CDW•G

Your Go-To Contracts for IT Solutions

We realize a true solutions provider must go beyond fulfilment. Impactful IT solutions require a vendor who understands their customers' needs and experiences. Leading with our Customer-Centric philosophy, we've structured our organization to align with the segments we serve.

Our account management teams specialize by geographic region and customer vertical (K-12, Higher Ed, State & Local) – facilitating an increased understanding and awareness of local markets, trends, current events, and ultimately their customers. Additionally, we deploy an in-market, field sales force to further grow customer intimacy through local engagement.

The Gold Partnership Excellence Award represents the pinnacle of collaborative achievement. This prestigious medallion is bestowed upon our most outstanding suppliers, celebrating their unwavering commitment to fostering a strong partnership. Distinguished by their exceptional dedication to mutual success, Gold Awardees have demonstrated unparalleled excellence in driving growth and embodying the spirit of true collaboration. This coveted honor reflects a profound synergy that propels both our organizations to new heights.

Program Overview

CDW Government

Simplicity in IT Purchasing

OMNIA Partners and CDW Government

With more than two decades of experience partnering with state and local government and education entities, CDW Government understands what it takes to modernize operations and provide comprehensive support to ensure long-term success.

Here are some of the ways we bring IT to life:

- Extensive range of solutions including data, security, cloud, hybrid infrastructure and digital experience
- Full lifecycle of services from roadmaps and adoption to project deployment, management and staff augmentation
- Portfolio of more than 100,000 products and services from more than 1,000 leading and emerging brands
- Large supply network of both OEMs and distributors offering multiple paths to source product and secure the best value
- Enhanced configuration capacity, product inventory and warehousing for large-scale rollouts
- Dedicated teams solely focused on state and local government and education entities with support from specialty practices including Public Safety and Esports
- Committed to creating a culture of diversity, equality and inclusion where everyone feels they belong

CITY OF MESA AGREEMENT PURSUANT TO SOLICITATION

This Agreement pursuant to Solicitation ("Agreement") is entered into this 5th day of July, 2024, by and between the City of Mesa, Arizona, an Arizona municipal corporation ("City"), and CompanyName, a(n) State corporation/company/natural person ("Contractor"). The City and Contractor are each a "Party" to the Agreement or together are "Parties" to the Agreement.

RECITALS

A. The City issued Solicitation number **2024056** ("Solicitation") for **INFORMATION TECHNOLOGY SOLUTIONS PRODUCTS AND SERVICES**, to which Contractor provided a response ("Response"); and

B. The City Selected Contractor's Response as being in the best interest of the City and wishes to engage Contractor in providing the services/materials described in the Solicitation and Response.

In consideration of the reciprocal promises contained in the Agreement, and for other valuable and good consideration, which the Parties acknowledge the receipt and sufficiency of, the Parties agree to the following Terms & Conditions.

TERMS & CONDITIONS

1. **Term**. This Agreement is for a term beginning on **July 2, 2024** and ending on **July 1, 2028**. The use of the word "Term" in the Agreement includes the aforementioned period as well as any applicable extensions or renewals in accordance with this Section 1.

    1.1 **Renewals.** On the mutual written agreement of the Parties, the Term may be renewed up to a maximum of six (6) years. Any renewal(s) will be a continuation of the same terms and conditions as in effect immediately before the expiration of the then-current term.

    1.2 **Extension for Procurement Processes**. Upon the expiration of the Term of this Agreement, including any renewals permitted herein, at the City's sole discretion, this Agreement may be extended on a month-to-month basis for a maximum of six (6) months to allow for the City's procurement processes in the selection of a Contractor to provide the services/materials provided under this Agreement. The City will notify the Contractor in writing of its intent to extend the Agreement at least thirty (30) calendar days before the expiration of the Term. Any extension under this Subsection 1.2 will be a continuation of the same terms and conditions as in effect immediately prior to the expiration of the then-current term.

    1.3 **Delivery.** Delivery shall be made to the location(s) contained in the Scope of Work within thirty (30) days after receipt of an order. Title to Products and risk of loss or damage during shipment pass from Contractor to City upon delivery to the destination specified on the applicable purchase order (F.O.B. Destination, freight prepaid and allowed). Contractor agrees to deliver all products to be delivered F.O.B. destination, freight pre-paid and allowed to various locations throughout the City. In many cases within the City, the Contractor may be asked to deliver all products to the front counter within a given department. For special orders, the Parties agree to negotiate in good faith an alternative delivery date when necessary. Notwithstanding the foregoing, title to software will remain with the applicable licensor(s), and the City's rights therein are contained in the license agreement between such licensor(s) and the City.

2. **Scope of Work**. The Contractor will provide the necessary staff, services and associated resources to provide the City with the services, materials, and obligations attached to this Agreement as **Exhibit A** ("Scope of Work") Contractor will be responsible for all costs and expenses incurred by Contractor that are incident to the performance of the Scope of Work unless otherwise stated in **Exhibit A.** Contractor will supply all equipment and instrumentalities necessary to perform the Scope of Work. If set forth in **Exhibit A,** the City will provide Contractor's personnel with adequate workspace and such other related

facilities as may be required by Contractor to carry out the Scope of Work.
The Agreement is based on the Solicitation and Response which are hereby incorporated by reference into the Agreement as if written out and included herein. In addition to the requirements specifically set forth in the Scope of Work, the Parties acknowledge and agree that the Parties shall perform in accordance with all terms, conditions, specifications and other requirements set forth within the Solicitation and Response unless modified herein.

3. **Orders**. Orders must be placed with the Contractor by either a: (i) Purchase Order when for a one- time purchase; (ii) procurement card; (iii) Delivery Order or Blanket Purchase Order for a requirements contract where multiple as-needed orders will be placed with the Contractor; (iv) Executed Statement of Work (SOW); or (v) Executed Cloud Service Order (CSO) Form. The City may use the Internet to communicate with Contractor and to place orders as permitted under this Agreement. Unless explicitly stated in a separate writing executed by the Parties, the terms and conditions on any order form, quote, or similar document provided by Contractor to the City will not take precedence over the language set forth in this Agreement or any of the documents outlined in Section 4 below.

4. **Document Order of Precedence**. In the event of any inconsistency between the terms of the body of the Agreement, Exhibits, Solicitation, and Response, the language of the documents will control in the following order.

    a. Amendments to the Agreement
    b. Agreement
    c. Exhibits
        1. Mesa Standard Terms & Conditions (Exhibit C)
        2. Pricing (Exhibit B)
        3. Scope of Work (Exhibit A)
        4. Other Exhibits not listed above
    d. Solicitation including any addenda
    e. Contractor's Response

5. **Payment**. Subject to the provisions of the Agreement, the City will pay Contractor the sum(s) described in **Exhibit B** ("Pricing") in consideration of Contractor's performance of the Scope of Work during the Term.

6. **Pricing.** Contractor's pricing shall be in the format of a minimum percentage discount off a verifiable price index. Contractor may submit discounts for various manufacturers. At the time of purchase, Contractor may offer deeper discounts beyond the discounted price list, based on volume or other factors, as applicable. Minimum discounts will remain firm during the entirety of the Term of the Agreement, unless the Contractor requests to increase its discount percentage, and Pricing will include all charges that may be incurred in fulfilling requirement(s). In addition to decreasing prices for the balance of the Term due to a change in market conditions, a Contractor may conduct sales promotions involving price reductions for a specified lesser period. In the event a product is discontinued, Contractor will provide a product of the same or greater functionality, utilizing the discount structure.

    No price modifications will be accepted without proper request by the Contractor and response by the City's Purchasing Division.

    6.1 **Price Adjustment**. Any requests for reasonable price adjustments must be submitted in accordance with this Section. Requests for adjustment in cost of labor and/or materials must be supported by appropriate documentation. There is no guarantee the City will accept a price adjustment; therefore, Contractor should be prepared for the Pricing to be firm over the Term of the Agreement. The City is only willing to entertain price adjustments based on an increase to Contractor's actual expenses or other reasonable adjustment in providing the services/materials under the Agreement. If the City agrees to the adjusted price terms, the City shall issue written approval of the change.

During the sixty (60) day period prior to the expiration of the then-current term date of the Agreement, the Contractor may submit a written request to the City to allow an increase to the prices in an amount not to exceed the twelve (12) month change in the ***Consumer Price Index for All Urban Consumers*** (CPI-U), US City Average, All Items, Not Seasonally Adjusted as published by the U.S. Department of Labor, Bureau of Labor Statistics (http://www.bls.gov/cpi/home.htm). The City shall review the request for adjustment and respond in writing; such response and approval shall not be unreasonably withheld.

6.2 **Renewal and Extension Pricing.** Any extension of the Agreement will be at the same pricing as the initial term. If the Agreement is renewed in accordance with Section 1, pricing may be adjusted for amounts other than inflation that represent actual costs to the Contractor based on the mutual agreement of the Parties. Contractor may submit a request for a price adjustment along with appropriate supporting documentation demonstrating the cost to the Contractor. Renewal prices shall be firm for the term of the renewal period and may be adjusted thereafter as outlined in the Subsection 6.2. There is no guarantee the City will accept a price adjustment.

6.3 **Invoices.** Payment will be made to Contractor following the City's receipt of a properly completed invoice. Any issues regarding billing or invoicing must be directed to the City Department/Division requesting the service or material from the Contractor. A properly completed invoice should contain, at a minimum, all of the following:

a. Contractor name, address, and contact information;
b. City billing information;
c. City contract number as listed on the first page of the Agreement;
d. Invoice number and date;
e. Payment terms;
f. Date of service or delivery;
g. Description of materials or services provided;
h. If materials provided, the quantity delivered and pricing of each unit;
i. Applicable taxes; and
j. Total amount due.

6.4 **Payment of Funds.** Contractor acknowledges the City may, at its option and where available use a Procurement Cardle-Payables to make payment for orders under the Agreement; otherwise, payment will be through a traditional method of a check or Electronic Funds Transfer (EFT) as available.

6.5 **Disallowed Costs, Overpayment.** If at any time the City determines that a cost for which payment was made to Contractor is a disallowed cost, such as an overpayment or a charge for materials/service not in accordance with the Agreement, the City will notify Contractor in writing of the disallowance; such notice will state the means of correction which may be, but is not limited to, adjustment of any future claim/invoice submitted by Contractor in the amount of the disallowance or to require repayment of the disallowed amount by Contractor. Contractor will be provided with the opportunity to respond to the notice.

7. **Insurance.**

7.1 Contractor must obtain and maintain at its expense throughout the Term of the Agreement, at a minimum, the types and amounts of insurance set forth in this Section 7 from insurance companies authorized to do business in the State of Arizona; the insurance must cover the materials/service to be provided by Contractor under the Agreement. For any insurance required under the Agreement, Contractor will name the City of Mesa, its agents, representatives, officials, volunteers, officers, elected officials, and employees as additional insured, as evidenced by providing either an additional insured endorsement or proper insurance policy excerpts.

7.2 Nothing in this Section 7 limits Contractor's responsibility to the City. The insurance requirements herein are minimum requirements for the Agreement and in no way limit any indemnity promise(s) contained in the Agreement.

7.3 The City does not warrant the minimum limits contained herein are sufficient to protect Contractor and subcontractor(s) from liabilities that might arise out of performance under the Agreement by Contractor, its agents, representatives, employees, or subcontractor(s). Contractor is encouraged to purchase additional insurance as Contractor determines may be necessary.

7.4 Each insurance policy required under the Agreement must be in effect at or prior to the execution of the Agreement and remain in effect for the Term of the Agreement.

7.5 Prior to the execution of the Agreement, Contractor will provide the City with a Certificate of Insurance (using an appropriate "ACORD" or equivalent certificate) signed by the issuer with applicable endorsements. The City reserves the right to request additional copies of any or all of the policies, endorsements, or notices relating thereto required under the Agreement.

7.6 When the City requires a Certificate of Insurance to be furnished, Contractor's insurance is primary of all other sources available. When the City is a certificate holder and/or an additional insured, Contractor agrees no policy will expire, be canceled, or be materially changed to affect the coverage available without advance written notice to the City.

7.7 The policies required by the Agreement must contain a waiver of transfer rights of recovery (waiver of subrogation) against the City, its agents, representatives, officials, volunteers, officers, elected officials, and employees for any claims arising out of the work of Contractor.

7.8 All insurance certificates and applicable endorsements are subject to review and approval by the City's Risk Management Division.

7.9 **Types and Amounts of Insurance.** Contractor must obtain and retain throughout the term of the Agreement, at a minimum, the following:

7.9.1 Worker's compensation insurance in accordance with the provisions of Arizona law. If Contractor operates with no employees, Contractor must provide the City with written proof Contractor has no employees. If employees are hired during the course of this Agreement, Contractor must procure worker's compensations in accordance with Arizona law.

7.9.2 The Contractor shall maintain at all times during the term of this contract, a minimum amount of $1 million per occurrence/$2 million aggregate Commercial General Liability insurance, including Contractual Liability. For Commercial General Liability insurance, the City of Mesa, their agents, officials, volunteers, officers, elected officials or employees shall be named as additional insured, as evidenced by providing an additional insured endorsement.

7.9.3 Automobile liability, bodily injury and property damage with a limit of $1 million per occurrence including owned, hired and non-owned autos.

8. **Requirements Contract.** Contractor acknowledges and agrees the Agreement is a requirements contract; the Agreement does not guarantee any purchases will be made (minimum or maximum). Orders will only be placed when the City identifies a need and issues a purchase order or a written notice to proceed. The City reserves the right to cancel purchase orders or a notice to proceed within three (3) business days of issuance; any such cancellation will be in writing. Should a purchase order or notice to proceed be canceled, the City agrees to reimburse Contractor for any actual and documented costs

incurred by Contractor. The City will not reimburse Contractor for any avoidable costs incurred after receipt of cancellation including, but not limited to, lost profits, shipment of materials, or performance of services. The City reserves the right to purchase contracted items through other sources if determined in the best interests of the City to do so.

9. **Notices.** All notices to be given pursuant to the Agreement will be delivered to the Contractor at the address listed on Page 1 of this Agreement. Notice will be delivered pursuant to the requirements set forth the Mesa Standard Terms and Conditions that are attached to the Agreement as **Exhibit C.**

10. **Representations of Contractor.** To the best of Contractor's knowledge, Contractor agrees that:

    a. Contractor has no obligations, legal or otherwise, inconsistent with the terms of the Agreement or with Contractor's undertaking of the relationship with the City;

    b. Performance of the services called for by the Agreement do not and will not violate any applicable law, rule, regulation, or any proprietary or other right of any third party;

    c. Contractor will not use in the performance of Contractor's responsibilities under the Agreement any proprietary information or trade secret of a former employer of its employees (other than City, if applicable); and

    d. Contractor has not entered into and will not enter into any agreement, whether oral or written, in conflict with the Agreement.

11. **Mesa Standard Terms and Conditions. Exhibit C** to the Agreement is the Mesa Standard Terms and Conditions as modified by the Parties, which are incorporated by reference into the Agreement as though fully set forth herein. In the event of any inconsistency between the terms of the Agreement and the Mesa Standard Terms and Conditions, the language of the Agreement will control. The Parties or a Party are referred to as a "party" or "parties" in the Mesa Standard Terms and Conditions. The Term is referred to as the "term" in the Mesa Standard Terms and Conditions.

12. **Counterparts and Facsimile or Electronic Signatures.** This Agreement may be executed in two (2) or more counterparts, each of which will be deemed an original and all of which, taken together, will constitute one agreement. A facsimile or other electronically delivered signature to the Agreement will be deemed an original and binding upon the Party against whom enforcement is sought.

13. **Incorporation of Recitals and Exhibits.** All Recitals and Exhibits to the Agreement are hereby incorporated by reference into the Agreement as if written out and included herein. In the event of any inconsistency between the terms of the body of the Agreement and the Exhibits, the language of the Agreement will control.

    Exhibits to this Agreement are the following:
    (A) Scope of Work/ Technical Specifications
    (B) Pricing
    (C) Mesa Standard Terms and Conditions

14. **Attorneys' Fees.** The prevailing Party in any litigation arising out of the Agreement will be entitled to the recovery of its reasonable attorney's fees, court costs, and other litigation related costs and fees from the other Party.

15. **Additional Acts.** The Parties agree to execute promptly such other documents and to perform such other acts as may be reasonably necessary to carry out the purpose and intent of the Agreement.

16. **Headings.** The headings of the Agreement are for reference only and will not limit or define the meaning of any provision of the Agreement.

By executing below, each Party acknowledges that it understands, approves, and accepts all of the terms of the Agreement and the attached exhibits.

IN WITNESS WHEREOF, the parties have executed this Agreement as of the date first above written.

EXHIBIT A
SCOPE OF WORK

1. **SCOPE OF WORK:** For the purchase of Information Technology Solutions, Products, and Services.

2. **ORDERING.** Although the City is open to alternate ordering methods, the primary methods for customers placing orders with the Supplier are the following:

    a. Online
    b. Email
    c. Telephone
    d. Fax

3. **DELIVERY REQUIREMENT.** The contractor agrees to deliver all products to the desktop of the ordering customer and be delivered F.O.B. destination, freight pre-paid and allowed to various locations throughout the City. In many cases within the City, the Contractor may be asked to deliver all goods to the front counter within a given department. This is the City of Mesa requirement and other participating agencies may have other delivery requirements.

4. **SCOPE OF PRODUCTS.** The intent of this solicitation is to establish a contract with the ability to purchase a comprehensive, wide variety of Information Technology Solution Products and Services including but not limited to the following categories:

    a. Software: National brand name Microsoft, Google, Oracle, Enterprise applications/solutions, cyber security applications/solutions, etc.

    b. Personal Computer Systems: National brand name desktop PCs, notebooks, laptops, tablets, and other related devices from Enterprise Tier and Middle Tier Contractors that are business related computers, manufactured by companies, such as, Apple, COMPAQ, Dell, Gateway, Hewlett Packard, IBM / Lenovo, Panasonic, and Toshiba. Product will include the operating system license, software media and documentation in the hardware shipment.

    c. Standard Business Workstation: These will be used for typical tasks, which will include word processing, spreadsheet analysis, database management, business graphics, statistical analysis, internet, and other office automation activities. Product will include the operating system license, software media and documentation in the hardware shipment.

    d. High End Workstation: These will be used by application developers using GIS, CASE or other high-level language development tools, Computer Aided Design and Drafting professional, Internet Application developers or other sophisticated application work. Product will include the operating system license, software media and documentation in the hardware shipment.

    e. Laptop Computer or Notebook: These will be used by traveling or remote access user for typical office automation and business productivity use. With a port replicator or docking station, it may also be used as a standard desktop. Product will include the operating system license, software media and documentation in the hardware shipment.

    f. Network Equipment: This includes equipment primarily used for communications over an IP network. This includes servers (physical and virtual), layer 2 and layer 3 switches, routers, area wireless access points, point-to-point wireless access, optics, media interfaces (i.e. serial, T1, T3, OC3) and fiber channel. Class of equipment should include home office, small and medium business, and enterprise. Contractors may include, but

not limited to, Cisco Systems, Dell, Juniper Networks, HP, Extreme Networks, Enterasys Networks, D-Link, Netgear, and Brocade Communications Systems.

g. Monitors: These will include plug and play compatible monitors that are manufactured for the above systems and/or any other brand that may be specifically called for by the ordering entity and which meet the most current UL and OSHA requirements.

h. Computer and Network Products, Peripherals, Accessories, and Components: Complete availability of major manufacturer's product lines on items such as, but not limited to RAM, graphic accelerator cards, network interface cards, cables, printers, scanners, monitors, AV equipment, unified communications hardware, mobility hardware, modems, routers, switches, keyboards, drives, memory cards, cables, batteries, power management, supplies, etc.

i. Information Technology/Educational Furniture: Includes furniture design, delivery, installation, parts, maintenance, and repair and replacement.

j. Services: Services such as, but not limited to cloud computing, consulting, technical support, leasing/financing, trade-ins, repair, design, analysis, configuration, implementation, installation, training, maintenance, advisory, managed and support services, staff augmentation, professional services, etc. In addition, services that are related to the design, use, or operation of the products being purchased such as system configurations, testing, hardware/software installation, upgrades, imaging, etc. Services may also include materials, equipment, and supplies provided by the Reseller under an SOW.

Note: All hardware should come assembled. For example, if extra memory, additional drives, or peripherals are ordered, the Contractor must install them unless the Participating Agency requests, that they not be installed.

k. Comprehensive Product Offering: Offeror's complete catalog and services offered shall be available. Each offeror awarded a contract under this solicitation may offer their complete product and service offering. Pricing for products and services must be entered on the appropriate section of the Price Page. The City reserves the right to accept or reject any or all items offered.

l. Financing: Options available such as lease programs and conditional sales contracts.

5. **LICENSES.** Participating Agencies may be required to sign a separate agreement, rider, or End User Licensing Agreement ("EULA"), etc., as required by manufacturers.

6. **DEFECTIVE PRODUCT.** All defective products shall be replaced and exchanged by the Contractor. The cost of transportation, unpacking, inspection, re-packing, re-shipping, or other like expenses shall be paid by the Contractor. All replacement products must be received by the City within seven (7) business days of initial notification.

33. **SUPPLEMENTAL PRODUCTS AND SERVICES:** The scope described in this RFP and resulting contract(s) is preliminary in nature and intended to provide Contractors with a general overview of the major tasks envisioned as part of this solicitation. The City reserves the right to expand and/or reduce the Project Objectives as may be appropriate based on the technical content of the successful Contractor's proposal and/or during contract negotiations based on budget considerations.

CDW•G- City of MESA- Contract Pricing Structure & Management

CDW•G has conformed to the National Pricing Discount structure aligning to the table above- However, CDW•G will manage the resultant contract in accordance with CDW•G's taxonomy in tables below, which shall govern all purchases under the resultant contract - This provides complete representation of CDW•G's offerings aligned with the scope of the RFP, while maintaining continuity for the City and OMNIA PPA's under the incumbent contract.

Pricing will be applied to the resultant contract, as listed in the tables below- Table 1 is based on Discount % off CDW•G's Nationally Advertised Pricing (NAP), publicly verifiable at www.cdwg.com. Additionally, certain Groups and Products such as Cloud offerings under Group 10, Services pricing under Group 11 and Group 12 are highlighted under Table 2 and 3.

Table 1- CDWG Pricing

Category	Minimum Discount off CDW•G Advertised
Accessories (A)	7.50%
Power, Cooling & Racks (B)	5.00%
Desktop Computers (C)	3.25%
Data Storage/Drives (D)	6.00%
Enterprise Storage (E)	6.00%
Point of Sale/Data Capture (F)	4.25%
Servers & Server Management (H)	5.00%
Services (CDW Delivered) (J)*	0.00%
Notebook/Mobile Devices (L)	4.00%
Chromebooks (CBK)	0.00%
NetComm Products (N)	7.00%

Carts and Furniture (O)	6.00%
Printing & Document Scanning (P)	3.00%
Services (Partner Delivered) (Q)*	5.00%
Client Configure-to-Order (R)	3.25%
Software (S)	4.00%
Collaboration Hardware (T)	6.00%
Video & Audio (V)	5.00%
Cables (W)	15.00%
Apple (All Categories)	0.50%

CDW•G is pleased to offer the City of Mesa and OMNIA Partners Participating Public Agencies ("PPA") a discount off CDW•G Nationally Advertised Pricing (NAP) structure.

Cloud offerings are constantly evolving and increasingly complex, with a range of subscription and consumption-based offerings. SaaS, IaaS, PaaS, among others. CDW•G's pricing is based on Discount 0% off MSRP where available to CDW•G. In cases where MSRP pricing is not available and/or the offering is unique, pricing will be based on CDW•G invoiced price. This structure provides the necessary flexibility, to enable the City of Mesa and OMNIA Partners Participating Public Agencies to make purchases offerings, as cloud offerings evolve, through life of our contract.

The City of Mesa and OMNIA Partners Participating Public Agencies acknowledge that CDW•G is not the provider of the Cloud Services and in purchasing the Cloud Services, City of Mesa, OMNIA Partners, and Participating Public Agencies rely only on the Cloud Service.

Provider's service descriptions and the terms and conditions set forth in the Cloud Provider's Services Terms and Conditions. Accordingly, City of Mesa and OMNIA Partners shall consider the Cloud Service Provider to be the party responsible for providing the Cloud Services and City of Mesa, OMNIA Partners, and its members/participating entities, may be required to execute additional agreements, prior to provisioning/purchase of certain cloud offering.

CDW•G will provide Customer with a discount as a percentage off of CDW•G's Nationally Advertised Price (NAP) for the CDW•G defined Product Categories listed above, provided that Customer references this Agreement when placing an order with CDW•G.

Prices include lowest ground freight within the 48 contiguous United States when referencing this Agreement. All orders are subject to CDW•G's standard shipping policies in effect at the time of order placement. In those instances that call for express or overnight delivery, shipping costs will be pre-paid by CDW•G and added to the customer invoice.

Clarifications
*These are services tied to CDW•G internal taxonomy J and Q, which includes subset of offerings such as configurations, warranty, and specific installation services, and are not subject to a Statement of Work. These do not include the services broken out in the individual tabs, including other professional services, which require a mutually executed Statement of Work between CDW•G and Customer.

Table 2

For group 12, specialized offerings not specifically contemplated under this RFP but existing under the scope of Technology offerings, CDW•G and OMNIA PPA will mutually agree upon/execute document, such as a Statement of Work (SOW), and pricing will be based on CDW•G invoice.

Table 3

For Services under Group 11, we have included rate cards with hourly rates/services pricing for the following categories:

Digital Velocity Services
ServiceNow Services
Amplified IT Services
Staff Augmentation Services
Managed Services
Other Professional Services

For all hourly rates proposed by CDW•G in this pricing file and contained within our proposal, our offer is contingent on a 5% year over year escalation, on the contract's annual anniversary date, which will act as a not to exceed rate. Given the timespan between submission and official award and contract start dates, CDW•G reserves the right to impose up to an additional, one-time 5% increase in the first year of this agreement on or after May 1, 2024 to ensure alignment with standard rate adjustments.

CDW•G has been very successful in managing labor rates during unstable market conditions including taking advantage of our vast in-house, in-market resources and certified, approved subcontract pool while also leveraging remote services, where practical and applicable. During the contract term, CDW•G reserves the right to propose changes to labor rate categories to reflect extraordinary market conditions which might impact labor rates and present to City of Mesa and OMNIA Partners for review and approval. City of Mesa and OMNIA Partners will review and approve such rates through a mutually agreed upon amendment no later than 30 calendar days upon presentation.

Services requiring a specific Statement of Work (SoW) must be mutually executed between the customer and CDW•G before work begins. We have provided a sample SoW at the end of Tab E in our response.

For any service engagement, if there are applicable Travel and Expenses (T&E) charges, they will be agreed and mutually executed upon in a comprehensive Statement of Work. However, CDW•G will utilize its national footprint of service providers and in-market engineers. We also utilize remote technologies and services where applicable to mitigate such expenses.

Digital Velocity Services	
Role	**Hourly Rate**
DVS F-CTO	$350.00
DVS Digital Strategy Consultant	$305.00
DVS Digital Product Strategist	$270.00

EXHIBIT C
MESA STANDARD TERMS AND CONDITIONS

1. **INDEPENDENT CONTRACTOR.** It is expressly understood that the relationship of Contractor to the City will be that of an independent contractor. Contractor and all persons employed by Contractor, either directly or indirectly, are Contractor's employees, not City employees. Accordingly, Contractor and Contractor's employees are not entitled to any benefits provided to City employees including, but not limited to, health benefits, enrollment in a retirement system, paid time off or other rights afforded City employees. Contractor employees will not be regarded as City employees or agents for any purpose, including the payment of unemployment or workers' compensation. If any Contractor employees or subcontractors assert a claim for wages or other employment benefits against the City, Contractor will defend, indemnify and hold harmless the City from all such claims.

2. **SUBCONTRACTING.** Contractor may not subcontract work under this Agreement without the express written permission of the City. If Contractor has received authorization to subcontract work, it is agreed that all subcontractors performing work under the Agreement must comply with its provisions. Further, all agreements between Contractor and its subcontractors must provide that the terms and conditions of this Agreement be incorporated therein.

3. **ASSIGNMENT.** This Agreement may not be assigned either in whole or in part without first receiving the City's written consent. Any attempted assignment, either in whole or in part, without such consent will be null and void and in such event the City will have the right at its option to terminate the Agreement. No granting of consent to any assignment will relieve Contractor from any of its obligations and liabilities under the Agreement.

4. **SUCCESSORS AND ASSIGNS, BINDING EFFECT.** This Agreement will be binding upon and inure to the benefit of the parties and their respective permitted successors and assigns.

5. **NO THIRD-PARTY BENEFICIARIES.** This Agreement is intended for the exclusive benefit of the parties. Nothing set forth in this Agreement is intended to create, or will create, any benefits, rights, or responsibilities in any third parties.

6. **NON-EXCLUSIVITY.** The City, in its sole discretion, reserves the right to request the materials or services set forth herein from other sources when deemed necessary and appropriate. No exclusive rights are encompassed through this Agreement.

7. **AMENDMENTS.** There will be no oral changes to this Agreement. This Agreement can only be modified in a writing signed by both parties. No charge for extra work or material will be allowed unless approved in writing, in advance, by the City and Contractor.

8. **TIME OF THE ESSENCE.** Time is of the essence to the performance of the parties' obligations under this Agreement.

9. **COMPLIANCE WITH APPLICABLE LAWS.**

a. **General.** Contractor must procure all permits and licenses, and pay all charges and fees necessary and incidental to the lawful conduct of business. Contractor must stay fully informed of existing and future federal, state, and local laws, ordinances, and regulations that in any manner affect the fulfillment of this Agreement and must comply with the same at its own expense. Contractor bears full responsibility for training, safety, and providing necessary equipment for all Contractor personnel to achieve throughout the term of the Agreement. Upon request, Contractor will demonstrate to the City's satisfaction any programs, procedures, and other activities used to ensure compliance.

b. **Drug-Free Workplace.** Contractor is hereby advised that the City has adopted a policy establishing a drug-free workplace for itself and those doing business with the City to ensure the safety and health of all persons working on City contracts and projects. Contractor will require a drug-free workplace for all Contractor personnel working under this Agreement. Specifically, all Contractor personnel who are working under this Agreement must be notified in writing by Contractor that they are prohibited from the manufacture, distribution, dispensation, possession, or unlawful use of a controlled substance in the workplace.

Contractor agrees to prohibit the use of intoxicating substances by all Contractor personnel, and will ensure that Contractor personnel do not use or possess illegal drugs while in the course of performing their duties.

c. **Federal and State Immigration Laws.** Contractor agrees to comply with the Immigration Reform and Control Act of 1986 (IRCA) in performance under this Agreement and to permit the City and its agents to inspect applicable personnel records to verify such compliance as permitted by law. Contractor will ensure and keep appropriate records to demonstrate that all Contractor personnel have a legal right to live and work in the United States.

i. As applicable to Contractor, under the provisions of A.R.S. § 41-4401, Contractor hereby warrants to the City that Contractor and each of its subcontractors will comply with, and are contractually obligated to comply with, all federal immigration laws and regulations that relate to their employees and A.R.S. § 23-214(A) (hereinafter "Contractor Immigration Warranty").

ii. A breach of the Contractor Immigration Warranty will constitute as a material breach of this Agreement and will subject Contractor to penalties up to and including termination of this Agreement at the sole discretion of the City.

iii. The City retains the legal right to inspect the papers of all Contractor personnel who provide services under this Agreement to ensure that Contractor or its subcontractors are complying with the Contractor Immigration Warranty. Contractor agrees to assist the City in regard to any such inspections.

iv. The City may, at its sole discretion, conduct random verification of the employment records of Contractor and any subcontractor to ensure compliance with the Contractor Immigration Warranty. Contractor agrees to assist the City in regard to any random verification performed.

v. Neither Contractor nor any subcontractor will be deemed to have materially breached the Contractor Immigration Warranty if Contractor or subcontractor establishes that it has complied with the employment verification provisions prescribed by Sections 274A and 274B of the Federal Immigration and Nationality Act and the E-Verify requirements prescribed by A.R.S. § 23-214 (A).

d. **Nondiscrimination.** Contractor represents and warrants that it does not discriminate against any employee or applicant for employment or person to whom it provides services because of race, color, religion, sex, national origin, or disability, and represents and warrants that it complies with all applicable federal, state, and local laws and executive orders regarding employment. Contractor and Contractor's personnel will comply with applicable provisions of Title VII of the U.S. Civil Rights Act of 1964, as amended, Section 504 of the Federal Rehabilitation Act, the Americans with Disabilities Act (42 U.S.C. § 12101 et seq.), and applicable rules in performance under this Agreement.

e. **State Sponsors of Terrorism Prohibition.** Per A.R.S. § 35-392, Contractor must not be in violation of section 6U) of the Federal Export Administration Act and subsequently prohibited by the State of Arizona from selling goods of services to the City.

10. **SALES/USE TAX, OTHER TAXES.**

a. Contractor is responsible for the payment of all taxes including federal, state, and local taxes related to or arising out of Contractor's services under this Agreement, including by way of illustration but not limitation, federal and state income tax, Social Security tax, unemployment insurance taxes, and any other taxes or business license fees as required. If any taxing authority should deem Contractor or Contractor employees an employee of the City, or should otherwise claim the City is liable for the payment of taxes that are Contractor's responsibility under this Agreement, Contractor will indemnify the City for any tax liability, interest, and penalties imposed upon the City.

b. The City is exempt from paying certain federal excise taxes and will furnish an exemption certificate upon request. The City is <u>not</u> exempt from state and local sales/use taxes.

11. **AMOUNTS DUE THE CITY.** Contractor must be current and remain current in all obligations due to the City during the performance of Services under the Agreement. Payments to Contractor may be offset by any delinquent amounts due the City or fees and charges owed to the City.

12. **PUBLIC RECORDS.** Contractor acknowledges that the City is a public entity, subject to Arizona's public records laws (A.R.S. § 39-121 et. seq.) and that any documents related to this Agreement may be subject to disclosure pursuant to state law in response to a public records request or to subpoena or other judicial process.

    a. If Contractor believes document related to the Agreement contains trade secrets or other proprietary data, Contractor must notify the City and include with the notification a statement that explains and supports Contractor's claim. Contractor also must specifically identify the trade secrets or other proprietary data that Contractor believes should remain confidential.

    b. In the event the City determines it is legally required to disclose pursuant to law any documents or information Contractor deems confidential trade secrets or proprietary data, the City, to the extent possible, will provide Contractor with prompt written notice by certified mail, fax, email or other method that tracks delivery status of the requirement to disclose the information so Contractor may seek a protective order from a court having jurisdiction over the matter or obtain other appropriate remedies. The notice will include a time period for Contractor to seek court ordered protection or other legal remedies as deemed appropriate by Contractor. If Contractor does not obtain such court ordered protection by the expiration of said time period, the City may release the information without further notice to Contractor.

13. **AUDITS AND RECORDS.** Contractor must preserve the records related to this Agreement for five (5) years after completion of the Agreement. The City or its authorized agent reserves the right to inspect any records related to the performance of work specified herein. In addition, the City may inspect any and all payroll, billing or other relevant records kept by Contractor in relation to the Agreement. Contractor will permit such inspections and audits during normal business hours and upon reasonable notice by the City. The audit of records may occur at Contractor's place of business or at City offices, as determined by the City. Notwithstanding the foregoing, any Agreement audits must be pursuant to a signed Confidentiality Agreement agreed to by both parties which will be subject to applicable law, including the Arizona Public Records law. Contractor is not required to keep original documents and copies of relevant documents will suffice for the purposes of this provision. The audit must be conducted during regular business hours at a mutually agreeable time and location, and upon reasonable advanced notice of records to be audited.

14. **BACKGROUND CHECK.** The City may conduct criminal, driver history, and all other requested background checks of Contractor personnel who would perform services under the Agreement or who will have access to the City's information, data, or facilities in accordance with the City's current background check policies. Any officer, employee, or agent that fails the background check must be replaced immediately for any reasonable cause not prohibited by law.

15. **SECURITY CLEARANCE AND REMOVAL OF CONTRACTOR PERSONNEL.** The City will have final authority, based on security reasons: (i) to determine when security clearance of Contractor personnel is required; (ii) to determine the nature of the security clearance, up to and including fingerprinting Contractor personnel; and (iii) to determine whether or not any individual or entity may provide services under this Agreement. If the City objects to any Contractor personnel for any reasonable cause not prohibited by law, then Contractor will, upon notice from the City, remove any such individual from performance of services under this Agreement.

16. **DEFAULT.**

    a. A party will be in default if that party:

        i. Is or becomes insolvent or is a party to any voluntary bankruptcy or receivership proceeding, makes an assignment for a creditor, or there is any similar action that affects Contractor's capability to perform under the Agreement;

ii. Is the subject of a petition for involuntary bankruptcy not removed within sixty (60) calendar days;

iii. Conducts business in an unethical manner as set forth in the City Procurement Rules Article 7 or in an illegal manner; or

iv. Fails to carry out any term, promise, or condition of the Agreement.

b. Contractor **will** be in default of this Agreement if Contractor is debarred from participating in City procurements and solicitations in accordance with Article 6 of the City's Procurement Rules.

c. **Notice and Opportunity to Cure.** In the event a party is in default then the other party may, at its option and at any time, provide written notice to the defaulting party of the default. The defaulting party will have thirty (30) days from receipt of the notice to cure the default; the thirty (30) day cure period may be extended by mutual agreement of the parties, but no cure period may exceed ninety (90) days. A default notice will be deemed to be sufficient if it is reasonably calculated to provide notice of the nature and extent of such default. Failure of the non- defaulting party to provide notice of the default does not waive any rights under the Agreement.

d. **Anticipatory Repudiation.** Whenever the City in good faith has reason to question Contractor's intent or ability to perform, the City may demand that Contractor give a written assurance of its intent and ability to perform. In the event that the demand is made and no written assurance is given within five (5) calendar days, the City may treat this failure as an anticipatory repudiation of the Agreement.

17. **REMEDIES.** The remedies set forth in this Agreement are not exclusive. Election of one remedy will not preclude the use of other remedies. In the event of default:

a. The non-defaulting party may terminate the Agreement, and the termination will be effective immediately or at such other date as specified by the terminating party.

b. The City may purchase the services required under the Agreement from the open market, complete required work itself, or have it completed at the expense of Contractor. If the cost of obtaining substitute services exceeds the contract price, the City may recover the excess cost by: (i) requiring immediate reimbursement to the City; (ii) deduction from an unpaid balance due to Contractor; (iii) collection against the proposal and/or performance security, if any; (iv) collection against liquidated damages (if applicable); or (v) a combination of the aforementioned remedies or other remedies as provided by law. Costs includes any and all, fees, and expenses incurred in obtaining substitute services and expended in obtaining reimbursement, including, but not limited to, administrative expenses, attorneys' fees, and costs.

c. The non-defaulting party will have all other rights granted under this Agreement and all rights at law or in equity that may be available to it.

d. Neither party will be liable for incidental, special, or consequential damages.

18. **CONTINUATION DURING DISPUTES.** Contractor agrees that during any dispute between the parties, Contractor will continue to perform its obligations until the dispute is settled, instructed to cease performance by the City, enjoined or prohibited by judicial action, or otherwise required or obligated to cease performance by other provisions in this Agreement.

19. **TERMINATION FOR CONVENIENCE.** The City reserves the right to terminate this Agreement in part or in whole upon thirty (30) calendar days' written notice.

20. **TERMINATION FOR CONFLICT OF INTEREST (A.R.S. § 38-511).** Pursuant to A.R.S. § 38-511, the City may cancel this Agreement within three (3) years after its execution, without penalty or further obligation, if any person significantly involved in initiating, securing, drafting, or creating the Agreement for the City becomes an employee or agent of Contractor.

21. **TERMINATION FOR NON-APPROPRIATION AND MODIFICATION FOR BUDGETARY CONSTRAINT.** The City is a governmental agency which relies upon the appropriation of funds by its governing body to satisfy its obligations. If the City reasonably determines that it does not have funds to meet its obligations under this Agreement, the City will have the right to terminate the

Agreement without penalty on the last day of the fiscal period for which funds were legally available. In the event of such termination, the City agrees to provide written notice of its intent to terminate thirty (30) calendar days prior to the stated termination date.

22. **PAYMENT TO CONTRACTOR UPON TERMINATION.** Upon termination of this Agreement, Contractor will be entitled only to payment for those services performed up to the date of termination, and any authorized expenses already incurred up to such date of termination. The City will make final payment within thirty (30) calendar days after the City has both completed its appraisal of the materials and services provided and received Contractor's properly prepared final invoice.

23. **NON-WAIVER OF RIGHTS.** There will be no waiver of any provision of this agreement unless approved in writing and signed by the waiving party. Failure or delay to exercise any rights or remedies provided herein or by law or in equity, or the acceptance of, or payment for, any services hereunder, will not release the other party of any of the warranties or other obligations of the Agreement and will not be deemed a waiver of any such rights or remedies.

24. **INDEMNIFICATION/LIABILITY.**

a. To the fullest extent permitted by law, Contractor agrees to defend, indemnify, and hold the City, its officers, agents, and employees, harmless from and against any and all liabilities, demands, claims, suits, losses, damages, causes of action, fines or judgments, including costs, attorneys', witnesses', and expert witnesses' fees, and expenses incident thereto, relating to, arising out of, or resulting from: (i) misconduct by Contractor personnel under this Agreement; (ii) any negligent acts, errors, mistakes or omissions by Contractor or Contractor personnel; and (iii) Contractor or Contractor personnel's failure to comply with this Agreement. However, notwithstanding the prior sentence, any claim shall not be an indemnified claim if such claim or damage was caused in whole by the actions of the City, its employees, agents, contractors or representatives.

b. Contractor will update the City during the course of the litigation to timely notify the City of any issues that may involve the independent negligence of the City that is not covered by this indemnification.

c. The City assumes no liability for actions of Contractor and will not indemnify or hold Contractor or any third party harmless for claims based on this Agreement or use of Contractor-provided supplies or Services.

d. IN THE EVENT OF ANY LIABILITY INCURRED BY CONTRACTOR OR ANY OF ITS AFFILIATES HEREUNDER, INCLUDING INDEMNIFICATION OF CITY BY CONTRACTOR, THE ENTIRE LIABILITY OF CONTRACTOR AND ITS AFFILIATES FOR DAMAGES FROM ANY CAUSE WHATSOEVER WILL NOT EXCEED $5,000,000.00 OVER THE ENTIRE TERM OF THE AGREEMENT.

25. **WARRANTY.** Contractor warrants that the services and materials will conform to the requirements of Exhibit A. Additionally, Contractor warrants that all services will be performed in a good, workman-like and professional manner, as stated below.

a. Manufacturer's Warranty. The City understands that the Contractor is not the manufacturer of the products purchased by the City hereunder and the only materials (product) warranties offered are those of the manufacturer, not the Contractor or its affiliates unless the manufacturer is the Contractor or its affiliates. THE CONTRACTOR AND ITS AFFILIATES HEREBY EXPRESSLY DISCLAIM ALL WARRANTIES EITHER EXPRESS OR IMPLIED, RELATED TO PRODUCTS, INCLUDING, BUT NOT LIMITED TO, ANY WARRANTY OF TITLE, ACCURACY, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, WARRANTY OF NONINFRINGEMENT, OR ANY WARRANTY RELATING TO THIRD PARTY SERVICES. THE DISCLAIMER CONTAINED IN THIS PARAGRAPH DOES NOT AFFECT THE TERMS OF ANY MANUFACTURER'S WARRANTY.

b. Services Warranty. City's sole and exclusive remedy with respect to a warranty on the Services provided by Contractor will be, at the sole option of Contractor, to either: (a) use its reasonable commercial efforts to reperform any services not in substantial compliance with this warranty, or (b) refund amounts paid by City related to the portion of the services not in substantial

compliance; provided, in each case, City notifies Contractor in writing within five (5) business days after performance of the applicable Services. City shall be solely responsible for daily back-up and other protection of its data and software against loss, damage or corruption during the performance of services and for any necessary reconstruction thereof.

c. Third Party Services Warranty. In connection with the products (materials), certain services, such as extended warranty service by manufacturers, are sold by the Contractor as a distributor or sales agent ("Third Party Services"). In the case of Third Party Services, the third party will be the party responsible for providing the services to the City and the City will look to the third party for any loss, claims or damages arising from or related to the provision of such Third- Party Services. Any amounts, including, but not limited to, taxes, associated with Third Party Services which may be collected by the Contractor will be collected solely in the capacity as an independent sales agent.

26. **THE CITY'S RIGHT TO RECOVER AGAINST THIRD PARTIES.** Contractor will do nothing to prejudice the City's right to recover against third parties for any loss, destruction, or damage to City property, and will at the City's request and expense, furnish to the City reasonable assistance and cooperation, including assistance in the prosecution or defense of suit and the execution of instruments of assignment in favor of the City in obtaining recovery.

27. **NO GUARANTEE OF WORK.** Contractor acknowledges and agrees that it is not entitled to deliver any specific amount of materials or services or any materials or services at all under this Agreement and acknowledges and agrees that the materials or services will be requested by the City on an as needed basis at the sole discretion of the City. Any document referencing quantities or performance frequencies represent the City's best estimate of current requirements, but will not bind the City to purchase, accept, or pay for materials or services which exceed its actual needs.

28. **OWNERSHIP.**

a. Except as it pertains to the Work Product in Subsection (b) below, all deliverables, services, and information provided by Contractor or the City pursuant to this Agreement (whether electronically or manually generated) including without limitation, reports, test plans, and survey results, graphics, and technical tables, originally prepared in the performance of this Agreement, are the property of the City and will not be used or released by Contractor or any other person except with prior written permission by the City.

b. City's rights to Work Product (meaning deliverables to be provided or created individually or jointly in connection with the services, not materials, provided by Contractor, including but not limited to, all inventions, discoveries, methods, processes, formulae, ideas, concepts, techniques, know-how, data, designs, models, prototypes, works of authorship, computer programs, proprietary tools, methods of analysis and other information, whether or not capable of protection by patent, copyright, trade secret, confidentiality, or other proprietary rights, or discovered in the course of performance of this Agreement that are embodied in such work or materials) will be, upon payment in full, a non-transferable, non-exclusive, royalty-free license to use such Work Product solely for City's internal use. City obtains no ownership or other property rights thereto. City agrees that Contractor may incorporate intellectual property created by third parties into the Work Product and that City's right to use such Work Product may be subject to the rights of, and limited by agreements with, such third parties

29. **USE OF NAME.** Contractor will not use the name of the City of Mesa in any advertising or publicity without obtaining the prior written consent of the City.

30. **PROHIBITED ACTS.** Pursuant to A.R.S. § 38-504, a current or former public officer or employee within the last twelve (12) months shall not represent another organization before the City on any matter for which the officer or employee was directly concerned and personally participated in during their service or employment or over which they had a substantial or material administrative discretion.

Further, while employed by the City and for two (2) years thereafter, public officers or employees are prohibited from disclosing or using, without appropriate authorization, any confidential information acquired by such personnel in the course of his or her official duties at the City.

31. **FOB DESTINATION FREIGHT PREPAID AND ALLOWED.** All deliveries will be FOB destination freight prepaid and allowed unless otherwise agreed.

32. **RISK OF LOSS.** Contractor agrees to bear all risks of loss, injury, or destruction of Contractor's goods or equipment incidental to providing these services and such loss, injury, or destruction will not release Contractor from any obligation hereunder.

33. **SAFEGUARDING CITY PROPERTY.** Contractor will be responsible for any damage to City real property or damage or loss of City personal property when such property is the responsibility of or in the custody of Contractor or its employees.

34. **WARRANTY OF RIGHTS.** Contractor warrants it has title to, or the right to allow the City to use, the materials and services being provided and that the City may use same without suit, trouble or hindrance from Contractor or third parties. Notwithstanding the foregoing, title to third party software, the licenses to which are resold by Contractor, will remain with the third party. City's rights in such software are specified in the license agreement between such third party and City

35. **PROPRIETARY RIGHTS INDEMNIFICATION.** Without limiting the foregoing, Contractor will at its expense defend the City against all claims asserted by any person that anything provided by Contractor infringes a patent, copyright, trade secret or other intellectual property right (collectively "Claim") and must, without limitation, pay the costs, damages and attorneys' fees awarded against the City in any Claim, or pay any settlement of such Claim. Each party agrees to notify the other promptly of any matters to which this provision may apply and to cooperate with each other in connection with such defense or settlement. If a preliminary or final judgment is obtained against the City's use or operation of the items provided by Contractor hereunder or any part thereof by reason of any alleged infringement, Contractor will, at its sole option and its expense and without limitation, either: (a) modify the item so that it becomes non-infringing; (b) procure for the City the right to continue to use the item; (c) substitute for the infringing item other item(s) having at least equivalent capability; or (d) refund to the City an amount equal to the price paid, less reasonable usage, from the time of installation acceptance through cessation of use, which amount will be calculated on a useful life not less than five (5) years based on a five (5) year straight line amortized basis. The forgoing provisions in this Section state the entire liability of Contractor and the sole and exclusive remedy of the City with respect to any Claim. Contractor shall have no liability or obligation to the City to the extent any Claim is based upon: (i) any combination of anything provided by Contractor with other software, hardware or other materials not authorized by Contractor or manufacturer; or (ii) any addition to, or modification of, anything provided by Contractor made after delivery to the City by any person other than Contractor.

36. **CONTRACT ADMINISTRATION.** The contract will be administered by the Purchasing Administrator and/or an authorized representative from the using department. All questions regarding the contract will be referred to the administrator for resolution. Supplements may be written to the contract for the addition or deletion of services. Payment will be negotiated and determined by the contract administrator(s).

37. **FORCE MAJEURE.** Failure by either party to perform its duties and obligations will be excused by unforeseeable circumstances beyond its reasonable control, including acts of nature, acts of the public enemy, riots, fire, explosion, legislation, and governmental regulation. The party whose performance is so affected will within five (5) calendar days of the unforeseeable circumstance notify the other party of all pertinent facts and identify the force majeure event. The party whose performance is so affected must also take all reasonable steps, promptly and diligently, to prevent such causes if it is feasible to do so, or to minimize or eliminate the effect thereof. The delivery or performance date will be extended for a period equal to the time lost by reason of delay, plus such additional time as may be reasonably necessary to overcome the effect of the delay, provided however, under no circumstances will delays caused by a force majeure extend beyond one hundred-twenty (120) calendar days from the scheduled delivery or completion date of a task unless agreed

upon by the parties.

38. **COOPERATIVE USE OF CONTRACT.** This contract is available through National OMNIA Partnersto agencies nationwide. The City has also entered into various cooperative purchasing agreements with other Arizona government agencies, including the Strategic Alliance for Volume Expenditures (SAVE) cooperative. Under the SAVE Cooperative Purchasing Agreement, any contract may be extended for use by other municipalities, school districts and government agencies through National IPA or SAVE in the State of Arizona with the approval of Contractor. Any such usage by other entities must be in accordance with the statutes, codes, ordinances, charter and/or procurement rules and regulations of the respective government agency.

    A contractor, subcontractor or vendor or any employee of a contractor, subcontractor or vendor who is contracted to provide services on a regular basis at an individual school shall obtain a valid fingerprint clearance card pursuant to title 41, chapter 12, article 3.1. A school district governing board shall adopt policies to exempt a person from the requirements of this subsection if the person's normal job duties are not likely to result in independent access to or unsupervised contact with pupils. A school district, its governing board members, its school council members and its employees are exempt from civil liability for the consequences of adoption and implementation of policies and procedures pursuant to this subsection unless the school district, its governing board members, its school council members or its employees are guilty of gross negligence or intentional misconduct.

    Additionally, Contractor will comply with the governing body's fingerprinting policy of each individual school district and public entity. Contractor, subcontractors, vendors and their employees will not provide services on school district properties until authorized by the school district.

    Orders placed by other agencies and payment thereof will be the sole responsibility of that agency. The City is not responsible for any disputes arising out of transactions made by others. The City is not a party to any agreements between the Contractor and National IPA, National IPA and other agencies, the Contractor and other agencies, or any third-party contracts in any way related to this Agreement or the cooperative use of this Agreement.

39. **FUEL CHARGES AND PRICE INCREASES.** No fuel surcharges will be accepted. No price increases will be accepted without proper request by Contractor and response by the City's Purchasing Division.

40. **NOTICES.** All notices to be given pursuant to this Agreement must be delivered to the parties at their respective addresses. Notices may be (i) personally delivered; (ii) sent via certified or registered mail, postage prepaid; (iii) sent via overnight courier; or (iv) sent via email or facsimile. If provided by personal delivery, receipt will be deemed effective upon delivery. If sent via certified or registered mail, receipt will be deemed effective three (3) calendar days after being deposited in the United States mail. If sent via overnight courier, email or facsimile, receipt will be deemed effective two (2) calendar days after the sending thereof.

41. **GOVERNING LAW, FORUM.** This Agreement is governed by the laws of the State of Arizona. The exclusive forum selected for any proceeding or suit in law or equity arising from or incident to this Agreement will be Maricopa County, Arizona.

42. **INTEGRATION CLAUSE.** This Agreement, including all attachments and exhibits hereto, supersede all prior oral or written agreements, if any, between the parties and constitutes the entire agreement between the parties with respect to the work to be performed.

43. **PROVISIONS REQUIRED BY LAW.** Any provision required by law to be in this Agreement is a part of this Agreement as if fully stated in it.

44. **SEVERABILITY.** If any provision of this Agreement is declared void or unenforceable, such provision will be severed from this Agreement, which will otherwise remain in full force and effect. The parties will negotiate diligently in good faith for such amendment(s) of this Agreement as may be necessary

to achieve the original intent of this Agreement, notwithstanding such invalidity or unenforceability.

45. **SURVIVING PROVISIONS.** Notwithstanding any completion, termination, or other expiration of this Agreement, all provisions which, by the terms of reasonable interpretation thereof, set forth rights and obligations that extend beyond completion, termination, or other expiration of this Agreement, will survive and remain in full force and effect. Except as specifically provided in this Agreement, completion, termination, or other expiration of this Agreement will not release any party from any liability or obligation arising prior to the date of termination.

46. **A.R.S. SECTIONS 1-501 and 1-502.** Pursuant to Arizona Revised Statutes Sections 1-501 and 1-502, any person who applies to the City for a local public benefit (the definition of which includes a grant, contract or loan) must demonstrate his or her lawful presence in the United States. As the Agreement is deemed a local public benefit, if Contractor is an individual (natural) person or sole proprietorship, Contractor agrees to sign and submit the necessary documentation to prove compliance with the statutes as applicable.

47. **PCI DSS COMPLIANCE.** In the event any Contractor engages in payment card transactions as a part of the services provided to City, Contractor shall comply with the Payment Card Industry Data Security Standards ("PCI DSS") and any amendments or restatements of the PCI DSS duringthe Term of this Agreement. Contractor accepts responsibility for the security of City's and/or any customer's credit card data in its possession, even if all or a portion of the services to City aresubcontracted to third parties.

EXHIBIT D
SPECIAL TERMS AND CONDITIONS FOR FEDERAL FUNDS

1. **DEFAULT.**

1.1. A party will be in default of the Agreement if that party:

i. Is or becomes insolvent or is a party to any voluntary bankruptcy or receivership proceeding, makes an assignment for a creditor, or there is any similar action that affects Contractor's capability to perform under the Agreement;
ii. Is the subject of a petition for involuntary bankruptcy not removed within sixty (60) calendar days;
iii. Conducts business in an unethical manner as set forth in the City Procurement Rules Article 7 or in an illegal manner; or
iv. Fails to carry out any term, promise, or condition of the Agreement.

1.2. Contractor will be in default of this Agreement if Contractor is debarred from participating in City procurements and Solicitations in accordance with Article 6 of the City's Procurement Rules.

1.3. Notice and Opportunity to Cure. In the event a party is in default then the other party will provide written notice to the defaulting party of the default. The defaulting party will have thirty (30) days from receipt of the notice to cure the default, unless the default is of a nature that it is reasonably anticipated to affect the health, safety, or welfare of the public and, in such an event, the non-defaulting party may require a minimum seven (7) days to cure the default from the date of receipt of the notice; the cure period may be extended by mutual agreement of the parties, but no cure period may exceed ninety (90) days. A default notice will be deemed to be sufficient if it is reasonably calculated to provide notice of the nature and extent of such default. Failure of the non-defaulting party to provide notice of the default does not waive any rights under the Agreement. Failure of the defaulting party to cure the default will entitle the non-defaulting party to the election of remedies specific to the party as set forth in section 17 below.

Anticipatory **Repudiation.** Whenever the City in good faith has reason to question Contractor's intent or ability to perform, the City may demand that Contractor give a written assurance of its intent and ability to perform. In the event, demand is made and no written assurance is given within ten (10) calendar days, the City may treat this failure as an anticipatory repudiation of the Agreement entitling the City to terminate the Agreement in accordance with section 17(a) below.

Agreed ■ NA ☐ Exception:

2. **REMEDIES.** The remedies set forth in this Agreement are not exclusive. Election of one remedy will not preclude the use of other remedies. In the event of default:

2.1. The non-defaulting party may terminate the Agreement, and the termination will be effective immediately or at such other date as specified by the terminating party.

2.2. The City may purchase the services or materials required under the Agreement from the open market, complete the required work itself, or have it completed at the expense of Contractor. If the cost of obtaining substitute services exceeds the contract price in the Agreement, the City may recover the excess cost by: (i) requiring immediate reimbursement by the Contractor to the City; (ii) deduction from an unpaid balance due to Contractor; (iii) collection against the proposal and performance security, if any; (iv) collection against liquidated damages (if applicable); or (v) a combination of the aforementioned remedies or other remedies as permitted by law. Costs in this Subsection (b) include any and all, fees, and expenses incurred in obtaining substitute services and expended in obtaining reimbursement including, but not limited to, administrative expenses, attorneys' fees, and costs.

2.3. The non-defaulting party will have all other rights granted under this Agreement and all rights at law or in equity that may be available to it.

2.4. Neither party will be liable for incidental, special, or consequential damages.

Agreed ■ NA ☐ Exception:

3. **CONTINUATION DURING DISPUTES.** Contractor agrees that during any dispute between the parties, Contractor will continue to perform its obligations until the dispute is settled, instructed to cease performance by the City, enjoined or prohibited by judicial action, or otherwise required or obligated to cease performance by other provisions in this Agreement.

Agreed ■ NA ☐ Exception:

4. **TERMINATION FOR CONVENIENCE.** The City reserves the right to terminate this Agreement, in part or in whole, for its sole convenience upon thirty (30) calendar days written notice. Contractor acknowledges that, as with any termination permitted under this Agreement, in the event of a termination for convenience, Contractor is only entitled to payment in accordance with section 22 (Payment to Contractor Upon Termination); Contractor will not be entitled to any anticipated lost profits had the Agreement been performed to completion.

   Agreed ■ NA ☐ Exception:

5. **NONDISCRIMINATION.** Contractor understands and acknowledges that it is the policy of the City of Mesa to promote non-discrimination. As such, Contractor represents and warrants that it does not discriminate against any employee or applicant for employment or person to whom it provides services because of race, color, national origin, age, disability, religion, sex, sexual orientation, gender identity and expression, veterans' status, marital status, or genetic information, and represents and warrants that it complies with all applicable federal, state, and local laws and executive orders regarding employment. In performance under this Agreement, Contractor and Contractor's personnel will comply with applicable provisions of the following laws (as amended): Title VII of the U.S. Civil Rights Act of 1964, Section 504 of the Federal Rehabilitation Act, the Americans with Disabilities Act (42 U.S.C. § 12101 et seq.), and any other applicable non-discrimination laws and rules.

   Agreed ■ NA ☐ Exception:

6. **DAVIS-BACON ACT.** For all prime construction contracts in excess of $2,000, all transactions regarding this contract shall be done in compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146- 3148) and the requirements of 29 C.F.R. pt. 5 as may be applicable. The contractor shall comply with 40 U.S.C. 3141-3144, and 3146-3148 and the requirements of 29 C.F.R. pt. 5 as applicable. Contractors are required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. Additionally, contractors are required to pay wages not less than once a week.

   Agreed ■ NA ☐ Exception:

7. **COPELAND "ANTI-KICKBACK" ACT.**

   7.1. Contractor. The contractor shall comply with 18 U.S.C. § 874, 40 U.S.C. § 3145, and the requirements of 29 C.F.R. pt. 3 as may be applicable, which are incorporated by reference into this contract.

   7.2. Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clause above and such other clauses as FEMA may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all of these contract clauses.

   7.3. Breach. A breach of the contract clauses above may be grounds for termination of the contract, and for debarment as a contractor and subcontractor as provided in 29 C.F.R. §5.12.

   Agreed ■ NA ☐ Exception:

8. **CONTRACT WORK AND SAFETY STANDARDS ACT.** Where applicable (see 40 U.S.C. §§ 3701-3708), all contracts in excess of $100,000 that involve the employment of mechanics or laborers each contractor shall compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. Further, no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous, or dangerous.

   8.1. Overtime requirements. No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

   8.2. Violation; liability for unpaid wages; liquidated damages. In the event of any violation of this section, the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in

violation of the clause set forth in this section, in the sum of $26 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by this section.

8.3. Withholding for unpaid wages and liquidated damages. The City shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in this section.

8.4. Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clauses set forth in this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in this section.

Agreed ■ NA ☐ Exception:

9. **RIGHTS TO INVENTIONS MADE UNDER A CONTRACT OR AGREEMENT.** If this Contract is for the performance of experimental, developmental, or research work, including any assignment, substitution of parties, or subcontracts, the City and the Contractor shall comply with the requirements of 37 CFR Part 401 (Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements) and any implementing regulations issued.

Agreed ■ NA ☐ Exception:

10. **CLEAN AIR ACT.** The contractor agrees to:

10.1. The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. § 7401 et seq.

10.2. The contractor agrees to report each violation to the City and understands and agrees that the City will, in turn, report each violation as required to assure notification to the required Federal Agencies.

10.3. The contractor agrees to include these requirements in each subcontract exceeding $150,000.

Agreed ■ NA ☐ Exception:

11. **FEDERAL WATER POLLUTION CONTROL ACT.**

11.1. The contractor agrees to comply with all applicable standards, orders, or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq.

11.2. The contractor agrees to report each violation to the City and understands and agrees that the City, in turn, report each violation as required to assure notification to the required Federal Agencies.

11.3. The contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance.

Agreed ■ NA ☐ Exception:

12. **DEBARMENT.** If the Respondent has been debarred, suspended, or otherwise lawfully precluded from participating in any public procurement activity, including being disapproved as a subcontractor with any federal, state, or local government or agency, or if any such preclusion from participation from any public procurement activity is currently pending, the Respondent shall include a letter with its Response identifying the name and address of the governmental unit, the effective date of the suspension or debarment, the duration of the suspension or debarment, and the relevant circumstances relating to the suspension or debarment. If suspension or debarment is currently pending, a detailed description of all relevant circumstances must be provided by the Respondent, including the details enumerated above. A Response from a Respondent who is currently debarred, suspended or otherwise lawfully prohibited from any public procurement activity may be rejected. Failure of a Respondent to disclose a debarment or suspension in accordance with this Section may result in the Response being disqualified for an award of the Solicitation. Debarment status will be verified using the federal System for Award Management (SAM).

Agreed ■ NA ☐ Exception:

13. **ACCESS TO RECORDS.** Offeror agrees that the City or any of their duly authorized representatives shall have access to any documents, papers, or other records of offeror that are pertinent to offeror's discharge of its obligations under the Contract for the purpose of making audits, examinations, excerpts, and transcriptions. The right also includes timely and reasonable access to offeror's personnel for the purpose of interview and discussion relating to such documents.

    Agreed ■ NA ☐ Exception:

14. **RECORDS RETENTION.** When federal funds are expended by the City for any contract resulting from this procurement process, offeror certifies that it will comply with the record retention requirements detailed in 2 CFR § 200.333. The offeror further certifies that offeror will retain these records as required for a period of three years after grantees or subgrantees submit final expenditure reports or quarterly or annual financial reports, as applicable, and all other pending matters are closed.

    Agreed ■ NA ☐ Exception:

15. ENERGY POLICY AND CONSERVATION ACT. Contractor must comply with mandatory standards and policies relating to energy efficiency which are contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act (42 U.S.C. §6201).

    Agreed ■ NA ☐ Exception:

16. BUY AMERICA. The Buy America requirements apply to construction contracts and acquisitions for goods or rolling stock valued at more than $100,000. The Contractor agrees to comply with 49 U.S.C. §5323(j) and its implementing regulations at 49 CFR Part 661, any amendments thereto and any implementing guidance issued by the FTA.

    Agreed ■ NA ☐ Exception:

17. **APPLICABILITY TO SUBCONTRACTORS.** Offeror agrees that all contracts it awards pursuant to the Contract shall be bound by the foregoing terms and conditions.

    Agreed ■ NA ☐ Exception:

18. **SOLID WASTE DISPOSAL ACT.** The Contractor must comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR Part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $ 10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $ 10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

    Agreed ■ NA ☐ Exception:

19. **BYRD ANTI-LOBBYING AMENDMENT.** Contractors that apply or bid for an award exceeding $100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered.

    19.1. No Federal appropriated funds have been paid or will be paid for on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of congress, or an employee of a Member of Congress in connection with the awarding of a Federal contract, the making of a Federal grant, the making of a Federal loan, the entering into a cooperative agreement, and the extension, continuation, renewal, amendment, or modification of a Federal contract, grant, loan, or cooperative agreement.

    19.2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of congress, or an employee of a Member of Congress in connection with this Federal grant or cooperative

agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying", in accordance with its instructions.

19.3. This certification shall be included in all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

Please check the appropriate box:

■ No funds have been used or are planned to be used for lobbying in connection with this contract, or

☐ Attached is Standard Form LLL, "Disclosure of Lobbying Activities," which describes the use (past or planned) of funds for lobbying in connection with this contract.

Agreed ☒ NA ☐ Exception:

Offeror agrees to comply with the requirements in these Terms and Conditions as well as all federal, state, and local laws, rules, regulations, and ordinances, as applicable.

