SERVICES AGAIN).

IN ALL CASES, GOOGLE, AND ITS SUPPLIERS AND DISTRIBUTORS, WILL NOT BE LIABLE FOR ANY LOSS OR DAMAGE THAT IS NOT REASONABLY FORESEEABLE.

Business uses of our Services

If you are using our Services on behalf of a business, that business accepts these terms. It will hold harmless and indemnify Google and its affiliates, officers, agents, and employees from any claim, suit or action arising from or related to the use of the Services or violation of these terms, including any liability or expense arising from claims, losses, damages, suits, judgments, litigation costs and attorneys' fees.

About these Terms

We may modify these terms or any additional terms that apply to a Service to, for example, reflect changes to the law or changes to our Services. You should look at the terms regularly. We'll post notice of modifications to these terms on this page. We'll post notice of modified additional terms in the applicable Service. Changes will not apply retroactively and will become effective no sooner than fourteen days after they are posted. However, changes addressing new functions for a Service or changes made for legal reasons will be effective immediately. If you do not agree to the modified terms for a Service, you should discontinue your use of that Service.

If there is a conflict between these terms and the additional terms, the additional terms will control for that conflict.

These terms control the relationship between Google and you. They do not create any third party beneficiary rights.

If you do not comply with these terms, and we don't take action right away, this doesn't mean that we are giving up any rights that we may have (such as taking action in the future).

If it turns out that a particular term is not enforceable, this will not affect any other terms.

The laws of California, U.S.A., excluding California's conflict of laws rules, will apply to any disputes arising out of or relating to these terms or the Services. All claims arising out of or relating to these terms or the Services will be litigated exclusively in the federal or state courts of Santa Clara County, California, USA, and you and Google consent to personal jurisdiction in those courts.

Google Maps/Google Earth Additional Terms of Service

Last Modified: December 17, 2015

Thanks for using Google Maps and Google Earth ("Google Maps/Google Earth").

Google Maps/Google Earth allow you to view and use a variety of content, including map and terrain data, imagery, business listings, traffic, reviews, and other related information provided by Google, its licensors, and users (the "Content").

By accessing, downloading, or using Google Maps/Google Earth, you are agreeing to:

1. the Google Terms of Service (the "Universal Terms");
2. these Maps/Google Earth additional terms (the "Maps/Earth Additional Terms");
3. the Google Maps/Google Earth Legal Notices (the "Legal Notices"); and
4. the Google Privacy Policy (the "Privacy Policy").

Please read each of these four documents carefully, starting with the Universal Terms. The Universal Terms clarify, for example, your intellectual property ownership rights in the content you upload, and your responsibilities when using Google content or third-party content or when using Google Maps/Google Earth while driving.

Collectively, we refer to the Universal Terms, the Maps/Earth Additional Terms, the Legal Notices, and the Privacy Policy as the "Agreement". The Agreement is a binding contract between you and Google regarding your use of Google Maps/Google Earth.

1. License. Subject to the Agreement's terms, Google grants you a non-exclusive, nontransferable license to use Google Maps/Google Earth, including features that allow you to:

- a. view and annotate maps;
- b. create KML files and map layers;
- c. publicly display Content with proper attribution online, in video, and in print; and
- d. do many other things described in the Using Google Maps, Google Earth, and Street View permissions page.

2. Prohibited Conduct. When using Google Maps/Google Earth, you may not (or allow those acting on your behalf to):

a. redistribute or sell any part of Google Maps/Google Earth or create a new product or service based on Google Maps/Google Earth (unless you use the Google Maps/Google Earth APIs in accordance with their terms of service);

b. copy the Content (unless you are otherwise permitted to do so by the Using Google Maps, Google Earth, and Street View permissions page or applicable intellectual property law, including "fair use");

c. mass download or create bulk feeds of the Content (or let anyone else do so);

d. use Google Maps/Google Earth to create or augment any other mapping-related dataset (including a mapping or navigation dataset, business listings database, mailing list, or telemarketing list) for use in a service that is a substitute for, or a substantially similar service to, Google Maps/Google Earth;

e. use any part of Google Maps/Google Earth with other people's products or services for or in connection with real-time navigation or autonomous vehicle control, except through a specific Google-provided feature such as Android Auto or Send to Car;

f. reverse engineer or attempt to extract the source code from Google Maps/Google Earth or any related software, except to the extent that this restriction is expressly prohibited by applicable law;

g. remove, obscure, or alter any Google terms of service or any links to or notices of those terms, or any copyright, trademark, or other proprietary rights notices; or

h. do anything inappropriate, illegal, or in violation of others' rights (including their privacy, publicity, and intellectual property rights).

3. Actual Conditions; Assumption of Risk. When you use Google Maps/Google Earth's map data, traffic, directions, and other Content, you may find that actual conditions differ from the map results and Content, so exercise your independent judgment and use Google Maps/Google Earth at your own risk. You're responsible at all times for your conduct and its consequences.

4. Your Content in Google Maps/Google Earth. Content you upload, submit, store, send, or receive through Google Maps/Google Earth is subject to Google's Universal Terms, including the license in the section entitled "Your Content in our Services". However, content that remains exclusively local to your device (such as a locally-stored KML file) is not uploaded or submitted to Google, and is therefore not subject to that license.

5. Government Users. If you are using our Services on behalf of a government entity, the following terms apply:

a. Government Uses of Our Services. The Universal Terms section entitled "Business uses of our Services" is replaced in its entirety with the following:

"If you are using our Services on behalf of a government entity, that entity accepts these terms. Solely to the extent permitted by applicable law, regulation, or privileges and immunities, that entity will hold harmless and indemnify Google and its affiliates, officers, agents and employees from any claim, action or proceedings arising from or related to the use of the Services or violation of these terms, including any liability or expense arising from claims, losses, damages, judgements, litigation costs and legal fees." b. Governing Law.

i. For city or state government entities in the United States and European Union, the Universal Terms section regarding governing law and venue will not apply.

ii. For United States federal government entities, the Universal Terms section regarding governing law and venue is replaced in its entirety with the following:

"This Agreement will be governed by and interpreted and enforced in accordance with the laws of the United States of America without reference to conflict of laws. Solely to the extent permitted by federal law: (A) the laws of the State of California (excluding California's conflict of laws rules) will apply in the absence of applicable federal law; and (B) any dispute arising out of or relating to this Agreement or the

Services will be litigated exclusively in the federal courts of Santa Clara County, California, and the parties consent to personal jurisdiction in those courts."

b. U.S. Government Restricted Rights. All access or use of Google Maps/Google Earth by or for the United States federal government is subject to the "U.S. Government Restricted Rights" section in the Legal Notices.

-to remove, modify, or obscure any trademarks, service marks or other marks, links, or notices appearing in the Products; to violate the product documentation or violate Google's Software Principles as set out below:

1. Focus on the user and all else will follow.

Since the beginning, we've focused on providing the best user experience possible. Whether we're designing a new Internet browser or a new tweak to the look of the homepage, we take great care to ensure that they will ultimately serve you, rather than our own internal goal or bottom line. Our homepage interface is clear and simple, and pages load instantly. Placement in search results is never sold to anyone, and advertising is not only clearly marked as such, it offers relevant content and is not distracting. And when we build new tools and applications, we believe they should work so well you don't have to consider how they might have been designed differently.

2. It's best to do one thing really, really well.

We do search. With one of the world's largest research groups focused exclusively on solving search problems, we know what we do well, and how we could do it better. Through continued iteration on difficult problems, we've been able to solve complex issues and provide continuous improvements to a service that already makes finding information a fast and seamless experience for millions of people. Our dedication to improving search helps us apply what we've learned to new products, like Gmail and Google Maps. Our hope is to bring the power of search to previously unexplored areas, and to help people access and use even more of the ever-expanding information in their lives.

3. Fast is better than slow.

We know your time is valuable, so when you're seeking an answer on the web you want it right away—and we aim to please. We may be the only people in the world who can say our goal is to have people leave our website as quickly as possible. By shaving excess bits and bytes from our pages and increasing the efficiency of our serving environment, we've broken our own speed records many times over, so that the average response time on a search result is a fraction of a second. We keep speed in mind with each new product we release, whether it's a mobile application or Google Chrome, a browser designed to be fast enough for the modern web. And we continue to work on making it all go even faster.

4. Democracy on the web works.

Google search works because it relies on the millions of individuals posting links on websites to help determine which other sites offer content of value. We assess the importance of every web page using more than 200 signals and a variety of techniques, including our patented PageRank™ algorithm, which analyzes which sites have been "voted" to be the best sources of information by other pages across the web. As the web gets bigger, this approach actually improves, as each new site is another point of information and another vote to be counted. In the same vein, we are active in open source software development, where innovation takes place through the collective effort of many programmers.

5. You don't need to be at your desk to need an answer.

The world is increasingly mobile: people want access to information wherever they are, whenever they need it. We're pioneering new technologies and offering new solutions for mobile services that help people all over the globe to do any number of tasks on their phone, from checking email and calendar events to watching videos, not to mention the several different ways to access Google search on a phone. In addition, we're hoping to fuel greater innovation for mobile users everywhere with Android, a free, open source mobile platform. Android brings the openness that shaped

the Internet to the mobile world. Not only does Android benefit consumers, who have more choice and innovative new mobile experiences, but it opens up revenue opportunities for carriers, manufacturers and developers.

6. You can make money without doing evil.

Google is a business. The revenue we generate is derived from offering search technology to companies and from the sale of advertising displayed on our site and on other sites across the web. Hundreds of thousands of advertisers worldwide use AdWords to promote their products; hundreds of thousands of publishers take advantage of our AdSense program to deliver ads relevant to their site content. To ensure that we're ultimately serving all our users (whether they are advertisers or not), we have a set of guiding principles for our advertising programs and practices:

- o We don't allow ads to be displayed on our results pages unless they are relevant where they are shown. And we firmly believe that ads can provide useful information if, and only if, they are relevant to what you wish to find—so it's possible that certain searches won't lead to any ads at all.

- o We believe that advertising can be effective without being flashy. We don't accept pop-up advertising, which interferes with your ability to see the content you've requested. We've found that text ads that are relevant to the person reading them draw much higher clickthrough rates than ads appearing randomly. Any advertiser, whether small or large, can take advantage of this highly targeted medium.

- o Advertising on Google is always clearly identified as a "Sponsored Link," so it does not compromise the integrity of our search results. We never manipulate rankings to put our partners higher in our search results and no one can buy better PageRank. Our users trust our objectivity and no short-term gain could ever justify breaching that trust.

7. There's always more information out there.

Once we'd indexed more of the HTML pages on the Internet than any other search service, our engineers turned their attention to information that was not as readily accessible. Sometimes it was just a matter of integrating new databases into search, such as adding a phone number and address lookup and a business directory. Other efforts required a bit more creativity, like adding the ability to search news archives, patents, academic journals, billions of images and millions of books. And our researchers continue looking into ways to bring all the world's information to people seeking answers.

8. The need for information crosses all borders.

Our company was founded in California, but our mission is to facilitate access to information for the entire world, and in every language. To that end, we have offices in more than 60 countries, maintain more than 180 Internet domains, and serve more than half of our results to people living outside the United States. We offer Google's search interface in more than 130 languages, offer people the ability to restrict results to content written in their own language, and aim to provide the rest of our applications and products in as many languages and accessible formats as possible. Using our translation tools, people can discover content written on the other side of the world in languages they don't speak. With these tools and the help of volunteer translators, we have been able to greatly improve both the variety and quality of services we can offer in even the most far-flung corners of the globe.

9. You can be serious without a suit.

Our founders built Google around the idea that work should be challenging, and the challenge should be fun. We believe that great, creative things are more likely to happen with the right company culture—and that doesn't just mean lava lamps and rubber balls. There is an emphasis on team achievements and pride in individual accomplishments that contribute to our overall success. We put great stock in our employees—energetic, passionate people from diverse backgrounds with creative approaches to work, play and life. Our atmosphere may be casual, but as new ideas

emerge in a café line, at a team meeting or at the gym, they are traded, tested and put into practice with dizzying speed—and they may be the launch pad for a new project destined for worldwide use.

10. Great just isn't good enough.

We see being great at something as a starting point, not an endpoint. We set ourselves goals we know we can't reach yet, because we know that by stretching to meet them we can get further than we expected. Through innovation and iteration, we aim to take things that work well and improve upon them in unexpected ways. For example, when one of our engineers saw that search worked well for properly spelled words, he wondered about how it handled typos. That led him to create an intuitive and more helpful spell checker.

Even if you don't know exactly what you're looking for, finding an answer on the web is our problem, not yours. We try to anticipate needs not yet articulated by our global audience, and meet them with products and services that set new standards. When we launched Gmail, it had more storage space than any email service available. In retrospect offering that seems obvious—but that's because now we have new standards for email storage. Those are the kinds of changes we seek to make, and we're always looking for new places where we can make a difference. Ultimately, our constant dissatisfaction with the way things are becomes the driving force behind everything we do.

There are many different ways you can use our services – to search for and share information, to communicate with other people or to create new content. When you share information with us, for example by creating a Google Account, we can make those services even better – to show you more relevant search results and ads, to help you connect with people or to make sharing with others quicker and easier. As you use our services, we want you to be clear how we're using information and the ways in which you can protect your privacy.

Our Privacy Policy explains:

What information we collect and why we collect it.

How we use that information.

The choices we offer, including how to access and update information.

We've tried to keep it as simple as possible, but if you're not familiar with terms like cookies, IP addresses, pixel tags and browsers, then read about these key terms first. Your privacy matters to Google so whether you are new to Google or a long-time user, please do take the time to get to know our practices – and if you have any questions contact us.

Information we collect

We collect information to provide better services to all of our users – from figuring out basic stuff like which language you speak, to more complex things like which ads you'll find most useful, the people who matter most to you online, or which YouTube videos you might like.

We collect information in the following ways:

Information you give us. For example, many of our services require you to sign up for a Google Account. When you do, we'll ask for personal information, like your name, email address, telephone number or credit card to store with your account. If you want to take full advantage of the sharing features we offer, we might also ask you to create a publicly visible Google Profile, which may include your name and photo.

Information we get from your use of our services. We collect information about the services that you use and how you use them, like when you watch a video on YouTube, visit a website that uses our advertising services, or view and interact with our ads and content. This information includes:

Device information

We collect device-specific information (such as your hardware model, operating system version, unique device identifiers, and mobile network information including phone number). Google may associate your device identifiers or phone number with your Google Account.

Log information

When you use our services or view content provided by Google, we automatically collect and store certain information in server logs. This includes:

details of how you used our service, such as your search queries.

telephony log information like your phone number, calling-party number, forwarding numbers, time and date of calls, duration of calls, SMS routing information and types of calls. Internet protocol address.

device event information such as crashes, system activity, hardware settings, browser type, browser language, the date and time of your request and referral

URL. cookies that may uniquely identify your browser or your Google Account.

Location information

When you use Google services, we may collect and process information about your actual location. We use various technologies to determine location, including IP address, GPS, and other sensors that may, for example, provide Google with information on nearby devices, Wi-Fi access points and cell towers.

Unique application numbers

Certain services include a unique application number. This number and information about your installation (for example, the operating system type and application version number) may be sent to Google when you install or uninstall that service or when that service periodically contacts our servers, such as for automatic updates.

Local storage

We may collect and store information (including personal information) locally on your device using mechanisms such as browser web storage (including HTML 5) and application data caches.

Cookies and similar technologies

We and our partners use various technologies to collect and store information when you visit a Google service, and this may include using cookies or similar technologies to identify your browser or device. We also use these technologies to collect and store information when you interact with services we offer to our partners, such as advertising services or Google features that may appear on other sites. Our Google Analytics product helps businesses and site owners analyze the traffic to their websites and apps. When used in conjunction with our advertising services, such as those using the DoubleClick cookie, Google Analytics information is linked, by the

Google Analytics customer or by Google, using Google technology, with information about visits to multiple sites.

Information we collect when you are signed in to Google, in addition to information we obtain about you from partners, may be associated with your Google Account. When information is associated with your Google Account, we treat it as personal information. For more information about how you can access, manage or delete information that is associated with your Google Account, visit the Transparency and choice section of this policy.

How we use information we collect

We use the information we collect from all of our services to provide, maintain, protect and improve them, to develop new ones, and to protect Google and our users. We also use this information to offer you tailored content – like giving you more relevant search results and ads.

We may use the name you provide for your Google Profile across all of the services we offer that require a Google Account. In addition, we may replace past names associated with your Google Account so that you are represented consistently across all our services. If other users already

have your email, or other information that identifies you, we may show them your publicly visible Google Profile information, such as your name and photo.

If you have a Google Account, we may display your Profile name, Profile photo, and actions you take on Google or on third-party applications connected to your Google Account (such as +1's, reviews you write and comments you post) in our services, including displaying in ads and other commercial contexts. We will respect the choices you make to limit sharing or visibility settings in your Google Account.

When you contact Google, we keep a record of your communication to help solve any issues you might be facing. We may use your email address to inform you about our services, such as letting you know about upcoming changes or improvements.

We use information collected from cookies and other technologies, like pixel tags, to improve your user experience and the overall quality of our services. One of the products we use to do this on our own services is Google Analytics. For example, by saving your language preferences, we'll be able to have our services appear in the language you prefer. When showing you tailored ads, we will not associate an identifier from cookies or similar technologies with sensitive categories, such as those based on race, religion, sexual orientation or health.

Our automated systems analyze your content (including emails) to provide you personally relevant product features, such as customized search results, tailored advertising, and spam and malware detection.

We may combine personal information from one service with information, including personal information, from other Google services – for example to make it easier to share things with people you know. Depending on your account settings, your activity on other sites and apps may be associated with your personal information in order to improve Google's services and the ads delivered by Google.

We will ask for your consent before using information for a purpose other than those that are set out in this Privacy Policy.

Google processes personal information on our servers in many countries around the world. We may process your personal information on a server located outside the country where you live.

Transparency and choice

People have different privacy concerns. Our goal is to be clear about what information we collect, so that you can make meaningful choices about how it is used. For example, you can:

Review and update your Google activity controls to decide what types of data, such as videos you've watched on YouTube or past searches, you would like saved with your account when you use Google services. You can also visit these controls to manage whether certain activity is stored in a cookie or similar technology on your device when you use our services while signed-out of your account.

Review and control certain types of information tied to your Google Account by using Google Dashboard.

View and edit your preferences about the Google ads shown to you on Google and across the web, such as which categories might interest you, using Ads Settings.

You can also visit that page to opt out of certain Google advertising services.

Adjust how the Profile associated with your Google Account appears to others.

Control who you share information with through your Google Account.

Take information associated with your Google Account out of many of our services.

Choose whether your Profile name and Profile photo appear in shared endorsements that appear in ads.

You may also set your browser to block all cookies, including cookies associated with our services, or to indicate when a cookie is being set by us. However, it's important to remember that many of our services may not function properly if your cookies are disabled. For example, we may not remember your language preferences.

Information you share

Many of our services let you share information with others. Remember that when you share information publicly, it may be indexable by search engines, including Google. Our services provide you with different options on sharing and removing your content.

Accessing and updating your personal information

Whenever you use our services, we aim to provide you with access to your personal information. If that information is wrong, we strive to give you ways to update it quickly or to delete it – unless we have to keep that information for legitimate business or legal purposes. When updating your personal information, we may ask you to verify your identity before we can act on your request.

We may reject requests that are unreasonably repetitive, require disproportionate technical effort (for example, developing a new system or fundamentally changing an existing practice), risk the privacy of others, or would be extremely impractical (for instance, requests concerning information residing on backup systems).

Where we can provide information access and correction, we will do so for free, except where it would require a disproportionate effort. We aim to maintain our services in a manner that protects information from accidental or malicious destruction. Because of this, after you delete information from our services, we may not immediately delete residual copies from our active servers and may not remove information from our backup systems.

Information we share

We do not share personal information with companies, organizations and individuals outside of Google unless one of the following circumstances applies:

With your consent

We will share personal information with companies, organizations or individuals outside of Google when we have your consent to do so. We require opt-in consent for the sharing of any sensitive personal information.

With domain administrators

If your Google Account is managed for you by a domain administrator (for example, for Google Apps users) then your domain administrator and resellers who provide user support to your organization will have access to your Google Account information (including your email and other data). Your domain administrator may be able to:

view statistics regarding your account, like statistics

regarding applications you install. change your account

password. suspend or terminate your account access.

access or retain information stored as part of your account.

receive your account information in order to satisfy applicable law, regulation,

legal process or enforceable governmental request. restrict your ability to delete or edit information or privacy settings.

Please refer to your domain administrator's privacy policy for more information.

For external processing

We provide personal information to our affiliates or other trusted businesses or persons to process it for us, based on our instructions and in compliance with our Privacy Policy and any other appropriate confidentiality and security measures.

For legal reasons

We will share personal information with companies, organizations or individuals outside of Google if we have a good-faith belief that access, use, preservation or disclosure of the information is reasonably necessary to:

meet any applicable law, regulation, legal process or enforceable

governmental request. enforce applicable Terms of Service, including investigation of potential violations.

detect, prevent, or otherwise address fraud, security or technical issues. protect against

harm to the rights, property or safety of Google, our users or the public as required or permitted by law.

We may share non-personally identifiable information publicly and with our partners – like publishers, advertisers or connected sites. For example, we may share information publicly to show trends about the general use of our services.

If Google is involved in a merger, acquisition or asset sale, we will continue to ensure the confidentiality of any personal information and give affected users notice before personal information is transferred or becomes subject to a different privacy policy.

Information security

We work hard to protect Google and our users from unauthorized access to or unauthorized alteration, disclosure or destruction of information we hold. In particular:

We encrypt many of our services using SSL.

We offer you two step verification when you access your Google Account, and a Safe Browsing feature in Google Chrome. We review our information collection, storage and processing practices, including physical security measures, to guard against unauthorized access to systems.

We restrict access to personal information to Google employees, contractors and agents who need to know that information in order to process it for us, and who are subject to strict contractual confidentiality obligations and may be disciplined or terminated if they fail to meet these obligations.

When this Privacy Policy applies

Our Privacy Policy applies to all of the services offered by Google Inc. and its affiliates, including YouTube, services Google provides on Android devices, and services offered on other sites (such as our advertising services), but excludes services that have separate privacy policies that do not incorporate this Privacy Policy.

Our Privacy Policy does not apply to services offered by other companies or individuals, including products or sites that may be displayed to you in search results, sites that may include Google services, or other sites linked from our services. Our Privacy Policy does not cover the information practices of other companies and organizations who advertise our services, and who may use cookies, pixel tags and other technologies to serve and offer relevant ads.

Compliance and cooperation with regulatory authorities

We regularly review our compliance with our Privacy Policy. We also adhere to several self regulatory frameworks, including the EUUS Privacy Shield Framework.

When we receive formal written complaints, we will contact the person who made the complaint to follow up. We work with the appropriate regulatory authorities, including local data protection authorities, to resolve any complaints regarding the transfer of personal data that we cannot resolve with our users directly.

Changes

Our Privacy Policy may change from time to time. We will not reduce your rights under this Privacy Policy without your explicit consent. We will post any privacy policy changes on this page and, if the changes are significant, we will provide a more prominent notice (including, for certain services, email notification of privacy policy changes). We will also keep prior versions of this Privacy Policy in an archive for your review.

AT&T Acceptable Use Policy

Introduction

AT&T is at all times committed to complying with the laws and regulations governing use of the Internet, e-mail transmission and text messaging and preserving for all of its Customers the ability to use AT&T's network and the Internet without interference or harassment from other users. The AT&T AUP ("AUP") is designed to help achieve these goals.

By signing this AUP, Customer(s) agrees to comply with this Acceptable Use Policy and to remain responsible for its users.

Scope of the AUP

The AUP applies to the AT&T services that provide (or include) access to the Internet, including hosting services (software applications and hardware), or are provided over the Internet or wireless data networks (collectively "IP Services").

Prohibited Activities

General Prohibitions: AT&T prohibits use of the IP Services in any way that is unlawful, harmful to or interferes with use of AT&T's network or systems, or the network of any other provider, interferes with the use or enjoyment of services received by others, infringes intellectual property rights, results in the publication of threatening or offensive material, or constitutes Spam/E-mail/Usenet abuse, a security risk or a violation of privacy.

Failure to adhere to the rules, guidelines or agreements applicable to search engines, subscription

Web services, chat areas, bulletin boards, Web pages, USENET, applications, or other services that are accessed via a link from the AT&T-branded website or from a website that contains AT&T-branded content is a violation of this AUP.

Unlawful Activities: IP Services shall not be used in connection with any criminal, civil or administrative violation of any applicable local, state, provincial, federal, national or international law, treaty, court order, ordinance, regulation or administrative rule.

Violation of Intellectual Property Rights: IP Service(s) shall not be used to publish, submit/receive upload/download, post, use, copy or otherwise reproduce, transmit, re-transmit, distribute or store any content/material or to engage in any activity that infringes, misappropriates or otherwise violates the intellectual property rights or privacy or publicity rights of AT&T or any individual, group or entity, including but not limited to any rights protected by any copyright, patent, trademark laws, trade secret, trade dress, right of privacy, right of publicity, moral rights or other intellectual property right now known or later recognized by statute, judicial decision or regulation.

Threatening Material or Content: IP Services shall not be used to host, post, transmit, or re-transmit any content or material (or to create a domain name or operate from a domain name), that harasses, or threatens the health or safety of others. In addition, for those IP Services that utilize AT&T provided web hosting, AT&T reserves the right to decline to provide such services if the content is determined by AT&T to be obscene, indecent, hateful, malicious, racist, defamatory, fraudulent, libelous, treasonous, excessively violent or promoting the use of violence or otherwise harmful to others.

Inappropriate Interaction with Minors: AT&T complies with all applicable laws pertaining to the protection of minors, including when appropriate, reporting cases of child exploitation to the National Center for Missing and Exploited Children. For more information about online safety, visit www.ncmec.org or www.att.com/safety.

Child Pornography: IP Services shall not be used to publish, submit/receive, upload/download, post, use, copy or otherwise produce, transmit, distribute or store child pornography. Suspected violations of this prohibition may be reported to AT&T at the following e-mail address: cp@abuse-att.net. AT&T will report any discovered violation of this prohibition to the National Center for Missing and Exploited Children and take steps to remove child pornography (or otherwise block access to the content determined to contain child pornography) from its servers.

Spam/E-mail/Usenet Abuse: Violation of the CAN-SPAM Act of 2003, or any other applicable law regulating e-mail services, constitutes a violation of this AUP.

Spam/E-mail or Usenet abuse is prohibited using IP Services. Examples of Spam/E-mail or Usenet abuse include but are not limited to the following activities:

- Sending multiple unsolicited electronic mail messages or "mail-bombing" - to one or more recipient;
- Sending unsolicited commercial e-mail, or unsolicited electronic messages directed primarily at the advertising or promotion of products or services;
- Sending unsolicited electronic messages with petitions for signatures or requests for charitable donations, or sending any chain mail related materials;
- Sending bulk electronic messages without identifying, within the message, a reasonable means of opting out from receiving additional messages from the sender;

- Sending electronic messages, files or other transmissions that exceed contracted for capacity or that create the potential for disruption of the AT&T network or of the networks with which AT&T interconnects, by virtue of quantity, size or otherwise;
- Using another site's mail server to relay mail without the express permission of that site;

FirstNet Mobile-Pooled Plans and FirstNet Mobile-Unlimited Plans Terms and Conditions for Primary Users and Extended Primary Users

Eligibility: FirstNet Pooled and Unlimited Plans are only available to agencies and organizations eligible to use GSA Sources that also meet the qualifications of being a Public Safety Entity ("PSE") as defined in the Middle Class Tax Relief and Job Creation Act of 2012 as an "entity that provides public safety services." 47.U.S.C. § 1401(26). PSEs are divided into two categories: Primary Users and Extended Primary Users. The Primary User group consists of law enforcement, fire, and emergency medical services users. The Extended Primary User group consists of other PSE users—beyond law enforcement, fire, and emergency medical services. Some of the plans set forth in this contract are reserved for Primary Users; others are reserved for Extended Primary Users. AT&T will defer to the First Responder Network Authority as to the determinations as to whether any entity qualifies as a Public Safety Entity, Primary User or Extended Primary User. The FirstNet Mobile-Pooled and Mobile-Unlimited Plans are available to both federal Primary and federal Extended Primary Users and are available irrespective of whether the federal Primary or federal Extended Primary User (including any of their individual users) is located in a state or territory that opts out of the FirstNet network. If a state or territory opts out of the FirstNet network, both federal Primary and federal Extended Primary Users (and any of their individual users) will continue to have (1) this service on the AT&T commercial network and that connects to the nationwide dedicated FirstNet core, as deployed and (2) access to the FirstNet applications ecosystem. For state, local and tribal Public Safety Entities, the FirstNet Mobile—Pooled and FirstNet Mobile—Unlimited plans are available for use only by Primary Users and Extended Primary Users that are located in states or territories that have opted into the FirstNet network. FirstNet Features: FirstNet Mobile-Pooled and Mobile-Unlimited voice and data will connect to the nationwide dedicated FirstNet core and the Band Class 14 spectrum, as deployed. Primary Users and Extended Primary Users will also have access to the FirstNet applications ecosystem, as deployed. International Roaming Blocking Feature: All FirstNet Mobile-Pooled and Unlimited plans are provisioned with the International Roaming Blocking Feature; Customer must remove the feature to use the FirstNet Mobile- Pooled and Unlimited Plans' data, talk and text capabilities in Mexico. There is no charge to remove this feature. U.S. Pacific Territories Feature: The U.S. Pacific Territories Feature enables Customer to use the FirstNet Mobile- Pooled and Unlimited Plans' data, talk and text capabilities in American Samoa (FirstNet unlimited mobile data plans are unavailable to American Samoa Territory subscribers), Guam and the Northern Mariana Islands (the "Pacific Territories"); the feature requires Customer to disable the International Roaming Blocking Feature as well. There is no charge for the U.S. Pacific Territories Feature. Devices: Sold separately. See www.firstnet.com/wearables for current list of connected wearables.

DATA: For use in the contiguous United States (CONUS), Alaska, Hawaii, Puerto Rico and U.S. Virgin Islands and the Pacific Territories (see above for feature provisioning requirements for use in the Pacific Territories). Plans include data usage in Mexico (see above for feature provisioning requirements). Additional or promotional data may not be available for use outside the contiguous United States (CONUS), Alaska, Hawaii, Puerto Rico and the U.S. Virgin Islands. See att.com/broadbandinfo for details on AT&T network management policies.

FirstNet Mobile - Unlimited Plans: Unlimited plans do not pool. FirstNet unlimited mobile data plans are unavailable to American Samoa Territory subscribers. **Data-only Device Exclusions:** FirstNet Mobile- Unlimited Plans may not be used with any device or equipment that is intended to, or is used to, establish a continuous, unattended connection to the AT&T network, including, but not limited to, automatic data feeds, mobile video transmissions, and automated machine-to-machine connections.

FirstNet Mobile – Pooled Plans: Within a single Billing Account Number (BAN), Public Safety Entity Users activated on separate FirstNet Mobile-Pooled Plans are combined to create a "Data Pool." Every billing cycle, each Public Safety Entity User first uses his or her plan's included data allotment ("Data Allowance"), if any. If a Public Safety Entity User does not use all of the plan's Data Allowance, it creates an underage in the amount of the unused Data Allowance (Under Usage). If a Public Safety Entity User uses more than the plan's Data Allowance (e.g., any Public Safety Entity User with a 0GB plan), the Public Safety Entity User incurs Data Overage charges in the amount of the excess data usage (Over Usage). At the end of the billing cycle, AT&T calculates the total Under Usage amounts for Public Safety Entity User lines in the Data Pool and the total Over Usage amounts for Public Safety Entity User lines in the Data Pool and then compares the two totals. If the total Under Usage amount exceeds the total Over Usage amount, the excess Under Usage is allocated among each Public Safety Entity User in the Data Pool with Over Usage, resulting in per line credits on Customer's invoice equal to each such Public Safety Entity User line's Data Overage charges. Any remaining excess Under Usage will be forfeited. If the total Under Usage is more than zero and if the total Over Usage amount exceeds the total Under Usage amount, then the Under Usage is divided by the Over Usage to create an allocation factor that is applied equally to each Public Safety Entity User's Data Overage charges to determine each such Public Safety Entity User's share of the total Under Usage amount, resulting in per line credits on Customer's invoice to partially offset each such Public Safety Entity User's Data Overage charges. For example, if a Data Pool has 100 KB of Under Usage and 1000 KB of Over Usage (which means an allocation factor of 10%), then Customer's invoice will show, with respect to each Public Safety Entity User line with Over Usage, both (a) the Public Safety Entity User's Data Overage charges for the Over Usage at the specified Data Overage rate, and (b) a bill credit equal to 10% of the Public Safety Entity User's Data Overage charges. Changing or migrating Public Safety Entity User lines to FirstNet Mobile--Pooled Plans during a bill cycle may result in one-time prorations or other minor impacts to the credit calculation. If Customer's organization's Foundation Account Number has multiple BANs, Customer may have more than one

BAN specific Data Pool; however, Public Safety Entity User Lines in one Data Pool cannot take advantage of another Data Pool's Under Usage, and each Public Safety Entity User line can only be part of one Data Pool at a time. AT&T reserves the right to limit the number of Public Safety Entity User lines in a Data Pool due to business needs and system limitations. **Data Overage:** If Customer exceeds the total amount of data in the Data Pool during a billing period, a pay-per-use rate of \$0.000009536 per kilobyte ("KB") will apply. 1,024 KB = 1 megabyte ("MB"); 1,048,576 KB = 1 gigabyte ("GB").

UNLIMITED TALK: For phones (including Connected Wearables) only. Includes unlimited calls within the contiguous United States (CONUS), Alaska, Hawaii, Puerto Rico, U.S. Virgin Islands and the Pacific Territories (some plans also include calls within Mexico). For use in the Pacific Territories and Mexico, see feature provisioning requirements above. **Unlimited Talk to Canada and Mexico:** For phones (including Connected Wearables) only. Includes unlimited International Long Distance (ILD) calling from the contiguous United States (CONUS), Alaska, Hawaii, Puerto Rico, U.S. Virgin Islands and the Pacific Territories to Mexico and Canada only. Customer may be charged for calls to special or premium service numbers. **Calls to Other Countries:** Plans for phones (including Connected Wearables) also include ILD calling from the contiguous United States (CONUS), Alaska, Hawaii, Puerto Rico, U.S. Virgin Islands and the Pacific Territories (plans for smartphones and feature phones also include calling from Mexico) to countries other than Canada & Mexico. Per minute pay-per-use rates apply unless an ILD service package is added to the line placing such calls. Rates subject to change without notice. For rates, see att.com/worldconnect.

UNLIMITED TEXT: Standard Messaging – For phones (including Connected Wearables) only. Includes unlimited number of messages up to 1MB in size within and from the contiguous United States (CONUS), Alaska, Hawaii, Puerto Rico, U.S. Virgin Islands and the Pacific Territories (plans for smartphones and feature phones also include messaging within and from Mexico) to more than 190 countries for text messages and 120 countries for picture and video messages. For rates, see att.com/worldconnect. For use in the Pacific Territories and Mexico, see feature provisioning requirements above. AT&T may add, change, and remove included countries at its discretion without notice. Messages sent through applications may incur data or other charges. Visit att.com/text2world for details. **Advanced Messaging** – For customers with Advanced Messaging capable devices only. Both sender and recipient(s) must be AT&T postpaid wireless customers with HD Voice accounts, and both must have their advanced messaging capable devices turned on and be within AT&T's owned and operated contiguous United States (CONUS), Alaska, Hawaii, Puerto Rico, U.S. Virgin Islands and the Pacific Territories (third party coverage and use in Mexico are excluded). Includes unlimited number of messages up to 10MB in size. Additional restrictions apply and can be found at att.com/advancedmessaging. Connected Wearables: Visit www.firstnet.com/wearables to find available Connected Wearables. **Canada and Mexico Service Restrictions:** Plan usage not available in Mexico on Connected Devices and Connected Wearables. Pay-per-use roaming rates will apply on these devices. For rates, see att.com/worldconnect. **Invoicing Limitation:** FirstNet plans are not eligible for combined (wireless/wireline) billing.

INVOICING TERMS RELATED TO FIRSTNET MOBILE PLANS: Customer must establish separate Foundation Account Numbers (FANs) for Customer's Primary Users and Customer's Extended Primary Users. Customer will receive a separate invoice for each BAN Customer establishes under a FAN, except where Customer chooses BEST Pooling, in which case Customer will receive a single invoice covering all BANs under the FAN regardless of the number of BANs Customer establishes under the FAN. **For FirstNet Primary user types,** a separate FirstNet Primary billing account must be set up for FirstNet Primary user types exclusively. FirstNet Primary users can only pool with other FirstNet Primary users on the same billing account. There is no pooling with non-FirstNet user types on any FirstNet Primary user account. **For FirstNet Extended user types,** a separate FirstNet Extended billing account must be set up for FirstNet Extended user types exclusively. FirstNet Extended users can only pool with other FirstNet Extended users on the same billing account. There is no pooling with non-FirstNet user types on any FirstNet Extended user account.

INVOICING TERMS RELATED TO FIRSTNET MOBILE PLANS: For FirstNet Primary Users, a separate FirstNet Primary billing account must be set up for FirstNet Primary Users exclusively. FirstNet Primary Users can only pool with other FirstNet Primary Users on the same billing account. There is no pooling with non-Public Safety Entities on any FirstNet Primary User account. For FirstNet Extended Primary Users, a separate FirstNet Extended Primary User billing account must be set up for FirstNet Extended Primary Users exclusively. FirstNet Extended Primary Users can only pool with other FirstNet Extended Primary Users on the same billing account. There is no pooling with non-Public Safety Entities on any FirstNet Extended User account.

GENERAL WIRELESS SERVICE TERMS: Subject to Government Agreement. Service is not for resale. **Other Monthly Charges:** Apply per line and may include taxes, federal/state universal service charges, a Regulatory Cost Recovery Charge (up to \$1.25), a gross receipts surcharge, an Administrative Fee, and other governmental assessments (including w/out limitation a Property Tax Allotment surcharge of \$0.20 – \$0.45 applied per Public Safety Entity User's assigned number), which are not government-required charges. Coverage: Coverage map shows high level approximation of areas included in and out of plan. For the most current coverage info, check wireless.att.com/coverageviewer. Coverage

may include areas served by unaffiliated carriers and not on AT&T's owned and operated network (off-net). Arrangements with these carriers may change from time to time, and coverage is subject to change without notice.

Limited Access To FirstNet Central For FirstNet Terms And Conditions

1. SCOPE

These Limited Access to FirstNet Central for FirstNet terms and conditions are between the Public Safety Entity ("PSE") as defined in the Middle Class Tax Relief and Job Creation Act of 2012 as an "entity that provides public safety services." 47.U.S.C. § 1401(26) and AT&T.

These terms and conditions set forth how AT&T will provide PSEs access to FirstNet Central for FirstNet (the "Portal") for the sole purpose of allowing PSEs to designate individuals eligible to purchase a FirstNet wireless service plan ("Plan") as a Subscriber Paid User. Subscriber Paid Users are individuals who are either (a) employees of PSE acting in the capacity of a first responder in the areas of law enforcement, fire protection, emergency medical services, emergency management agencies, and public safety answering points ; or (b) authorized, active auxiliary personnel affiliated with PSE who provide services or perform functions on an occasional, volunteer basis, and support PSE in the areas of law enforcement, fire protection, or emergency medical services.

2. AT&T's OBLIGATIONS

AT&T will provide PSE a single set of credentials ("Credentials") to the Portal for PSE to use to designate individuals eligible to purchase a FirstNet Mobile Responder rate plan ("Plan") as a Subscriber Paid User..