EXECUTIVE SUMMARY

As a testament to the City of Mesa's commitment to delivering the highest quality of services and vision to be leaders in procurement and strategic sourcing, CDW•G recognizes that the City has taken on a significant undertaking as the lead agency for this OMNIA Partners agreement. As a current contract holder, CDW•G is uniquely positioned to deliver a comprehensive contracting solution that simplifies buying and removes the complexity of developing and implementing IT solutions. We are committed to providing continual value and efficiency to the procurement process and have the experience and comprehensive offering to meet the City of Mesa and OMNIA Partners' needs.

Affirming our ability to create value for the City of Mesa and OMNIA Partners, in 2022, we received the Global Customer Value Leadership Award from Frost & Sullivan for the second year in a row. This award is presented to a company that demonstrates excellence in implementing strategies that proactively create value for its customers with a focus on improving the return on the investment that customers make in its services or products.

Breadth of Offerings

Since our last response to the City of Mesa and OMNIA Partners, CDW•G has undergone significant growth to continue to meet your needs in the vastly changing technology landscape. In the last year alone, we have expanded our solutions and services offering across cloud services, software development, data orchestration, ServiceNow expertise, education sector consulting, security, and systems integration. Currently, we offer more than 100,000 products from more than 1,100 different manufacturers and software publishers and are committed to expanding our products, solutions, and services to continue to meet the City of Mesa and OMNIA Partners' needs.

Local Presence

Our customers are the center of all we do at CDW•G and the fuel behind our initiatives, solutions, and services. Part of our dedication to our customers is a sales and service force best suited to the needs of our State, Local, and Education (SLED) customers. With a local presence and national reach throughout the US, our team is ready to continue serving the City of Mesa and OMNIA Partners. As you may be aware, we have coworkers in offices and remote locations in or near every major city in the US; we have 1 office nearby in Tempe, Arizona, and nearly 400 coworkers who reside in AZ.

Figure 1. US Office Locations

CDW•G and OMNIA Partners

CDW•G has been managing OMNIA contracts for 15+ years. Under our existing contract with the City of Mesa and OMNIA Partners, we have adoption within all 50 states and utilization by 900 State Agencies, 6,750 Local Government entities, 1,400 Higher Education entities, and

2,300 K-12 entities. Of these entities, we have successfully built and launched over 92 Participating Public Agency-specific agreements. CDW•G continues to prove without a doubt that we can keep our commitment to making this contract prosperous amongst our vastly growing portfolio of offerings.

Small and Diverse Impact Across Local Communities

CDW•G is proud to have a robust Business Diversity Program that actively contributes to the growth of small, diverse partners and makes positive community impact. CDW's diverse spend in 2022 was $3.6B; as a testament to CDW•G's commitment to how frequently we help our public sector customers meet their diversity goals with qualified partners, $2.3B of the $3.6B was solely from CDW•G. As a responsible market leader, CDW•G has the privilege, opportunity, and responsibility to partner with diverse business partners and bring them with us to every opportunity. Through our robust partner network, we can seamlessly integrate partners with the necessary capabilities into our business model, offering small and diverse businesses access to our resources while striving toward an equitable and inclusive society.

Sector-Specific Organization and Expertise

CDW•G was formed in 1998 to create a company with an exclusive public sector focus. The City of Mesa and OMNIA Partners have access to regionally based, segment-focused, dedicated CDW•G Account Teams. This segmentation ensures that CDW•G meets all your needs while supporting your vision and mission. CDW•G is among the largest education technology solutions providers as a trusted IT partner to more than 15,000 K-12 schools, as well as approximately 3,000 colleges and universities.

TAB C
PROPOSAL QUESTIONNAIRE

PROPOSAL QUESTIONNAIRE RESPONSE

The City will evaluate and score Attachment A, Attachments C, D, and E (those responses deemed necessary to evaluate proposers qualifications and approach).

Questionnaire Instructions

Respondents must respond to each question by using the response box provided, failure to do so may result in your firm's response being found non-responsive.

Respondents must read and complete the Response Questionnaire of this RFP and provide any documentation required to support the answers to each question. Vague or disorganized Responses that do not allow sufficient information for evaluation purposes may result in rejection of a Response.

If your firm has prior experience working with the City DO NOT assume this prior work is known to the evaluation committee. All Respondents are evaluated on the information contained in their Response and presentations, if requested. All Responses must be prepared as if the evaluation committee has no knowledge of the firm, their qualifications, or past projects.

Responses to the questionnaire and related documents and exhibits are to be organized in the same sequence as presented in the questionnaire. Supporting documents and exhibits not clearly identified to a correlating question will not be evaluated. The evaluation committee shall have the final determination as to what is considered "clearly identified".

How to Respond

The Respondent should provide a concise explanation of its capabilities to satisfy the requirements of this RFP, with emphasis on completeness and clarity of content. DO NOT assume that you will have any opportunity to make a presentation or explain any item or detail.

Minimums Qualification

The following requirement(s) have been identified as minimums for this procurement. A "No" response to any of the following question(s) (**1**) may be deemed non-responsive and the firm will be removed from the evaluation process.?

Explanation

The contractor shall provide an explanation to each question/specification, and it is your firm's responsibility to ensure that your explanation supports the chosen response (Yes, No). The City reserves the right to correct any Contractor selected response based on Contractor's explanation to each question/specification. Proposers will be scored on selected response (yes or no) and explanations given.

		Complies		***Explanations***
1.	Contractor shall have been in the business of providing the products and services described in this RFP for at least two (2).	Yes No	☒ ☐	Yes, CDW•G confirms we have been in the business of providing the products and services described in this RFP for at least two years. In fact, CDW was founded in 1984 and has sustained consistent growth since then. Specific to the public sector, we formed CDW•G in 1998 to focus on the needs of federal, state, local, and education customers. We have been providing

	IT products and services for nearly 40 years. In addition, we have been managing OMNIA Partners contracts for more than 15 years, providing the products and services described in this RFP. Under our existing contract with the City of Mesa and OMNIA Partners, we have adoption within all 50 states and utilization by 900 State Agencies, 6,750 Local Government entities, 1,400 Higher Education entities, and 2,300 K-12 entities. Of these entities, we have successfully built and launched over 92 Participating Public Agency-specific agreements.

Firms Qualifications and General Information

	Question	Response
1.	Brief history and description of Supplier to include experience providing similar products and services.	Founded in 1984, CDW LLC (CDW) is a leading provider of technology solutions to over 250,000 customers composed of small-, medium-, and large-sized public and private entities. CDW Government LLC (CDW•G) is a wholly owned subsidiary of CDW, incorporated in 1998 to address the specific needs of our government, education, and healthcare customers. Our broad array of products and services ranges from hardware and software to integrated IT solutions such as security, cloud, hybrid infrastructure, and digital experience. Our unique company structure provides the City of Mesa and OMNIA Partners with products and services only a large national reseller can provide, combined with a local presence typical of a small business. Account Teams are segmented by agency type, Education (K-12/Higher Ed) or Government (State and Local/Federal), and by region. To provide the City of Mesa and OMNIA Partners with one contact who is knowledgeable of every nuance of their organization, every customer has a dedicated CDW•G Account Manager as their primary point of contact. Customers in the largest markets also have the support of a local Advanced Technology Account Executive (ATAE) in the field to facilitate onsite meetings and in-depth technical conversations. CDW•G is one of the largest technology solution providers in the US, currently carrying more than 100,000 name-brand technology products from over 1,100 leading IT manufacturers and software publishers. For the full list of our manufacturers and software publishers, please see our line card in Tab D, Exhibit 1. We have a large original equipment manufacturer (OEM) and software publisher presence in our offices across the country and are supported in the field by Advanced Technology Account Executives. CDW•G delivers more than just products; we deliver IT solutions and services in a manner consistent with procurement guidelines and the City of Mesa and OMNIA Partners Participating Public

		Agencies' preferences. With subject matter experts able to advise on the right IT solutions and the purchasing avenues to accommodate efficient and seamless procurement, CDW•G offers flexibility in how customers engage with and buy from us. We pride ourselves on our innovation and a ceaseless desire to deliver an excellent customer experience. We have over 15 years of experience managing OMNIA Partners agreements. Through our contract management capabilities and nationwide state, local, and education (SLED) sales force, we have successfully expanded contracts and member utilization rates. We hold three master agreements, which include Region 4 ESC – TX - Technology Solutions, Products and Services, City of Mesa - Information Technology Solutions & Services, and Region 4 ESC – TX – Total Cloud Solutions. Additionally, we maintain ongoing strategic cadences with OMNIA Partners to drive contract utilization through enablement and marketing activities. Under our existing contract with the City of Mesa and OMNIA Partners, we have adoption within all 50 states and utilization by 900 State Agencies, 6,750 Local Government entities, 1,400 Higher Education entities, and 2,300 K-12 entities. Of these entities, we have successfully built and launched over 92 Participating Public Agency-specific agreements.
2.	Total number and location of salespersons employed by Supplier.	We currently employ approximately 15,000 coworkers globally across 51 different office locations in the US, including one office in Tempe, Arizona. In total, CDW has more than 4,200 salespersons, with approximately 1,500 salespersons at CDW•G dedicated to public sector agencies. To provide the best experience to our customers, CDW•G's sales force is segmented into four verticals: Higher Education, K-12 Education, Federal Government, and State and Local Government. Each team is further regionalized, allowing our Account Managers and Advanced Technology Account Executives (ATAEs) to dive deep into communities and build relationships with localized areas. We have provided visuals for our State and Local, K-12, and Higher Education segmentation as well as locations of our coworkers in Tab D, Exhibit 2.
3.	Number and location of support centers (if applicable) and location of corporate office.	We have 51 offices and two distribution centers around the United States, including one office in Tempe, Arizona. Our technical support technicians are based out of our Holmdel, NJ, location. CDW•G is headquartered at 230 N. Milwaukee Ave. Vernon Hills, IL 60061. **Offices and Distribution Centers** ▪ Arizona: Tempe ▪ California: Glendale, Irvine, San Diego ▪ Colorado: Centennial ▪ Connecticut: Shelton

A government agency is defined as Federal, State, County, City/Town, State/Local University/College, and School Districts.	
• Name of agency/firm • Contact person(s) with direct knowledge of the proposed solution and services provided. • Phone number • E-mail address • Products and Services provided • Length of business relationship (time)	**Response Below**
Reference #1:	▪ **Name of agency/firm:** University of California, Los Angeles (UCLA) ▪ **Contact person(s) with direct knowledge of the proposed solution and services provided:** Soren Bondesen ▪ **Phone number:** 310-794-6063 ▪ **E-mail address:** sbondesen@finance.ucla.edu ▪ **Products and Services provided:** Full Catalog of Hardware, Software and Services, including Staff Augmentation Services ▪ **Length of business relationship (time):** 11+ years University of California, Los Angeles, (UCLA) is a public research university that serves 50,000+ students and nearly 8,000 faculty members. With a vast array of degree programs and areas of study, including Law, Public Health, Hospitality, Medicine, and Theater, UCLA requires an IT provider that can meet the needs of a diverse set of students, faculty, and interests. Whether classroom technology, security and storage, audiovisual equipment, software renewals, keyboards, or staff augmentation services – UCLA depends on CDW•G to provide what they need. We support not only their IT Department but also any other department that might require IT products, like their medical school or hospitality department. Recently, UCLA has taken advantage of our Staff Augmentation Services to fill in gaps in one of their departments. We have an extensive database of candidates and save UCLA stakeholders time by finding candidates, conducting interviews, and handling paperwork. As one of our largest customers on the current City of Mesa and OMNIA Partners contract, UCLA benefits from a simplified procurement process, a knowledgeable team for all of their solution needs, and a dedicated CDW•G Account Manager to process multiple orders a day.

	long-term alignment to help drive exceptional outcomes for citizens and employees. Presenting a full stack of services offerings, the City of Tempe was able to choose resources that best aligned with yearly initiatives and requirements. Using the City of Mesa OMNIA Partners contract as the procurement vehicle, CDW•G delivered on several critical services. From simply providing a network security resource to help around the margins, to providing information security ad hoc services for consulting, we have been able to continuously augment the skills of Tempe's full-time IT staff to help them deliver on their goals.
NOTE: • References listed will not be held confidential and the City will not honor Respondent's request to keep the information confidential. • Initial evaluation - Respondents will be evaluated based on the information requested and provided by references. • The City reserves the right, but does not have the obligation, to contact any or all the provided references. Proposers are encouraged to provide detailed information about each reference in the Response Questionnaire as the City may not directly contact a reference and, instead, use the information provided about a reference in the Response for evaluation. • The City reserves the right to contact additional clients or persons for references.	
7. Describe how supplier differentiates itself from its competitors.	CDW•G is a partner dedicated to walking next to our customers every step of the way in their technology journey. A significant priority in SLED IT initiatives is flexible, adaptable technology that can securely enable user needs. It's not enough to provide customers with access to products they want quickly and efficiently. Procurement and Information Technology officers need to understand their options, and SLED agencies need to know their products are securely sourced. CDW•G is uniquely positioned to serve OMNIA Partners Participating Public Agencies and is differentiated in the following areas: ▪ Business diversity programs and local impact ▪ Experience with OMNIA and OMNIA Partners Participating Public Agencies ▪ Best-in-class contract management ▪ Technical innovation ▪ Secure supply chain and distribution model

	▪ Depth and breadth of solutions across hardware, software, cloud, cloud marketplace, professional services, managed services, and staff augmentation ▪ Past performance of successfully guiding OMNIA Participating Public Agencies through technological and industry change ▪ Public sector expertise with dedicated sales and technical resources aligned by industry A detailed description of each area of differentiation is provided below. **Robust Business Diversity Program** CDW•G is proud of our Business Diversity Program, and we believe that the structure and depth of our program are significant differentiators for each of our customers. While we are not a M/WBE-certified company, our program seeks to empower diverse and local companies in the communities we serve nationwide. Instead of simply checking the box to meet requirements, we curate a unique network of quickly deployable diverse business partners. This approach embodies the goals of our customers by creating a multiplier effect that drives job creation and contributes to lasting economic empowerment in the communities we serve. Our program allows the City of Mesa and OMNIA Partners to support their local communities through everyday IT procurement. We work closely with the City of Mesa and OMNIA Partners Participating Public Agencies to find qualified, small and/or diverse suppliers to meet your goals, based on your requirements and needs. In 2022, CDW spent $3.6B with certified small, diverse suppliers, and we currently feature over 1,400 small and diverse suppliers who we partner with on a regular basis. As a testament to CDW•G's commitment to how frequently we help our public sector customers meet their diversity goals with qualified partners, $2.3B of the $3.6B (nearly 64%) in 2022 was solely from CDW•G.

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Also in 2022, we more than doubled the size of our Business Diversity Program team to ensure that we take a customized, regional approach to better serve our diverse partners and establish local economies of scale. Our team understands the specific requirements that different states have and helps customers navigate, establish, and magnify impact, under their diversity goals. In Arizona, we've contributed the following in 2022**:**

Figure 1. 2022 Economic Impact in Arizona

CDW•G prides itself on having a strategic program that puts our Business Diversity partners first. Unlike some value-added resellers (VARs) that see diversity requirements as a box to check, we find these requirements as a way to partner with local businesses and help them grow. Our goal is for these local, diverse companies to become long-term strategic partners of both our customers and CDW•G. We provide greater insight into our Business Diversity Program in question 2 of Firm's Method and Approach below.

OMNIA Partnership Experience

Our sales force is well-versed in growing contracts and is also experienced in discussing the value of OMNIA Partners contracts. We believe the contract structure that the City of Mesa and OMNIA Partners offer, combined with our expertise in supporting dynamic procurement solutions with our broad customer ecosystem, provides a unique opportunity to optimize contract adoption and growth. Collectively, we remove the complexity of procurement and technology that

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

	our customers often encounter. We understand the value of OMNIA Partners and its contracts and have been successful in expanding this contract to our customers. CDW•G continues to prove without a doubt that we can keep our commitment to making this contract prosperous amongst our vastly growing portfolio of offerings. Continuing to contract with CDW•G provides the City of Mesa and OMNIA Partners Participating Public Agencies with a secure partnership with a proven track record of positioning the contract nationwide and expanding the contract footprint among all SLED-eligible entities. **Contract Management Experience** While we manage numerous public sector contracts, we believe it is the breadth of our contracts and the emphasis we place on contract compliance, company-wide, that allows us to be a leader in contract management. Many suppliers have well-established delivery and installation procedures but lack the plan or personnel to ensure compliance throughout the contract's complete lifecycle. A major differentiator for CDW•G is our Program Management Team, a group of coworkers devoted to the full lifecycle of contractual sales, including managing active contracts. CDW•G invests in these resources because of our understanding that contracts are complex sets of commitments. Centralizing our contract management within one department allows us to standardize our contract management processes and share best practices. As a result, we reduce risks and improve efficiencies for CDW•G, and, more importantly, for the City of Mesa and OMNIA Partners Participating Public Agencies. With an average of over ten years of industry experience and active participation in the National Contract Management Association and World Commerce & Contracting, CDW•G Program Managers are qualified to advise and serve our customers at all stages of the contract process. CDW•G manages nearly 1,000 active SLED contracts, with OMNIA Partners contracts in the top 1% of our spend. Our contract managers become experts in their respective contract portfolios and can continue to provide insights to the City of Mesa and OMNIA Partners. Access to the CDW•G Program Management team not only ensures contract compliance but also assures the City of Mesa and OMNIA Partners Participating Public Agencies that, when leveraging this contract, their purchases and piggyback agreements are overseen not solely by a sales team member but also by a highly skilled and specialized contract compliance professional. **Commitment to Innovation** For more than 20 years, CDW•G has been at the forefront of emerging technologies, including collaboration solutions, cloud, mobility, and virtualization, which is a major aspect of

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

	our ability to grow as a company. We have actively expanded our catalog, certifications, and solutions to address the latest IT developments, including cloud, IoT, software, and esports, so that we can continue to meet the evolving needs of the City of Mesa and OMNIA Partners Participating Public Agencies. In addition, we have dedicated CDW•G resources aligned to these solution areas to help the City of Mesa and OMNIA Partners Participating Public Agencies understand and implement them. Moving forward, we expect the landscape in which we compete to continue to evolve as new technologies are developed, and we will continue to evolve with those technologies. To affirm our dedication to innovation, CDW received CRN's 2023 Internet of Things (IoT) Innovators Award; this annual program honors North American solution providers that recognize the enormous potential of IoT, have integrated cutting-edge technologies into their portfolio, and are driving IoT innovation forward. CDW•G will continue to invest, organically and inorganically, in high-growth solutions and services capabilities so that we can continue to meet the needs of the City of Mesa and OMNIA Partners. CDW•G understands that the City of Mesa and OMNIA Partners Participating Public Agencies change and shift over time, and we are willing to change as technology changes. **Sourcing Products and Building OEM Relationships** CDW•G has relationships with more than 1,100 leading manufacturers. When CDW•G doesn't have a direct relationship with an Original Equipment Manufacturer (OEM), we leverage our vast distribution network (i.e., Arrow, Synnex, Ingram Micro, a diverse partner, and more) to source a product request. As such, should the City of Mesa and OMNIA Partners identify a product we do not currently provide, we will work to ensure you get what you need. Additionally, our Product and Partner Management team is dedicated to onboarding new OEMs and partners. This team works proactively to identify customer-leveraged OEMs to onboard into our ecosystem of partners. If a product is out of stock in CDW•G distribution centers, CDW•G can leverage our local and national distribution network; if the product is in stock in the distribution network, CDW•G can generally secure product(s) from our local distribution network within 24 hours. Our sales staff and engineers are in steady communication with customers regarding their needs and vendor partners regarding changing product lines and new offerings. **Ability to Adapt** CDW's market position, financial strength, and demonstrated agility enable us to deliver value that transcends helping our customers meet short-term IT objectives. We are with our customers in good times, but we are also there to help them

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

	navigate difficult circumstances and unprecedented challenges. We are relentlessly devoted to helping our customers meet the challenges related to resolving their technology needs. One way we achieve this is through our agility in adapting to the unexpected, such as during the earliest stages of the COVID-19 crisis. Because CDW•G plays a critical role in continuing to supply IT products and services to our public sector customers, we prioritized a strategic response that would ensure our customers' needs were met in the face of a significant strain on the global supply chain. We worked closely with our manufacturer partners to identify product recommendations based on projected availability. At the same time, we maintained focus on the well-being of our communities and helped our customers navigate a rapidly changing environment. We implemented stringent safety measures in our distribution centers in order to maintain business continuity while prioritizing the well-being of our coworkers. Due to our having two distribution centers in different portions of the country, we are able to maintain our supply chain in the event one of those centers goes down for any reason. For example, when a customer needed to quickly deploy device rollouts to enable distance learning, they leaned on CDW•G to scope, design, and ship solutions in quick order. When the facilities expecting these shipments were closed without advance warning, CDW•G worked closely with the 17 colleges and universities to reroute packages and ensure the essential deliveries were received. Our teams successfully rerouted hundreds of shipments. As the situation continued to evolve, our teams remained in contact with our carrier partners to provide updates and continued to leverage member input and requirements to inform our company-wide strategic buying decisions. CDW•G's unmatched product and solutions offerings, coupled with an unrivaled partner network of leading manufacturers and diverse businesses, enable us to give the City of Mesa and OMNIA Partners Participating Public Agencies a partner that can adapt to any scenario, both in the short- and long-term. **Blended Distribution Model** A significant advantage that differentiates CDW•G in the marketplace is our ability to deliver the right products at the right value, right when you need them. Many of our competitors rely on what we refer to as "virtual warehouses." These resellers are entirely reliant on their distribution and OEM partners for packaging and shipping customer solutions. This virtual warehouse model introduces extended lead times and uncertainty in sourcing and supply chain security. At CDW•G, we have blended the best of our OEMs and distribution partners' fulfillment capabilities with our own

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

	distribution centers to optimize quick and accurate fulfillment. Our same-day fill rate typically varies between 97% and 99% for credit-approved orders with in-stock products. **Public Sector Expertise** We have more than 30 years of extensive experience providing solutions to public sector customers across segments (federal, education, state and local). Our parent company, CDW LLC, was established in 1984, and CDW•G was established in 1998 to better serve our federal, state and local, and education customers. Public sector business comprised roughly 36% of our total annual revenue in 2022. We maintain over 1,000 contracts in order to serve these customers efficiently and compliantly. Our portfolio demonstrates widespread adoption and relevance, with customers actively transacting across all 50 states. Under the new contract, we will continue these efforts, with targeted account planning in collaboration with the City of Mesa and OMNIA Partners to expand the contract footprint to small, middle, and large entities.

Firms Method and Approach		
	Question	**Response**
1.	Provide a description of all services that can be provided by your firm or partners (e.g., cloud, services, maintenance, implementation, design, analysis, training, repair, staff augmentation, etc.).	We provide expert consulting, design, configuration, installation, implementation, cloud, maintenance, analysis, training, repair, staff augmentation, lifecycle management services, and more. We provide more insight into the services we offer, as well as products and solutions, in Tab D, Exhibit 3. Additionally, we have provided our full training course catalog in Tab D, Exhibit 4. CDW•G's full lifecycle of services supports the City of Mesa and OMNIA Partners Participating Public Agencies' internal team and helps you focus on your short-term and long-term goals. Our lifecycle of services takes a consultative approach to IT; we listen to your needs so that we can truly understand the challenges your organization faces. This level of understanding allows us to identify how technology can help you meet your goals. Then, we help you design, orchestrate, and manage your technology environment. CDW•G offers a robust range of products and services that enable the City of Mesa and OMNIA Partners to develop the best total solution to meet your specific needs while attaining the most value. As a testament to our services experience, we have recently received the following awards: ▪ In 2022, we received Frost & Sullivan's Global Customer Value Leadership Award, recognizing

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

	our growing services portfolio for its commitment to our customers who seek support for their digital transformation. The award recognizes our unique focus on augmenting the value that our customers receive, beyond simply good customer service, leading to improved customer retention and customer base expansion. ▪ In June 2023, we ranked #4 on CRN's Solution Provider 500 list. This list ranks the top integrators, service providers, and IT consultants in North America by revenue. ▪ Also in June 2023, we ranked #10 out of 501 in the prestigious 2023 Channel Futures Managed Service Providers (MSP) 501 rankings; MSPs that qualify for the list must pass a rigorous review and are ranked using a unique methodology that weighs financial performance according to long-term health and viability, commitment to recurring revenue, and operational efficiency. As evidenced by more than 15 years supporting OMNIA Partners Participating Public Agencies, CDW•G's size and breadth allow us to accommodate a nationwide demand for services and fulfill obligations as a nationwide contractor. We will continue to invest in high-growth solutions and services capabilities so that we can continue to meet the City of Mesa and OMNIA Partners Participating Public Agencies' needs. We provide more insight into the services we offer, as well as products and solutions, in Tab D, Exhibit 3.
2. Please describe any local diversity program(s) or partnership your firm currently have in place. Response should also include the following: • Please define qualifications for small business/diversity program or partnership. • Does your firm have a mentoring program that supports your local partnerships? If, yes, please provide the details of your mentoring program. • Any required certifications • Number of States and Cities currently available? • Plan to expand to other States and Cities.	**Business Diversity Program – Overview** *Please describe any local diversity program(s) or partnership your firm currently have in place.* When you partner with CDW•G, you are partnering with a company where business diversity is a deeply embedded, ongoing priority. Since the inception of our Business Diversity Program in 2007, we have sought to promote diverse supplier participation representative of our customers and communities that contributes to sustainable economic growth. CDW•G is prepared to help the City of Mesa and OMNIA Partners Participating Public Agencies meet their diversity goals. We're committed to simplifying the complexity of Business Diversity for the City of Mesa and OMNIA Partners Participating Public Agencies. While we are woman-led with our CEO Chris Leahy, we are not a minority- or woman-owned business enterprise. Because we are not a large corporation with our own M/WBE certification, CDW•G has the opportunity to invest in small and diverse businesses. As a result, we drive job creation and contribute to lasting economic empowerment in communities across the US.

Results of our Business Diversity Program

Partnering strategically with diverse and small businesses enables us to keep providing the industry's best experience while contributing to economic growth in diverse communities nationwide. Since 2007, we have spent $25 billion, $3.6 billion in 2022 alone, with certified small, diverse suppliers, and we currently feature over 1,400 small and diverse suppliers who we actively partner with on a regular basis. Of the $3.6 billion in 2022, $2.3B was solely from CDW•G supporting public sector goals.

In 2019, we became a member of the Billion Dollar Roundtable (BDR), joining an exclusive group of 40 US-based companies procuring more than $1 billion annually from minority- and women-owned businesses on a first-tier basis.

In 2021, industry-leading research IT research firm and consultancy, Gartner, conducted a case study on CDW's Business Diversity Program for procurement leaders. Gartner concluded the following: “CDW’s supplier diversity team enables business partners to retain the best-fit diverse suppliers for new sourcing needs by providing targeted business-relevant information gathered from past supplier engagements.” Our comprehensive Business Diversity Program ultimately allows procurement officials to confidently incorporate small and diverse suppliers into their supply chain.

In 2022, we enhanced our national strategy across the US by welcoming supply chain experts to our growing team. These regional market leaders are focused on building partnerships with local suppliers and across our customer base. Their efforts have improved our agility and increased our effectiveness in identifying and mentoring new diverse partners. Additionally, this comprehensive approach enables us to gain a deeper understanding of the unique challenges, opportunities, and economies of scale present in each region. We use these real-time insights to inform and tailor our business diversity strategy, boosting both performance and impact.

In 2023, CDW hosted the BDR Summit. The Summit is an annual gathering of BDR members to discuss best practices and opportunities for supplier diversity program growth.

Benefits

Benefits of our Business Diversity Program and incorporating small and diverse suppliers include the following:

- Meet the City of Mesa and OMNIA Partners Participating Public Agencies’ small, minority-owned supplier goals without having to invest time

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

	and resources into finding, evaluating, and engaging them yourself. ▪ Diversify the City of Mesa and OMNIA Partners Participating Public Agencies' supply chain, boosting your resilience and agility in an unpredictable world. ▪ Enjoy a first-mover advantage when it comes to new, cutting-edge technologies. ▪ Benefit from our strong supplier relationships and global procurement capabilities. We understand that each OMNIA Partners Participating Public Agency will have different requirements, laws, and goals. CDW•G is continuously developing more small and diverse partnerships to meet our customers' needs. These relationships include, but are not limited to, product manufacturers, distributors, and service providers nationwide who support direct (Tier 1) and indirect (Tier 2) fulfillment through presales and service engagements. We recruit diverse and disadvantaged partners locally and regionally because customer spending goals are typically tied to local laws and require the partner to be certified within their city or state. These various engagement models allow the City of Mesa and OMNIA Partners Participating Public Agencies the choice to engage with the diverse partner that suits their technology needs and where the diverse partner's business is best suited to provide support in the sales cycle. We strive for our small and diverse partners to meaningfully participate in meeting customers' IT needs. **Tier I and Tier II Programs – Overview** We realize that each customer has unique targets that require a thoughtful and dynamic approach to strategic sourcing. Our Business Diversity Program offers a broad and robust partner network. The following are a few ways that CDW•G can support the City of Mesa and OMNIA Partners Participating Public Agencies in meeting your diverse supplier goals: ▪ Educate users on CDW•G's business diversity program and how to initiate a planning session. ▪ Conduct customer-focused planning sessions with CDW•G Account Manager and Business Diversity program representative. ▪ Utilize information gathered from planning sessions to develop custom plans to achieve customer goals around Business Diversity. ▪ Perform ongoing engagement to adjust plans as necessary. More insight into our Tier I and Tier II Programs is below: **The Tier I Program**

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

	CDW•G is continuously developing additional small and diverse partnerships to meet the City of Mesa and OMNIA Partners Participating Public Agencies' Tier I needs. In fact, we offer an online registration tool where businesses can register for future opportunities with CDW•G. Our growing list of suppliers means that the City of Mesa and OMNIA Partners Participating Public Agencies can count on CDW•G to deliver against their diversity spending targets. CDW•G has also partnered with M/WBE leasing companies that can support the City of Mesa and OMNIA Partners Participating Public Agencies' Tier I spend requirements. CDW•G's Tier I program offers a low-risk experience for agencies looking to achieve direct spend with small, disadvantaged businesses while upholding the highest standards of IT procurement. **The Tier II Program** In an effort to foster even more opportunities for small, diverse businesses, CDW•G launched a Tier II Business Diversity Program in 2009 for its key manufacturing, distribution, and logistics partners. The program's goal is simple: to further opportunities for competitive small and diverse suppliers to supply goods and services to CDW•G and deliver them to our customers like the City of Mesa and OMNIA Partners Participating Public Agencies. CDW•G also provides Tier II reporting to customers that track their spending, ensuring that suppliers meet contract compliance and obligations. Our Tier II reports show the items that CDW•G purchased from diverse suppliers, all items that our customers purchased from CDW•G, and all items that CDW•G purchased from diverse suppliers to fulfil customers' orders directly. A major advantage to this model is the ability to recognize spend across multiple diverse firms by leveraging CDW•G's network of vetted hardware and software suppliers. **Recent Awards and Recognition** Recent notable awards that demonstrate our commitment to diversity include: ▪ 2023 Military Times Best for Vets: Employers List ▪ 2024 Military Friendly Employers Award from Military Friendly ▪ 2023 Best Employers for Diversity – Forbes ▪ In February 2023, we were named one of America's Top Corporations for Women's Business Enterprises (WBEs) by the Women's Business Enterprise National Council (WBENC). According to the WBENC, this honor is the only national award recognizing corporations for world-class Business Diversity programs that reduce barriers and drive growth for women-owned businesses

- Ranked #11 of Nasdaq 100 companies for its ESG reputation in December 2022

Commitment to Helping Close the Digital Divide

An essential part of our Business Diversity Program is our commitment to closing the digital divide. One of CDW•G's core values and strengths is making technology work so people can do great things. However, we recognize that technology doesn't work equally for everybody, and reliable access to technology is often not equitable, resulting in a digital divide. We are determined to change this narrative and are passionate about closing this divide within our company and the communities we support. Through our Business Diversity Program, we are actively working towards digital equity and making a positive impact. Below are a few of the ways we work to close the digital divide:

Promoting Digital Equity

CDW•G prioritizes digital equity by providing products and services to sectors that need them the most, such as education, healthcare, and government. We firmly believe that closing the digital divide requires collaboration from all leaders, within and outside our organization. By partnering with like-minded organizations that share our commitment to digital equity, we can amplify our collective impact and bridge the gaps we see everywhere.

Business Diversity

Our Business Diversity Program is a critical differentiator for CDW•G, enabling us to deliver increasingly innovative products, services, and solutions to our customers. We take pride in our comprehensive and active program, recognized as global champions for Business Diversity by esteemed organizations like Gartner, the Billion Dollar Roundtable, and WEConnect International. We also embrace the responsibility of sharing our experience and expertise with our customers and suppliers because we believe that when they succeed, we all win.

Driving Economic Empowerment in Communities

Investing in small and diverse businesses presents a unique opportunity to create jobs and contribute to lasting economic empowerment in our communities. With the global population becoming increasingly diverse, minority audiences are emerging as a significant target for companies, and diverse-owned businesses play a vital role in the small business sector.

Commitment to Fostering Equity

CDW•G is committed to fostering equity and ethical behavior throughout our global supply chain. We continually advance our global Business Diversity strategy, and in 2022, our operations in Canada and the

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

	UK exceeded their diverse spend targets. Collaboratively with our customers and supplier partners, we believe in the power of community members as drivers of prosperous, resilient local economies, creating efficiencies throughout our global supply chain. *Increasing our Diverse Supplier Spending* Our commitment to business diversity is demonstrated by our substantial spend with small and diverse businesses. Since 2007, we have transacted over $25 billion with these enterprises. *Social Impact* We are committed to making a long-lasting, meaningful difference through our global Social Impact program. With more than 80 social impact partners and as members of Tech for Good, we invest in technology that creates deliberate, positive social benefits. One recent partnership is with Compudopt, a national nonprofit that provides technology access and education to under-resourced youth. Our collaboration across the country aligns with our shared strategy of providing access to technology. Through local donation drives and employee engagement at Compudopt locations, we empower youth by repurposing personal, non-company computers and educating them about the potential of technology. **Qualifications for Small Business/Diversity Program** • *Please define qualifications for small business/diversity program or partnership.* We have a proactive approach to identifying and engaging diverse subcontractors and partners in our projects. CDW•G has a comprehensive vetting process that ensures each small and diverse partner can meet our customers' quality and performance expectations. Partner selection is based upon such criteria as business case, price, responsiveness, quality, geographic reach, available skill set, length of the project, and overall customer satisfaction. Committed to growing our Business Diversity Program, CDW•G actively seeks out diverse suppliers through Business Diversity databases, attends Business Diversity events and trade fairs, and collaborates with diversity-focused organizations and industry associations. We also maintain a comprehensive internal Business Diversity database that is constantly growing; this resource serves to connect project managers with qualified, diverse subcontractors and partners. Should the City of Mesa and OMNIA Partners Participating Public Agency have specific goals to meet, we will work with you to identify and engage a qualified, diverse subcontractor so that you can not only meet your own goals but also positively contribute to your own communities.

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Mentoring Programs

- *Does your firm have a mentoring program that supports your local partnerships? If, yes, please provide the details of your mentoring program.*

Mentorship and advocacy are integral components of our Business Diversity Program. It's one way we live up to our commitment to build stronger communities through economic inclusion. We have had numerous successes with mentor protégé programs with entities such as the City University of New York (CUNY) and Texas Tech University; these programs are designed to enhance diverse partners' capabilities, assist in meeting development goals, and improve their abilities to compete for and win contracts. With these programs, we are able to help grow their businesses and relationships.

Building on that momentum, we've collaborated with other universities to expand our efforts to help diverse businesses capitalize on their expertise to win business. In August of 2023, we welcomed our fellow BDR members to our Vernon Hills, Illinois, headquarters for BDR's 2023 summit to share best practices in pursuit of the collective vision to leverage our supply chains and positively impact our world.

During the year, we expanded our partnership with Disability:IN, a leading nonprofit resource for business disability inclusion worldwide. As an Inclusion Works partner company, we're proud to mentor disability-owned businesses. Disability:IN's Inclusion Works program provides companies with a team of disability inclusion experts to help them create an inclusive culture while simultaneously developing a sustainable recruitment strategy.

Required Certifications & Partner Certifications

- *Any required certifications*

While we are and have been woman-led with our CEO and Chair Chris Leahy since January 1, 2019, we are not a minority- or woman-owned business enterprise. Because we are not a large corporation with our own M/WBE certification, CDW•G has the opportunity to invest in small and diverse businesses. As a result, we drive job creation and contribute to lasting economic empowerment in communities across the US.

All of our diverse partners are required to hold and maintain diversity certifications. CDW•G accepts certifications from national and international Business Diversity certification councils, as well as city, state, and federal government entities.

States and Cities

	• *Number of States and Cities currently available?* Our Business Diversity Program is active in all 50 states, as well as Canada and the United Kingdom. **Plan to Expand** • *Plan to expand to other States and Cities.* CDW•G continuously seeks new partnerships that help our customers meet their small and diverse supplier goals and support local communities. As a testament to our effort to continue building our Business Diversity Program, we enhanced our national strategy across the US by welcoming supply chain experts to our growing team in 2022. These regional market leaders are focused on building partnerships with local suppliers and across our customer base. Their efforts have improved our agility and increased our effectiveness in identifying and mentoring new diverse partners. Additionally, this comprehensive approach enables us to gain a deeper understanding of the unique challenges, opportunities, and economies of scale present in each region. We use these real-time insights to inform and tailor our business diversity strategy, boosting both performance and impact. As a whole, CDW•G's Business Diversity Program goals are to increase procurement opportunities for direct and indirect spending with small, minority-owned, women-owned, veteran-owned, disabled-owned, and other small, disadvantaged businesses. Our philosophy on diversity extends beyond our coworkers, the customers we serve, and the communities we live in to include our valued supplier partnerships. Our commitment to strategically partner with qualified businesses enables CDW•G to continue to provide the best customer experience while contributing to economic growth in diverse communities. **Small and Diverse Partner Testimonials** *MBE Testimonial – KNZ Solutions* KNZ Solutions, a certified minority-owned business, was founded in 2017 by Khaled Mussa. Here's what KNZ has to say about their partnership with CDW•G: "CDW•G has been an invaluable support to KNZ Solutions. Their commitment to fostering collaboration and nurturing partnerships truly sets them apart. Their expertise, resources, and unwavering dedication played a pivotal role in navigating the challenges inherent in our industry. The impact of this partnership extends far beyond the bottom line – KNZ's employee count increased, and jobs were created. Our partnership has not only elevated our business but has also reinforced our belief in the transformative power of meaningful partnerships. We look forward to continued success and growth together."

	WBE Testimonial – BlackHawk Data BlackHawk Data is a New York-based WBE founded in 2018. Read about the BlackHawk Data and CDW•G Partnership below: "One of my primary go to partners has always been CDW. I knew if I went to them for advice, suggestions, and just to simply talk to, they would help me get through the start up phase. Well, they did more than that. Along with the local team in New York, the CDW Diversity Team helped me and made introductions to people around the US that I would not normally have met. I do honestly owe a good amount of our success to the CDW Team. As without them, getting through some of the hardest and darkest times may not have been possible without them. Because of partners like CDW, we have been able to grow the business to 45 people, hopefully, $60M in 2023, and become a CRN Triple Crown Winner. My heart is full with love and continued support on building our relationship." *WBE Testimonials – WBENC Conference* In 2023, CDW funded a booth for 15 woman-owned businesses at the annual Women's Business Enterprise National Council (WBENC) conference. This financial commitment directly impacted the growth of those businesses. Here's what two women had to say: Pam Feld, CEO, WBE/MBE: The booth sponsored by CDW afforded me the opportunity to deepen existing corporate relationships and engage with a multitude of WBEs from all over the country. I came away with 2 RFPs, 4 potential speaking opportunities, and 6 meetings lined up for expanding relationships. Mellissa Tong, CEO, WBE/MBE: I was really grateful that my talk at CEO Success Community Booth 718 was so well received that I got a recommendation to deliver a one-hour talk on Storytelling for Branding and Marketing for Maui's Economic Development Center in late April. Then, I was contacted by WBENC national to do a pitch workshop for them on May 5th. None of this would have happened without CDW's generous support of Booth 718 at WBENC in 2023. *MBE Testimonial – Betis Group* Betis is a minority-owned systems integrator with 25 years of experience providing Information Technology consulting and solutions on a global scale. Here's what Betis had to say: Betis and CDW have enjoyed a highly successful relationship since 2001. Thanks to CDW's successful

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

	contract win record, Betis provided project management, technical, and device installation services at more than 100 locations around the world. Over the last several years, our relationship [with CDW] has expanded as Betis helps support and deliver CDW's winning formula for gaining market share with private-sector customers who want to buy through a Tier-1 Diversity Supplier. The strategic collaboration between Betis and CDW has led to the acceleration of delivery and solutions for both our companies.
3. Please provide a statement regarding any sustainable, environmental, or socially responsive initiatives or practices your firm or suppliers have engaged in. This can be related to the specific products and/or services contained in this RFP.	CDW•G collaborates with our coworkers, customers, technology partners, and communities to improve the environment, create positive social impact, and live and operate in a more sustainable and ethical world. Our Environmental, Social, and Governance (ESG) journey and priorities are focused on where CDW•G is uniquely positioned to make the greatest impact and sustainably add value. While we have provided insight into our ESG Program below, we encourage the City of Mesa and OMNIA Partners Participating Public Agencies to explore our 2022 ESG Report here. CDW is raising the bar on our ESG program. We have expanded the leadership and governance of our ESG program, named a global head of ESG, and designated risk and ESG business leaders across the business. We also created a Climate Task Force to drive climate awareness within CDW and lead the development of our global climate strategy. **Environmentally Preferable Products** Our commitment to sustainable and socially responsible technology implementation remains a priority, and we have advanced these efforts by enabling online searchable access for customers to an expanded portfolio of environmentally certified products and cloud-based solutions that improve energy efficiency. The City of Mesa and OMNIA Partners Participating Public Agencies can identify and select from a broad range of environmentally certified products (Energy Star, Electronic Product Environmental Assessment Tool (EPEAT), and TCO Certified) and cloud-based solutions that deliver added energy efficiency. CDW•G assists customers in determining environmentally preferable products in many ways, including: ▪ Providing website specifications for each product details; i.e., EPEAT and/or Energy Star compliant and specific power consumption data, where available ▪ Providing a portfolio of manufacturers that are committed to producing environmentally friendly

	technology and that have programs and policies that support their commitment. ▪ Offering products that meet the evolving standards associated with the Environmentally Preferable Purchasing Program (EPP) and the IEEE 1680 Standard for the Environmental Assessment of Personal Computer Products ▪ Training our sales teams on the requirements of Executive Order 13101 Greening the Government Through Waste Prevention, Recycling, And Federal Acquisition CDW•G is committed to protecting the environment by continuing to manage our business with increased efficiency and understanding the full extent of our environmental impact. While we strive for continuous improvement in the environmental performance of our operations, we recognize our greatest opportunities to impact the environment lie in our supply chain and our ability to work with our partners to address issues such as climate change and waste reduction. More than ever, we are focused on working with our partners and outside experts to evaluate our environmental impacts and opportunities. Our environmental efforts also include continuing to focus on waste reduction at our facilities and expanding our participation in leading electronics recycling programs that benefit our customers, partners, and communities. We are very proud of the outstanding efforts of our coworkers in the areas of workplace culture and coworker engagement, diversity, equity and inclusion, business diversity, digital equity, and other forms of social impact. We are also pleased to highlight that we have made the strategic decision to align our ESG priorities with eight of the UN Sustainable Development Goals. **Environmental** CDW•G is committed to being a good steward of the environment and earth's natural resources. We strive to continuously improve our own environmental performance while growing our business and supporting our partners and customers. Given our role in the technology sector as a leading multi-brand technology solutions provider, our greatest opportunities to impact the environment lie in collaborating with our supply chain and working with our partners and customers to help them achieve their environmental goals. This includes continuing to expand our offering of sustainable and socially responsible technology products and solutions. We continue to elevate our role in sustainable and socially responsible technology by working with our technology partners to promote their environmentally certified products

	and solving for our customers' outcomes around their ESG goals and priorities. In 2022, we made it easier for our sales teams and our customers to identify and select from a broad range of environmentally certified products and cloud-based solutions that deliver added energy efficiency. CDW•G e-commerce sites enable the City of Mesa and OMNIA Partners Participating Public Agencies to filter their online catalog search to identify and buy third-party-certified products, and our sales teams are trained to assist the City of Mesa and OMNIA Partners Participating Public Agencies with finding and selecting these products. Our goal is to be able to offer all of our customers full stack of solutions that address a broad spectrum of environmental considerations. In addition to third-party-certified products, we are enhancing our ability to deploy and configure products remotely to reduce the environmental impacts of packaging and transportation, and offering device recovery and recycling programs to reduce electronic waste from products that need to be replaced. **Social** Our commitments to diversity, equity and inclusion, business diversity, digital equity for our communities, and other forms of social impact strengthen us. We are very proud to have so many partners and customers join us on this journey. CDW•G takes a comprehensive approach to diversity, equity, and inclusion (DEI). We are deliberate and focused on creating a culture where The CDW Way becomes a lived reality – where our dedication to our values of trust, connection, and commitment is evident and where belonging is an everyday experience for all our coworkers, customers, business partners, and communities. CDW•G is committed to embracing and fostering diverse thinking, inclusive behaviors, and equal opportunity across our global operations. ▪ For our coworkers, we strive to attract diverse talent, create opportunities for advancement and professional growth, and provide a sense of inclusion and belonging where everyone can be their authentic self. ▪ In our supply chain, we are committed to maintaining an industry-leading business diversity program. ▪ In our communities, we have focused our Social Impact commitments around digital equity to help close the digital divide. Our Social Impact approach empowers coworkers, partners, and stakeholders to create sustainable and equitable change in the world. *Business Resource Groups*

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

	CDW's Business Resource Groups (BRGs) continue to play a vital role in the coworker experience by encouraging connection and serving as a forum for coworkers to make their voices heard, build awareness, celebrate their affinity area(s), serve their communities, bolster allyship, offer professional development opportunities, and provide perspective on diversity and inclusion initiatives. *Committing to Diverse Talent* We aspire to be the best place for diverse talent by promoting equity in our processes for hiring, advancing, developing, and retaining our coworkers and leaders. We strive to attract a diverse talent pool so we can increase diversity representation in all forms within CDW. To put our commitments into action, we have adopted a strategic, integrated approach to continuously address the representation of both professionals of color and women at all levels of our organization – from hire to retire. In addition to our focus on enhancing the diversity of our candidate pool and new coworker population, we also aim to expand diversity at the manager and director levels, which creates upward mobility toward vice president and executive leadership positions. *Social Impact* CDW Social Impact makes a concerted effort to: ▪ Engage our coworkers by encouraging and supporting them to broaden their awareness and give their time and resources to the causes that matter most. ▪ Empower our communities by building new and expanding existing nonprofit partnerships throughout the world that align with our purpose and values. **Governance** We know that integrity, trust, and good corporate governance matter to all our stakeholders. By ensuring smart governance and ethics and compliance practices, we continue to earn the trust and confidence of our stakeholders, which enables us to sustain our success and create long-term shareholder value. *Corporate Governance* CDW's commitment to good corporate governance is unwavering - from our Board to our Executive Committee to all levels of our organization. The governance structure of the company is designed to be a working structure for principled actions, effective decision-making, and appropriate monitoring of both compliance and performance.

	Ethics and Compliance Our ethics and compliance program is built around our efforts to guard and protect that trust. The CDW Way Code, which applies to all coworkers and directors, is the basis for how we work at CDW. It is imperative that CDW ensures we adhere to The CDW Way Code and follow all legal and regulatory requirements. It defines our standards for corporate behavior and provides direction and insight into the ethical and legal issues coworkers may face. Further, the Code focuses on the importance of organizational and individual accountability as we work to maintain the trust of our fellow coworkers, customers, shareholders, and other stakeholders. Topics addressed in the Code include: ▪ Confidentiality of company, customer, and business partner information ▪ Avoidance of conflicts of interest ▪ Compliance with government contracting requirements ▪ Fair dealing ▪ Marketing practices ▪ Financial integrity *Data Privacy and Information Security* Aligned with our commitment to ensuring strong ethics and compliance, we continued to build on our data privacy strategic framework in 2022 with the rollout of a formalized mission, principles, and objectives for ensuring strong data ethics. Through global collaboration and a proactive, adaptable approach, our data privacy program strives to: ▪ Enable CDW's continued growth ▪ Support a strong culture of thoughtful and responsible data use ▪ Improve and implement controls, policies, and processes to ensure privacy compliance **2022 Progress and Milestones** 2022 was a year of significant ESG progress and milestones. We extended our efforts to address critical areas such as access to environmentally certified products, climate action, waste reduction, coworker engagement, recruiting of tech talent, diversity, equity and inclusion, social impact, business diversity, governance and ethics, and global information security. We also significantly expanded our efforts to engage in ESG discussions with our investors, coworkers, customers, partners, and communities. Specific strategic milestones during the year included: ▪ Added a global head of ESG to our team and designated risk and ESG business leaders across the business

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

		▪ Began refining our ESG governance structure to drive greater accountability and ongoing engagement with leaders and subject matter experts ▪ Engaged leaders and teams throughout the enterprise in an ESG strategy development process ▪ Created a cross-functional, geographically diverse Climate Task Force to drive climate awareness within CDW and lead the development of the company's global climate strategy ▪ Made the strategic decision to align our ESG efforts with eight of the UN Sustainable Development Goals ▪ Initiated an ESG materiality assessment refresh that will be completed in 2023 and will guide our strategic focus in the coming years We are committed to a high degree of transparency about our ESG performance – in our annual ESG report, on our website, in our Task Force on Climate-related Financial Disclosures (TCFD) and Sustainability Accounting Standards Board (SASB) disclosures, and in our proxy and annual report.
4.	Does your firm or partners use packaging that is reusable or recyclable?	Yes, we use 100% recyclable envelope shippers as well as pick-pack shipping containers, which are made from the maximum allowable amount of post-consumer recycled material and are 100% recyclable. **Partners** We also maintain freight service contracts with UPS, FedEx, and DHL. Insight into their packaging is provided below: ▪ UPS offers reusable packaging. ▪ FedEx offers packaging options that are reusable, recyclable, and made from recycled content. ▪ DHL has various policies and standards they follow, including using paper that is recycled, and using 30% certified renewable material for shipping labels, tape, and pallet wrap, and 50% certified renewable for void fill material and mailing bags.
5.	Does your firm or partners operate hybrid vehicles? If yes, please describe the vehicles.	CDW•G does not maintain a fleet of vehicles for delivery. As a result, we do not directly operate hybrid vehicles in the US. Currently, approximately 98% of our US shipments are delivered by carriers enrolled in the US EPA SmartWay Transport Partnership, which helps companies advance supply chain sustainability by measuring, benchmarking, and improving freight transportation efficiency, and all of our US shipments are handled by carriers with climate

	goals. We are also working with our third-party shipping and logistics partners to develop transportation management systems and delivery schedules that help them increase their own energy efficiency, which helps to reduce our transportation-related emissions. In addition, CDW UK has multiple transportation efficiency efforts in place, including using net zero couriers, bulk purchasing and delivery, and reducing air travel through in-country services. There are 45 hybrid vehicles on order for 2023 delivery, representing 59% of our UK fleet. **Partners** We believe it is important that our partners have similar missions and values as CDW•G and our customers; we maintain freight service contracts with UPS, FedEx, DHL, and less-than-truckload (LTL) freight providers, including highly secure transportation options. Insight into our partners' hybrid vehicles is below: ▪ UPS operates hybrid electric package-delivery vans to reduce use and emissions of its fleet. ▪ FedEx operates more than 170 hybrid vehicles around the globe, including the largest fleet of commercial hybrid trucks in North America. ▪ DHL Express deployed 100 new electric delivery vans in 2021. ▪ CEVA Logistics is leveraging Plug-in Hybrid Electric Vehicles and Mild Hybrid Electric Vehicles. ▪ Expeditors implemented EVs in their operations.
6. Does your firm or partners vehicles operate/run on renewable fuels such as, but not limited to biodiesel, biogas, or renewably product synthetic fuels? If yes, please describe the vehicles.	While CDW•G does not own/operate vehicles that run on renewable fuels, we maintain freight service contracts with UPS, FedEx, DHL, and less-than-truckload (LTL) freight providers, including highly secure transportation options such as Tforce Freight, Expeditors, DHL, and Ceva. **Partners** Insight into our partners' vehicles is provided below: ▪ UPS owns one of the world's largest private fleets of alternative fuel and advanced technology vehicles, including, but not limited to, Compressed Natural Gas, Electric Vehicles, Hybrid Vehicles, and E-Bikes. They are collaborating with suppliers to increase alternative delivery options like E-Powered Semi Trailers and electric vertical take-off and landing. By 2025, 40% alternative fuels will be used in UPS's ground operations. ▪ FedEx's fleet of over 6,200 alternative fuel vehicles includes hybrid, electric, liquefied, or compressed natural gas, liquefied petroleum gas, and hydrogen fuel cell vehicles.

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

		▪ Tforce does not have any equipment that runs on renewable or synthetic fuels. ▪ Expeditors is a US EPA SmartWay Program partner and has saved an estimated 750,359 metric tons of CO2 since 2010. They have a target to reduce the scope of CO2 emissions per square foot from mobile equipment by 20% by the end of 2025, resulting in 95% of their forklifts being electric. ▪ DHL's assets run on 20% Biodiesel Mix. ▪ Ceva has hydrogen and natural gas for select vehicles in the US; these are modified trucks that accept hydrogen and natural gas instead of diesel.
7.	Does your firm or partners use any of your firms' vehicles have automatic start/stop technology?	CDW•G does not operate a fleet of vehicles for delivery. As noted in question 6, we partner with economically responsible couriers. In addition, CDW's two distribution centers use stand-up electric forklifts; these automatically shut off once the user steps off the forklift. **Partners** Insight into our partners' vehicles is below: ▪ UPS leverages a range of technologies and processes that reduce engine idle time and ensure a lower-carbon journey. ▪ FedEx does not provide specific information about start/stop vehicles for their fleet; however, they estimate by 2025, 50% of parcel pickup and delivery is intended to be electric. Additionally, FedEx was the first customer to receive 150 new BrightDrop Zevo 600 vans, which have zero tailpipe emissions. ▪ DHL's assets have set idling parameters to shut off after 15 minutes of idling and auto-start once the pedal is touched. ▪ Ceva uses auto start/stop technology for its natural gas and electric vehicles in the US and across the globe.
8.	Please explain your firm's process for accepting and process requests for quotes using contract rates. Please include number of days or hours required to generate/issue request quote and deliver to customer.	The City of Mesa and OMNIA Partners Participating Public Agencies can request quotes directly through your dedicated CDW•G Account Manager or online through your CDW•G Account Center. The rates in your Account Center will reflect special contract rates; dedicated Program Manager, Ty Robles, will ensure the correct contract price is maintained. Ty regularly conducts self-audits to ensure pricing compliance and takes corrective action if needed. **Through Your CDW•G Account Center** The City of Mesa and OMNIA Partners Participating Public Agencies can create a quote instantly, right from your own

		shopping cart. Once you build your cart, you can either create the quote and send it to yourself for later, or you can purchase the items right then and there. Regardless of whether you decide to save your quote or purchase, your CDW•G Account Manager will get a copy of your quote or order for review. Once the City of Mesa and OMNIA Partners Participating Public Agencies are ready to order, your CDW•G Account Manager will review before manually releasing the order. This step helps mitigate incorrect orders. **Through Your CDW•G Account Manager** Should you choose to have your Account Manager create a quote for you, the City of Mesa and OMNIA Partners Participating Public Agencies can review it moments after your Account Manager creates it. From there, the quote can be printed, forwarded to colleagues or managers for pre-authorization, or converted to a live order. When you request a quote through your CDW•G Account Manager, he or she strives to respond to standard requests for quotes quickly. Quotes that require research or input from a specialist may take a little longer to complete. A standard quote will typically be returned within 24-48 hours.
9.	How many orders are processed daily on an average?	On average, we process 14,000 orders per day. The Vernon Hills distribution center processes an average of 90,000 units per day. The Las Vegas distribution center processes a daily average of 47,000 units per day. We ship 40,000 to 50,000 boxes per day, depending on the time of year. Our large, on-hand inventories and strategically located distribution centers allow us to ship the City of Mesa and OMNIA Partners Participating Public Agencies' products to your locations quickly and cost-effectively. Also, our proximity to our principal distributors enables us to obtain competitively priced, non-stocked items for quick turnaround.
10.	What is the highest number of orders processed in a single day?	The highest number of orders processed in a single day was approximately 19,000 orders.
11.	Describe your delivery commitment:	As one of the largest solution providers in the US, CDW•G has positioned itself very closely with the major shipping companies and other delivery service companies to provide standard or expedited product delivery. Due to extensive carrier worldwide service capabilities, excellent record for on-time delivery, and competitive pricing, we ship the majority of our products via UPS or FedEx. Both companies have on-site employees at our distribution centers, individuals with a track record of supporting CDW•G with

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

	sophisticated capabilities to leverage their intermodal transport options. In addition, your CDW•G Account Manager will keep you informed regarding delivery expectations. If any item is out of stock, he or she will continue to provide updates regarding the expected delivery time. Order status information is also available 24 hours a day in your CDW•G Account Center. Our purchasing department maintains ample supply of goods on hand between our Illinois and Nevada distribution centers. We have multiple staging options, including pre-order and buy and hold agreements, which are subject to additional terms and conditions. This service allows inventory to be stocked for customers in order to manage situations such as large customer rollouts or to take advantage of certain market conditions. We have a replenishment program that has specific criteria for each manufacturer and takes lead time into consideration when placing orders. We have Electronic Data Interchange (EDI) feeds with most of our suppliers, outlining quantity, location, and cost of goods. CDW•G leverages its position in the competitive channel and overall buying power to secure favorable product discounts. As a result, we can pass along the volume discount savings to the City of Mesa and OMNIA Partners Participating Public Agencies, and many products are available for immediate shipment.
a. What is your fill rate guarantee?	Our same-day fill rate typically varies between 97% and 99% for credit-approved orders with in-stock products. Order fulfillment may vary due to the addition of configuration services and based upon the complexity of those services. Our strong working relationships with manufacturers and distributors, effective inventory management procedures, and state-of-the-art automated systems allow us to provide the products that you need when you need them. Additionally, our ISO-certified (ISO 9001:2008) order fulfillment procedures and requirements meet rigorous industry standards to ensure that your order is shipped quickly and accurately; overnight and Configurations-Priority orders receive processing priority during order fulfillment.
b. What are your delivery days?	CDW•G's standard delivery is Monday through Friday, excluding Thanksgiving, Christmas, and New Year's Day. Arrangements can be made based on the City of Mesa and OMNIA Partners Participating Public Agencies' needs to fulfill orders on weekends and holidays for an additional fee. Customers should provide at least a 48-hour notice in order to allow time to properly set up any weekend or holiday deliveries.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

c. Do you offer next day delivery?	Yes, CDW•G can ship same day, overnight/next day, 2nd day, 3rd day, and ground in most US geographies. An expedited freight charge may be added for this service.
d. How do you facilitate emergency orders?	Whenever a City of Mesa and OMNIA Partners Participating Public Agencies Participating Public Agency's order requires expediting, it will be treated with priority. If an emergency situation arises, contact your dedicated CDW•G Account Manager, who will place the order and arrange for expedited delivery. Due to our very large inventory at our two distribution centers, it is very likely that we will have the product(s) you need for immediate shipping. Overnight and Configurations-Priority orders receive processing priority during order fulfillment. The most economical option is to utilize FedEx or UPS for overnight delivery for arrival by 10:30 AM the next morning (to most areas). However, FedEx and UPS may not be available options for heavy-weight shipments. CDW•G Account Managers can help identify the best option available depending on the weight and destination.
e. Are shipping charges exempt for ALL who use this contract?	Unlike some vendors, CDW•G offers no charge ground freight for shipments less than 70 pounds within the 48 contiguous United States. For those instances that are larger than 70 pounds or require express or overnight delivery, shipping costs will be pre-paid by CDW•G and added to the customer invoice.
f. Describe how problems (such as a customer ordering a wrong product or a customer receiving a defective product; etc.) are resolved.	CDW•G encourages the City of Mesa and OMNIA Partners Participating Public Agencies to contact their dedicated CDW•G Account Manager to assist with any such issues. The CDW•G Account Manager is the City of Mesa and OMNIA Partners Participating Public Agencies' dedicated resource for all requests; he or she is responsible for intake of the problem, identifying paths to resolution, and working with you to determine an acceptable resolution. CDW•G Account Managers are backed by an extensive team of technical, finance, partner, and operations coworkers. If the Account Manager evaluates the issue and determines he or she cannot personally assist you, he or she will engage and collaborate with our Customer Relations Department to assist. Customers may also reach out to Customer Relations directly. To help mitigate incorrect orders from being placed, CDW•G Account Managers review each order before it is released. **Ordering a Wrong Product** However, should you order the wrong product and wish to return it, the City of Mesa and OMNIA Partners Participating Public Agencies have the option to start your return on your online CDW•G Account Center. To return a product, you will need to access the Recent Orders history of your

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

		account. Then, select the Order Number for which you would like to request a return or search for an order by date or purchase order number. You will be taken to the Order Details page. In the Product Details section, you have the option to select "Request a Return." Select the item(s) you wish to return. Please detail the reason for your request. When your return is approved, you will receive a Return Merchandise Authorization (RMA) number, which must be included with the returned merchandise. The RMA number is valid for 10 business days. Returns within 30 days from invoice date can be for exchange, replacement, refund, or credit at CDW's discretion. Please be aware that specific manufacturers have more restrictive return policies and may be subject to a return fee. If the product is returned and accepted after 30 days, credit will be issued toward future purchases only. **Receiving a Defective Product** In the rare situation that you receive a defective product, you may return most defective products directly to CDW•G within 15 days of invoice date and receive, at CDW•G's discretion, credit, replacement, exchange, or repair. After 15 days, only the manufacturer warranty applies.
12.	Describe your invoicing process. Is electronic invoicing available? Is summary invoicing available? Are there other options on how an agency receives an invoice?	An invoice will be mailed the day after the product(s) is shipped out of one of our distribution centers. Another option is electronic invoicing; the City of Mesa and OMNIA Partners Participating Public Agencies can request that invoices be sent via PDF instead. The PDF would be sent the same day that the invoice is generated in the system. When a product is drop shipped from a vendor, CDW•G will invoice the customer once we receive the invoice from the vendor. Copies of original invoices can be printed via your CDW•G Account Center. If there are ever any questions with regard to an invoice, you should contact your Account Manager so the situation can be resolved in a timely manner. CDW•G proudly offers summary invoicing; we can consolidate invoices into one invoice on a weekly, bi-weekly, or monthly basis.
13.	Describe the types of customer service available to agencies that use this contract:	We encourage the City of Mesa and OMNIA Partners Participating Public Agencies to reach out to their dedicated CDW•G Account Manager to resolve problems; he or she will always listen, escalate as needed on your behalf, and help resolve any problem you may have. Additionally, CDW•G has customer relations representatives who are available to resolve post-sales inquiries from 6am until 8pm MT, Monday through Friday.