3. CUSTOMER's REPRESENTATIONS AND OBLIGATIONS

3.1 PSE represents and warrants that it is a Primary User PSE as that term is used by the First Responder Network Authority and by AT&T in its capacity as the service provider for FirstNet.

3.2 In using the Credentials and the Portal, PSE agrees to comply with the Terms of Use for the Portal and acknowledges and agrees to the obligations set forth in the Terms of Use, including, but not limited to, the protection of the Credentials. PSE agrees to follow all processes and procedures established by AT&T from time to time for access to, and use of, the Portal.

3.3 PSE acknowledges that it will identify a Designated Agency Representative (DAR) Administrator. The DAR Administrator will be responsible for the following:

- i. Verifying and approving the individuals PSE designates as eligible Subscriber Paid Users.
- ii. Using the Portal to: (a) provide AT&T with the name and email address of, together with the correct Foundation Account Number and other eligibility information for, each eligible individual to enable AT&T to initiate the process such individual will use to obtain a FirstNet wireless service plan as a Subscriber Paid User; and (b) perform audits of existing Subscriber Paid Users as requested by AT&T on a regular, but not less than once per year, basis to identify any individuals who are no longer eligible to participate in FirstNet as a Subscriber Paid User.

3.4 Once verified and approved, AT&T will contact eligible Subscriber Paid Users, who must establish a contractual relationship directly with AT&T using an AT&T Wireless Customer Agreement ("WCA") under which they may purchase a FirstNet Subscriber Paid User plan. PSE has no obligation to pay for services AT&T provides to Subscriber Paid Users, who will be financially responsible for payment of services provided under the WCA and any applicable plan.

4. DISCLAIMER OF WARRANTIES AND LIABILITY

ACCESS TO THE PORTAL IS PROVIDED ON AN "AS IS" BASIS WITH NO WARRANTIES, EXPRESS OR IMPLIED, OF ANY KIND. IN NO EVENT SHALL AT&T, ITS AFFILIATES OR ITS SUPPLIERS BE LIABLE TO PSE, PSE'S AFFILIATES OR THIRD PARTIES CLAIMING THROUGH PSE FOR MONETARY DAMAGES OF ANY KIND, INCLUDING DIRECT, INDIRECT, INCIDENTAL, SPECIAL, RELIANCE OR CONSEQUENTIAL DAMAGES, EXPENSES ASSOCIATED WITH THESE TERMS AND CONDITIONS OR LOST REVENUES, ARISING OUT OF ANY BREACH OR ALLEGED BREACH OF THESE TERMS AND CONDITIONS.

5. ENTIRE AGREEMENT

These terms and conditions between the parties, with respect to its subject matter, supersede all other agreements, proposals, representations, statements and understandings, whether written or oral, concerning Customer's ability to access the Portal.

AT&T Dynamic Traffic Management – Enterprise Terms and Conditions

1. **General.** AT&T will provide Customers with AT&T Dynamic Traffic Management – Enterprise. AT&T Dynamic Traffic Management – Enterprise is a solution for use with Customer's authorized eligible end users' lines of service. Each eligible end user line may have only one AT&T Dynamic Traffic Management solution provisioned on it.

2. Description, Eligibility and Usage - AT&T Dynamic Traffic Management – Enterprise

2.1 **Enhanced Network Experience.** AT&T Dynamic Traffic Management – Enterprise uses quality of service ("QoS") network technology to enable qualified Customers to receive a differentiated (i.e., enhanced versus "best effort") 4G LTE network experience for Approved Business Application (as defined below) data traffic originated on and traversing over the AT&T-owned domestic 4G LTE network (i.e., excluding microcells, AT&T Wi-Fi service, and roaming partners' networks). An enhanced, or higher, QoS is particularly valuable during times of network congestion. AT&T Dynamic Traffic Management – Enterprise does not provide priority access to the AT&T-owned domestic 4G LTE network.

2.2 **AT&T Dynamic Traffic Management – Enterprise Pricing, Billing & Usage Limitations.** AT&T Dynamic Traffic Management – Enterprise is provisioned as a monthly recurring feature charge that is added to Customer's qualified wireless data service plan(s) on a per eligible end user line basis. For eligible end users on a qualified wireless data service plan that offers unlimited data, usage of AT&T Dynamic Traffic Management – Enterprise may not exceed 10 GB a month for three consecutive months. AT&T Dynamic Traffic Management – Enterprise is provisioned on a monthly billing cycle basis, and no proration is offered for termination prior to the expiration of a billing cycle.

3. **AT&T Dynamic Traffic Management – Enterprise Eligibility Requirements.** In order to qualify for AT&T Dynamic Traffic Management – Enterprise, Customer must at all times meet the eligibility requirements set forth below.

3.1 General Requirements.

3.1.1 **Required and Optional Service Configurations.** AT&T Dynamic Traffic Management – Enterprise is offered as an enhancement to Customer's authorized CRU lines of service having: (a) a qualified wireless data service plan; and (b) a 4G LTE compatible smartphone or wireless device provisioned with an Approved Business Application, as more fully described in Section 3.1.2, below. AT&T Dynamic Traffic Management can also be combined in solutions featuring AT&T Commercial Connectivity Service, also known as AT&T Private Mobile Connection. Because AT&T is in the process of renaming Commercial Connectivity Service to Private Mobile Connection, the term Private Mobile

Connection is used below; there are no changes to the Commercial Connectivity Service described in this GSA Schedule Contract # 47QTCA19D00MV other than the name.

3.1.1.1 AT&T Private Mobile Connection. Customers may request a solution that combines AT&T Dynamic Traffic Management—Enterprise with select AT&T Private Mobile Connection services, which are services under which AT&T establishes an APN and grants a Connection Right to facilitate wireless communications to and from the Customer's eligible end users and/or 4G LTE-enabled Equipment using a Host Application (as those terms are defined in the Commercial Connectivity Services provisions of this GSA Schedule Contract # 47QTCA19D00MV). If a Customer chooses to configure AT&T Dynamic Traffic Management—Enterprise with AT&T Private Mobile Connection, Customer must also have, and maintain compliance with, the terms and conditions set forth in this GSA Schedule Contract # 47QTCA19D00MV for one of the following qualified 4G LTE Private Mobile Connection solutions:

- Private Mobile Connection – Custom APN
- Private Mobile Connection – Network VPN
- Private Mobile Connection—MPLS Interconnect
- Private Mobile Connection—AT&T VPN Access

Customer understands and agrees that: (a) each authorized eligible end user line must use Customer's Private Mobile Connection APN in order to take advantage of AT&T Dynamic Traffic Management—Enterprise; (b) each Approved Business Application is a "Host Application" for purposes of Customer's Private Mobile Connection solution; and (c) all AT&T rights and remedies and Customer obligations set forth in the applicable Private Mobile Connection provisions of this GSA Schedule Contract # 47QTCA19D00MV apply equally to AT&T Dynamic Traffic Management – Enterprise.

3.1.2 Approved Business Applications. AT&T Dynamic Traffic Management – Enterprise is available only for use with Customer's qualified business applications that are used solely in connection with the transmission of Customer's data to and from its authorized eligible end user lines' 4G LTE-enabled Equipment, including routers (except when use with routers is prohibited by the underlying wireless plan), determined solely by AT&T (each, an "Approved Business Application"). Approved Business Applications may include, without limitation, video calling/conferencing, push-to-talk, dispatch, logistics, command and control, telematics, and monitoring applications used by Customer's authorized CRU lines. Customer understands and agrees that AT&T Dynamic Traffic Management – Enterprise may not be used with, among other things, (a) mobile video transmission applications, and (b) applications that transmit data to and receive data from all or substantially all Internet endpoints. Accordingly, for each business application identified by Customer for use with AT&T Dynamic Traffic Management – Enterprise, Customer must provide AT&T with sufficient information about the application to permit AT&T to determine whether the application is an Approved Business Application. Such information will include, at a minimum, the application name/version, application protocol, destination IP address and destination port. If AT&T confirms that Customer has requested AT&T Dynamic Traffic Management – Enterprise for an Approved Business Application, Customer will also be required to identify a Customer representative who will be available to assist AT&T, at a mutually agreeable time and upon reasonable prior notice from AT&T, in: (a) validating and testing the Approved Business Application as part of the AT&T Dynamic Traffic Management – Enterprise set up; and (b) in the event that Customer chooses to configure AT&T Dynamic Traffic Management with AT&T Private Mobile Connection service, providing additional technical information and/or requesting any modifications or additions to the Approved Business Application, as described more fully in the applicable AT&T Private Mobile Connection provisions of this GSA Schedule Contract # 47QTCA19D00MV.

4. Limitations and Restrictions of AT&T Dynamic Traffic Management – Enterprise. Customer acknowledges and agrees that: (a) AT&T Dynamic Traffic Management – Enterprise is available only within the Domestic Coverage Area (i.e., the United States, Puerto Rico and the U.S. Virgin Islands) and only for Customer's Approved Business Application data traffic originated on and traversing over the AT&T-owned domestic 4G LTE network; (b) AT&T Dynamic Traffic Management – Enterprise does not provide priority access to the AT&T-owned domestic 4G LTE network; (c) AT&T Dynamic Traffic Management – Enterprise does not prioritize Customer's Approved Business Application data traffic ahead of all other data traffic, as other data traffic may receive a similar or higher QoS; and (d) AT&T Dynamic Traffic Management – Enterprise is not to be used for any data traffic originated on or over the Internet, other than Customer's Approved Business Application data traffic.

5. AT&T Dynamic Traffic Management – Enterprise Performance Reporting.

5.1 Reports. When statistically significant and reliable data are available, AT&T shall provide monthly summary reporting on various network performance metrics designed to help Customer compare the measured performance of its qualified eligible end user lines provisioned with AT&T Dynamic Traffic Management – Enterprise to the estimated "best efforts" performance for data traffic over the domestic AT&T 4G LTE network. These reports can be used to assist Customer in evaluating the benefits of AT&T Dynamic Traffic Management – Enterprise.

5.2 Delivery. The AT&T Dynamic Traffic Management – Enterprise performance reports will be made available electronically to Customer via the AT&T Premier web portal (or, if applicable, the AT&T Enterprise on Demand ("EOD") web portal) through which Customer and its

authorized representatives place orders and manage Customer's wireless account(s) in accordance with the PREMIER (or, if applicable, the EOD) terms and conditions of this GSA Schedule Contract # 47QTCA19D00MV. Public safety Customers may request a solution that combines AT&T Dynamic Traffic Management--Public Safety with select AT&T Private Mobile Connection services, which are services under which AT&T establishes an APN and grants a Connection Right to facilitate wireless communications to and from the Customer's eligible end users and/or 4G LTE-enabled Equipment using a Host Application (as those terms are defined in the Commercial Connectivity Service provisions of this GSA Schedule Contract # 47QTCA19D00MV). If a

public safety Customer chooses to configure AT&T Dynamic Traffic Management—Public Safety with AT&T Private Mobile Connection, Customer must also have, and maintain compliance with, the terms and conditions set forth in this GSA Schedule Contract # 47QTCA19D00MV for one of the following qualified 4G LTE Private Mobile Connection solutions:

Approved Business Applications may include, without limitation, video calling/conferencing, push-to-talk, dispatch, logistics, command and control, telematics and monitoring applications used by Customer's eligible end user lines. Customer understands and agrees that AT&T Dynamic Traffic Management – Public Safety may not be used with, among other things: (a) mobile video transmission applications, and (b) applications that transmit data to and receive data from all or substantially all Internet endpoints. 5. AT&T Dynamic Traffic Management – Public Safety Performance Reporting.

5.1 Reports. When statistically significant and reliable data are available, AT&T shall provide monthly summary reporting on various network performance metrics designed to help Customer compare the measured performance of its authorized eligible end user lines provisioned with AT&T Dynamic Traffic Management – Public Safety to the

estimated “best efforts” performance for data traffic over the domestic AT&T 4G LTE network. These reports can be used to assist Customer in evaluating the benefits of AT&T Dynamic Traffic Management – Public Safety.

5.2 Delivery. The AT&T Dynamic Traffic Management – Public Safety performance reports will be made available electronically to Customer via the AT&T Premier web portal (or, if applicable, the AT&T Enterprise on Demand (“EOD”) web portal) through which Customer and its authorized representatives place orders and manage Customer’s wireless account(s) in accordance with the PREMIER (or, if applicable, the EOD) terms and conditions of this GSA Schedule Contract # 47QTCA19D00MV. 5.3 Confidentiality. Notwithstanding the Confidentiality provision set forth in the General Terms and Conditions portion of the GSA Schedule Contract # 47QTCA19D00MV, Customer acknowledges and agrees that the Network Metrics and the performance reports to be provided pursuant as part of AT&T Dynamic Traffic Management constitute AT&T’s highly sensitive, confidential and proprietary network information (the “AT&T Confidential Information”) that is exempt from disclosure under the Freedom of Information Act (5 U.S.C. 552) under Exemption (b) (4), and its disclosure is prohibited under the Trade Secrets Act (18 U.S.C. 1905). Accordingly, Customer shall, for a period of three (3) years following its disclosure to Customer: (a) hold the AT&T Confidential Information in confidence; (b) use the AT&T Confidential Information only for purposes of this Section 5; and (c) not disclose the AT&T Confidential Information to third parties without AT&T’s prior written consent, except that Customer may disclose the AT&T Confidential Information (i) to its employees, agents and contractors having a need-to-know (but only if such agents and contractors are not direct competitors of AT&T and agree in writing to use and disclosure restrictions as restrictive as this Section 5.4); or (ii) to the extent authorized to be revealed by law, government authority or legal process (but only if such disclosure is limited to that which is so authorized and prompt notice if provided to AT&T to the extent practicable and not prohibited by law, government authority or legal process). CUSTOMER ACKNOWLEDGES AND AGREES THAT ANY BREACH OR THREATENED BREACH OF THIS SECTION 5.4 IS LIKELY TO CAUSE AT&T IRREPARABLE HARM FOR WHICH DIRECT MONEY DAMAGES MAY NOT BE SUFFICIENT OR APPROPRIATE. CUSTOMER THEREFORE AGREES THAT THE LIMITATION OF LIABILITY REGARDING INDIRECT, INCIDENTAL, CONSEQUENTIAL, PUNITIVE, RELIANCE, AND SPECIAL DAMAGES CONTAINED IN THE GSA SCHEDULE CONTRACT # 47QTCA19D00MV DOES NOT APPLY TO ANY BREACH OF THIS SECTION 5.4 BY CUSTOMER. IN ADDITION, AT&T IS ENTITLED TO SEEK INJUNCTIVE OR OTHER EQUITABLE RELIEF TO REMEDY OR PREVENT ANY BREACH OR THREATENED BREACH OF THIS SECTION 5.4 TO THE EXTENT ALLOWED BY LAW.

This Amendment to Lookout Mobile Enterprise Security License Agreement (“Amendment”) applies only to users of the Services that are accessing, using, or wish to access or use the Services in their capacity as U.S. government or U.S. public entities or in their capacity as employees of a U.S. government or U.S. public entity. If You are a U.S. government or U.S. public entity or an employee acting on behalf of one of those entities, read on. This Amendment applies to You. If You aren’t, then this Amendment does not apply to you, but Lookout’s Mobile Enterprise Security License Agreement (“License Agreement”) applies to you. Defined terms used, but not defined herein, shall have the meanings given to them in the License Agreement.

This Amendment is an agreement between Lookout, Inc. (“Lookout”) and U.S. Government users of the Service and applies solely to any U.S. Government agency Administrative Users and Members who use or access the Service on behalf of such U.S. Government agency (the

"Agency"). You, as a United States Government entity, are required, when entering into agreements with other parties, to follow applicable federal laws and regulations, including those related to ethics; privacy and security; accessibility; federal records; limitations on indemnification; fiscal law constraints; advertising and endorsements; freedom of information; and governing law and dispute resolution forum.

Lookout and You (together, the "Parties") agree that these modifications to the License Agreement are appropriate to accommodate Your legal status, Your public (in contrast to private) mission, and other special circumstances. Accordingly, the License Agreement are hereby modified by this Amendment as they pertain to Agency's use of the Services.

A. Government entity: For the purposes of this Amendment to the License Agreement, "You" shall mean an Ordering Activity (an entity entitled to order under GSA Schedule contracts as defined in GSA Order ADM 4800.2I, as may be revised from time to time). The Agreement shall not bind in their individual capacity (i) the individual(s) who utilize the Lookout site or Services on Agency's behalf, or (ii) any individual users who happen to be employed by, or otherwise associated with, the Agency. Lookout will look solely to the Agency to enforce any violation or breach of the License Agreement by such individuals when they are acting on behalf of the Agency, subject to federal law. All other defined terms in the standard License Agreement will retain their definitions as set forth in that agreement.

B. Public purpose: Agency shall use the Services solely in furtherance of Agency's public purpose. Any requirement(s) set forth within the License Agreement that use of the Services be for private, personal and/or non-commercial purposes is hereby waived.

C. Advertisements: Lookout hereby agrees not to serve or display any third-party commercial advertisements or solicitations in the publicly available portion of the site displaying content uploaded by or under the control of the Agency. This exclusion shall not extend to house ads, which Lookout may serve on such pages in a non-intrusive manner.

D. Indemnification, Liability, Statute of Limitations: Any provisions in the License Agreement related to indemnification and filing deadlines are hereby waived, and shall not apply except to the extent expressly authorized by law. Liability for any breach of the License Agreement as modified by this Amendment, or any claim arising from the License Agreement as modified by this Amendment, shall be determined under the Federal Tort Claims Act, or other governing federal authority. Federal Statute of Limitations provisions shall apply to any breach or claim.

E. Governing law: Any arbitration, mediation or similar dispute resolution provision in the License Agreement is hereby waived. The License Agreement and this Amendment shall be governed, interpreted and enforced in accordance with applicable federal laws of the United States of America without reference to conflict of laws and exclusive jurisdiction shall be in the appropriate U.S. federal courts. To the extent permitted by federal law, the laws of the State of California (excluding California's choice of law rules) will apply in the absence of applicable federal law.

F. Changes to standard License Agreement: Language in the License Agreement reserving to Lookout the right to change the License Agreement without notice at any time is hereby amended to grant You at least three days advance notice of any material change to the License Agreement. Lookout shall send this notice to the email address You designate at the time You sign up or order the Service, and You shall notify Lookout of any change in the notification email address during the life of the Amendment.

G. Access and use: Lookout acknowledges that the Agency's use of Lookout's Services may energize significant citizen engagement and otherwise become important to the Agency's mission. Language in the License Agreement allowing Lookout to terminate service or close the Agency's account at any time, for any reason, is deleted.

H. Provision on crawlers: Any provision in the License Agreement prohibiting "crawl," "spider" or similar processes is amended to allow the Agency to apply such tools solely to its pages and content, and solely to fulfill Agency's obligations under the Federal Records Act or other applicable federal law or regulation.

I. Ownership of names: Any provision(s) in the License Agreement related to Lookout's ownership of and right to change Your selected user name(s), user ID(s), domain name(s), channel name(s), and group name(s), are modified to reasonably accommodate Agency's proprietary, practical, and/or operational interest in its own publicly-recognized name and the names of Agency programs.

J. Modifications of Agency content: Any right Lookout reserves in the License Agreement to modify or adapt Agency content is limited to technical actions necessary to index, format and display that content. The right to modify or adapt does not include the right to substantively edit or otherwise alter the meaning of the content. In the event Agency discovers that Agency content has been modified in a manner that alters the meaning of such content, Agency may contact Lookout and the Parties shall work together in good faith to resolve the matter. Notwithstanding the foregoing, nothing in this Amendment shall result in an expansion of Your rights as a United States Government entity under the Copyright Act of 1976 (17 U.S.C. §§101 et seq.), specifically including Section 105 of the Act.

K. Limitation of liability: The Parties agree that nothing in the Limitation of Liability clause or elsewhere in the License Agreement in any way grants Lookout a waiver from, release of, or limitation of liability pertaining to, any direct past, current or future violation of federal law by Lookout.