	We service customers through phone support, email, and live chat. The City of Mesa and OMNIA Partners Participating Public Agencies can contact our customer relations, technical support, and website support teams directly. **Customer Relations** The customer relations staff tracks lost packages, submits claims to carriers, handles Return Merchandise Authorizations (RMAs), and sends out replacements for damaged or defective products. **Technical Support** We also provide Technical Support for product troubleshooting, including product support, download support, install support, and cloud support. **Website Support** Should the City of Mesa and OMNIA Partners need any additional assistance with our website, we also provide website support for sign-in help, account settings, site features, site security. Hours and contact information for each is provided below.
a. Is online support available?	Yes. In addition to emailing your CDW•G Account Manager, online support is available via live chat or email for customer relations, technical support, and site support. **Customer Relations** ▪ Online Chat M-F from 6am to 5pm MT ▪ Email (Reply within 24 Hours): CustomerRelations@cdw.com **Website Support** ▪ Online Chat M-F from 6am to 5pm MT ▪ Email (Reply within 24 Hours): e-account@cdw.com **Technical Support** ▪ Online Chat M-F 6am to 6pm MT ▪ Email (Reply within 24 hours): support@cdw.com ▪ Managed Services: Email (Reply within 24 hours): CDW-ECC@cdw.com
b. Is phone support available?	Yes. In addition to your CDW•G Account Manager, whose contact information is available in your CDW•G Account Center, phone support is available for customer relations, technical support, and site support. **Customer Relations** ▪ 866.782.4239 (Mon-Fri 6am-8pm MT) **Website Support**

d. Can agencies request a dedicated service representative and/or a dedicated service team? If a dedicated customer service representative and/or team are assigned, what types of services does the representative/team provide? How do you help the customer manage our account?	**Dedicated Team** *Can agencies request a dedicated service representative and/or a dedicated service team?* The City of Mesa and OMNIA Partners Participating Public Agencies will each be given a dedicated CDW•G Account Team, with your primary point of contact being your CDW•G Account Manager. CDW•G organizes our sales force differently from other companies to best serve the City of Mesa and OMNIA Partners Participating Public Agencies. The CDW•G customer support models start with our Account Managers. Account Managers are trained to become experts within the public sector segment they support: K-12, Higher Education, State and Local government, and Federal government. The advantage is that they can address the very specific needs of their unique customers. To further

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

	equip our Account Managers to support the City of Mesa and OMNIA Partners Participating Public Agencies, CDW•G divides the salesforce into distinct geographic regions to ensure that sellers are prepared to support the local landscape in a way that is unmatched by other companies. Our unique company structure provides our customers with products and services only a large national reseller can provide, combined with a local presence typical of a small business. As such, each agency will be assigned their own CDW•G Account Manager relevant to their respective location and vertical. For example, the City of Mesa is supported by CDW•G Executive Account Manager, Chris Anderson, as well as Advanced Technology Account Executive, Ryan Hadley. As an Account Manager, Chris is the City's primary point of contact. Ryan is the City's secondary point of contact. Chris and Ryan are dedicated solely to State and Local Government customers within the southwest and are supported by sales leaders dedicated to their respective regions and verticals: ▪ Luke Anderson – SLG Sales Manager, West and Pacific ▪ Jodie Thomas – SLG Field Sales Manager, West ▪ Tony Sivore – SLG Director, Area Sales West Your CDW•G Account Manager maintains the overall responsibility for coordinating resources to achieve the highest standards of customer service. Each OMNIA Partners Participating Public Agency will receive their own dedicated team, with a dedicated CDW•G Account Manager standing at the forefront. **CDW•G Account Manager Responsibilities** *If a dedicated customer service representative and/or team are assigned, what types of services does the representative/team provide? How do you help the customer manage our account?* In general, CDW•G Account Managers and their sales managers understand the current technology trends and are specialized in working with public-sector customers. This structure is one of the great benefits of partnering with CDW•G. The City of Mesa and OMNIA Partners Participating Public Agencies will have access to much more than a single resource; you will also have access to an entire sales and support team ready to address any agency's need. CDW•G, from the executive level down to your Account Manager, is focused on ensuring that the City of Mesa and OMNIA Partners Participating Public Agencies' needs are consistently and satisfactorily met. As mentioned, your CDW•G Account Manager is your primary point of contact and is highly trained to address most of your questions and concerns. CDW•G account managers complete an intensive training program that

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

	focuses on sales consulting, product training, operational systems, and customer service. All of our account managers also attend mandatory ongoing training programs each month to ensure that they stay up-to-date on the latest technologies and changes in the industry. Your account manager's responsibilities include: ▪ Providing pre-sales consultation ▪ Providing product information and addressing compatibility issues ▪ Responding to quote requests quickly and accurately ▪ Reviewing orders for completeness and accuracy before they are submitted ▪ Notifying you of availability issues and assisting with alternate options as appropriate ▪ Monitoring all open orders and backorders ▪ Coordinating delivery to and from your locations ▪ Arranging for equipment setup and maintenance ▪ Facilitating communication between you and manufacturer partners
e. State any return and restocking policy, and any fees, if applicable associated with returns.	CDW•G offers a 30-day return policy on most products sold. Returns within 30 days from invoice date can be for exchange, replacement refund, or credit at CDW•G's discretion. Please be aware that specific manufacturers have more restrictive return policies and may be subject to a return fee. If the product is accepted after 30 days, credit will be issued toward future purchases only. There are no restocking fees for products returned within 30 days after invoice. After 30 days, the following restocking fees can apply: ▪ 30 days after invoice: 15% return fee ▪ 60 days after invoice: 30% return fee ▪ Restricted manufacturers & items will incur a return fee Day 1 from invoice. For reference, we have provided our full return policy in Tab D, Exhibit 5.
f. How are problems resolved?	To simplify the customer service process, we recommend the City of Mesa and OMNIA Partners Participating Public Agencies bring any issues or inquiries to the attention of your CDW•G Account Manager, who sits at the center of customer service and support experience. CDW•G Account Managers' first step is always to listen. As such, your dedicated CDW•G Account Manager will listen and evaluate before determining the best next steps. If he or she cannot correct the issue, he will escalate it to the sales manager. If the sales manager cannot correct the issue, he will escalate it to the sales director. Escalation continues all the way up to the Vice President until we provide a suitable solution to the performance issue. While this type of

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

	escalation is rare, we always work to sufficiently and expeditiously resolve any escalations. CDW•G has a formal system to manage customer issues and route to the appropriate next level during escalations. In addition, the City of Mesa and OMNIA Partners Participating Public Agencies will be able to access additional levels of leadership through the online CDW•G Account Center, which includes contact information and whether they are in the office (virtual or physical). The beauty of this approach is that the City of Mesa and OMNIA Partners Participating Public Agencies do not have to manage the process, hunt down contacts, or explain your issue many times over. You are kept in the loop on the progress of the resolution while your dedicated CDW•G Account Team takes care of the rest. Because we designate an actual person and not a faceless inbox, you can reach out to your CDW•G Account Manager whenever you feel necessary. For mission-critical issues, we follow the same path with expedited timelines. If problem resolution is specific to a coworker, such as the performance of an Account Manager, the City of Mesa and OMNIA Partners Participating Public Agencies are encouraged to reach out to the coworker's manager, who will then take the appropriate steps to address the issue. Contact information for your Account Manager, Sales Manager, and Customer Relations can all be found easily in your CDW•G Account Center. As an example, contact information for the City of Mesa's Account Manager and Sales Manager is provided below: *Chris Anderson – Executive Account Manager* ▪ Email: chrande@cdwg.com ▪ Phone: +1 (847) 371-7149 *Luke Anderson – Sales Manager* ▪ Email: lukeand@cdwg.com ▪ Phone: +1 (847) 419-7416 A follow-up step in our incident escalation process involves taking the incident resolution process one step further. Our sales teams work hand-in-hand with our Program Management team to ensure that for issues requiring significant escalation, we determine proactive measures to prevent the problem from recurring. We want to understand why it happened to make sure it doesn't happen again.
g. What are the location and hours of your call centers?	All support is US-based. Our technical support technicians are based in Holmdel, New Jersey. Customer service representatives and website support representatives are also based in Holmdel, NJ, as well as Vernon Hills, IL, and Las Vegas, NV.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

	CDW•G provides phone support during the following hours: **Orders, Quotes & Availability** ▪ 800.800.4239 (Mon-Fri 6am-6pm MT) **Customer Relations** ▪ 866.782.4239 (Mon-Fri 6am-8pm MT) **Website Support** ▪ 888.239.7270 (Mon-Fri 6am-5pm MT) **Technical Support** ▪ 800.383.4239 (Mon-Fri 6am-5pm MT) **Managed Services Support** ▪ 888.239.7270 (Mon-Fri 6am-5pm MT)
h. What response time is guaranteed when a customer service request is made?	Typically, CDW•G Account Managers respond within 1 business day. Response time depends on the seriousness of the request made; however, CDW•G makes every effort to respond to all Customer Service Requests (CSRs) within 24 hours. CDW•G understands some requests are more urgent than others, which is why we utilize a detailed incident management process for critical systems. The severity level dictates the response time of this practice and is employed for issues with our own network services, co-located systems, hosted solutions, websites, or our internet services.
i. Do you measure/track the success of your customer service program? If so, how do you do this, and what are your findings?	Yes, CDW•G measures/tracks the success of our customer service program. Information on our program and findings are below. **How Our Customer Service Program is Measured** Loyal customers are the backbone of our business. CDW•G understands that loyalty depends on the quality of service provided throughout our company, from Purchasing to Customer Relations. We are dedicated to maintaining a very high level of customer service. Since 2000, the Customer Feedback Program has run via our Market Research Team. CDW•G measures customer satisfaction, thoughts about CDW•G, and problem areas. The primary methodology is a semi-annual survey that gathers information on customer-facing departments, including shipping, customer relations, and the customer's Sales team. Customers are selected on a random basis to participate in the surveys. If a customer provides a response that is ranked poor or fair, then a specialist from CDW's Quality Assurance team contacts the customer to determine the reason for their unsatisfactory response and will offer additional action to rectify the problem.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

	In 2016, the Customer Feedback Program expanded to include weekly, transactional surveys. The weekly feedback surveys provide real-time feedback for the following departments: Customer Relations/Service, IT Services (separate surveys for services' specialties), and Sales Contact Center (a unique team that takes initial calls from new or existing customers to aid in order processing). These surveys are specific to a recent interaction or transaction rather than the overall CDW•G relationship. In addition to our Customer Feedback Program, CDW•G also has a dedicated Customer Experience Team. The Customer Experience Team focuses on creating and implementing feedback loop processes that assure our customers we are listening to them and provides internal teams with the information they need to better serve our customers. In addition to our current practices, we are actively working with coworkers from our recent acquisitions to align our processes and tools for customer feedback. Our Research and Development team uses the Pragmatic Methodology for product and service development. We ask our customers: ▪ Direct feedback on our services ▪ Understanding of the problems they are experiencing that we can provide solutions ▪ Language of what those problems that helps with positioning CDW•G's customers rely on us to listen to them and deeply understand their technology needs. We show up for customers by providing the best end-to-end customer experience from sales to delivery and beyond and by offering the right products and services to help them do great things. **Findings** The majority of end users supply favorable survey comments, and the positive comment that we receive most often is that CDW is extremely customer-focused. Significantly, 85% of customers rated their Account Manager as Excellent or Very Good on a 5-point scale (Excellent to Poor). CDW's Customer Relations Representatives resolve post-sales issues and complaints, such as tracking lost packages, submitting claims to carriers, handling Return Merchandise Authorizations (RMAs), and sending out replacements for damaged or defective products. The Customer Relations Supervisor reviews all CSRs at the end of the day to ensure that each CSR is being handled promptly. Customer Relations Quality Analysts audit 20 cases per Customer Relations Representative per month to ensure quality standards are met and proper training is provided. We make adjustments and evaluate process

	changes as needed when we see high volumes for particular types of Customer Service Requests (CSRs).
j. Describe in detail your company's ability to hold/warehouse customers' orders and if there are any cost associated.	If the City of Mesa and OMNIA Partners Participating Public Agencies would like to hold or warehouse any of your orders, we recommend reaching out to your dedicated CDW•G Account Manager. One of the ways we can hold or warehouse your orders is through our Buy & Hold Services. Buy & Hold Services from CDW•G allow the City of Mesa and OMNIA Partners Participating Public Agencies to select products for purchase and hold them in a secure location for up to a year. Buy and Hold capabilities are available out of the Vernon Hills and Las Vegas facilities. Costs, if any, for our Buy & Hold Services are determined on a case-by-case basis and would be dependent on the mutually agreed terms in a supplemental Staging Agreement, which will include the individual needs and associated requirements of each individual customer. CDW•G will handle the logistics and shipping requirements and adhere to the City of Mesa and OMNIA Partners Participating Public Agencies' deployment schedule. The City of Mesa and OMNIA Partners Participating Public Agencies can take advantage of product warehousing, inventory management, distribution, fulfillment services, and custom solutions. Associated costs are dependent on the individual needs and associated requirements for each individual customer. Insight into the process is as follows: ▪ Purchased product is stored in a badge access-controlled Distribution Center. ▪ All products will be assigned a customer-specific SKU / EDC. ▪ All product is safely stored in customer-specific racking locations and wrapped to prevent damage while on-site. ▪ Buy & Hold product is available for CDW Configuration Services, imaging, and asset tagging for an additional cost. In addition to Buy & Hold services, customers may have the option to pre-order. Pre-ordering allows the City of Mesa and OMNIA Partners Participating Public Agencies to pre-order specific stock at no additional cost; this differentiator is beneficial ahead of peak ordering periods.
14. Describe how your company will assist customers in navigating OEM warranty process.	The City of Mesa and OMNIA Partners Participating Public Agencies' dedicated CDW•G Account Manager will assist you in navigating the OEM warranty process. Products sold by CDW•G come with the manufacturer's standard warranty, and the City of Mesa and OMNIA Partners Participating Public Agencies can contact our Technical Support Department for technical support on hardware

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

		purchased from CDW•G. If the Technical Support representative determines the customer needs warranty support, they connect them to the manufacturer's warranty department. In addition to manufacturer warranties, CDW•G offers a number of product lifecycle support options for purchase. This suite includes: ▪ Warranty extensions and upgrades ▪ Post warranty support ▪ Accidental damage protection ▪ Maintenance contract agreements ▪ Post-sales technical support ▪ Product and certification training ▪ Help desk services ▪ Full lifecycle management services ▪ Managed services with Service Level Agreements for uptime guarantee When the City of Mesa and OMNIA Partners Participating Public Agencies have an upcoming CDW-branded warranty expiration, CDW•G sends warranty expiration emails to your CDW•G Account Manager. If the City of Mesa and OMNIA Partners Participating Public Agencies purchase a manufacturer warranty through CDW•G, your dedicated CDW•G Account Manager tracks your coverage. Whether CDW-branded warranty or a manufacturer warranty, your CDW•G Account Manager will let you know that your hardware protection is about to expire and may suggest the following for additional coverage: ▪ An extended warranty extension or uplift. ▪ A quote on new hardware should you be looking to replace the out of warranty equipment. ▪ Consolidation of computer infrastructure through co-term agreements and/or other available custom solutions. The City of Mesa and OMNIA Partners Participating Public Agencies' CDW•G Account Manager will help develop the best warranty and coverage solutions to keep your IT investments up and running for the overall benefit of your organization.
15.	Describe how your firm will notify customers of new products.	As technology is constantly evolving, there are always new products and services coming to market. We have resources in place dedicated specifically to monitoring IT trends, technical roadmaps, and emerging technologies. We combine this knowledge with feedback from our customers to stay ahead of the curve on emerging technologies. We ensure we offer state-of-the-art technologies and that we also vet the benefits and risks of new solutions and their operability in your environment. To ensure we receive the most up-to-date and insightful information regarding new products, CDW•G has manufacturer and software publisher representatives

		onsite at our sales offices. Our strong partner relationships facilitate presales consultation and timely notification regarding new products, product changes, and products going end of life. We deploy various ways to keep you informed about new products, including the following: **CDW•G Account Manager** One way to receive new product information is through your dedicated CDW•G Account Manager. Your CDW•G Account Manager will work with you to understand your technology environment, needs, and wants to custom-tailor new product notifications. Depending on the City of Mesa and OMNIA Partners Participating Public Agencies' established preferences, your CDW•G Account Manager may call or email to notify you of new products that align with your environment and goals. Notification via your CDW•G Account Manager ensures that the City of Mesa and OMNIA Partners receive relevant, custom-tailored information and a more personalized experience overall. **Online** The City of Mesa and OMNIA Partners Participating Public Agencies can also view new product information via our website (www.cdwg.com) and your Premium Page, which is part of your Account Center. Our website is constantly updating with new products and services that we offer. Our live catalog is updated daily, and you can browse our most current products and services. On your Premium Page, the City of Mesa and OMNIA Partners Participating Public Agencies will be able to view the latest technologies available to you, as well as pricing options to help you make better-informed purchasing decisions. The City of Mesa and OMNIA Partners Participating Public Agencies' Premium Page is up-to-date on the most current and emerging technologies. Be it your Account Manager, our website, or via your Premium Page, the City of Mesa and OMNIA Partners Participating Public Agencies can be sure that we will work tirelessly to keep you informed of ways to improve how you do business and which solutions best fit your needs.
16.	Describe how your company will assist and support customers when their standardized is reaching EOL (end of life).	CDW•G's partnerships with OEMs ensure the City of Mesa and OMNIA Partners Participating Public Agencies can procure the right products at the right time. Subject to receipt of EOL notifications from OEMs, notifications include: ▪ **Product EOL:** A date generally 6-8 months prior to final obsolescence, a notice the part is nearing the end of its life. Product continues to be manufactured and sold.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

		▪ **Product Discontinued:** Approximately 1 month prior to final obsolescence, the date manufacturing stops. The remaining product stock continues to be sold. ▪ **Product Obsolete:** The date the OEM removes the part from price lists. Product is no longer sellable or buildable. With insight into the OEMs' terminology and schedules, CDW•G facilitates continued support for legacy systems and can work with the City of Mesa and OMNIA Partners Participating Public Agencies to ensure there is a plan in place before a product becomes obsolete or EOL. The dedicated CDW•G Account Manager works with the City of Mesa and OMNIA Partners Participating Public Agencies to review potential options, including identifying a compliant next-generation product. Alternatively, to maintain platform continuity, we can procure an advance stock of a product when it approaches EOL, ensuring that product's availability for the City of Mesa and OMNIA Partners Participating Public Agencies' near-future needs. As previously mentioned, CDW•G has manufacturer and software publisher representatives onsite at our sales, ultimately facilitating timely notification regarding product changes and products going EOL. CDW•G Account Managers will work with you to understand your environment and needs. **Obsolescence Planning** If CDW•G discovers that products are to be discontinued or refreshed, we will orchestrate a conversation with the manufacturer and the City of Mesa and OMNIA Partners Participating Public Agencies to discuss alternate product recommendations, where necessary. Any product substitutions will be mutually agreed upon between CDW•G and City of Mesa and OMNIA Partners Participating Public Agencies.
17.	Describe if technical support questions are handled the same way as a customer service request? If not, describe the type(s) of technical support available, the location of technical support, and the hours of technical support. Is it the intent to use employees of your company or will this be an outsourced function?	*Describe if technical support questions are handled the same way as a customer service request? If not, describe the type(s) of technical support available, the location of technical support, and the hours of technical support.* The City of Mesa and OMNIA Partners Participating Public Agencies can contact CDW•G's technical support department via the following methods: **Telephone**—You can reach our technical support department at (800) 383-4239 from 6am-5pm MT, Monday through Friday. **Email**—The City of Mesa and OMNIA Partners Participating Public Agencies can reach our technical support department via email at support@cdw.com. We

		promptly respond to email inquiries from 6am-5pm MT, Monday through Friday. **Online**—CDW•G also welcomes customer interaction via your CDW•G Website through an online chat session that puts you in direct touch with a qualified technician. We promptly respond to chat inquiries from 6am-6pm MT, Monday through Friday. The City of Mesa and OMNIA Partners Participating Public Agencies are able to create, track, and view your own cases. CDW•G's technical support technicians handle both incoming and outgoing follow-up calls. Technical support technicians are located in Holmdel, NJ. Most of our technical support technicians are CompTIA certified and hold, at a minimum, A+ and Network+ certifications or at least two years of help desk experience and one year of customer service experience. Many of our technicians have invested their careers in CDW•G and rigorously pursue ongoing training to bring you the most updated technical knowledge. Many technicians are also accredited in various engineering and manufacturing training courses. We pride ourselves on our ability to consult with customers on a full range of cases, from simple to complex, from general to industry specific. For any customer service issues that may arise, dedicated CDW•G Account Managers stand ready to help the City of Mesa and OMNIA Partners Participating Public Agencies navigate technical support questions. All Account Managers receive regular training on new products and technologies from OEMs and earn OEM certifications, which enable them to assist their customers. We encourage the City of Mesa and OMNIA Partners Participating Public Agencies to contact your dedicated CDW•G Account Manager when technical support is necessary. If your Account Manager is unable to assist, they will determine the best next steps, to include escalation to a Sales Manager, additional support from a dedicated manufacturer support representative, and connection to our help desk. *Is it the intent to use employees of your company or will this be an outsourced function?* Between your CDW•G Account Manager and CDW•G's technical support technicians, all technical support questions are initially handled by CDW employees. If escalation to an OEM or software publisher is required, CDW•G will do that on your behalf.
18.	Describe options for leasing and financing and the various payment methods accepted.	CDW•G has an in-house Financing Solutions Team to help the City of Mesa and OMNIA Partners Participating Public Agencies navigate among our tailored payment solution options, which include leasing, financing, subscriptions, etc. We take a consultative approach to

		financing options that ensure the City of Mesa and OMNIA Partners Participating Public Agencies' goals are met. At CDW•G, we focus on providing the best solutions in the industry—and that includes Financing Solutions. CDW•G can facilitate an agreement between OMNIA Partners Participating Public Agencies and various leading financing companies that can help each Participating Public Agency obtain the payment terms that best fit their unique needs and budget requirements. Agencies can secure a payment solution structure with maximized options and terms. CDW•G's Financial Partners provide the best option to fit the City of Mesa and OMNIA Partners Participating Public Agencies' needs. For agencies with a Master Lease Agreement established, we likely have a partnership in place with their provider or can establish one, to extend their existing agreement to incorporate purchases from CDW•G. Often, we leverage relationships with our partners to offer more advantageous rates, terms, and structures. For agencies that have diversity requirements to meet, we can recommend small and diverse partners that hold relevant certifications. Our Premier Financing Partners include, but are not limited to, the following: ▪ Arrow Capital Solutions ▪ Cisco Capital ▪ Dell Financial Services ▪ HPE Financial Services ▪ Lenovo Financial Services ▪ LEAF Commercial Capital, Inc. **Payment Methods** CDW•G accepts payment through: ▪ Credit Cards (American Express, Discover, MasterCard, Visa) ▪ Checks ▪ Purchase Order ▪ Electronic Data Interchange (EDI) ▪ Electronic Funds Transfer (EFT) ▪ Procurement Cards ▪ Ghost Cards
19.	Please explain your firm's process in assisting agencies with identifying software solutions providers. Response should include how your team will assist agencies identify their business needs, determine which business partners can meet the identified business needs and services required. Services could include solution analysis, configuration, Implementation,	CDW Software Services takes a pre- and post-sales consultative approach to help the City of Mesa and OMNIA Partners Participating Public Agencies manage the assessment, validation, deployment, and management of software assets through every stage of their lifecycle. When it comes to software, CDW•G helps identify and understand your needs, analyzes solutions and software publishers that help meet your needs, and offers configuration,

installation, training and maintenance and support services.	implementation, installation, maintenance, and support services. CDW•G looks forward to detailed conversations with the City of Mesa and OMNIA Partners Participating Public Agencies to understand the main technical direction you are headed. After we listen, understand, and identify each agency's unique needs, our experts provide technical advice and recommendations, including information about new products and technology that align with the City of Mesa and OMNIA Partners Participating Public Agencies' overall direction and needs. Your CDW•G Account Team includes highly trained presales specialists who are experts in particular areas of technology, including all things software, or for specific software publishers. When the City of Mesa and OMNIA Partners Participating Public Agencies contact your CDW•G Account Manager, he or she will engage these value-added resources to participate in conversations that allow us to understand the main technical direction the City of Mesa and OMNIA Partners Participating Public Agencies are headed; part of these conversations include assisting agencies in identifying your business needs. After we listen and understand each agency's unique needs, we work to identify potential solutions that meet each agency's goals before presenting those solutions in a proposal or product demonstration. We strive to educate the City of Mesa and OMNIA Partners Participating Public Agencies about products and services by providing a comprehensive overview of its features and benefits. Recommendations and options can be provided by CDW•G via email, shared folders, monthly/quarterly new-tech conferences, virtual or local meetings and briefings, executive seminars, workshops, and more. **Our Total Software Management Methodology** Whether you need help determining if cloud apps are the right choice for your organization's future, planning the deployment of your next software rollout, or assistance keeping track of your software contracts and staying compliant, CDW Total Software Management can help optimize the City of Mesa and OMNIA Partners Participating Public Agencies' software environment, keep track of contracts, renewals, and stay compliant. Our software experts guide you and enable a roadmap to ensure we are meeting expectations and providing full visibility into your software purchasing. Our software experts guide the City of Mesa and OMNIA Partners Participating Public Agencies through the following steps: *Assess*

	Before the City of Mesa and OMNIA Partners invest in new software or start thinking about a strategic software plan for the future, you need to understand your current software environment and assess the current landscape of your contracts and deployed assets. Our software experts help you evaluate and navigate your current situation — software usage, rogue IT issues, current licensing and contracts, current and future business needs, software audit concerns, and more — so the City of Mesa and OMNIA Partners Participating Public Agencies can make wise investments in the future. The first step in our process is our Software Asset Review.
	
	The Software Asset Review is a no-cost value-added service that provides a transparent view into purchased software assets, regardless of where they were purchased. Each report includes a full license history and a renewals timeline. With this transparent view into what your organization owns, CDW•G then assists in developing your software asset management strategy and goals. This includes opportunities for optimization, compliance position, renewals strategy, and technology solutions that can assist you in managing your software assets going forward. Once we have a clear look into your assets, we will start to implement our Total Software Management solution around your contracts and software purchases that align with your goals.
	
	Validate
	
	Once CDW•G has a deep understanding of your software assets, we assist in building a software strategy and then identifying the software solutions needed to set that strategy in motion. CDW•G can test and pilot solutions within your current environment, and select the right software for your business and technical requirements. Because we are vendor neutral and have partnerships with more than 300 software publishers, we focus on finding the right solution for each agency's specific needs.
	
	In this step, CDW•G helps the City of Mesa and OMNIA Partners with the following:
	
	▪ Proof of concepts to test feasibility
	▪ Vendor comparisons
	▪ Return on investment assessments
	▪ Pilot implementations
	▪ CDW's Technology Experience Center, which allows you to:
	  ▪ Try out a demo of the software
	  ▪ Make software comparisons
	  ▪ Explore the latest innovations to see if they will help you achieve your business goals
	
	Deploy

	CDW•G can help design and deploy the perfect software solution within the City of Mesa and OMNIA Partners Participating Public Agencies' environment. Our software solutions teams are segmented into unified communications and collaboration, endpoint optimization, and mobility, so you leverage professionals who have deployed in the area(s) most relevant to you. Our experts become part of your team, providing the support you need when and where you need it. We help you navigate robust software offerings from virtualization and desktop management to networking and collaboration solutions. More importantly, we can share our knowledge with you so the City of Mesa and OMNIA Partners Participating Public Agencies can spend less time managing software and more time putting it to work. *Manage* CDW•G makes dealing with multiple licenses, vendors, and software solutions simple and effective, with our experienced team of professionals available to help you throughout the process. CDW•G helps right-size your software licensing to avoid unnecessary costs and streamline day-to-day software management. CDW•G's Software Licensing Management helps with: ▪ Performing health checks ▪ Maintaining the right license position so you're neither over- or under-licensed ▪ Establishing consolidated billing ▪ Providing ongoing software recommendations ▪ Ensuring accurate IT planning and budgeting ▪ Maximizing value derived from licensing agreements ▪ Applying compliance checkpoints ▪ Staying on top of licensing expiration and renewal CDW•G's experts will walk the City of Mesa and OMNIA Partners Participating Public Agencies through the entire software management lifecycle, from choosing the proper products that suit your needs to contract negotiation and management to testing and deployment. Additionally, CDW•G serves as a single resource to stay on top of your entire software environment. As part of our contract management roadmap process, your CDW•G software team will conduct regular business reviews and contract deep dives to help manage the licenses over the course of the contract, and our contract management roadmap will keep you aware of important renewal dates. **Success Story – Local Community-Development Services** *Background*

TAB D
PROPOSAL QUESTIONNAIRE EXHIBITS

EXHIBIT 3 – SERVICES

Firms Method and Approach

Question 1. Provide a description of all services that can be provided by your firm or partners (e.g., cloud, services, maintenance, implementation, design, analysis, training, repair, staff augmentation, etc.).

Offering – Overview

CDW•G offers everything the City of Mesa and OMNIA Partners Participating Public Agencies' IT operations could possibly need – from enterprise-wide services to mouse pads and full turn-key solutions. The depth and breadth of products, services, and solutions CDW•G offers allows the City of Mesa and OMNIA Partners Participating Public Agencies to streamline procurement and increase efficiency by reducing the time and effort of managing multiple contracts. And as technology changes and your needs grow, so do we.

Acquisitions

Since CDW•G's last proposal to the City of Mesa and OMNIA Partners Participating Public Agencies, we have invested in several meaningful acquisitions that have enhanced our already comprehensive offering even further. Our acquisitions contribute to our ability to continue to meet the evolving needs of our customers. These acquisitions contributed to our being recognized by Frost & Sullivan with the 2022 Global Customer Value Leadership Award for the second year in a row. Frost & Sullivan presents this award to the company that demonstrates excellence in implementing strategies that proactively create value for its customers with a focus on improving the return on the investment that customers make in its services or products. An overview of our acquisitions over the last four years is as follows:

2019	In October 2019, CDW acquired Aptris, Inc., a distinguished IT service management solutions provider and ServiceNow Elite Partner. Aptris' talent and expertise further expanded our services capabilities in this fast-growing segment of the IT market and enhanced the value that we can deliver to the City of Mesa and OMNIA Partners Participating Public Agencies.
2020	In July 2020, CDW acquired IGNW, a leading provider of cloud-native services, software development, and data orchestration capabilities; this acquisition allows us to continue to provide highly technical solutions to our customers. In December 2020, CDW acquired assets of Aeritae, a ServiceNow Elite Partner, and Southern Dakota Solutions, a specialist in IT Asset Management design and implementation, allowing us to provide more robust ServiceNow system integration services to our customers.
2021	In March 2021, CDW acquired Amplified IT, a leading education-focused consultancy that brings a blend of technical skills and knowledge to the K-12 and Higher Education markets. This acquisition strengthens our Education practice so that we can continue enabling and empowering schools to leverage innovation. In August 2021, CDW acquired Focal Point Data Risk, a leading provider of cybersecurity services with customers across a diverse set of industries. Acquiring Focal Point has added more resources for CDW•G to better deliver security solutions

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

	and services within four areas: Identity and Access Management, Cyber Security and Data Privacy, Cyber Workforce Development, and Risk Consulting. Significantly, Focal Point Academy is the longtime leader in cyber workforce development. This acquisition has propelled CDW to become the largest Security Integrator in North America. In December 2021, CDW completed our acquisition of Sirius Computer Solutions. Our acquisition of Sirius combines our full-stack expertise with Sirius's broad portfolio of solutions and a team of experts with more than 5,500 professional and technical certifications who specialize in Business Innovation, Digital Infrastructure, Cloud, Security, and Managed Services.
2023	In February 2023, CDW acquired Locus Recruiting LLC (Locus), an experienced consulting team specializing in staff augmentation, information security, cloud computing, networking, and infrastructure. Our acquisition of Locus enhances our staff augmentation practice so that we can continue to provide cost-effective resources to support our customers' needs. In June 2023, CDW acquired Enquizit, an experienced provider of AWS cloud services, helping us better solve customer challenges and deliver meaningful outcomes through innovative technical solutions.

Partners

As one of the largest value-added resellers (VAR), CDW•G has established strong working relationships with the major suppliers in the technology industry. We maintain these relationships in order to provide the best products, services, and support to our customers. We offer more than 100,000 products from more than 1,100 different manufacturers and software publishers. Our top partners have full-time representation at our sales offices to facilitate requests for information and assist with designing the best possible solution.

Many manufacturers choose CDW•G as their primary reseller because of our vast distribution network and the value-added services that we provide to our customers. CDW•G invests heavily in the training and certification of our account managers and technical staff. We work closely with our vendor partners to remain current with the latest technologies and to deploy and manage those technologies in customer environments. We have received awards and recognition from our manufacturer partners for developing and delivering exceptional solutions. Specific insight into some of our partnerships is provided below:

Microsoft

As one of only a select group of Microsoft Cloud Solution Providers (CSP) with all solution designations, CDW•G has the expertise you need to get the most out of your Microsoft products. We work closely with Microsoft to ensure that our solutions are cohesive; you get the whole bundle (licenses, migrations, modernizations, automation, and management) directly through CDW•G, which saves you time and money. With deep implementation experience across Microsoft's portfolio of hardware, software, and the cloud since our partnership began in 1999, we are the right partner for delivering Microsoft solutions.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

We are a certified Azure Expert Managed Service Provider with expertise in end-to-end cloud lifecycle management, including assessing, migrating, building, deploying, optimizing, and efficiently managing business solutions on Microsoft Azure.

We have earned all 6 of Microsoft's Solution Designations and are now among the elite Microsoft partners certified with the Microsoft Solutions Partner Designation for Microsoft Cloud. In 2022, we received the following awards:

- US Device Partner of the Year
- Surface Customer Adds Award Winner

Google

We are a Premier Google Partner. Together, Google and CDW•G bring you the best of Google solutions to grow and support your modern workforce. We are one of only four Google partners certified with Google CCAI expertise along with having three of the world's 66 Google Cloud Fellows on staff. In 2023, we received the following awards:

- Partner of the Year in the Expansion category for its success in helping customers achieve better results through Google Workspace
- Partner of the Year in the Specialization category for excelling in the Education sector and delivering positive customer outcomes

Oracle

We are an Oracle Gold Partner. Our exceptional coverage, relationships, integration, asset management tools, image loads, and streamlined procurement processes allow us to be a trusted advisor on Oracle for the City of Mesa and OMNIA Partners Participating Public Agencies, making it easier to get the Oracle expertise and services needed to provide you with complete Oracle solutions.

Apple

As a Diamond Elite partner, we had a very successful, established relationship with Apple. Apple products and services combined with our legendary logistics and services capabilities offer the City of Mesa and OMNIA Partners Participating Public Agencies improved profitability and employee productivity while simplifying IT overhead and lowering overall costs.

Note: Only Apple is allowed to sell Apple products to K-12 customers, including both private and public schools. If this policy is repealed, CDW•G is equipped and ready to serve the City of Mesa and OMNIA Partners Participating Public Agencies K-12 customers.

Dell

CDW•G has complete access to all of Dell Technologies and Dell EMC's product lines, selling the entire Dell product portfolio of client devices, displays, accessories, software, data storage, server, networking, and services. This portfolio includes RSA® and VMware®. With over 90 onsite CDW-badged dedicated resources and 250 Dell Technologies-badged resources, the Dell and CDW relationship is stronger than ever and suited to meet and configure all customer IT needs.

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

HP

We have strong partnerships with both HP Inc. (HPI) and Hewlett Packard Enterprise (HPE); as a Platinum Partner, we have the experience and expertise to help the City of Mesa and OMNIA Partners Participating Public Agencies design the best solution.

This last summer, we received the following awards:

- 2023 Global Solution Provider of the Year
- 2023 North America Solution Provider of the Year
- 2023 Consulting Partner of the Year by Zerto, a Hewlett Packard Enterprise company.

IBM

We are a Diamond Elite IBM Partner and have been providing IBM solutions for over 25 years. Our IBM-dedicated team consists of nationwide sales, technical, and marketing experts. As an IBM Platinum Business Partner, CDW•G is authorized to sell IBM solutions – from servers and storage to software and technical services. CDW is the leading IBM Security software reseller in the United States.

Lenovo

Our strong partnership with Lenovo is a benefit to our customers, who receive top-quality Lenovo products quickly and efficiently. We are currently the largest Direct Response Channel Partner of Lenovo products.

Panasonic

CDW•G is a Panasonic Diamond-level partner and member of the Panasonic Authorized Reseller Program, authorized for computers and tablets, projectors, professional displays, scanners, and presentation technologies. CDW•G is Panasonic's largest Toughbook computer reseller in the channel.

Cisco

We are a Cisco Gold Certified Partner. We have attained the broadest range of expertise across multiple technologies, and we are Cisco's Largest US National Direct Integrator Partner. In November 2023, Cisco recognized us with the following awards:

- Data Center Partner of the Year (Global)
- Cisco Capital Partner of the Year (Americas)
- SMB Partner of the Year (Americas – US)
- USA Partner of the Year (Americas – US)
- Area Partner of the Year (US – Central)
- Commercial Partner of the Year (US – Central)
- Enterprise Networking Partner of the Year (US – Central)
- SMB Partner of the Year (US – Central)
- South Enterprise Partner of the Year (US – Central)
- Enterprise Networking Partner of the Year (US – East)
- Federal Intelligence Partner of the Year (Federal)

Please note that we excluded our Canada, European, and UK awards from this list.

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Juniper Networks

We are an Elite Partner with Juniper Networks; we have 100+ accreditations and 10+ certifications, including the Enterprise Routing & Switching Specialization and the Mist AI Specialization.

ExtremeNetworks

CDW•G is an ExtremeNetworks Diamond Partner. We have specializations in Security & Access Control, Cloud, Management & Automation, Data Center, ExtremeWireless, and ExtremeSwitching.

Netgear

Together, CDW•G and Netgear provide high-performance switching, wireless, and security solutions. We are authorized to sell Netgear Business, as well as Wi-Fi and networking solutions, switching, AV, remote management, and more.

Additional Partners

For your convenience, we have provided our line card as Exhibit 1.

Services

j. Services: Services such as, but not limited to cloud computing, consulting, technical support, leasing/financing, trade-ins, repair, design, analysis, configuration, implementation, installation, training, maintenance, advisory, managed and support services, staff augmentation, professional services, etc. In addition, services that are related to the design, use, or operation of the products being purchased such as system configurations, testing, hardware/software installation, upgrades, imaging, etc. Services may also include materials, equipment, and supplies provided by the Reseller under an SOW Note: All hardware should come assembled. For example, if extra memory, additional drives, or peripherals are ordered, the Contractor must install them unless the Participating Agency requests, that they not be installed.

CDW•G provides the required services listed in the RFP' Scope of Work; we provide insight into each requested service throughout the remainder of this section. Our full-stack engineering services team focuses on digital transformation – from code and applications to cloud, data, and security – to help you accelerate innovation, enhance user experiences, and optimize collaboration, all while delivering agility and cost efficiencies.

Lifecycle of Services

In today's competitive market, the speed of digital priorities is critical to success, yet technical complexities can slow progress. CDW•G's **full lifecycle of services** supports the City of Mesa and OMNIA Partners Participating Public Agencies' internal team and helps you focus on your short-term and long-term goals. Our experts help you design, orchestrate, and manage your technology environment:

Design – Advisory and Assessment

Using a wide breadth of tools, data, and decades of expertise, we offer strategic advisory services, workshops, assessment, planning, and design engagements with our engineers that consider your specific needs and make recommendations to address gaps and optimize growth. This includes documentation, analysis, and creation of materials that detail the bridge between your current and future state.

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Orchestrate – Building, Implementation, Deployment

Our expert engineers configure and deploy your solutions to help the City of Mesa and OMNIA Partners Participating Public Agencies implement technology according to your organization's unique needs and ensure it works from day one. We build, create, and analyze software or services, as well as test and release into a defined environment and implement changes outlined in the design phase. We implement technology adoption and organizational change management plans to ensure you're fully utilizing your technology solutions and deriving the value you expect.

Manage – Continuous Support and Operations

CDW•G can help the City of Mesa and OMNIA Partners Participating Public Agencies save time and money and augment internal IT team bandwidth with 24/7/365 support and expert management of any aspect of your technology solution.

- **Managed services:** With proactive monitoring, automation, alerting, analysis, maintenance, and performance of operational functions of an organization's contracted technology environment, CDW•G provides end-to-end support of your complex environments.
- **Technical support and continuous improvement engagements:** CDW•G experts provide technical support for complex technology solutions when your IT, development, and business teams need it. Our experts work with you to continuously optimize your technology environment.

We provide greater insight into our full Managed Services capabilities later in this section.

CDW Services Overview

Our professional services help the City of Mesa and OMNIA Partners Participating Public Agencies amplify your capabilities at any stage of your technology journey. IT services are a critical necessity for government entities and public agencies. Our IT services are built to help the City of Mesa and OMNIA Partners Participating Public Agencies tackle various day-to-day challenges, such as increasing efficiency and maximizing costs, while allowing you to free up your internal resources to focus more on core projects. However, not all government entities and public agencies are fully equipped with the necessary resources or have access to the technical experience and support that they need. Our services allow the City of Mesa and OMNIA Partners Participating Public Agencies to focus more on their residents and constituents.

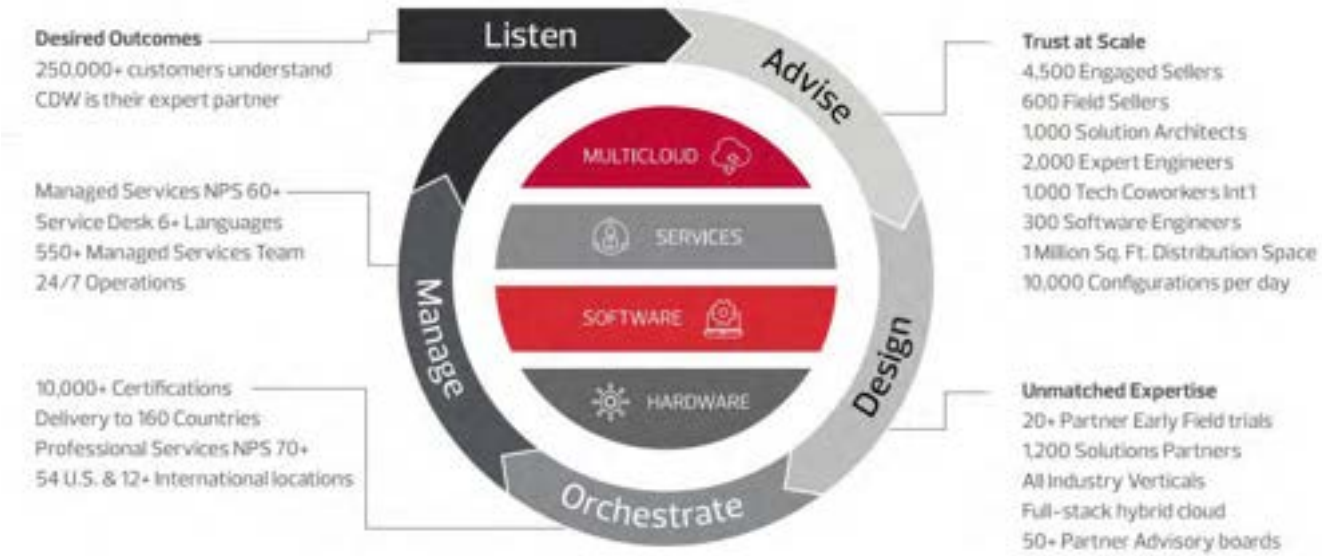

Figure 6. CDW•G's Lifecycle of Services

CDW Services consists of the following services, each with its own focus, experts, and capabilities:

CDW Infrastructure Services provide expertise, tools, and resources to scale and future-proof your infrastructure. We help the City of Mesa and OMNIA Partners Participating Public Agencies upgrade existing architecture and prepare for what's to come, whether on-premises, migrating to the cloud, or in the cloud. We also modernize applications, streamline delivery through DevOps (CDW Development Services), and write custom, cutting-edge apps that drive business. To ensure all of your needs are being met, we have broken our Infrastructure Services into the following categories:

- **CDW Hybrid Cloud** consists of cloud and hyperconverged infrastructure services.
- **CDW Networks** deals primarily with enterprise networking as well as data center networking.
- **CDW Data Center** encompasses soft-ware defined data centers, data center migration and optimization, next-gen backups, compute and storage solutions, as well as power and cooling solutions.
- **CDW OS** includes operating systems, applications, and services.
- **CDW Software Engineering** includes DevOps, as well as software design and consulting.
- **CDW App Modernization** deals specifically with Application Modernization.

CDW Workspace Services provide a comprehensive approach that allows employees to work from anywhere, on any device. We enable the City of Mesa and OMNIA Partners Participating Public Agencies to build a communications platform that grows with you, is rapidly adopted by end users, and helps improve business outcomes through seamless collaboration. Our workspace services are broken into the following categories to meet a variety of complex needs:

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- **CDW Collaboration** services deal primarily with communications, messaging and conferencing, video, applications such as Office 365, engagement contact centers, as well as portals and content collaboration.
- **CDW Endpoint** services encompass management and security, mobility, mobile workspaces, unified endpoint management, and managed print services and printer supplies programs.

CDW Security Services provides independent evaluations of security posture and helps government agencies fortify their weaknesses. Our certified experts design comprehensive strategies and solutions for protection and response. Our security services are broken into the following categories:

- **CDW Secure Platform** includes next-generation firewall and IPS, content security, identity and access management, network visibility, and endpoint protection, as well as policy and access.
- **CDW Detect and Respond** deals with log aggregation and correlation, as well as security incident response.
- **CDW Information Security** deals only with information security services.

CDW Data Services, including artificial intelligence (AI) and machine learning (ML) services, offer actionable insights that give you a stark competitive advantage. Design, build, and deploy modern data analytics and AI/ML solutions for storing, transforming, discovering, and operationalizing your data. We have broken our data services into the following categories:

- **CDW Data** focuses on data modernization and data analytics.
- **CDW AI/ML** deals specifically with machine learning analytics (ML) and artificial intelligence (AI) data analytics.

CDW Support Services delivers custom warranty, maintenance, and support services that augment your IT staff so they can focus on maximizing business outcomes. We offer a variety of support services for hundreds of manufacturers; these services include the following:

- **CDW Technology Support** is a branded service backed by the Original Equipment Manufacturer (OEM) collaborative warranty support service. Our depth and breadth of expertise enable us to get a top-level engineer quickly, resulting in faster incident resolution.
- **CDW Extended Support** provides continuous break/fix support service on equipment that its manufacturer no longer covers (N-1 or older) or is nearing end-of-service (EOS) life.
- **Help Desk Services** connects you with our Managed Services team and helps put the right people, processes, and tools in place.
- **Warranty and Maintenance Services** allow us to keep your equipment – and organization – running with expanded and extended warranties as well as custom maintenance contracts that include on-call experts and break/fix agreements.

CDW Configuration and Integration Services make sure your new technology is ready to work on arrival, whether we are building out a data center solution with fully configured racks, facilitating a multisite deployment of pre-configured computing devices, or handling single-device provisioning. We offer basic and advanced services:

- **CDW Basic Configuration and Integration Services** include hardware integration, software configuration, asset tagging and reporting, custom laser engraving, Windows autopilot enrollment with Intune pre-provisioning, Chrome OS White Glove Service

(WGS), and Zero-Touch Enrollment (ZTE), inserts, kitting, and custom packaging, buy and hold services, mobility services, and burn-in services.

- **CDW Advanced Configuration and Integration Services** consist of hosted VPN services, custom imaging, network and security device configuration, and rack configuration.

Success Story: Citizen Support Entity

Background

This State has more than 200 libraries dispersed throughout business centers and other areas where community members frequently visit. To increase efficiency, this State entity wanted to digitize their content and workflow to lessen the processing and approval time for public benefits applications. The customer's goal was to offer convenient access in a friendly environment while also downsizing the number of staff needed in the process.

Engagement and Solution

As their chosen consultant, CDW•G answered any remaining questions regarding the hardware and use cases to ensure that the solution matched the desired outcome. The CDW•G Team also determined which CDW Configuration Services would be most applicable to this project and the customer's overall mission.

CDW•G provided the state with an end-to-end solution. First, we provided proof of concept and created a desirable bill of materials. To best meet citizens' needs, we determined the ideal fit of Chrome tablets that would be suited for long hours of operation in high-touch environments. The Chrome tablets have many benefits, such as built-in security, ease of deployment through Zero Touch Enrollment, and centralized manageability via the Chrome Operating System (ChromeOS). This reduced the total cost of ownership to the customer.

CDW•G then looked for a kiosk that would complement the Chrome tablet and recommended necessary modifications. Finally, the team acquired demo units for the State to test.

Outcome

CDW•G positioned a complete solution that will allow the State's citizens to conveniently access government applications at over two hundred library locations across the State. Their CDW•G Team was diligent in addressing each of the customer's requirements and concerns, thoroughly reviewed proof of concept, and effectively collaborated with partners to provide the best solution.

Software Services

CDW•G has a variety of services to help you with your software needs. CDW Software Services takes a pre- and post-sales consultative approach to help you manage the assessment, validation, deployment, and management of software assets through every stage of their lifecycle. Our Total Software Management solution provides everything you need to make every step of software management simple and effective. CDW•G has everything the City of Mesa and OMNIA Partners Participating Public Agencies need to begin exploring software options, including, but not limited to, the following:

- Extensive knowledge of the software industry and publishers
- Insight into the latest trends and products

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- Decades of experience in enhancing software environments
- Comprehensive process to review goals and technical requirements
- A comprehensive portfolio
- Expertise in cloud apps

Our software experts will identify your current license position and renewal timeline, as well as provide a review that is easy to understand so that you can maximize returns on your software investment. Our review helps you organize and track software, prepare for purchases, and educate teams about the software infrastructure. The review:

- Determines whether current agreements fit your needs
- Identifies opportunities for agreement consolidation
- Shows when your agreements are up for renewal

Our long-standing partnerships with top software vendors give us a deep understanding of each one's unique licensing requirements. CDW•G is committed to maintaining the highest level of knowledge and expertise surrounding software solutions. We will leverage our close partner relationships and continue to invest in our workforce to ensure we stay in front of the ever-changing landscape within this area.

Success Story – Local Community-Development Services

Background

This local government entity sought assistance for their IT licensing renewals and assistance in guiding their organization through the intricacies of software licensing agreements. The customer contacted CDW•G to assist with their upcoming renewals, help manage their software licenses, maintain compliance, and optimize costs.

Solution

CDW•G has a thorough process to ensure that the customer's needs were met. This engagement included a detailed evaluation, careful planning, negotiating with vendors, finding cost-effective solutions, minimizing risks, and keeping meticulous records. Not only did this approach meet the customer's immediate licensing requirements, but it also had long-term advantages in terms of regulatory compliance, cost reduction, and resource management.

Outcome

With the help of CDW•G, the customer was able to renew their essential software licensing on time, ensuring uninterrupted access to critical resources. This positions them to manage IT resources effectively and allocate budgets efficiently.

In the end, the customer's CDW•G team provided expertise on licensing models, negotiation strategies, and industry standards to ensure compliance, prevent legal complications, and reduce expenses.

Software Value-Added Services for the City of Mesa and OMNIA Partners Participating Public Agencies

CDW•G does not compete on price alone. As a vendor-neutral solutions provider, assisting with presales recommendations is one of our strong suits. We are the number one reseller to many of our vendor partners, such as Microsoft, VMware, and Adobe. Therefore, we have the expertise, experience, and resources to provide the best solution for the City of Mesa and

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

OMNIA Partners Participating Public Agencies. Our close relationships mean that we receive competitive price offers and timely notifications regarding product changes. This allows the account team to keep the City of Mesa and OMNIA Partners Participating Public Agencies appraised of new product releases, version changes, and price changes, all of which affect how you purchase software.

CDW•G offers the City of Mesa and OMNIA Partners Participating Public Agencies the following value-added services:

- Assessments
  - Software License Review
  - Demonstration Labs (such as our Microsoft Experience Center)
  - Virtualization Assessment
  - Security Threat Check
  - One-to-One Readiness
- Trial License Key Codes
- Educational resources and important notifications, including email notifications, webinars, CDW's Solution blog, Software Simplified, and White Papers, among others
- Software purchase reports
- Available software promotions
- Sponsored vendor events designed to keep the City of Mesa and OMNIA Partners Participating Public Agencies in the know of industry trends

Licensing Strategy Consultation

- Current licensing assessment
- Analysis of current and future needs
- Discussion regarding procurement preferences
- Multiple quotes for side-by-side comparison

Ongoing Licensing Strategy Sessions

- New products
- Software Assurance benefits utilization
- Changes in licensing structure
- Future procurement planning

Quarterly and Ad Hoc Reporting

- Help for managing maintenance agreements
- Reminders for expiration-sensitive products
- Analysis of options for coterminous agreements
- Comprehensive online reporting of all software purchases from CDW•G

Customized Procurement Plan

- Multi-year license procurement roadmap

License Agreements

- Provide for the City of Mesa and OMNIA Partners Participating Public Agencies Education on License Agreement Terms & Conditions
- License Agreement setup and processing

Our expertise extends to everything from the evaluation process and technology planning to software purchasing and the contract management tasks ahead. CDW•G is committed to coordinating the resources needed to provide helpful insight on right-fit options for your specific

needs. In fact, we have over 320 coworkers specifically dedicated to Software Licensing, Solutions, and Services.

We believe the City of Mesa and OMNIA Partners Participating Public Agencies will find that our business model provides one of the best values that the industry has to offer for licensed software. Our resources and our value-added tools provide the City of Mesa and OMNIA Partners Participating Public Agencies with the pricing and partnership that you deserve and make procurement easier. We have the best-in-class solution today, but we will continue to evolve in order to maintain our leadership role, expand and enhance our value proposition, and better serve the City of Mesa and OMNIA Partners Participating Public Agencies.

Success Story: Local Government Entity

Background

In 2022, this local government entity transitioned from on-premise technology solutions to the cloud and required continued guidance to understand the solutions, licensing support, and help to educate their end-users. The customer wanted a partner to help evaluate their current license entitlements and solutions to fit user profiles. Their top priorities were to reduce costs and improve end-user satisfaction.

Engagement and Solution

We have managed the customer's Microsoft Enterprise Agreement (EA) for the last six years and conducted regular communication and quarterly business reviews to stay in touch with the customer's needs. As a part of the year 1 true-up process, we engaged the customer to review licensing and end-user functionality requirements.

To help this customer meet their goals, we provided them with cost analysis and guidance for Microsoft M365 E3, E5, and F3 products in addition to on-premise server products, including SQL and Windows Servers.

Outcome

CDW•G's engagement helped the customer to consolidate their licenses and achieve cost savings by requesting reductions on cloud licenses prior to their two-year anniversary and replacing them with M365 E3. By educating the customer on license compliance and options to Step-up, this local government entity recognized significant cost-savings. Ultimately, the customer greatly appreciated CDW•G's contribution and has recognized an enhanced Microsoft experience overall.

Cloud Computing Services

CDW•G understands that the City of Mesa and OMNIA Partners Participating Public Agencies have many technology provider choices. When working with CDW•G, you get the best total solution the industry offers without the limitations inherent when dealing with either a manufacturer or a specific partner. CDW•G works with customers to develop coordinated and cost-effective Cloud Solutions through the following range of services:

- **Discovery and Assessment:** Understanding of environment, usage, challenges, and requirements
- **Planning and Design:** Evaluation of providers, recommendations, and proof of concept
- **Migration Services:** Smooth deployment of the solution

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- **Integration Services**: Full integration with existing applications
- **Application Modernization**: Turning monolithic legacy apps into cloud micro-services
- **Aggregation Services:** Streamlined administration and aggregated billing
- **Managed Services:** CDW•G hosted and remote managed services or partner-managed services
- **Fulfillment Services:** Onboarding, reporting, billing, partner reconcilement, and renewals

As a leading provider of Cloud Solutions, we can help the City of Mesa and OMNIA Partners Participating Public Agencies assess your priorities and determine which applications and processes should and shouldn't be moved to the Cloud. We also help you design the best delivery model, whether public, private, or a hybrid model, that provides the greatest flexibility to customize your solution. Furthermore, our pre-qualified partner network makes it easy to find the right providers and to create a comprehensive, multi-vendor solution that meets your specific needs.

Consulting and Advising Services

Our IT consulting and professional services team — over 1,000 professionals strong — delivers personal service that helps the City of Mesa and OMNIA Partners Participating Public Agencies understand and meet your organizational and technological needs. A key differentiator for our Advising and Consulting practice is that our experts go beyond advising; CDW•G can deliver on whatever the City of Mesa and OMNIA Partners Participating Public Agencies need. Because of our ability to design and deliver, our consultants incorporate their technical knowledge and experience into the design, assessment, and implementation. Our comprehensive approach ultimately mitigates risk through experience to ensure that customers like the City of Mesa and OMNIA Partners Participating Public Agencies get it right the first time.

We have expertise and certifications across diverse industries in the public and private sectors. Our project managers and consultants work directly with you to design and implement every facet of your IT solution.

Using a wide breadth of tools, data, and years of expertise, we offer strategic advisory services, workshops, and assessment, planning, and design engagements with our engineers that consider your specific needs and make recommendations to address gaps and optimize growth. This includes documentation, analysis, and creation of materials that detail the bridge between your current and future state.

Presales Consulting

A unique advantage of CDW•G's business model is that the City of Mesa and OMNIA Partners Participating Public Agencies have access to an incomparable depth and breadth of value-added technical expertise. Our highly trained and experienced Technology Specialists and Solution Architects provide expert consulting advice and ongoing support. In addition, our strong relationships with manufacturers enable your CDW•G Account Team to provide presales consultation, technology roadmaps, and other assistance quickly. In fact, many major vendor partners have dedicated staff at CDW•G.

During the presales phase, service consultation focuses on understanding the City of Mesa and OMNIA Partners Participating Public Agencies' requirements and engaging the appropriate technology specialists, systems engineers, and solution architects. We work to identify potential solutions that meet each Participating Public Agency's needs before presenting those solutions in a proposal or product demonstration. We strive to educate the City of Mesa and OMNIA

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Partners Participating Public Agencies about products and services by providing a comprehensive overview of its features and benefits.

Below is an overview of those who can be engaged to support the City of Mesa and OMNIA Partners' Participating Public Agencies during the presales consultation process and beyond:

Technology Specialists

Our teams of technology specialists are highly trained and experienced in various products and technologies, including the following:

- Leasing and Finance
- Managed Print Services
- Mobility
- Networking
- Power and Cooling
- Servers and Storage
- Software Licensing and Management
- Unified Communications and Collaboration
- Voice and Data
- Security

Presales Systems Engineers

We have a large team of over 100 presales systems engineers who hold vendor-funded positions and provide presales support for that particular partner's products. These experts assist with evaluating products based on your unique operational requirements and budgetary constraints. They review quotes for product compatibility, functionality, and compliance.

Solution Architects

Our teams of solution architects work closely with the vendor partners whose solutions they design. They assess your environment and work with your IT staff to design plans for solutions that boost productivity and improve operational efficiencies. Extremely knowledgeable about the latest technologies, they have important insight into the pros and cons of different solutions.

Onsite Vendor Representatives

CDW•G has manufacturer and software publisher representatives onsite at our sales offices to assist account managers and specialists with requests for technology roadmaps and to provide training on an ongoing basis. Our strong relationships facilitate presales consultation and timely notification regarding product changes and products going end of life.

Data Center Transformation Team

In addition to our presales consulting team and resources, our advanced consulting arm, the Data Center Transformation (DCT) team, has both the resources and expertise to collect complex data, provide custom reporting, and tailor our advisory outcomes to the unique needs of the City of Mesa and OMNIA Partners Participating Public Agencies. CDW•G is aligned with industry trends across technology organizations and industries, including state, local, and education. CDW•G reins in the complexity of industry trends and tailors it to your needs and goals through our disciplined practices.

Data Center Transformation is the process of changing an organization's IT infrastructure and application services to improve its capabilities, performance, and efficiency. The process includes data center migrations, cloud integration, large-scale changes to hardware, virtualization, improved resiliency, software-defined components, application rationalization, and business process automation. At its core, DCT is a business-first approach that will enable the

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

City of Mesa and OMNIA Partners Participating Public Agencies to accelerate the transformation of your business models using technology to achieve its unique goals.

The DCT team offers consultative guidance in six key strategic focus areas, highlighted in the figure below:

Figure 7. DCT Focus Areas

With over 23 years of experience providing consulting and advisory services, the DCT team provides consultative and advisory expertise specific to the City of Mesa and OMNIA Partners Participating Public Agencies' business challenges. With a focus on understanding your outcomes, goals, and objectives, DCT takes a consultative approach to recommend solutions to address strategy rather than problems.

For decades, the DCT team has led transformative projects for state and local governments, federal entities, small businesses, large corporations, and health and education organizations. Over this period of time, we have accomplished many goals for our customers, including:

- Moved 675 data centers
- Relocated 250,000+ workloads
- Migrated 25,000+ applications across 16 industries
- Reviewed 1290 data centers
- Assessed and defined direction for 15M+ square feet of raised floor
- Identified an average reduction of 65% of data center space
- Designed enterprise clouds to support up to 780K workloads
- Moved 950,000 workload
- Moved 25,000 workloads within a single client
- Moved 10,000 workloads in a single environment
- 160 facility concept plans performed
- Rationalized almost 1M workloads for cloud placement
- Worked with 325+ converged infrastructures involving our services
- Configured more than 5M configuration items for hundreds of CMS/CMDBs
- Implemented 77 enterprise IT operating models

There are many different types of projects that the DCT team can orchestrate for the City of Mesa and OMNIA Partners Participating Public Agencies. These projects span the full gamut of transformational information technology and include solution areas such as data center transformation, business process optimization, and application management solutions. Our DCT team uses proven processes and leverages infrastructure, data, digital, and security experts to create high-value transformative business capabilities for our customers.

Overview of Advising and Consulting Services

CDW•G has a wide variety of advising and consulting services. These services include, but are not limited to, the following:

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- **vCISO Service:** Many organizations have limited staff or skill sets and need assistance navigating security obstacles, which is why CDW•G's Security Consultants are available to act as a virtual Chief Security Information Officer (vCISO). Our vCISO service helps you improve the maturity and scope of your existing security practices by providing a technology-neutral Security Consultant.
- **CDW OS ITSM Simulation/Executive Visioning Workshop:** By participating in our IT Service Management (ITSM) business simulation workshop, the City of Mesa and OMNIA Partners Participating Public Agencies can learn how to increase the business impact of your internal service provision. This hands-on, highly interactive IT/Business workshop is designed to educate the City of Mesa and OMNIA Partners Participating Public Agencies' leadership and stakeholders in the business structure of process with technology.
- **IoT Transformation Workshop:** Our Internet of Things (IoT) Transformation Workshop is designed to help the City of Mesa and OMNIA Partners Participating Public Agencies understand your data needs, determine the return on investment (ROI), and evaluate your foundational infrastructure to determine if any technical components should be retired, evolved, or added before implementing an IoT technology initiative.
- **CIO Essentials:** Our CIO Essentials provides the framework to develop the City of Mesa and OMNIA Partners Participating Public Agencies' vision for the future into an actionable strategy and roadmap. Whether Participating Public Agencies are looking to transform your organizations into a DevOps culture based on cloud Platform as a Service (PaaS), industrialize your private cloud services, consolidate your application portfolio, or modernize your IT environment as a whole to reduce IT expenses, CIO Essentials provides the tools the City of Mesa and OMNIA Partners Participating Public Agencies need to deliver a clear, concise business-centric strategy.
- **PMO Assessment Workshop:** Our DCT leads our Project Management Office (PMO) Assessment Workshop. This workshop is a high-impact, comprehensive program to assess and improve Project Portfolio Management (PPM) practices over the course of 3-4 weeks. This comprehensive program consists of three survey domains: PPM current state, PPM satisfaction, and PPM assessment.
- **Application Rationalization:** Over time, your application portfolio may expand as more are introduced for specific needs. Using a strong holistic methodology, CDW•G can help the City of Mesa and OMNIA Partners Participating Public Agencies address your application portfolio to ensure that the applications used are cost-efficient and serve as effective tools. Our skilled consultants will work directly with relevant stakeholders to review your organization's complete list of applications. This review includes a full data analysis, coupled with facilitated workshops and interviews with application owners and end-users. These sessions provide additional context and knowledge beyond the raw data to identify and attain your organization's end goals.
- **Application Dependency Mapping:** Application dependency mapping combines tool-based discovery with the experience of CDW•G resources to provide a holistic view of an application environment, including detailed information and mapping of the relationships between your IT assets. Whether the City of Mesa and OMNIA Partners Participating Public Agencies are prepping to migrate to a new data center, introducing a new application, reducing the risk of business interruptions, or planning to transform your business, application dependency information is a crucial factor in your success. Application dependency mapping is an essential first step for understanding your current environment or preparing for a wide range of changes.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- **Migration Execution:** From planning and strategy to the execution of the migration, CDW•G can assist you with the ability to migrate from your current data center to a new one on a schedule.
- **Migration Readiness Assessment:** Before starting a migration program, consider having CDW•G experts perform a Migration Readiness Assessment. This program helps you be prepared to start the migration program, by identifying risks and develop mitigation plans that could impact your migration program, which will help you make better-informed decisions about scope, timeline, budget, and resources.
- **Organizational Effectiveness Services:** Ensuring that your organization is performing at the highest levels depends on how well your IT teams function and work with each other. CDW•G's expertise in how IT organizations operate helps you drive efficiencies, address issues, prepare for an organizational change, or expand services to meet business objectives. Our consultants will align your organizational structure and role definitions to meet your goals as well as account for current needs and projected growth to better understand your strategic direction.
- **IT Practices Workshop:** Led by our DCT team, the IT Practice Review workshop gives the City of Mesa and OMNIA Partners Participating Public Agencies visibility into how your organizations operate. Through a holistic approach, we look beyond process documentation into how teams work together. Each Participating Public Agency is unique, and how processes are designed and implemented can either work for or against business objectives. In 2 short weeks, agencies will have a high-level map of your strengths and weaknesses and a plan to ensure your processes propel you to reach your goals.

The above services and workshops serve as an example of our capabilities but are not an exhaustive list.

OMNIA Success Story: Midwestern, Midsize City

Background

CDW•G prioritizes helping all our public sector customers realize the vision they have for the future – from the smallest town to the largest municipality. Simply providing order fulfillment is a thing of the past. This mid-sized city, serving over 200,000 constituents, sees an opportunity to grow their mission and their community by becoming an innovative organization delivering world-class outcomes for their citizens.

Challenge

Regrettably, this City encountered a predicament all too familiar: a shortage of resources hindering the pursuit of their ambitious transformational goals. Compounded by the relentless pace of technological evolution, innovation became an elusive pursuit. Instead of envisioning strategic growth, the City found itself caught in the struggle to maintain an aging infrastructure. Even if budgetary allocations were secured for new technology, the protracted procurement process extinguished any hope of timely execution, casting a shadow over the prospects of success.

Solution

Enter the City of Mesa, OMNIA Partners contract, and CDW•G. The City of Mesa contract gave this city a procurement vehicle that would ensure taxpayer dollars are spent sensibly, while allowing IT leadership to make decisions and execute their plan quickly. Far from the

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

old adage of “use it or lose it” funds, CDW•G was able to provide critical staff augmentation resources to complete crucial updates on a timeline unique to local government.

Going a step further, the City’s dedicated CDW•G Account Team coordinated consultants to help formulate an effective plan for implementing and executing on their vision. This wide range of services offered by CDW•G – from basic network upgrades to InfoSec consulting and road mapping – became a key factor in IT moving from treading water to making real progress in delivering exceptional outcomes.

Success through OMNIA Partners

The City benefits from competitively priced service offerings with the technical acumen to partner alongside C-level executives and deliver innovative outcomes; a contract that procurement understands and embraces as a cost-saving measure; and a partner that understands their needs and aligns their resources to help accomplish goals that once seemed out of reach.

Technical Support Services

CDW Technology Support

CDW Technology Support (CTS) is CDW•G’s branded offering backed by the OEM collaborative warranty support service. CTS provides an enhanced client warranty support experience with one contract offering incident management for covered devices. CDW•G will take the first call for the City of Mesa and OMNIA Partners Participating Public Agencies to help resolve your issue and, if needed, provide an engineer onsite to perform a hardware replacement.