L. No endorsement: Lookout agrees that Your seals, trademarks, logos, service marks, trade names, and the fact that You use Lookout's Services, shall not be used by Lookout in such a manner as to state or imply that Lookout's products or services are endorsed, sponsored or recommended by You or by any other element of the

U.S. Government, or are considered by You or the U.S. Government to be superior to any other products or services. Except for pages whose design and content is under the control of the Agency, or for links to or promotion of such pages, Lookout agrees not to display any Agency or government seals, trademarks, logos, service marks, and trade names on Lookout's homepage or elsewhere on the site unless permission to do so has been granted by the Agency or by other relevant federal government authority. Lookout may list the Agency's name in a publicly available customer list on its homepage or elsewhere so long as the name is not displayed in a more prominent fashion than that of any other third party name.

M. No business relationship created: The Parties are independent entities and nothing in the License Agreement as modified by this Amendment creates an agency, partnership, joint venture, or employer/employee relationship

N. No cost agreement: Nothing in the License Agreement as modified by this Amendment obligates You to expend appropriations or incur financial obligations. The Parties acknowledge and agree that none of the

obligations arising from the License Agreement as modified by this Amendment are contingent upon the payment of fees by one party to the other.

O. Separate future action for fee based Services: Lookout provides Services at a basic level free of charge to the public, but this may change in the future. Agency acknowledges that while Lookout will provide Agency with some Services and features for free, Lookout reserves the right to begin charging for the Services and features at some point in the future. Lookout will provide Agency with at least 30 days advance notice of a change involving the charging of fees for a previously-free service. You also understand that Lookout currently offers other premium and enterprise Services for a fee. The parties understand that fee-based products and services are categorically different than free products and services, and are subject to federal procurement rules and processes. Before the Agency decides to enter into a premium or enterprise subscription, or any other fee-based service that this Lookout or alternative providers may offer now or in the future, You agree: to determine the Agency has a need for those additional services for a fee; to consider the subscription's value in comparison with comparable services available elsewhere; to determine that Agency funds are available for payment; to properly use the Government Purchase Card if that Card is used as the payment method; to review any then-applicable TOS for conformance to federal procurement law; and in all other respects to follow applicable federal acquisition laws, regulations and agency guidelines (including those related to payments) when initiating that separate action.

P. Assignment: Neither party may assign its obligations under the License Agreement as modified by this Amendment to any third party without prior written consent of the other; however, Lookout or its subsidiaries may assign the License Agreement as modified by this Amendment to a subsidiary or parent or successor to its assets or business in accordance with FAR 42.12, provided that the successor assumes Lookout's obligations under the License Agreement as modified by this Amendment.

Q. Termination: Termination may be conducted in accordance with the GSA Schedule contract terms and conditions and applicable federal procurement laws.

R. Posting and availability of this Amendment: Any provision of the License Agreement requiring modifications of its terms to be posted on Lookout's site is inapplicable since this Amendment is of limited, not general, application, and is otherwise waived for this special circumstance. The parties agree this Amendment contains no confidential or proprietary information, and either party may release it to the public at large. You may also post it for the benefit of other U.S. Government agencies interested in using the Service on <http://www.howto.gov> or similar federal informational web sites.

S. Security: Lookout will, in good faith, exercise due diligence using reasonable business practices for IT security, to ensure that systems are operated and maintained in a secure manner, and that management, operational and technical controls are employed to ensure security of systems and data. Recognizing the changing nature of the Web, Lookout will continuously work with users to ensure that its site and Services meet users' requirements for the security of systems and data. Lookout agrees to discuss implementing additional security controls as deemed necessary by the Agency to conform to the Federal Information Security Management Act (FISMA), 44 U.S.C. 3541 et seq., but is under no obligation to provide such additional security controls.

T. Federal Records: Agency acknowledges that use of Lookout's Services may require management of Federal records. Your data may meet the definition of Federal records as determined by the Agency. If Lookout holds Federal records, the Agency and Lookout must manage Federal records in accordance with all applicable records management laws and regulations, including but not limited to the Federal Records Act (44 U.S.C. chs. 21, 29, 31, 33), and regulations of the National Archives and Records Administration (NARA) at 36 CFR Chapter XII Subchapter B). Managing the records includes, but is not limited to, secure storage, retrievability, and proper disposition of all Federal records including transfer of permanently valuable records to NARA in a format and manner acceptable to NARA at the time of transfer. The Agency is responsible for ensuring that Lookout is compliant with applicable records management laws and regulations through the life and termination of its use of the Site and Services.

U. Intellectual property ownership: Except as expressly allowed in the License Agreement, no rights to the Lookout site or Services or any derivative works, inventions, or Lookout product or service modifications are conferred on Agency or any other party. All such rights belong solely to Lookout.

V. Precedence; Further Amendments: If there is any conflict between this Amendment and the License Agreement, or between this Amendment and other terms, rules or policies on the Lookout site, this Amendment shall prevail. This Amendment constitutes an amendment to the License Agreement; any language in the License Agreement indicating it may not be modified or that it alone is the entire agreement between the Parties is waived. Any further amendment must be agreed to by both Parties in writing.

W. Additional Items for Discussion and Possible Inclusion in this Agreement: Lookout understands current federal law, regulation and policy may affect Agency's use of the Lookout's products and services in ways not addressed in the list of clauses above. Much depends on the nature of the products and services offered by the Lookout (which may change from time to time), and how Agency intends to use those services (which also may change). Among the topics Agency may need to discuss with Lookout, and which may lead to the insertion of additional clauses in this Agreement, are Privacy and Accessibility.

1.1. Parties and subject matter.

The provisions of this End User License Agreement (EULA) shall govern the relationship between TeamViewer Germany GmbH, Jahnstr. 30, 73037 Göppingen, Germany ("TeamViewer") and its customers ("Customer") with respect to the licensing by TeamViewer of certain of its software and the provision by TeamViewer of certain services. Accordingly, subject to the terms and conditions of this EULA, TeamViewer may provide Customer with (i) certain software installed on computers of the Customer as well as accessed and used via web browser, and apps for mobile terminals (e.g. iOS, Android) that enable the remote maintenance of computers, video based remote assistance and the performance of online meetings including diverse features (collectively "Software"), (ii) servers for the establishment of encrypted connections (handshake) and for the forwarding of data packets (routing) in connection with the use of the Software ("Server Services"), and (iii) related support services ("Support Services"). The Server Services and the Support Services are collectively referred to herein as "Services".

1.2. Formation and content of the contract for Subscription and Perpetual licenses.

A paid contract pursuant to this EULA for Subscription and Perpetual Software licenses shall be formed, if (i) the Customer consummates the web-based order process on the TeamViewer website (www.teamviewer.com) and, at the end, clicks on the "Purchase" / "Order" / "Subscribe" or similarly named button after having accepted this EULA, or if (ii) the Customer and TeamViewer sign a written order form which references this EULA, or if (iii) the Customer orders by phone and receives an order confirmation attaching the EULA by e-mail. Details regarding the contract (e.g. selected Software, scope of functions, price, term, Services, etc.), will be set forth in the options selected by the Customer from the specifications provided by TeamViewer during the ordering process, or respectively on the order form (hereinafter all consistently referred to as "Order", and hereinafter this EULA and the Order together shall be referred to as the "Paid Contract").

1.3. Formation and content of the contract for Free Version.

A free-of-charge contract pursuant to this EULA shall also be formed between TeamViewer and the Customer if the Customer downloads the Free Version, configures the type of use and installs the Free Version after having accepted this EULA (hereinafter referred to as the "Freemium Contract", and a Freemium Contract or Paid Contract, referred to as a "Contract").

1.4. Users of the Software and/or Services under a Customer's license

The provisions of A. Part I of this EULA shall apply accordingly to those users who are using the Software and/or Services under a Customer's license, e.g. in case of a corporate Customer with a Software license which includes a use of the Customer's and/or its affiliates' employees or representatives. Any such user acknowledges and agrees that its use of the Software and/or Services is subject to the Customer's license and that TeamViewer may, on behalf and upon instruction of the Customer, restrict or prevent the user from making use of the Customer's license.

1.5. Trial Use.

Prior to entering into a Paid Contract, TeamViewer may provide the Customer with the opportunity of a trial use for the Software and the Server Services during a defined trial use period (the "Trial Use"). TeamViewer also provides the Customer with a limited Trial Use license if the Customer installs the Free Version and declares that its use of the Software is (at least partly) for commercial purposes. For any Trial Use, this EULA shall also apply.

1.6. No deviating provisions.

The Contract, including all Orders thereto, contains the entire agreement between the parties with respect to the subject matter hereof, and supersedes all proposals, understandings, representations, warranties, covenants, and any other communications (whether written or oral) between the parties relating thereto and is binding upon the parties and their permitted successors and assigns. Any inconsistent or conflicting terms and conditions contained in any purchase order or similar instrument of Customer shall be of no force or effect, unless TeamViewer has explicitly approved such terms and conditions in writing. This requirement of explicit approval applies in any case, regardless of whether TeamViewer provides Software or Services to the Customer in knowledge of the Customer's general terms and conditions without explicitly objecting to them.

1.7. Electronic commerce obligations.

Sections 312i para. 1 nos. 1, 2 and 3 as well as section 312i para. 1 sentence 2 German Civil Code ("BGB"), which specify certain obligations of TeamViewer in the case of electronic commerce contracts, shall not apply.

1.8. Test period.

If an Order provides for a test period, the Customer may terminate the Paid Contract (and its Order) for the Software within seven (7) calendar days of the conclusion of the Paid Contract. In such a case, the Customer shall be provided with a refund of any prepaid, unused fees (if any) paid to TeamViewer for the applicable Software that is subject to the test period.

2. Product specification, activation, and lifecycle of the Software

2.1. Product specification.

The functions of the Software and a description of any Services are set forth and described in the product description available on the TeamViewer website under this link and on the applicable Order ("Product Specification"). Only this Product Specification shall be relevant to the contractually agreed quality and features of the Software and the Services; any other oral or written statements of TeamViewer shall not be relevant. Some features and functions of the Software or Services provided by TeamViewer may include or depend on certain third-party products and services all of which may be subject to changes by such third parties. Accordingly, such features and functions may be modified or limited by TeamViewer.

2.2. No guarantees.

In case of doubt, guarantees regarding the quality or features made by TeamViewer shall only be interpreted as such if they have been made in writing (including a signature) and are labelled "guarantee".

2.3. Provision, installation and configuration of the Software.

TeamViewer shall provide the Software to the Customer for electronic download. The Customer shall be solely responsible for the installation and configuration of the Software. TeamViewer is not responsible for any installation or configuration.

2.4. Activation of Subscription or Perpetual license.

After completing the Order for a Subscription or Perpetual license, the Customer shall receive (i) a license key or (ii) an activation link for the activation of the license. Once the license key has been entered or activated, the rights of use and functionalities in accordance with the Contract shall be available to the Customer.

2.5. Software Lifecycle Policy.

Use of the Software shall be subject to TeamViewer's Software Lifecycle Policy available for download under this link.

3. Software rights of use

3.1. Non-exclusive right of use.

TeamViewer herewith grants the Customer the non-exclusive, worldwide (subject to applicable export regulations; unless the Customer is expressly granted a limited right to use the license only in a specific territory during the order process), non-transferrable and not sub-licensable right to install, run and use the Software on Customer's computers within the limits of the scope of use specified in the Order and/or this EULA. Notwithstanding the aforesaid, Customer shall be entitled to sublicense the Software in accordance with the applicable scope of Software functions (channel grouping).

3.2. Term of use.

In case of a Subscription, the rights of use granted under the Contract shall be limited in time to the term specified in the applicable Order (cf. section 13 below).

3.3. Scope of use for fee-based licenses of the Software.

Fee-based licenses of the Software – Subscription as well as Perpetual – are available exclusively to businesses/entrepreneurs and not to consumers. The scope of the granted rights and the admissible scope of use (e.g. channels) shall be set forth in the Contract. If the Customer obtains the right to use the Software for commercial use, then the Customer shall be entitled to use the Software for the Customer's own trade or profession or the trade or profession of Customer's Affiliates. For purposes of the foregoing, an "Affiliate" shall mean any other person which directly or indirectly, controls, is controlled by, or is under common control with Customer, including, without limitation, subsidiaries, parent and sister companies. If the Customer obtains a fee-based license that includes the use of the Software and Services by its and/or its Affiliates' employees or representatives, then the Customer shall ensure that any user making use of the Customer's license complies with the terms and conditions of use set forth in this EULA. In case of any non-compliance, the Customer shall be responsible for any such user's acts and/or omissions as for its own actions and/or omissions.

3.4.Scope of use for Free Version.

The use of the Free Version is solely permitted for the Customer's own, private, non-commercial purposes (e.g. free computer support for a spouse/partner). The use of the Free Version for the exercise of the Customer's own trade or profession or the use for purposes for which the Customer directly or indirectly receives compensation (e.g. team work with colleagues, free support provided to third parties which have bought software of the Customer) does not qualify as private use.

3.5.Unauthorized use.

Any use of the Software exceeding the contractually agreed scope of usage is expressly prohibited.

3.6.Source code.

The rights of use granted shall not include any rights to the source code of the Software.

3.7.Prohibited use.

The rights granted pursuant to this EULA shall not include and the Customer shall not be entitled to and shall not allow a third party to (i) attempt to circumvent any technical devices of the Software that are directed at, or have the effect of, enforcing the terms of the EULA; (ii) modify, create derivative works, translate, decompile or create or attempt to create, by reverse engineering or otherwise, the source code or the object code of the Software; (iii) use the Software under any circumstance whatsoever directly or indirectly in a computer service business or service bureau or in a rental or commercial timesharing arrangement or as a spyware; (iv) remove, modify or obscure any copyright, trade secret, confidentiality, trademark, service mark or other proprietary rights, serial number, notice, legend or similar on any copy of the Software, or related data, manuals, documentation or other materials; (v) market, sell, lend, rent, lease, or otherwise distribute, the Software or give or provide it to third parties beyond the right to sublicense the Software in accordance with section 3.1 sentence 2; or (vi) except as otherwise expressly provided herein, assign, sublicense or otherwise transfer any rights in or to the Software.

This shall not affect the Customer's statutory rights, in particular pursuant to section 69e of the German Copyright Act (UrhG).

3.8.Reservation of rights.

As between the parties, TeamViewer retains all right, title and interest in and to the Software (and any new Versions thereof provided by TeamViewer) and in all copies, modifications and derivative works of the Software including, without limitation, all rights to patent, copyright, trade secret, trademark and other proprietary or intellectual property rights.

3.9.Usage analyses, right to audit and self-declaration.

TeamViewer may analyse the Customer's use of the Software and Services for security reasons as well as for product improvement, license auditing and/or marketing purposes. To that end, TeamViewer may, at its sole discretion, also implement technical measures regarding the functionality of the Software and the Server Services to assess whether the Customer's usage pattern is in line with the indicated usage purpose and thus with the chosen license type and to detect whether the contractually agreed scope of use is being exceeded by the Customer. Also, TeamViewer may require the Customer, at any time, to provide a self-declaration regarding its actual scope of use and/or usage pattern.

4.Services provided by TeamViewer

4.1.Server Services.

For the establishment of encrypted remote communication connections between different users of the Software, the Software must communicate with servers of TeamViewer (so-called "handshake"). In addition, it may be necessary for the transmission of data in the context of a session (e.g. online meeting or remote maintenance) that encrypted data packets be forwarded by servers of TeamViewer (so-called "routing"). Such handshake and routing are made available in connection with TeamViewer's Server Services.

TeamViewer provides the Customer with the Server Services subject to the conditions set out in this EULA. It is not part of the Server Services to safeguard an interruption- and latency-free end-to-end connection between different users of the Software. The Customer acknowledges that the Server Services may be unavailable or include latency from time to time due to technical difficulties or due to causes beyond the reasonable control of TeamViewer. Additionally, the Customer acknowledges that the end-to-end connection between different users of the Software is dependent on the Customer's internet connection to the data center as well as the Customer's use of hardware and software (e.g. PC, operating

system) in compliance with system requirements for the Software (pursuant to section 7.3), all of which shall not be included in the services provided by TeamViewer and shall be Customer's responsibility. The respective costs shall be borne by Customer.

4.2.Support Services.

TeamViewer's only obligation for Support Services shall be to provide those specific Support Services set forth and described on the Order (if any), subject to Customer's payment in full for such Support Services. This shall not affect any statutory warranty claims of the Customer.

5.Documentation, Releases, Versions, interfaces, conference numbers

5.1.Documentation.

TeamViewer shall provide a PDF manual retrievable online in German and English. Any further languages may be offered by TeamViewer on a voluntary basis, at TeamViewer's sole discretion. The documentation is available under link. As between the parties, TeamViewer retains all right, title and interest in and to such documentation and in all copies, modifications and derivative works thereof including, without limitation, all rights to patent, copyright, trade secret, trademark and other proprietary or intellectual property rights.

5.2.Minor Releases.

TeamViewer may, at its sole discretion, elect to offer minor releases of the Software for download ("Minor Releases"). The new Software version which contains the Minor Release ("Minor Release Version") may be marked by TeamViewer – in its sole discretion – by a change in the number behind the main version number (e.g. version XX.1, XX.2). Minor Release Versions may contain the correction of errors, security patches as well as minor improvements of functions (e.g. optimizations in the program execution speed) TeamViewer shall have no obligation to provide Minor Release Versions of the Software. If, however, TeamViewer does elect to provide Minor Release Versions of the Software then any Customer shall be obligated by way of a contributory duty (Mitwirkungsobliegenheit) to update the Software at its own cost to the then-current Minor Release Version of the Software as soon as reasonably practicable. All rights of use set forth herein that are applicable to the Software shall also apply to Minor Releases.

5.3.Major Releases.

TeamViewer may, at its sole discretion, also elect to offer major releases of the Software for download ("Major Releases", Minor Releases and Major Releases, both a "Release"), usually comprising more extensive modifications of the Software functions. The new Software version which contains the Major Release ("Major Release Version", Minor Release Versions and Major Release Versions, both a "Version") may be marked by TeamViewer – in its sole discretion – by a change of the main version number (e.g. version XX, YY). TeamViewer shall not be obligated to provide any Major Release Versions of the Software. In the event that TeamViewer elects to provide a Major Release Version of the Software, TeamViewer may require the Customers of Perpetual licenses to pay an additional fee for use of such new Major Release Version. The Customers of Subscription licenses and Free Version shall be obligated by way of a contributory duty (Mitwirkungsobliegenheit) to upgrade to the new Major Release Version as soon as reasonably practicable. All rights of use set forth herein that are applicable to the Software shall also apply to Major Releases.

5.4.Programming interfaces.

At TeamViewer's discretion, the Software or Server Services may provide programming interfaces or other software interfaces ("API") which may include applications of third parties or of the Customer ("Third-party Software") that can communicate with the Software or respectively the servers of TeamViewer. TeamViewer may change or switch off APIs at any time without any obligation or liability to Customer. The respective provider shall be responsible for the Third-party Software. The provisions of the Contract shall not apply to any such Third-party Software and TeamViewer shall have no liability for any Third-party Software.

5.5.Telephone conference number.

If, in the context of its services, TeamViewer provides a telephone conference number for dialling in as an alternative to the audio conference function of the Software, the provider of the respective telecommunication service (and not TeamViewer) shall be the owner of the telephone connection of the respective number. The use of the telephone conference number shall be subject to a separate fee and is not included in the user fee pursuant to the Contract. If applicable, the invoicing shall be performed by the telephone provider of the participant.

6.Changes to the Software or Services

TeamViewer may change the Software in the context of updates and/or Releases as well as the Server Services (including the system requirements) for good cause. Such good cause shall exist especially if the change is required due to (i) a necessary adaptation required by applicable law, (ii) changes to applicable technical framework conditions (new encryption standards), or (iii) the protection of the system security.

7.Obligations and duties of the Customer

7.1.Lawful use.

The Customer shall use the Software and the Server Services only in accordance with the provisions of the Contract and in accordance with laws and regulations applicable to such use and shall not infringe any third-party rights in connection with such use. When using the Software and Server Services, the Customer shall, in particular, comply with all applicable data protection and export control provisions.

7.2.Export controls and economic sanctions.

Customer acknowledges that the Software and related technical data as well as the Services (collectively "Controlled Technology") are subject to the import and export control and economic sanctions laws of Germany, the European Union and the United States, specifically the U.S. Export Administration Regulations (EAR) and the laws of any country where Controlled Technology is imported or re-exported. Customer agrees to comply with all relevant laws and will not export, re-export, or transfer any Controlled Technology in contravention of German, EU or U.S. law nor to any restricted country, entity, or person for which an export license or other governmental approval is required. Customer further agrees that it will not export, transfer, or sell any Controlled Technology for use in connection with chemical, biological, or nuclear weapons, or missiles, drones or space launch vehicles capable of delivering such weapons.

Customer represents that it is not (i) a Restricted Party (as defined below); (ii) currently engaging in any transaction, activity or conduct that could result in a violation of applicable Sanctions (as defined below) and warrants that it will not make available the Controlled Technology directly or indirectly, to, or for the benefit of, any Restricted Party.

Section 7.2 shall only apply to the Customer to the extent that the provisions herein would not result in (i) any violation of, conflict with or liability under EU Regulation (EC) 2271/1996 or (ii) a violation or conflict with section 7 German Foreign Trade Regulation (Außenwirtschaftsverordnung) or a similar antiboycott statute.

"Restricted Party" means any person (i) designated on any Sanctions List, (ii) that is, or is part of, a governmental authority of a Sanctioned Territory, (iii) owned or controlled by, or acting on behalf of, any of the foregoing, (iv) located, organized, or resident in, or operating from, a Sanctioned Territory, or (v) otherwise targeted under any Sanctions.

"Sanctioned Territory" means any country or other territory subject to a general export, import, financial or investment embargo under Sanctions.

"Sanctions" means economic or financial sanctions or trade embargoes or other comprehensive prohibitions against transaction activity pursuant to anti-terrorism laws or export control laws imposed, administered or enforced from time to time by the US, EU, UN, Germany, or any country where Controlled Technology is imported or re-exported.

7.3.System requirements.

The requirements for the Customer's software and hardware are specified in the manuals and the Product Specification (cf. sections 2.1 and 5.1). The Customer shall familiarize itself with the system requirements prior to using the Software and use the Software in accordance with these system requirements.

8.Confidentiality and data protection

8.1.Confidentiality.

The products offered by TeamViewer, including the Software, the Services and all manuals, data, documentation, and other materials provided by TeamViewer, contain essential components (e.g. algorithm and logic), constituting confidential information and trade secrets and shall be deemed TeamViewer's Confidential Information. Customer will not disclose TeamViewer's Confidential Information to any third party and will use TeamViewer's Confidential Information only in accordance with the Contract.

8.2.Data protection.

TeamViewer strictly complies with applicable data protection law. TeamViewer collects, processes and uses personal data of Customer as controller as set out and in accordance with the Product Privacy Policy available for download under this link. Additionally, TeamViewer acts as processor for Customer's personal data as set out and in accordance with the terms and conditions of the data processing agreement contained under C.

Non-personal or anonymous data may be collected automatically to improve functionality and the Customers' experience with the Software and the Services. The Customer agrees that TeamViewer owns all rights in and is free to use any such non-personal or anonymous data in any way it deems fit for development, diagnostic, corrective as well as marketing or any other purposes.

9.Limitation of liability

9.1.Exclusion in certain cases.

TeamViewer shall be liable for damages in accordance with the statutory provisions, if such damages

(i) have been caused by TeamViewer intentionally or grossly negligently, or

(ii) have been caused by TeamViewer by slight negligence and are due to breaches of duty which jeopardize the fulfilment of the purpose of the Contract, or due to a breach of duties the fulfilment of which would make the proper performance of the Contract possible in the first place and in the fulfilment of which the Customer may trust (breach of material obligations).

Any further liability of TeamViewer shall be excluded irrespective of the legal basis, unless TeamViewer is mandatorily liable in accordance with the law, in particular due to injury to life, body or health of an individual, due to the provision of an express warranty, fraudulent concealment of a defect or due to the provisions of the German Product Liability Act.

9.2.Limitation of the amount.

In the case of section 9.1 sentence 1 (ii) (slightly negligent breach of material obligations), TeamViewer shall only be subject to limited liability for damages that can be typically expected in the case of a contract of this type.

9.3.Limitation of liability in case of Free Version.

In deviation from sections 9.1 and 9.2, TeamViewer's liability for damages caused during a provision and use of Free Version the provisions on lending (section 598 et seq. BGB), shall take precedence, i.e., in particular, the provisions that TeamViewer's liability for defects shall be limited to fraud in accordance with section 600 BGB, that liability in accordance with section 599 BGB shall be limited to intent and gross negligence and that the shortened limitation period of six months in accordance with section 606 BGB shall apply.

9.4.Employees and agents of TeamViewer.

The limitations of liability pursuant to sections 9.1 to 9.3 shall also apply to claims against employees or agents of TeamViewer.

10.Final provisions

10.1.Changes to the EULA.

TeamViewer shall be entitled to amend this EULA upon no less than four (4) weeks prior notice to Customer. Unless Customer notifies TeamViewer in writing of its objection to such amendment within fifteen (15) days of its receipt of notice of such amendment from TeamViewer then the amendment shall be deemed accepted by Customer. If, on the other hand, Customer notifies TeamViewer in writing of its objection to such amendment within fifteen (15) days of its receipt of notice of such amendment from TeamViewer then the Contract shall be continued under the existing terms without giving effect to such amendment.

10.2.Communication via email.

Unless otherwise specified in the Contract, any notifications and declarations in connection with the Contract may also be made by email. To this end, TeamViewer may use the email address the Customer provided upon registration or in the TeamViewer account. The Customer shall be responsible for checking its emails regularly and, if necessary, updating its email address. TeamViewer's contact information is available under this link.

10.3.Applicable law.

The Contract and any disputes in connection with it shall be exclusively governed by the law of the Federal Republic of Germany, excluding the United Nations Convention on Contracts for the International Sale of Goods.

10.4.Place of jurisdiction.

The exclusive place of jurisdiction shall be Stuttgart, Germany. TeamViewer shall still be entitled to file a suit at the Customer's domicile.

10.5.Severability; waiver.

If any provision of the Contract is found partly or wholly illegal or unenforceable, such provision shall be enforced to the maximum extent permissible, and remaining provisions of the Contract shall remain in full force and effect. A waiver of any breach or default under the Contract shall not constitute a waiver of any other subsequent breach or default.

Part II

Supplementary provisions regarding Subscription

11.User fee, price changes and late payment in case of Subscription

11.1.User fee.

During the term of the Contract, the Customer shall pay TeamViewer the recurring user fee specified in the Order for the rights of use to the Software and the provision of the Services. If the main seat of the Customer or its residence is in Australia, payments shall be collected and processed by TeamViewer Pty. Limited, Level 1/ 118 Greenhill Road, SA 5061 Unley, +61 (0)8 7325 6900.

11.2.Due date.

Unless otherwise specified in the Order, all fees shall be due upon invoicing.

11.3.Changes of the scope of use.

Customer shall have the right at any time to increase the ordered scope of use or to switch to a higher service package by entering into an additional Order. Any reduction in use or a switch to a lower package, however, shall only be available at the expiration of the then applicable term

(cf. section 13.1). In the case of an increase of the scope of use during the Initial Term or a Renewal Term, the additional fees shall be invoiced on a pro rata basis based on TeamViewer's then current applicable price lists.

11.4.Invoicing.

Unless otherwise specified in the Order, TeamViewer shall invoice the user fee at the beginning of the Contract and subsequently at the beginning of each Renewal Term. The invoicing shall be made (i) online via an email to the email address provided by the Customer or (ii) – if such an account has been created – through an upload into the Customer's TeamViewer account and/or the notification of the Customer via email. The Customer shall only be entitled to the delivery of an invoice by mail, if the Customer requests the invoice from TeamViewer and pays the respective fee specified in TeamViewer's applicable price list.

11.5.Payment methods.

The invoiced amounts may be paid by credit card. Further payment methods (e.g. SEPA direct debit or check) can be selected during the ordering process. If the Customer selects PayPal debit authorization as payment method, if provided for, the Customer may cancel the debit method on its PayPal account profile. Such cancellation shall be made no later than one day prior to the next debit date.

11.6.Prices, fees, and tax.

The Customer shall be required to pay all fees and charges specified in the Order according to the stipulated payment terms to TeamViewer. Such fees do not include any sales, use, consumptions, value-added, or any other tax (including applicable withholding tax) and Customer is responsible for the payment of any and all such taxes. Bank and credit card charges shall be borne by the Customer. All fees and charges shall be payable immediately and in the currency specified on the Order, unless another payment period was agreed.

11.7.Price changes.

TeamViewer shall be entitled to reasonably increase the user fee effective as of the end of the Initial Term or any Renewal Term. TeamViewer must announce the increase at least 28 calendar days beforehand. The Customer may object to the increase within 14 calendar days of the announcement, in which case the Contract shall be terminated at the end of the respective Initial Term or Renewal Term. If the Customer does not object, this shall be deemed as his consent to the increase. TeamViewer shall inform the Customer in its notification about this effect of non-objection.

11.8.Late payment.

The statutory provisions, in particular sections 286 and 288 BGB, shall apply to the occurrence of default and default interest. In addition, the following provisions shall apply:

(i) Reminder fee. In the case of a second payment reminder, TeamViewer shall be entitled to charge a suitable reminder fee.

(ii) Suspension in case of default. If the Customer defaults on the payment of the user fee, TeamViewer shall be entitled to suspend the Server Services temporarily ("Suspension"). However, TeamViewer shall warn the Customer of the Suspension reasonably in advance, e.g. via email or notifications in the Software. The Suspension shall not take place or respectively be stopped once the Customer has made his payment in full. During the Suspension period, no connections can be established from and to the installations of the Customer's Software. The Customer's obligation to pay the user fee shall continue to be in effect during the Suspension period.

(iii) Termination in case of default. TeamViewer may terminate the Contract if the Customer defaults on the payment of the user fee and fails to cure the breach within fifteen (15) days of receiving notice from TeamViewer. Termination is in addition to (and not in lieu of) any other rights and remedies available to TeamViewer hereunder or at law.

12.Warranty claims (warranty) in case of Subscription

12.1.Freedom from defects, quality and features.

TeamViewer shall provide the Software free from any defects in quality and title and maintain it in a condition suitable for the contractual use during the term of the Contract.

12.2.Restrictions.

The obligation to preserve the Software pursuant to section 12.1. above does not include the right to (i) any adaptation of the Software to new operating systems or new operating system versions, (ii) the adaptation of the Software to the scope of functions of competing products, (iii) the establishment of compatibility with new data formats or Releases (cf. sections 5.2 and 5.3) or (iv) the provision of any functionality which is no longer supported by TeamViewer.

12.3.Elimination of errors and defects.

The Customer shall report any errors and defects in the Software or the Server Services preferably via the web portal provided by TeamViewer under this link and shall, as far as this is possible and can be reasonably expected, explain the circumstances of the occurrence of the errors/defects in more detail (e.g. screenshots, protocol data). TeamViewer shall eliminate errors/defects within a reasonable period of time. TeamViewer will be able to eliminate errors/defects in the form of updates and/or Releases as long as the contractual scope of function is retained, and the

transfer does not lead to significant disadvantages. Installation expenses shall be borne by the Customer. In addition, TeamViewer shall be entitled to show the Customer temporary ways for circumventing the errors/defects and eliminate the errors/defects at a later point in time through the adaptation of the Software or the Server Services, if the Customer can reasonably be expected to accept such a temporary solution.

12.4.Termination.

A termination by the Customer in accordance with section 543 para. 2 sentence 1 no. 1 BGB due to the non-permission of the use in conformity with the Contract shall only be admissible if TeamViewer had been given enough opportunities to eliminate the error/shortcoming and has failed to do so or the subsequent performance was unsuccessful.

12.5.Initial impossibility.

The strict liability for initial defects in accordance with section 536a para. 1, alternative 1 BGB shall be excluded. This shall not affect any fault-based liability.

12.6.Limitation period.

Warranty claims shall expire within twelve (12) months. This shall not apply to warranty claims for which TeamViewer is inevitably liable in accordance with the law (e.g. in case of fraud, cf. section 9.1 sentence 2).

12.7.Statutory provisions.

In addition, the statutory provisions regarding warranty claims shall apply subject to section 9.

13.Term and termination in case of Subscription

13.1.Term and ordinary termination.

Unless otherwise specified in the Order, the Contract has an initial term of twelve (12) months ("Initial Term") and shall subsequently be renewed automatically for additional periods of twelve (12) months (each a "Renewal Term"), unless either party notifies the other party no less than twenty eight (28) days prior to the end of the Initial Term or any Renewal Term that it has elected not to renew the Contract.

13.2.Extraordinary termination.

TeamViewer shall be entitled to extraordinarily terminate the Contract for breach in case of section 11.8. (iii) as well as in case of section 3.2 of the DPA (cf. C. below).

Either party's right to terminate for good cause remains unaffected.

13.3.Termination notice.

Unless otherwise specified above, termination does not require a notice period. Termination must be made in writing (signed letter, telefax) or in text form (e.g. email). The Customer shall address its termination notice to TeamViewer Germany GmbH, Jahnstrasse 30, 73037 Göppingen, Germany or respectively to our contact center. TeamViewer may also terminate a Contract by means of a respective notification within the Software.

13.4.Consequences of the termination of the Contract.

Upon termination or expiration of the Contract, the Customer shall delete the Software from its computers and refrain from any further use of the Software. Upon the termination or expiration of the Contract, the Customer shall no longer have access to the data stored by Customer in the Software, the TeamViewer account and the TeamViewer Management Console. The Customer shall be solely responsible for exporting the data – as far as possible – prior to the termination or expiration of the term of the Contract by means of the Software functions and to store it for further use. TeamViewer shall not be obligated to any further release of data. Upon termination or expiration of the Contract, TeamViewer shall delete the Customer's data that is processed for the purpose of performance of the Contract, unless TeamViewer is obligated by law to store it. If a deletion is only possible with unreasonable efforts (e.g. in backups), TeamViewer shall be entitled to restrict the processing of such data. This shall not affect TeamViewer's right to use non-personal or anonymous data in accordance with section 8.2.

Part III

Supplementary provisions regarding Perpetual licenses

14.Price and late payment in case of a Perpetual license

14.1.Price.

The Customer shall pay TeamViewer the fees specified in the Order.

14.2.Due date.

Unless otherwise specified in the Order, all fees shall be due upon invoicing.

14.3.Invoicing.

Unless otherwise specified, TeamViewer shall invoice the fee immediately upon the parties entering into the Contract. The invoicing shall be made (i) online via an email to the email address provided by the Customer or (ii) – if such an account has been created – through an upload into the Customer's TeamViewer account and the notification of the Customer via email. The Customer shall only be entitled to the delivery of an invoice by mail, if the Customer requests the invoice from TeamViewer and pays the respective fee specified in TeamViewer's then current applicable price list.

14.4.Payment methods.

The invoiced amounts may be paid by credit card. Further payment methods (e.g. SEPA direct debit or check) may be offered by TeamViewer as well. If the Customer selects PayPal debit authorization as payment method, if provided for, the Customer may cancel the debit method on its PayPal account profile. Such cancellation shall be made no later than one day prior to the next debit date.

14.5.Prices, fees, and tax.

The Customer shall be required to pay all fees and charges specified in the Order according to the stipulated payment terms to TeamViewer. Such fees do not include any sales, use, consumptions, value-added, or any other tax (including applicable withholding tax) and Customer is responsible for the payment of any and all taxes. Bank and credit card charges shall be borne by the Customer. All fees and charges shall be payable immediately and in the currency specified on the Order, unless another payment period was agreed.

14.6.Late payment.

Section 11.8. above shall also apply to any Perpetual licenses to the Software.

15.Warranty claims (warranty) in case of Perpetual licence

15.1.Freedom from defects and quality.

TeamViewer shall provide the Software free from any defects in quality and title.

15.2.Elimination of errors and defects.

The Customer shall report any errors and defects in the Software or the Server Services preferably via the web portal provided by TeamViewer under this link and shall, as far as this is possible and can be reasonably expected, explain the circumstances of the occurrence of the errors/defects in more detail (e.g. screenshots, protocol data). TeamViewer shall eliminate errors/defects within a reasonable period of time. TeamViewer may eliminate errors/defects in the form of Releases as long as the contractual scope of function is retained and the transfer does not lead to significant disadvantages. Installation expenses shall be borne by the Customer. In addition, TeamViewer shall be entitled to show the Customer temporary ways for circumventing the errors/defects and may eliminate the errors/defects at a later point in time through the adaptation of the Software or the Server Services, if the Customer can reasonably be expected to accept such a temporary solution. The Customer may assert rescission and reduction rights only if the subsequent performance was unsuccessful.

15.3.Restrictions.

The obligation pursuant to section 15.1. above does not include the right to (i) any adaptation of the Software to new operating systems or new operating system versions, (ii) the adaptation of the Software to the scope of functions of competing products, (iii) the establishment of compatibility with new data formats or Releases (cf. sections 5.2 and 5.3) or (iv) the provision of any functionality which is no longer supported by TeamViewer.

15.4.Limitation period.

Warranty claims shall expire within twelve (12) months from provision of the Software for download. This shall not apply to warranty claims for which TeamViewer is inevitably liable in accordance with the law (e.g. in case of fraud, cf. section 9.1 sentence 2).

15.5.Inspection and notification obligation.

Section 377 BGB shall apply.

15.6.Statutory provisions.

In addition, the statutory provisions regarding warranty claims shall apply subject to section 9.

16.Term and termination in case of a Perpetual license.

Unless otherwise specified in the Order, the Contract runs for an indefinite period of time. TeamViewer shall be entitled to extraordinarily terminate the Contract in a case of section 11.8(iii) as well as in case of section 3.2 of the DPA (cf. C. below). Either party shall be entitled to terminate the Contract for good cause. Sections 13.3 and 13.4 shall apply accordingly.

Part IV

Supplementary provisions regarding Free Version

17.Product Specification in case of Free Version.

A key element of and part of the Product Specification for the Free Version is the display and receipt of personalized marketing messages in the Software as well as the processing of personal data necessary to provide such personalization.

TeamViewer permits the Customer to use the Free Version as an unregistered user without setting up a TeamViewer account. As part of the Product Specification for the Free Version, TeamViewer may set limits for an unregistered user and, upon such limits being reached, require the Customer to set up a TeamViewer account for further use of the Free Version.

18. Server Services in case of Free Version.

In case of Free Version, the Customer has no claim to demand the provision of the Server Services and TeamViewer may in its sole discretion discontinue or modify the Server Services at any time.

19. Term and termination in case of Free Version.

The Contract shall enter into effect upon its conclusion and be concluded for an unlimited period of time. Either party may terminate the Contract at any time without giving reasons or notice.

If the Customer wishes to opt-out of receiving personalized marketing messages, any such declaration shall be interpreted as a termination of the Contract and the Customer shall have no right to use the Free Version thereafter. If, however, the Customer continues to use the Free Version after providing such a declaration, the continued use shall be understood as acceptance of and be governed by the terms of this EULA (including, for the avoidance of doubt, section 17 above).

Either party's right to terminate for good cause remains unaffected. Sections 13.3 and 13.4 shall apply accordingly.

B.

Part I of this EULA contains the general provisions, Part II shall apply to any temporary, i.e. term- or subscription-based licenses to use Software ("Subscription") while Part III shall apply to any perpetual Software licenses ("Perpetual") and Part IV to any free-of-charge version of the Software ("Free Version").