If escalation to the OEM is required, CDW•G will do that on the City of Mesa and OMNIA Partners Participating Public Agencies’ behalf. CDW•G Technology Support helps the City of Mesa and OMNIA Partners Participating Public Agencies solve your business problems by providing a single solution for your manufacturer support, saving internal IT staff time and/or any unplanned expenses for an engineer to come and replace faulty hardware and/or renew a contract that was not co-termed. Because of CDW•G’s depth and breadth of expertise, we are able to get a top-level Technical Assistance Center (TAC) engineer more quickly than a customer may be able to, resulting in quicker incident resolution. Some of the features and benefits of CDW Technology Support include:

- **One place to call:** CDW Technology Support allows the City of Mesa and OMNIA Partners Participating Public Agencies a single point of contact. We provide end-to-end ownership of all incidents, service requests, and support for maintenance, hardware replacement, knowledge base, and software support.
- **24/7/365 support:** CDW Technology Support provides around-the-clock support via a dedicated service desk 24/7/365 and also provides a dedicated support number, email address, and ServiceNow login to open and view case status online.
- **Full-service Return Merchandise Authorization:** If, after troubleshooting, CDW engineers determine that a device needs to be replaced, CDW•G will request the RMA from the manufacturer on your behalf and have it sent to your location. We will also dispatch an engineer to meet that part and swap out the device for you and return the defective parts to the manufacturer and update the serial numbers on your contracts.
- **Fully backed by manufacturer warranty and support:** A support contract is purchased through the manufacturer so you do not lose the ability for upgrades,

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal (“RFP”) furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC (“CDW•G”).

updates, etc., and may be provided software download access to those contracts if requested.

Maintenance Offerings

CDW•G offers various maintenance agreements to cover all types of vendors, products, and service levels. Our offered maintenance agreements give access to cover all vendors, products, and service levels with just one toll-free number. Types of available agreements include the following:

- **Coterminous Support Contracts.** A conterminous support contract takes the City of Mesa and OMNIA Partners Participating Public Agencies' existing manufacturer support plans and roll them together with one standard end date to eliminate the risk of a lapse in coverage.
- **Break/Fix Maintenance Agreement.** These annual maintenance agreements and contracts cover the repair or replacement of in- or out-of-warranty equipment.
- **Retainer Contracts.** Retainer contracts provide a designated block of time that guarantees the City of Mesa and OMNIA Partners Participating Public Agencies' access to field service and support staff, including system engineers, network technicians, PC, and printer repair technicians, and more.

For information about warranty and repair services, please see "Repair" below.

Leasing/Financing Services

CDW•G has an in-house Financing Solutions Team to help the City of Mesa and OMNIA Partners Participating Public Agencies navigate among our tailored payment solution options, which include leasing, financing, subscriptions, etc. We take a consultative approach to financing options that ensure the City of Mesa and OMNIA Partners Participating Public Agencies' goals are met.

At CDW•G, we focus on providing the best solutions in the industry—and that includes Financing Solutions. CDW•G can facilitate an agreement between OMNIA Partners Participating Public Agencies and various leading financing companies that can help each Participating Public Agency obtain the payment terms that best fit their unique needs and budget requirements. Agencies can secure a payment solution structure with maximized options and terms.

CDW•G's Financial Partners provide the best option to fit the City of Mesa and OMNIA Partners Participating Public Agencies' needs. For agencies with a Master Lease Agreement established, we likely have a partnership in place with their provider or can establish one, to extend their existing agreement to incorporate purchases from CDW•G. Often, we leverage relationships with our partners to offer more advantageous rates, terms, and structures. For agencies that have diversity requirements to meet, we can recommend small and diverse partners that hold relevant certifications.

Our Premier Financing Partners include, but are not limited to, the following:

- Arrow Capital Solutions
- Cisco Capital
- Dell Financial Services
- HPE Financial Services
- Lenovo Financial Services
- LEAF Commercial Capital, Inc.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Trade-in Services – CDW•G's Information Technology Asset Disposition

When the City of Mesa and OMNIA Partners Participating Public Agencies' equipment reaches the end of its lifecycle, CDW•G can refer you to industry-leading IT Asset Disposition (ITAD) service providers to help you properly dispose of the hardware. Our partnerships with industry-leading asset disposition organizations allows for fair market value, responsible disposal, transfer of liability, and potentially credit toward new tech purchases with CDW•G.

CDW ITAD services include, but are not limited to data wiping, asset removal, evaluation, recycling, onsite shredding, potential value back credit to maximize recovery, and depot services. CDW ITAD offers many benefits to the City of Mesa and OMNIA Partners Participating Public Agencies, including:

- Logistics services for quick and efficient removal of equipment from client facilities
- Device pickup, including palletizing equipment, shrink wrapping, and transport
- Document of liability transfer provided to indemnify client from any environmental liability
- Ensure removal of all client information and software from electronic media and assets
- US Department of Defense-compliant erasure services in full support of government standards
- EPA-approved disposal
- Zero-landfill policy
- Complete serialized reporting available via a website

Repair Services

CDW•G offers a breadth of warranty options, repair services, and maintenance agreements to provide the City of Mesa and OMNIA Partners Participating Public Agencies the assurance of predictable costs and repair response times that a warranty agreement can provide.

The standard manufacturer warranty that comes with most products is a "best effort" commitment for response time. Regardless of the application of a system for the City of Mesa and OMNIA Partners Participating Public Agencies, the "best effort" level of service is frequently not sufficient to achieve desired business continuity. Even a non-critical repair, such as a tablet, can keep a coworker without this tool for 8-10 business days. Moreover, standard manufacturer warranties can quickly expire. The average industry cost for maintenance is $85-$120 per hour plus parts; quickly leaping past the cost to extend the warranty. As such, we recommend the City of Mesa and OMNIA Partners Participating Public Agencies take advantage of the warranty, repair, and maintenance options we offer.

CDW•G offers a breadth of warranty options, repair services, and maintenance agreements to provide our customers the insurance of predictable costs and repair response times that a warranty agreement can provide. Our comprehensive suite of product lifecycle support offerings includes:

- Warranty extensions and upgrades
- Post warranty support
- Accidental damage protection
- Maintenance contract agreements
- Post-sale technical support
- Product and certification training
- Onsite repair
- Depot repair
- Help desk service

Account Managers keep a watchful eye on all of their customers' agreements and have pre-emptive discussions to ensure customers' next warranty purchase meets their needs as well.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Examples of our available warranty levels, popular warranty options, and related value added services are included below. The completeness of our portfolio allows us to provide effective problem diagnosis and resolution for every customer need.

Basic Warranty

CDW•G's basic warranty offering includes the following:

- **CDW•G provided 30 day warranty** – We offer a complimentary 30 day warranty for all products we sell. Once the 30 days have expired, CDW•G's technical support or the City of Mesa and OMNIA Partners Participating Public Agencies' dedicated Account Manager assist in requesting the manufacturer warranty service.
- **Certified technician support** – We provide toll-free, email, and on-line chat technical support on all hardware and operating systems for up to two years after purchase from CDW. Our technical support technicians are US based, located in Holmdel, New Jersey, responding to about 60 calls a day. For insight into your technical issues, the City of Mesa and OMNIA Partners Participating Public Agencies can monitor the frequency and type of technical support requests via the CDW•G Account Center.
- **Extensive engineering support** – We have service-dedicated coworkers nationwide, aiding in pre- and post-sale questions. They provide assistance to the City of Mesa and OMNIA Partners Participating Public Agencies by phone, and we also offer on-site support. As with the technical support above, a key to great support is that they are not compensated by an individual manufacturer they are "vendor agnostic." This allows them to support the interoperability of the City of Mesa and OMNIA Partners Participating Public Agencies' entire solution, not promote a single brand. These experienced and certificated engineers provide consultation with configurations and infrastructure shifts.

Extended Warranty

CDW•G offers various extended warranty options, including the following:

CDW Maintenance Agreements

CDW's offered maintenance agreements give access to cover all vendors, products, and service levels with just one toll-free number. Types of available agreements include:

- **Coterminous Support Contracts** - A coterminous support contract can take the City of Mesa and OMNIA Partners Participating Public Agencies existing manufacturer support plans and roll them together with one common end date to eliminate the risk of a lapse in coverage.
- **Break/Fix Maintenance Agreement** - These annual maintenance agreements and contracts cover the repair or replacement of in- or out-of-warranty equipment.
- **Retainer Contracts** – Retainer contracts provide a designated block of time that guarantees the City of Mesa and OMNIA Partners Participating Public Agencies' access to field service and support staff including: system engineers, network technicians, PC and printer repair technicians, and more.

Cisco SMARTnet

Without SMARTnet, Cisco charges $400 hour for repair services. With the average repair taking four hours, customers are likely to pay $1600 per incident without SMARTnet. Cisco SMARTnet service provides enhancement and maintenance support resources during the operational lifetime of a Cisco networking device. We are the #1 Cisco SMARTnet partner, holding SMARTnet Maintenance Agreements with over 34,000 distinct customers. Our dedicated

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

SMARTnet team has 38 SMARTnet Specialists with over 200 years of combined experience working with SMARTnet contracts and in-depth knowledge of Cisco's internal SMARTnet tools. We offer multiple length and levels of SMARTnet agreements, including onsite options. CDW is authorized to purchase directly from Cisco, which can greatly reduce the City of Mesa and OMNIA Partners Participating Public Agencies' cost for this comprehensive service.

Hard Drive Retention

CDW•G offers IBM and Lenovo hard drive retention warranty options for our customers whose hard drives store confidential customer data, trade secrets, or intellectual property, or if they need to comply with regulatory requirements. When a damaged hard drive is replaced, the customer keeps the original defected device, eliminating tracking of drives during transit and providing the utmost data protection.

Design Services

We get that every IT solution is unique and that its delivery must be customized to meet the City of Mesa and OMNIA Partners Participating Public Agencies' specific needs. In tandem with industry-leading partners, our highly experienced architects, engineers, and project managers will work with you to design solutions that meet the City of Mesa and OMNIA Partners Participating Public Agencies' needs and help you reach your IT goals. From configuration and maintenance to advanced engagements across infrastructure, workspace, security, and support, CDW•G has the expertise you need to help with all of your IT needs. We provide remediation recommendations based on environment discovery and create application architecture designs and roadmaps specific to the requirements of each OMNIA Partners Participating Public Agency.

An overview of our design services include, but are not limited to, the following:

- **Solutions Design:** CDW•G helps you design specific solutions to meet your hybrid infrastructure, network, digital workspace, and security needs.
- **Transformation Design:** Design platform migrations, application upgrades, and the entirety of your digital transformation
- **Platforms Design:** Design public cloud platforms and applications with our experts. Our design and planning workshops help you align your goals and needs to create an outcome-based unified communications strategy based on end-user satisfaction.
- **Device Design:** Device Design includes custom building the right device for the City of Mesa and OMNIA Partners Participating Public Agencies' needs and providing recommendations for all key technical specifications. Once the City of Mesa and OMNIA Partners Participating Public Agencies know which products are best for your environments, we often work with our partners to custom design them – even if the device is not currently available in the market. These devices - also called Configure to Order – are built to your exact specifications.
- **Data Strategy Design:** The first step in harnessing the power of your data is having the right processes in place for collecting, analyzing, and making decisions based on what the data is telling you. CDW•G is there to suggest new ways to create an agile, modern data strategy. We conduct a comprehensive evaluation of your current data processes and platforms and then design a customized data strategy tailored to your needs.
- **Software Development/Design:** CDW•G provides remediation recommendations based on environment discovery, and create application architecture designs and roadmaps specific to your requirements.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- **Security Controls Design:** When it comes to designing security controls, CDW•G provides a comprehensive and vendor-neutral approach to prevent data breaches and proactively respond to cyberattacks.
- **Physical Security Solutions Design:** From hardware and software recommendations to floor plans that specify new device install locations, our physical security experts can design a completely new physical security system that fits your needs.
- **Infrastructure Design:** Infrastructure experts can design and implement an infrastructure that consolidates business processes and allows you to rapidly improve end-user experiences and mitigate problems on both internal and external applications.

Success Story: State Court System

Challenge

This State Court System had a mission to provide its citizens with access to the justice system and transform their digital experiences. The legacy content management system (CMS) platform was difficult to maintain and gave the website an outdated look, featuring text-heavy, static content that made it difficult to find important information. Because the site lacked the ability to incorporate reusable content, the IT team was responsible for content updates. Additionally, the site was not designed for mobile devices, which hindered the user experience for a large proportion of the users accessing the site. As a result, the platform had limited user analytics and business stakeholders had a hard time understanding user behavior. This customer needed a site platform that would optimize the user experience, improve content quality and velocity, and provide deeper insights into how their users were utilizing the site.

Solution

CDW•G performed a Discovery Phase with key business and IT stakeholders to elicit and document high-level business goals, user personas, site features, high-level user stories, and the high-level technical architecture for an Adobe Experience Manager website implementation. The information gathered from the discovery phase was used as the basis for creating a list of Experience Manager templates and components that would be needed to successfully migrate the existing website to Experience Manager. The CDW•G creative team worked with the customer on their vision for the redesigned website.

After a collaborative process, the team finalized designs that would transform the existing web experience. CDW•G then implemented the required templates, components, and integrations to migrate and launch the new public website on Adobe Experience Manager. Key features of these phases included:

- **Agile delivery**: The team adopted an agile process to create and extend more than 50 Experience Manager components and templates across multiple three-week sprints. End-of-sprint demos allowed the State's stakeholders to provide early feedback on whether any course corrections or minor tweaks were needed.
- **Website redesign:** CDW•G collaborated with the customer and created more than 18 pages of designs, including both website and mobile layouts, to serve as templates that focused on providing website users with a seamless way to find and consume content.
- **CDW•G Digital Foundation**: The CDW•G Digital Foundation accelerator was leveraged to create the new website. The accelerator consists of dozens of Experience Manager components that CDW•G has invested in developing, based on

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

common client use cases. The use of the accelerator lowered overall development complexity and effort, leading to a reduction in total implementation costs.

- **Forms search engine:** CDW•G created a forms search engine, allowing users to search for forms appropriate for their needs. Content authors can embed references to forms in searchable content, allowing forms to be more easily found than ever before. The forms search engine makes it simple for the customer to update form data in one place and reflect those form updates sitewide.
- **Analytics**: Adobe Analytics was configured with Experience Manager using Adobe Launch. CDW•G created an Analytics data layer to capture user behavior based on the customer's requirements.
- **Content author enablement and author guide**: CDW•G created an author guide, giving authors a place to find answers to their content questions, as well as a basis for how to create a page and which templates to use.
- **Strategic consulting advice:** Throughout the project, CDW•G provided strategic consulting advice with respect to Adobe product features and best practices, becoming a trusted advisor to the State's stakeholders. Our consulting and relationship with the customer were key to the project's success.

Outcome

This customer launched a newly redesigned public website and its ever-expanding capabilities through the MyCase portal. For the citizens of this state, locating and accessing information and tools is easier than ever. Whether at home or on the go, users can journey through the website, find the correct resources, and navigate complex forms. CDW•G worked closely with the customer to redesign and migrate its public-facing site to Adobe Experience Manager Cloud Service. The Adobe platform gives the customer the ability to easily maintain existing content, streamline new content creation, and continuously improve the user experience by removing friction points in the user's journey.

Analysis Services

Analysis is an integral component of the design, orchestrate, and manage phases of our lifecycle of services. CDW•G possesses the most comprehensive and powerful analytical tools, enabling us to understand your current environment. Additionally, we offer a comprehensive set of analysis and assessment services that include, but are not limited to, the following:

CDW Infrastructure Assessments

SD-WAN Assessment

We provide an In-depth review of the SD-WAN edge devices, architecture, and configurations to provide recommendations on how to improve the implementation. The assessment typically consists of a review of the management console, hardware, scalability, features, software version, internet design, routing configuration, policies, security, WAN optimization, SaaS on Ramp, and integrations.

Wireless Assessment

We consult with the City of Mesa and OMNIA Partners Participating Public Agencies to understand the current state of the wireless infrastructure and your desired business outcomes. We conduct an in-depth review and document the current environment with

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

an inventory list, and then provide recommendations that meet your requirements and allow you to achieve your desired outcomes.

Network Health Check

This health check includes elements like tools deployed to discover network devices, End of Life (EOL) or End of Sale (EOS), and software security report, device software code recommendations, and a summary report.

Network Assessment

Our Network Assessment includes all of the elements of the Network Health Check, but is more feature-rich in its diagnostic capabilities.

Next Generation Network Assessment

Our Next Generation Network Assessment delivers our most comprehensive diagnostics. It includes more future-state planning artifacts, such as a roadmap tailored to the City of Mesa and OMNIA Partners Participating Public Agencies needs that outlines recommended steps for improving future-state performance and security.

Quality of Service Assessment

An in-depth review of each device's Classification and Marking, Queuing and Shaping, Service Provider mapping and translation, and WAN VPN.

Multicast Assessment

An in-depth review of each device's L2/L3 Multicast configuration.

DV Technical Readiness Assessments

Digital Velocity (DV) Technical Readiness Assessments are designed to benchmark current architecture, processes and practices, and the City of Mesa and OMNIA Partners Participating Public Agencies' maturity level with the goal of uncovering, at a high level, the fastest and most impactful path toward your desired future state. Assessments are available for the following focus areas: Cloud, Modern DC, Migration, Database Migration, Application Modernization, DevOps, and Data Modernization.

Hybrid Infrastructure Assessment

Our Hybrid Infrastructure Assessment Team (HIAT) has several data center use cases and scenarios to provide capacity and planning advice in tandem with CDW•G solution architects, including:

- **Environment Overview**: CDW•G's HIAT provides a detailed report of a customer's current virtualization environment.
- VMware End of Support: CDW•G and the HIAT perform a licensing and hardware compliance checkpoint for VMware Virtualization.
- **Platform Migration**: A CDW•G Solution Architect works with the HIAT to project capacity for new compute platforms for a specific environment, whether on-premises or in the cloud.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- **Consolidation:** A CDW•G Solution Architect in tandem with the HIAT can project the capacities needed to consolidate hardware or geographic locations.
- **Disaster Recovery (DR):** A CDW•G Solution Architect in tandem with the HIAT will provide the City of Mesa and OMNIA Partners Participating Public Agencies an overview of DR planning, best practices, and additional services available to assist in this critical business function.
- **Hardware Refresh**: A CDW•G Solution Architect , in tandem with the HIAT, helps the customer analyze and plan for proper lifecycle management of the data center infrastructure.

While valued at $5,000, this assessment is provided as a no-cost value add to the City of Mesa and OMNIA Partners Participating Public Agencies.

CDW Well-Architected Review for AWS

A CDW•G field solution architect utilizes the AWS Well-Architected tool to walk the customer through the questionnaire and then reviews the output, specifically identifying any high-risk issues with the City of Mesa and OMNIA Partners Participating Public Agencies.

While valued at $5,000, this assessment is provided as a no-cost value add to the City of Mesa and OMNIA Partners Participating Public Agencies.

CloudHealth: Rightsizing Existing AWS Environment Assessment

A CDW•G field solution architect enrolls the City of Mesa and OMNIA Partners Participating Public Agencies for a no-cost trial with CloudHealth and, after two-week lead time, they outline what the tool has identified for you.

While valued at $2,500, this assessment is provided as a no-cost value add to the City of Mesa and OMNIA Partners Participating Public Agencies.

Power and Cooling Assessment

CDW•G's Power and Cooling team performs an analysis of the City of Mesa and OMNIA Partners Participating Public Agencies current environment.

While valued at $2,500, this assessment is provided as a no-cost value add to the City of Mesa and OMNIA Partners Participating Public Agencies.

CDW Storage Assessment Workshop

An analysis of the City of Mesa and OMNIA Partners Participating Public Agencies' data center storage environment, including object, file, block, cloud-based strategies, DC performance, capacity, and end-of-support planning.

VMware NSX POC Assessment Workshop

This data center assessment considers and deploys a proof of concept for the City of Mesa and OMNIA Partners Participating Public Agencies on how micro-segmentation using the NSX platform can benefit your operations.

Nutanix Configuration Assessment

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Assess and summarize the Nutanix environment in terms of its current health and architecture, with a focus on technical aspects of performance, manageability, and scalability of this environment.
Veeam Availability Assessment An analysis of Veeam's availability suite, including data protection and recovery strategies. It also covers design, performance, capacity, end-of-support planning, and a brief overview of disaster recovery.
CDW Automation and Orchestration Assessment Workshop A process optimization and tool selection guidance workshop for Assessment and Orchestration with the outcome being a collection of highly-detailed user stories for Infrastructure-as-a-Service (IaaS) and Platform-as-a-Service (PaaS) process workflows, role definition recommendations, process optimization options, and recommended toolsets.
CDW Data Center Assessment An assessment of the City of Mesa and OMNIA Partners Participating Public Agencies' data center infrastructure, including storage, compute, and virtualization.
Cisco Flexpod Assessment Workshop Review of Cisco Nexus switching, UCS configuration, storage and capacity, and VMware virtualization to align with best practices.
Cisco UCS Assessment An analysis of Cisco's UCS converged infrastructure environment, including performance, capacity, and end-of-support planning.
VMware vSphere Assessment A VMware infrastructure assessment of up to 30 ESXI hosts and one vCenter server designed to help the City of Mesa and OMNIA Partners Participating Public Agencies understand the overall health and software status of your VMware ESX/ESXI and vCenter systems, including performance, capacity, and end-of-support planning.
CDW Security Assessments
Cloud Security Assessment Identify gaps in security posture and create an actionable roadmap for remediation, examining all major CSPs (AWS, Azure, GCP) and multicloud environments.
Application Security Assessment Assess application security by having a team of CDW•G security engineers attempt to break into an application used by the City of Mesa and OMNIA Partners Participating Public Agencies, whether it be an off-the-shelf product or one developed by your team.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Application Architecture Review

Identify potential concerns within an application by examining the architecture and the data flow, finding vulnerabilities, and providing detailed recommendations for improvement.

SDLC/DevOps Review

Review and improve the secure Software Development Life Cycle (SDLC) program by focusing on the use of key application security solutions, including Dynamic Application Security Testing, (DAST), Static Application Security Testing (SAST), Interactive Application Security Testing (IAST), and Software Composition Analysis (SCA).

Data Protection Modernization Assessment

Evaluate the entirety of the data protection ecosystem to ensure the City of Mesa and OMNIA Partners Participating Public Agencies' recoverability. This assessment leverages a proprietary Data Protection ScoreCard (as well as stakeholder interviews and analytics tools) to provide a report comparing the existing environment to that of the new modernized environment.

Database Security Assessment

Assess database risk by evaluating the susceptibility of the City of Mesa and OMNIA Partners Participating Public Agencies' database to a host of known vulnerabilities and common attack scenarios.

Rapid IAM Assessments

Assess the City of Mesa and OMNIA Partners Participating Public Agencies' current Identity and Access Management (IAM) program and its ability to defend against a wide variety of threats. This assessment aligns with ISACA's IT Assurance Framework (ITAF), COBIT 5.0, ISO 27001/27002, ITIL v3, or the NIST standards.

IAM Strategy Assessment

Use business and security objectives to plot the course for an IAM program over a three- or five-year horizon, including new tool deployments, integrations, functionality improvements, and business justifications.

User Access/Privileged Access Reviews

Get a system-agnostic view of the organization's user processes and roles, and identify opportunities to convert manual processes into automated workflows.

Identity Exposure Assessment

Leverage a Zero Trust view to assess the CISA pillars of Identity and Device. The assessment closely aligns with the NIST Zero Trust Architecture and CISA Zero Trust Maturity Model, evaluating user and device identity management across on-premises and cloud environments for alignment with Zero Trust best practices.

Cybersecurity Maturity Assessment

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Leverage an established capability maturity model (CMM) to objectively evaluate the City of Mesa and OMNIA Partners Participating Public Agencies' current security program and provide realistic maturity rankings across industry standards and frameworks, including the NIST CSF, NIST 800-53, CIS Top 20, and PCI DSS.
SAP Role Design Assessment Assess Systems Applications and Products (SAP) Production environment, reviewing role design approach, role naming conventions, organizational-level security, unassigned roles, maintenance access, end-user profile assignment, and access to sensitive IT authorizations. Provide recommendations for role remediation and optimization.
SAP GRC Access Control Configuration Assessment Assess the SAP Governance, Risk, and Compliance (GRC) Access Control (AC) environment to evaluate process documentation, configuration settings, firefighter workflow setup, firefighter log report analysis, and risk ruleset customization analysis. Provide recommendations for improvement and a prioritized list of automation opportunities.
SAP User Provisioning and Role Change Management Process Assessment Review all provided documentation regarding policies and procedures to develop process maps for common SAP Security activities. Deliver detailed process flows for in-scope processes and recommendations for improvement and automation.
FTC Assessment Assess compliance by following a five-phase methodology for organizations faced with consent orders from the Federal Trade Commission (FTC).
PCI Assessment (Audit) Assess alignment of current practices with Payment Card Industry Data Security Standard (PCI DSS) requirements to determine compliance, issuing a Report on Compliance (Roc) or Attestation of Compliance (AoC) if appropriate. CDW•G also provides readiness assessments, scoping assistance, and Self-Assessment Questionnaire support, as needed.
Privacy Maturity Assessment (GAPP/NIST Privacy) Evaluate the City of Mesa and OMNIA Partners Participating Public Agencies' privacy program to benchmark policies, processes, and technologies against leading privacy standards, including the NIST Privacy Framework, Generally Accepted Privacy Principles (GAPP), and HIPAD35A Breach Notification requirements.
Third-Party Risk Assessments Assess the City of Mesa and OMNIA Partners Participating Public Agencies' third parties in support of enterprise-wide third-party risk management programs. These assessments be provided in a managed service format or in bundles/bulk assessments.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Privacy Compliance Assessments (HIPAA/CCPA/CPRA/GDPR/PIPL/GLBA) Measure readiness and/or compliance with all major data protection regulations, including HIPAA, CCPA/CPRA, GDPR, PIPL, and GLBA. These assessments harmonize regulatory frameworks to save costs and improve efficiency.
IT Risk Assessment Assess IT environment or specific systems to determine if existing IT policies, procedures, infrastructure, applications and security posture are aligned with the City of Mesa and OMNIA Partners Participating Public Agencies' short-term and long-term business objectives.
CMMC Pre-Assessment Evaluate the current environment against the Cybersecurity Maturity Model Certification (CCMC) framework to identify gaps and develop a mitigation strategy before the certification assessment to help shorten the time to certification.
Zero Trust Assessment Build a strategic roadmap to Zero Trust maturity through our three-phase assessment, which aligns with NIST SP 800-207 guidelines and the Cybersecurity and Infrastructure Security Agency (CISA) Zero Trust Maturity Model.
Security Operations Assessment Benchmark the Security Operations Center (SOC) against CDW•G's best practices program, peer organizations, or historic organizational performance levels.
DDOS Resiliency Assessment Evaluate the City of Mesa and OMNIA Partners Participating Public Agencies' ability to maintain business continuity and continue critical operations in the face of a Distributed Denial-of-Service (DDoS) Attack.
IoT Device Assessment Provide visibility into and control over the IoT devices on the network, improving the City of Mesa and OMNIA Partners Participating Public Agencies' ability to respond to issues and threats.
Cyber Workforce Assessment Assess the suitability of the cyber workforce to defend the organization by evaluating roles and responsibilities, governance, and the knowledge, skills, and abilities of the individuals.
Web App Penetration Testing Identify and test the full attack surface of the provided application to achieve a full-breadth test of all user-facing functionality.
IR Readiness Assessment

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Assess the City of Mesa and OMNIA Partners Participating Public Agencies' ability to respond to threats from inside and outside of the network perimeter. CDW•G can also help with Incident Response (IR) Program Development and IR Tabletop Exercises.
ASV Scanning Scans all Internet-facing systems that store, process, transmit, or impact the security of cardholder data (CHD) to adhere to the requirements of the current version of the PCI Data Security Standard.
External Penetration Testing Identify and test the full external attack surface of the City of Mesa and OMNIA Partners Participating Public Agencies to achieve a full-breadth test of all available services exposed to the public internet.
Internal Penetration Testing Identify and test the full internal attack surface of the City of Mesa and OMNIA Partners Participating Public Agencies to increase your overall security posture by identifying the maximum number of lateral footholds on a network that should be remediated.
Mobile Penetration Testing Identify and test the full attack surface of the provided application to discover vulnerabilities in several areas, including implementation and platform usage, storage and transmission of sensitive data, and communication with external resources such as API endpoints.
Physical Social Engineering Evaluate the City of Mesa and OMNIA Partners Participating Public Agencies' ability to prevent and react to a targeted, non-destructive physical intrusion. This engagement includes both surreptitious and overt contact with the target facility, including masquerading as legitimate occupants or authorized third parties.
Social Engineering Evaluate your ability to prevent and react to a targeted attack as well as the effectiveness of security awareness training provided to users. Can use Phishing (email-based simulations) and/or Vishing (telephone-based simulations) methods.
Vulnerability Assessment Evaluate current IT systems to determine and categorize present vulnerabilities by classifying and ranking vulnerabilities. Provides a customized report with cost-effective, concise recommendations to tackle specific security problems or threats.
Wireless Penetration Testing Assess the organization's wireless attack surface by identifying corporate-sanctioned wireless assets and evaluating their respective security policies. Subjects all networks to active exploitation with the intent of accessing internal corporate resources.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Compromise Assessment Leverage many of the same tools and tactics as attackers to conduct active threat hunting and develop indicators of compromise based on the recognized MITRE ATT&CK framework.
Secure Endpoint Health Check This health check validates the status of a microservice and its dependencies.
Red Teaming Services Assess the detection and response capabilities of an organization's Blue Team (defensive security professionals) in the event of a targeted attack. Attempt to gain access to the internal network through various attack vectors while subverting the organization's defenses.
Purple Teaming Services In our Purple Teaming Services, our CDW Red Team (offensive security professionals) pairs with the City of Mesa and OMNIA Partners Participating Public Agencies' IT security personnel (i.e., Blue Team) during simulations of specific attack scenarios to improve defenses and incident response procedures throughout the engagement.
Segmentation Validation Evaluate the effectiveness of any network segmentation controls used to reduce PCI DSS scope by attempting to connect to and access the cardholder data environment (CDE) from internal network segments intended to be out-of-scope for PCI DSS compliance.
Cisco Umbrella Health Check Review the Umbrella dashboard must-haves and help the City of Mesa and OMNIA Partners Participating Public Agencies identify common issues and how to maximize their protection.
Cisco Email Security Appliance (ESA) Health Check Evaluate the status of a customer's Email Security Appliance, configuration, and lifecycle with industry-standard recommendations.
Cisco Web Security Appliance (WSA) Health Check Evaluate the status of the City of Mesa and OMNIA Partners Participating Public Agencies' Cisco Web Security Appliance, configuration, and lifecycle health with industry-standard recommendations.
Cisco Identity Services Engine (ISE) Health Check Evaluate the Cisco Identity Services Engine with a system engineer focused on ISE best practices.
Cisco Firepower Threat Defense Health Check

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Analyze Cisco firepower configuration and posture as it relates to the City of Mesa and OMNIA Partner's security needs.
Cisco Secure Network Analytics Health Check Evaluate the Cisco Secure Network Analytics configuration and its ability to provide comprehensive visibility and network traffic analysis.
Microsoft Active Directory (AD) and Hybrid Identity Assessment Evaluate the state of the entire AD infrastructure, including services configuration, directory health, management processes and compliance.
Microsoft Active Directory Domain Services Health Check Conduct a health check on Active Directory (AD) domain configuration, looking for misconfiguration and industry-standard security vulnerabilities in the AD setup.
Microsoft 365 Security Assessment Analyze your Microsoft 365 environment to ensure it is configured and secured based on your unique needs.
Microsoft Public Key Infrastructure (PKI) Health Check Analyze the City of Mesa and OMNIA Partners Participating Public Agencies' design and configuration of your public security keys and provide recommendations to create a go-forward strategy.
Microsoft Security Threat Assessment Analyze the City of Mesa and OMNIA Partners Participating Public Agencies' security posture as well as the tools and solutions used. Includes recommendations on a go-forward security strategy.
Palo Alto Networks Health Check Analyze the health and posture of the City of Mesa and OMNIA Partners Participating Public Agencies' Palo Alto Networks environment as it relates to your security needs.
Splunk System Health Check Evaluate the City of Mesa and OMNIA Partners Participating Public Agencies' deployment health through license usage, resource usage, server status, and usage patterns.
Splunk Data Optimization Assessment Review current Splunk procedures, processes, and data sources for performance, capacity, configuration, and other indicators to identify any critical gaps and optimization targets. Provide recommendations on architecture and deployment.
CDW Workspace Assessments

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Collaboration Architecture Advisory

CDW•G engineers will review your Cisco Collaboration environment for pain points and best practices while also analyzing the opportunities to leverage the latest advancements in Cisco Webex cloud collaboration technology. The engineer will prepare a report with the findings of the analysis as well as provide a high-level roadmap of recommendations so the City of Mesa and OMNIA Partners Participating Public Agencies get the most from their Cisco Collaboration investment.

Emergency Calling Assessment

Our highly qualified engineers evaluate the City of Mesa and OMNIA Partners Participating Public Agencies' current collaboration environment for Emergency Calling best practices, including company policies, emergency response locations, remote and mobile users, notification alerts, and address delivery. The engineer prepares a report with the findings and provides the City of Mesa and OMNIA Partners Participating Public Agencies with a high-level roadmap of recommendations to limit your liability, ensure your users are able to reach emergency services quickly, and give you the best chance to receive help at the right location.

Customer Engagement Center Cisco UCCE Health Assessment

CDW•G engineers review the City of Mesa and OMNIA Partners Participating Public Agencies' Cisco Contact Center Enterprise environment for pain points and best practices. The engineer prepares a report with the findings of the analysis as well as provides a high-level remediation plan to address any issues found.

Customer Engagement Center Business Analysis

CDW•G business analysts meet with the City of Mesa and OMNIA Partners Participating Public Agencies' contact center teams to understand pain points and goals. The analyst looks for opportunities for improvement in handling, efficiencies, and opportunities to apply best practices. The consultant prepares a report with the findings of the analysis and provides the City of Mesa and OMNIA Partners Participating Public Agencies' with a high-level remediation plan to address any issues found.

Microsoft 365 Best Practice Assessment Workshop

The Microsoft Office 365 Best Practice Assessment helps the City of Mesa and OMNIA Partners Participating Public Agencies' validate your existing Microsoft Office 365 design (e.g. Exchange Online) and validates it is configured according to best practices.

Microsoft 365 Governance Assessment Workshop

Provides review and recommendations concerning the City of Mesa and OMNIA Partners Participating Public Agencies' Office 365 governance models and/or policies.

Microsoft 365 Network Performance Assessment Workshop

Provides review and assessment of up to four workstations in (up to) four physically separate network sites. It evaluates the workstations' abilities to successfully access Office 365 services quickly.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

SharePoint 2010-2019 Assessment Bundle

Our SharePoint Migration Assessment leverages a proprietary tool developed by CDW SharePoint Specialists to scan the contents of your SharePoint Farm and help identify features and content that will impact your transition to another SharePoint service level/version. The Assessment Bundle includes the initial setup and run of the tool, in addition to a full assessment of a single SharePoint Farm.

CDW Microsoft Teams Assessment and Jumpstart

This Microsoft Teams solution includes basic planning, design, adoption, and pilot migration. This project is a week-long engagement that allows the City of Mesa and OMNIA Partners Participating Public Agencies to utilize Teams in your production environment with adoption advice and content.

Microsoft 365 CISO Security Workshop

The Microsoft 365 CISO Security Workshop allows CDW•G to learn about the City of Mesa and OMNIA Partners Participating Public Agencies' unique needs and develop a strategic plan based on approaches recommended by Microsoft experts. The workshop covers both product and solution best practices and configuration recommendations around the security features of Microsoft 365.

Microsoft 365 CISO Security Workshop with Sentinel

The Microsoft 365 CISO Security Workshop with Sentinel allows CDW•G to learn about the City of Mesa and OMNIA Partners Participating Public Agencies' needs and develop a strategic plan based on approaches recommended by Microsoft experts. The workshop covers product and solution best practices and configuration recommendations around the security features of Microsoft 365 and Sentinel.

Microsoft 365 Security Device Protection

As more and more users become mobile and are using a wider variety of devices, applications and documents need to keep up. How does the City of Mesa and OMNIA Partners Participating Public Agencies' manage these devices while providing secure and reliable access to applications and data? Microsoft 365 helps provide easy, secure access to any device, no matter where someone might be. Device Protection will include the steps necessary to understand your requirements and develop the deployment plan just for you.

Microsoft 365 Security Identity Protection

Microsoft 365 provides numerous tools to provide additional layers of security and also has tools to identify and protect access in real-time. Our Microsoft 365 Security Identity Protection Assessment Workshop includes the steps necessary to understand your requirements and develop the deployment plan just for you.

Microsoft 365 Security Information Protection

This engagement provides the best practices on how to configure the products to achieve the City of Mesa and OMNIA Partners Participating Public Agencies' goals. This will provide

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

a functional roadmap to ensure security and compliance is built into the Office 365, Windows 11 and EMS solution.
Microsoft Enterprise Mobility + Security This engagement reviews the City of Mesa and OMNIA Partners Participating Public Agencies' current environment to identify issues and usage of features. We review a single EMS subscription, including all the cloud components, Microsoft Entra ID P1/P2, Intune, Azure Information Protection, Azure Rights Management Service, Azure Advanced Threat Protection, and Cloud App Security. The results of the review provide recommendations to address issues and a roadmap for adoption of additional components.
Assessment of Workspace ONE This engagement provides an in-depth discovery of the City of Mesa and OMNIA Partners Participating Public Agencies' Workspace ONE environment to ensure all management utilities are being used properly and that you are taking advantage of to get the best experience for your users and IT.
Health Check for Jamf Pro This engagement helps ensure you are managing your Apple devices properly through the mobile management utility Jamf Pro based on the City of Mesa and OMNIA Partners Participating Public Agencies' environmental needs.

Configuration Services

The City of Mesa and OMNIA Partners Participating Public Agencies Participating Public Agencies can rely on CDW•G to preconfigure their technology solutions and provide custom turnkey solutions for plug-and-play deployment. We offer a wide array of services to address the various tasks involved in configuration projects, including hardware and software installation and configuration, testing, imaging, domain integration, branding, labeling, asset management, delivery & distribution. Our Configuration Centers roll out 2.6 million products every year - more than 10,000 custom units a day.

The benefits of our configuration services are as follows:

- Lower configuration, integration, and overall deployment expense
- Reduce risk and time to deploy
- Improve delivery, distribution, and tracking of assets
- Complete projects on schedule
- Free IT staff and resources to work on higher-level projects

Our Configuration Team can provide many services, including:

- **Hardware Integration:** Hardware integration services include installation of memory, hard drives, NIC cards, video cards, and a variety of other components.
- **Software Configuration:** When it comes to software, your computers, mobile devices and servers will come with OSs and apps pre-installed. We offer White Glove Service to prep and provision Chromebooks.
- **Custom Imaging:** Including image creation, maintenance, and deployment, we can host a secondary server to connect to your SCCM or other image deployment server via

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

VPN. Customizable options include pre- and post-imaging tasks like domain join and security upgrades.

- **Rack Configuration:** We mount and configure your network and security devices, rack-mount servers, chassis blade servers, storage, KVMs, UPSs, and PDUs into a rack structure, then cable and label before shipping.
- **Mobility Services:** We configure and activate your tablets, phones, handhelds, and Wi-Fi hotspots. Additionally, services that include MDM enrollment, App installations, IOS and Android updates are also available.
- **Custom Laser Engraving:** Your logos and other important information can be engraved onto notebooks, mobile devices, and other equipment. We can laser engrave static content and/ or one field of dynamic content, such as the device serial number.
- **Asset Tagging and Reporting:** You have the option to use CDW•G-branded labels, customer-provided labels, or our team can build custom labels that we print on-demand, including UID/IUID identification labels for US Government applications. Extensive information on your devices is available via the Order Reporting and Hardware Asset Management functions on your CDW•G Account Center.
- **Network and Security Device Configuration:** We configure firewalls, routers, switches, access points, and IP phones for all the largest manufacturers. These services include system software/firmware upgrade or downgrade, uploading master configuration files, and configuration of IP address, subnet mask, and default gateway. All customization is based on the City of Mesa and OMNIA Partners Participating Public Agencies' unique specifications.
- **Burn-in Services:** We run your devices for 12 hours or more to ensure all components are working properly. This includes running a diagnostic program (where applicable) to test basic functionality. This service is designed to reduce the number of items that fail after a short period of use.
- **Software and Imaging:** We have a team of engineers, technicians, and team leaders trained to work on image and software deployments. Customer-specific deployment instructions are strictly followed to ensure your devices are imaged and configured your way.
- **Custom Packaging:** This includes kitting, palletization, inserts and welcome letters, and box labeling.
- **Buy and Hold Services:** This allows you to purchase products and have them held in a secure location anywhere from three months up to a year. CDW•G handles the configurations, customizations, logistics, and shipping requirements to ensure your pre-defined deployment schedule is met.

Configuration Quality Assurance

Either our own best practices or your specific deployment instructions are strictly followed to ensure devices are configured to meet each customer's requirements. The City of Mesa and OMNIA Partners Participating Public Agencies can provide a custom checklist to CDW•G for additional verification and testing.

All Configuration Center workers are trained on CDW's best practice quality assurance procedures that include a comprehensive check of each system we touch. First, we verify the compatibility of all components to be installed. Second, we verify that each component is installed properly, and the hardware installation is complete. Finally, we ensure that all hardware and software are functioning according to manufacturer specifications. Each step is completed by a qualified technician and verified by a Quality Control (QC) technician. CDW is ISO 9001:2008 compliant and the names of the primary technician and QC technician are recorded

for all orders. All team members are held accountable for adhering to our quality assurance procedures. If any issues are encountered, CDW•G will contact you immediately to resolve the issue.

Any defective or damaged devices that are discovered during the configuration or warehousing process will be removed from stock and replaced with new, functional devices. The damaged or defective devices will be returned to the manufacturer on CDW's behalf. This process will not require the customer's involvement and should happen transparently to the customer.

Implementation Services

Our expert engineers configure and deploy your solutions to help you implement technology according to the City of Mesa and OMNIA Partners Participating Public Agencies' unique needs and ensure it works from day one. We can build, create, and analyze software or services, as well as test and release into a defined environment and implement changes outlined in the design phase. We implement technology adoption and organizational change management plans to ensure you're fully utilizing your technology solutions and deriving the value you expect.

Any successful implementation requires careful attention to the management of the scope, people, and process of each project. Through our experience with numerous complex projects, CDW•G has refined an implementation methodology that uses project management best practices combined with real-world lessons learned. Our methodology has resulted in a standard for how we choose the people we hire, the way we structure our project teams, and the project milestones we set for customer acceptance.

We believe effective project management requires careful attention to the following plan elements and an appropriate level of communication between project participants. Our project plan includes the following components:

- Scope of Work
- Project Schedule
- Communication Plan
- Statement of Work
- Risk Management Process
- Change Management Process
- Issue Management Process
- Assumptions
- Deliverable Management
- Customer Responsibilities
- Partner Management
- Project Acceptance
- Contract

The graphic below provides additional insight into our comprehensive methodology.

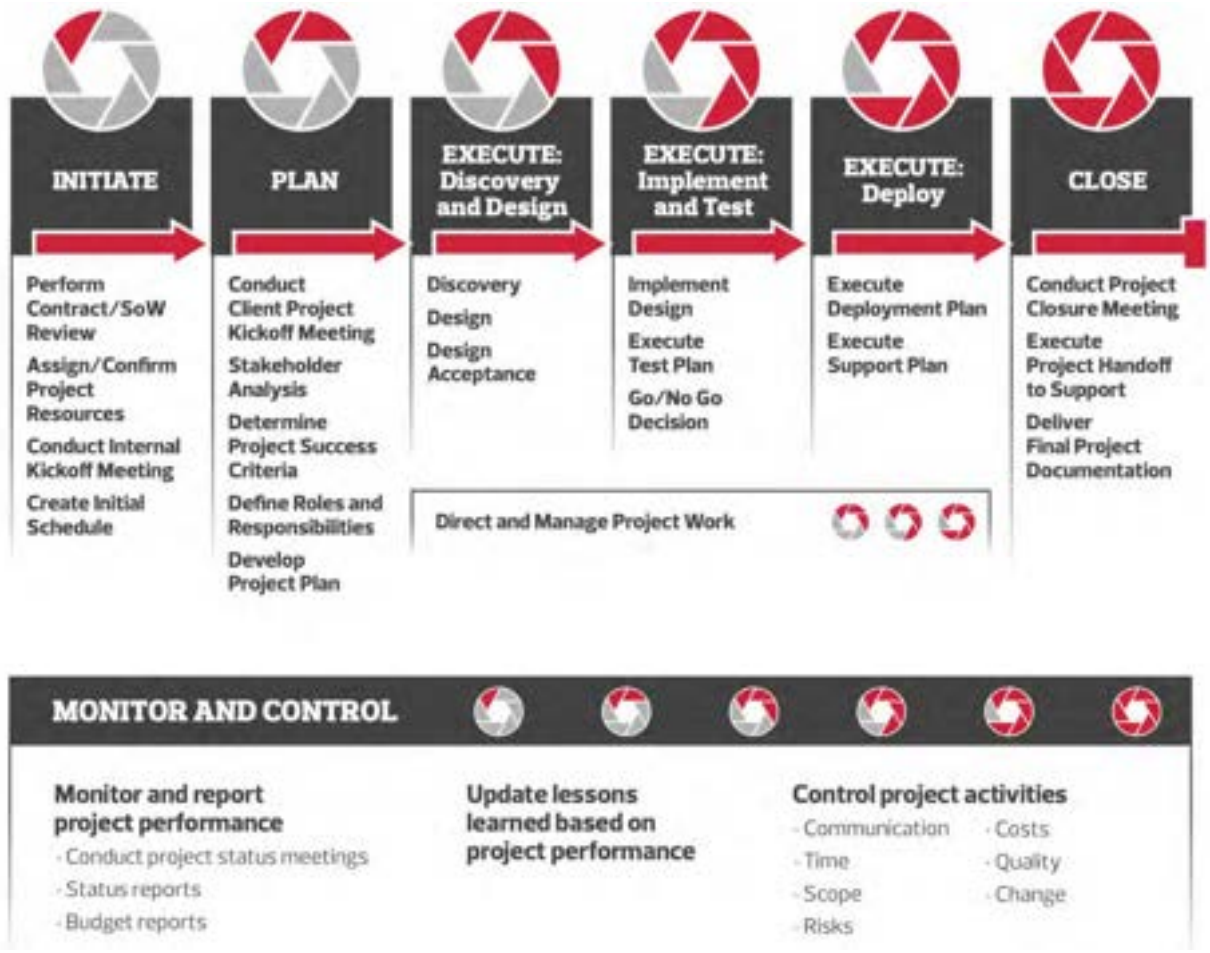

Figure 8. CDW•G's Comprehensive Project Management Methodology

Installation Services

CDW•G installs hardware, software, peripherals, and more. We offer a wide array of services to address the various tasks involved in configuration projects, including hardware and software installation and configuration, domain integration, branding, labeling, asset management, delivery, and distribution.

Our installation services include, but are not limited to, the following:

Computing Installation

Our installation services can help take the burden off your busy IT staff. We can help install and deploy new desktops, notebooks, and printers quickly and easily. We also assist with de-installation and moving of existing equipment, configuration services, and basic IT staff training (if needed) to ensure a custom solution that fits your environment.

Data Center Installation

We can help you optimize your data center with implementation services around your server, storage, power, and cooling technologies.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Network Installation

Whether it be WAN or LAN, wired or wireless, we are ready to help you implement new network technology smoothly and efficiently.

Security Installation

In addition to offering a comprehensive security assessment, our security specialists can help ensure that your security solution is properly designed and implemented.

Interactive Whiteboard and Flat Panel Installation

Need to update a classroom or conference room with interactive whiteboards or flat panels? We offer manufacturer-certified specialists who can perform site-specific installation at your organization or institution.

Training Services

Our training sessions and programs align the training needs of your workforce with the goals of your technology projects, ensuring that teams across the City of Mesa and OMNIA Partners Participating Public Agencies' have the skills they need to support and optimize your tech stack long-term.

Product Training

CDW•G leverages our top partnership levels with the industry-leading OEMs on behalf of the City of Mesa and OMNIA Partners Participating Public Agencies. We work with you to host Technology Symposiums, which brings our best-of-breed partner network on-site to share key industry updates, product roadmaps, and technical deep dives. Our technical specialists, alongside OEMs will conduct product roadmap sessions, arrange demo loan products, and facilitate a combination of web and onsite training sessions.

CDW•G has two Technology Experience Centers (TEC) in the US that are fully functional data centers and networks, where the City of Mesa and OMNIA Partners Participating Public Agencies can experience technology in action — remotely or onsite.

These facilities offer onsite and remote demos of leading solutions and are managed by our Demo Lab team. These labs demonstrate how integrated solutions work in a real-world environment and help the City of Mesa and OMNIA Partners Participating Public Agencies determine which solutions best meet their needs. Demonstrations allow our customers to:

- See the newest technologies built as integrated solutions
- Host static demos that offer insight on how technologies work
- Help customers compare alternative solutions side by side
- Explore how the latest innovations can help customers achieve their goals

The City of Mesa and OMNIA Partners Participating Public Agencies can work with your dedicated CDW•G Account Managers to arrange a virtual or in-person visit to our Technology Experience Center. CDW•G will work to make as much training as possible through the above options.

Additionally, on any Professional Services engagements, knowledge transfer is part of our core methodology, ensuring that on-the-spot training is taking place and that IT staff knows how to manage and drive the new technology or environment upon our engineers' departure. CDW•G also offers a wide array of in-depth training options and workshops, highlighted below.

Training Courses

We have experience in orchestrating IT projects and initiatives, from small and medium-sized businesses to enterprises. Combining our elite curriculum with the expertise and depth of our solutions and services gives the City of Mesa and OMNIA Partners Participating Public Agencies the skills you need to optimize your IT investments and achieve their most important outcomes.

Our courses meet the same standards for quality, interactivity, and alignment with today's biggest technology challenges. **Highlights** of our training courses include the following:

- Our courses are created and led by some of the world's best instructors, whose scores for delivery from students average 4.9 out of a possible 5.
- Each course is designed to maximize time spent in hands-on learning, including lab/range exercises and debriefs, tool walkthroughs, and case studies.
- Born out of some of the most demanding Security Operations Centers (SOC) in the world, our proprietary curriculum is uniquely sophisticated and pairs with vendor technology training to deliver a complete solution to your security and IT skills needs.
- Our training is developed in collaboration with industry leaders who share our commitment to thorough, leading-edge IT training. It's always up to date, with instructions specific to the latest versions of each tool.

Our courses are designed for virtual instruction, but they can also be taught live at your location. We'll tailor your workforce development program to meet the needs of each Participating Public Agency, wherever they are.

We offer courses and bundles to support virtually any project you may be initiating.

Please see our full course catalog in Tab D, Exhibit 4. Additional courses and workshops include, but are not limited to, the following:

CDW OS ITSM Simulation/Executive Visioning Workshop

By participating in our IT Service Management (ITSM) business simulation workshop, the City of Mesa and OMNIA Partners Participating Public Agencies can learn how to increase the business impact of their internal service provision. This hands-on, highly interactive IT/Business workshop is designed to educate the City of Mesa and OMNIA Partners Participating Public Agencies' leadership and stakeholders in the business structure of process with technology.

Participants are given roles in a sub-optimal business unit in which they have to respond to real, everyday challenges and transform processes and underlying technology that meet the needs of the business. Results improve as each round concludes.

Benefits of this workshop include the following:

- Identify in real time how political, business, process, and technology issues intermingle and affect overall business results.
- Directly experience the increased efficiency yielded by process improvement.
- Achieve better alignment between leadership and staff as it relates to both process and internal cooperation.
- Learn to work better together as a team so that projects succeed.

CDW OS ITIL Training: One-Day Awareness/Three-Day Foundation

Our approach takes you on a journey through the five stages of the ITIL service lifecycle and helps the City of Mesa and OMNIA Partners Participating Public Agencies adopt best-practice

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

processes used by leading organizations worldwide with tremendous positive impact. Whether you need full training and certification for key members or simply an executive overview for greater awareness and adoption, we've got you covered.

Our One-Day Awareness workshop educates and informs leadership by using case studies from organizations around the globe that have successfully implemented ITIL. We take a high-level, results-oriented approach to the People, Process, and Platform elements of the service improvement in order to convey:

- Key concepts of ITIL
- Practical guidance for applying ITIL to everyday IT situations
- How to align with business, control costs, and improve IT service quality
- Strategies to balance IT resources with business needs and objectives
- The role of technology and how to maximize its value

Our Three-Day Foundation course covers all material specified in the ITIL Foundation certificate and prepares attendees to successfully achieve their Foundation certification. We infuse real-world examples throughout and discuss overcoming the practical challenges and barriers to implementing process improvement. All of our instructors are ITIL experts and have years of hands-on IT practitioner experience, enabling them to effectively intertwine theory and real-life stories and scenarios.

CDW OS Process Alignment Workshop

Process improvement consulting is critical for state agencies striving to advance their process maturity in order to improve IT service delivery responsiveness, maintain consistent levels of service, and increase customer satisfaction.

Led by our Advisory Consultants, this half- or full-day Process Alignment Workshop is grounded in ITIL and industry best practices. Instead of reinventing the wheel, we'll focus on new processes that are in-scope for a project, aligning with existing processes in order to work together at all levels.

IoT Transformation Workshop

Our Internet of Things (IoT) Transformation Workshop is designed to help the City of Mesa and OMNIA Partners Participating Public Agencies understand your data needs, determine return on investment (ROI), and evaluate their foundational infrastructure to determine if any technical components should be retired, evolved, or added before implementing an IoT technology initiative.

In the workshop, we will walk through five focus areas:

- **Business drivers:** We'll outline business drivers for IoT, starting with your key stakeholders, business processes, business systems, and linkage to company goals.
- **Data investigation:** We'll review the data that needs to be derived. What kind of data are you gathering? Can this data be used by other departments? Is it revenue-generating data that can be sold to your customers as a service? We'll help you review your data to determine how your business will benefit from the data discovered as part of this workshop.
- **System of systems:** Do you need to pull in third-party data for this solution? Examples may include data from The Weather Company (an IBM business), mapping software, or data from other external tools or systems.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- **Infrastructure readiness:** We'll determine if your infrastructure is adequate for the proposed IoT solution.
- **IoT technology:** You'll understand what related IoT technologies will need to be implemented for your new solution

CDW Information Security Cybersecurity Workshop

We offer half-day and full-day Cybersecurity Workshops for security leaders. We assemble our top experts in a range of domains — from compliance to data governance to zero trust to IAM and more — and spend dedicated time with your team to validate strategies, recommend best practices and align with organizational goals and expectations.

Our workshops are tailored to each state agency's needs and goals, with subject matter experts from a range of specialty areas. These sessions can be scheduled to kick off the beginning of a strategic planning cycle, to validate an existing plan or to "course correct" in the middle of execution. Each full-day or half-day workshop includes:

- **Expert Panel:** A grouping of experts, tailored to your desired topics of discussion. Workshops can be domain specific or can span the entirety of your cyber strategy.
- **Clear Recommendations:** Our workshops are designed to produce actionable guidance that makes a material improvement in your security program.
- **Fresh Insights:** Our experts are specialists in their fields, giving you the scoop on the newest technologies, best practices in the field and 12-18-month trend predictions.

CDW OS Organizational Change Management Planning Workshop

This three-day workshop teaches participants the Organizational Change Management (OCM) framework for managing the effect of change on an organization, including new business processes, changes in organizational structure, overcoming cultural hurdles within an organization and more. We accomplish this through an approach that is based on the five-step ADKAR framework in order to help you deal with the human-aspect of change management: Awareness, Desire, Knowledge, Action, and Reinforcement.

This workshop offers a myriad of valuable benefits aimed at enhancing your organizational prowess. Delving into the organizational history of the City of Mesa and OMNIA Partners, participants will gain a comprehensive understanding that serves as the foundation for crafting an effective communication and marketing plan, inclusive of targeted training initiatives. The workshop goes beyond theoretical concepts, providing practical insights into resistance management planning, a crucial skill set designed to preempt and navigate adoption challenges seamlessly. Additionally, our expert facilitators will guide participants in the formulation of a robust coaching plan, enabling them to identify and leverage strategic opportunities for optimal growth and development. In essence, this workshop is a holistic approach to empower your team with the knowledge and tools needed to propel your organization toward success.

PMO Assessment Workshop

Our DCT leads our Project Management Office (PMO) Assessment Workshop. This workshop is a high impact, comprehensive program to assess and improve Project Portfolio Management (PPM) practices over the course of 3-4 weeks. This comprehensive program consists of three survey domains: PPM current state, PPM satisfaction, and PPM assessment.

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

IT Practices Workshop

Led by our DCT team, the IT Practice Review workshop gives the City of Mesa and OMNIA Partners Participating Public Agencies visibility into how your organization operates. Through a holistic approach, we look beyond process documentation into how teams work together. Each Agency is unique, and how processes are designed and implemented can either work for or against business objectives. In 2 short weeks, agencies will have a high-level map of their strengths and weaknesses and a plan to ensure their processes propel them to reach their goals.

IT Resource Cost Benchmarking Workshop

It's simply good business to operate in a cost-efficient manner and continually look and plan for opportunities that will improve the bottom line. Led by our DCT team, our IT Resource Cost Benchmarking Workshop can help the City of Mesa and OMNIA Partners Participating Public Agencies identify and plan areas for cost optimization using data-based metrics and relevant industry comparisons to support best-case decisions. Whether each agency is anticipating a cost reduction mandate, focused on continuous improvement, or simply wants better insights into their IT cost structure, our cost benchmarking study will have you covered.

For more of our training offerings and workshops, our full training catalog is provided as Exhibit 4.

Maintenance Services

CDW•G offers various maintenance agreements to cover all types of vendors, products, and service levels. Our offered maintenance agreements give access to cover all vendors, products, and service levels with just one toll-free number. Types of available agreements include the following:

- **Coterminous Support Contracts.** A coterminous support contract can take the City of Mesa's existing manufacturer support plans and roll them together with one standard end date to eliminate the risk of a lapse in coverage.
- **Break/Fix Maintenance Agreement.** These annual maintenance agreements and contracts cover the repair or replacement of in- or out-of-warranty equipment.
- **Retainer Contracts.** Retainer contracts provide a designated block of time that guarantees the City of Mesa's access to field service and support staff, including system engineers, network technicians, PCs, and printer repair technicians, and more.

For a more comprehensive overview, please see "Repair" above.

Advisory Services

Please see "Consulting and Advising" above.

Managed and Support Services

CDW•G offers a wide variety of managed and support services. In June 2023, we ranked #10 out of 501 in the prestigious 2023 Channel Futures Managed Service Providers (MSP) 501 rankings; MSPs that qualify for the list must pass a rigorous review conducted by the research team and editors of Channel Futures. Applicants are ranked using a unique methodology that weighs financial performance according to long-term health and viability, commitment to recurring revenue, and operational efficiency.

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Our Managed Services offerings allow the City of Mesa and OMNIA Partners Participating Public Agencies to contract for support of your networks, systems, databases, and select applications. Our modular approach to IT management allows you to select services that best support your individual organization's goals and current capabilities.

We offer end-to-end solutions, including strategy development, technology selection, implementation, and operation. We offer multiple delivery models, including on-premises, off-premises, cloud, and as-a-Service models. Benefits of our Managed Services practice include the following:

- Establishing security posture
- Improving governance and overall operation
- Increasing availability and performance
- Making informed, strategic decisions based on data

Services include:

- Managed Infrastructure
- Managed Cloud Services
- Managed Security Services
- Managed Resiliency Services
- Managed Digital Experience

Managed Infrastructure Services

We offer ITIL-based monitoring and management services to help you manage your existing environments and focus on value-driving initiatives with Mainframe, IBM Power Systems, Converged and Hyperconverged Platforms, OS, Database, Storage, Network, Application Managed Services, and Service Management. Part of our Managed Infrastructure Services include, but are not limited to, the following:

Operating Systems, Applications, and Services

- Managed Patching as a Service
- Managed Mainframe Services
- Managed Mainframe Automation
- Managed Mainframe Monitoring

Data Center

- Managed Colocation Services
- Managed Storage Services
- Managed Backup and Restore Services
- Managed Server Virtualization Services
- Managed Database Services
- Managed Converged Infrastructure Services
- Managed Hyper-Converged Infrastructure Services

Network

- Managed Switching Services for OEMs such as Aruba, Cisco, Extreme, HPE, Juniper, and more.
- Managed Routing Services
- Managed Load Balancing Services
- Managed WAN Optimization Services
- Managed Wireless Networking Services

- Managed Policy and Access Services

Managed Cloud Services

We help make your cloud initiatives successful — from application through migration and management with Cloud Enablement Services, Managed Private Cloud, Managed Cloud – AWS, Azure, and Google Cloud Platform (GCP), Managed Security for AWS and Azure, Sirius Power Cloud, SIEM as a Service, Monitoring as a Service, Patching as a Service, Unified Communications as a Service and Backup as a Service.

CDW•G has a Government Cloud Managed Services Team that understands the unique challenges public agencies face with regard to managed cloud solutions because we understand that managing a complex and evolving cloud environment requires unique and specialized skills. When production and business-critical systems must remain online without disruption, we can keep your infrastructure operating optimally. Our Managed Services for Cloud are an integral component of the City of Mesa and OMNIA Partners Participating Public Agencies' end-to-end digital transformation.

With CDW•G's trio of cloud MSP certifications, we have the expertise and experience to support the City of Mesa and OMNIA Partners Participating Public Agencies across all major cloud platforms. With AWS MSP and Microsoft Azure MSP certifications already under our belt, we are now one of a select few providers in North America, and an elite group of providers globally, to hold all three major cloud MSP certifications. Whether Participating Public Agencies are looking to migrate to the cloud, optimize their existing cloud environments, or manage multiple cloud platforms, CDW•G has the capabilities, talent, and resources to help the City of Mesa and OMNIA Partners achieve your unique goals. An overview of our Cloud Managed Services offering is as follows:

- **Managed AWS Services:** Our comprehensive next-generation Managed Services for AWS is backed by more than 20 years of managed services support experience. Delivered through CDW's Enterprise Command Center and managed by AWS-certified architects, consultants, and engineers, the City of Mesa and OMNIA Partners can focus on proactive initiatives and outcomes, not technology management.
- **Managed GCP Services:** Our GCP-approved architects, consultants, and engineers provide the day-to-day management so you can harness the power of your technology instead of simply managing it. Our cloud experts work closely with our customers to guide them to an end-to-end cloud management strategy that brings clarity to the cloud.
- **Managed Azure Services:** As a CSP provider for Azure and a Gold Platform member of the Microsoft Partner Network, CDW assists customers with the adoption and implementation of Azure securely and efficiently. We have a long-standing, award-winning relationship with Microsoft that we extend to our clients.
- **Google Cloud Managed Service Provider (MSP) Initiative:** CDW has successfully completed the requirements to participate in the Google Cloud Managed Service Provider (MSP) Initiative, bringing new capabilities to CDW•G's services portfolio and turning it into a trifecta in cloud-managed services. Google Cloud's differentiators bring to CDW an opportunity to accelerate customers' interest in innovative Managed Security Plays and Generative AI ventures. To receive this Google recognition, CDW demonstrated through third-party expert-assessment deep knowledge of Google's technology stack; CDW proved experience and stability in long-term managed customers and showcased a sound practice of support operations with Google-certified individuals on-call.

Managed Security Services

Today's siloed security tools force analysts to pivot from console to console to piece together investigative clues, resulting in painfully slow investigations and missed attacks. Even though they've deployed countless tools, teams still lack the enterprise-wide visibility and deep analytics needed to find threats. Faced with a shortage of security professionals, the City of Mesa and OMNIA Partners IT Teams can leverage CDW•G to simplify security operations in a vastly changing security landscape. CDW's Managed Security Services bring mature processes and industry experts to support your security threat landscape.

The CDW Managed Security Services suite provides coverage for critical security tools and processes. The support model includes 24/7/365 support; this type of around-the-clock monitoring is essential for government entities like the City of Mesa and Participating Public Agencies that require vigilance and prompt response, all while complying with local regulations and standards. Our 24/7/365 model includes support for the following:

- Vulnerability Scanning Management
- Next-Generation Firewall
- Endpoint Protection
- Identity Access
- Security Incident Event Management
- Behavioral Analytics
- Security Orchestration Automation and Response

Our 24/7/365 Security Operations Centers stop threats with a cohesive, multifaceted approach designed to maximize return on investment by utilizing the top security tools in the industry, including, but not limited to, the following: Tenable, Palo Alto Networks, Cisco, Check Point, IBM, Exabeam, and CrowdStrike. Workflows are built on time-proven ITIL processes combined with top-tier commercially available tools to avoid vendor lock-in due to proprietary solutions.

To enhance deployed security tools, CDW•G uses threat intel feeds, proactive threat hunting, IOC research and investigation, automation, and machine learning. Your security landscape is supported by expert analysts with extensive experience and credentials. Our security team has 500+ security certifications and a team of 500+ experts. Some of our certifications include, but are not limited to, the following:

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Figure 9. Overview of Security Certifications

Managed Resiliency Services

We help maintain business continuity and recover critical applications and data with Managed Backup, Managed Disaster Recovery, and Managed High Availability.

Thoroughly protecting your organizational data from threats and recovering when needed can be complicated. With CDW Data Protection solutions, from industry-leading partners, defining data management capabilities throughout the data lifecycle — from creation to destruction — is easy, and provided as a fully managed service.

CDW can completely operationalize your data protection environment for one low monthly fee, with design, configuration, and implementation of your Rubrik environment according to your requirements. Deployment, monitoring, and full support of the environment, including the hardware and software, can all be done for a predictable monthly expense.

Managed Digital Experience

We help manage messaging, videoconferencing, voice, video, Unified Communications as a Service, SD-WAN, and business applications. We help provide a richer end-user experience by managing virtual workspaces such as virtual desktops and Citrix and the Microsoft Office 365 tools and orchestration.