Part I

General provisions

1. General content of the contract

1.1. Parties and subject matter.

The provisions of this End User License Agreement (EULA) shall govern the relationship between TeamViewer Germany GmbH, Jahnstr. 30, 73037 Göppingen, Germany ("TeamViewer") and its customers ("Customer") with respect to the licensing by TeamViewer of certain of its software and the provision by TeamViewer of certain services. Accordingly, subject to the terms and conditions of this EULA, TeamViewer may provide Customer with (i) certain software installed on computers of the Customer as well as accessed and used via web browser, and apps for mobile terminals (e.g. iOS, Android) that enable the remote maintenance of computers, video based remote assistance and the performance of online meetings including diverse features (collectively "Software"), (ii) servers for the establishment of encrypted connections (handshake) and for the forwarding of data packets (routing) in connection with the use of the Software ("Server Services"), and (iii) related support services ("Support Services"). The Server Services and the Support Services are collectively referred to herein as "Services".

1.2. Formation and content of the contract for Subscription and Perpetual licenses.

A paid contract pursuant to this EULA for Subscription and Perpetual Software licenses shall be formed, if (i) the Customer consummates the web-based order process on the TeamViewer website (www.teamviewer.com) and, at the end, clicks on the "Purchase" / "Order" / "Subscribe" or similarly named button after having accepted this EULA, or if (ii) the Customer and TeamViewer sign a written order form which references this EULA, or if (iii) the Customer orders by phone and receives an order confirmation attaching the EULA by e-mail. Details regarding the contract (e.g. selected Software, scope of functions, price, term, Services, etc.), will be set forth in the options selected by the Customer from the specifications provided by TeamViewer during the ordering process, or respectively on the order form (hereinafter all consistently referred to as "Order", and hereinafter this EULA and the Order together shall be referred to as the "Paid Contract").

1.3. Formation and content of the contract for Free Version.

A free-of-charge contract pursuant to this EULA shall also be formed between TeamViewer and the Customer if the Customer downloads the Free Version, configures the type of use and installs the Free Version after having accepted this EULA (hereinafter referred to as the "Freemium Contract", and a Freemium Contract or Paid Contract, referred to as a "Contract").

1.4. Users of the Software and/or Services under a Customer's license

The provisions of B. Part I of this EULA shall apply to those users who are using the Software and/or Services under a Customer's license, e.g. in case of a corporate Customer with a Software license which includes a use of the Customer's and/or its affiliates' employees or representatives. Any such user acknowledges and agrees that its use of the Software and/or Services is subject to the Customer's license and that TeamViewer may, on behalf and upon instruction of the Customer, restrict or prevent the user from making use of the Customer's license.

1.5.Trial Use.

Prior to entering into a Paid Contract, TeamViewer may provide the Customer with the opportunity of a trial use for the Software and the Server Services during a defined trial use period (the "Trial Use"). TeamViewer also provides the Customer with a limited Trial Use license if the Customer installs the Free Version and declares that its use of the Software is (at least partly) for commercial purposes. For any Trial Use, this EULA shall also apply.

1.6.1.6. No deviating provisions.

This Agreement and these License Terms constitute an addendum to a solicitation or contract, as defined in Federal Acquisition Regulation 52.212-4(s).

1.7.1.7. Test period.

If an Order provides for a test period, the Customer may terminate the Paid Contract (and its Order) for the Software within seven (7) calendar days of the conclusion of the Paid Contract. In such a case, the Customer shall be provided with a refund of any prepaid, unused fees (if any) paid to TeamViewer for the applicable Software that is subject to the test period.

2.Product specification, activation, and lifecycle of the Software

2.1.Product specification.

The functions of the Software and a description of any Services are set forth and described in the product description available on the TeamViewer website and on the applicable Order ("Product Specification"). Only this Product Specification shall be relevant to the contractually agreed quality and features of the Software and the Services; any other oral or written statements of TeamViewer shall not be relevant. Some features and functions of the Software or Services provided by TeamViewer may include or depend on certain third-party products and services all of which may be subject to changes by such third parties. Accordingly, such features and functions may be modified or limited by TeamViewer.

2.2.Provision, installation and configuration of the Software.

TeamViewer shall provide the Software to the Customer for electronic download. The Customer shall be solely responsible for the installation and configuration of the Software. TeamViewer is not responsible for any installation or configuration.

2.3.Activation of Subscription or Perpetual license.

After completing the Order for a Subscription or Perpetual license, the Customer shall receive (i) a license key or (ii) an activation link for the activation of the license. Once the license key has been entered or activated, the rights of use and functionalities in accordance with the Contract shall be available to the Customer.

2.4.Software Lifecycle Policy.

Use of the Software shall be subject to TeamViewer's Software Lifecycle Policy.

3.Software rights of use

3.1.Non-exclusive right of use.

TeamViewer herewith grants the Customer the non-exclusive, worldwide (subject to applicable export regulations; unless the Customer is expressly granted a limited right to use the license only in a specific territory during the order process), non-transferrable and not sub-licensable right to install, run and use the Software on Customer's computers within the limits of the scope of use specified in the Order and/or this EULA. Notwithstanding the aforesaid, Customer shall be entitled to sublicense the Software in accordance with the applicable scope of Software functions (channel grouping).

3.2.Term of use.

In case of a Subscription, the rights of use granted under the Contract shall be limited in time to the term specified in the applicable Order (cf. section 14 below).

3.3.Scope of use for fee-based licenses of the Software.

Fee-based licenses of the Software are available exclusively to businesses/entrepreneurs and not to consumers. The scope of the granted rights and the admissible scope of use (e.g. channels) shall be set forth in the Contract. If the Customer obtains the right to use the Software for commercial use, then the Customer shall be entitled to use the Software for the Customer's own trade or profession or the trade or profession of Customer's Affiliates. For purposes of the foregoing, an "Affiliate" shall mean any other person which directly or indirectly, controls, is controlled by, or is under common control with Customer, including, without limitation, subsidiaries, parent and sister companies. If the Customer obtains a fee-based license that includes the use of the Software and Services by its and/or its Affiliates' employees or representatives, then the Customer shall ensure that any user making use of the Customer's license complies with the terms and conditions of use set forth in this EULA. In case of any non-compliance, the Customer shall be responsible for any such user's acts and/or omissions as for its own actions and/or omissions.

3.4. Scope of use for Free Version.

The use of the Free Version is solely permitted for the Customer's own, private, non-commercial purposes (e.g. free computer support for a spouse/partner). The use of the Free Version for the exercise of the Customer's own trade or profession or the use for purposes for which the Customer directly or indirectly receives compensation (e.g. team work with colleagues, free support provided to third parties which have bought software of the Customer) does not qualify as private use.

3.5. Unauthorized use.

Any use of the Software exceeding the contractually agreed scope of usage is expressly prohibited.

3.6. Source code.

The rights of use granted shall not include any rights to the source code of the Software.

3.7. Prohibited use.

The rights granted pursuant to this EULA shall not include and the Customer shall not be entitled to and shall not allow a third party to (i) attempt to circumvent any technical devices of the Software that are directed at, or have the effect of, enforcing the terms of the EULA; (ii) modify, create derivative works, translate, decompile or create or attempt to create, by reverse engineering or otherwise, the source code or the object code of the Software; (iii) use the Software under any circumstance whatsoever directly or indirectly in a computer service business or service bureau or in a rental or commercial timesharing arrangement or as a spyware; (iv) remove, modify or obscure any copyright, trade secret, confidentiality, trademark, service mark or other proprietary rights, serial number, notice, legend or similar on any copy of the Software, or related data, manuals, documentation or other materials; (v) market, sell, lend, rent, lease, or otherwise distribute, the Software or give or provide it to third parties beyond the right to sublicense the Software in accordance with section 3.1 sentence 2; or (vi) except as otherwise expressly provided herein, assign, sublicense or otherwise transfer any rights in or to the Software.

3.8. Reservation of rights.

As between the parties, TeamViewer retains all right, title and interest in and to the Software (and any new Versions thereof provided by TeamViewer) and in all copies, modifications and derivative works of the Software including, without limitation, all rights to patent, copyright, trade secret, trademark and other proprietary or intellectual property rights.

3.9. Usage analyses, right to audit and self-declaration.

TeamViewer may analyse the Customer's use of the Software and Services for security reasons as well as for product improvement, license auditing and/or marketing purposes. To that end, TeamViewer may, at its sole discretion, also implement technical measures regarding the functionality of the Software and the Server Services to assess whether the Customer's usage pattern is in line with the indicated usage purpose and thus with the chosen license type and to detect whether the contractually agreed scope of use is being exceeded by the Customer. Also, TeamViewer may require the Customer, at any time, to provide a self-declaration regarding its actual scope of use and/or usage pattern.

4. Services provided by TeamViewer

4.1. Server Services.

For the establishment of encrypted remote communication connections between different users of the Software, the Software must communicate with servers of TeamViewer (so-called "handshake"). In addition, it may be necessary for the transmission of data in the context of a session (e.g. online meeting or remote maintenance) that encrypted data packets be forwarded by servers of TeamViewer (so-called "routing"). Such handshake and routing are made available in connection with TeamViewer's Server Services.

TeamViewer provides the Customer with the Server Services subject to the conditions set out in this EULA. It is not part of the Server Services to safeguard an interruption- and latency-free end-to-end connection between different users of the Software. The Customer acknowledges that the Server Services may be unavailable or include latency from time to time due to technical difficulties or due to causes beyond the reasonable control of TeamViewer. Additionally, the Customer acknowledges that the end-to-end connection between different users of the Software is dependent on the Customer's internet connection to the data center as well as the Customer's use of hardware and software (e.g. PC, operating system) in compliance with system requirements for the Software (pursuant to section 7.4), all of which shall not be included in the services provided by TeamViewer and shall be Customer's responsibility.

4.2. Support Services.

TeamViewer's only obligation for Support Services shall be to provide those specific Support Services set forth and described on the Order (if any), subject to Customer's payment in full for such Support Services.

5. Documentation, Releases, Versions, interfaces, conference numbers.

5.1. Documentation.

TeamViewer shall provide a PDF manual retrievable online in German and English. Any further languages may be offered by TeamViewer on a voluntary basis, at TeamViewer's sole discretion. The documentation is available under this link. As between the parties, TeamViewer retains all

right, title and interest in and to such documentation and in all copies, modifications and derivative works thereof including, without limitation, all rights to patent, copyright, trade secret, trademark and other proprietary or intellectual property rights.

5.2.Minor Releases.

TeamViewer may, at its sole discretion, elect to offer minor releases of the Software for download ("Minor Releases"). The new Software version which contains the Minor Release ("Minor Release Version") may be marked by TeamViewer – in its sole discretion – by a change in the number behind the main version number (e.g. version XX.1, XX.2). Minor Release Versions may contain the correction of errors, security patches as well as minor improvements of functions (e.g. optimizations in the program execution speed) TeamViewer shall have no obligation to provide Minor Release Versions of the Software. If, however, TeamViewer does elect to provide Minor Release Versions of the Software then any Customer shall be obligated by way of a contributory duty to update the Software at its own cost to the then-current Minor Release Version of the Software as soon as reasonably practicable. All rights of use set forth herein that are applicable to the Software shall also apply to Minor Releases.

5.3.Major Releases.

TeamViewer may, at its sole discretion, also elect to offer major releases of the Software for download ("Major Releases", Minor Releases and Major Releases, both a "Release"), usually comprising more extensive modifications of the Software functions. The new Software version which contains the Major Release ("Major Release Version", Minor Release Versions and Major Release Versions, both a "Version") may be marked by TeamViewer – in its sole discretion – by a change of the main version number (e.g. version XX, YY). TeamViewer shall not be obligated to provide any Major Release Versions of the Software. In the event that TeamViewer elects to provide a Major Release Version of the Software, TeamViewer may require the Customers of Perpetual licenses to pay an additional fee for use of such new Major Release Version. The Customers of Subscription licenses and Free Version shall be obligated by way of a contributory duty to upgrade to the new Major Release Version as soon as reasonably practicable. All rights of use set forth herein that are applicable to the Software shall also apply to Major Releases.

5.4.Programming interfaces.

At TeamViewer's discretion, the Software or Server Services may provide programming interfaces or other software interfaces ("API") which may include applications of third parties or of the Customer ("Third-party Software") that can communicate with the Software or respectively the servers of TeamViewer. TeamViewer may change or switch off APIs at any time without any obligation or liability to Customer. The respective provider shall be responsible for the Third-party Software. The provisions of the Contract shall not apply to any such Third-party Software and TeamViewer shall have no liability for any Third-party Software.

5.5.Telephone conference number.

If, in the context of its services, TeamViewer provides a telephone conference number for dialling in as an alternative to the audio conference function of the Software, the provider of the respective telecommunication service (and not TeamViewer) shall be the owner of the telephone connection of the respective number. The use of the telephone conference number shall be subject to a separate fee and is not included in the user fee pursuant to the Contract. If applicable, the invoicing shall be performed by the telephone provider of the participant.

6.Changes to the Software or Services.

TeamViewer may change the Software in the context of updates and/or Releases as well as the Server Services (including the system requirements) for good cause. Such good cause shall exist especially if the change is required due to (i) a necessary adaptation required by applicable law, (ii) changes to applicable technical framework conditions (new encryption standards), or (iii) the protection of the system security.

7.Obligations and duties of the Customer

7.1.Lawful use.

The Customer shall use the Software and the Server Services only in accordance with the provisions of the Contract and in accordance with laws and regulations applicable to such use and shall not infringe any third-party rights in connection with such use. When using the Software and Server Services, the Customer shall, in particular, comply with all applicable data protection and export control provisions.

7.2.Export controls and economic sanctions.

Customer acknowledges that the Software and related technical data as well as the Services (collectively "Controlled Technology") are subject to the import and export control and economic sanctions laws of Germany, the European Union and the United States, specifically the U.S. Export Administration Regulations (EAR) and the laws of any country where Controlled Technology is imported or re-exported. Customer agrees to comply with all relevant laws and will not export, re-export, or transfer any Controlled Technology in contravention of German, EU or U.S. law nor to any restricted country, entity, or person for which an export license or other governmental approval is required. Customer further agrees that it will not export, transfer, or sell any Controlled Technology for use in connection with chemical, biological, or nuclear weapons, or missiles, drones or space launch vehicles capable of delivering such weapons.

Customer represents that it is not (i) a Restricted Party (as defined below); (ii) currently engaging in any transaction, activity or conduct that could result in a violation of applicable Sanctions (as defined below) and warrants that it will not make available the Controlled Technology directly or indirectly, to, or for the benefit of, any Restricted Party.

Section 7.2 shall only apply to the Customer to the extent that the provisions herein would not result in (i) any violation of, conflict with or liability under EU Regulation (EC) 2271/1996 or (ii) a violation or conflict with section 7 German Foreign Trade Regulation (Außenwirtschaftsverordnung) or a similar antiboycott statute.

“Restricted Party” means any person (i) designated on any Sanctions List, (ii) that is, or is part of, a governmental authority of a Sanctioned Territory, (iii) owned or controlled by, or acting on behalf of, any of the foregoing, (iv) located, organized, or resident in, or operating from, a Sanctioned Territory, or (v) otherwise targeted under any Sanctions.

“Sanctioned Territory” means any country or other territory subject to a general export, import, financial or investment embargo under Sanctions.

“Sanctions” means economic or financial sanctions or trade embargoes or other comprehensive prohibitions against transaction activity pursuant to anti-terrorism laws or export control laws imposed, administered or enforced from time to time by the US, EU, UN, Germany, or any country where Controlled Technology is imported or re-exported.

7.3.U.S. GOVERNMENT RESTRICTED RIGHTS.

The Software is deemed to be commercial computer software as defined in FAR 12.212 and subject to restricted rights as defined in FAR Section 52.227-19 “Commercial Computer Licensed Software – Restricted Rights” and DFARS 227.7202, “Rights in Commercial Computer Licensed Software or Commercial Computer Licensed Software Documentation”, as applicable, and any successor regulations. Any use, modification, reproduction release, performance, display or disclosure of the Software by the U.S. Government shall be solely in accordance with the terms of the Contract.

7.4.System requirements.

The requirements for the Customer’s software and hardware are specified in the manuals and the Product Specification (cf. sections 2.1 and 5.1). The Customer shall familiarize itself with the system requirements prior to using the Software and use the Software in accordance with these system requirements.

8.Confidentiality and data protection

8.1.Confidentiality.

The products offered by TeamViewer, including the Software, the Services and all manuals, data, documentation, and other materials provided by TeamViewer, contain essential components (e.g. algorithm and logic), constituting confidential information and trade secrets and shall be deemed TeamViewer’s Confidential Information. Customer will not disclose TeamViewer’s Confidential Information to any third party and will use TeamViewer’s Confidential Information only in accordance with the Contract. The U.S. Government has an obligation to comply with Federal laws, such as the Freedom of Information Act 5 USC 552; Except as required by law, the Government will maintain confidentiality.

8.2.Data protection.

TeamViewer strictly complies with applicable data protection law. TeamViewer collects, processes and uses personal data of Customer as controller as set out and in accordance with the Product Privacy Policy available for download under this link. Additionally, TeamViewer acts as processor for Customer’s personal data as set out and in accordance with the terms and conditions of the data processing agreement contained under C.

Non-personal or anonymous data may be collected automatically to improve functionality and the Customers’ experience with the Software and the Services. The Customer agrees that TeamViewer owns all rights in and is free to use any such non-personal or anonymous data in any way it deems fit for development, diagnostic, corrective as well as marketing or any other purposes.

9.Limitation of liability

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW AND REGARDLESS OF WHETHER ANY REMEDY SET FORTH HEREIN FAILS OF ITS ESSENTIAL PURPOSE, IN NO EVENT WILL TEAMVIEWER OR ITS LICENSORS, RESELLERS, SUPPLIERS OR AGENTS BE LIABLE TO CUSTOMER FOR (i) ANY COSTS OF PROCUREMENT OF SUBSTITUTE OR REPLACEMENT GOODS AND SERVICES, LOSS OF PROFITS, LOSS OF USE, LOSS OF OR CORRUPTION TO DATA, BUSINESS INTERRUPTION, LOSS OF PRODUCTION, LOSS OF REVENUES, LOSS OF CONTRACTS, LOSS OF GOODWILL, OR ANTICIPATED SAVINGS OR WASTED MANAGEMENT AND STAFF TIME; OR (ii) ANY SPECIAL, CONSEQUENTIAL, INCIDENTAL OR INDIRECT DAMAGES WHETHER ARISING DIRECTLY OR INDIRECTLY OUT OF THIS CONTRACT, EVEN IF TEAMVIEWER OR ITS LICENSORS, RESELLERS, SUPPLIERS OR AGENTS HAS BEEN ADVISED SUCH DAMAGES MIGHT OCCUR. IN NO CASE SHALL TEAMVIEWER’S LIABILITY EXCEED THE FEES CUSTOMER PAID FOR THE SOFTWARE OR SERVICES GIVING RISE TO THE CLAIM DURING THE SIX (6) MONTH PERIOD IMMEDIATELY PRIOR TO THE EVENT GIVING RISE TO THE CLAIM. NOTHING IN THIS AGREEMENT SHALL OPERATE SO AS TO EXCLUDE OR LIMIT TEAMVIEWER’S LIABILITY TO CUSTOMER FOR DEATH OR PERSONAL INJURY ARISING OUT OF NEGLIGENCE OR FOR ANY OTHER LIABILITY WHICH CANNOT BE EXCLUDED OR LIMITED BY LAW. THE DISCLAIMERS AND LIMITATIONS SET FORTH IN THIS EULA WILL APPLY REGARDLESS OF WHETHER OR NOT CUSTOMER ACCEPTS THE SOFTWARE, SERVICES OR ANY UPDATES, OR NEW VERSIONS. THIS CLAUSE SHALL NOT IMPAIR THE U.S. GOVERNMENT’S RIGHT TO RECOVER FOR FRAUD OR CRIMES ARISING OUT OF OR RELATED TO THIS CONTRACT UNDER ANY FEDERAL FRAUD STATUTE, INCLUDING THE FALSE CLAIMS ACT, 31 U.S.C. 3729-3733.

10. RESERVED

To this end, TeamViewer may use the email address the Customer provided upon registration or in the TeamViewer account. The Customer shall be responsible for checking its emails regularly and, if necessary, updating its email address. TeamViewer's contact information is available under this link.

11.3. Applicable law.

The Contract and any disputes in connection with it shall be exclusively governed by the laws of the United States of America.