Managed Services Levels

We provide three levels of managed services:

- Advanced Monitoring -- Bronze
  - Advanced Monitoring includes comprehensive monitoring and alerting for supported technologies. In addition to basic availability monitoring of devices and services, CDW also provides error/exception monitoring, threshold monitoring, and performance utilization monitoring. All monitoring data is available through a web-based reporting engine.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal (“RFP”) furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC (“CDW•G”).

- Proactive Maintenance – Silver
  - Proactive Maintenance includes patching services. CDW proactively monitors vendor patch availability, analyzes patch necessity and priority, and applies recommended patches to your system.
- Availability Management – Gold
  - Availability Management includes break/fix engineering support and an SLA for device availability. CDW's SLA for all Gold level modules is a 99.9% monthly services uptime guarantee.

Each of the levels encompasses the previous levels. There is no loss in service when moving to a more comprehensive level, meaning that no operational tasks are lost when moving between levels.

Support and Continuous Improvement

CDW•G experts provide technical support for complex technology solutions when your IT, development, and business teams need it. Our experts work with you to continuously optimize your technology environment.

Staff Augmentation Services

For more than 20 years, CDW•G has been providing customers the ability to staff their projects by giving them access to our experienced architects, engineers, project managers, and consultants drawn from our deep national and in-market resources. Our goal is to provide the City of Mesa and OMNIA Partners Participating Public Agencies the ability to scale up and down your augmented workforce on demand, giving you the ultimate flexibility to meet your evolving needs and upcoming project plans. Staff augmentation ultimately reduces costs; the City of Mesa and OMNIA Partners Participating Public Agencies can quickly access experts without a long-term commitment, lengthy hiring process, or administrative burdens.

CDW Staff Augmentation Services help meet the demands of your organization in unique ways. We provide skilled staff to augment your team with expertise in a wide range of technologies, offering an objective view of IT that ensures you will always receive the right solution to your problems while minimizing payroll costs and maximizing time savings for your priority projects.

We have a wide range of resources ranging from Level-One help desk to Senior Engineers and Architects to Management. Our areas of support run the gamut - from Networking to Cloud Engineering, DevOps, to Application Development. A snapshot of our areas of expertise can be found below:

Figure 10. CDW•G Staff Augmentation Areas of Expertise

Professional Services

A variety of our professional services have been described throughout our services offering section thus far. As mentioned, our project managers and consultants work directly with the City of Mesa and OMNIA Partners Participating Public Agencies to design and implement every facet of your IT solution. After assessing your current environment and business objectives, they'll produce a detailed project blueprint. Partnering with your existing staff, they'll oversee the full implementation of the solution. After a successful implementation, they'll perform quality assurance and troubleshooting before leading an in-depth closeout meeting to make sure your team is ready to take the reins. Our end-to-end support ensures that your solution can do it all: improve end-user experiences, increase efficiency, and free up your team.

OMNIA Success Story: Midsized County

Background

Government entities often find themselves having to act very quickly to follow through on their most critical initiatives. They typically have an idea of what they want to accomplish, yet the path to execution is rarely straightforward. Whether it relates to budget approval, how long funds are available, or the expertise to go from idea to implementation, IT Departments must be ready to act quickly, requiring a partner they can trust to execute at a moment's notice.

Challenge

This mid-sized County, like many of their peers, has a small IT team, with the knowledge and expertise to keep things running, but implementing new technologies on a regular basis is a continued challenge. Not only is their staff somewhat unfamiliar with the latest offerings in areas like Hyperconverged Infrastructure and Next Generation Data Protection, but once funds become available, the prospect of lacking in-house resources to implement these innovations within the necessary timeframe is a major concern.

Solution

This County needed a partner that could complement the strengths of their IT team and walk hand in hand with them to help design, implement, and manage complex technologies. CDW•G presented technical engineers to help educate the team on the solution, informing them on how the technology functions, as well as properly standing up the solution in their environment. CDW•G deployed resources to help with everything from network equipment, network security, and data protection – from advisory services to setting policies on their new equipment.

Success through OMNIA Partners

OMNIA Mesa and CDW•G were the perfect procurement vehicle for this County to deliver on these "just-in-time" technology solutions that are becoming more and more essential in the local government space. CDW•G instilled in IT leadership the confidence to undertake projects, guiding them seamlessly from conception to implementation, transforming what once seemed unattainable into achievable milestones with a trusted strategic partner.

This customer leveraged the Mesa OMNIA contract as a swift and efficient avenue for procurement, guaranteeing the responsible allocation of constituent funds. Entrusting CDW•G as their advocate, the IT department could rely on expert guidance to select the optimal technology, ensuring seamless functionality from day one.

Comprehensive Product Offering

Comprehensive Product Offering: Offeror's complete catalog and services offered shall be available. Each offeror awarded a contract under this solicitation may offer their complete product and service offering. Pricing for products and services must be entered on the appropriate section of the Price Page. The City reserves the right to accept or reject any or all items offered.

CDW•G's comprehensive line of products and services can be found at www.cdwg.com. We have also provided our Line Card as Exhibit 1.

However, our offering would not be complete without highlighting our sector-specific services and capabilities. We understand that state agencies, local governments, higher education institutions, and K-12 entities have different needs.

CDW•G for Public Safety

CDW•G's Public Safety Team has a specialized practice devoted to public safety issues, with more than 20 years of experience and hundreds of engagements to our credit. Fire, Police, and other Emergency agencies face unique challenges, even different from other government agencies. Understanding this, we built a team with the sole focus of supporting our nations critical Public Safety agencies. Our team of dedicated Public Safety Business Development Managers will guide the City of Mesa and Participating Public Agencies to the most impactful choices, address all the requirements, policies, and strategies you face every day, and show you how the pieces fit together.

At CDW•G, we actively engage with fire, police, emergency medical services, emergency management, and other agencies, offering invaluable insights into their myriad options. Recognizing that a little guidance can yield substantial results, our profound knowledge and expertise in deploying cutting-edge technology stand ready to empower decision-makers in selecting optimal public safety solutions.

Modern-day emergency management and first response require fast and always-available access to information. Without it, police officers, first responders, and emergency personnel are at a disadvantage against criminals and natural disasters alike. Innovative digital solutions provide new, engaging approaches to fulfilling missions and keeping communities safe.

Our offering covers the full spectrum of capabilities:

Video

- In-vehicle video, capture, and management
- Body-worn cameras
- Interview room monitoring
- Fixed security
- Surveillance
- Analytics
- Collaboration and telepresence
- Case management

Mobility

- Mobile data laptops and tablets
- Data collection and scanners
- Mobile printing
- GPS and automatic vehicle location
- Mobile access routers
- Wi-Fi solutions
- Advanced authentication

Data Center

- Servers and storage area networks
- Hyperconverged infrastructure
- Backup and recovery
- Virtualization
- Cybersecurity
- Unified communications
- Enterprise wireless

Command, Control, and Intelligence

- Mission Critical Operations Centers
- Data Visualization and Analytics
- Situational Awareness Platforms
- Mobile and Deployable Solutions
- Evidence Management

- systems
- Power and cooling
- Cloud solutions

CDW•G understands that each state has different laws pertaining to the sale of physical security/public safety hardware and equipment; CDW•G ensures that we have or will have applicable licensure for any products and equipment we provide to the City of Mesa and OMNIA Partners Participating Public Agencies.

Success Story: Implementing Situational Awareness Rooms for a Large Urban City

Law enforcement bureaus were looking for methods to mitigate risk and engaged CDW•G in these discussions. This conversation started an 18-month process of consulting and designing a new Joint Operation Command Center (JOCC) that could be used at a central location by engaged bureaus.

The JOCC is designed to provide joint command capabilities for more than five federal partners and will serve as a command and control center for the City's significant events moving forward. Additionally, the JOCC will be a central point of communication and control for future civil unrest.

The primary Command Center seats 80 individuals and includes a 1.1M LED 80 feet wide video wall. Additionally, the center contains seven adjacent conference rooms fully equipped with digitally transformed audio-visual systems. Work began in the last quarter of 2022 and will be completed shortly. The Center is set to open in mid-2023 and will be one of the leading operations centers in North America.

CDW•G for Education

CDW Education understands the challenges – and opportunities – involved in building a flexible and supportive personalized learning environment for K-12 and Higher Education students. We currently support 2,300 K-12 and 1,400 Higher Education (Higher Ed) institutions and entities on the existing City of Mesa and OMNIA Partners contract. You can continue to count on us to guide you through tight budgets, numerous choices, and expertise shortfalls so that you're prepared to meet your IT needs, now and in the future. Through the acquisition of Amplified IT in 2020, we are further able to support our education customers with our own tools, such as LittleSIS, Gopher, and more.

We know that our education customers' need for vendor support does not stop at deployment completion. Maintaining technology program innovativeness and alignment with your education goals is a continuous and daunting task. In fact, in a year, your program may look very different. You need a vendor that does more than meet your technology requirements right now; you need a vendor partner that shares a passion for education and continued development to future-proof schools, staff, and students for long-term success. Our Education Strategists help educators include technology as part of their educational planning and goals; we pledge to remain dedicated to supporting the full scope of each OMNIA Partners Participating Public Agencies' technology and related educational needs.

We have actively expanded our catalog, certifications, and solutions to address the latest developments in Education technology, including cloud, IoT, drones, and esports, so that we

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

can continue to support the changing needs of the City of Mesa and OMNIA Partners Participating Public Agencies. In addition, we have dedicated CDW•G Education resources aligned to these solution areas to help you understand and implement them. Moving forward, we expect the landscape in which we compete to continue to evolve as new technologies are developed, and we will continue to evolve with those technologies.

We offer a variety of education-specific services and solutions, some of which align with leading manufacturers, such as Amazon Web Services (AWS), Microsoft, and Google. Our goal is to help empower students, families, faculty, staff, and administrators as they explore and build opportunities for improving academic outcomes. Some of these services and solutions include, but are not limited to, the following:

CDW•G and Google for Education

We are a Premier Google Partner on a mission to empower schools to get the most out of Google Workspace for Education. In August 2023, we were awarded Google Cloud's Partner of the Year in the Specialization category for excelling in the Education sector and delivering positive customer outcomes. Our teams of education and technology experts have served more than 4,200 districts across the US and Canada, including 12 of the 15 largest districts.

- **CDW Collaboration Amplified Support for Google for Education:** Save your IT team valuable time and resources and empower them to make the right decisions for your institution's digital infrastructure. Equip them with the support they need to prevent and mitigate technical challenges like network errors, misaligned settings, security breaches, app degradations, and more. The Amplified Support for Google for Education service partners technical staff with Google IT specialists who provide on-demand support, customized solutions, and professional collaboration to help your institution keep up with Google's ever-evolving environment, optimize the operation of your Google for Education domain and Chrome OS, and achieve the strategic goals of your administrators, educators, and students.
    - Support services include on demand support with highly responsive SLAs, customized solutions, and professional collaboration.
- **CDW Collaboration Chrome Checkup:** With the rapid adoption of education technology through a 1:1 model, classroom carts, or computer labs, Google Admins are managing the settings and configurations for Chrome and fleets of Chrome devices. Neglecting to keep up with Google Chrome updates and the normal degradation that comes with usage can leave Chrome devices vulnerable to metric and data errors, security breaches, and operations issues. A Chrome Checkup explores an institution's current Chrome and Chrome device settings in the Google Admin console to provide recommendations based on education best practices to ensure their fleet is optimized for success and ready for deployment.
- **CDW Collaboration Google for Education Audit**: Ongoing Google for Education feature changes can make it difficult for you to keep your institution's Google Workspace domain up to date. Neglecting to properly configure even a few settings in the Google Admin console can leave it vulnerable to undelegated access, metric and data errors, and security breaches. The Google for Education Audit analyzes your Workspace environment against the latest education best practices and Google Workspace updates and provides an actionable plan to improve the efficiency of your domain for the success of your administrators, teachers, and students.
- **CDW Collaboration – Google Voice for Education:** Google Voice is a simple, smart, and scalable cloud-based phone solution that allows administrators and teachers to stay

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

connected to students and parents via a desktop phone or cellular and computer devices without having to use their own phone numbers. With the options of remote, hybrid, and in-person teaching and learning models exposing the need for schools to have an efficient communication system, Google Voice is a valuable option that puts administrators and teachers in control of their call logs, whether teaching and learning are happening in the building or at home. Google Voice is intelligently optimized, secure, and compliant and fits seamlessly into the Google Workspace for Education workflow.

- **CDW Collaboration – Google Workspace for Education KickStart:** The Google Admin console has over 1,000 settings that do not come out of the box tailored to meet the needs of your institution, and Google Admins are left to build out the Google Workspace for Education domain on their own. This can result in misconfigurations, improper OU structure, an abundance of delegated permissions, and security vulnerabilities that affect teaching, learning, and safety. A Google Workspace for Education KickStart provides institutions with a configuration guide for all the settings in their Google Admin console. Recommendations are based on education best practices and an institution's unique strategic goals, so the domain is operating at its highest level from day one.

CDW•G and Microsoft for Education

CDW's Amplified for Education Services offer comprehensive Microsoft 365 EDU support to schools, addressing your most urgent problems in classroom technology, remote learning, device management and security. With our expertise, you can optimize your learning environment by leveraging Microsoft technology and affordable Windows 11 Education devices to their fullest potential.

We offer multiple Microsoft EDU Services for your environment, including:

- **Microsoft EDU Modern Management Program | Intune for Education Pilot**: By streamlining device management, reducing downtime and IT support costs, and improving data protection, Intune for Education can complement schools' current Intune for Enterprise as an add-on or a stand-alone plug-and-play service. With its focus on delivering high-quality, innovative, and inclusive education for all students, Intune for Education empowers schools to leverage their existing infrastructure while enhancing their device-management capabilities specifically tailored for educational settings.
- **Microsoft Education Discovery and Design | M365 EDU Ecosystem Assessment:** By providing clear guidance on what tools are being utilized or not utilized, this assessment enables ITDMs to optimize software usage, reduce unnecessary spending and make informed decisions about their technology budget.
- **Amplified for Microsoft EDU | Windows 11 Readiness Assessment:** The Windows 11 Readiness Assessment includes a series of workshop sessions that help schools evaluate EDU environments in preparation for the deployment of Windows 11 and its features, identify scalability constraints, make informed decisions, and implement the necessary enhancements to ensure successful adoption.
- **The CDW Education Collaborative | Microsoft:** The CDW Education Collaborative is a forward-thinking community of K-12 districts looking for insights and best practices for administering and mastering Microsoft 365 Education and Google for Education ecosystems. The Education Collaborative provides a one-stop shop to access useful content and helpful advice from fellow education IT professionals, CDW professionals, and Microsoft and Google insiders.

CDW•G and AWS for Education

We are part of AWS' Partner Network with an active Advanced Consulting Partner status. CDW•G coworkers have earned more than 200 AWS certifications, including the AWS Database and Data Analytics Specialty Certifications, as well as the AWS Migration Competency, AWS Storage Competency, and more.

- **CDW Hybrid Cloud AWS Appstream Implementation Services (Education Segment):** With more students learning remotely with less-robust devices, the demand for remote application access is growing. The AWS AppStream service allows students to access their critical apps remotely, and CDW•G has developed a turnkey service to get your students and institution up and running. Provide access to the applications your students need without the expense and security risk of building and hosting on your premises. CDW•G will plan, configure, and deploy the AppStream solution for you.
- **CDW Classroom in the Cloud on AWS Hybrid Cloud:** The cost of purchasing, installing, implementing, maintaining, and replacing the hardware and software needed on your facilities to accommodate the curriculum your students need can create a budget black hole, which is why we created our Classroom in the Cloud on AWS, an enhanced Desktop-as-a-Service (DaaS) solution. Allow CDW•G to help you increase efficiencies, decrease costs, and improve the student experience by building virtual classrooms and labs in AWS. With CDW•G's Classroom in the Cloud service, you have the flexibility to spin classrooms up and down, use online faculty resources, and provide students with 24x7 access to complete or repeat work outside of class, all while keeping costs at the requisite minimums. In addition, CDW•G can provide you with content for the grant proposal necessary to receive the funds to use this service, if needed.

These sector-specific offerings provide insight into our capabilities; however, they are not comprehensive.

Success Story: Custom-Built Esports Room in a Southeast School District

Background

Several educators at a junior high school created an after-school esports club that met online during the pandemic. When students returned to campus, the club met in the school library. The staff and principal envisioned so much more; they wanted to add esports to the curriculum and build a dedicated esports room. They pitched their ideas to school district leaders and quickly won support.

The CDW•G team, which includes esports experts, initially met with school officials in the spring of 2021 to discuss the district's immediate and long-term goals. In doing so, they learned the gaming room needed to be multifunctional for teaching both esports and other classes.

Engagement and Solution

The district took advantage of CDW•G's Blueprint to Design service, which includes its furniture partner Spectrum Industries, to create an initial floor plan and design for the room.

At the same time, CDW•G's esports advisers made technology and furniture recommendations to fit the district's budget. After receiving feedback on the initial designs, CDW•G developed new 2D and 3D renderings for the space. During this process, CDW•G held multiple virtual and onsite visits. Before the technology and furniture arrived, the school

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

hired a general contractor to equip the room with enough electrical outlets and network drops for the PCs and other equipment. With the infrastructure complete, CDW•G and their installation partner installed the LED lighting and 65- and 75-inch Samsung displays. Once the furniture and tech equipment arrived, we assembled the gaming desks and chairs and installed the computers and gaming peripherals.

Outcome

In the fall of 2021, this junior high school opened a state-of-the-art esports room, transforming a traditional classroom into a rich learning environment. This esports room has become the home for a semester-long interdisciplinary course that teaches them about the career and technical skills they will need in the fast-growing field.

Product Offering

In addition to the services listed above, CDW-G is pleased to offer our full catalog of products and solutions. For insight into our product offering as it relates to the requested products in this RFP's Scope of Work, please continue reading.

Software

a. Software: National brand name Microsoft, Google, Oracle, Enterprise applications/solutions, cyber security applications/solutions, etc.

CDW•G is pleased to offer software solutions and applications from leading manufacturers, including Microsoft, Google, and Oracle, among many others; CDW•G has developed close partnerships with more than 300 of the industry's leading software publishers.

Software and Information Industry Association Membership

We are a member of the Software and Information Industry Association (SIIA). SIIA is the principal trade association for the software and digital content industry. It recognizes companies that demonstrate software industry leadership and good corporate citizenship. SIIA Certified Software Reseller (CSR) status is awarded based on the accuracy and completeness of the record-keeping process. We are one of only four resellers with SIIA certification. There is a distinct customer advantage to our membership in the SIIA: in the event that the City of Mesa and OMNIA Partners Participating Public Agencies are audited by the SIIA, an invoice from CDW•G serves as proof of ownership.

Software Products and Solutions

An overview of our software offering includes, but is not limited to, the following:

- Business Applications
  - Application Suites
  - Document Management
  - Reporting and Data Analytics
- Education
- Graphics and Design
- Networking and Servers
  - Data Archiving
  - Network Management
  - Storage Networking
- Operating Systems
- Communication
- Programming and Web Development
- Security
  - Authentication
  - Endpoint Security
  - Firewalls
- Utilities
- Virtualization

We are an industry leader when it comes to enabling customers to modernize their environment through the combination of speed and direction.

While contemporary technologies can be beneficial, if executed incorrectly, they can also quickly lead to overlap, confusion, and sprawl. Our team can help the City of Mesa and OMNIA Partners Participating Public Agencies leverage existing technology investments while integrating modern solutions and tools. With the help of CDW•G, the City of Mesa and OMNIA Partners Participating Public Agencies can create simplified outcomes that are easy to manage and fiscally beneficial. Our team delivers full-stack, modern infrastructure and software delivery focused on cloud native and hybrid-cloud adoption. Key practice areas include, but are not limited to, the following:

- **Advanced Infrastructure and Hybrid IT:** Consulting and delivery services for modern data center architecture, networking, servers, virtualization, and container and cloud platforms.
- **Full Stack IT Automation & Orchestration:** Consulting and delivery services in modern concepts for systems automation, infrastructure-as-code (IaC), and configuration management from physical network and servers to cloud.
- **Systems Integration & Software Engineering:** Consulting and delivery services in modern software development and delivery, web development, mobile development, distributed systems, microservices, and serverless environments.
- **DevOps:** Consulting and delivery services in DevOps, cultural assessments, organizational redesign, continuous integration/continuous deployment (CI/CD), and modern software delivery.

Personal Computer Systems

b. Personal Computer Systems: National brand name desktop PCs, notebooks, laptops, tablets, and other related devices from Enterprise Tier and Middle Tier Contractors that are business related computers, manufactured by companies, such as, Apple, COMPAQ, Dell, Gateway, Hewlett Packard, IBM / Lenovo, Panasonic, and Toshiba. Product will include the operating system license, software media and documentation in the hardware shipment.

CDW•G's broad array of offerings includes desktop PCs, notebooks, laptops, tablets, and other related devices from Enterprise and Middle Tier contractors. We are authorized to sell the various partners' full suites of products: Apple, Dell, Hewlett Packard (HP), IBM, Lenovo, and Panasonic, among many others.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Desktops

Desktop computers come in all shapes and sizes and are used for tasks ranging from web browsing to high-resolution media creation, and CDW•G offers products to meet any need. We offer All-in-One computers, Mini PCs, Thin Clients, Towers, Workstations, and more. Our selection includes popular brands, including, but not limited to, HP, Dell, Lenovo, Acer, Asus, Apple, among others. Additionally, the City of Mesa and OMNIA Partners can buy desktops pre-built or parts can be purchased and assembled in the configuration of your choosing; desktops can be upgraded or customized to grow alongside your needs as a user.

Laptops & 2-in-1s

When you need the power of a desktop but lack the space, laptops are an excellent solution for mobile computing. 2-in-1 computers are another powerful portable solution because, while similar to laptops, these devices can function as tablets and benefit from the integration of touchscreen displays or drawing accessories in some models. CDW•G has a wide range of laptops and 2-in-1s computers ready to meet any of your needs, including, but not limited to, those from Acer, Dell, HP, Microsoft, Panasonic, and more.

Tablets

Sometimes, both desktops and laptops may be too large for a particular space. Tablets are versatile devices that can perform many of the same tasks as their counterparts but in an easily transportable package. When combined with peripherals such as dedicated keyboards or additional displays, tablets can further blur the line between themselves and their desktop counterparts. We offer tablets from popular brands like Apple, HP, Lenovo, Panasonic, Samsung, and more.

Success Story: Large Device Rollout for the US Census Bureau

Background

When the US Census Bureau wanted to increase security and accessibility for the last Decennial Census, the Bureau trusted CDW•G.

The Census Bureau had a short-term need for mobile devices to enable a workforce to accurately capture data about America's people and its economy. Secure and easily accessible, the ideal device would utilize satellite technology to help field workers visualize each neighborhood.

We compared manufacturers to determine which could provide the most reliable, cost-effective technology. The products that best suited the Bureau's needs and those that were recommended to the customer included the Apple iPhone and a lightweight Dell laptop with a custom case and adjustable straps.

CDW•G was responsible for acquiring the devices, provisioning and configuring them, and getting them to the Census Bureau's local offices.

Outcome

Our service model offered the solution on a subscription basis to keep costs predictable and ensure mission alignment. In addition to overall program management, CDW•G offered mobile devices and accessories, custom device configurations, equipment staging, kitting, imaging, and inventory management. Our offerings also included wireless services from

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

multiple cellular carriers, nationwide deployment, user help desk and field support, secure asset management, and device decommissioning and disposition when data collection concluded. CDW•G could quickly redeploy assets if there were any personnel changes. Approximately 60,000 laptops, 350,000+ iPhones, and 25,000 iPads were issued under management.

Our state-of-the-art distribution and configuration centers provided logistical agility and flexibility while demands fluctuated. Together, we simplified the Bureau's processes and increased efficiency while remaining secure. Read more about this story here.

Standard Business and High End Workstations

c. Standard Business Workstation: These will be used for typical tasks, which will include word processing, spreadsheet analysis, database management, business graphics, statistical analysis, internet, and other office automation activities. Product will include the operating system license, software media and documentation in the hardware shipment.

d. High End Workstation: These will be used by application developers using GIS, CASE or other high-level language development tools, Computer Aided Design and Drafting professional, Internet Application developers or other sophisticated application work. Product will include the operating system license, software media and documentation in the hardware shipment.

CDW•G's standard business and high end workstation offering allows the City of Mesa and OMNIA Partners Participating Public Agencies to experience professional-grade performance with our selection of solutions. Our offering includes solutions designed to handle any task, including creating projects and application development.

CDW•G offers workstations with processor speeds of 1.1GHz all the way up to 5.6GHz with hard drive capacities ranging from 256 gigabytes to 8 terabytes. Brands include, but are not limited to, Apple, BOXX, Dell, HP, Lambda, Lenovo, and more.

Laptop Computers and Notebooks

e. Laptop Computer or Notebook: These will be used by traveling or remote access user for typical office automation and business productivity use. With a port replicator or docking station, it may also be used as a standard desktop. Product will include the operating system license, software media and documentation in the hardware shipment.

CDW•G's product portfolio includes laptop computers, 2-in-1 laptops, notebooks, port replicators, docking stations, and more from leading manufacturers, including Acer, Dell, HP, Lenovo, Microsoft, Panasonic, Samsung, and others. An overview of our offering includes, but is not limited to, the following:

Windows Laptops

We offer a wide selection of Windows-based laptops; Windows laptops have many powerful tools integrated into the operating system that are uniform across various businesses.

MacBooks

Apple products, specifically MacBooks, are among the most popular laptops globally for both students and professionals. These devices are a perfect hybrid of aesthetics and performance and have robust and powerful software that is standard in each machine. MacBooks also effortlessly pair with other Apple products, such as iPhones or Apple Watches, to maximize the performance of each device.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Note: Only Apple is allowed to sell Apple products to K-12 customers, including both private and public schools. If this policy is repealed, CDW•G is equipped and ready to serve the City of Mesa and OMNIA Partners Participating Public Agencies.

Chromebooks

Chromebooks are excellent alternatives that function using applications hosted on the internet. This way, the cost of Chromebooks can remain affordable without sacrificing functionality. CDW•G has a large selection of devices that can meet the City of Mesa and OMNIA Partners Participating Public Agencies' diverse needs.

Ultrabooks

Ultrabooks are powerful laptops that are slim in size but feature industry-leading technology geared towards pushing performance to the absolute maximum. Ultrabooks are also an excellent choice for any design or media-based work. Their robust components allow for maximum performance in multiple locations.

Network Equipment

f. Network Equipment: This includes equipment primarily used for communications over an IP network. This includes servers (physical and virtual), layer 2 and layer 3 switches, routers, area wireless access points, point-to-point wireless access, optics, media interfaces (i.e. serial, T1, T3, OC3) and fiber channel. Class of equipment should include home office, small and medium business, and enterprise. Contractors may include, but not limited to, Cisco Systems, Dell, Juniper Networks, HP, Extreme Networks, Enterasys Networks, D-Link, Netgear, and Brocade Communications Systems.

CDW•G's broad array of offerings includes servers (physical and virtual), layer 2 and layer 3 switches, routers, area wireless access points, point-to-point wireless access, optics, media interfaces, and fiber channels. The class of equipment that we offer includes home office, small and medium business, and enterprise. We are authorized to resell from more than 1,100 leading manufacturers, including, but not limited to, Cisco, Dell, Juniper Networks, HP, Extreme Networks, and Netgear. CDW•G will work with the City of Mesa and OMNIA Partners Participating Public Agencies to determine the best networking equipment to meet each of your needs.

An overview of our network equipment product offering includes, but is not limited to, the following:

- Network Adapters
  - Ethernet Adapters
  - Host Bus Adapters
  - Transceiver Modules
- Network Management
  - Console & Device Servers
  - Load Balancers
  - Network Management Devices
  - Network Testing
  - Print Servers
- Network Security
  - Firewalls & VPN
- Routers
  - Wireless Routers
  - Cable & Phone Routers
  - Router Modules and Accessories
  - Data Routers
  - Security Routers
  - SD-WAN
- Switches
  - Ethernet Switches
  - Fiber Channel Switches
  - Modular Switches
- Wireless Access Points

- Security Appliances
- Security Tokens
- Security Cameras & Surveillance
  - Proximity Cards & Readers
  - Security Cameras
  - Indoor/Outdoor
  - Enterprise
  - Mesh

Monitors

g. Monitors: These will include plug and play compatible monitors that are manufactured for the above systems and/or any other brand that may be specifically called for by the ordering entity and which meet the most current UL and OSHA requirements.

CDW•G's product portfolio offers a variety of monitor solutions, including plug-and-play compatible monitors. Should the City of Mesa or any OMNIA Partners Participating Public Agency have specific UL or OSHA requirements to meet, we will work with you to determine the best products that meet your needs, requirements, and budget.

CDW•G understands that the right computer monitor or display can make all the difference. No matter the purpose, we get that a good monitor is important to you. CDW•G offers a wide range of monitor and display types with response times of less than 2 ms and 4k resolution. Plus, we partner with all the top monitor brands, including Acer, ASUS, HP, Lenovo, LG, MSI, ViewSonic, and many more.

Computer Monitors

Computer monitors are an integral part of any setup. For design and media-specific industries, high-resolution monitors are a must and need to be paired with an adequate graphics card. Other display solutions, such as business computer monitors, are capable of standard office tasks such as word processing or web browsing. No matter what you need a display for, CDW•G has a large selection of computer monitors from industry-leading brands and manufacturers. We are committed to working with you to determine what suits your needs.

Large Format Displays

One of the most powerful tools for a modern business is the implementation of large-format displays. Everything from adaptive menus to digital signage and anything in between can quickly be displayed or adjusted on these large screens. Devices such as smart boards have changed the educational landscape and make lessons and presentations more accessible and diverse than ever before. For advertising, these displays save money and significantly reduce paper waste and the City of Mesa and OMNIA Partners Participating Public Agencies' environmental footprint.

Monitor Accessories

CDW•G experts can help the City of Mesa and OMNIA Partners Participating Public Agencies determine which accessories will work best for you and how they can improve your setup. Monitor accessories like mounts or privacy screens allow you to maximize productivity in any location. Other accessories like specific cables or adapters work to ensure any device can interface and work with any monitor.

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Projectors

In addition to a large selection of monitors and accessories, CDW•G also offers projectors. While not technically monitors, projectors are a common form of computer display that allow the City of Mesa and OMNIA Partners Participating Public Agencies obtain display sizes far more extensive than any screen. These large-size displays are perfect for video conferencing with groups, work presentations, staff meetings, or even community events in the park. We offer interactive projectors, large venue projectors, office projectors, as well as projector accessories, from leading brands such as Epson, Sony, LG, and more.

Computer and Network Products, Peripherals, Accessories, and Components

h. Computer and Network Products, Peripherals, Accessories, and Components: Complete availability of major manufacturer's product lines on items such as, but not limited to RAM, graphic accelerator cards, network interface cards, cables, printers, scanners, monitors, AV equipment, unified communications hardware, mobility hardware, modems, routers, switches, keyboards, drives, memory cards, cables, batteries, power management, supplies, etc.

With a product portfolio that includes 100,000+ products, CDW•G can meet the needs of the City of Mesa and OMNIA Partners Participating Public Agencies. We are pleased to offer the items you need, including, but not limited to, RAM, graphic accelerator cards, network interface cards, cables, printers, scanners, monitors, AV equipment, unified communications hardware, mobility hardware, modems, routers, switches, keyboards, drives, memory cards, cables, batteries, power management, supplies, and more.

Our product offering for this category includes, but is not limited to, the following:

Information Technology/Educational Furniture

i. Information Technology/Educational Furniture: Includes furniture design, delivery, installation, parts, maintenance, and repair and replacement.

CDW•G offers Information Technology and Educational Furniture to the City of Mesa and OMNIA Partners Participating Public Agencies. We offer furniture design, delivery, and installation, along with services that are included with the OEM offering, which may include parts, maintenance, repair, and replacement. We offer a variety of information technology and educational furniture from leading manufacturers, including Varidesk and Ergotron, that can meet the needs of customers ranging from small local government to the largest university

system. CDW•G offers IT and educational furniture, including, but not limited to, sit and stand desks, office chairs, workstations, desktop accessories, ergonomic accessories, mounting hardware, printer and scanner accessories, as well as office basics and tools, calculators, document scanners, document cameras, charging carts, and more.

Classroom Design

Whether the City of Mesa and OMNIA Partners Participating Public Agencies are creating a space that supports individual study, large group work, or putting together makerspaces for STEM/STEAM students, the possible classroom layouts and technology configurations are endless. Whatever you're trying to achieve, CDW•G can make IT happen.

In fact, CDW Blueprint to Design® is an ideal tool to help districts, schools, and teachers reimagine their classrooms and building space to maximize learning outcomes. The program was created in 2017 and helps educators navigate the addition of classroom IT products and technology, alongside stationary and modular classroom furniture, and create collaborative learning environments. Since then, more than 900 K-12 schools and universities have participated in the program.

Our Education Strategists, teamed with our CDW•G Solution Architects and Account Team, work together to help educators figure out the best classroom design for their space, ensuring space maximization aligned with the desired purpose. Since CDW•G is vendor-neutral and has an extensive product offering, we recommend the best vendor for that given classroom, school, or district.

Success Story: Rochester City School District

Background

Leaders of the Rochester City School District (RCSD) came to a few important conclusions several years ago: they needed to modernize instruction, they wanted education to be engaging and interactive, and redesigned learning spaces would be a big piece of the puzzle. Like many innovative schools, RCSD envisioned a classroom with comfortable seating, modular furniture that can suit a variety of instructional needs, and technology that includes mobile devices, Wi-Fi, and digital displays. To create the proof of concept, the district turned to CDW's Blueprint to Design.

Engagement and Solution

Early on, RCSD leaders met with CDW•G Account Managers and an Educational Strategist to discuss their objectives. The CDW•G team shared those findings with designers, who created several choices for RCSD to review, including full-color, 3D renderings. The district also wanted flexible furniture and a variety of seating for all grade levels.

District leaders were impressed with CDW•G's design work, and once they settled on a plan, they built a 25-by-24-foot modern classroom that is stylish, colorful and airy. In one configuration, two sets of curved desks are arranged in a circle, so students can work individually or in groups. RCSD also equipped the room with a cart of 30 Chromebooks, fast Wi-Fi through a Cisco Systems access point, a MakerBot Replicator 3D printer and table-level charging stations. Two 75-inch Triumph interactive flat-panel displays hang on the walls, flanked by a table and soft-cushioned, rainbow-colored stools.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Students roam around the classroom to collaborate and problem-solve. They use Chromebooks, but they also use pencil and paper. Every desktop doubles as a dry-erase board, so students can jot notes and sketch on their desks.

Outcome

Rochester's new modern classroom has garnered rave reviews from students and teachers. The room hosts fifth graders from around the district for internet safety and digital citizenship classes. Older students use the space after school for online credit recovery.

As district leaders hoped, the classroom has inspired educators to reimagine other learning environments, including libraries and makerspaces.

Read more about how CDW•G helped RCSD design a custom learning environment here.

DATA SCIENCE AND ANALYTICS DS 200

R Programming for Data Science and Analytics

R Programming for Data Science and Analytics examines components of a statistical programming environment and enables students to describe general programming language concepts as they are implemented in R. The course focuses on the basics of statistical computing which includes programming in R, reading data into R, accessing R packages, writing R functions, and visualizing data with R.

3-day course

Challenge level 3

24 CPE/CEU credits

Key Outcomes

Successful completion of this course will enable students to

- Identify and define R programming variables, types, objects, scalars, vectors, and matrices
- Perform string and text manipulation in R
- Identify and employ R lists and functions
- Use R data frames and file I/O
- Read data from files and perform data preparation
- Perform data visualization using a range of plotting functions
- Use Dplyr for data exploration
- Create statistical models with R
- Use near and logistic regressions

Prerequisites

Students should have intermediate-level experience in the field and prior experience working with programming languages.

EXHIBIT 5 – RETURN POLICY

Firms Method and Approach

Question 13.e. State any return and restocking policy, and any fees, if applicable associated with returns.

The following 3 pages contain CDW's full return policy.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

CDW PRODUCT RETURN POLICY

Seller offers a 30-day return policy on most products sold. Manufacturer restrictions apply to certain merchandise, as detailed below and as updated from time to time. Customer may obtain additional details and any applicable updates from the dedicated Seller account manager and may obtain manufacturer contact information by contacting CDW Customer Relations, which may be reached by calling 866.SVC.4CDW or by emailing returns@cdw.com.

1. Return Restrictions.

- Defective Product Returns. Customer may return most *defective* Products directly to Seller within fifteen (15) days of invoice date and receive, at Seller's option, credit, replacement, exchange, or repair. After fifteen (15) days, only the manufacturer warranty applies.

- Non-Defective Product Returns. Customer may return most *non-defective* Products directly to Seller within thirty (30) days of invoice date and receive, at Customer's option, credit or exchange, except that an automatic Seller restocking charge will reduce the value of any such credit or exchange by a minimum of fifteen percent (15%).

- Restricted, Repair-Only Returns. Certain Products can only be returned for repair—not for exchange, replacement or credit—based on current manufacturer requirements. Such Products should be returned to Seller, shipped directly to the manufacturer, or taken to an authorized service center in Customer's vicinity. More information may be provided by the dedicated Seller account manager or by CDW Customer Relations.

- Restricted, Manufacturer-Only Assistance. Certain Products cannot be returned to Seller for any reason—without exception—and Customer must contact the manufacturer directly for any needed assistance. More information may be provided by the dedicated Seller account manager or by CDW Customer Relations.

- Special Orders. Products that are specially ordered may be non-returnable or may have unique return restrictions provided at the time of sale. More information may be provided by the dedicated Seller account manager or by CDW Customer Relations.

- Return of Software or DVDs. Seller offers refunds only for unopened, undamaged software and DVD movies that are returned within 30 days of invoice date. Seller offers *only replacement* for software products and DVD movies that either: (i) are defective but are returned *within* thirty (30) days of invoice date; or (ii) are unopened and undamaged, but are returned *more than* 30 days after invoice date; such replaceable merchandise may be exchanged only for the same software or DVD movie title. Multiple software licenses may be returned for refund or exchange *only* (i) if specifically authorized in advance by the manufacturer; *and* (ii) if returned *within* thirty (30) days of invoice date.

2. Customer Shipment of Returned Merchandise.

- Return Merchandise Authorization (RMA) Number. No returns of any type will be accepted by Seller unless accompanied by a unique RMA number, which Customer may obtain by providing the following information to CDW Customer Relations: customer name, applicable invoice number, product serial number, and details of Customer's issue with the product. Customer has five (5) days to return a Product after the applicable RMA is issued. CDW reserves the right to refuse any UNAUTHORIZED returns: those that occur after the five (5) day period or those involving Products that are unaccompanied by valid RMA's.

- Returned Products Must Be Complete. All Products *MUST BE* returned one hundred percent (100%) complete, including all original boxes, packing materials, manuals, blank warranty cards, and other accessories provided by the manufacturer. CDW reserves the right to refuse the return of incomplete Products. In addition, CDW will charge a minimum fifteen percent (15%) restocking fee for returns that are accepted.

- Responsibility for Shipping Costs. Customer is responsible for the cost of shipping returned items; Seller is responsible for the cost of shipping replacements or exchanges of returned items and will match Customer's shipping method.

- Customer Shipping Insurance. Customer is strongly advised to purchase full insurance to cover loss and damage in transit for shipments of returned items and to use a carrier and shipping method that provide proof of delivery. Seller is not responsible for loss during such shipment.

TAB E
PRICE INFORMATION

PRICE INFORMATION QUESTIONS

Price Information completed and included. Should be saved as Excel and PDF.

Pricing information is provided below.

National Discount Off List Price

A. Propose a national discount off list price pricing structure. These are the minimum discounts Supplier will offer to Participating Agencies.

CDW•G is pleased to offer the City of Mesa and OMNIA Partners Participating Public Agencies a discount off CDW•G Nationally Advertised Pricing (NAP) structure for all Products in Attachment A. The percentages represent the minimum discounts the City of Mesa and OMNIA Partners Participating Public Agencies will benefit from for the duration of the contract. On a case-by-case basis and for large rollouts/projects, CDW•G will work with OMNIA Partners Participating Public Agencies to provide deeper discounts.

The benefit of using CDW•G's NAP is that it is a publicly available (24/7) and verifiable price schedule, and you can feel confident that its pricing is both up-to-date and competitive.

We have continued to see the technology solutions evolve and OMNIA Partners Participating Public Agencies' diverse needs change. Cloud offerings are constantly evolving and increasingly complex, with a range of subscription and consumption-based offerings, SaaS, IaaS, PaaS, among others. CDW•G's pricing is based on Discount 0% off MSRP where available to CDW•G. In cases where MSRP pricing is not available and/or the offering is unique, pricing will be based on CDW•G invoiced price. This structure provides the necessary flexibility to enable the City of Mesa and OMNIA Partners Participating Public Agencies to make purchases of offerings, as cloud offerings evolve, through the life of our contract.

For Services under group 11, we have included rate cards with hourly rates. For group 12 and other specialized offerings not specifically contemplated in this RFP but existing under the scope of Technology offerings, CDW•G and OMNIA Partners Participating Public Agencies will mutually agree upon/execute document, such as a Statement of Work (SOW), and pricing will be based on CDW•G invoice.

Prices include lowest ground freight within the 48 contiguous United States when referencing this Agreement. All orders are subject to CDW•G's standard shipping policies in effect at the time of order placement. In those instances that call for express or overnight delivery, shipping costs will be pre-paid by CDW•G and added to the customer invoice.

Our offer is based on our response submitted on December 20, 2023, to the exceptions outlined in Exhibit A, Response for National Cooperative Contract and Exhibit B, Administration Agreement, Example.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Catalog or Index

B. Describe the catalog or index that discounts will be taken.

CDW•G publishes, maintains, and provides access to NAP at www.cdwg.com available 24/7. The single most important parameter in a price model is the reference point from which discounts are calculated.

Competitive Price Analysis

The City and OMNIA Partners Participating Public Agencies can trust that the pricing is competitive with other large-scale contracts. As stated above, by tying your pricing to the CDW•G's NAP reference point, we ensure real-time market-based competitive pricing for purchases over the life of the agreement. To ensure our competitiveness, CDW•G monitors competitive pricing, market trends, supply chain forecasts, and a holistic view of the IT marketplace to ensure our NAP pricing benefits the City of Mesa and OMNIA Partners Participating Public Agencies. CDW•G's proprietary technologies along with dedicated pricing experts ensure CDW•G's NAP pricing is adjusted to be price competitive.

Manufacturer Pricing

C. Describe any special manufacturer pricing available to Participating Agencies.

CDW•G's catalog offers access to all manufacturers. As a $25 billion solution provider, we have strong partnerships with the largest and most innovative manufacturers. This ensures our NAP pricing for all the manufacturers is inclusive of our economies of scale, relationship, and position in the marketplace. For specific scenarios, such as large volume purchases/projects, CDW•G will work with the manufacturers to secure deeper discounts. Analyzing the purchase history of the City of Mesa and OMNIA Partners Participating Public Agencies, we are confident in our ability to continue to work with your preferred manufacturers to provide a competitive offering through the life of the contract.

Special/Large Order Pricing

D. Describe any special large order or large customer pricing or additional discounts available to Participating Agencies.

CDW•G has worked with numerous OMNIA Partners Participating Public Agencies during the current contract to obtain deeper discounts and account for budget constraints. In addition, we take advantage of manufacturer promotions, and volume purchases to provide maximum benefit to the City of Mesa and the OMNIA Partners Participating Public Agencies.

Additional Discounts

E. Describe any products offered by Supplier that are not captured in the pricing matrix below. Describe how Supplier proposes to price those items.

As technology offerings are constantly evolving, and becoming increasingly complex, specialized requirements not contemplated under this RFP, will be identified in a Statement of Work or similar document(s) and mutually agreed/executed between CDW•G and OMNIA Partners Participating Public Agencies. The pricing will be determined based on CDW•G invoiced price.

TAB F
OMNIA PARTNERS' DOCUMENTS & REQUIRED RESPONSE FORMS

3.1 COMPANY

Supplier must supply the following information for the Principal Procurement Agency to determine Supplier's qualifications to extend the resulting Master Agreement to Participating Public Agencies through OMNIA Partners.

History

A. Brief history and description of Supplier to include experience providing similar products and services.

About CDW•G

Founded in 1984, CDW LLC (CDW) is a leading provider of technology solutions to over 250,000 customers composed of small-, medium-, and large-sized public and private entities. CDW Government LLC (CDW•G) is a wholly owned subsidiary of CDW, incorporated in 1998 to address the specific needs of our government, education, and healthcare customers. As such, we have been providing similar products and services for nearly 40 years. Our broad array of products and services ranges from hardware and software to integrated IT solutions such as security, cloud, hybrid infrastructure, and digital experience.

Figure 11. US Office Locations

Our unique company structure provides the City of Mesa and OMNIA Partners with products and services only a large national reseller can provide, combined with a local presence typical of a small business. Account Teams are segmented by agency type, Education (K-12/Higher Ed), or Government, and by region. To provide the City of Mesa and OMNIA Partners with one contact who is knowledgeable of every nuance of their organization, every customer has a dedicated CDW•G Account Manager as your primary point of contact. Customers in the largest markets also have the support of a local Advanced Technology Account Executive (ATAE) in the field.

CDW•G is one of the largest technology solution providers in the US, currently carrying more than 100,000 name-brand technology products from over 1,100 leading IT manufacturers and software publishers. We have a large original equipment manufacturer (OEM) and software publisher presence in our offices across the country and are strategically supported in the field with our Advanced Technology Account Executives. CDW•G delivers more than just products; we deliver IT solutions and services in a manner consistent with procurement guidelines and the City of Mesa and OMNIA Partners Participating Public Agencies' preferences. With subject matter experts to advise on the right IT solutions and the purchasing avenues to accommodate efficient and seamless procurement, CDW•G offers flexibility in how customers engage with and buy from us. We pride ourselves on our innovation and a ceaseless desire to deliver an excellent customer experience.

We have over 15 years of experience managing OMNIA agreements. Through our contract management capabilities and nationwide state, local, and education (SLED) sales force, we have successfully expanded contracts and member utilization rates. We hold 3 master

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

agreements, which include Region 4 ESC – TX - Technology Solutions, Products and Services, City of Mesa - Information Technology Solutions & Services, and Region 4 ESC – TX – Total Cloud Solutions. Additionally, we maintain ongoing strategic cadences with OMNIA Partners to drive contract utilization through enablement and marketing activities. Under our existing contract with the City of Mesa and OMNIA Partners, we have adoption within all 50 states and utilization by 900 State Agencies, 6,750 Local Government entities, 1,400 Higher Education entities, and 2,300 K-12 entities. Of these entities, we have successfully built and launched over 92 Participating Public Agency-specific agreements.

Local Focus and National Presence

Our customers are the center of all we do at CDW•G and the fuel behind our initiatives, solutions, and services. Part of our dedication to our customers is a sales and service force best suited to the needs of customers. With a local presence and national reach throughout the US, our team is ready to serve the City of Mesa and OMNIA Partners Participating Public Agencies. We have coworkers in offices and remote locations in or near every major city in the US.

Cooperative Experience

Not only is our sales force well-versed in growing contracts, but they are also experienced in promoting cooperative contracts. We believe the contract structure that the City of Mesa and OMNIA Partners offer, combined with our expertise in promoting dynamic procurement solutions with our broad customer ecosystem, offer a unique opportunity to optimize contract adoption and growth. Collectively, we remove the complexity of procurement and technology that government agencies often encounter.

Additionally, CDW•G's Program Management Team is singularly devoted to managing contracts. Its responsibilities are separate from those held by account managers. Members of the Program Management Team work full-time to maintain contract compliance, reporting requirements, and administer contract procedures, including contract launch. CDW•G invests in these resources based on our understanding that contracts are complex commitments. We look forward to the possibility of continuing to work with the City of Mesa and OMNIA Partners Participating Public Agencies to apply best practices and lessons learned from our cooperative experience to further this evolution.

National Salesforce

B. Total number and location of salespersons employed by Supplier.

CDW•G currently employs more than 15,000 coworkers globally, with 51 different locations nationwide. Located across the US, CDW•G has more than 1,500 Account Managers and Advanced Technology Account Executives forming Account Teams segmented into four verticals: Higher Education, K-12 Education, Federal Government, and State and Local Government. Below, the City of Mesa and OMNIA Partners Participating Public Agencies can find visuals to how CDW and CDW•G's State and Local Government (SLG), K-12 Education, Higher Education (Higher Ed), Healthcare, and Federal sales teams are regionalized across the US.

Annual Sales

D. Annual sales for the three previous fiscal years.

In 2022, CDW generated nearly $24 billion in revenue, which positions CDW as a leader in our industry. Our continued financial stability serves to assure the City of Mesa and OMNIA Partners Participating Public Agencies that we are here to stay and can support you through the life of this contract and beyond.

Year	CDW Revenue	CDW•G Revenue
2022	$23.7 Billion	$8.6 Billion
2021	$20.8 Billion	$8.2 Billion
2020	$18.5 Billion	$8.2 Billion

We believe the major factor that ensures our financial stability and separates us from our competitors is the balanced approach to our business. This approach includes:

- **We don't rely on any one customer.** In our US business, which represents approximately 90% of our revenues, we currently have five dedicated customer channels: corporate, small business, government, education, and healthcare, each of which generated $1.9 billion or greater in Net sales in 2022. Net sales to customers in the UK and Canada combined generated $2.9 billion in 2022. We believe this diversity of customer end-markets provides us with multiple avenues for growth and has been a key factor in our ability to weather economic and technology cycles and continue to gain market share.
- **We don't rely on any one partner.** In 2022, we generated over $1.5 billion of Net sales from each of our five largest vendor partners. We have received the highest level of certification from major vendor partners such as Cisco, Dell EMC, Hewlett Packard Enterprise, IBM, Microsoft, NetApp, Nutanix, Palo Alto Networks, Samsung, and VMware which reflects the extensive product and solution knowledge and capabilities

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

that we bring to our customers' IT challenges. These certifications also provide us with access to favorable pricing, tools, and resources, including vendor incentive programs, which we use to provide additional value to our customers. Our vendor partners also regularly recognize us with top awards and select us to develop and grow new customer solutions.

- **We don't rely on any one solution.** Our sales span a number of categories, including Miscellaneous Hardware (19.9%), Software (15.5%), Notebooks/Mobile Devices (26%), Netcomm Products (11.5%), Services (7.8%), Video (7.5%), Desktops (5.4%), Enterprise and Data Storage (5.8%) and others.

We simplify the complexities of technology solutions across design, selection, procurement, integration, and management for our customers. Our goal is to have our customers, regardless of their size, view us as a trusted adviser and extension of their IT resources. Our multi-brand offering approach across our vendor partners enables us to provide the solutions and services that best address each customer's specific requirements to enable their desired business outcomes.

The City of Mesa and OMNIA Partners Participating Public Agencies can be confident that CDW•G's experts will be around to address questions or concerns, provide additional equipment, and assist with enhancements or new technologies.

For more financial information, please visit our investor relations page: http://investor.cdw.com/.

FEIN and Dunn & Bradstreet Report

a. Submit FEIN and Dunn & Bradstreet report.

CDW•G's FEIN is 36-4230110. The City of Mesa and OMNIA Partners can find a copy of our Dunn & Bradstreet Report at the end of this section in Appendix 1.

Environmental Initiatives and Policies

E. Describe any green or environmental initiatives or policies.

Overview

CDW•G is committed to being a good steward of the environment and earth's natural resources. We strive to continuously improve our own environmental performance while growing our business and supporting our partners and customers. Given our role in the technology sector as a leading multi-brand technology solutions provider, our greatest opportunities to impact the environment lie in collaborating with our supply chain and working with our partners and customers to help them achieve their environmental goals. This includes continuing to expand our offering of sustainable and socially responsible technology products and solutions.

CDW•G understands and supports the City of Mesa and OMNIA Partners Participating Public Agencies' desire to encourage suppliers to incorporate sustainable practices throughout their business operations. As evidenced by our practices outlined in the following paragraphs, we also emphasize integrating environmentally conscious procedures into our everyday operations, and we continually strive to find new ways to reduce our carbon footprint.

2022 Environmental Highlights

In 2022, we made significant progress on our environmental priorities, including climate action, energy efficiency, and waste reduction.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

For instance, we worked with several vendor partners and Procurri to introduce a new carbon offset program. Additionally, Igneo Technologies, a Proccuri partner, began handling downstream processing of our e-waste. The global company specializes in returning critical metals such as copper, gold, silver, and palladium back into the supply chain.

When replacing our own technology devices, we seek to minimize our environmental footprint by finding reuse opportunities for our equipment. At our headquarters in Illinois, we have grassroots, coworker-led initiatives to provide veterans groups, underserved communities, and other organizations with access to our gently used equipment.

Other notable highlights from 2022 include the following:

- Created our Climate Task Force and worked with outside experts to develop our long-term, enterprise-wide climate strategy and action plans
- At our two US distribution centers, we outperformed our waste diversion goal of +90% for the fourth year in a row and recycled thousands of tons of packaging material, cardboard and paper
- Enabled online searchable access for customers to an expanded portfolio of environmentally certified products (Energy Star, EPEAT and TCO Certified) and a broad range of cloud-based solutions that improve energy efficiency
- Expanded our IT Asset Disposition (ITAD) program, which facilitates the recovery and recycling of devices that are no longer being used – to benefit the environment and protect the security of users' data
- Maintained our environmental management system and energy certifications in the US, Canada and UK

Our Facilities

All CDW•G distribution centers hold ISO 14001 certification, which is the international standard for Environmental Management. This certification ensures consistency and effectiveness in our Environmental Management System (EMS) and demonstrates our long-established commitment to managing our business responsibly.

These certifications ensure consistency and effectiveness in our EMS and demonstrate our long-established commitment to managing our business responsibly. We continue to utilize a wide variety of energy efficiency measures, such as LED lighting and motion sensors, across our company. In addition, for the fourth year in a row in 2022, our two US distribution centers surpassed our goal for a waste-to-landfill diversion rate of more than 90%, which is consistent with our facilities' ISO 14001 certification.

We continually develop our green efforts in compliance with ISO 14001 standards. Doing our part to sustain a healthy planet is critical to the well-being of our coworkers, customers, communities, and business. Our efforts are inspired and led by coworkers around the globe as we strive to do our part for the environment.

Our environmental policy and EMS define the structure, practices, and procedures for our environmental program. As part of our commitment to continuous improvement, we regularly evaluate the efficiency of our use of natural resources. We seek to identify and address opportunities to improve by reducing waste in landfills through enterprise-wide recycling initiatives, implementing innovative packaging solutions, and integrating principles of environmental responsibility throughout our business.

Coworker Initiatives to Protect the Environment We Share

At CDW•G, we recognize our part in responsible environmental management and conservation of resources. One of the ways we demonstrate our commitment to environmental management and the principle of sustainable development is through our beGreen program. The beGreen program provides CDW•G coworkers with a platform to reduce, reuse, and recycle to make our operations leaner, more efficient, and more environmentally responsible. Our beGreen program continues to provide coworkers with a platform to share ideas and take collective action to protect our environment. The program is managed by a cross-functional team of coworkers from multiple CDW•G locations, and participation continues to be strong since its inception 13 years ago.

Our coworkers continue to be active participants in their local communities' efforts to address environmental sustainability. CDW•G initiated a partnership with Soles4Souls, an organization that redirects unwanted shoes away from waste streams to communities in need.

Energy Management and Climate Action

Energy Efficiency

We track our energy management performance on an ongoing basis and continue to seek ways to drive further efficiencies. As part of our ISO 14001 certification, we maintain a three- to five-year window of visibility to identify, assess, and plan for the implementation of additional energy efficiency improvements. As a part of our regular evaluation, we conduct in-depth internal audits and self-assessments to support continual improvement. We review our significant environmental impacts each year and set targets to reduce them. We track our energy usage each year and continually look for ways to reduce it.

To achieve the ISO 14001 certification, we were required to provide significant details regarding our procedures for the following:

- Chemical handling, storage, and labeling Universal waste (old computer equipment)
- Stormwater and transportation spills, oils, lubes, and forklift batteries
- Electrical usage
- Paper and cardboard
- Lithium-ion battery management

Our ability to directly impact our energy usage is somewhat limited by the fact that we lease the majority of our global real estate footprint.

Specific energy efficiency efforts include:

- Energy-efficient lighting solutions, including indoor and outdoor LED lighting
- Motion sensor lighting and conveyor systems that turn off in response to inactivity
- ”Smart” HVAC systems that adjust according to business hours and seasonal temperatures
- Water consumption solutions, including rainwater harvesting efforts in the UK and environmentally friendly water heaters in the US
- Solar panel usage at two of our UK locations

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal (“RFP”) furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC (“CDW•G”).

Carbon Emissions

We are also working with our third-party shipping and logistics partners to develop transportation management systems and delivery schedules that help them increase their own energy efficiency, which helps to reduce our transportation-related emissions. Currently, approximately 98% of our US shipments are delivered by carriers enrolled in the US EPA SmartWay Transport Partnership, which helps companies advance supply chain sustainability by measuring, benchmarking, and improving freight transportation efficiency, and more than 72% of our US shipments are handled by carriers with climate goals.

EPA Green Power Partnerships

CDW•G participates in the United States Environmental Protection Agency's Green Power Partnership program. In 2008, we began purchasing 100% green power for our two data centers in the Madison, Wisconsin, area through the Madison Gas and Electric (MGE) Green Power Tomorrow program. We purchase almost 12 million kilowatt-hours per year of renewable energy from MGE, making CDW•G the largest private buyer in the program.

Transportation Initiatives

Approximately 98% of our US shipments are delivered by carriers enrolled in the US EPA SmartWay Transport Partnership, which helps companies advance supply chain sustainability by measuring, benchmarking, and improving freight transportation efficiency. We also have programs aimed at consolidating freight volume and reducing the number of shipments and vehicles needed to complete a delivery, which enables our carrier partners to reduce carbon emissions. These global programs include:

- UPS Trailer Utilization, which reduces the number of truck movements needed to deliver freight by creating direct-lane pulls from our distribution centers to customers in a common area
- Best Way (Logistics Specialist Solution), which reduces the number of trailers needed to ship an order by consolidating multiple orders into a single truckload

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

In addition, as part of our ongoing environmental impact assessment, we analyzed the Environmental, Social, and Governance goals and performance of our transportation and logistics partners.

Materials Efficiency

Reducing Waste to Landfill

CDW is committed to supporting the circular economy and responsible consumption through materials efficiency and a reduction in waste to landfill. While we have a wide variety of recycling and reuse programs across our office and warehouse facilities, our largest impact is in two areas: reducing distribution center waste from packaging and other materials and managing electronic waste.

OVER THE LAST SIX YEARS, OUR US DISTRIBUTION CENTERS HAVE RECYCLED:

2,966 TONS
OF PACKAGING MATERIAL

9,794 TONS
OF CARDBOARD

636 TONS
OF PAPER

THOUSANDS
OF WOOD AND PLASTIC PALLETS

In addition to addressing packaging waste and electronic waste, our other efforts include:

- Use of digital documentation when possible and recycling shredded paper documents if they are used
- Recycling and composting of cafeteria waste
- Elimination of plastic bottles from vending machines in our offices and warehouses
- Elimination of single-use plastic cups
- Company-wide internal toner cartridge recycling program
- Recycling centers on each floor of our office locations
- Recycling chutes for certain materials at our distribution centers
- Collaboration across procurement functions to reduce the need for consumable supplies and increase recycling possibilities across our offices

For the third year in a row, CDW's US distribution centers outperformed their waste diversion goal of **90%+**.

IT Asset Disposition Services Ensure Proper Disposal of E-Waste

CDW•G's IT Asset Disposition teams offer our customers proper device wiping, removal, evaluation, and recycling services for devices that are no longer being used. Proper asset disposition involves completely and securely wiping devices of sensitive data and environmentally responsible recycling and disposal of e-waste. For any devices of value, we provide a buyback rebate on the customer's account.

Our process is certified by e-Stewards, which:

- Prohibits the export of hazardous waste to developing countries
- Requires a certified ISO 14001 environmental management system
- Prohibits all toxic waste from being disposed of in landfills and incinerators
- Prohibits the use of prison labor in handling sensitive data and toxic electronics

In addition, when replacing our own devices, we seek to minimize our environmental footprint by finding a reuse opportunity for our used equipment. At our headquarters in Illinois, we have had grassroots, coworker-led initiatives to provide veterans groups, underprivileged communities, and other organizations access to our gently used equipment.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Smart Packaging Solutions

At our distribution centers, we utilize several packaging processes that address environmental considerations while still meeting and exceeding customer expectations. Our solutions include the following:

- Using and reusing our vendor partners' packaging when possible, minimizing the need for additional packaging materials when fulfilling customer orders.
- Redesigning our cartonization process to utilize algorithms that consider dimensional fit (a more accurate method than volume fit), which enables us to use the least amount of packaging possible.
- Using envelope shippers that are 100% recyclable and provide warehouse and shipping space efficiencies for small items.

Additionally, our pick-pack shipping containers are made from the maximum allowable amount of post-consumer recycled material and are 100% recyclable.

We continue to work with our vendor partners and logistics suppliers to evaluate opportunities for smarter packaging solutions that maximize both product protection and material efficiencies.

Environmental Considerations: Partners and Customers

We continue to elevate our role in sustainable and socially responsible technology by working with our technology partners to promote their environmentally certified products and solving for our customers' outcomes around their ESG goals and priorities.

In 2022, CDW•G made it easier for our sales teams and our customers to identify and select from a broad range of environmentally certified products (Energy Star, EPEAT, and TCO Certified) and cloud-based solutions that deliver added energy efficiency. Our e-commerce sites enable customers to filter their online catalog search to identify and buy third party-certified products, and our sales teams are trained to assist clients with finding and selecting these products.

Our goal is to be able to offer our customers a full stack of solutions that addresses a broad spectrum of environmental considerations. In addition to third party-certified products, we are enhancing our ability to deploy and configure products remotely to reduce the environmental impacts of packaging and transportation and offering device recovery and recycling programs to reduce electronic waste from products that need to be replaced.

EPEAT Compliance

CDW•G assists customers in determining environmentally preferable products in many ways, including:

- Providing website specifications for each product details; i.e., EPEAT and/or Energy Star compliant and specific power consumption data, where available
- Providing a portfolio of manufacturers that are committed to producing environmentally friendly technology and that have programs and policies that support their commitment.
- Offering products that meet the evolving standards associated with the Environmentally Preferable Purchasing Program (EPP) and the IEEE 1680 Standard for the Environmental Assessment of Personal Computer Products
- Training our sales teams on the requirements of Executive Order 13101 Greening the Government Through Waste Prevention, Recycling, And Federal Acquisition

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

CDW•G is committed to protecting the environment by continuing to manage our business with increased efficiency and understanding the full extent of our environmental impact. While we strive for continuous improvement in the environmental performance of our operations, we recognize our greatest opportunities to impact the environment lie in our supply chain and our ability to work with our partners to address issues such as climate change and waste reduction. More than ever, we are focused on working with our partners and outside experts to evaluate our environmental impacts and opportunities.

Protecting Forests through Responsible Paper Consumption

Through our Printer Supplies Program, CDW•G customers are offered complimentary enrollment in PrintReleaf, a third-party certification program that empowers organizations to sustain and grow global forest systems through:

- Ongoing measurement of paper consumption
- Custom paper footprint and forest impact insights
- Opportunities to automatically "re-leaf" forests through reforestation projects of the customer's choosing

Since we joined the program in June 2018, CDW customers have collectively offset the equivalent of more than 1.2 billion standard pages of paper consumption by supporting the reforesting of more than 140,000 trees.

CDW is also working with partners on programs to help customers better manage their print needs and costs and stay within their corporate policies for sustainability. The goal of the PrintReleaf program is to deliver on the potential for Forest Positive Printing – to enable customers to be responsible for planting more trees than their printing uses.

Business Diversity Program

F. Describe any diversity programs or partners supplier does business with and how Participating Agencies may use diverse partners through the Master Agreement. Indicate how, if at all, pricing changes when using the diversity program. If there are any diversity programs, provide a list of diversity alliances and a copy of their certifications.

Business Diversity Program – Overview

When you partner with CDW•G, you are partnering with a company where business diversity is a deeply embedded, ongoing priority. Since the inception of our Business Diversity Program in 2007, we have sought to promote diverse supplier participation representative of our customers and communities that contributes to sustainable economic growth. CDW•G is prepared to help the City of Mesa and OMNIA Partners Participating Public Agencies around the US meet their diversity goals. We're committed to simplifying the complexity of Business Diversity for the City of Mesa and OMNIA Partners Participating Public Agencies.

While we are woman-led with our CEO Chris Leahy, we are not a minority- or woman-owned business enterprise. Because we are not a large corporation with our own M/WBE certification, CDW•G has the opportunity to invest in small and diverse businesses. As a result, **we drive job creation** and **contribute to lasting economic** empowerment in communities across the US. Our focus is creating a meaningful sourcing plan with minority, small, local, veteran-owned, and other diverse suppliers. We have the privilege, opportunity, and responsibility to partner with diverse suppliers and bring them with us to the City of Mesa and OMNIA Partners Participating Public Agencies' opportunities. In our experience, customer diversity initiatives are not always

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

met by one or two specific certifications; these initiatives are met through partnership and collaboration.

Results of the CDW Business Diversity Program

Partnering strategically with diverse and small businesses enables us to keep providing the industry's best experience while contributing to economic growth in diverse communities nationwide. We look forward to continuing to grow our practice and support local businesses as our practice continues to grow. Since 2007, we have spent $25 billion, $3.6 billion in 2022 alone, with certified small, diverse suppliers, and we currently feature over 1,400 small and diverse suppliers who we actively partner with on a regular basis. Of the $3.6 billion in 2022, $2.3B was solely from CDW•G.

In 2019, we became a member of the Billion Dollar Roundtable (BDR), joining an exclusive group of 40 US-based companies procuring more than $1 billion annually from minority- and women-owned businesses on a first-tier basis.

In 2021, industry-leading research IT research firm and consultancy, Gartner, conducted a case study on CDW's Business Diversity Program for procurement leaders. They concluded the following: *"CDW's supplier diversity team enables business partners to retain the best-fit diverse suppliers for new sourcing needs by providing targeted business-relevant information gathered from past supplier engagements."* Our comprehensive Business Diversity Program ultimately allows procurement officials to be confident in incorporating small and diverse suppliers into their supply chain.

MBE Testimonial – KNZ Solutions

KNZ Solutions, a certified minority-owned business, was founded in 2017 by Khaled Mussa. Here's what KNZ has to say about their partnership with CDW•G:

"CDW•G has been an invaluable support to KNZ Solutions. Their commitment to fostering collaboration and nurturing partnerships truly sets them apart. Their expertise, resources, and unwavering dedication played a pivotal role in navigating the challenges inherent in our industry. ***The impact of this partnership extends far beyond the bottom line – KNZ's employee count increased, and jobs were created.*** Our partnership has not only elevated our business but has also reinforced our belief in the transformative power of meaningful partnerships. We look forward to continued success and growth together."

In 2022, we enhanced our national strategy across the US by welcoming supply chain experts to our growing team. These regional market leaders are focused on **building partnerships with local suppliers** and across our customer base. Their efforts have improved our agility and increased our effectiveness in identifying and mentoring new diverse partners. Additionally, this comprehensive approach enables us to gain a deeper understanding of the unique challenges, opportunities, and economies of scale present in each region. We use these real-time insights to inform and tailor our business diversity strategy, boosting both performance and impact.

In 2023, CDW hosted the BDR Summit, which is an annual gathering of BDR members to share our successes, best practices as well as opportunities for supplier diversity program growth.

Our 2022 Economic Impact across the United States is highlighted in the graphic below:

A partnership with CDW•G means that local communities across the US will continue to gain positive economic impacts.

Benefits

Benefits of our Business Diversity Program and incorporating small and diverse suppliers include the following:

Reach Small and Diverse Supplier Goals

CDW•G's comprehensive Business Diversity Program allows you to meet your goals quickly and efficiently. Meet the City of Mesa and OMNIA Partners Participating Public Agencies small, minority-owned supplier goals without having to invest time and resources into finding, evaluating and engaging them yourself. CDW•G has a comprehensive vetting process that ensures each small and diverse partner can meet our customers' quality and performance expectations.

Diversify Your Supply Chain

Partnering with small and diverse businesses allows the City of Mesa and OMNIA Partners Participating Public Agencies' to diversify your supply chain, boosting your resilience and agility in an unpredictable world.

First-Mover Advantage

With a broad network of small and diverse partners nationwide, the City of Mesa and OMNIA Partners can enjoy first-mover advantage when it comes to new, cutting-edge technologies.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Tier I and Tier II Programs

CDW•G is continuously developing other diverse partnerships to meet our customers' needs. These relationships include, but are not limited to, product manufacturers, distributors, and service providers nationwide who support direct (Tier 1) and indirect (Tier 2) fulfillment through presales and service engagements. We recruit diverse and disadvantaged partners locally and regionally since customer spending goals are typically tied to local laws and require the partner to be certified within their city or state.

These various engagement models allow the City of Mesa and OMNIA Partners Participating Public Agencies the choice to leverage the best suited diverse partner.

We realize that each customer has unique targets that require a thoughtful and dynamic approach to strategic sourcing. Our Business Diversity program offers a broad and robust partner network. The following are a few ways that CDW•G can support the City of Mesa and OMNIA Partners Participating Public Agencies in meeting your diverse supplier goals:

- Educate users on CDW•G's business diversity program and how to initiate a planning session.
- Conduct customer-focused planning sessions with your dedicated CDW•G Account Manager and Business Diversity program representative.
- Utilize information gathered from planning sessions to develop custom plans to achieve customer goals around Business Diversity.
- Perform ongoing engagement to adjust plans as necessary.

WBE Testimonial – BlackHawk Data

BlackHawk Data is a New York-based WBE founded in 2018. Read about the BlackHawk Data and CDW•G Partnership below:

"One of my primary go to partners has always been CDW. I knew if I went to them for advice, suggestions, and just to simply talk to, they would help me get through the start up phase. Well, they did more than that. Along with the local team in New York, the CDW Diversity Team helped me and made introductions to people around the US that I would not normally have met.

I do honestly owe a good amount of our success to the CDW Team. As without them, getting through some of the hardest and darkest times may not have been possible without them.

Because of partners like CDW, we have been able to grow the business to 45 people, hopefully, $60M in 2023, and become a CRN Triple Crown Winner.

My heart is full with love and continued support on building our relationship."

More insight into our Tier I and Tier II Programs are below:

The Tier I Program

CDW•G is continuously developing other small and diverse partnerships to meet the City of Mesa and OMNIA Partners Participating Public Agencies' Tier I needs. In fact, we offer an online registration tool where businesses can register for future opportunities with CDW•G. Our growing list of suppliers means that the City of Mesa and OMNIA Partners Participating Public Agencies can count on CDW•G to deliver against their diversity spending targets. CDW•G has also partnered with small and diverse leasing companies that can support the City of Mesa and OMNIA Partners Participating Public Agencies Tier I spend requirements. CDW•G's Tier I program offers a low-risk experience for agencies looking to achieve direct spend with small, disadvantaged businesses while upholding the highest standards of IT procurement.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

The Tier II Program

In an effort to foster even more opportunities for small, diverse businesses, CDW•G launched a Tier II Business Diversity Program in 2009 for its key manufacturing, distribution, and logistics partners. The program's goal is simple: to further opportunities for competitive small and diverse partners to supply goods and services to CDW•G and deliver them to our customers like the City of Mesa and OMNIA Partners Participating Public Agencies. CDW•G also provides Tier II reporting to customers that track their spending, ensuring that suppliers meet contract compliance and obligations. Our Tier II reports show the items that CDW•G purchased from diverse suppliers, all items that our customers purchased from CDW•G, and all items that CDW•G purchased from diverse suppliers to fulfil customers' orders directly. A major advantage to this model is the ability to recognize spend across multiple diverse firms by leveraging CDW•G's network of vetted hardware and software suppliers.

Notable Awards

Recent, notable awards that demonstrate our commitment to diversity include:

- 2023 Military Times Best for Vets: Employers List
- 2024 Military Friendly Employers award from Military Friendly
- 2023 Best Employers for Diversity – Forbes
- The Women's Business Enterprise National Council (WBENC) recently named CDW as one of its America's Top Corporations for Women's Business Enterprises (WBEs). According to the WBENC, this honor is the only national award recognizing corporations for world-class Business Diversity programs that reduce barriers and drive growth for women-owned businesses.
- CDW has been ranked 11th of Nasdaq 100 companies for its ESG reputation in December 2022

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Mentoring Programs

Mentorship and advocacy are integral components of our Business Diversity Program. It's one way we live up to our commitment to build stronger communities through economic inclusion. We have had numerous successes with mentor protégé programs with entities such as the City University of New York (CUNY) and Texas Tech University; these programs are designed to enhance diverse partners' capabilities, assist in meeting development goals, and improve their abilities to compete for and win contracts. With these programs, we are able to grow their businesses and relationships.

During the year, we expanded our partnership with Disability:IN, a leading nonprofit resource for business disability inclusion worldwide. As an Inclusion Works partner company, we're proud to mentor disability-owned businesses. Disability:IN's Inclusion Works program provides companies with a team of disability inclusion experts to help them create an inclusive culture while simultaneously developing a sustainable recruitment strategy.

WBE Testimonials – WBENC Conference

In 2023, CDW funded a booth for 15 woman-owned businesses at the annual Women's Business Enterprise National Council (WBENC) conference. This financial commitment directly impacted the growth of those businesses. Here's what two women had to say:

Pam Feld, CEO, WBE/MBE: The booth sponsored by CDW afforded me the opportunity to deepen existing corporate relationships and engage with a multitude of WBEs from all over the country. I came away with 2 RFPs, 4 potential speaking opportunities, and 6 meetings lined up for expanding relationships.

Mellissa Tong, CEO, WBE/MBE: I was really grateful that my talk at CEO Success Community Booth 718 was so well received that I got a recommendation to deliver a one-hour talk on Storytelling for Branding and Marketing for Maui's Economic Development Center in late April. Then, I was contacted by WBENC national to do a pitch workshop for them on May 5th. None of this would have happened without CDW's generous support of Booth 718 at WBENC in 2023.

Commitment to Helping Close the Digital Divide

One of CDW•G's core values and strengths is making technology work so people can do great things. However, we recognize that technology doesn't work equally for everybody, and reliable access to technology is often not equitable, resulting in a digital divide. We are determined to change this narrative and are passionate about closing this divide within our company and the communities we support. Through our Business Diversity Program, we are actively working towards digital equity and making a positive impact. Below are a few of the ways we work to close the digital divide:

Promoting Digital Equity

CDW•G prioritizes digital equity by providing products and services to sectors that need them the most, such as education, healthcare, and government. We firmly believe that closing the digital divide requires collaboration from all leaders, within and outside our organization. By partnering with like-minded organizations that share our commitment to digital equity, we can amplify our collective impact and bridge the gaps we see everywhere.

Business Diversity

Our Business Diversity Program is a critical differentiator for CDW•G, enabling us to deliver increasingly innovative products, services, and solutions to our customers. Since the inception of our business supplier program in 2007, we have actively sought to promote diverse supplier participation that aligns with the needs and values of our customers and communities. We take

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

pride in our comprehensive and active program, recognized as global champions for Business Diversity by esteemed organizations like Gartner, the Billion Dollar Roundtable, and WEConnect International. We also embrace the responsibility of sharing our experience and expertise with our customers and suppliers because we believe that when they succeed, we all win.

Driving Economic Empowerment in Communities

Investing in small and diverse businesses presents a unique opportunity to create jobs and contribute to lasting economic empowerment in our communities. With the global population becoming increasingly diverse, minority audiences are emerging as a significant target for companies, and diverse-owned businesses play a vital role in the small business sector.

Commitment to Fostering Equity

CDW•G is committed to fostering equity and ethical behavior throughout our global supply chain. Collaboratively with our customers and supplier partners, we believe in the power of community members as drivers of prosperous, resilient local economies, creating efficiencies throughout our global supply chain.

MBE Testimonial – Betis Group

Betis is a minority-owned systems integrator with 25 years of experience providing Information Technology consulting and solutions on a global scale. Here's what Betis had to say:

Betis and CDW have enjoyed a highly successful relationship since 2001. Thanks to CDW's successful contract win record, Betis provided project management, technical, and device installation services at more than 100 locations around the world. Over the last several years, our relationship [with CDW] has expanded as Betis helps support and deliver CDW's winning formula for gaining market share with private-sector customers who want to buy through a Tier-1 Diversity Supplier. The strategic collaboration between Betis and CDW has led to the acceleration of delivery and solutions for both our companies.

Social Impact

We are committed to making a long-lasting, meaningful difference through our global Social Impact program. With more than 80 social impact partners and as members of Tech for Good, we invest in technology that creates deliberate, positive social benefits. One recent partnership is with Compudopt, a national nonprofit that provides technology access and education to under-resourced youth. Our collaboration across the country aligns with our shared strategy of providing access to technology. Through local donation drives and employee engagement at Compudopt locations, we empower youth by repurposing personal, non-company computers and educating them about the potential of technology.

Goals

One of our priorities in 2023 is empowering our seller community with the knowledge and resources to engage with our customers about how each company's ESG goals intersect. These intersection points will help determine how to collaborate and advance their respective strategies. We're committed to simplifying the complexity of Business Diversity for our customers and partners, and we are ready to collaboratively solve their toughest challenges.

As a whole, CDW•G's Business Diversity Program goals are to increase procurement opportunities for direct and indirect spending with small, minority-owned, women-owned, veteran-owned, disabled-owned, and other small, disadvantaged businesses. The CDW philosophy on diversity extends beyond our coworkers, the customers we serve, and the communities we live in to include our valued supplier partnerships. Our commitment to strategically partner with qualified businesses enables CDW•G to continue to provide the best customer experience while contributing to economic growth in diverse communities.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

CDW•G continuously seeks new partnerships that help our customers meet their small and diverse supplier goals and support local communities. In 2022, we enhanced our national strategy across the US by welcoming supply chain experts to our growing team. These regional market leaders are focused on building partnerships with local suppliers and across our customer base. Their efforts have improved our agility and increased our effectiveness in identifying and mentoring new diverse partners. Additionally, this comprehensive approach enables us to gain a deeper understanding of the unique challenges, opportunities, and economies of scale present in each region. We use these real-time insights to inform and tailor our business diversity strategy, boosting both performance and impact.

Diversity Pricing

The CDW•G pricing structure, inclusive of our proposed discounts, submitted in this proposal will not be changed if/when a diverse partner is engaged. Pricing information can be found in Tab E. Access to our robust Business Diversity Program is a no-cost value-added service.

Diversity Alliances and Certifications

In addition to being part of the Billion Dollar Roundtable, an important aspect of our Business Diversity program is our support and participation in various organizations and events focused on developing relationships and business opportunities within diverse communities.

We are a National Corporate Member of the National Minority Supplier Development Council, Inc., and The Women's Business Enterprise National Council. CDW•G supports other organizations, as well, which include:

- Chicago Minority Business Development Council, Inc.
- Women's Business Development Center of Chicago
- Minority Business Development Agency of Chicago
- National Veteran Owned Business Association
- National Gay & Lesbian Chamber of Commerce

Not only do we contribute financially to these organizations, but we also engage on advisory councils, attend and host events, and provide resources to support the organizations' focus on continued growth and success.

Business Diversity Success Story: University of Washington

Background

The University of Washington is a leading institution in terms of federal research funding, having received $1.63 billion in research awards in 2022. With such a significant investment comes the responsibility to adhere to diverse spend metrics and goals. Since 1983, the State of Washington has mandated that educational institutions adopt the state's diversitygoals to continue receiving state funding. In recent years, UW has made a strong commitment to expanding its diverse supplier base.

Partnership with MBE Mpulse

Through conversations with CDW•G's business diversity and sales teams, UW discovered a unique partnership between Apple, CDW•G, and Mpulse, a minority-owned technology reseller. This partnership enables higher ed institutions to procure Apple products through Mpulse as a 1st- supplier while leveraging CDW•G as a distributor within the supply chain.

Outcome

With Mpulse's expertise and e-procurement system integration capabilities, UW seamlessly shifted nearly $5M of annual Apple purchases through Mpulse and CDW•G, capturing Tier 1 minority-owned business spend through their e-procurement catalog. This helped UW maintain spend compliance and retain sources of federal and state funding and provided Mpulse exposure to a new geographical market, expanding their business in the process.

Certifications

G. Indicate if supplier holds any of the below certifications in any classified areas and include proof of such certification in the response:

CDW•G does not hold any of the below certifications.

a. Minority Women Business Enterprise

☐ Yes ☒ No

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Subcontractors and Affiliates

H. List any relationships with subcontractors or affiliates intended to be used when providing services and identify if subcontractors meet minority-owned standards. If any, list which certifications subcontractors hold and certifying agency.

As needed throughout the contract, CDW•G may look to bring on additional vendors to continue to meet the needs of the City of Mesa and OMNIA Partners Participating Public Agencies. CDW•G has partnerships with more than 1,400 small and diverse organizations all across the US.

The way that CDW•G categorizes our subcontractors and affiliates is unique. CDW•G sometimes contracts with third parties to deliver services when there are constraints on our resources. Our Partner Services group manages these companies. These incorporate in-depth processes for determining who we work with. Our Partner Services team is comprised of Professional Service Managers and billable project managers who oversee partner management and project oversight. These service managers work directly and collaboratively with our operations team, which is comprised of billing administrators and project coordinators that are engaged at the deal level. Each partner receives a review throughout the year ranging from quarterly to yearly depending on their level of engagement with CDW•G along with engagement level surveys to manage and control quality. Partners are held to a minimum survey score to continue performing work for CDW•G.

Depending on the unique needs of each opportunity, the CDW•G Account Teams will work with OMNIA Partners Participating Public Agencies to develop a solution that is both comprehensive and strategic to the specific partner. The partner chosen will be specialized based on the work and needs of the customer. Details of the chosen partner will be provided to the interested party during scoping. Many of our partners include certifications as defined in our Diversity Programs section above, and listed additionally below:

- Minority Business Enterprise (MBE)
- Historically Underutilized Business (HUB)
- Women Business Enterprise (WBE)
- Lesbian Gay Bisexual Transsexual Business Enterprise (LGBTBE)
- Veteran Business Enterprise (VBE)
- US Business Leadership Network Disability Business Diversity Program (USBLN DSDP)
- Women-Owned Small Business (WOSB)
- Small Disadvantaged Business (SDB)
- Service-Disabled Veteran Owned Small Business (SDVOSB)
- Small Business
- HUBZone

Post-scoping, our services projects follow our Project Management Engagement Methodology which includes a heavy emphasis on communication among the parties to the contract, especially between CDW•G and the customer. These communication points include regular meetings and reports to monitor status, risks, issues, and plans.

Our manufacturing partners (such as Cisco, HP, and Microsoft) are considered subcontractors when they perform services engagements with us. We work very closely with our manufacturing partners and have many of their badged workers in our locations working with our engineering teams and brand managers. In this way, our CDW•G teams stay current with our vendor partner offerings as well as plans for product end-of-life and new product introductions. Our sales teams

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal (“RFP”) furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC (“CDW•G”).

meet with our manufacturing partners quarterly and participate in sales training regularly to stay up to date on their latest offerings and offer you the peace of mind that you have a knowledgeable sales staff supporting you.

Differentiators

I. Describe how supplier differentiates itself from its competitors.

CDW•G is a partner dedicated to walking next to our customers every step of the way in their technology journey. A significant priority in SLED IT initiatives is flexible, adaptable technology that can securely enable user needs. It's not enough to provide customers with access to products they want quickly and efficiently. Procurement and Information Technology officers need to understand their options, and SLED agencies need to know their products are securely sourced.

CDW•G is uniquely positioned to serve OMNIA Partners Participating Public Agencies and is differentiated in the following areas:

- Business diversity programs and local impact
- Experience with OMNIA and OMNIA Partners Participating Public Agencies
- Best-in-class contract management
- Technical innovation
- Secure supply chain and distribution model
- Depth and breadth of solutions across hardware, software, cloud, cloud marketplace, professional services, managed services, and staff augmentation
- Past performance of successfully guiding OMNIA Participating Public Agencies through technological and industry change
- Public sector expertise with dedicated sales and technical resources aligned by industry

Robust Business Diversity Program

CDW•G is proud of our Business Diversity Program, and we believe that the structure and depth of our program are significant differentiators for each of our customers. While we are not a M/WBE-certified company, our program seeks to empower diverse and local companies in the communities we serve nationwide. Instead of simply checking the box to meet requirements, we curate a unique network of quickly deployable diverse business partners. This approach embodies the goals of our customers by creating a multiplier effect that drives job creation and contributes to lasting economic empowerment in the communities we serve.

Our program allows the City of Mesa and OMNIA Partners to support their local communities through everyday IT procurement. We work closely with the City of Mesa and OMNIA Partners Participating Public Agencies to find qualified, small and/or diverse suppliers to meet your goals, based on your requirements and needs.

In 2022, CDW spent $3.6B with certified small, diverse suppliers, and we currently feature over 1,400 small and diverse suppliers who we partner with on a regular basis. As a testament to CDW•G's commitment to how frequently we help our public sector customers meet their diversity goals with qualified partners, $2.3B of the $3.6B (nearly 64%) in 2022 was solely from CDW•G.

OMNIA Partnership Experience

Our sales force is well-versed in growing contracts and is also experienced in discussing the value of OMNIA Partners contracts. We believe the contract structure that the City of Mesa and

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

OMNIA Partners offer, combined with our expertise in supporting dynamic procurement solutions with our broad customer ecosystem, provides a unique opportunity to optimize contract adoption and growth. Collectively, we remove the complexity of procurement and technology that our customers often encounter. We understand the value of OMNIA Partners and its contracts and have been successful in expanding this contract to our customers.

CDW•G continues to prove without a doubt that we can keep our commitment to making this contract prosperous amongst our vastly growing portfolio of offerings. Continuing to contract with CDW•G provides the City of Mesa and OMNIA Partners Participating Public Agencies with a secure partnership with a proven track record of positioning the contract nationwide and expanding the contract footprint among all SLED-eligible entities.

Contract Management Experience

While we manage numerous public sector contracts, we believe it is the breadth of our contracts and the emphasis we place on contract compliance, company-wide, that allows us to be a leader in contract management. Many suppliers have well-established delivery and installation procedures but lack the plan or personnel to ensure compliance throughout the contract's complete lifecycle.

A major differentiator for CDW•G is our Program Management Team, a group of coworkers devoted to the full life cycle of contractual sales, including managing active contracts. CDW•G invests in these resources because of our understanding that contracts are complex sets of commitments. Centralizing our contract management within one department allows us to standardize our contract management processes and share best practices. As a result, we reduce risks and improve efficiencies for CDW•G, and, more importantly, for the City of Mesa and OMNIA Partners Participating Public Agencies. With an average of over ten years of industry experience and active participation in the National Contract Management Association and World Commerce & Contracting, CDW•G Program Managers are qualified to advise and serve our customers at all stages of the contract process. CDW•G manages nearly 1,000 active SLED contracts, with OMNIA Partners contracts in the top 1% of our spend. Our contract managers become experts in their respective contract portfolios and can continue to provide insights to the City of Mesa and OMNIA Partners.

Access to the CDW•G Program Management team not only ensures contract compliance but also assures the City of Mesa and OMNIA Partners Participating Public Agencies that, when leveraging this contract, their purchases and piggyback agreements are overseen not solely by a sales team member but also by a highly skilled and specialized contract compliance professional.

Commitment to Innovation

For more than 20 years, CDW•G has been at the forefront of emerging technologies, including collaboration solutions, cloud, mobility, and virtualization, which is a major aspect of our ability to grow as a company. We have actively expanded our catalog, certifications, and solutions to address the latest IT developments, including cloud, IoT, software, and esports, so that we can continue to meet the evolving needs of the City of Mesa and OMNIA Partners Participating Public Agencies. In addition, we have dedicated CDW•G resources aligned to these solution areas to help the City of Mesa and OMNIA Partners Participating Public Agencies understand and implement them.

Moving forward, we expect the landscape in which we compete to continue to evolve as new technologies are developed, and we will continue to evolve with those technologies. As a

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

testament to our dedication to innovation, CDW received CRN's 2023 Internet of Things (IoT) Innovators Award; this annual program honors North American solution providers that recognize the enormous potential of IoT, have integrated cutting-edge technologies into their portfolio, and are driving IoT innovation forward. CDW•G will continue to invest, organically and inorganically, in high-growth solutions and services capabilities so that we can continue to meet the needs of the City of Mesa and OMNIA Partners.

CDW•G understands that the City of Mesa and OMNIA Partners Participating Public Agencies change and shift over time, and we are willing to change as technology changes.

Sourcing Products and Building OEM Relationships

CDW•G has relationships with more than 1,100 leading manufacturers. When CDW•G doesn't have a direct relationship with an Original Equipment Manufacturer (OEM), we leverage our vast distribution network (i.e., Arrow, Synnex, Ingram Micro, a diverse partner, and more) to source a product request. As such, should the City of Mesa and OMNIA Partners identify a product we do not currently provide, we will work to ensure you get what you need.

Additionally, our Product and Partner Management team is dedicated to onboarding new OEMs and partners. This team works proactively to identify customer-leveraged OEMs to onboard into our ecosystem of partners. If a product is out of stock in CDW•G distribution centers, CDW•G can leverage our local and national distribution network; if the product is in stock in the distribution network, CDW•G can generally secure product(s) from our local distribution network within 24 hours.

Our sales staff and engineers are in steady communication with customers regarding their needs and vendor partners regarding changing product lines and new offerings.

Ability to Adapt

CDW's market position, financial strength, and demonstrated agility enable us to deliver value that transcends helping our customers to meet short-term IT objectives. We are with our customers in good times, but we are also there to help them navigate difficult circumstances and unprecedented challenges.

We are relentlessly devoted to helping our customers meet the challenges related to resolving their technology needs. One way we achieve this is through our agility in adapting to the unexpected, such as during the earliest stages of the COVID-19 crisis. Because CDW•G plays a critical role in continuing to supply IT products and services to our public sector customers, we prioritized a strategic response that would ensure our customers' needs were met in the face of a significant strain on the global supply chain. We worked closely with our manufacturer partners to identify product recommendations based on projected availability. At the same time, we maintained focus on the well-being of our communities and helped our customers navigate a rapidly changing environment. We implemented stringent safety measures in our distribution centers in order to maintain business continuity while prioritizing the well-being of our coworkers. Due to our having two distribution centers in different portions of the country, we are able to maintain our supply chain in the event one of those centers goes down for any reason.

For example, when a customer needed to quickly deploy device rollouts to enable distance learning, they leaned on CDW•G to scope, design, and ship solutions in quick order. When the facilities expecting these shipments were closed without advance warning, CDW•G worked closely with the 17 colleges and universities to reroute packages and ensure the essential deliveries were received. Our teams successfully rerouted hundreds of shipments. As the

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

situation continued to evolve, our teams remained in contact with our carrier partners to provide updates and continued to leverage member input and requirements to inform our company-wide strategic buying decisions.

CDW•G's unmatched product and solutions offerings, coupled with an unrivaled partner network of leading manufacturers and diverse businesses, enable us to give the City of Mesa and OMNIA Partners Participating Public Agencies a partner that can adapt to any scenario, both in the short- and long-term.

Blended Distribution Model

A significant advantage that differentiates CDW•G in the marketplace is our ability to deliver the right products at the right value, right when you need them. Many of our competitors rely on what we refer to as "virtual warehouses." These resellers are entirely reliant on their distribution and OEM partners for packaging and shipping customer solutions. This virtual warehouse model introduces extended lead times and uncertainty in sourcing and supply chain security. At CDW•G, we have blended the best of our OEMs and distribution partners' fulfillment capabilities with our own distribution centers to optimize quick and accurate fulfillment. Our same-day fill rate typically varies between 97% and 99% for credit-approved orders with in-stock products.

Public Sector Expertise

We have more than 30 years of extensive experience providing solutions to public sector customers across segments (federal, education, state and local). Our parent company, CDW LLC, was established in 1984, and CDW•G was established in 1998 to better serve our federal, state and local, and education customers. Public sector business comprised roughly 36% of our total annual revenue in 2022. We maintain over 1,000 contracts in order to serve these customers efficiently and compliantly. Our portfolio demonstrates widespread adoption and relevance, with customers actively transacting across all 50 states.

Under the new contract, we will continue these efforts, with targeted account planning in collaboration with the City of Mesa and OMNIA Partners to expand the contract footprint to small, middle, and large entities.

Litigation, Bankruptcy, and/or Reorganization

J. Describe any present or past litigation, bankruptcy or reorganization involving supplier.

As of the date of submission, there are no known present or past litigation, bankruptcy, or reorganization involving CDW•G.

Felony Convictions

K. Felony Conviction Notice: Indicate if the supplier

a. is a publicly held corporation and this reporting requirement is not applicable;

b. is not owned or operated by anyone who has been convicted of a felony; or

c. is owned or operated by and individual(s) who has been convicted of a felony and provide the names and convictions.

CDW•G is a publicly held company and this reporting requirement is not applicable.

3.2 DISTRIBUTION, LOGISTICS

Products and Services – Overview

A. Each offeror awarded an item under this solicitation may offer their complete product and service offering/a balance of line. Describe the full line of products and services offered by supplier.

CDW•G offers everything the City of Mesa and OMNIA Partners Participating Public Agencies' IT operations could possibly need – from enterprise-wide services to mouse pads and full turn-key solutions. The depth and breadth of products, services, and solutions CDW•G offers allows the City of Mesa and OMNIA Partners Participating Public Agencies to streamline procurement and increase efficiency by reducing the time and effort of managing multiple contracts. And as technology changes and your needs grow, so do we.

Commitment to Innovation

CDW•G has stayed in line with emerging technologies for more than 20 years. Keeping up with those technologies, such as collaboration solutions, cloud, mobility, and virtualization, has been a major aspect of our ability to grow as a company. We have actively expanded our catalog, certifications, and solutions to address the latest IT developments, including cloud, IoT, drones, and esports so that we can continue to meet the evolving needs of the City of Mesa and OMNIA Partners Participating Public Agencies. In addition, we have dedicated CDW•G resources aligned to these solution areas to help the City of Mesa and OMNIA Partners Participating Public Agencies understand and implement them.

Moving forward, we expect the landscape in which we compete to continue to evolve as new technologies are developed, and we will continue to evolve with those technologies. As a testament to our dedication to innovation, CDW received CRN's 2023 Internet of Things (IoT) Innovators Award; this annual program honors North American solution providers that recognize the enormous potential of IoT, have integrated cutting-edge technologies into their portfolio, and are driving IoT innovation forward.

Sourcing Products and Building OEM Relationships

CDW•G will continue to invest in high-growth solutions and services capabilities so that we can continue to meet the City of Mesa and OMNIA Partners Participating Public Agencies' needs. Should CDW•G not have a direct relationship with an OEM, we have been successful in utilizing our vast distribution network (i.e. Arrow, Synnex, Ingram Micro, and more) to source a product request. As such, should the City of Mesa and OMNIA Partners Participating Public Agencies see a product we do not currently have, we will work to ensure you get what you need. Additionally, our Product and Partner Management team is dedicated to onboarding new OEMs and partners and works proactively to identify customer-leveraged OEMs to onboard into our ecosystem of partners. If a product is out of stock in CDW•G distribution centers, CDW•G can leverage our local and national distribution network; if the product is in stock in the distribution network, CDW•G can generally secure product(s) from our local distribution network within 24 hours.

Our sales staff and engineers are in steady communication with customers regarding their needs and vendor partners regarding changing product lines and new offerings. CDW•G is in

touch with industry leaders on many levels, and we have ready access to sources that review and rate current products and industry trends.

Acquisitions

Since CDW•G's last proposal to the City of Mesa and OMNIA Partners Participating Public Agencies, we have invested in several meaningful acquisitions that have enhanced our already comprehensive offering even further. Our acquisitions contribute to our ability to continue to meet the evolving needs of our customers. These acquisitions contributed to our being recognized by Frost & Sullivan with the 2022 Global Customer Value Leadership Award for the second year in a row. Frost & Sullivan presents this award to the company that demonstrates excellence in implementing strategies that proactively create value for its customers with a focus on improving the return on the investment that customers make in its services or products. An overview of our acquisitions over the last four years is as follows:

2019	In October 2019, CDW acquired Aptris, Inc., a distinguished IT service management solutions provider and ServiceNow Elite Partner. Aptris' talent and expertise further expanded our services capabilities in this fast-growing segment of the IT market and enhanced the value that we can deliver to the City of Mesa and OMNIA Partners Participating Public Agencies.
2020	In July 2020, CDW acquired IGNW, a leading provider of cloud-native services, software development, and data orchestration capabilities; this acquisition allows us to continue to provide highly technical solutions to our customers. In December 2020, CDW acquired assets of Aeritae, a ServiceNow Elite Partner, and Southern Dakota Solutions, a specialist in IT Asset Management design and implementation, allowing us to provide more robust ServiceNow system integration services to our customers.
2021	In March 2021, CDW acquired Amplified IT, a leading education-focused consultancy that brings a blend of technical skills and knowledge to the K-12 and Higher Education markets. This acquisition strengthens our Education practice so that we can continue enabling and empowering schools to leverage innovation. In August 2021, CDW acquired Focal Point Data Risk, a leading provider of cybersecurity services with customers across a diverse set of industries. Acquiring Focal Point has added more resources for CDW•G to better deliver security solutions and services within four areas: Identity and Access Management, Cyber Security and Data Privacy, Cyber Workforce Development, and Risk Consulting. Significantly, Focal Point Academy is the longtime leader in cyber workforce development. This acquisition has propelled CDW to become the largest Security Integrator in North America. In December 2021, CDW completed our acquisition of Sirius Computer Solutions. Our acquisition of Sirius combines our full-stack expertise with Sirius's broad portfolio of solutions and a team of experts with more than 5,500 professional and technical certifications who specialize in Business Innovation, Digital Infrastructure, Cloud, Security, and Managed Services.
2023	In February 2023, CDW acquired Locus Recruiting LLC (Locus), an experienced consulting team specializing in staff augmentation, information security, cloud

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

computing, networking, and infrastructure. Our acquisition of Locus enhances our staff augmentation practice so that we can continue to provide cost-effective resources to support our customers' needs.

In June 2023, CDW acquired Enquizit, an experienced provider of AWS cloud services, helping us better solve customer challenges and deliver meaningful outcomes through innovative technical solutions.

Partners

As one of the largest value-added resellers (VAR), CDW•G has established strong working relationships with the major suppliers in the technology industry. We maintain these relationships in order to provide the best products, services, and support to our customers. We offer more than 100,000 products from more than 1,100 different manufacturers and software publishers. Our top partners have full-time representation at our sales offices to facilitate requests for information and assist with designing the best possible solution.

Many manufacturers choose CDW•G as their primary reseller because of our vast distribution network and the value-added services that we provide to our customers. CDW•G invests heavily in the training and certification of our account managers and technical staff. We work closely with our vendor partners to remain current with the latest technologies and to deploy and manage those technologies in customer environments. We have received awards and recognition from our manufacturer partners for developing and delivering exceptional solutions. Specific insight into some of our partnerships is provided below:

Microsoft

As one of only a select group of Microsoft Cloud Solution Providers (CSP) with all solution designations, CDW•G has the expertise you need to get the most out of your Microsoft products. We work closely with Microsoft to ensure that our solutions are cohesive; you get the whole bundle (licenses, migrations, modernizations, automation, and management) directly through CDW•G, which saves you time and money. With deep implementation experience across Microsoft's portfolio of hardware, software, and the cloud since our partnership began in 1999, we are the right partner for delivering Microsoft solutions.

We are a certified Azure Expert Managed Service Provider with expertise in end-to-end cloud lifecycle management, including assessing, migrating, building, deploying, optimizing, and efficiently managing business solutions on Microsoft Azure.

We have earned all 6 of Microsoft's Solution Designations and are now among the elite Microsoft partners certified with the Microsoft Solutions Partner Designation for Microsoft Cloud. In 2022, we received the following awards:

- US Device Partner of the Year
- Surface Customer Adds Award Winner

Google

We are a Premier Google Partner. Together, Google and CDW•G bring you the best of Google solutions to grow and support your modern workforce. We are one of only four Google partners certified with Google CCAI expertise along with having three of the world's 66 Google Cloud Fellows on staff. In 2023, we received the following awards:

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- Partner of the Year in the Expansion category for its success in helping customers achieve better results through Google Workspace
- Partner of the Year in the Specialization category for excelling in the Education sector and delivering positive customer outcomes

Oracle

We are an Oracle Gold Partner. Our exceptional coverage, relationships, integration, asset management tools, image loads, and streamlined procurement processes allow us to be a trusted advisor on Oracle for the City of Mesa and OMNIA Partners Participating Public Agencies, making it easier to get the Oracle expertise and services needed to provide you with complete Oracle solutions.

Apple

As a Diamond Elite partner, we had a very successful, established relationship with Apple. Apple products and services combined with our legendary logistics and services capabilities offer the City of Mesa and OMNIA Partners Participating Public Agencies improved profitability and employee productivity while simplifying IT overhead and lowering overall costs.

Note: Only Apple is allowed to sell Apple products to K-12 customers, including both private and public schools. If this policy is repealed, CDW•G is equipped and ready to serve the City of Mesa and OMNIA Partners Participating Public Agencies K-12 customers.

Dell

CDW•G has complete access to all of Dell Technologies and Dell EMC's product lines, selling the entire Dell product portfolio of client devices, displays, accessories, software, data storage, server, networking, and services. This portfolio includes RSA® and VMware®. With over 90 onsite CDW-badged dedicated resources and 250 Dell Technologies-badged resources, the Dell and CDW relationship is stronger than ever and suited to meet and configure all customer IT needs.

HP

We have strong partnerships with both HP Inc. (HPI) and Hewlett Packard Enterprise (HPE); as a Platinum Partner, we have the experience and expertise to help the City of Mesa and OMNIA Partners Participating Public Agencies design the best solution.

This last summer, we received the following awards:

- 2023 Global Solution Provider of the Year
- 2023 North America Solution Provider of the Year
- 2023 Consulting Partner of the Year by Zerto, a Hewlett Packard Enterprise company.

IBM

We are a Diamond Elite IBM Partner and have been providing IBM solutions for over 25 years. Our IBM-dedicated team consists of nationwide sales, technical, and marketing experts. As an IBM Platinum Business Partner, CDW•G is authorized to sell IBM solutions – from servers and storage to software and technical services. CDW is the leading IBM Security software reseller in the United States.

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Lenovo

Our strong partnership with Lenovo is a benefit to our customers, who receive top-quality Lenovo products quickly and efficiently. We are currently the largest Direct Response Channel Partner of Lenovo products.

Panasonic

CDW•G is a Panasonic Diamond-level partner and member of the Panasonic Authorized Reseller Program, authorized for computers and tablets, projectors, professional displays, scanners, and presentation technologies. CDW•G is Panasonic's largest Toughbook computer reseller in the channel.

Cisco

We are a Cisco Gold Certified Partner. We have attained the broadest range of expertise across multiple technologies, and we are Cisco's Largest US National Direct Integrator Partner. In November 2023, Cisco recognized us with the following awards:

- Data Center Partner of the Year (Global)
- Cisco Capital Partner of the Year (Americas)
- SMB Partner of the Year (Americas – US)
- USA Partner of the Year (Americas – US)
- Area Partner of the Year (US – Central)
- Commercial Partner of the Year (US – Central)
- Enterprise Networking Partner of the Year (US – Central)
- SMB Partner of the Year (US – Central)
- South Enterprise Partner of the Year (US – Central)
- Enterprise Networking Partner of the Year (US – East)
- Federal Intelligence Partner of the Year (Federal)

Please note that we excluded our Canada, European, and UK awards from this list.

Juniper Networks

We are an Elite Partner with Juniper Networks; we have 100+ accreditations and 10+ certifications, including the Enterprise Routing & Switching Specialization and the Mist AI Specialization.

ExtremeNetworks

CDW•G is an ExtremeNetworks Diamond Partner. We have specializations in Security & Access Control, Cloud, Management & Automation, Data Center, ExtremeWireless, and ExtremeSwitching.

Netgear

Together, CDW•G and Netgear provide high-performance switching, wireless, and security solutions. We are authorized to sell Netgear Business, as well as Wi-Fi and networking solutions, switching, AV, remote management, and more.

Additional Partners

For your convenience, we have provided our line card that includes our full list of 1,100+ partnerships in Appendix 2.

Product Offering

CDW•G's ability to provide product operating system license, software media, and documentation in the hardware shipment depends on the solution and the OEM; as such, we will comply with the specifications outlined in the product description as listed.

Software

a. Software: National brand name Microsoft, Google, Oracle, Enterprise applications/solutions, cyber security applications/solutions, etc.

CDW•G is pleased to offer software solutions and applications from leading manufacturers, including Microsoft, Google, and Oracle, among many others; please see our Line Card at the end of this section labeled Appendix 2 for a full list of our partnerships; CDW•G has developed close partnerships with more than 300 of the industry's leading software publishers.

Software and Information Industry Association Membership

We are a member of the Software and Information Industry Association (SIIA). SIIA is the principal trade association for the software and digital content industry. It recognizes companies that demonstrate software industry leadership and good corporate citizenship. SIIA Certified Software Reseller (CSR) status is awarded based on the accuracy and completeness of the record-keeping process. We are one of only four resellers with SIIA certification. There is a distinct customer advantage to our membership in the SIIA: in the event that the City of Mesa and OMNIA Partners Participating Public Agencies are audited by the SIIA, an invoice from CDW•G serves as proof of ownership.

Software Products and Solutions

An overview of our software offering includes, but is not limited to, the following:

- Business Applications
  - Application Suites
  - Document Management
  - Reporting and Data Analytics
- Education
- Graphics and Design
- Networking and Servers
  - Data Archiving
  - Network Management
  - Storage Networking
- Operating Systems
- Communication
- Programming and Web Development
- Security
  - Authentication
  - Endpoint Security
  - Firewalls
- Utilities
- Virtualization

We are an industry leader when it comes to enabling customers to modernize their environment through the combination of speed and direction.

While contemporary technologies can be beneficial, if executed incorrectly, they can also quickly lead to overlap, confusion, and sprawl. Our team can help the City of Mesa and OMNIA Partners Participating Public Agencies leverage existing technology investments while integrating modern solutions and tools. With the help of CDW•G, the City of Mesa and OMNIA Partners Participating Public Agencies can create simplified outcomes that are easy to manage and fiscally beneficial. Our team delivers full-stack, modern infrastructure and software delivery

focused on cloud native and hybrid-cloud adoption. Key practice areas include, but are not limited to, the following:

- **Advanced Infrastructure and Hybrid IT:** Consulting and delivery services for modern data center architecture, networking, servers, virtualization, and container and cloud platforms.
- **Full Stack IT Automation & Orchestration:** Consulting and delivery services in modern concepts for systems automation, infrastructure-as-code (IaC), and configuration management from physical network and servers to cloud.
- **Systems Integration & Software Engineering:** Consulting and delivery services in modern software development and delivery, web development, mobile development, distributed systems, microservices, and serverless environments.
- **DevOps:** Consulting and delivery services in DevOps, cultural assessments, organizational redesign, continuous integration/continuous deployment (CI/CD), and modern software delivery.

Software Services

In addition to our comprehensive software application and solution offering, CDW•G also has a variety of services to help you with your software needs. CDW Software Services takes a pre- and post-sales consultative approach to help you manage the assessment, validation, deployment, and management of software assets through every stage of their lifecycle. Our Total Software Management solution provides everything you need to make every step of software management simple and effective. CDW•G has everything the City of Mesa and OMNIA Partners Participating Public Agencies need to begin exploring software options, including, but not limited to, the following:

- Extensive knowledge of the software industry and publishers
- Insight into the latest trends and products
- Decades of experience in enhancing software environments
- Comprehensive process to review goals and technical requirements
- A comprehensive portfolio
- Expertise in cloud apps

Our software experts will identify your current license position and renewal timeline, as well as provide a review that is easy to understand so that you can maximize returns on your software investment. Our review helps you organize and track software, prepare for purchases, and educate teams about the software infrastructure. The review:

- Determines whether current agreements fit your needs
- Identifies opportunities for agreement consolidation
- Shows when your agreements are up for renewal

Our long-standing partnerships with top software vendors give us a deep understanding of each one's unique licensing requirements. CDW•G is committed to maintaining the highest level of knowledge and expertise surrounding software solutions. We will leverage our close partner relationships and continue to invest in our workforce to ensure we stay in front of the ever-changing landscape within this area.

Success Story – Local Community-Development Services

Background

This local government entity sought assistance for their IT licensing renewals and assistance in guiding their organization through the intricacies of software licensing agreements. The customer contacted CDW•G to assist with their upcoming renewals, help manage their software licenses, maintain compliance, and optimize costs.

Solution

CDW•G has a thorough process to ensure that the customer's needs were met. This engagement included a detailed evaluation, careful planning, negotiating with vendors, finding cost-effective solutions, minimizing risks, and keeping meticulous records. Not only did this approach meet the customer's immediate licensing requirements, but it also had long-term advantages in terms of regulatory compliance, cost reduction, and resource management.

Outcome

With the help of CDW•G, the customer was able to renew their essential software licensing on time, ensuring uninterrupted access to critical resources. This positions them to manage IT resources effectively and allocate budgets efficiently.

In the end, the customer's CDW•G team provided expertise on licensing models, negotiation strategies, and industry standards to ensure compliance, prevent legal complications, and reduce expenses.

Software Value-Added Services for the City of Mesa and OMNIA Partners Participating Public Agencies

CDW•G does not compete on price alone. As a vendor-neutral solutions provider, assisting with presales recommendations is one of our strong suits. We are the number one reseller to many of our vendor partners, such as Microsoft, VMware, and Adobe. Therefore, we have the expertise, experience, and resources to provide the best solution for the City of Mesa and OMNIA Partners Participating Public Agencies. Our close relationships mean that we receive competitive price offers and timely notifications regarding product changes. This allows the account team to keep the City of Mesa and OMNIA Partners Participating Public Agencies appraised of new product releases, version changes, and price changes, all of which affect how you purchase software.

CDW•G offers the City of Mesa and OMNIA Partners Participating Public Agencies the following value-added services:

- Assessments
  - Software License Review
  - Demonstration Labs (such as our Microsoft Experience Center)
  - Virtualization Assessment
  - Security Threat Check
  - One-to-One Readiness
- Trial License Key Codes
- Educational resources and important notifications, including email notifications, webinars, CDW's Solution blog, Software Simplified, and White Papers, among others
- Software purchase reports

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- Available software promotions
- Sponsored vendor events designed to keep the City of Mesa and OMNIA Partners Participating Public Agencies in the know of industry trends

Licensing Strategy Consultation

- Current licensing assessment
- Analysis of current and future needs
- Discussion regarding procurement preferences
- Multiple quotes for side-by-side comparison

Ongoing Licensing Strategy Sessions

- New products
- Software Assurance benefits utilization
- Changes in licensing structure
- Future procurement planning

Quarterly and Ad Hoc Reporting

- Help for managing maintenance agreements
- Reminders for expiration-sensitive products
- Analysis of options for coterminous agreements
- Comprehensive online reporting of all software purchases from CDW•G

Customized Procurement Plan

- Multi-year license procurement roadmap

License Agreements

- Provide for the City of Mesa and OMNIA Partners Participating Public Agencies Education on License Agreement Terms & Conditions
- License Agreement setup and processing

Our expertise extends to everything from the evaluation process and technology planning to software purchasing and the contract management tasks ahead. CDW•G is committed to coordinating the resources needed to provide helpful insight on right-fit options for your specific needs. In fact, we have over 320 coworkers specifically dedicated to Software Licensing, Solutions, and Services.

We believe the City of Mesa and OMNIA Partners Participating Public Agencies will find that our business model provides one of the best values that the industry has to offer for licensed software. Our resources and our value-added tools provide the City of Mesa and OMNIA Partners Participating Public Agencies with the pricing and partnership that you deserve and make procurement easier. We have the best-in-class solution today, but we will continue to evolve in order to maintain our leadership role, expand and enhance our value proposition, and better serve the City of Mesa and OMNIA Partners Participating Public Agencies.

Success Story: Local Government Entity

Background

In 2022, this local government entity transitioned from on-premise technology solutions to the cloud and required continued guidance to understand the solutions, licensing support, and help to educate their end-users. The customer wanted a partner to help evaluate their current

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

license entitlements and solutions to fit user profiles. Their top priorities were to reduce costs and improve end-user satisfaction.

Engagement and Solution

We have managed the customer's Microsoft Enterprise Agreement (EA) for the last six years and conducted regular communication and quarterly business reviews to stay in touch with the customer's needs. As a part of the year 1 true-up process, we engaged the customer to review licensing and end-user functionality requirements.

To help this customer meet their goals, we provided them with cost analysis and guidance for Microsoft M365 E3, E5, and F3 products in addition to on-premise server products, including SQL and Windows Servers.

Outcome

CDW•G's engagement helped the customer to consolidate their licenses and achieve cost savings by requesting reductions on cloud licenses prior to their two-year anniversary and replacing them with M365 E3. By educating the customer on license compliance and options to Step-up, this local government entity recognized significant cost-savings. Ultimately, the customer greatly appreciated CDW•G's contribution and has recognized an enhanced Microsoft experience overall.

Personal Computer Systems

b. Personal Computer Systems: National brand name desktop PCs, notebooks, laptops, tablets, and other related devices from Enterprise Tier and Middle Tier Contractors that are business related computers, manufactured by companies, such as, Apple, COMPAQ, Dell, Gateway, Hewlett Packard, IBM / Lenovo, Panasonic, and Toshiba. Product will include the operating system license, software media and documentation in the hardware shipment.

CDW•G's broad array of offerings includes desktop PCs, notebooks, laptops, tablets, and other related devices from Enterprise and Middle Tier contractors. We are authorized to sell the various partners' full suites of products: Apple, Dell, Hewlett Packard (HP), IBM, Lenovo, and Panasonic, among many others.

Desktops

Desktop computers come in all shapes and sizes and are used for tasks ranging from web browsing to high-resolution media creation, and CDW•G offers products to meet any need. We offer All-in-One computers, Mini PCs, Thin Clients, Towers, Workstations, and more. Our selection includes popular brands, including, but not limited to, HP, Dell, Lenovo, Acer, Asus, Apple, among others. Additionally, the City of Mesa and OMNIA Partners can buy desktops pre-built or parts can be purchased and assembled in the configuration of your choosing; desktops can be upgraded or customized to grow alongside your needs as a user.

Laptops & 2-in-1s

When you need the power of a desktop but lack the space, laptops are an excellent solution for mobile computing. 2-in-1 computers are another powerful portable solution because, while similar to laptops, these devices can function as tablets and benefit from the integration of touchscreen displays or drawing accessories in some models. CDW•G has a wide range of laptops and 2-in-1s computers ready to meet any of your needs, including, but not limited to, those from Acer, Dell, HP, Microsoft, Panasonic, and more.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Tablets

Sometimes, both desktops and laptops may be too large for a particular space. Tablets are versatile devices that can perform many of the same tasks as their counterparts but in an easily transportable package. When combined with peripherals such as dedicated keyboards or additional displays, tablets can further blur the line between themselves and their desktop counterparts. We offer tablets from popular brands like Apple, HP, Lenovo, Panasonic, Samsung, and more.

Success Story: Large Device Rollout for the US Census Bureau

Background

When the US Census Bureau wanted to increase security and accessibility for the last Decennial Census, the Bureau trusted CDW•G.

The Census Bureau had a short-term need for mobile devices to enable a workforce to accurately capture data about America's people and its economy. Secure and easily accessible, the ideal device would utilize satellite technology to help field workers visualize each neighborhood.

We compared manufacturers to determine which could provide the most reliable, cost-effective technology. The products that best suited the Bureau's needs and those that were recommended to the customer included the Apple iPhone and a lightweight Dell laptop with a custom case and adjustable straps.

CDW•G was responsible for acquiring the devices, provisioning and configuring them, and getting them to the Census Bureau's local offices.

Outcome

Our service model offered the solution on a subscription basis to keep costs predictable and ensure mission alignment. In addition to overall program management, CDW•G offered mobile devices and accessories, custom device configurations, equipment staging, kitting, imaging, and inventory management. Our offerings also included wireless services from multiple cellular carriers, nationwide deployment, user help desk and field support, secure asset management, and device decommissioning and disposition when data collection concluded. CDW•G could quickly redeploy assets if there were any personnel changes. Approximately 60,000 laptops, 350,000+ iPhones, and 25,000 iPads were issued under management.

Our state-of-the-art distribution and configuration centers provided logistical agility and flexibility while demands fluctuated. Together, we simplified the Bureau's processes and increased efficiency while remaining secure. Read more about this story here.

Standard Business and High End Workstations

c. Standard Business Workstation: These will be used for typical tasks, which will include word processing, spreadsheet analysis, database management, business graphics, statistical analysis, internet, and other office automation activities. Product will include the operating system license, software media and documentation in the hardware shipment.

d. High End Workstation: These will be used by application developers using GIS, CASE or other high-level language development tools, Computer Aided Design and Drafting professional, Internet Application developers or other sophisticated application work. Product will include the operating system license, software media and documentation in the hardware shipment.

CDW•G's standard business and high end workstation offering allows the City of Mesa and OMNIA Partners Participating Public Agencies to experience professional-grade performance with our selection of solutions. Our offering includes solutions designed to handle any task, including creating projects and application development.

CDW•G offers workstations with processor speeds of 1.1GHz all the way up to 5.6GHz with hard drive capacities ranging from 256 gigabytes to 8 terabytes. Brands include, but are not limited to, Apple, BOXX, Dell, HP, Lambda, Lenovo, and more.

Laptop Computers and Notebooks

e. Laptop Computer or Notebook: These will be used by traveling or remote access user for typical office automation and business productivity use. With a port replicator or docking station, it may also be used as a standard desktop. Product will include the operating system license, software media and documentation in the hardware shipment.

CDW•G's product portfolio includes laptop computers, 2-in-1 laptops, notebooks, port replicators, docking stations, and more from leading manufacturers, including Acer, Dell, HP, Lenovo, Microsoft, Panasonic, Samsung, and others. An overview of our offering includes, but is not limited to, the following:

Windows Laptops

We offer a wide selection of Windows-based laptops; Windows laptops have many powerful tools integrated into the operating system that are uniform across various businesses.

MacBooks

Apple products, specifically MacBooks, are among the most popular laptops globally for both students and professionals. These devices are a perfect hybrid of aesthetics and performance and have robust and powerful software that is standard in each machine. MacBooks also effortlessly pair with other Apple products, such as iPhones or Apple Watches, to maximize the performance of each device.

Note: Only Apple is allowed to sell Apple products to K-12 customers, including both private and public schools. If this policy is repealed, CDW•G is equipped and ready to serve the City of Mesa and OMNIA Partners Participating Public Agencies.

Chromebooks

Chromebooks are excellent alternatives that function using applications hosted on the internet. This way, the cost of Chromebooks can remain affordable without sacrificing functionality. CDW•G has a large selection of devices that can meet the City of Mesa and OMNIA Partners Participating Public Agencies' diverse needs.

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Ultrabooks

Ultrabooks are powerful laptops that are slim in size but feature industry-leading technology geared towards pushing performance to the absolute maximum. Ultrabooks are also an excellent choice for any design or media-based work. Their robust components allow for maximum performance in multiple locations.

Network Equipment

f. Network Equipment: This includes equipment primarily used for communications over an IP network. This includes servers (physical and virtual), layer 2 and layer 3 switches, routers, area wireless access points, point-to-point wireless access, optics, media interfaces (i.e. serial, T1, T3, OC3) and fiber channel. Class of equipment should include home office, small and medium business, and enterprise. Contractors may include, but not limited to, Cisco Systems, Dell, Juniper Networks, HP, Extreme Networks, Enterasys Networks, D-Link, Netgear, and Brocade Communications Systems.

CDW•G's broad array of offerings includes servers (physical and virtual), layer 2 and layer 3 switches, routers, area wireless access points, point-to-point wireless access, optics, media interfaces, and fiber channels. The class of equipment that we offer includes home office, small and medium business, and enterprise. We are authorized to resell from more than 1,100 leading manufacturers, including, but not limited to, Cisco, Dell, Juniper Networks, HP, Extreme Networks, and Netgear. CDW•G will work with the City of Mesa and OMNIA Partners Participating Public Agencies to determine the best networking equipment to meet each of your needs.

An overview of our network equipment product offering includes, but is not limited to, the following:

- Network Adapters
  - Ethernet Adapters
  - Host Bus Adapters
  - Transceiver Modules
- Network Management
  - Console & Device Servers
  - Load Balancers
  - Network Management Devices
  - Network Testing
  - Print Servers
- Network Security

Monitors

g. Monitors: These will include plug and play compatible monitors that are manufactured for the above systems and/or any other brand that may be specifically called for by the ordering entity and which meet the most current UL and OSHA requirements.

CDW•G's product portfolio offers a variety of monitor solutions, including plug-and-play compatible monitors. Should the City of Mesa or any OMNIA Partners Participating Public Agency have specific UL or OSHA requirements to meet, we will work with you to determine the best products that meet your needs, requirements, and budget.

CDW•G understands that the right computer monitor or display can make all the difference. No matter the purpose, we get that a good monitor is important to you. CDW•G offers a wide range of monitor and display types with response times of less than 2 ms and 4k resolution. Plus, we partner with all the top monitor brands, including Acer, ASUS, HP, Lenovo, LG, MSI, ViewSonic, and many more.

Computer Monitors

Computer monitors are an integral part of any setup. For design and media-specific industries, high-resolution monitors are a must and need to be paired with an adequate graphics card. Other display solutions, such as business computer monitors, are capable of standard office tasks such as word processing or web browsing. No matter what you need a display for, CDW•G has a large selection of computer monitors from industry-leading brands and manufacturers. We are committed to working with you to determine what suits your needs.

Large Format Displays

One of the most powerful tools for a modern business is the implementation of large-format displays. Everything from adaptive menus to digital signage and anything in between can quickly be displayed or adjusted on these large screens. Devices such as smart boards have changed the educational landscape and make lessons and presentations more accessible and diverse than ever before. For advertising, these displays save money and significantly reduce paper waste and the City of Mesa and OMNIA Partners Participating Public Agencies' environmental footprint.

Monitor Accessories

CDW•G experts can help the City of Mesa and OMNIA Partners Participating Public Agencies determine which accessories will work best for you and how they can improve your setup. Monitor accessories like mounts or privacy screens allow you to maximize productivity in any location. Other accessories like specific cables or adapters work to ensure any device can interface and work with any monitor.

Projectors

In addition to a large selection of monitors and accessories, CDW•G also offers projectors. While not technically monitors, projectors are a common form of computer display that allow the City of Mesa and OMNIA Partners Participating Public Agencies obtain display sizes far more extensive than any screen. These large-size displays are perfect for video conferencing with groups, work presentations, staff meetings, or even community events in the park. We offer interactive projectors, large venue projectors, office projectors, as well as projector accessories, from leading brands such as Epson, Sony, LG, and more.

Information Technology/Educational Furniture

i. Information Technology/Educational Furniture: Includes furniture design, delivery, installation, parts, maintenance, and repair and replacement.

CDW•G offers Information Technology and Educational Furniture to the City of Mesa and OMNIA Partners Participating Public Agencies. We offer furniture design, delivery, and installation, along with services that are included with the OEM offering, which may include parts, maintenance, repair, and replacement. We offer a variety of information technology and educational furniture from leading manufacturers, including Varidesk and Ergotron, that can meet the needs of customers ranging from small local government to the largest university system. CDW•G offers IT and educational furniture, including, but not limited to, sit and stand desks, office chairs, workstations, desktop accessories, ergonomic accessories, mounting hardware, printer and scanner accessories, as well as office basics and tools, calculators, document scanners, document cameras, charging carts, and more.

Classroom Design

Whether the City of Mesa and OMNIA Partners Participating Public Agencies are creating a space that supports individual study, large group work, or putting together makerspaces for

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal (“RFP”) furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC (“CDW•G”).

STEM/STEAM students, the possible classroom layouts and technology configurations are endless. Whatever you're trying to achieve, CDW•G can make IT happen.

In fact, CDW Blueprint to Design® is an ideal tool to help districts, schools, and teachers reimagine their classrooms and building space to maximize learning outcomes. The program was created in 2017 and helps educators navigate the addition of classroom IT products and technology, alongside stationary and modular classroom furniture, and create collaborative learning environments. Since then, more than 900 K-12 schools and universities have participated in the program.

Our Education Strategists, teamed with our CDW•G Solution Architects and Account Team, work together to help educators figure out the best classroom design for their space, ensuring space maximization aligned with the desired purpose. Since CDW•G is vendor-neutral and has an extensive product offering, we recommend the best vendor for that given classroom, school, or district.

Success Story: Rochester City School District

Background

Leaders of Rochester City School District (RCSD) came to a few important conclusions several years ago: they needed to modernize instruction, they wanted education to be engaging and interactive, and redesigned learning spaces would be a big piece of the puzzle. Like many innovative schools, RCSD envisioned a classroom with comfortable seating, modular furniture to suit variety of instructional needs, and technology that includes mobile devices, Wi-Fi, and digital displays. To create the proof of concept, the district turned to CDW's Blueprint to Design.

Engagement and Solution

RCSD leaders met with CDW•G Account Managers and an Educational Strategist to discuss their objectives. The CDW•G team shared those findings with designers, who created several choices for RCSD to review, including full-color, 3D renderings. The district also wanted flexible furniture and a variety of seating for all grade levels.

District leaders were impressed with CDW•G's design work, and once they settled on a plan, they built a 25-by-24-foot modern classroom that is stylish, colorful, and airy. In one configuration, two sets of curved desks are arranged in a circle, so students can work individually or in groups. RCSD also equipped the room with a cart of 30 Chromebooks, fast Wi-Fi through a Cisco Systems access point, a MakerBot Replicator 3D printer, and table-level charging stations. Two 75-inch Triumph interactive flat-panel displays hang on the walls, flanked by a table and soft-cushioned, rainbow-colored stools.

Students roam around the classroom to collaborate and problem-solve. They use Chromebooks, but they also use pencil and paper. Every desktop doubles as a dry-erase board, so students can jot notes and sketch on their desks.

Outcome

Rochester's new modern classroom has garnered rave reviews from students and teachers. The room hosts fifth graders from around the district for internet safety and digital citizenship classes. Older students use the space after school for online credit recovery.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

As district leaders hoped, the classroom has inspired educators to reimagine other learning environments, including libraries and makerspaces. Read more about how CDW•G helped RCSD design a custom learning environment here.

Services Offering

j. Services: Services such as, but not limited to cloud computing, consulting, technical support, leasing/financing, trade-ins, repair, design, analysis, configuration, implementation, installation, training, maintenance, advisory, managed and support services, staff augmentation, professional services, etc. In addition, services that are related to the design, use, or operation of the products being purchased such as system configurations, testing, hardware/software installation, upgrades, imaging, etc. Services may also include materials, equipment, and supplies provided by the Reseller under an SOW Note: All hardware should come assembled. For example, if extra memory, additional drives, or peripherals are ordered, the Contractor must install them unless the Participating Agency requests, that they not be installed.

CDW•G provides the required services listed above with insight into each throughout the remainder of this section. Our full-stack engineering services team focuses on digital transformation – from code and applications to cloud, data, and security – to help you accelerate innovation, enhance user experiences, and optimize collaboration, all while delivering agility and cost efficiencies.

Lifecycle of Services

In today's competitive market, the speed of digital priorities is critical to success, yet technical complexities can slow progress. CDW•G's **full lifecycle of services** supports the City of Mesa and OMNIA Partners Participating Public Agencies' internal team and helps you focus on your short-term and long-term goals. Our experts help you design, orchestrate, and manage your technology environment:

Design – Advisory and Assessment

Using a wide breadth of tools, data, and decades of expertise, we offer strategic advisory services, workshops, assessment, planning, and design engagements with our engineers that consider your specific needs and make recommendations to address gaps and optimize growth. This includes documentation, analysis, and creation of materials that detail the bridge between your current and future state.

Orchestrate – Building, Implementation, Deployment

Our expert engineers configure and deploy your solutions to help the City of Mesa and OMNIA Partners Participating Public Agencies implement technology according to your organization's unique needs and ensure it works from day one. We build, create, and analyze software or services, as well as test and release into a defined environment and implement changes outlined in the design phase. We implement technology adoption and organizational change management plans to ensure you're fully utilizing your technology solutions and deriving the value you expect.

Manage – Continuous Support and Operations

CDW•G can help the City of Mesa and OMNIA Partners Participating Public Agencies save time and money and augment internal IT team bandwidth with 24/7/365 support and expert management of any aspect of your technology solution.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- **Managed services:** With proactive monitoring, automation, alerting, analysis, maintenance, and performance of operational functions of an organization's contracted technology environment, CDW•G provides end-to-end support of your complex environments.
- **Technical support and continuous improvement engagements:** CDW•G experts provide technical support for complex technology solutions when your IT, development, and business teams need it. Our experts work with you to continuously optimize your technology environment.

We provide greater insight into our full Managed Services capabilities later in this section.

CDW Services Overview

Our professional services help the City of Mesa and OMNIA Partners Participating Public Agencies amplify your capabilities at any stage of your technology journey. IT services are a critical necessity for government entities and public agencies. Our IT services are built to help the City of Mesa and OMNIA Partners Participating Public Agencies tackle various day-to-day challenges, such as increasing efficiency and maximizing costs, while allowing you to free up your internal resources to focus more on core projects. However, not all government entities and public agencies are fully equipped with the necessary resources or have access to the technical experience and support that they need. Our services allow the City of Mesa and OMNIA Partners Participating Public Agencies to focus more on their residents and constituents.

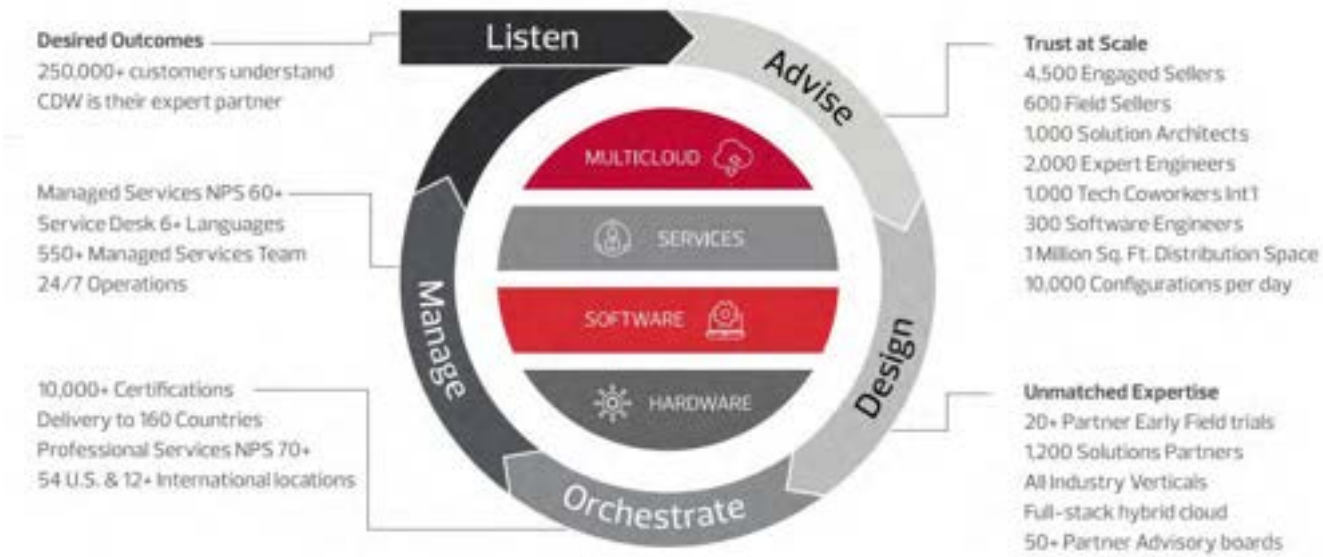

Figure 15. CDW•G's Lifecycle of Services

CDW Services consists of the following services, each with its own focus, experts, and capabilities:

CDW Infrastructure Services provide expertise, tools, and resources to scale and future-proof your infrastructure. We help the City of Mesa and OMNIA Partners Participating Public Agencies upgrade existing architecture and prepare for what's to come, whether on-premises, migrating

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

to the cloud, or in the cloud. We also modernize applications, streamline delivery through DevOps (CDW Development Services), and write custom, cutting-edge apps that drive business. To ensure all of your needs are being met, we have broken our Infrastructure Services into the following categories:

- **CDW Hybrid Cloud** consists of cloud and hyperconverged infrastructure services.
- **CDW Networks** deals primarily with enterprise networking as well as data center networking.
- **CDW Data Center** encompasses soft-ware defined data centers, data center migration and optimization, next-gen backups, compute and storage solutions, as well as power and cooling solutions.
- **CDW OS** includes operating systems, applications, and services.
- **CDW Software Engineering** includes DevOps, as well as software design and consulting.
- **CDW App Modernization** deals specifically with Application Modernization.