11.4. RESERVED

11.5. Severability; waiver.

If any provision of the Contract is found partly or wholly illegal or unenforceable, such provision shall be enforced to the maximum extent permissible, and remaining provisions of the Contract shall remain in full force and effect. A waiver of any breach or default under the Contract shall not constitute a waiver of any other subsequent breach or default.

Part II

Supplementary provisions regarding Subscription

12. User fee, price changes and late payment in case of Subscription

12.1. User fee.

During the term of the Contract, the Customer shall pay TeamViewer the recurring user fee specified in the Order for the rights of use to the Software and the provision of the Services. The Customer acknowledges and agrees that the payment shall be collected and processed by TeamViewer US, LLC on behalf of TeamViewer Germany GmbH depending on the geography:

(i) If the main seat of the Customer or its residence is outside the United States, payments shall be collected and processed by TeamViewer Germany GmbH, Jahnstr. 30; 73037 Göppingen, Germany, +49 7161 305896455;

12.2. Due date.

Unless otherwise specified in the Order, all fees shall be due upon invoicing.

12.3. Changes of the scope of use.

Customer shall have the right at any time to increase the ordered scope of use or to switch to a higher service package by entering into an additional Order. Any reduction in use or a switch to a lower package, however, shall only be available at the expiration of the then applicable term (cf. section 14.1). In the case of an increase of the scope of use during the Initial Term or a Renewal Term, the additional fees shall be invoiced on a pro rata basis based on TeamViewer's then current applicable price lists.

12.4. Invoicing.

Unless otherwise specified in the Order, TeamViewer shall invoice the user fee at the beginning of the Contract and subsequently at the beginning of each Renewal Term. The invoicing shall be made (i) online via an email to the email address provided by the Customer or (ii) – if such an account has been created – through an upload into the Customer's TeamViewer account and/or the notification of the Customer via email. The Customer shall only be entitled to the delivery of an invoice by mail, if the Customer requests the invoice from TeamViewer and pays the respective fee specified in TeamViewer's applicable price list.

12.5. Payment methods.

The invoiced amounts may be paid by credit card. Further payment methods (e.g. SEPA direct debit or check) can be selected during the ordering process. If the Customer selects PayPal debit authorization as payment method, if provided for, the Customer may cancel the debit method on its PayPal account profile. Such cancellation shall be made no later than one day prior to the next debit date.

12.6. Prices, fees, and tax.

The Customer shall be required to pay all fees, taxes and charges specified in the Order according to the stipulated payment terms to TeamViewer. Except for those jurisdictions that require TeamViewer to withhold applicable fees, taxes, and charges, such fees and charges do not include any sales, use, consumptions, value-added, or any other tax (including applicable withholding tax). Unless Customer is tax-exempt and provides sufficient proof thereof, Customer is responsible for the payment of any and all such taxes. Bank and credit card charges shall be borne by the Customer. All fees and charges shall be payable immediately and in the currency specified on the Order, unless another payment period was agreed."

12.7.Price changes.

TeamViewer shall be entitled to increase the user fee effective as of the end of the Initial Term or any Renewal Term by providing Customer with no less than sixty (60) days prior notice of such price increases.

13.Warranty claims (warranty) in case of Subscription

13.1.Warranty.

TeamViewer warrants that during the term of any Subscription, the Software and Server Services will conform, in all material respects, with the applicable Product Specification. TeamViewer does not warrant that it will be able to correct all reported defects or that use of the Software and Server Services will be uninterrupted or error free. TeamViewer makes no warranty regarding features or services provided by third parties. For any breach of the above warranty, TeamViewer will, at no additional cost to Customer, provide remedial services necessary to enable the Software and Server Services to conform to the warranty. Customer will provide TeamViewer with a reasonable opportunity to remedy any breach and reasonable assistance in remedying any defects. Such re-performance shall be Customer's exclusive remedy and TeamViewer's sole liability for any breach of said warranty. If, however, after repeated efforts, TeamViewer is unable to remedy such defect in any Software or Server Services, then Customer's sole remedy and TeamViewer's entire liability shall be to terminate the Contract in which case TeamViewer will refund to Customer any prepaid, unused amounts (if any) previously paid by Customer to TeamViewer for the Software and Server Services applicable to the unexpired portion of the remainder of the term of the Subscription. The above warranty specifically excludes defects resulting from accident, abuse, unauthorized repair, modifications or enhancements, or misapplication. THE FOREGOING IS CUSTOMER'S SOLE AND EXCLUSIVE REMEDY FOR TEAMVIEWER'S BREACH OF THIS WARRANTY.

13.2.Restrictions.

The limited obligation pursuant to section 13.1. above does not include the right to (i) any adaptation of the Software to new operating systems or new operating system versions, (ii) the adaptation of the Software to the scope of functions of competing products, (iii) the establishment of compatibility with new data formats or Releases (cf. sections 5.2 and 5.3) or (iv) the provision of any functionality which is no longer supported by TeamViewer.

13.3.Disclaimer.

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, THE WARRANTIES SET FORTH IN THIS SECTION 13 ARE CUSTOMER'S EXCLUSIVE WARRANTIES AND ARE IN LIEU OF ALL OTHER WARRANTIES, WHETHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY, SATISFACTORY QUALITY, FITNESS FOR A PARTICULAR PURPOSE, AND NONINFRINGEMENT OF INTELLECTUAL PROPERTY RIGHTS. TEAMVIEWER MAKES NO WARRANTIES OR REPRESENTATIONS THAT THE SOFTWARE OR ANY SERVICES WILL MEET CUSTOMER'S REQUIREMENTS OR THAT OPERATION OR USE OF THE SOFTWARE OR SERVICES WILL BE UNINTERRUPTED OR ERROR-FREE. CUSTOMER MAY HAVE OTHER WARRANTY RIGHTS, WHICH MAY VARY FROM STATE TO STATE AND COUNTRY TO COUNTRY. IN THE EVENT OF A BREACH OF WARRANTY, THE U.S. GOVERNMENT RESERVES ALL RIGHTS AND REMEDIES UNDER THE CONTRACT, THE FEDERAL ACQUISITION REGULATIONS, AND THE CONTRACT DISPUTES ACT, 41 U.S.C. 7101-7109.

14.Term and termination in case of Subscription

14.1.Term and ordinary termination.

Unless otherwise specified in the Order, the Contract has an initial term of twelve (12) months ("Initial Term").

14.2.Termination for Breach.

Termination of Federal contracts will be in accordance with FAR 52.212-4(l), FAR 52.212-4(m), and GSAR 552.238-79.

14.3.Termination notice.

Unless otherwise specified above, termination does not require a notice period. Termination must be made in writing (signed letter, telefax) or in text form (e.g. email). The Customer shall address its termination notice to TeamViewer Germany GmbH, Jahnstrasse 30, 73037 Göppingen, Germany or respectively to our contact center. TeamViewer may also terminate a Contract by means of a respective notification within the Software.

14.4.Consequences of the termination of the Contract.

Upon termination or expiration of the Contract, the Customer shall delete the Software from its computers and refrain from any further use of the Software. Upon the termination or expiration of the Contract, the Customer shall no longer have access to the data stored by Customer in the Software, the TeamViewer account and the TeamViewer Management Console. The Customer shall be solely responsible for exporting the data – as far as possible – prior to the termination or expiration of the term of the Contract by means of the Software functions and to store it for further use. TeamViewer shall not be obligated to any further release of data. Upon termination or expiration of the Contract, TeamViewer shall delete the Customer's data that is processed for the purpose of performance of the Contract, unless TeamViewer is obligated by law to store it. If a deletion is only possible with unreasonable efforts (e.g. in backups), TeamViewer shall be entitled to restrict the processing of such data. This shall not affect TeamViewer's right to use non-personal or anonymous data in accordance with section 8.2.

Part III

15.1.Price.

The Customer shall pay TeamViewer the fees specified in the Order.

The invoicing shall be made (i) online via an email to the email address provided by the Customer or (ii) – if such an account has been created – through an upload into the Customer's TeamViewer account and the notification of the Customer via email. The Customer shall only be entitled to the delivery of an invoice by mail, if the Customer requests the invoice from TeamViewer and pays the respective fee specified in TeamViewer's then current applicable price list.

15.4.Payment methods.

The invoiced amounts may be paid by credit card. Further payment methods (e.g. SEPA direct debit or check) may be offered by TeamViewer as well. If the Customer selects PayPal debit authorization as payment method, if provided for, the Customer may cancel the debit method on its PayPal account profile. Such cancellation shall be made no later than one day prior to the next debit date.

15.5.Prices, fees, and tax.

The Customer shall be required to pay all fees and charges specified in the Order according to the stipulated payment terms to TeamViewer. Such fees do not include any sales, use, consumptions, value-added, or any other tax (including applicable withholding tax). Bank and credit card charges shall be borne by the Customer. All fees and charges shall be payable immediately and in the currency specified on the Order, unless another payment period was agreed.

15.6.Late payment.

Section 12.8. above shall also apply to any Perpetual licenses to the Software.

16.Warranty claims (warranty) in case of Perpetual licence

16.1.Warranty.

TeamViewer warrants that the Software, as delivered by TeamViewer and when used in accordance with the Documentation (cf. section 5.1), will substantially conform to the applicable Product Specification for a period of ninety (90) days from delivery. If the Software does not comply with this warranty and such non-compliance is reported by Customer to TeamViewer within the ninety (90) day warranty period, TeamViewer will do one of the following, selected at TeamViewer's reasonable discretion: either (i) repair the Software, (ii) replace the Software with software of substantially the same functionality, or (iii) terminate the Contract and refund the relevant fees paid for such non-compliant Software. The above warranty specifically excludes defects resulting from accident, abuse, unauthorized repair, modifications or enhancements, or misapplication. THE FOREGOING IS CUSTOMER'S SOLE AND EXCLUSIVE REMEDY FOR TEAMVIEWER'S BREACH OF THIS WARRANTY.

16.2.Restrictions.

The limited obligation pursuant to section 16.1. above does not include the right to (i) any adaptation of the Software to new operating systems or new operating system versions, (ii) the adaptation of the Software to the scope of functions of competing products, (iii) the establishment of compatibility with new data formats or Releases (cf. sections 5.2 and 5.3) or (iv) the provision of any functionality which is no longer supported by TeamViewer.

16.3.Disclaimer.

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, THE WARRANTIES SET FORTH IN THIS SECTION 15 ARE CUSTOMER'S EXCLUSIVE WARRANTIES AND ARE IN LIEU OF ALL OTHER WARRANTIES, WHETHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY, SATISFACTORY QUALITY, FITNESS FOR A PARTICULAR PURPOSE, AND NONINFRINGEMENT OF INTELLECTUAL PROPERTY RIGHTS. TEAMVIEWER MAKES NO WARRANTIES OR REPRESENTATIONS THAT THE SOFTWARE OR ANY SERVICES WILL MEET CUSTOMER'S REQUIREMENTS OR THAT OPERATION OR USE OF THE SOFTWARE OR SERVICES WILL BE UNINTERRUPTED OR ERROR-FREE. CUSTOMER MAY HAVE OTHER WARRANTY RIGHTS, WHICH MAY VARY FROM STATE TO STATE AND COUNTRY TO COUNTRY. IN THE EVENT OF A BREACH OF WARRANTY, THE U.S. GOVERNMENT RESERVES ALL RIGHTS AND REMEDIES UNDER THE CONTRACT, THE FEDERAL ACQUISITION REGULATIONS, AND THE CONTRACT DISPUTES ACT, 41 U.S.C. 7101-7109.

Part IV

Supplementary provisions regarding Free Version

17.Product Specification in case of Free Version.

A key element of and part of the Product Specification for the Free Version is the display and receipt of personalized marketing messages in the Software as well as the processing of personal data necessary to provide such personalization.

TeamViewer permits the Customer to use the Free Version as an unregistered user without setting up a TeamViewer account. As part of the Product Specification for the Free Version, TeamViewer may set limits for an unregistered user and, upon such limits being reached, require the Customer to set up a TeamViewer account for further use of the Free Version.

18.Server Services in case of Free Version.

In case of Free Version, the Customer has no claim to demand the provision of the Server Services and TeamViewer may in its sole discretion discontinue or modify the Server Services at any time.

19.Term and termination in case of Free Version.

The Contract shall enter into effect upon its conclusion and be concluded for an unlimited period of time. Either party may terminate the Contract at any time without giving reasons or notice.

If the Customer wishes to opt-out of receiving personalized marketing messages, any such declaration shall be interpreted as a termination of the Contract and the Customer shall have no right to use the Free Version thereafter. If, however, the Customer continues to use the Free Version after providing such a declaration, the continued use shall be understood as acceptance of and be governed by the terms of this EULA (including, for the avoidance of doubt, section 17 above).

Either party's right to terminate for good cause remains unaffected. Sections 14.3 and 14.4 shall apply accordingly.

20.No warranty for Free Version

If TeamViewer provides Free Version, the Free Version and the related Server Services are provided "AS IS" without warranty of any kind.

C.

The selected Security Measures are described in detail in the documentation of the Security Measures. Please contact us to receive a copy of such documentation.

2.4.4. Procedure for Reviewing.

The documentation of the Security Measures also describes the procedures for regularly reviewing, assessing and evaluating the effectiveness of the then-current Security Measures.

2.4.5. Changes.

The Security Measures are subject to technical progress and further developments. TeamViewer shall be permitted in principle to implement alternative adequate measures. The level of security may thereby not fall below the level existing prior to this DPA on the basis of the Security Measures already implemented or to be implemented.

The obligations of TeamViewer when engaging additional processors ("Subprocessors") are regulated in clause 3.

2.6.Assistance with Safeguarding the Rights of Data Subjects.

If a data subject directly contacts TeamViewer for the purposes of exercising the data subject's rights with regard to data processed on behalf of Customer, TeamViewer shall forward this request to the Customer without delay. All costs incurred insofar shall be borne by the Customer and shall be refunded at an hourly rate of 70 Euro to the extent permissible under applicable data protection law.

TeamViewer shall provide the Customer with the information required for the preparation of the list of processing operations.

2.8.Deletion and Return at the End of Processing.

2.9.Information to Demonstrate Compliance with Data Protection Obligations and Inspections.

TeamViewer shall make available to the Customer all information necessary to demonstrate compliance with the obligations resulting from clauses 2 and 3. In the event of any failure to provide such information or audit reports, TeamViewer will make available certificates of regular audits by a recognized auditor or other competent third party. TeamViewer allows for and contributes to additional audits, including inspections, conducted by the Customer or another auditor mandated by the Customer; the costs for such additional audits shall be borne by the Customer except in case TeamViewer's certificate gives substantial rise to concerns of non-compliance.

2.10.Obligation to Notify Doubts About Instructions.

TeamViewer shall immediately inform the Customer if, in its opinion, the execution of an instruction could infringe any applicable data protection laws.

2.11.Obligation to Notify Breaches.

THIS DOCUMENT IS A LEGAL CONTRACT. PLEASE READ IT CAREFULLY. These End User License Terms ("Terms") govern your access to and use of the zIPS or zIAP client-side mobile application software (the "Software") provided by Zimperium, Inc. ("Zimperium," "we," or "us"), and the zCONSOLE cloud-based software-as-a-service application that we make available through or in connection with the Software (the "Cloud Application").

1. Acceptance of these Terms Your use of and access to the Software and Cloud Application are conditioned on your compliance with these Terms and all applicable local, state, national, and international laws, rules and regulations. By installing the Software or by using the Software or Cloud Application you are indicating that you understand and agree to abide by these Terms. If the Software or Cloud Application is to be used by or on behalf of a company or other organization, the individual expressing acceptance of these Terms represents and warrants that he or she has the authority to bind that company or other organization to these Terms, and "you," and "your" will refer to that company or other organization. If you do not accept all of these Terms, then we are unwilling to license the Software or make the Cloud Application available to you, and you must delete all copies of the Software without retaining any copies thereof.

2. Rights to Use the Software and Cloud Application Subject to your compliance with these Terms, we grant you a non-exclusive, non-transferable license to: (i) install one copy of the Software on each compatible mobile device for which we have issued you a valid license key for that Software (each, an "Authorized Device"); and (ii) use the Software on each such Authorized Device, and access and use the Cloud Application in connection with your Authorized Device(s), solely for your own personal or internal business use during the license period for which we have issued you the applicable license key(s). The foregoing rights may be suspended or terminated as set forth in these Terms. For non-evaluation and other paid licenses, the foregoing rights are also conditioned upon your timely payment and our receipt of all associated fees (as specified by us at the time you selected the license) and applicable taxes, if any.

3. Prohibitions a. The Software and Cloud Application are intended to be used only in accordance with Zimperium's applicable documentation and only to evaluate, manage, and protect the security of mobile devices and wireless networks that you own or control. Any other use of the Software or Cloud Application is strictly prohibited. Prohibited uses include (without limitation) using the Software or Cloud Application to attack, probe, assess the security of, or interfere with any third party's network, device or other target without that third party's express, informed authorization. You may not disclose any vulnerability discovered, reproduced, or confirmed through the use of the Software or Cloud Application except in accordance with industry accepted vulnerability disclosure practices. You acknowledge that improper use of the Software or Cloud Application could significantly harm your network and/or devices, and you assume all risks associated with your use.

b. You may not, and you agree not to: (i) copy, modify or distribute the Software for any purpose; (ii) transfer, sublicense, lease, lend, rent or otherwise distribute the Software or the Cloud Application to any third party; (iii) decompile, reverse-engineer, disassemble, or create derivative works of the Software or the Cloud Application; (iv) make the functionality of the Software or the Cloud Application available to multiple users through any means; (v) use the Software or Cloud Application in any unlawful manner, for any unlawful purpose, or in any manner inconsistent with these Terms or our applicable documentation; (vi) access or use any areas of the Cloud Application for which we have not granted you authorization, or tamper or interfere with our computer systems or the technical delivery systems of our providers; (vii) gather or use information, such as other users' names, real names, or email addresses, through the Cloud Application to transmit any unsolicited advertising, junk mail, spam or other form of solicitation; or (viii) encourage or enable anyone to do any of the foregoing.

c. We reserve the right, but have no obligation, to monitor compliance with the prohibitions set forth above, and we may investigate and prosecute violations of any of the above and/or involve and cooperate with law enforcement authorities in prosecuting users who violate these Terms.

You hereby irrevocably assign to us all right, title, and interest in any Feedback you provide.

5. Modifications The Cloud Application and Software may change from time to time (for example, we may push updates to your Authorized Device, increase or decrease server capacity, or modify our user interface), and/or we may stop providing the Cloud Application or any of its features (permanently or temporarily), possibly without prior notice to you. In the case of paid licenses, however, we will not discontinue the essential features of the Software or Cloud Application during your paid license period without offering a reasonable substitute or alternative. We may decide to charge users a fee for the use of certain features, although if we do, we will provide you with prior notice before such fees take effect.

6. Data Collection and Transmission a. If the Software is being delivered to you by an entity you are affiliated with (such as an employer, etc.), then the exact nature of any information collected is determined by the entity that made the Software available to you and is available by request from that entity. If you acquired the Software directly from Zimperium, then Zimperium will determine which information is collected and is available upon request from Zimperium.

The Software does not require any personally identifiable information from you, but it may collect information from the Authorized Device that is useful for the purpose of the Software and Cloud Application's functionality, called "Device Data". Device Data collected may include but is not limited to the following: • The manufacturer and model of your Authorized Device; • Certain technical settings of your Authorized Device, including the display size of your Authorized Device and firmware version; • Your IP address (which can indicate your country and geolocation); • Wireless carrier for your Authorized Device; • The type and version of operating system on your Authorized Device; • Certain configuration data of your Authorized Device, such as whether your Authorized Device is configured to allow root access or whether hardware restrictions of the Authorized Device have been removed; • In some cases, metadata of all applications installed on your Authorized Device (including, but not limited to, the name of the app, the version of the app); • Metadata about networks your Authorized Device connects to (including, but not limited to, the SSID of the network, the MAC address of the network); • In certain circumstances, we may also collect a copy of the application; • Data from tracking tools used to analyze product performance on your Authorized Device; and • System monitoring data such as memory utilization, process metrics, network statistics (but no data like web pages or emails), and other non-user-identifiable type monitoring values.