CDW Workspace Services provide a comprehensive approach that allows employees to work from anywhere, on any device. We enable the City of Mesa and OMNIA Partners Participating Public Agencies to build a communications platform that grows with you, is rapidly adopted by end users, and helps improve business outcomes through seamless collaboration. Our workspace services are broken into the following categories to meet a variety of complex needs:

- **CDW Collaboration** services deal primarily with communications, messaging and conferencing, video, applications such as Office 365, engagement contact centers, as well as portals and content collaboration.
- **CDW Endpoint** services encompass management and security, mobility, mobile workspaces, unified endpoint management, and managed print services and printer supplies programs.

CDW Security Services provides independent evaluations of security posture and helps government agencies fortify their weaknesses. Our certified experts design comprehensive strategies and solutions for protection and response. Our security services are broken into the following categories:

- **CDW Secure Platform** includes next-generation firewall and IPS, content security, identity and access management, network visibility, and endpoint protection, as well as policy and access.
- **CDW Detect and Respond** deals with log aggregation and correlation, as well as security incident response.
- **CDW Information Security** deals only with information security services.

CDW Data Services, including artificial intelligence (AI) and machine learning (ML) services, offer actionable insights that give you a stark competitive advantage. Design, build, and deploy modern data analytics and AI/ML solutions for storing, transforming, discovering, and operationalizing your data. We have broken our data services into the following categories:

- **CDW Data** focuses on data modernization and data analytics.
- **CDW AI/ML** deals specifically with machine learning analytics (ML) and artificial intelligence (AI) data analytics.

CDW Support Services delivers custom warranty, maintenance, and support services that augment your IT staff so they can focus on maximizing business outcomes. We offer a variety of support services for hundreds of manufacturers; these services include the following:

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal (“RFP”) furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC (“CDW•G”).

- **CDW Technology Support** is a branded service backed by the Original Equipment Manufacturer (OEM) collaborative warranty support service. Our depth and breadth of expertise enable us to get a top-level engineer quickly, resulting in faster incident resolution.
- **CDW Extended Support** provides continuous break/fix support service on equipment that its manufacturer no longer covers (N-1 or older) or is nearing end-of-service (EOS) life.
- **Help Desk Services** connects you with our Managed Services team and helps put the right people, processes, and tools in place.
- **Warranty and Maintenance Services** allow us to keep your equipment – and organization – running with expanded and extended warranties as well as custom maintenance contracts that include on-call experts and break/fix agreements.

CDW Configuration and Integration Services make sure your new technology is ready to work on arrival, whether we are building out a data center solution with fully configured racks, facilitating a multisite deployment of pre-configured computing devices, or handling single-device provisioning. We offer basic and advanced services:

- **CDW Basic Configuration and Integration Services** include hardware integration, software configuration, asset tagging and reporting, custom laser engraving, Windows autopilot enrollment with Intune pre-provisioning, Chrome OS White Glove Service (WGS), and Zero-Touch Enrollment (ZTE), inserts, kitting, and custom packaging, buy and hold services, mobility services, and burn-in services.
- **CDW Advanced Configuration and Integration Services** consist of hosted VPN services, custom imaging, network and security device configuration, and rack configuration.

Success Story: Citizen Support Entity

Background

This State has more than 200 libraries dispersed throughout business centers and other areas where community members frequently visit. To increase efficiency, this State entity wanted to digitize their content and workflow to lessen the processing and approval time for public benefits applications. The customer's goal was to offer convenient access in a friendly environment while also downsizing the number of staff needed in the process.

Engagement and Solution

As their chosen consultant, CDW•G answered any remaining questions regarding the hardware and use cases to ensure that the solution matched the desired outcome. The CDW•G Team also determined which CDW Configuration Services would be most applicable to this project and the customer's overall mission.

CDW•G provided the state with an end-to-end solution. First, we provided proof of concept and created a desirable bill of materials. To best meet citizens' needs, we determined the ideal fit of Chrome tablets that would be suited for long hours of operation in high-touch environments. The Chrome tablets have many benefits, such as built-in security, ease of deployment through Zero Touch Enrollment, and centralized manageability via the Chrome Operating System (ChromeOS). This reduced the total cost of ownership to the customer.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

CDW•G then looked for a kiosk that would complement the Chrome tablet and recommended necessary modifications. Finally, the team acquired demo units for the State to test.

Outcome

CDW•G positioned a complete solution that will allow the State's citizens to conveniently access government applications at over two hundred library locations across the State. Their CDW•G Team was diligent in addressing each of the customer's requirements and concerns, thoroughly reviewed proof of concept, and effectively collaborated with partners to provide the best solution.

Cloud Computing Services

CDW•G understands that the City of Mesa and OMNIA Partners Participating Public Agencies have many technology provider choices. When working with CDW•G, you get the best total solution the industry offers without the limitations inherent when dealing with either a manufacturer or a specific partner. CDW•G works with customers to develop coordinated and cost-effective Cloud Solutions through the following range of services:

- **Discovery and Assessment:** Understanding of environment, usage, challenges, and requirements
- **Planning and Design:** Evaluation of providers, recommendations, and proof of concept
- **Migration Services:** Smooth deployment of the solution
- **Integration Services**: Full integration with existing applications
- **Application Modernization**: Turning monolithic legacy apps into cloud micro-services
- **Aggregation Services:** Streamlined administration and aggregated billing
- **Managed Services:** CDW•G hosted and remote managed services or partner-managed services
- **Fulfillment Services:** Onboarding, reporting, billing, partner reconcilement, and renewals

As a leading provider of Cloud Solutions, we can help the City of Mesa and OMNIA Partners Participating Public Agencies assess your priorities and determine which applications and processes should and shouldn't be moved to the Cloud. We also help you design the best delivery model, whether public, private, or a hybrid model, that provides the greatest flexibility to customize your solution. Furthermore, our pre-qualified partner network makes it easy to find the right providers and to create a comprehensive, multi-vendor solution that meets your specific needs.

Consulting and Advising Services

Our IT consulting and professional services team — over 1,000 professionals strong — delivers personal service that helps the City of Mesa and OMNIA Partners Participating Public Agencies understand and meet your organizational and technological needs. A key differentiator for our Advising and Consulting practice is that our experts go beyond advising; CDW•G can deliver on whatever the City of Mesa and OMNIA Partners Participating Public Agencies need. Because of our ability to design and deliver, our consultants incorporate their technical knowledge and experience into the design, assessment, and implementation. Our comprehensive approach ultimately mitigates risk through experience to ensure that customers like the City of Mesa and OMNIA Partners Participating Public Agencies get it right the first time.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

We have expertise and certifications across diverse industries in the public and private sectors. Our project managers and consultants work directly with you to design and implement every facet of your IT solution.

Using a wide breadth of tools, data, and years of expertise, we offer strategic advisory services, workshops, and assessment, planning, and design engagements with our engineers that consider your specific needs and make recommendations to address gaps and optimize growth. This includes documentation, analysis, and creation of materials that detail the bridge between your current and future state.

Presales Consulting

A unique advantage of CDW•G's business model is that the City of Mesa and OMNIA Partners Participating Public Agencies have access to an incomparable depth and breadth of value-added technical expertise. Our highly trained and experienced Technology Specialists and Solution Architects provide expert consulting advice and ongoing support. In addition, our strong relationships with manufacturers enable your CDW•G Account Team to provide presales consultation, technology roadmaps, and other assistance quickly. In fact, many major vendor partners have dedicated staff at CDW•G.

During the presales phase, service consultation focuses on understanding the City of Mesa and OMNIA Partners Participating Public Agencies' requirements and engaging the appropriate technology specialists, systems engineers, and solution architects. We work to identify potential solutions that meet each Participating Public Agency's needs before presenting those solutions in a proposal or product demonstration. We strive to educate the City of Mesa and OMNIA Partners Participating Public Agencies about products and services by providing a comprehensive overview of its features and benefits.

Below is an overview of those who can be engaged to support the City of Mesa and OMNIA Partners' Participating Public Agencies during the presales consultation process and beyond:

Technology Specialists

Our teams of technology specialists are highly trained and experienced in various products and technologies, including the following:

- Leasing and Finance
- Managed Print Services
- Mobility
- Networking
- Power and Cooling
- Servers and Storage
- Software Licensing and Management
- Unified Communications and Collaboration
- Voice and Data
- Security

Presales Systems Engineers

We have a large team of over 100 presales systems engineers who hold vendor-funded positions and provide presales support for that particular partner's products. These experts assist with evaluating products based on your unique operational requirements and budgetary constraints. They review quotes for product compatibility, functionality, and compliance.

Solution Architects

Our teams of solution architects work closely with the vendor partners whose solutions they design. They assess your environment and work with your IT staff to design plans for solutions

that boost productivity and improve operational efficiencies. Extremely knowledgeable about the latest technologies, they have important insight into the pros and cons of different solutions.

Onsite Vendor Representatives

CDW•G has manufacturer and software publisher representatives onsite at our sales offices to assist account managers and specialists with requests for technology roadmaps and to provide training on an ongoing basis. Our strong relationships facilitate presales consultation and timely notification regarding product changes and products going end of life.

Data Center Transformation Team

In addition to our presales consulting team and resources, our advanced consulting arm, the Data Center Transformation (DCT) team, has both the resources and expertise to collect complex data, provide custom reporting, and tailor our advisory outcomes to the unique needs of the City of Mesa and OMNIA Partners Participating Public Agencies. CDW•G is aligned with industry trends across technology organizations and industries, including state, local, and education. CDW•G reins in the complexity of industry trends and tailors it to your needs and goals through our disciplined practices.

Data Center Transformation is the process of changing an organization's IT infrastructure and application services to improve its capabilities, performance, and efficiency. The process includes data center migrations, cloud integration, large-scale changes to hardware, virtualization, improved resiliency, software-defined components, application rationalization, and business process automation. At its core, DCT is a business-first approach that will enable the City of Mesa and OMNIA Partners Participating Public Agencies to accelerate the transformation of your business models using technology to achieve its unique goals.

The DCT team offers consultative guidance in six key strategic focus areas, highlighted in the figure below:

Figure 16. DCT Focus Areas

With over 23 years of experience providing consulting and advisory services, the DCT team provides consultative and advisory expertise specific to the City of Mesa and OMNIA Partners Participating Public Agencies' business challenges. With a focus on understanding your outcomes, goals, and objectives, DCT takes a consultative approach to recommend solutions to address strategy rather than problems.

For decades, the DCT team has led transformative projects for state and local governments, federal entities, small businesses, large corporations, and health and education organizations. Over this period of time, we have accomplished many goals for our customers, including:

- Moved 675 data centers
- Relocated 250,000+ workloads
- Migrated 25,000+ applications across 16 industries
- Reviewed 1290 data centers

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- Assessed and defined direction for 15M+ square feet of raised floor
- Identified an average reduction of 65% of data center space
- Designed enterprise clouds to support up to 780K workloads
- Moved 950,000 workload
- Moved 25,000 workloads within a single client
- Moved 10,000 workloads in a single environment
- 160 facility concept plans performed
- Rationalized almost 1M workloads for cloud placement
- Worked with 325+ converged infrastructures involving our services
- Configured more than 5M configuration items for hundreds of CMS/CMDBs
- Implemented 77 enterprise IT operating models

There are many different types of projects that the DCT team can orchestrate for the City of Mesa and OMNIA Partners Participating Public Agencies. These projects span the full gamut of transformational information technology and include solution areas such as data center transformation, business process optimization, and application management solutions. Our DCT team uses proven processes and leverages infrastructure, data, digital, and security experts to create high-value transformative business capabilities for our customers.

Overview of Advising and Consulting Services

CDW•G has a wide variety of advising and consulting services. These services include, but are not limited to, the following:

- **vCISO Service:** Many organizations have limited staff or skill sets and need assistance navigating security obstacles, which is why CDW•G's Security Consultants are available to act as a virtual Chief Security Information Officer (vCISO). Our vCISO service helps you improve the maturity and scope of your existing security practices by providing a technology-neutral Security Consultant.
- **CDW OS ITSM Simulation/Executive Visioning Workshop:** By participating in our IT Service Management (ITSM) business simulation workshop, the City of Mesa and OMNIA Partners Participating Public Agencies can learn how to increase the business impact of your internal service provision. This hands-on, highly interactive IT/Business workshop is designed to educate the City of Mesa and OMNIA Partners Participating Public Agencies' leadership and stakeholders in the business structure of process with technology.
- **IoT Transformation Workshop:** Our Internet of Things (IoT) Transformation Workshop is designed to help the City of Mesa and OMNIA Partners Participating Public Agencies understand your data needs, determine the return on investment (ROI), and evaluate your foundational infrastructure to determine if any technical components should be retired, evolved, or added before implementing an IoT technology initiative.
- **CIO Essentials:** Our CIO Essentials provides the framework to develop the City of Mesa and OMNIA Partners Participating Public Agencies' vision for the future into an actionable strategy and roadmap. Whether Participating Public Agencies are looking to transform your organizations into a DevOps culture based on cloud Platform as a Service (PaaS), industrialize your private cloud services, consolidate your application portfolio, or modernize your IT environment as a whole to reduce IT expenses, CIO Essentials provides the tools the City of Mesa and OMNIA Partners Participating Public Agencies need to deliver a clear, concise business-centric strategy.
- **PMO Assessment Workshop:** Our DCT leads our Project Management Office (PMO) Assessment Workshop. This workshop is a high-impact, comprehensive program to

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

assess and improve Project Portfolio Management (PPM) practices over the course of 3-4 weeks. This comprehensive program consists of three survey domains: PPM current state, PPM satisfaction, and PPM assessment.

- **Application Rationalization:** Over time, your application portfolio may expand as more are introduced for specific needs. Using a strong holistic methodology, CDW•G can help the City of Mesa and OMNIA Partners Participating Public Agencies address your application portfolio to ensure that the applications used are cost-efficient and serve as effective tools. Our skilled consultants will work directly with relevant stakeholders to review your organization's complete list of applications. This review includes a full data analysis, coupled with facilitated workshops and interviews with application owners and end-users. These sessions provide additional context and knowledge beyond the raw data to identify and attain your organization's end goals.
- **Application Dependency Mapping:** Application dependency mapping combines tool-based discovery with the experience of CDW•G resources to provide a holistic view of an application environment, including detailed information and mapping of the relationships between your IT assets. Whether the City of Mesa and OMNIA Partners Participating Public Agencies are prepping to migrate to a new data center, introducing a new application, reducing the risk of business interruptions, or planning to transform your business, application dependency information is a crucial factor in your success. Application dependency mapping is an essential first step for understanding your current environment or preparing for a wide range of changes.
- **Migration Execution:** From planning and strategy to the execution of the migration, CDW•G can assist you with the ability to migrate from your current data center to a new one on a schedule.
- **Migration Readiness Assessment:** Before starting a migration program, consider having CDW•G experts perform a Migration Readiness Assessment. This program helps you be prepared to start the migration program, by identifying risks and develop mitigation plans that could impact your migration program, which will help you make better-informed decisions about scope, timeline, budget, and resources.
- **Organizational Effectiveness Services:** Ensuring that your organization is performing at the highest levels depends on how well your IT teams function and work with each other. CDW•G's expertise in how IT organizations operate helps you drive efficiencies, address issues, prepare for an organizational change, or expand services to meet business objectives. Our consultants will align your organizational structure and role definitions to meet your goals as well as account for current needs and projected growth to better understand your strategic direction.
- **IT Practices Workshop:** Led by our DCT team, the IT Practice Review workshop gives the City of Mesa and OMNIA Partners Participating Public Agencies visibility into how your organizations operate. Through a holistic approach, we look beyond process documentation into how teams work together. Each Participating Public Agency is unique, and how processes are designed and implemented can either work for or against business objectives. In 2 short weeks, agencies will have a high-level map of your strengths and weaknesses and a plan to ensure your processes propel you to reach your goals.

The above services and workshops serve as an example of our capabilities but are not an exhaustive list.

OMNIA Success Story: Midwestern, Midsize City

Background

CDW•G prioritizes helping all our public sector customers realize the vision they have for the future – from the smallest town to the largest municipality. Simply providing order fulfillment is a thing of the past. This mid-sized city, serving over 200,000 constituents, sees an opportunity to grow their mission and their community by becoming an innovative organization delivering world-class outcomes for their citizens.

Challenge

Regrettably, this City encountered a predicament all too familiar: a shortage of resources hindering the pursuit of their ambitious transformational goals. Compounded by the relentless pace of technological evolution, innovation became an elusive pursuit. Instead of envisioning strategic growth, the City found itself caught in the struggle to maintain an aging infrastructure. Even if budgetary allocations were secured for new technology, the protracted procurement process extinguished any hope of timely execution, casting a shadow over the prospects of success.

Solution

Enter the City of Mesa, OMNIA Partners contract, and CDW•G. The City of Mesa contract gave this city a procurement vehicle that would ensure taxpayer dollars are spent sensibly, while allowing IT leadership to make decisions and execute their plan quickly. Far from the old adage of "use it or lose it" funds, CDW•G was able to provide critical staff augmentation resources to complete crucial updates on a timeline unique to local government.

Going a step further, the City's dedicated CDW•G Account Team coordinated consultants to help formulate an effective plan for implementing and executing on their vision. This wide range of services offered by CDW•G – from basic network upgrades to InfoSec consulting and road mapping – became a key factor in IT moving from treading water to making real progress in delivering exceptional outcomes.

Success through OMNIA Partners

The City benefits from competitively priced service offerings with the technical acumen to partner alongside C-level executives and deliver innovative outcomes; a contract that procurement understands and embraces as a cost-saving measure; and a partner that understands their needs and aligns their resources to help accomplish goals that once seemed out of reach.

Technical Support Services

CDW Technology Support

CDW Technology Support (CTS) is CDW•G's branded offering backed by the OEM collaborative warranty support service. CTS provides an enhanced client warranty support experience with one contract offering incident management for covered devices. CDW•G will take the first call for the City of Mesa and OMNIA Partners Participating Public Agencies to help resolve your issue and, if needed, provide an engineer onsite to perform a hardware replacement.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

If escalation to the OEM is required, CDW•G will do that on the City of Mesa and OMNIA Partners Participating Public Agencies' behalf. CDW•G Technology Support helps the City of Mesa and OMNIA Partners Participating Public Agencies solve your business problems by providing a single solution for your manufacturer support, saving internal IT staff time and/or any unplanned expenses for an engineer to come and replace faulty hardware and/or renew a contract that was not co-termed. Because of CDW•G's depth and breadth of expertise, we are able to get a top-level Technical Assistance Center (TAC) engineer more quickly than a customer may be able to, resulting in quicker incident resolution. Some of the features and benefits of CDW Technology Support include:

- **One place to call:** CDW Technology Support allows the City of Mesa and OMNIA Partners Participating Public Agencies a single point of contact. We provide end-to-end ownership of all incidents, service requests, and support for maintenance, hardware replacement, knowledge base, and software support.
- **24/7/365 support:** CDW Technology Support provides around-the-clock support via a dedicated service desk 24/7/365 and also provides a dedicated support number, email address, and ServiceNow login to open and view case status online.
- **Full-service Return Merchandise Authorization:** If, after troubleshooting, CDW engineers determine that a device needs to be replaced, CDW•G will request the RMA from the manufacturer on your behalf and have it sent to your location. We will also dispatch an engineer to meet that part and swap out the device for you and return the defective parts to the manufacturer and update the serial numbers on your contracts.
- **Fully backed by manufacturer warranty and support:** A support contract is purchased through the manufacturer so you do not lose the ability for upgrades, updates, etc., and may be provided software download access to those contracts if requested.

Maintenance Offerings

CDW•G offers various maintenance agreements to cover all types of vendors, products, and service levels. Our offered maintenance agreements give access to cover all vendors, products, and service levels with just one toll-free number. Types of available agreements include the following:

- **Coterminous Support Contracts.** A conterminous support contract takes the City of Mesa and OMNIA Partners Participating Public Agencies' existing manufacturer support plans and roll them together with one standard end date to eliminate the risk of a lapse in coverage.
- **Break/Fix Maintenance Agreement.** These annual maintenance agreements and contracts cover the repair or replacement of in- or out-of-warranty equipment.
- **Retainer Contracts.** Retainer contracts provide a designated block of time that guarantees the City of Mesa and OMNIA Partners Participating Public Agencies' access to field service and support staff, including system engineers, network technicians, PC, and printer repair technicians, and more.

For information about warranty and repair services, please see "Repair" below.

Leasing/Financing Services

CDW•G has an in-house Financing Solutions Team to help the City of Mesa and OMNIA Partners Participating Public Agencies navigate among our tailored payment solution options, which include leasing, financing, subscriptions, etc. We take a consultative approach to

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

financing options that ensure the City of Mesa and OMNIA Partners Participating Public Agencies' goals are met.

At CDW•G, we focus on providing the best solutions in the industry—and that includes Financing Solutions. CDW•G can facilitate an agreement between OMNIA Partners Participating Public Agencies and various leading financing companies that can help each Participating Public Agency obtain the payment terms that best fit their unique needs and budget requirements. Agencies can secure a payment solution structure with maximized options and terms.

CDW•G's Financial Partners provide the best option to fit the City of Mesa and OMNIA Partners Participating Public Agencies' needs. For agencies with a Master Lease Agreement established, we likely have a partnership in place with their provider or can establish one, to extend their existing agreement to incorporate purchases from CDW•G. Often, we leverage relationships with our partners to offer more advantageous rates, terms, and structures. For agencies that have diversity requirements to meet, we can recommend small and diverse partners that hold relevant certifications.

Our Premier Financing Partners include, but are not limited to, the following:

- Arrow Capital Solutions
- Cisco Capital
- Dell Financial Services
- HPE Financial Services
- Lenovo Financial Services
- LEAF Commercial Capital, Inc.

Trade-in Services – CDW•G's Information Technology Asset Disposition

When the City of Mesa and OMNIA Partners Participating Public Agencies' equipment reaches the end of its lifecycle, CDW•G can refer you to industry-leading IT Asset Disposition (ITAD) service providers to help you properly dispose of the hardware. Our partnerships with industry-leading asset disposition organizations allows for fair market value, responsible disposal, transfer of liability, and potentially credit toward new tech purchases with CDW•G.

CDW ITAD services include, but are not limited to data wiping, asset removal, evaluation, recycling, onsite shredding, potential value back credit to maximize recovery, and depot services. CDW ITAD offers many benefits to the City of Mesa and OMNIA Partners Participating Public Agencies, including:

- Logistics services for quick and efficient removal of equipment from client facilities
- Device pickup, including palletizing equipment, shrink wrapping, and transport
- Document of liability transfer provided to indemnify client from any environmental liability
- Ensure removal of all client information and software from electronic media and assets
- US Department of Defense-compliant erasure services in full support of government standards
- EPA-approved disposal
- Zero-landfill policy
- Complete serialized reporting available via a website

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Repair Services

CDW•G offers a breadth of warranty options, repair services, and maintenance agreements to provide the City of Mesa and OMNIA Partners Participating Public Agencies the assurance of predictable costs and repair response times that a warranty agreement can provide.

The standard manufacturer warranty that comes with most products is a “best effort” commitment for response time. Regardless of the application of a system for the City of Mesa and OMNIA Partners Participating Public Agencies, the “best effort” level of service is frequently not sufficient to achieve desired business continuity. Even a non-critical repair, such as a tablet, can keep a coworker without this tool for 8-10 business days. Moreover, standard manufacturer warranties can quickly expire. The average industry cost for maintenance is $85-$120 per hour plus parts; quickly leaping past the cost to extend the warranty. As such, we recommend the City of Mesa and OMNIA Partners Participating Public Agencies take advantage of the warranty, repair, and maintenance options we offer.

CDW•G offers a breadth of warranty options, repair services, and maintenance agreements to provide our customers the insurance of predictable costs and repair response times that a warranty agreement can provide. Our comprehensive suite of product lifecycle support offerings includes:

- Warranty extensions and upgrades
- Post warranty support
- Accidental damage protection
- Maintenance contract agreements
- Post-sale technical support
- Product and certification training
- Onsite repair
- Depot repair
- Help desk service

Account Managers keep a watchful eye on all of their customers’ agreements and have pre-emptive discussions to ensure customers’ next warranty purchase meets their needs as well.

Examples of our available warranty levels, popular warranty options, and related value added services are included below. The completeness of our portfolio allows us to provide effective problem diagnosis and resolution for every customer need.

Basic Warranty

CDW•G’s basic warranty offering includes the following:

- **CDW•G provided 30 day warranty** – We offer a complimentary 30 day warranty for all products we sell. Once the 30 days have expired, CDW•G’s technical support or the City of Mesa and OMNIA Partners Participating Public Agencies’ dedicated Account Manager assist in requesting the manufacturer warranty service.
- **Certified technician support** – We provide toll-free, email, and on-line chat technical support on all hardware and operating systems for up to two years after purchase from CDW. Our technical support technicians are US based, located in Holmdel, New Jersey, responding to about 60 calls a day. For insight into your technical issues, the City of Mesa and OMNIA Partners Participating Public Agencies can monitor the frequency and type of technical support requests via the CDW•G Account Center.
- **Extensive engineering support** – We have service-dedicated coworkers nationwide, aiding in pre- and post-sale questions. They provide assistance to the City of Mesa and OMNIA Partners Participating Public Agencies by phone, and we also offer on-site support. As with the technical support above, a key to great support is that they are not compensated by an individual manufacturer they are “vendor agnostic.” This allows them

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal (“RFP”) furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC (“CDW•G”).

to support the interoperability of the City of Mesa and OMNIA Partners Participating Public Agencies' entire solution, not promote a single brand. These experienced and certificated engineers provide consultation with configurations and infrastructure shifts.

Extended Warranty

CDW•G offers various extended warranty options, including the following:

CDW Maintenance Agreements

CDW's offered maintenance agreements give access to cover all vendors, products, and service levels with just one toll-free number. Types of available agreements include:

- **Coterminous Support Contracts** - A coterminous support contract can take the City of Mesa and OMNIA Partners Participating Public Agencies existing manufacturer support plans and roll them together with one common end date to eliminate the risk of a lapse in coverage.
- **Break/Fix Maintenance Agreement** - These annual maintenance agreements and contracts cover the repair or replacement of in- or out-of-warranty equipment.
- **Retainer Contracts** – Retainer contracts provide a designated block of time that guarantees the City of Mesa and OMNIA Partners Participating Public Agencies' access to field service and support staff including: system engineers, network technicians, PC and printer repair technicians, and more.

Cisco SMARTnet

Without SMARTnet, Cisco charges $400 hour for repair services. With the average repair taking four hours, customers are likely to pay $1600 per incident without SMARTnet. Cisco SMARTnet service provides enhancement and maintenance support resources during the operational lifetime of a Cisco networking device. We are the #1 Cisco SMARTnet partner, holding SMARTnet Maintenance Agreements with over 34,000 distinct customers. Our dedicated SMARTnet team has 38 SMARTnet Specialists with over 200 years of combined experience working with SMARTnet contracts and in-depth knowledge of Cisco's internal SMARTnet tools. We offer multiple length and levels of SMARTnet agreements, including onsite options. CDW is authorized to purchase directly from Cisco, which can greatly reduce the City of Mesa and OMNIA Partners Participating Public Agencies' cost for this comprehensive service.

Hard Drive Retention

CDW•G offers IBM and Lenovo hard drive retention warranty options for our customers whose hard drives store confidential customer data, trade secrets, or intellectual property, or if they need to comply with regulatory requirements. When a damaged hard drive is replaced, the customer keeps the original defected device, eliminating tracking of drives during transit and providing the utmost data protection.

Design Services

We get that every IT solution is unique and that its delivery must be customized to meet the City of Mesa and OMNIA Partners Participating Public Agencies' specific needs. In tandem with industry-leading partners, our highly experienced architects, engineers, and project managers will work with you to design solutions that meet the City of Mesa and OMNIA Partners Participating Public Agencies' needs and help you reach your IT goals. From configuration and maintenance to advanced engagements across infrastructure, workspace, security, and support, CDW•G has the expertise you need to help with all of your IT needs. We provide

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

remediation recommendations based on environment discovery and create application architecture designs and roadmaps specific to the requirements of each OMNIA Partners Participating Public Agency.

An overview of our design services include, but are not limited to, the following:

- **Solutions Design:** CDW•G helps you design specific solutions to meet your hybrid infrastructure, network, digital workspace, and security needs.
- **Transformation Design:** Design platform migrations, application upgrades, and the entirety of your digital transformation
- **Platforms Design:** Design public cloud platforms and applications with our experts. Our design and planning workshops help you align your goals and needs to create an outcome-based unified communications strategy based on end-user satisfaction.
- **Device Design:** Device Design includes custom building the right device for the City of Mesa and OMNIA Partners Participating Public Agencies' needs and providing recommendations for all key technical specifications. Once the City of Mesa and OMNIA Partners Participating Public Agencies know which products are best for your environments, we often work with our partners to custom design them – even if the device is not currently available in the market. These devices - also called Configure to Order – are built to your exact specifications.
- **Data Strategy Design:** The first step in harnessing the power of your data is having the right processes in place for collecting, analyzing, and making decisions based on what the data is telling you. CDW•G is there to suggest new ways to create an agile, modern data strategy. We conduct a comprehensive evaluation of your current data processes and platforms and then design a customized data strategy tailored to your needs.
- **Software Development/Design:** CDW•G provides remediation recommendations based on environment discovery, and create application architecture designs and roadmaps specific to your requirements.
- **Security Controls Design:** When it comes to designing security controls, CDW•G provides a comprehensive and vendor-neutral approach to prevent data breaches and proactively respond to cyberattacks.
- **Physical Security Solutions Design:** From hardware and software recommendations to floor plans that specify new device install locations, our physical security experts can design a completely new physical security system that fits your needs.
- **Infrastructure Design:** Infrastructure experts can design and implement an infrastructure that consolidates business processes and allows you to rapidly improve end-user experiences and mitigate problems on both internal and external applications.

Success Story: State Court System

Challenge

This State Court System had a mission to provide its citizens with access to the justice system and transform their digital experiences. The legacy content management system (CMS) platform was difficult to maintain and gave the website an outdated look, featuring text-heavy, static content that made it difficult to find important information. Because the site lacked the ability to incorporate reusable content, the IT team was responsible for content updates. Additionally, the site was not designed for mobile devices, which hindered the user experience for a large proportion of the users accessing the site. As a result, the platform had limited user analytics and business stakeholders had a hard time understanding user behavior. This customer needed a site platform that would optimize the user experience,

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

improve content quality and velocity, and provide deeper insights into how their users were utilizing the site.

Solution

CDW•G performed a Discovery Phase with key business and IT stakeholders to elicit and document high-level business goals, user personas, site features, high-level user stories, and the high-level technical architecture for an Adobe Experience Manager website implementation. The information gathered from the discovery phase was used as the basis for creating a list of Experience Manager templates and components that would be needed to successfully migrate the existing website to Experience Manager. The CDW•G creative team worked with the customer on their vision for the redesigned website.

After a collaborative process, the team finalized designs that would transform the existing web experience. CDW•G then implemented the required templates, components, and integrations to migrate and launch the new public website on Adobe Experience Manager. Key features of these phases included:

- **Agile delivery**: The team adopted an agile process to create and extend more than 50 Experience Manager components and templates across multiple three-week sprints. End-of-sprint demos allowed the State's stakeholders to provide early feedback on whether any course corrections or minor tweaks were needed.
- **Website redesign:** CDW•G collaborated with the customer and created more than 18 pages of designs, including both website and mobile layouts, to serve as templates that focused on providing website users with a seamless way to find and consume content.
- **CDW•G Digital Foundation**: The CDW•G Digital Foundation accelerator was leveraged to create the new website. The accelerator consists of dozens of Experience Manager components that CDW•G has invested in developing, based on common client use cases. The use of the accelerator lowered overall development complexity and effort, leading to a reduction in total implementation costs.
- **Forms search engine:** CDW•G created a forms search engine, allowing users to search for forms appropriate for their needs. Content authors can embed references to forms in searchable content, allowing forms to be more easily found than ever before. The forms search engine makes it simple for the customer to update form data in one place and reflect those form updates sitewide.
- **Analytics**: Adobe Analytics was configured with Experience Manager using Adobe Launch. CDW•G created an Analytics data layer to capture user behavior based on the customer's requirements.
- **Content author enablement and author guide**: CDW•G created an author guide, giving authors a place to find answers to their content questions, as well as a basis for how to create a page and which templates to use.
- **Strategic consulting advice:** Throughout the project, CDW•G provided strategic consulting advice with respect to Adobe product features and best practices, becoming a trusted advisor to the State's stakeholders. Our consulting and relationship with the customer were key to the project's success.

Outcome

This customer launched a newly redesigned public website and its ever-expanding capabilities through the MyCase portal. For the citizens of this state, locating and accessing information and tools is easier than ever. Whether at home or on the go, users can journey

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

through the website, find the correct resources, and navigate complex forms. CDW•G worked closely with the customer to redesign and migrate its public-facing site to Adobe Experience Manager Cloud Service. The Adobe platform gives the customer the ability to easily maintain existing content, streamline new content creation, and continuously improve the user experience by removing friction points in the user's journey.

Analysis Services

Analysis is an integral component of the design, orchestrate, and manage phases of our lifecycle of services. CDW•G possesses the most comprehensive and powerful analytical tools, enabling us to understand your current environment. Additionally, we offer a comprehensive set of analysis and assessment services that include, but are not limited to, the following:

CDW Infrastructure Assessments
SD-WAN Assessment We provide an In-depth review of the SD-WAN edge devices, architecture, and configurations to provide recommendations on how to improve the implementation. The assessment typically consists of a review of the management console, hardware, scalability, features, software version, internet design, routing configuration, policies, security, WAN optimization, SaaS on Ramp, and integrations.
Wireless Assessment We consult with the City of Mesa and OMNIA Partners Participating Public Agencies to understand the current state of the wireless infrastructure and your desired business outcomes. We conduct an in-depth review and document the current environment with an inventory list, and then provide recommendations that meet your requirements and allow you to achieve your desired outcomes.
Network Health Check This health check includes elements like tools deployed to discover network devices, End of Life (EOL) or End of Sale (EOS), and software security report, device software code recommendations, and a summary report.
Network Assessment Our Network Assessment includes all of the elements of the Network Health Check, but is more feature-rich in its diagnostic capabilities.
Next Generation Network Assessment Our Next Generation Network Assessment delivers our most comprehensive diagnostics. It includes more future-state planning artifacts, such as a roadmap tailored to the City of Mesa and OMNIA Partners Participating Public Agencies needs that outlines recommended steps for improving future-state performance and security.
Quality of Service Assessment

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

An in-depth review of each device's Classification and Marking, Queuing and Shaping, Service Provider mapping and translation, and WAN VPN.

Multicast Assessment

An in-depth review of each device's L2/L3 Multicast configuration.

DV Technical Readiness Assessments

Digital Velocity (DV) Technical Readiness Assessments are designed to benchmark current architecture, processes and practices, and the City of Mesa and OMNIA Partners Participating Public Agencies' maturity level with the goal of uncovering, at a high level, the fastest and most impactful path toward your desired future state. Assessments are available for the following focus areas: Cloud, Modern DC, Migration, Database Migration, Application Modernization, DevOps, and Data Modernization.

Hybrid Infrastructure Assessment

Our Hybrid Infrastructure Assessment Team (HIAT) has several data center use cases and scenarios to provide capacity and planning advice in tandem with CDW•G solution architects, including:

- **Environment Overview**: CDW•G's HIAT provides a detailed report of a customer's current virtualization environment.
- VMware End of Support: CDW•G and the HIAT perform a licensing and hardware compliance checkpoint for VMware Virtualization.
- **Platform Migration**: A CDW•G Solution Architect works with the HIAT to project capacity for new compute platforms for a specific environment, whether on-premises or in the cloud.
- **Consolidation:** A CDW•G Solution Architect in tandem with the HIAT can project the capacities needed to consolidate hardware or geographic locations.
- **Disaster Recovery (DR):** A CDW•G Solution Architect in tandem with the HIAT will provide the City of Mesa and OMNIA Partners Participating Public Agencies an overview of DR planning, best practices, and additional services available to assist in this critical business function.
- **Hardware Refresh**: A CDW•G Solution Architect , in tandem with the HIAT, helps the customer analyze and plan for proper lifecycle management of the data center infrastructure.

While valued at $5,000, this assessment is provided as a no-cost value add to the City of Mesa and OMNIA Partners Participating Public Agencies.

CDW Well-Architected Review for AWS

A CDW•G field solution architect utilizes the AWS Well-Architected tool to walk the customer through the questionnaire and then reviews the output, specifically identifying any high-risk issues with the City of Mesa and OMNIA Partners Participating Public Agencies.

While valued at $5,000, this assessment is provided as a no-cost value add to the City of Mesa and OMNIA Partners Participating Public Agencies.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

CloudHealth: Rightsizing Existing AWS Environment Assessment

A CDW•G field solution architect enrolls the City of Mesa and OMNIA Partners Participating Public Agencies for a no-cost trial with CloudHealth and, after two-week lead time, they outline what the tool has identified for you.

While valued at $2,500, this assessment is provided as a no-cost value add to the City of Mesa and OMNIA Partners Participating Public Agencies.

Power and Cooling Assessment

CDW•G's Power and Cooling team performs an analysis of the City of Mesa and OMNIA Partners Participating Public Agencies current environment.

While valued at $2,500, this assessment is provided as a no-cost value add to the City of Mesa and OMNIA Partners Participating Public Agencies.

CDW Storage Assessment Workshop

An analysis of the City of Mesa and OMNIA Partners Participating Public Agencies' data center storage environment, including object, file, block, cloud-based strategies, DC performance, capacity, and end-of-support planning.

VMware NSX POC Assessment Workshop

This data center assessment considers and deploys a proof of concept for the City of Mesa and OMNIA Partners Participating Public Agencies on how micro-segmentation using the NSX platform can benefit your operations.

Nutanix Configuration Assessment

Assess and summarize the Nutanix environment in terms of its current health and architecture, with a focus on technical aspects of performance, manageability, and scalability of this environment.

Veeam Availability Assessment

An analysis of Veeam's availability suite, including data protection and recovery strategies. It also covers design, performance, capacity, end-of-support planning, and a brief overview of disaster recovery.

CDW Automation and Orchestration Assessment Workshop

A process optimization and tool selection guidance workshop for Assessment and Orchestration with the outcome being a collection of highly-detailed user stories for Infrastructure-as-a-Service (IaaS) and Platform-as-a-Service (PaaS) process workflows, role definition recommendations, process optimization options, and recommended toolsets.

CDW Data Center Assessment

An assessment of the City of Mesa and OMNIA Partners Participating Public Agencies' data center infrastructure, including storage, compute, and virtualization.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Cisco Flexpod Assessment Workshop

Review of Cisco Nexus switching, UCS configuration, storage and capacity, and VMware virtualization to align with best practices.

Cisco UCS Assessment

An analysis of Cisco's UCS converged infrastructure environment, including performance, capacity, and end-of-support planning.

VMware vSphere Assessment

A VMware infrastructure assessment of up to 30 ESXI hosts and one vCenter server designed to help the City of Mesa and OMNIA Partners Participating Public Agencies understand the overall health and software status of your VMware ESX/ESXI and vCenter systems, including performance, capacity, and end-of-support planning.

CDW Security Assessments

Cloud Security Assessment

Identify gaps in security posture and create an actionable roadmap for remediation, examining all major CSPs (AWS, Azure, GCP) and multicloud environments.

Application Security Assessment

Assess application security by having a team of CDW•G security engineers attempt to break into an application used by the City of Mesa and OMNIA Partners Participating Public Agencies, whether it be an off-the-shelf product or one developed by your team.

Application Architecture Review

Identify potential concerns within an application by examining the architecture and the data flow, finding vulnerabilities, and providing detailed recommendations for improvement.

SDLC/DevOps Review

Review and improve the secure Software Development Life Cycle (SDLC) program by focusing on the use of key application security solutions, including Dynamic Application Security Testing, (DAST), Static Application Security Testing (SAST), Interactive Application Security Testing (IAST), and Software Composition Analysis (SCA).

Data Protection Modernization Assessment

Evaluate the entirety of the data protection ecosystem to ensure the City of Mesa and OMNIA Partners Participating Public Agencies' recoverability. This assessment leverages a proprietary Data Protection ScoreCard (as well as stakeholder interviews and analytics tools) to provide a report comparing the existing environment to that of the new modernized environment.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Database Security Assessment Assess database risk by evaluating the susceptibility of the City of Mesa and OMNIA Partners Participating Public Agencies' database to a host of known vulnerabilities and common attack scenarios.
Rapid IAM Assessments Assess the City of Mesa and OMNIA Partners Participating Public Agencies' current Identity and Access Management (IAM) program and its ability to defend against a wide variety of threats. This assessment aligns with ISACA's IT Assurance Framework (ITAF), COBIT 5.0, ISO 27001/27002, ITIL v3, or the NIST standards.
IAM Strategy Assessment Use business and security objectives to plot the course for an IAM program over a three- or five-year horizon, including new tool deployments, integrations, functionality improvements, and business justifications.
User Access/Privileged Access Reviews Get a system-agnostic view of the organization's user processes and roles, and identify opportunities to convert manual processes into automated workflows.
Identity Exposure Assessment Leverage a Zero Trust view to assess the CISA pillars of Identity and Device. The assessment closely aligns with the NIST Zero Trust Architecture and CISA Zero Trust Maturity Model, evaluating user and device identity management across on-premises and cloud environments for alignment with Zero Trust best practices.
Cybersecurity Maturity Assessment Leverage an established capability maturity model (CMM) to objectively evaluate the City of Mesa and OMNIA Partners Participating Public Agencies' current security program and provide realistic maturity rankings across industry standards and frameworks, including the NIST CSF, NIST 800-53, CIS Top 20, and PCI DSS.
SAP Role Design Assessment Assess Systems Applications and Products (SAP) Production environment, reviewing role design approach, role naming conventions, organizational-level security, unassigned roles, maintenance access, end-user profile assignment, and access to sensitive IT authorizations. Provide recommendations for role remediation and optimization.
SAP GRC Access Control Configuration Assessment Assess the SAP Governance, Risk, and Compliance (GRC) Access Control (AC) environment to evaluate process documentation, configuration settings, firefighter workflow setup, firefighter log report analysis, and risk ruleset customization analysis.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Provide recommendations for improvement and a prioritized list of automation opportunities.

SAP User Provisioning and Role Change Management Process Assessment

Review all provided documentation regarding policies and procedures to develop process maps for common SAP Security activities. Deliver detailed process flows for in-scope processes and recommendations for improvement and automation.

FTC Assessment

Assess compliance by following a five-phase methodology for organizations faced with consent orders from the Federal Trade Commission (FTC).

PCI Assessment (Audit)

Assess alignment of current practices with Payment Card Industry Data Security Standard (PCI DSS) requirements to determine compliance, issuing a Report on Compliance (Roc) or Attestation of Compliance (AoC) if appropriate. CDW•G also provides readiness assessments, scoping assistance, and Self-Assessment Questionnaire support, as needed.

Privacy Maturity Assessment (GAPP/NIST Privacy)

Evaluate the City of Mesa and OMNIA Partners Participating Public Agencies' privacy program to benchmark policies, processes, and technologies against leading privacy standards, including the NIST Privacy Framework, Generally Accepted Privacy Principles (GAPP), and HIPAD35A Breach Notification requirements.

Third-Party Risk Assessments

Assess the City of Mesa and OMNIA Partners Participating Public Agencies' third parties in support of enterprise-wide third-party risk management programs. These assessments be provided in a managed service format or in bundles/bulk assessments.

Privacy Compliance Assessments (HIPAA/CCPA/CPRA/GDPR/PIPL/GLBA)

Measure readiness and/or compliance with all major data protection regulations, including HIPAA, CCPA/CPRA, GDPR, PIPL, and GLBA. These assessments harmonize regulatory frameworks to save costs and improve efficiency.

IT Risk Assessment

Assess IT environment or specific systems to determine if existing IT policies, procedures, infrastructure, applications and security posture are aligned with the City of Mesa and OMNIA Partners Participating Public Agencies' short-term and long-term business objectives.

CMMC Pre-Assessment

Evaluate the current environment against the Cybersecurity Maturity Model Certification (CCMC) framework to identify gaps and develop a mitigation strategy before the certification assessment to help shorten the time to certification.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Zero Trust Assessment Build a strategic roadmap to Zero Trust maturity through our three-phase assessment, which aligns with NIST SP 800-207 guidelines and the Cybersecurity and Infrastructure Security Agency (CISA) Zero Trust Maturity Model.
Security Operations Assessment Benchmark the Security Operations Center (SOC) against CDW•G's best practices program, peer organizations, or historic organizational performance levels.
DDOS Resiliency Assessment Evaluate the City of Mesa and OMNIA Partners Participating Public Agencies' ability to maintain business continuity and continue critical operations in the face of a Distributed Denial-of-Service (DDoS) Attack.
IoT Device Assessment Provide visibility into and control over the IoT devices on the network, improving the City of Mesa and OMNIA Partners Participating Public Agencies' ability to respond to issues and threats.
Cyber Workforce Assessment Assess the suitability of the cyber workforce to defend the organization by evaluating roles and responsibilities, governance, and the knowledge, skills, and abilities of the individuals.
Web App Penetration Testing Identify and test the full attack surface of the provided application to achieve a full-breadth test of all user-facing functionality.
IR Readiness Assessment Assess the City of Mesa and OMNIA Partners Participating Public Agencies' ability to respond to threats from inside and outside of the network perimeter. CDW•G can also help with Incident Response (IR) Program Development and IR Tabletop Exercises.
ASV Scanning Scans all Internet-facing systems that store, process, transmit, or impact the security of cardholder data (CHD) to adhere to the requirements of the current version of the PCI Data Security Standard.
External Penetration Testing Identify and test the full external attack surface of the City of Mesa and OMNIA Partners Participating Public Agencies to achieve a full-breadth test of all available services exposed to the public internet.
Internal Penetration Testing

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Identify and test the full internal attack surface of the City of Mesa and OMNIA Partners Participating Public Agencies to increase your overall security posture by identifying the maximum number of lateral footholds on a network that should be remediated.
Mobile Penetration Testing Identify and test the full attack surface of the provided application to discover vulnerabilities in several areas, including implementation and platform usage, storage and transmission of sensitive data, and communication with external resources such as API endpoints.
Physical Social Engineering Evaluate the City of Mesa and OMNIA Partners Participating Public Agencies' ability to prevent and react to a targeted, non-destructive physical intrusion. This engagement includes both surreptitious and overt contact with the target facility, including masquerading as legitimate occupants or authorized third parties.
Social Engineering Evaluate your ability to prevent and react to a targeted attack as well as the effectiveness of security awareness training provided to users. Can use Phishing (email-based simulations) and/or Vishing (telephone-based simulations) methods.
Vulnerability Assessment Evaluate current IT systems to determine and categorize present vulnerabilities by classifying and ranking vulnerabilities. Provides a customized report with cost-effective, concise recommendations to tackle specific security problems or threats.
Wireless Penetration Testing Assess the organization's wireless attack surface by identifying corporate-sanctioned wireless assets and evaluating their respective security policies. Subjects all networks to active exploitation with the intent of accessing internal corporate resources.
Compromise Assessment Leverage many of the same tools and tactics as attackers to conduct active threat hunting and develop indicators of compromise based on the recognized MITRE ATT&CK framework.
Secure Endpoint Health Check This health check validates the status of a microservice and its dependencies.
Red Teaming Services Assess the detection and response capabilities of an organization's Blue Team (defensive security professionals) in the event of a targeted attack. Attempt to gain access to the internal network through various attack vectors while subverting the organization's defenses.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Purple Teaming Services In our Purple Teaming Services, our CDW Red Team (offensive security professionals) pairs with the City of Mesa and OMNIA Partners Participating Public Agencies' IT security personnel (i.e., Blue Team) during simulations of specific attack scenarios to improve defenses and incident response procedures throughout the engagement.
Segmentation Validation Evaluate the effectiveness of any network segmentation controls used to reduce PCI DSS scope by attempting to connect to and access the cardholder data environment (CDE) from internal network segments intended to be out-of-scope for PCI DSS compliance.
Cisco Umbrella Health Check Review the Umbrella dashboard must-haves and help the City of Mesa and OMNIA Partners Participating Public Agencies identify common issues and how to maximize their protection.
Cisco Email Security Appliance (ESA) Health Check Evaluate the status of a customer's Email Security Appliance, configuration, and lifecycle with industry-standard recommendations.
Cisco Web Security Appliance (WSA) Health Check Evaluate the status of the City of Mesa and OMNIA Partners Participating Public Agencies' Cisco Web Security Appliance, configuration, and lifecycle health with industry-standard recommendations.
Cisco Identity Services Engine (ISE) Health Check Evaluate the Cisco Identity Services Engine with a system engineer focused on ISE best practices.
Cisco Firepower Threat Defense Health Check Analyze Cisco firepower configuration and posture as it relates to the City of Mesa and OMNIA Partner's security needs.
Cisco Secure Network Analytics Health Check Evaluate the Cisco Secure Network Analytics configuration and its ability to provide comprehensive visibility and network traffic analysis.
Microsoft Active Directory (AD) and Hybrid Identity Assessment Evaluate the state of the entire AD infrastructure, including services configuration, directory health, management processes and compliance.
Microsoft Active Directory Domain Services Health Check Conduct a health check on Active Directory (AD) domain configuration, looking for misconfiguration and industry-standard security vulnerabilities in the AD setup.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Microsoft 365 Security Assessment

Analyze your Microsoft 365 environment to ensure it is configured and secured based on your unique needs.

Microsoft Public Key Infrastructure (PKI) Health Check

Analyze the City of Mesa and OMNIA Partners Participating Public Agencies' design and configuration of your public security keys and provide recommendations to create a go-forward strategy.

Microsoft Security Threat Assessment

Analyze the City of Mesa and OMNIA Partners Participating Public Agencies' security posture as well as the tools and solutions used. Includes recommendations on a go-forward security strategy.

Palo Alto Networks Health Check

Analyze the health and posture of the City of Mesa and OMNIA Partners Participating Public Agencies' Palo Alto Networks environment as it relates to your security needs.

Splunk System Health Check

Evaluate the City of Mesa and OMNIA Partners Participating Public Agencies' deployment health through license usage, resource usage, server status, and usage patterns.

Splunk Data Optimization Assessment

Review current Splunk procedures, processes, and data sources for performance, capacity, configuration, and other indicators to identify any critical gaps and optimization targets. Provide recommendations on architecture and deployment.

CDW Workspace Assessments

Collaboration Architecture Advisory

CDW•G engineers will review your Cisco Collaboration environment for pain points and best practices while also analyzing the opportunities to leverage the latest advancements in Cisco Webex cloud collaboration technology. The engineer will prepare a report with the findings of the analysis as well as provide a high-level roadmap of recommendations so the City of Mesa and OMNIA Partners Participating Public Agencies get the most from their Cisco Collaboration investment.

Emergency Calling Assessment

Our highly qualified engineers evaluate the City of Mesa and OMNIA Partners Participating Public Agencies' current collaboration environment for Emergency Calling best practices, including company policies, emergency response locations, remote and mobile users, notification alerts, and address delivery. The engineer prepares a report with the findings and provides the City of Mesa and OMNIA Partners Participating Public Agencies with a high-level roadmap of recommendations to limit your liability, ensure

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

your users are able to reach emergency services quickly, and give you the best chance to receive help at the right location.

Customer Engagement Center Cisco UCCE Health Assessment

CDW•G engineers review the City of Mesa and OMNIA Partners Participating Public Agencies' Cisco Contact Center Enterprise environment for pain points and best practices. The engineer prepares a report with the findings of the analysis as well as provides a high-level remediation plan to address any issues found.

Customer Engagement Center Business Analysis

CDW•G business analysts meet with the City of Mesa and OMNIA Partners Participating Public Agencies' contact center teams to understand pain points and goals. The analyst looks for opportunities for improvement in handling, efficiencies, and opportunities to apply best practices. The consultant prepares a report with the findings of the analysis and provides the City of Mesa and OMNIA Partners Participating Public Agencies' with a high-level remediation plan to address any issues found.

Microsoft 365 Best Practice Assessment Workshop

The Microsoft Office 365 Best Practice Assessment helps the City of Mesa and OMNIA Partners Participating Public Agencies' validate your existing Microsoft Office 365 design (e.g. Exchange Online) and validates it is configured according to best practices.

Microsoft 365 Governance Assessment Workshop

Provides review and recommendations concerning the City of Mesa and OMNIA Partners Participating Public Agencies' Office 365 governance models and/or policies.

Microsoft 365 Network Performance Assessment Workshop

Provides review and assessment of up to four workstations in (up to) four physically separate network sites. It evaluates the workstations' abilities to successfully access Office 365 services quickly.

SharePoint 2010-2019 Assessment Bundle

Our SharePoint Migration Assessment leverages a proprietary tool developed by CDW SharePoint Specialists to scan the contents of your SharePoint Farm and help identify features and content that will impact your transition to another SharePoint service level/version. The Assessment Bundle includes the initial setup and run of the tool, in addition to a full assessment of a single SharePoint Farm.

CDW Microsoft Teams Assessment and Jumpstart

This Microsoft Teams solution includes basic planning, design, adoption, and pilot migration. This project is a week-long engagement that allows the City of Mesa and OMNIA Partners Participating Public Agencies to utilize Teams in your production environment with adoption advice and content.

Microsoft 365 CISO Security Workshop

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

The Microsoft 365 CISO Security Workshop allows CDW•G to learn about the City of Mesa and OMNIA Partners Participating Public Agencies' unique needs and develop a strategic plan based on approaches recommended by Microsoft experts. The workshop covers both product and solution best practices and configuration recommendations around the security features of Microsoft 365.

Microsoft 365 CISO Security Workshop with Sentinel

The Microsoft 365 CISO Security Workshop with Sentinel allows CDW•G to learn about the City of Mesa and OMNIA Partners Participating Public Agencies' needs and develop a strategic plan based on approaches recommended by Microsoft experts. The workshop covers product and solution best practices and configuration recommendations around the security features of Microsoft 365 and Sentinel.

Microsoft 365 Security Device Protection

As more and more users become mobile and are using a wider variety of devices, applications and documents need to keep up. How does the City of Mesa and OMNIA Partners Participating Public Agencies' manage these devices while providing secure and reliable access to applications and data? Microsoft 365 helps provide easy, secure access to any device, no matter where someone might be. Device Protection will include the steps necessary to understand your requirements and develop the deployment plan just for you.

Microsoft 365 Security Identity Protection

Microsoft 365 provides numerous tools to provide additional layers of security and also has tools to identify and protect access in real-time. Our Microsoft 365 Security Identity Protection Assessment Workshop includes the steps necessary to understand your requirements and develop the deployment plan just for you.

Microsoft 365 Security Information Protection

This engagement provides the best practices on how to configure the products to achieve the City of Mesa and OMNIA Partners Participating Public Agencies' goals. This will provide a functional roadmap to ensure security and compliance is built into the Office 365, Windows 11 and EMS solution.

Microsoft Enterprise Mobility + Security

This engagement reviews the City of Mesa and OMNIA Partners Participating Public Agencies' current environment to identify issues and usage of features. We review a single EMS subscription, including all the cloud components, Microsoft Entra ID P1/P2, Intune, Azure Information Protection, Azure Rights Management Service, Azure Advanced Threat Protection, and Cloud App Security. The results of the review provide recommendations to address issues and a roadmap for adoption of additional components.

Assessment of Workspace ONE

This engagement provides an in-depth discovery of the City of Mesa and OMNIA Partners Participating Public Agencies' Workspace ONE environment to ensure all

management utilities are being used properly and that you are taking advantage of to get the best experience for your users and IT.
Health Check for Jamf Pro This engagement helps ensure you are managing your Apple devices properly through the mobile management utility Jamf Pro based on the City of Mesa and OMNIA Partners Participating Public Agencies' environmental needs.

Configuration Services

The City of Mesa and OMNIA Partners Participating Public Agencies Participating Public Agencies can rely on CDW•G to preconfigure their technology solutions and provide custom turnkey solutions for plug-and-play deployment. We offer a wide array of services to address the various tasks involved in configuration projects, including hardware and software installation and configuration, testing, imaging, domain integration, branding, labeling, asset management, delivery & distribution. Our Configuration Centers roll out 2.6 million products every year - more than 10,000 custom units a day.

The benefits of our configuration services are as follows:

- Lower configuration, integration, and overall deployment expense
- Reduce risk and time to deploy
- Improve delivery, distribution, and tracking of assets
- Complete projects on schedule
- Free IT staff and resources to work on higher-level projects

Our Configuration Team can provide many services, including:

- **Hardware Integration:** Hardware integration services include installation of memory, hard drives, NIC cards, video cards, and a variety of other components.
- **Software Configuration:** When it comes to software, your computers, mobile devices and servers will come with OSs and apps pre-installed. We offer White Glove Service to prep and provision Chromebooks.
- **Custom Imaging:** Including image creation, maintenance, and deployment, we can host a secondary server to connect to your SCCM or other image deployment server via VPN. Customizable options include pre- and post-imaging tasks like domain join and security upgrades.
- **Rack Configuration:** We mount and configure your network and security devices, rack-mount servers, chassis blade servers, storage, KVMs, UPSs, and PDUs into a rack structure, then cable and label before shipping.
- **Mobility Services:** We configure and activate your tablets, phones, handhelds, and Wi-Fi hotspots. Additionally, services that include MDM enrollment, App installations, IOS and Android updates are also available.
- **Custom Laser Engraving:** Your logos and other important information can be engraved onto notebooks, mobile devices, and other equipment. We can laser engrave static content and/ or one field of dynamic content, such as the device serial number.
- **Asset Tagging and Reporting:** You have the option to use CDW•G-branded labels, customer-provided labels, or our team can build custom labels that we print on-demand, including UID/IUID identification labels for US Government applications. Extensive information on your devices is available via the Order Reporting and Hardware Asset Management functions on your CDW•G Account Center.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- **Network and Security Device Configuration:** We configure firewalls, routers, switches, access points, and IP phones for all the largest manufacturers. These services include system software/firmware upgrade or downgrade, uploading master configuration files, and configuration of IP address, subnet mask, and default gateway. All customization is based on the City of Mesa and OMNIA Partners Participating Public Agencies' unique specifications.
- **Burn-in Services:** We run your devices for 12 hours or more to ensure all components are working properly. This includes running a diagnostic program (where applicable) to test basic functionality. This service is designed to reduce the number of items that fail after a short period of use.
- **Software and Imaging:** We have a team of engineers, technicians, and team leaders trained to work on image and software deployments. Customer-specific deployment instructions are strictly followed to ensure your devices are imaged and configured your way.
- **Custom Packaging:** This includes kitting, palletization, inserts and welcome letters, and box labeling.
- **Buy and Hold Services:** This allows you to purchase products and have them held in a secure location anywhere from three months up to a year. CDW•G handles the configurations, customizations, logistics, and shipping requirements to ensure your pre-defined deployment schedule is met.

Configuration Quality Assurance

Either our own best practices or your specific deployment instructions are strictly followed to ensure devices are configured to meet each customer's requirements. The City of Mesa and OMNIA Partners Participating Public Agencies can provide a custom checklist to CDW•G for additional verification and testing.

All Configuration Center workers are trained on CDW's best practice quality assurance procedures that include a comprehensive check of each system we touch. First, we verify the compatibility of all components to be installed. Second, we verify that each component is installed properly, and the hardware installation is complete. Finally, we ensure that all hardware and software are functioning according to manufacturer specifications. Each step is completed by a qualified technician and verified by a Quality Control (QC) technician. CDW is ISO 9001:2008 compliant and the names of the primary technician and QC technician are recorded for all orders. All team members are held accountable for adhering to our quality assurance procedures. If any issues are encountered, CDW•G will contact you immediately to resolve the issue.

Any defective or damaged devices that are discovered during the configuration or warehousing process will be removed from stock and replaced with new, functional devices. The damaged or defective devices will be returned to the manufacturer on CDW's behalf. This process will not require the customer's involvement and should happen transparently to the customer.

Implementation Services

Our expert engineers configure and deploy your solutions to help you implement technology according to the City of Mesa and OMNIA Partners Participating Public Agencies' unique needs and ensure it works from day one. We can build, create, and analyze software or services, as well as test and release into a defined environment and implement changes outlined in the design phase. We implement technology adoption and organizational change management plans to ensure you're fully utilizing your technology solutions and deriving the value you expect.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Any successful implementation requires careful attention to the management of the scope, people, and process of each project. Through our experience with numerous complex projects, CDW•G has refined an implementation methodology that uses project management best practices combined with real-world lessons learned. Our methodology has resulted in a standard for how we choose the people we hire, the way we structure our project teams, and the project milestones we set for customer acceptance.

We believe effective project management requires careful attention to the following plan elements and an appropriate level of communication between project participants. Our project plan includes the following components:

- Scope of Work
- Project Schedule
- Communication Plan
- Statement of Work
- Risk Management Process
- Change Management Process
- Issue Management Process
- Assumptions
- Deliverable Management
- Customer Responsibilities
- Partner Management
- Project Acceptance
- Contract

The graphic below provides additional insight into our comprehensive methodology.

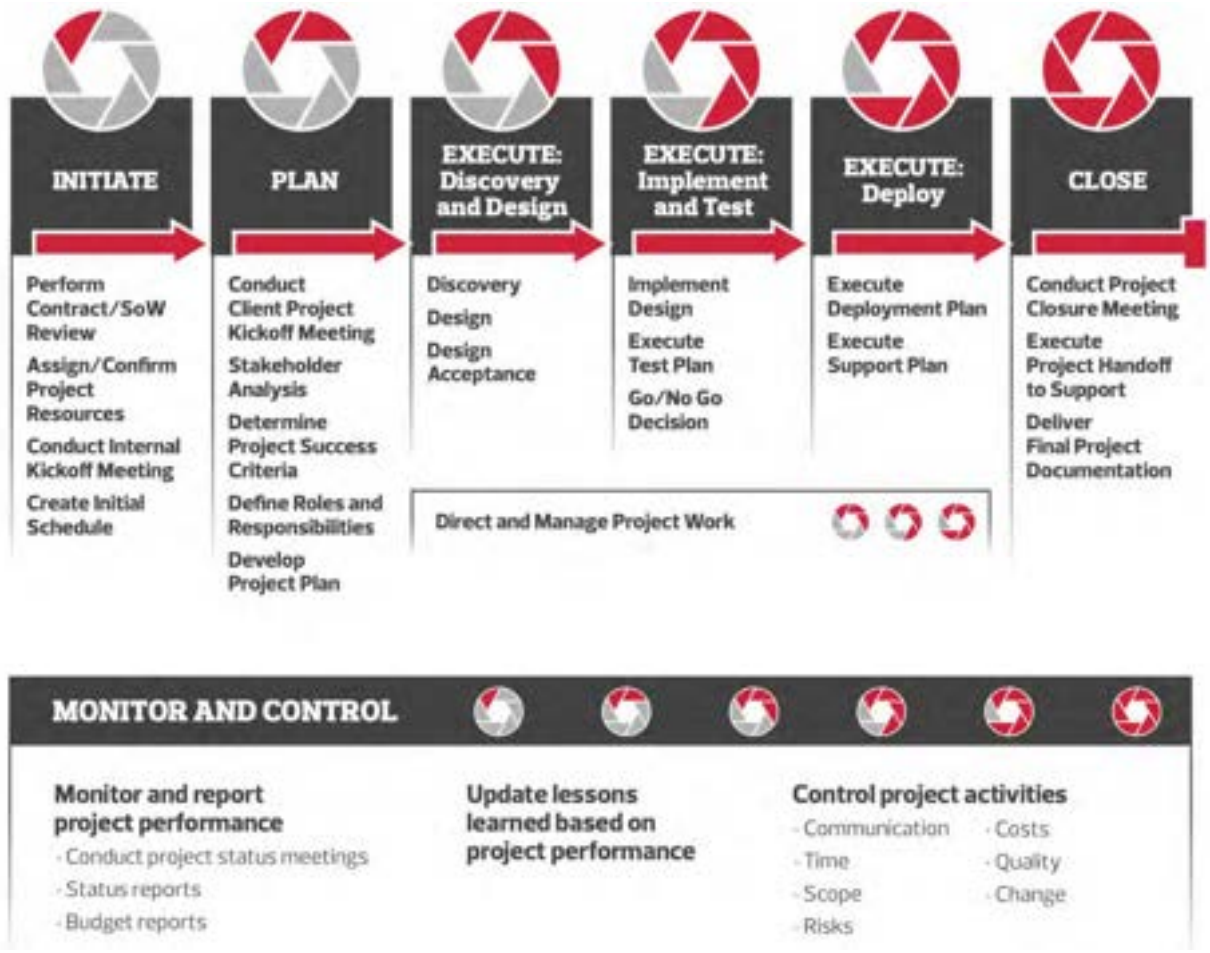

Figure 17. CDW•G's Comprehensive Project Management Methodology

Installation Services

CDW•G installs hardware, software, peripherals, and more. We offer a wide array of services to address the various tasks involved in configuration projects, including hardware and software installation and configuration, domain integration, branding, labeling, asset management, delivery, and distribution.