The Software and Cloud Application may also collect "Forensic Data", defined here as information about the attacker when and if such an attack occurs. When an attack occurs, Forensic Data collected may include but is not limited to the following: • The Device Data mentioned above at the time of the attack; • The device location data at the time of the attack; • The MAC address of the suspected attacker; • The application name, bundle ID, and version of the suspected malicious apps.

Device Data and Forensic Data together, are hereinafter referred to as "Data". The exact nature of any Data collected is determined by the entity that made the Software available to you.

b. You consent to our collection, transmission, storage, monitoring, copying, processing, analysis and use of the Data to administer the Cloud Application, to develop and improve the Software and Cloud Application and our other products and services, and to monitor compliance with these Terms. You acknowledge that this may include transmission of your Data

to or from locations in the United States, Europe, and other countries or jurisdictions, potentially including those outside of where you reside or use the Software. We may also disclose Forensic Data as needed to cooperate with law enforcement activities and otherwise to fulfill our legal obligations and protect our legal rights. You are solely responsible for securing any privacy-related rights and permissions from your individual users of the Software, consistent with this Section, as may be required by local law or by your organization's internal policies.

7. User Rights Under General Data Protection Regulation (GDPR)

Zimperium cares about your data privacy and wants to be transparent about the following:

- What data is collected.
- How the data is used.
- Your rights to control the data.
- How Zimperium's Software and Cloud Application is enhanced to accommodate GDPR.

Zimperium has made changes to our Software, Cloud Application and our privacy statement. These changes align with the standards established by the General Data Protection Regulation (GDPR). This regulation is a set of laws passed in the European Union. Zimperium respects your personal data, and never sells it to third parties.

For more information on GDPR and limiting personally identifiable information (PII) data, see the following website: <https://www.eugdpr.org/>

For an end user with the zIPS application, Zimperium supports the following user requests:

- General GDPR Information Inquiry
- The Right to Access
- The Right to Be Forgotten

For each of these requests you can:

- Request general GDPR information using the email gdpr@zimperium.com.
- Request an inquiry (or "Right to Access") for the data persisted about you.

This is requested on the Zimperium Customer Support Portal by entering a ticket on this website: <https://support.zimperium.com>

- Request a removal of your information (or "Right to Be Forgotten") for the data persisted about you. This is requested on the Zimperium Customer Support Portal by entering a ticket on this website: <https://support.zimperium.com>.

Note: The "Right to be Forgotten" request causes your information to be permanently removed and going forward you will be an anonymous user to the Software and Cloud Application. This request cannot be rolled back or undone.

8. Contacting You As part of making the Cloud Application available to you, we may need to provide you with certain communications, such as service announcements and administrative messages. These communications are considered part of the Cloud Application, which you may not be able to optout from receiving.

9. Third-Party Software The Software and/or Cloud Application may be accompanied by or utilize certain third-party software components, libraries or applications that are distributed (with or without modifications) under open-source licensing terms (the "Open-Source Components"). Your rights with respect to the Open-Source Components are, to the extent of any conflict with these Terms, governed by and subject to the terms of the open-source licenses under which they are distributed. You are responsible for complying with those licenses. Please refer to our website for more specific information regarding the Open-Source Components that we redistribute and the licenses that apply to them. You may not assume or infer that we endorse, or that we have reviewed, verified, or authenticated, any Open-Source Components or other third-party software that may be furnished with, available through, or used in connection with the Software or Cloud Application. OpenSource Components and any other third-party software, and the information or results provided by them, may be unreliable, inaccurate, incomplete, delayed, or otherwise defective. We make no representations, warranties, or guarantees in connection with any third-party software or the information or results provided by it. You acknowledge sole responsibility for and assume all risk arising from your use of or reliance on any third-party software.

10. Verification and Audit We may (but are not required to) monitor the use of the Software and Cloud Application, including by tracking the device IDs and license keys associated with the Authorized Devices on which the Software is used, for purposes of verifying compliance with these Terms. In addition, you agree to track and keep records of the individual users and Authorized Device(s) using the Software and promptly notify us if you learn of any unlicensed use. At our written request, you will provide us with a certification signed by you (or, if you are an organization, by an officer of the organization) verifying that the Software and Cloud Application are being used in compliance with these Terms. We may, at any time during the term of your license or for one year thereafter, upon reasonable written notice, consistent with all your security measures, and at our expense, audit your use of the Software. We may use a third-party organization to assist us in conducting such an audit. You agree to cooperate with us in such audit and will promptly make available to us all information, equipment and materials reasonably required by us to conduct such an audit.

11. Termination Your rights under these Terms will expire at the end of the period(s) for which you have acquired a valid license key from us for the Software. The Software may cease to function once the license key has expired. Any license renewals or extensions will be subject to

availability and your payment of all applicable fees as then in effect. We have no obligation to offer license renewals or extensions, and we may condition renewals upon your acceptance of revised or new terms and

conditions. Termination of Federal contracts will be in accordance with FAR 52.212-4(l), FAR 52.212-4(m), and GSAR 552.238-79. Upon expiration or termination of these Terms or your Account, you agree to promptly and permanently delete all copies of the Software that are on the Authorized Device(s) or otherwise in your possession or control. The provisions of Sections 3, 4, 10, and 12 through 17 will survive any expiration or termination of these Terms.

12. Disclaimers a. You understand and agree that the Software and the Cloud Application are provided to you "AS IS" and on an "AS AVAILABLE" basis. TO THE FULLEST EXTENT PERMISSIBLE UNDER APPLICABLE LAW, WE DISCLAIM ANY AND ALL WARRANTIES, WHETHER EXPRESS, IMPLIED, STATUTORY OR OTHERWISE, INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, QUIET ENJOYMENT OR NON-INFRINGEMENT, AND ANY WARRANTIES ARISING OUT OF COURSE OF DEALING OR USAGE OF TRADE. We make no warranty that the Software or the Cloud Application will meet your requirements, will detect or prevent all security threats or vulnerabilities, or be available on an uninterrupted, secure, or error-free basis.

b. Some states or jurisdictions do not allow the exclusion of express or implied warranties in certain circumstances, so the above disclaimer may not apply to you. IN THAT EVENT, SUCH EXPRESS OR IMPLIED WARRANTIES SHALL BE LIMITED IN DURATION TO THE MINIMUM PERIOD REQUIRED BY THE APPLICABLE LAW. FirstNet International Day Pass Terms

INTERNATIONAL ROAMING PACKAGES: Eligibility: Available only to qualified Public Safety Entities that have a valid agreement with AT&T for the FirstNet Solution ("Qualified Agreement") and their authorized Agency Paid Users and Subscriber Paid Users. Requires a 4G LTE-compatible, FirstNet Capable device provisioned with a FirstNet Trio SIM card and a qualified FirstNet Mobile plan for domestic use on the FirstNet Evolved Packet Core. If you have a device provisioned with an AT&T SIM card for domestic use on the AT&T commercial core, please see att.com/globalcountries for available international roaming destinations. For Subscriber Paid Users, certain additional eligibility restrictions apply which may be based on service tenure, payment history and/or credit. AT&T, in its sole discretion, may block your ability to use your device while roaming internationally until eligibility criteria are met. Availability and quality of coverage and services while roaming are not guaranteed.

INTERNATIONAL DAILY PASS (IDP): Eligible domestic FirstNet Mobile postpaid wireless plan required. Provisioning: Must be provisioned on a per-device basis before use. You can add IDP to your device before travel or, for non-government customers only, AT&T will automatically add IDP to the line if (i) you have not added IDP and do not have another international feature on the line; (ii) the line uses an eligible smartphone, tablet, mobile hotspot device or laptop while traveling in an IDP destination not included in your domestic rate plan, and (iii) the line incurs at least 5MB in international data roaming usage at pay-per-use rates (see att.com/intlppurates). If we add IDP to a line, we will send you an email and/or a SMS to the line. Once added to your device, International Daily Pass will stay on your account until you remove it at <https://localcontrol.firstnet.att.com> or call 800.574.7000 or dial 611 from your AT&T mobile phone. Use and Assessment of Fee: Once you add this option to your device, the first time you use data or voice, or send a text message in an International Daily Pass destination, you'll automatically be charged a \$10 daily fee. The fee covers additional data, voice or text messages sent for 24 hours from the initial use in any International Daily Pass destination during that period. You'll be charged an additional \$10 fee for all subsequent 24-hour periods in which you use data or voice or send a text message on a device set up with International Daily Pass in an International Daily Pass destination until you cancel the service. For a list of included destinations, go to www.firstnet.com/intlcountries. Incidental Data Usage: Apps on your device continue to use data even when you may not be aware of the usage. Such incidental data usage may trigger the \$10 daily fee. To avoid unintended use of International Daily Pass, turn off the roaming feature for your smartphone or device. Billing: Your International Daily Pass data and voice usage will generally be applied to the monthly bill period/data amount of your domestic plan at the time it's used. However, because of the way we receive reporting from our international roaming carriers, voice or data usage may not match your exact dates of travel, and voice or data usage may be applied to your subsequent bill period. Data: International Daily Pass lets you use data in all included International Daily Pass destinations without roaming charges. Data will be drawn from your domestic plan allowance. Additional or promotional data may not be available for use in destinations outside the U.S. Actual data speeds vary by device and location. Data Overage: If you go over the amount of data in your qualified plan or other allowances during your bill period, overage charges will apply. Voice: For phones. International Daily Pass allows you to use the calling features of your domestic FirstNet Mobile plan within and between included International Daily Pass destinations, from included destinations to the U.S. Calls and minutes of usage will be drawn from your domestic voice plan allowance. You may be charged for calls to special or premium service numbers. Calls to non-IDP destinations: Calls from included destinations to non-included destinations will incur International Long Distance (ILD) charges. Per-minute pay-per-use rates apply unless you add an International Long-Distance service package to the device making the calls. Rates subject to change without notice. To see what it costs, go to www.att.com/intlcalling. Unlimited text: For phones. International Daily Pass allows you to use the standard messaging features of your FirstNet Mobile domestic plan within and from an included destination. Includes an unlimited number of messages up to 1MB in size within and from an International Daily Pass destination to more than 190 countries for text messages, and more than 120 countries for picture and video messages. We may add, change and remove included destinations at our discretion without notice. Messages sent through applications like iMessage or Hangouts may incur data or other charges. For details, go to att.com/text2world. Service restrictions: Only available for use with eligible devices (i.e., smartphones, feature phones (basic/messaging phones) and tablets). International use aboard cruise ships or airlines/flights that are not AeroMobile-enabled is not included.

included; see pay-per-use rates at att.com/intlppurates to review rates. Canada, Mexico and the Pacific Territories: You won't be charged the \$10 fee for International Daily Pass in Canada, Mexico or the Pacific Territories, as your domestic FirstNet Mobile plan includes usage in those locations at no additional charge. Miscellaneous: For devices with an active International Daily Pass and an International Pass package, International Daily Pass charges will apply in included International Daily Pass destinations even though you also have an International package. AT&T INTERNATIONAL DAY PASS® FOR BUSINESS

ELIGIBILITY: Available to business and government customers with a qualified AT&T wireless service agreement (**Business Agreement**) and only for qualified Corporate Responsibility User (**CRU**) lines of service. Compatible device with eligible domestic postpaid wireless plan required.

ADDING TO YOUR LINE: You can add IDP for Business before your Corporate Responsibility User (**CRU**) travels or, for business customers with select devices only, AT&T will automatically add IDP for Business to the CRU line if (i) you have not added IDP for Business and do not have another international feature on the CRU line; (ii) the CRU uses an eligible smartphone, tablet, mobile hotspot device or laptop while traveling in an IDP Destination (see below) not included in your domestic rate plan, and (iii) the CRU incurs at least 5MB in international data roaming usage at pay-per-use rates (see att.com/intlppurates). If we automatically add IDP for Business to a CRU smartphone line, we will send you an email and also send an SMS to the CRU line. If we automatically add IDP for Business to a CRU tablet, mobile hotspot device or laptop line, we will send you an email. Once added, IDP for Business will stay on the CRU line until you remove it using online self-service (att.com/myatt or att.com/Premier, as applicable), by calling 800-331-0500, or by contacting your AT&T account representative.

DAILY FEE: The first time you use data, make or receive a call, or send a text message in an IDP Destination, you'll automatically be charged a \$10 daily fee. Text messages received are rated as domestic and do not trigger a daily fee. The daily fee covers additional data, calls, and text messages for 24 hours from the initial use in any IDP Destination. You'll be charged an additional daily fee for all subsequent 24-hour periods in which you use data, make or receive a call, or send a text message in an IDP Destination, unless you remove IDP for Business. Business and government customers with IDP for Business are not eligible for the reduced daily fee or the charge cap available to consumers with IDP. However, qualified business and government customers with select unlimited wireless plans can choose to add AT&T International Day Pass for Business – Multiline (instead of IDP for Business) to get a reduced daily fee on up to 4 lines per billing account. For eligibility and other details, see att.com/idpbizmulti.

DESTINATIONS: Includes usage in over 210 destinations listed at att.com/globalcountries and on select AeroMobile® enabled international flights (each an **IDP Destination** or, collectively, the **IDP Destinations**). Coverage is not available in all areas. IDP Destinations and rates are subject to change without notice. **Mexico and Canada:** You will not be charged a daily fee in Mexico or Canada if you have a domestic plan that includes usage in Mexico or Canada. **Latin America:** AT&T Business Unlimited

Elite customers and other qualified customers with Roam Latin AmericaSM for Business will not be charged a daily fee in any of the Latin American countries that are included in their phone plan. See att.com/latamcountries for a list of included countries. **AeroMobile® cellular network on select airlines:** For a list of participating airlines and aircraft, go to <https://www.aeromobile.net/airlines/>. Airlines and aircraft are subject to change without notice. Passengers of qualifying airlines are not guaranteed to be on a flight with mobile coverage. Device must be on, with Airplane Mode and Wi-Fi turned off and data roaming and cellular data turned on to use the AeroMobile network. AeroMobile service is available only at greater than 200 nautical miles outside of the U.S. border and above 20,000 feet cruising altitude. In the event of satellite interruption or regulatory constraint, AeroMobile services may be disrupted or disabled.

DATA: Data will be drawn from your domestic plan allowance with the same data and speed restrictions. If your domestic plan includes Stream Saver®, it will apply to your IDP for Business feature. See att.com/stream saver for more details. **Data overage:** If you go over the amount of data in your qualified domestic plan, overage charges or data speed reduction of up to 128Kbps will apply in accordance with the terms of your domestic plan. If your data speed is slowed, all your data use, including audio and video streaming, picture and video messaging, and other types of data use will be impacted and may not work. **Incidental data usage:** Apps on your device use data even when you may not be aware. Such usage may trigger a daily fee. To avoid unintended use of IDP for Business, turn off cellular data roaming in your device settings.

UNLIMITED TALK: For phones only. Includes calls received in IDP Destinations and made from IDP Destinations to the U.S. and to other IDP Destinations. If your domestic plan does not include unlimited talk, the minutes of use will be drawn from your domestic plan's voice allowance and domestic overage charges may apply. **Calls to non-IDP Destinations:** Calls from IDP Destinations to non-IDP Destinations will get International Long Distance (ILD) charges. Pay-per-use rates apply unless your domestic plan includes these destinations or you add an ILD package to your device. Rates are subject to change without notice. For details, go to att.com/internationalcalling.

UNLIMITED TEXT: For phones only. Applies only to AT&T Short Messaging Service (SMS) and Multimedia Messaging Service (MMS) and not to other messaging services or applications like iMessage. Messages received are rated as domestic and do not trigger a daily fee. If your domestic plan does not include unlimited text, the messages you send will be drawn from your domestic plan's messaging allowance and domestic overage charges may apply.

AT&T PASSPORT®/AT&T PASSPORT® PRO: For devices with IDP for Business and an active AT&T Passport or AT&T Passport Pro package, IDP for Business charges will apply in IDP Destinations and usage in IDP Destinations will not reduce the Passport or Passport Pro data allowance, trigger Passport calling charges, or offset the Passport Pro voice allowance. If you want to use Passport or Passport Pro in an IDP Destination, you must remove IDP for Business.

PAY-PER-USE RATES: Apply when traveling in destinations not included in IDP for Business and/or when you have not added a package. For rates, see att.com/intlppurates.

DATA SPEEDS: The speed of AT&T Internet Air™ for Business service is very dependent upon the connection your wireless router can achieve with the AT&T mobile network. Many things can affect the availability and quality of your service including, but not limited to, your proximity to the cell site, the position of your device within your location, local congestion caused by use of network capacity by high numbers of users simultaneously using data intensive applications in the vicinity of the cell tower serving your designated service address, blockage of the signal between the designated service address and the cell tower (caused by objects such as buildings, foliage, etc.), AT&T network management practices, and weather. As such, performance, experience, and speeds will vary and are not guaranteed. To maximize performance, you should make every effort to position your router in an optimal position for your location.

DATA RESTRICTIONS: Standard plan: For all data usage, AT&T may temporarily slow data speeds if the network is busy. Premium plan: Plan includes a network-based quality of service (QoS) feature that assigns a higher priority level (as compared to the Standard plan) for your first 250GB of data traffic originating on and traveling over the AT&T-owned domestic network in each bill cycle (excluding microcells, AT&T Wi-Fi service, and roaming partner networks). **After 250GB of data usage in a bill cycle, then for all data usage for the remainder of the bill cycle, AT&T may temporarily slow data speeds if the network is busy.** Feature does not (a) prioritize data traffic ahead of all other data traffic (which may receive a similar or higher QoS), (b) provide priority access to available network resources, or (c) provide preemption capabilities.

AT&T Internet Air for Business Limitations: AT&T may engage in any reasonable network management practice to enhance customer service, to reduce network congestion, to adapt to advances and changes in technology, and/or to respond to the availability of wireless bandwidth and spectrum. In order to ensure the best quality of service for all customers using the mobility network, during times of heavy network congestion AT&T may (a) temporarily prioritize services that may be most severely impacted by congestion; and/or (b) temporarily de-prioritize and/or throttle services deemed likely to contribute to

heavy congestion. **VIDEO STREAMING:** Plans include the Video Management feature. We aim to render streaming video in standard definition (max of 2 Mbps for customers on both 5G-enabled devices and rate plans or 1.5 Mbps for devices or plans not compatible with 5G) though some video cannot be identified. Sometimes, other content that content providers bundle with streaming video may be impacted and slowed, including downloads. In certain situations, we may deliver video content faster or at higher definition. To experience higher definition video when available, or if you have an issue, turn the feature off or back on any time at att.com/myatt or att.com/premier, as applicable. Details at att.com/videofeature. **5G SERVICE:** Requires a compatible 5G device and a designated service address in a 5G coverage area. Coverage not available everywhere. See att.com/5Gforyou for details. **5G+ SERVICE:** Requires a compatible 5G+ device and a designated service address in a 5G+ coverage area. Other restrictions apply. **250GB AT HIGHER PRIORITY LEVEL:** For AT&T Internet Air for Business Premium plan only. Plan includes a network-based quality of service (QoS) feature that assigns a higher priority level (as compared to the Standard plan) for your first 250GB of data traffic originating on and traveling over the AT&T-owned domestic network in each bill cycle (excluding microcells, AT&T Wi-Fi service, and roaming partner networks). If you exceed 250GB of data usage in a bill cycle, then for all data usage for the remainder of the bill cycle, AT&T may temporarily slow data speeds if the network is busy. Feature does not (a) prioritize data traffic ahead of all other data traffic (which may receive a similar or higher QoS), (b) provide priority access to available network resources, or (c) provide preemption capabilities. **COVERAGE:** Coverage is not available everywhere, subject to change without notice, and not guaranteed. **OFF-NET USAGE:** Domestic off-net (roaming) data usage may be at 2G speeds. Plans do not permit international roaming. **Excessive Off-Net Usage:** You get an off-net (roaming) usage allowance for data service (see your Business Agreement). If you exceed the allowance, your service(s) may be restricted.