Our installation services include, but are not limited to, the following:

Computing Installation

Our installation services can help take the burden off your busy IT staff. We can help install and deploy new desktops, notebooks, and printers quickly and easily. We also assist with de-installation and moving of existing equipment, configuration services, and basic IT staff training (if needed) to ensure a custom solution that fits your environment.

Data Center Installation

We can help you optimize your data center with implementation services around your server, storage, power, and cooling technologies.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Network Installation

Whether it be WAN or LAN, wired or wireless, we are ready to help you implement new network technology smoothly and efficiently.

Security Installation

In addition to offering a comprehensive security assessment, our security specialists can help ensure that your security solution is properly designed and implemented.

Interactive Whiteboard and Flat Panel Installation

Need to update a classroom or conference room with interactive whiteboards or flat panels? We offer manufacturer-certified specialists who can perform site-specific installation at your organization or institution.

Training Services

Our training sessions and programs align the training needs of your workforce with the goals of your technology projects, ensuring that teams across the City of Mesa and OMNIA Partners Participating Public Agencies' have the skills they need to support and optimize your tech stack long-term.

Product Training

CDW•G leverages our top partnership levels with the industry-leading OEMs on behalf of the City of Mesa and OMNIA Partners Participating Public Agencies. We work with you to host Technology Symposiums, which brings our best-of-breed partner network on-site to share key industry updates, product roadmaps, and technical deep dives. Our technical specialists, alongside OEMs will conduct product roadmap sessions, arrange demo loan products, and facilitate a combination of web and onsite training sessions.

CDW•G has two Technology Experience Centers (TEC) in the US that are fully functional data centers and networks, where the City of Mesa and OMNIA Partners Participating Public Agencies can experience technology in action — remotely or onsite.

These facilities offer onsite and remote demos of leading solutions and are managed by our Demo Lab team. These labs demonstrate how integrated solutions work in a real-world environment and help the City of Mesa and OMNIA Partners Participating Public Agencies determine which solutions best meet their needs. Demonstrations allow our customers to:

- See the newest technologies built as integrated solutions
- Host static demos that offer insight on how technologies work
- Help customers compare alternative solutions side by side
- Explore how the latest innovations can help customers achieve their goals

The City of Mesa and OMNIA Partners Participating Public Agencies can work with your dedicated CDW•G Account Managers to arrange a virtual or in-person visit to our Technology Experience Center. CDW•G will work to make as much training as possible through the above options.

Additionally, on any Professional Services engagements, knowledge transfer is part of our core methodology, ensuring that on-the-spot training is taking place and that IT staff knows how to manage and drive the new technology or environment upon our engineers' departure. CDW•G also offers a wide array of in-depth training options and workshops, highlighted below.

Training Courses

We have experience in orchestrating IT projects and initiatives, from small and medium-sized businesses to enterprises. Combining our elite curriculum with the expertise and depth of our solutions and services gives the City of Mesa and OMNIA Partners Participating Public Agencies the skills you need to optimize your IT investments and achieve their most important outcomes.

Our courses meet the same standards for quality, interactivity, and alignment with today's biggest technology challenges. **Highlights** of our training courses include the following:

- Our courses are created and led by some of the world's best instructors, whose scores for delivery from students average 4.9 out of a possible 5.
- Each course is designed to maximize time spent in hands-on learning, including lab/range exercises and debriefs, tool walkthroughs, and case studies.
- Born out of some of the most demanding Security Operations Centers (SOC) in the world, our proprietary curriculum is uniquely sophisticated and pairs with vendor technology training to deliver a complete solution to your security and IT skills needs.
- Our training is developed in collaboration with industry leaders who share our commitment to thorough, leading-edge IT training. It's always up to date, with instructions specific to the latest versions of each tool.

Our courses are designed for virtual instruction, but they can also be taught live at your location. We'll tailor your workforce development program to meet the needs of each Participating Public Agency, wherever they are.

We offer courses and bundles to support virtually any project you may be initiating.

Please see our training catalog in Appendix 3. Additional courses and workshops include, but are not limited to, the following:

CDW OS ITSM Simulation/Executive Visioning Workshop

By participating in our IT Service Management (ITSM) business simulation workshop, the City of Mesa and OMNIA Partners Participating Public Agencies can learn how to increase the business impact of their internal service provision. This hands-on, highly interactive IT/Business workshop is designed to educate the City of Mesa and OMNIA Partners Participating Public Agencies' leadership and stakeholders in the business structure of process with technology.

Participants are given roles in a sub-optimal business unit in which they have to respond to real, everyday challenges and transform processes and underlying technology that meet the needs of the business. Results improve as each round concludes.

Benefits of this workshop include the following:

- Identify in real time how political, business, process, and technology issues intermingle and affect overall business results.
- Directly experience the increased efficiency yielded by process improvement.
- Achieve better alignment between leadership and staff as it relates to both process and internal cooperation.
- Learn to work better together as a team so that projects succeed.

CDW OS ITIL Training: One-Day Awareness/Three-Day Foundation

Our approach takes you on a journey through the five stages of the ITIL service lifecycle and helps the City of Mesa and OMNIA Partners Participating Public Agencies adopt best-practice

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

processes used by leading organizations worldwide with tremendous positive impact. Whether you need full training and certification for key members or simply an executive overview for greater awareness and adoption, we've got you covered.

Our One-Day Awareness workshop educates and informs leadership by using case studies from organizations around the globe that have successfully implemented ITIL. We take a high-level, results-oriented approach to the People, Process, and Platform elements of the service improvement in order to convey:

- Key concepts of ITIL
- Practical guidance for applying ITIL to everyday IT situations
- How to align with business, control costs, and improve IT service quality
- Strategies to balance IT resources with business needs and objectives
- The role of technology and how to maximize its value

Our Three-Day Foundation course covers all material specified in the ITIL Foundation certificate and prepares attendees to successfully achieve their Foundation certification. We infuse real-world examples throughout and discuss overcoming the practical challenges and barriers to implementing process improvement. All of our instructors are ITIL experts and have years of hands-on IT practitioner experience, enabling them to effectively intertwine theory and real-life stories and scenarios.

CDW OS Process Alignment Workshop

Process improvement consulting is critical for state agencies striving to advance their process maturity in order to improve IT service delivery responsiveness, maintain consistent levels of service, and increase customer satisfaction.

Led by our Advisory Consultants, this half- or full-day Process Alignment Workshop is grounded in ITIL and industry best practices. Instead of reinventing the wheel, we'll focus on new processes that are in-scope for a project, aligning with existing processes in order to work together at all levels.

IoT Transformation Workshop

Our Internet of Things (IoT) Transformation Workshop is designed to help the City of Mesa and OMNIA Partners Participating Public Agencies understand your data needs, determine return on investment (ROI), and evaluate their foundational infrastructure to determine if any technical components should be retired, evolved, or added before implementing an IoT technology initiative.

In the workshop, we will walk through five focus areas:

- **Business drivers:** We'll outline business drivers for IoT, starting with your key stakeholders, business processes, business systems, and linkage to company goals.
- **Data investigation:** We'll review the data that needs to be derived. What kind of data are you gathering? Can this data be used by other departments? Is it revenue-generating data that can be sold to your customers as a service? We'll help you review your data to determine how your business will benefit from the data discovered as part of this workshop.
- **System of systems:** Do you need to pull in third-party data for this solution? Examples may include data from The Weather Company (an IBM business), mapping software, or data from other external tools or systems.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- **Infrastructure readiness:** We'll determine if your infrastructure is adequate for the proposed IoT solution.
- **IoT technology:** You'll understand what related IoT technologies will need to be implemented for your new solution

CDW Information Security Cybersecurity Workshop

We offer half-day and full-day Cybersecurity Workshops for security leaders. We assemble our top experts in a range of domains — from compliance to data governance to zero trust to IAM and more — and spend dedicated time with your team to validate strategies, recommend best practices and align with organizational goals and expectations.

Our workshops are tailored to each state agency's needs and goals, with subject matter experts from a range of specialty areas. These sessions can be scheduled to kick off the beginning of a strategic planning cycle, to validate an existing plan or to "course correct" in the middle of execution. Each full-day or half-day workshop includes:

- **Expert Panel:** A grouping of experts, tailored to your desired topics of discussion. Workshops can be domain specific or can span the entirety of your cyber strategy.
- **Clear Recommendations:** Our workshops are designed to produce actionable guidance that makes a material improvement in your security program.
- **Fresh Insights:** Our experts are specialists in their fields, giving you the scoop on the newest technologies, best practices in the field and 12-18-month trend predictions.

CDW OS Organizational Change Management Planning Workshop

This three-day workshop teaches participants the Organizational Change Management (OCM) framework for managing the effect of change on an organization, including new business processes, changes in organizational structure, overcoming cultural hurdles within an organization and more. We accomplish this through an approach that is based on the five-step ADKAR framework in order to help you deal with the human-aspect of change management: Awareness, Desire, Knowledge, Action, and Reinforcement.

This workshop offers a myriad of valuable benefits aimed at enhancing your organizational prowess. Delving into the organizational history of the City of Mesa and OMNIA Partners, participants will gain a comprehensive understanding that serves as the foundation for crafting an effective communication and marketing plan, inclusive of targeted training initiatives. The workshop goes beyond theoretical concepts, providing practical insights into resistance management planning, a crucial skill set designed to preempt and navigate adoption challenges seamlessly. Additionally, our expert facilitators will guide participants in the formulation of a robust coaching plan, enabling them to identify and leverage strategic opportunities for optimal growth and development. In essence, this workshop is a holistic approach to empower your team with the knowledge and tools needed to propel your organization toward success.

PMO Assessment Workshop

Our DCT leads our Project Management Office (PMO) Assessment Workshop. This workshop is a high impact, comprehensive program to assess and improve Project Portfolio Management (PPM) practices over the course of 3-4 weeks. This comprehensive program consists of three survey domains: PPM current state, PPM satisfaction, and PPM assessment.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

IT Practices Workshop

Led by our DCT team, the IT Practice Review workshop gives the City of Mesa and OMNIA Partners Participating Public Agencies visibility into how your organization operates. Through a holistic approach, we look beyond process documentation into how teams work together. Each Agency is unique, and how processes are designed and implemented can either work for or against business objectives. In 2 short weeks, agencies will have a high-level map of their strengths and weaknesses and a plan to ensure their processes propel them to reach their goals.

IT Resource Cost Benchmarking Workshop

It's simply good business to operate in a cost-efficient manner and continually look and plan for opportunities that will improve the bottom line. Led by our DCT team, our IT Resource Cost Benchmarking Workshop can help the City of Mesa and OMNIA Partners Participating Public Agencies identify and plan areas for cost optimization using data-based metrics and relevant industry comparisons to support best-case decisions. Whether each agency is anticipating a cost reduction mandate, focused on continuous improvement, or simply wants better insights into their IT cost structure, our cost benchmarking study will have you covered.

For more of our training offerings and workshops, please see our training catalog in Appendix 3.

Maintenance Services

CDW•G offers various maintenance agreements to cover all types of vendors, products, and service levels. Our offered maintenance agreements give access to cover all vendors, products, and service levels with just one toll-free number. Types of available agreements include the following:

- **Coterminous Support Contracts.** A coterminous support contract can take the City of Mesa's existing manufacturer support plans and roll them together with one standard end date to eliminate the risk of a lapse in coverage.
- **Break/Fix Maintenance Agreement.** These annual maintenance agreements and contracts cover the repair or replacement of in- or out-of-warranty equipment.
- **Retainer Contracts.** Retainer contracts provide a designated block of time that guarantees the City of Mesa's access to field service and support staff, including system engineers, network technicians, PCs, and printer repair technicians, and more.

For a more comprehensive overview, please see "Repair" above.

Advisory Services

Please see "Consulting and Advising" above.

Managed and Support Services

CDW•G offers a wide variety of managed and support services. In June 2023, we ranked #10 out of 501 in the prestigious 2023 Channel Futures Managed Service Providers (MSP) 501 rankings; MSPs that qualify for the list must pass a rigorous review conducted by the research team and editors of Channel Futures. Applicants are ranked using a unique methodology that weighs financial performance according to long-term health and viability, commitment to recurring revenue, and operational efficiency.

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Our Managed Services offerings allow the City of Mesa and OMNIA Partners Participating Public Agencies to contract for support of your networks, systems, databases, and select applications. Our modular approach to IT management allows you to select services that best support your individual organization's goals and current capabilities.

We offer end-to-end solutions, including strategy development, technology selection, implementation, and operation. We offer multiple delivery models, including on-premises, off-premises, cloud, and as-a-Service models. Benefits of our Managed Services practice include the following:

- Establishing security posture
- Improving governance and overall operation
- Increasing availability and performance
- Making informed, strategic decisions based on data

Services include:

- Managed Infrastructure
- Managed Cloud Services
- Managed Security Services
- Managed Resiliency Services
- Managed Digital Experience

Managed Infrastructure Services

We offer ITIL-based monitoring and management services to help you manage your existing environments and focus on value-driving initiatives with Mainframe, IBM Power Systems, Converged and Hyperconverged Platforms, OS, Database, Storage, Network, Application Managed Services, and Service Management. Part of our Managed Infrastructure Services include, but are not limited to, the following:

Operating Systems, Applications, and Services

- Managed Patching as a Service
- Managed Mainframe Services
- Managed Mainframe Automation
- Managed Mainframe Monitoring

Data Center

- Managed Colocation Services
- Managed Storage Services
- Managed Backup and Restore Services
- Managed Server Virtualization Services
- Managed Database Services
- Managed Converged Infrastructure Services
- Managed Hyper-Converged Infrastructure Services

Network

- Managed Switching Services for OEMs such as Aruba, Cisco, Extreme, HPE, Juniper, and more.
- Managed Routing Services
- Managed Load Balancing Services
- Managed WAN Optimization Services
- Managed Wireless Networking Services

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal (“RFP”) furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC (“CDW•G”).

- Managed Policy and Access Services

Managed Cloud Services

We help make your cloud initiatives successful — from application through migration and management with Cloud Enablement Services, Managed Private Cloud, Managed Cloud – AWS, Azure, and Google Cloud Platform (GCP), Managed Security for AWS and Azure, Sirius Power Cloud, SIEM as a Service, Monitoring as a Service, Patching as a Service, Unified Communications as a Service and Backup as a Service.

CDW•G has a Government Cloud Managed Services Team that understands the unique challenges public agencies face with regard to managed cloud solutions because we understand that managing a complex and evolving cloud environment requires unique and specialized skills. When production and business-critical systems must remain online without disruption, we can keep your infrastructure operating optimally. Our Managed Services for Cloud are an integral component of the City of Mesa and OMNIA Partners Participating Public Agencies' end-to-end digital transformation.

With CDW•G's trio of cloud MSP certifications, we have the expertise and experience to support the City of Mesa and OMNIA Partners Participating Public Agencies across all major cloud platforms. With AWS MSP and Microsoft Azure MSP certifications already under our belt, we are now one of a select few providers in North America, and an elite group of providers globally, to hold all three major cloud MSP certifications. Whether Participating Public Agencies are looking to migrate to the cloud, optimize their existing cloud environments, or manage multiple cloud platforms, CDW•G has the capabilities, talent, and resources to help the City of Mesa and OMNIA Partners achieve your unique goals. An overview of our Cloud Managed Services offering is as follows:

- **Managed AWS Services:** Our comprehensive next-generation Managed Services for AWS is backed by more than 20 years of managed services support experience. Delivered through CDW's Enterprise Command Center and managed by AWS-certified architects, consultants, and engineers, the City of Mesa and OMNIA Partners can focus on proactive initiatives and outcomes, not technology management.
- **Managed GCP Services:** Our GCP-approved architects, consultants, and engineers provide the day-to-day management so you can harness the power of your technology instead of simply managing it. Our cloud experts work closely with our customers to guide them to an end-to-end cloud management strategy that brings clarity to the cloud.
- **Managed Azure Services:** As a CSP provider for Azure and a Gold Platform member of the Microsoft Partner Network, CDW assists customers with the adoption and implementation of Azure securely and efficiently. We have a long-standing, award-winning relationship with Microsoft that we extend to our clients.
- **Google Cloud Managed Service Provider (MSP) Initiative:** CDW has successfully completed the requirements to participate in the Google Cloud Managed Service Provider (MSP) Initiative, bringing new capabilities to CDW•G's services portfolio and turning it into a trifecta in cloud-managed services. Google Cloud's differentiators bring to CDW an opportunity to accelerate customers' interest in innovative Managed Security Plays and Generative AI ventures. To receive this Google recognition, CDW demonstrated through third-party expert-assessment deep knowledge of Google's technology stack; CDW proved experience and stability in long-term managed customers and showcased a sound practice of support operations with Google-certified individuals on-call.

Managed Security Services

Today's siloed security tools force analysts to pivot from console to console to piece together investigative clues, resulting in painfully slow investigations and missed attacks. Even though they've deployed countless tools, teams still lack the enterprise-wide visibility and deep analytics needed to find threats. Faced with a shortage of security professionals, the City of Mesa and OMNIA Partners IT Teams can leverage CDW•G to simplify security operations in a vastly changing security landscape. CDW's Managed Security Services bring mature processes and industry experts to support your security threat landscape.

The CDW Managed Security Services suite provides coverage for critical security tools and processes. The support model includes 24/7/365 support; this type of around-the-clock monitoring is essential for government entities like the City of Mesa and Participating Public Agencies that require vigilance and prompt response, all while complying with local regulations and standards. Our 24/7/365 model includes support for the following:

- Vulnerability Scanning Management
- Next-Generation Firewall
- Endpoint Protection
- Identity Access
- Security Incident Event Management
- Behavioral Analytics
- Security Orchestration Automation and Response

Our 24/7/365 Security Operations Centers stop threats with a cohesive, multifaceted approach designed to maximize return on investment by utilizing the top security tools in the industry, including, but not limited to, the following: Tenable, Palo Alto Networks, Cisco, Check Point, IBM, Exabeam, and CrowdStrike. Workflows are built on time-proven ITIL processes combined with top-tier commercially available tools to avoid vendor lock-in due to proprietary solutions.

To enhance deployed security tools, CDW•G uses threat intel feeds, proactive threat hunting, IOC research and investigation, automation, and machine learning. Your security landscape is supported by expert analysts with extensive experience and credentials. Our security team has 500+ security certifications and a team of 500+ experts. Some of our certifications include, but are not limited to, the following:

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Figure 18. Overview of Security Certifications

Managed Resiliency Services

We help maintain business continuity and recover critical applications and data with Managed Backup, Managed Disaster Recovery, and Managed High Availability.

Thoroughly protecting your organizational data from threats and recovering when needed can be complicated. With CDW Data Protection solutions, from industry-leading partners, defining data management capabilities throughout the data lifecycle — from creation to destruction — is easy, and provided as a fully managed service.

CDW can completely operationalize your data protection environment for one low monthly fee, with design, configuration, and implementation of your Rubrik environment according to your requirements. Deployment, monitoring, and full support of the environment, including the hardware and software, can all be done for a predictable monthly expense.

Managed Digital Experience

We help manage messaging, videoconferencing, voice, video, Unified Communications as a Service, SD-WAN, and business applications. We help provide a richer end-user experience by managing virtual workspaces such as virtual desktops and Citrix and the Microsoft Office 365 tools and orchestration.

Managed Services Levels

We provide three levels of managed services:

- Advanced Monitoring -- Bronze
  - Advanced Monitoring includes comprehensive monitoring and alerting for supported technologies. In addition to basic availability monitoring of devices and services, CDW also provides error/exception monitoring, threshold monitoring, and performance utilization monitoring. All monitoring data is available through a web-based reporting engine.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal (“RFP”) furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC (“CDW•G”).

- Proactive Maintenance – Silver
  - Proactive Maintenance includes patching services. CDW proactively monitors vendor patch availability, analyzes patch necessity and priority, and applies recommended patches to your system.
- Availability Management – Gold
  - Availability Management includes break/fix engineering support and an SLA for device availability. CDW's SLA for all Gold level modules is a 99.9% monthly services uptime guarantee.

Each of the levels encompasses the previous levels. There is no loss in service when moving to a more comprehensive level, meaning that no operational tasks are lost when moving between levels.

Support and Continuous Improvement

CDW•G experts provide technical support for complex technology solutions when your IT, development, and business teams need it. Our experts work with you to continuously optimize your technology environment.

Staff Augmentation Services

For more than 20 years, CDW•G has been providing customers the ability to staff their projects by giving them access to our experienced architects, engineers, project managers, and consultants drawn from our deep national and in-market resources. Our goal is to provide the City of Mesa and OMNIA Partners Participating Public Agencies the ability to scale up and down your augmented workforce on demand, giving you the ultimate flexibility to meet your evolving needs and upcoming project plans. Staff augmentation ultimately reduces costs; the City of Mesa and OMNIA Partners Participating Public Agencies can quickly access experts without a long-term commitment, lengthy hiring process, or administrative burdens.

CDW Staff Augmentation Services help meet the demands of your organization in unique ways. We provide skilled staff to augment your team with expertise in a wide range of technologies, offering an objective view of IT that ensures you will always receive the right solution to your problems while minimizing payroll costs and maximizing time savings for your priority projects.

We have a wide range of resources ranging from Level-One help desk to Senior Engineers and Architects to Management. Our areas of support run the gamut - from Networking to Cloud Engineering, DevOps, to Application Development. A snapshot of our areas of expertise can be found below:

Figure 19. CDW•G Staff Augmentation Areas of Expertise

Professional Services

A variety of our professional services have been described throughout our services offering section thus far. As mentioned, our project managers and consultants work directly with the City of Mesa and OMNIA Partners Participating Public Agencies to design and implement every facet of your IT solution. After assessing your current environment and business objectives, they'll produce a detailed project blueprint. Partnering with your existing staff, they'll oversee the full implementation of the solution. After a successful implementation, they'll perform quality assurance and troubleshooting before leading an in-depth closeout meeting to make sure your team is ready to take the reins. Our end-to-end support ensures that your solution can do it all: improve end-user experiences, increase efficiency, and free up your team.

OMNIA Success Story: Midsized County

Background

Government entities often find themselves having to act very quickly to follow through on their most critical initiatives. They typically have an idea of what they want to accomplish, yet the path to execution is rarely straightforward. Whether it relates to budget approval, how long funds are available, or the expertise to go from idea to implementation, IT Departments must be ready to act quickly, requiring a partner they can trust to execute at a moment's notice.

Challenge

This mid-sized County, like many of their peers, has a small IT team, with the knowledge and expertise to keep things running, but implementing new technologies on a regular basis is a continued challenge. Not only is their staff somewhat unfamiliar with the latest offerings in areas like Hyperconverged Infrastructure and Next Generation Data Protection, but once funds become available, the prospect of lacking in-house resources to implement these innovations within the necessary timeframe is a major concern.

Solution

This County needed a partner that could complement the strengths of their IT team and walk hand in hand with them to help design, implement, and manage complex technologies. CDW•G presented technical engineers to help educate the team on the solution, informing them on how the technology functions, as well as properly standing up the solution in their environment. CDW•G deployed resources to help with everything from network equipment, network security, and data protection – from advisory services to setting policies on their new equipment.

Success through OMNIA Partners

OMNIA Mesa and CDW•G were the perfect procurement vehicle for this County to deliver on these "just-in-time" technology solutions that are becoming more and more essential in the local government space. CDW•G instilled in IT leadership the confidence to undertake projects, guiding them seamlessly from conception to implementation, transforming what once seemed unattainable into achievable milestones with a trusted strategic partner.

This customer leveraged the Mesa OMNIA contract as a swift and efficient avenue for procurement, guaranteeing the responsible allocation of constituent funds. Entrusting CDW•G as their advocate, the IT department could rely on expert guidance to select the optimal technology, ensuring seamless functionality from day one.

Comprehensive Product Offering

k. Comprehensive Product Offering: Offeror's complete catalog and services offered shall be available. Each offeror awarded a contract under this solicitation may offer their complete product and service offering. Pricing for products and services must be entered on the appropriate section of the Price Page. The City reserves the right to accept or reject any or all items offered.

CDW•G's comprehensive line of products and services can be found at www.cdwg.com. We have also provided our Line Card in Appendix 2.

However, our offering would not be complete without highlighting our sector-specific services and capabilities. We understand that state agencies, local governments, higher education institutions, and K-12 entities have different needs.

CDW•G for Public Safety

CDW•G's Public Safety Team has a specialized practice devoted to public safety issues, with more than 20 years of experience and hundreds of engagements to our credit. Fire, Police, and other Emergency agencies face unique challenges, even different from other government agencies. Understanding this, we built a team with the sole focus of supporting our nations critical Public Safety agencies. Our team of dedicated Public Safety Business Development Managers will guide the City of Mesa and Participating Public Agencies to the most impactful choices, address all the requirements, policies, and strategies you face every day, and show you how the pieces fit together.

At CDW•G, we actively engage with fire, police, emergency medical services, emergency management, and other agencies, offering invaluable insights into their myriad options. Recognizing that a little guidance can yield substantial results, our profound knowledge and expertise in deploying cutting-edge technology stand ready to empower decision-makers in selecting optimal public safety solutions.

Modern-day emergency management and first response require fast and always-available access to information. Without it, police officers, first responders, and emergency personnel are at a disadvantage against criminals and natural disasters alike. Innovative digital solutions provide new, engaging approaches to fulfilling missions and keeping communities safe.

Our offering covers the full spectrum of capabilities:

Video

- In-vehicle video, capture, and management
- Body-worn cameras
- Interview room monitoring
- Fixed security
- Surveillance
- Analytics
- Collaboration and telepresence
- Case management

Mobility

- Mobile data laptops and tablets
- Data collection and scanners
- Mobile printing
- GPS and automatic vehicle location
- Mobile access routers
- Wi-Fi solutions
- Advanced authentication

Data Center

- Servers and storage area networks
- Hyperconverged infrastructure
- Backup and recovery
- Virtualization
- Cybersecurity
- Unified communications
- Enterprise wireless

Command, Control, and Intelligence

- Mission Critical Operations Centers
- Data Visualization and Analytics
- Situational Awareness Platforms
- Mobile and Deployable Solutions
- Evidence Management

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- Cloud solutions
- Virtual private network mobile software
- Cloud solutions
- Alert and mass notification
- systems
- Power and cooling
- Cloud solutions

CDW•G understands that each state has different laws pertaining to the sale of physical security/public safety hardware and equipment; CDW•G ensures that we have or will have applicable licensure for any products and equipment we provide to the City of Mesa and OMNIA Partners Participating Public Agencies.

Success Story: Implementing Situational Awareness Rooms for a Large Urban City

Law enforcement bureaus were looking for methods to mitigate risk and engaged CDW•G in these discussions. This conversation started an 18-month process of consulting and designing a new Joint Operation Command Center (JOCC) that could be used at a central location by engaged bureaus.

The JOCC is designed to provide joint command capabilities for more than five federal partners and will serve as a command and control center for the City's significant events moving forward. Additionally, the JOCC will be a central point of communication and control for future civil unrest.

The primary Command Center seats 80 individuals and includes a 1.1M LED 80 feet wide video wall. Additionally, the center contains seven adjacent conference rooms fully equipped with digitally transformed audio-visual systems. Work began in the last quarter of 2022 and will be one of the leading operations centers in North America.

CDW•G for Education

CDW Education understands the challenges – and opportunities – involved in building a flexible and supportive personalized learning environment for K-12 and Higher Education students. We currently support 2,300 K-12 and 1,400 Higher Education (Higher Ed) institutions and entities on the existing City of Mesa and OMNIA Partners contract. You can continue to count on us to guide you through tight budgets, numerous choices, and expertise shortfalls so that you're prepared to meet your IT needs, now and in the future. Through the acquisition of Amplified IT in 2020, we are further able to support our education customers with our own tools, such as LittleSIS, Gopher, and more.

We know that our education customers' need for vendor support does not stop at deployment completion. Maintaining technology program innovativeness and alignment with your education goals is a continuous and daunting task. In fact, in a year, your program may look very different. You need a vendor that does more than meet your technology requirements right now; you need a vendor partner that shares a passion for education and continued development to future-proof schools, staff, and students for long-term success. Our Education Strategists help educators include technology as part of their educational planning and goals; we pledge to remain dedicated to supporting the full scope of each OMNIA Partners Participating Public Agencies' technology and related educational needs.

We have actively expanded our catalog, certifications, and solutions to address the latest developments in Education technology, including cloud, IoT, drones, and esports, so that we can continue to support the changing needs of the City of Mesa and OMNIA Partners

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Participating Public Agencies. In addition, we have dedicated CDW•G Education resources aligned to these solution areas to help you understand and implement them. Moving forward, we expect the landscape in which we compete to continue to evolve as new technologies are developed, and we will continue to evolve with those technologies.

We offer a variety of education-specific services and solutions, some of which align with leading manufacturers, such as Amazon Web Services (AWS), Microsoft, and Google. Our goal is to help empower students, families, faculty, staff, and administrators as they explore and build opportunities for improving academic outcomes. Some of these services and solutions include, but are not limited to, the following:

CDW•G and Google for Education

We are a Premier Google Partner on a mission to empower schools to get the most out of Google Workspace for Education. In August 2023, we were awarded Google Cloud's Partner of the Year in the Specialization category for excelling in the Education sector and delivering positive customer outcomes. Our teams of education and technology experts have served more than 4,200 districts across the US and Canada, including 12 of the 15 largest districts.

- **CDW Collaboration Amplified Support for Google for Education:** Save your IT team valuable time and resources and empower them to make the right decisions for your institution's digital infrastructure. Equip them with the support they need to prevent and mitigate technical challenges like network errors, misaligned settings, security breaches, app degradations, and more. The Amplified Support for Google for Education service partners technical staff with Google IT specialists who provide on-demand support, customized solutions, and professional collaboration to help your institution keep up with Google's ever-evolving environment, optimize the operation of your Google for Education domain and Chrome OS, and achieve the strategic goals of your administrators, educators, and students.
    - Support services include on demand support with highly responsive SLAs, customized solutions, and professional collaboration.
- **CDW Collaboration Chrome Checkup:** With the rapid adoption of education technology through a 1:1 model, classroom carts, or computer labs, Google Admins are managing the settings and configurations for Chrome and fleets of Chrome devices. Neglecting to keep up with Google Chrome updates and the normal degradation that comes with usage can leave Chrome devices vulnerable to metric and data errors, security breaches, and operations issues. A Chrome Checkup explores an institution's current Chrome and Chrome device settings in the Google Admin console to provide recommendations based on education best practices to ensure their fleet is optimized for success and ready for deployment.
- **CDW Collaboration Google for Education Audit**: Ongoing Google for Education feature changes can make it difficult for you to keep your institution's Google Workspace domain up to date. Neglecting to properly configure even a few settings in the Google Admin console can leave it vulnerable to undelegated access, metric and data errors, and security breaches. The Google for Education Audit analyzes your Workspace environment against the latest education best practices and Google Workspace updates and provides an actionable plan to improve the efficiency of your domain for the success of your administrators, teachers, and students.
- **CDW Collaboration – Google Voice for Education:** Google Voice is a simple, smart, and scalable cloud-based phone solution that allows administrators and teachers to stay connected to students and parents via a desktop phone or cellular and computer devices

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

without having to use their own phone numbers. With the options of remote, hybrid, and in-person teaching and learning models exposing the need for schools to have an efficient communication system, Google Voice is a valuable option that puts administrators and teachers in control of their call logs, whether teaching and learning are happening in the building or at home. Google Voice is intelligently optimized, secure, and compliant and fits seamlessly into the Google Workspace for Education workflow.

- **CDW Collaboration – Google Workspace for Education KickStart:** The Google Admin console has over 1,000 settings that do not come out of the box tailored to meet the needs of your institution, and Google Admins are left to build out the Google Workspace for Education domain on their own. This can result in misconfigurations, improper OU structure, an abundance of delegated permissions, and security vulnerabilities that affect teaching, learning, and safety. A Google Workspace for Education KickStart provides institutions with a configuration guide for all the settings in their Google Admin console. Recommendations are based on education best practices and an institution's unique strategic goals, so the domain is operating at its highest level from day one.

CDW•G and Microsoft for Education

CDW's Amplified for Education Services offer comprehensive Microsoft 365 EDU support to schools, addressing your most urgent problems in classroom technology, remote learning, device management and security. With our expertise, you can optimize your learning environment by leveraging Microsoft technology and affordable Windows 11 Education devices to their fullest potential.

We offer multiple Microsoft EDU Services for your environment, including:

- **Microsoft EDU Modern Management Program | Intune for Education Pilot**: By streamlining device management, reducing downtime and IT support costs, and improving data protection, Intune for Education can complement schools' current Intune for Enterprise as an add-on or a stand-alone plug-and-play service. With its focus on delivering high-quality, innovative, and inclusive education for all students, Intune for Education empowers schools to leverage their existing infrastructure while enhancing their device-management capabilities specifically tailored for educational settings.
- **Microsoft Education Discovery and Design | M365 EDU Ecosystem Assessment:** By providing clear guidance on what tools are being utilized or not utilized, this assessment enables ITDMs to optimize software usage, reduce unnecessary spending and make informed decisions about their technology budget.
- **Amplified for Microsoft EDU | Windows 11 Readiness Assessment:** The Windows 11 Readiness Assessment includes a series of workshop sessions that help schools evaluate EDU environments in preparation for the deployment of Windows 11 and its features, identify scalability constraints, make informed decisions, and implement the necessary enhancements to ensure successful adoption.
- **The CDW Education Collaborative | Microsoft:** The CDW Education Collaborative is a forward-thinking community of K-12 districts looking for insights and best practices for administering and mastering Microsoft 365 Education and Google for Education ecosystems. The Education Collaborative provides a one-stop shop to access useful content and helpful advice from fellow education IT professionals, CDW professionals, and Microsoft and Google insiders.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

CDW•G and AWS for Education

We are part of AWS' Partner Network with an active Advanced Consulting Partner status. CDW•G coworkers have earned more than 200 AWS certifications, including the AWS Database and Data Analytics Specialty Certifications, as well as the AWS Migration Competency, AWS Storage Competency, and more.

- **CDW Hybrid Cloud AWS Appstream Implementation Services (Education Segment):** With more students learning remotely with less-robust devices, the demand for remote application access is growing. The AWS AppStream service allows students to access their critical apps remotely, and CDW•G has developed a turnkey service to get your students and institution up and running. Provide access to the applications your students need without the expense and security risk of building and hosting on your premises. CDW•G will plan, configure, and deploy the AppStream solution for you.
- **CDW Classroom in the Cloud on AWS Hybrid Cloud:** The cost of purchasing, installing, implementing, maintaining, and replacing the hardware and software needed on your facilities to accommodate the curriculum your students need can create a budget black hole, which is why we created our Classroom in the Cloud on AWS, an enhanced Desktop-as-a-Service (DaaS) solution. Allow CDW•G to help you increase efficiencies, decrease costs, and improve the student experience by building virtual classrooms and labs in AWS. With CDW•G's Classroom in the Cloud service, you have the flexibility to spin classrooms up and down, use online faculty resources, and provide students with 24x7 access to complete or repeat work outside of class, all while keeping costs at the requisite minimums. In addition, CDW•G can provide you with content for the grant proposal necessary to receive the funds to use this service, if needed.

These sector-specific offerings provide insight into our capabilities; however, they are not comprehensive.

Success Story: Custom-Built Esports Room in a Southeast School District

Background

Several educators at a junior high school created an after-school esports club that met online during the pandemic. When students returned to campus, the club met in the school library. The staff and principal envisioned so much more; they wanted to add esports to the curriculum and build a dedicated esports room. They pitched their ideas to school district leaders and quickly won support.

The CDW•G team, which includes esports experts, initially met with school officials in the spring of 2021 to discuss the district's immediate and long-term goals. In doing so, they learned the gaming room needed to be multifunctional for teaching both esports and other classes.

Engagement and Solution

The district took advantage of CDW•G's Blueprint to Design service, which includes its furniture partner Spectrum Industries, to create an initial floor plan and design for the room.

At the same time, CDW•G's esports advisers made technology and furniture recommendations to fit the district's budget. After receiving feedback on the initial designs, CDW•G developed new 2D and 3D renderings for the space. During this process, CDW•G held multiple virtual and onsite visits. Before the technology and furniture arrived, the school

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

hired a general contractor to equip the room with enough electrical outlets and network drops for the PCs and other equipment. With the infrastructure complete, CDW•G and their installation partner installed the LED lighting and 65- and 75-inch Samsung displays. Once the furniture and tech equipment arrived, we assembled the gaming desks and chairs and installed the computers and gaming peripherals.

Outcome

In the fall of 2021, this junior high school opened a state-of-the-art esports room, transforming a traditional classroom into a rich learning environment. This esports room has become the home for a semester-long interdisciplinary course that teaches them about the career and technical skills they will need in the fast-growing field.

Financing

I. Financing: Options available such as lease programs and conditional sales contracts.

CDW•G has an in-house Financing Solutions Team to help the City of Mesa and OMNIA Partners Participating Public Agencies navigate among our tailored payment solution options, which include leasing, financing, subscriptions, etc. We take a consultative approach to financing options that ensure the City of Mesa and OMNIA Partners Participating Public Agencies' goals are met.

At CDW•G, we focus on providing the best solutions in the industry—and that includes Financing Solutions. CDW•G can facilitate an agreement between OMNIA Partners Participating Public Agencies and various leading financing companies that can help each Participating Public Agency obtain the payment terms that best fit their unique needs and budget requirements. Agencies can secure a payment solution structure with maximized options and terms.

CDW•G's Financial Partners provide the best option to fit the City of Mesa and OMNIA Partners Participating Public Agencies' needs. For agencies with a Master Lease Agreement established, we likely have a partnership in place with their provider or can establish one, to extend their existing agreement to incorporate purchases from CDW•G. Often, we leverage relationships with our partners to offer more advantageous rates, terms, and structures. For agencies that have diversity requirements to meet, we can recommend small and diverse partners that hold relevant certifications.

Our Premier Financing Partners include, but are not limited to, the following:

- Arrow Capital Solutions
- Cisco Capital
- Dell Financial Services
- HPE Financial Services
- Lenovo Financial Services
- LEAF Commercial Capital, Inc.

Conditional Sales Contracts

CDW•G offers conditional sales contracts. Our consultative approach to financing options ensures that the City of Mesa and OMNIA Partners Participating Public Agencies receive a tailored solution offering that aligns with your needs and budget requirements.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Distribution of Products and Services

B. Describe how supplier proposes to distribute the products/service nationwide. Include any states where products and services will not be offered under the Master Agreement, including US Territories and Outlying Areas.

CDW•G provides nationwide delivery for our hardware products and has a robust system in place to secure timely delivery. Many of our top manufacturers and software publishers' representatives are onsite at CDW•G's sales offices to facilitate requests for information and assist with designing the best possible solutions.

- We receive detailed insight into supply chain availability, manufacturing delays, distribution shortages, and overstocks, as well as other disruptions related to supply and demand variability
- We often secure additional inventory to offset any known supply issues
- CDW•G works closely with our vendor partners to train and certify our account managers and technical staff and to deploy and manage technologies in customer environments
- CDW•G has received awards and recognition from our partners for developing and delivering exceptional solutions

Products and services will be offered to all states under the Master Agreement, including US Territories and Outlying Areas where allowable and applicable by local government regulations, CDW•G contractual limitations, and our relationships with the respective manufacturers.

Additionally, due to the relationships that CDW•G has with both OEM partners and shipping carriers, we ensure the traceability of products regardless of their origin. If products are shipped directly from a manufacturer location, our logistics and drop ship team maintains active communication with the manufacturer and the preferred carrier to ensure that the correct number and model of products are being shipped, and that shipment schedules are being met.

We do not procure from gray market vendors and only work directly with manufacturers and their authorized sources. Our supply chain complies with industry standards to support the IT needs of public sector customers. Our catalog contains a vast range of manufacturers, so customers can expect transparency since we do not manufacture products ourselves. The Government Industry Data Exchange Program provides a report of counterfeit or suspected counterfeit products weekly. We cross-reference this list with our inventory and sales. To date, none (0%) of the products we've carried or sold have been classified as counterfeit. All of CDW•G's shipping and quality processes are based on the ISO 9001:2015 certification standards, of which we are certified.

Streamlined Order Process and Fulfillment

Once an order is credit-released, it goes to the purchasing department to check whether the products are in stock. If products require configuration services, they will be sent to CDW•G configuration center, a designated area of our distribution center, where they will be configured according to the customer's specifications. Our highly trained and experienced configuration technicians perform custom configurations very efficiently.

A product never leaves the configuration center without receiving a full three-stage quality control check, even if it is only being asset tagged. Also, prior to shipping, all packed boxes go through quality control checks.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Fulfillment

The order fulfillment process begins when a batch of orders are systematically released and sorted according to type and priority; for example, split-case picks, full-case picks, oversized picks, and install picks. Our ISO-certified order fulfillment procedures and requirements meet rigorous industry standards to ensure that your order is shipped quickly and accurately. Overnight and Configurations-Priority orders receive processing priority during order fulfillment.

Extendable conveyors move in and out of trailers, bringing product directly to the current loading position and optimizing the number of people needed to load a trailer. CDW•G has an agreement with UPS for direct lane shipping and will pre-sort packages into trailers that go directly to a sorting hub closer to the end-destination. This reduces overall processing and travel time to increase our 2-day delivery footprint.

The majority of orders are picked paperlessly, using radio frequency scanners, or voice picking headsets in our Las Vegas (LV) distribution center to identify the product necessary for the shipment and direct the coworker to the proper location. The product UPC is scanned to verify quality and serial numbers are captured via a barcode scan. Smaller items are picked directly into CDW branded boxes or padded envelopes, with automation for the carton assembly and shipping label application in the LV distribution center. Larger items are placed onto the conveyor where the entire carton is goes through a scan tunnel to review all barcodes and then shipping labels are automatically applied. The largest items are picked in a similar manner via forklift; coworkers are directed to the location, the product is scanned for quality, and then the product is taken to a printing station to receive the shipping labels.

Efficient Distribution System

Our distribution centers are designed for continuous commitment to accuracy, quality, and speed. Our facilities have multiple levels of storage, miles of high speed conveyors and sorters, UPC bar code scanning, product serial number capture, with a paperless Radio Frequency (RF) and Voice Directed picking processes. Each step in the product movement process is verified with a barcode scan, from receiving through shipping. We ship 40,000 to 50,000 boxes per day depending on the time of year.

As one of the largest direct marketing resellers in the US, CDW•G has positioned itself very closely with the major shipping companies and other delivery service companies to provide standard or expedited product delivery. Due to the extensive carrier worldwide service capabilities, excellent record for on-time delivery, and competitive pricing, we ship the majority of our products via UPS or FedEx. Both companies have on site employees at our distribution centers, individuals with a track record of supporting CDW•G with sophisticated capabilities to leverage their intermodal transport options. We also have contracts with truck load (TL) and less than truck load (LTL) carriers for large orders and heavy products.

Master Agreement Pricing Compliance

C. Describe how Participating Agencies are ensured they will receive the Master Agreement pricing; include all distribution channels such as direct ordering, retail or in-store locations, through distributors, etc. Describe how Participating Agencies verify and audit pricing to ensure its compliance with the Master Agreement.

A designated Program Management Team working alongside Ty Robles, the City of Mesa and OMNIA Partners' Program Manager, ensures that Participating Public Agencies will receive Master Agreement pricing. Ty and the Program Management Team regularly conduct self-audits to ensure pricing compliance and take corrective action when needed.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Compliance

Immediately upon award of a contract, Ty reviews and disseminates the contract documents and all related proposal documents, recording all items that CDW•G will need to manage. Ty is responsible for ensuring that CDW•G observes commitments included in the contract. For example, if CDW•G commits to a pricing structure based on a certain discount from advertised pricing, it is Ty's responsibility to record the pricing in the contract management software, which then locks the structure for purchases made under the contract. Since Ty is often the person most familiar with the contract, she will also make recommendations for improvements and efficiencies based upon their constant analysis of the contract's provisions and trends with the City of Mesa and OMNIA Partners' use of the contract.

Automated Contract Management System

Ty sets up the pricing in our Contract Management System and works with our in-house eProcurement/Digital team to update your online catalog with fixed pricing and the various logons and security settings for OMNIA Partners' Participating Public Agencies. Once the structure is loaded, no additional manual intervention is needed to maintain it. End users will be able to view and verify the contracted pricing through this unique URL without the need to log in with a password.

Distribution Channels

CDW•G offers various distribution methods for our customers. It is of the utmost importance that our customers can purchase from us however is easiest for them. CDW•G works with several other companies to help to process, handle, and/or ship hardware products to customers. In addition to the manufacturer and distributor partners we work with, we have built strong relationships with industry well-known carriers such as FedEx Parcel, UPS Parcel, UPS Freight, FedEx Air Freight, CEVA LTL services (less than truckload), and local messenger services.

We provide the City of Mesa and OMNIA Partners Participating Public Agencies with a Premium Page in which you can quickly and efficiently place and track the status of your orders.

As one of the largest resellers, CDW•G has established very good working relationships with the major manufacturers in the technology industry. Our buying power attracts the industry's top manufacturers, including their best prices and rebates. Most manufacturers send us daily Electronic Data Interchange (EDI) downloads with pricing and product availability information. Also, we receive timely notifications regarding product changes and lifecycles, as well as real time inventory information.

Our two distribution centers are located in close proximity to principal distributors; this enables us to obtain competitively priced, non-stocked items relatively quickly. If a product is out of stock in CDW•G distribution centers, CDW•G can leverage our local and national distribution network; if the product is in stock in the distribution network, CDW•G can generally secure product(s) from our local distribution network within 24 hours. The value-added benefits of our highly automated state-of-the-art distribution systems are that the City of Mesa and OMNIA Partners Participating Public Agencies will receive the right products quickly, configured correctly and ready to use; this will enable you to maintain a high level of productivity and to better serve your organization and citizens.

The City of Mesa and OMNIA Partners Participating Public Agencies contact your dedicated CDW•G Account Manager to place an order via phone, email, or fax; additionally, you can use your CDW•G Account Center to place orders.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Shipment Partners

D. Identify all other companies that will be involved in processing, handling or shipping the products/service to the end user.

We work with several authorized channel partners to deliver solutions to OMNIA Partners Participating Public Agencies. These include OEMs, Publishers, Cloud Solution Providers, and Distribution Partners (Tech Data, Ingram Micro, SYNNEX, Avnet, and Arrow Electronics). In addition to the manufacturer and distributor partners we work with, we have built strong relationships with industry well-known carriers such as FedEx Parcel, UPS Parcel, UPS Freight, FedEx Air Freight, CEVA LTL services, Tforce, and local messenger services.

Due to the extensive carrier worldwide service capabilities, excellent record for on-time delivery, and competitive pricing, we ship the majority of our products via UPS or FedEx. Both companies have on-site employees at our distribution centers; these individuals have a track record of supporting CDW•G with sophisticated capabilities to leverage their intermodal transport options.

Depending on the unique needs of each opportunity, CDW•G will work with these resources in conjunction with the City of Mesa and OMNIA Partners Participating Public Agencies to choose additional vendors that best fit based on the work and needs of the customer. Details of the chosen vendor will be provided to the interested party during scoping.

Distribution Centers

E. Provide the number, size and location of Supplier's distribution facilities, warehouses and retail network as applicable.

CDW•G has two large strategically located distribution centers controlled by a Warehouse Management System (WMS) that ensures speed and accuracy throughout the order fulfillment and distribution processes. CDW•G has a 450,000-square-foot distribution center located at our headquarters in Vernon Hills, IL, and a 513,000-square-foot distribution center located in North Las Vegas, NV.

Addresses for our distribution centers are as follows:

Las Vegas Distribution Center	**Vernon Hills Distribution Center**
3201 E Alexander Rd. North Las Vegas, NV 89030	200 N Milwaukee Ave. Vernon Hills, IL 60061

These locations facilitate quick distribution of products to our growing customer base throughout the country. The Vernon Hills (VH) distribution center focuses on distributing products to customers east of the Mississippi River, while the Las Vegas (LV) distribution center primarily serves the western part of the United States.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

We have access to more than 100,000 top brand-name products from more than 1,100 leading manufacturers. Due to the size of our facilities, which span four levels of storage and three level picking modules, forklifts are required to stock and pick products as needed.

We hold more than $500M of inventory in our two in-house distribution centers that total almost one million square feet.

The value-added benefits of our highly automated state-of-the-art distribution systems are that the City of Mesa and OMNIA Partners Participating Public Agencies will receive the right products quickly, configured correctly and ready to use; this will enable the City of Mesa and OMNIA Partners Participating Public Agencies to maintain a high level of productivity and to better serve your communities.

3.3 MARKETING AND SALES

Implementation Plan

A. Provide a detailed ninety-day plan beginning from award date of the Master Agreement describing the strategy to immediately implement the Master Agreement as supplier's primary go to market strategy for Public Agencies to supplier's teams nationwide, to include, but not limited to:

CDW•G's leadership team is securely behind the growth and strategy of this program for both the City of Mesa and OMNIA Partners Participating Public Agencies nationwide. CDW•G has provided the City of Mesa and OMNIA Partners an executive sponsor, David Hutchins, Vice President of Strategic Programs, who commits to endorse and sponsor the award within the first 10 days of the contract. The City of Mesa and OMNIA Partners can be confident in this contract's level of Executive Sponsorship within CDW•G.

CDW•G has had a long-standing relationship with OMNIA Partners (and previously with affiliates of OMNIA, including NIPA) since 2003. We continue to lead and facilitate our growth strategy with numerous public entities that utilize the multiple OMNIA contracts to which CDW•G has been named. CDW•G will continue to partner with OMNIA Partners through this contract, if awarded, and other contracts to identify additional members under this solicitation. CDW•G will abide by various regulations and requirements in multiple jurisdictions, including some with mandatory use requirements, exclusions, or preference of public entities on utilization of specific contracts. We have included a cohesive implementation plan and pledge to continue focusing on the growth of this contract's awareness and success. Those involved in the Contract Launch and committed to the success of the City of Mesa and OMNIA Partners/CDW•G partnership are highlighted below:

Executive Leadership and Support

David Hutchins – Vice President, Strategic Programs

David is the Executive Corporate Sponsor for the City of Mesa and OMNIA Partners agreement. David has more than 25 years of sales experience and has held numerous leadership positions within CDW•G since 2003. As VP of Strategic Programs, he is responsible for the alignment of key enablement areas, including sales operations and support, programs and contracts, capture, business development, proposals, and business diversity. As the Executive Sponsor, he is dedicated to the success of this contract.

Email: david.hutchins@cdwg.com | **Phone**: +1 (847) 968-9782

Dario Bertocchi – Vice President, Contracting Operations

With more than 20 years at CDW, Dario brings a wealth of knowledge to the City of Mesa and OMNIA Partners. As Vice President of Contracting Operations, he manages more than 240 professionals across proposals, contract and program management, contract negotiation, and contract pricing.

Email: dariber@cdw.com | **Phone**: +1 (203) 851-7049

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Capture and Business Development

Mark Ellis – Senior Capture Manager

Mark Ellis is the City of Mesa and OMNIA Partners' National Account Manager. Mark is an active participant in the planning and strategy to promote the OMNIA Partners agreement. Having been with CDW for more than 22 years in various roles, from Account Manager, Program Manager, and Capture Manager, Mark is intimately familiar with this contract, the mutual CDW•G and OMNIA Partners target market, and how to best position the City of Mesa and OMNIA Partners contract for its best success. He is committed to the success of this contract and looks forward to ongoing collaboration with the City of Mesa and OMNIA Partners.

Email: markeli@cdwg.com | **Phone**: +1 (732) 982-0390

Elysse Wayman – Manager, Business Development

Elysse actively participates in the planning and strategy to promote the OMNIA Partners agreement. She is an expert in the State and Local government landscape and has nearly a decade of experience working in information technology. Her experience and expertise are of great benefit to the successful growth of the OMNIA Partners contract.

Email: elysway@cdw.com | **Phone**: +1 (813) 804-5380

Jason Schwartz – Senior Manager, Business Development

With nearly two decades of experience at CDW Government dedicated to public sector customers, Jason and his team build the frameworks and strategic plans to proactively identify, pursue, win, and optimize new business within the highest opportunity customers in the State and Local Government segment.

Email: jasons@cdw.com | **Phone**: +1 (847) 419-7542

Chris Webb – Director, Capture & Business Development

Coming up on nearly 20 years at CDW•G, the City of Mesa and OMNIA Partners will greatly benefit from Chris's experience in territory growth, customer expansion, and partner alignment. As Director of Capture and Business Development, Chris is an active participant in the strategy and development of the OMNIA Partners contract. He has over a decade of experience working with OMNIA Partners and is the senior leader owning the OPUS integration and future success.

Email: chris.webb@cdwg.com | **Phone**: +1 (203) 851-7142

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Program Management

Ty Robles – Program Manager

Ty is the City of Mesa and OMNIA Partners' Program Manager. Ty has an in-depth working knowledge of OMNIA Partners, including the former cooperatives, National IPA, and TCPN. She will work with sales leaders to develop and execute a training program following contract signature and will be actively involved in the daily operations of this contract. In addition to being committed to the success of this contract, Ty is also responsible for providing oversight of the program's success, reporting and fee payments, and identifying areas for improvement and opportunities for growth.

Email: taisrob@cdw.com | **Phone**: +1 (203) 851-7239

Heather Kohls – Manager, Program Management

With over 15 years of experience in Program Management, Heather is the Manager of the State and Local Program Management Team and leads the efforts across the team to ensure efficient, compliant, and strategic management of the program. Heather and Ty will work closely with the Sales and Marketing Team, State and Local Entities and OMNIA Partners to support and grow the program through collaborative communications and operational excellence.

Email: heather.kohls@cdwg.com | **Phone**: +1 (847) 465-6000

Anup Sreedharan, Senior Manager, Program Management

Anup oversees our state and local government program management team. Anup has nearly 20 years of working with public entities and brings his knowledge and skill set of government dash-specific contracts to the team. His duties include expanding the program management team's strategic outlook by working with internal and external groups, like customers, sales, and partners, to provide the best contractual support for our customer base.

Email: anusree@cdw.com **Phone**: +1 (312) 705-1873

Brian Fisher, Director, Program Management

Brian is the senior leader overseeing our Public & Commercial program management teams. Brian brings more than 23 years of contracting and commercial acumen and has led teams in all capacities in the contracting lifecycle. His responsibilities include building coalitions, shaping contracting strategies, fostering leadership, and maximizing the value of CDW's contracts for our customers.

Email: briafis@cdwg.com **Phone**: +1 (312) 705-3385

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Sales Leadership

Tony Sivore – SLG Director, Sales West

Tony brings nearly 25 years of IT sales experience to the City of Mesa and OMNIA Partners. In his current role, Tony is responsible for providing strategic direction for sales groups that oversee the business of CDW•G's State and Local Government customers. His duties include growing and managing executive relationships with key partners and customers and training the Sales Managers. He will leverage internal and external relationships whenever possible to ensure that we continually meet the City of Mesa and OMNIA Partners' needs.

Email: tonysiv@cdwg.com | **Phone**: +1 (312) 705-3290

Don McCarthy – SLG Director, Sales South

Sales Director, Don McCarthy, has more than 13 years of IT sales experience. Like Tony, Don is responsible for providing strategic direction for sales groups that oversee the business of CDW•G's State & Local Government customers. His duties include growing executive relationships with key partners and customers and leading the sales managers' ongoing development and training. Don is committed to the success of this contract and beyond.

Email: donamcc@cdw.com | **Phone**: +1 (847) 419-6317

Jonathan Mazella – SLG Director, Sales East

Jon has more than 20 years of experience in the Public Sector. As SLG Sales Director for the East, Jon is responsible for aligning CDW•G resources to ensure our customers derive exceptional value from the partnership. The team under Jon consistently excels in this market due to a deep understanding of both IT and public sector procurement. He looks forward to using his in-depth knowledge of public procurement and IT to help the City of Mesa and OMNIA Partners with their digital transformations and beyond.

Email: jonathan.mazella@cdwg.com | **Phone**: +1 (203) 851-7222

Eric Goff – K-12 Director, Area Sales East

Eric has more than 20 years of experience in technology sales and more than a decade of experience serving the education community. As a K-12 Director for the East, Eric is responsible for leading K-12 Education sales and strategy for 9 states and oversees a team of 60 sales professionals. His extensive experience and expertise in the education sector helps contribute to successful OMNIA Partner contract growth.

Email: ericgof@cdw.com | **Phone**: +1 (312) 705-9101

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Michael Durand – Higher Ed Director, Area Sales East

Michael is a Director of Sales for Higher Education at CDW•G and is an experienced Education Sales Leader with a demonstrated history of working in the information technology and services industry. He has held various leadership roles throughout his career at CDW•G since he joined in 2007, all serving Education customers.

Email: michdur@cdw.com | **Phone**: +1 (203) 851-7041

Marketing

Cathy Sionkowski – Manager, Field Marketing

Cathy is an active participant in the marketing plan for OMNIA. She is a marketing, and management professional who is highly skilled in developing and implementing sales and marketing strategies that drive growth in revenue, market share, and profitability. Cathy collaborates with Program Management and Sales Leadership to determine the best approach to drive revenue.

Email: cathsio@cdw.com | **Phone**: +1 (248) 223-4562

Trenece Paszkiewicz – Senior Field Marketing Specialist

As a Senior Field Marketing Specialist, Trenece is highly involved in the marketing plan for OMNIA Partners. Working in conjunction with Cathy, Trenece helps implement sales and marketing strategies that contribute to the success of our contract expansion for OMNIA Partners.

Email: trenece.paszkiewicz@cdw.com | **Phone**: +1 (847) 968-9142

After the contract award and execution of a contract, the CDW•G Program Management team will work with the City of Mesa to set up the contract in our system, announce it to the Sales teams, and begin strategizing with the Marketing Team. We will provide the City of Mesa and OMNIA Partners with a comprehensive and detailed Transition Plan. This Transition Plan will cover all tasks and resources associated with the transition of the Products, Services, and Solutions, including a table with fixed dates upon award and a firm understanding of the contract terms. Our goal is to ensure that the City of Mesa, OMNIA Partners, and all Participating Public Agencies see a streamlined contract transition with minimum disruption to their operations.

Phase 1: Contract Launch

The goal of the Contract Launch phase includes operationalizing the contract, aligning goals, and gaining customer awareness.

Operationalizing the Contract

Mark Ellis, Senior Capture Manager and the assigned OMNIA Partners' National Account Manager, will collaborate with Ty Robles from our Program Management team, our Sales Team,

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

and our dedicated Marketing Team to build out the formal launch and transition of this contract from our existing City of Mesa contract.

Once Ty Robles receives the City of Mesa and OMNIA Partners' signed documents, they are saved to CDW•G's contract library. Afterwards, Ty sets up the pricing in our Contract Management System and works with our in-house eProcurement/Digital team to update your online catalog with fixed pricing and the various logons and security settings for OMNIA Partners' Participating Public Agencies.

Align Goals

Ty will conduct training sessions for the Sales Account Team supporting the City of Mesa and OMNIA Partners on contract terms and deliverables. Sales training includes explaining the target customers, product and service requirements, and key performance indicators, as well as key features of the Master Agreement, working knowledge of the solicitation process, awareness of the range of Public Agencies that can utilize the Master Agreement through OMNIA Partners, and knowledge of the benefits of using cooperative contracts.

Phase 2: Contract Acceleration

In the Contract Acceleration phase, we'll establish a strategic framework informed by a competitive analysis, value proposition, and differentiated positioning and messaging.

We'll then drive contract adoption and growth through targeted strategy and marketing, including creating account and opportunity plans, developing a robust account penetration, and executing targeted marketing and outreach campaigns.

Phase 3: Contract Maintenance

A designated team working alongside Ty will provide the City of Mesa with reports as required by the contract language and analyze the success of the program, making recommendations for improvements throughout the contract's duration. Additionally, CDW•G uses a robust set of performance metrics to track contract health, including revenue, customer count, category mix, and year over year comparisons.

CDW•G monitors performance monthly, paying close attention to areas that might cause issues in the future. If performance falls short of projections, we take corrective actions right away, using our internal tools to communicate the issues and suggest a course of action to ensure we meet or exceed performance projections. We'll keep all stakeholders informed of progress and solicit feedback. Our goal is to maintain a two-way communication channel with the City of Mesa and OMNIA Partners to ensure complete alignment.

For greater insight into our Contract Launch Plan, please see the table below.

The workstreams identified below help ensure awarded contracts are thoughtfully and responsibly shepherded through the full contract lifecycle – beginning with pre-award activities through year-over-year delivery analysis and all phases in between – with a cohesive, multidisciplinary team. Each workstream has distinct milestones, timelines, and measurements for success defined by the requirements of the contract and the practices of CDW•G.

Transition Timeline, Key Milestones, and Required Resources

CDW•G has developed a Transition Plan with stages, initial timelines and milestones, and resources required from the City of Mesa to help ensure a complete transition with no interruption to contract execution and delivery. Stages of transition include the following:

- **Account Logistics** is the first step in ensuring a smooth transition to contract ownership and execution and includes review and finalization of the transitions plan for Participating Public Agencies' specific agreements under incumbent contract.
- **Customer Engagement** lays the foundation for transparency, communication, and ownership across the life of the contract. Working with the City of Mesa, CDW•G will host a "Meet the Team" event where members of CDW•G Sales Leadership, Sales Management, Account Management, and Program Management will be on hand to meet customers, answer questions, and kick off the new contract. To help ensure CDW•G's understanding of the goals, mission, challenges, and timelines of customers, we welcome the opportunity for one-on-one or group discussions with IT stakeholders, IT teams, and business owners.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- **Program Management** teams from CDW•G engage with the City of Mesa resources for the completion of mission-critical milestones, including contract, reporting, and process reviews.
- **Operational Management** is the final stage of contract transition activities and culminates with the Operational Readiness Review and Approval. Working closely with The City of Mesa resources, CDW•G makes final adjustments and goes live with the dedicated website and all processes defined and in place.

The table below highlights major stages, activities, and the need for engagement from the City of Mesa's resources.

CDW•G Contract Transition		
Stage	**Milestone Activities**	**Mesa/OMNIA Resource**
Account Logistics	▪ Transition Plan Implemented ▪ Start Transition of Participating Public Agencies-specific Agreements under Incumbent Contract	No
Customer Engagement	▪ Meet the CDW•G Team Event ▪ Stakeholder Introductions	Yes
Program Management	▪ Contract Policy Review ▪ Reporting Review ▪ Digital Integration Review ▪ Process Review	Yes
Operational Management	▪ Dedicated Website Active ▪ Digital Integration Complete and Active ▪ Final Process Review ▪ Operational Readiness Review and Approval	Yes

Executive Endorsement

i. Executive leadership endorsement and sponsorship of the award as the public sector go-to-market strategy within first 10 days

CDW•G's leadership team is securely behind the growth and strategy of this program for both the City of Mesa and nationwide. CDW•G executive leadership, David Hutchins, Vice President of Strategic Programs, commits to endorse and sponsor the award within the first 10 days of the contract. The City of Mesa and OMNIA Partners can be confident in this contract's level of Executive Sponsorship within CDW•G.

We maintain an ecosystem of coworkers committed to successfully managing all aspects of a contract through its entire lifecycle. From our executive leadership to contract management, our coworkers will collaborate to customize a detailed yet effective plan to launch and grow this contract. CDW•G has a successful contract launch process, described above, that allows us to

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

launch contracts to the CDW•G teams with the most powerful and applicable details to optimize the success of this new Agreement.

We bring leaders from across our public sector teams together with OMNIA Partners multiple times a year to review contract initiatives, joint goals, and customer feedback. OMNIA Partners can look forward to collaborating with diverse group of leaders who have extensive experience with the OMNIA contract portfolio, including Mark Ellis, Elysse Wayman, Heather Kohls, and Chris Webb.

Our ongoing effort in specific target accounts helps increase contract utilization and drive contract adoption amongst nonparticipating agencies. We meet monthly to review the current state of the business and execution of our growth and marketing strategies.

Training and Education

ii. Training and education of Supplier's national sales force with participation from the Supplier's executive leadership, along with the OMNIA Partners team within first 90 days.

CDW•G is committed to providing training and education to our national sales force in collaboration with our Executive Leadership and OMNIA Partners during the initial phase of contract signing in the first 90 days.

CDW•G's Program Management and Capture Teams are singularly devoted to launching and managing contracts of this particular magnitude, including significant incumbent contracts with a customized approach. These groups' responsibilities are separate from those held by account managers. Members of the Program Management Team are dedicated to maintaining contract compliance and administering contract procedures, while the Capture Team focuses on building strategy of contract capture and contract success. Together, they collaborate on a formal contract launch plan. CDW•G invests in these resources based on our understanding that contracts are complex commitments.

The City of Mesa and OMNIA Partners' dedicated CDW•G Program Manager, Ty Robles, has an in-depth working knowledge of OMNIA Partners, including the former cooperatives, National IPA and TCPN. She collaborates with CDW•G's marketing department to create awareness and training campaigns to enable our national sales force.

Over the first 90 days, in partnership with the OMNIA Partners team, Ty will engage key members of the CDW•G's executive leadership team to implement our contract launch strategy plans. With our experience on our existing OMNIA contracts, our robust implementation plan ensures we are able to bring our national sales force up to speed quickly.

We will be ready to roll out a robust training program for our sellers and technical SMEs, upon contract award. Training content will cover contract scope and operations, growth strategy endorsed by executive leadership, and the contract benefits. We expect this to happen within the first 30-45 days of the contract signature. The documentation Ty compiles in conjunction with our marketing department will be customized depending on the needs and the region of the seller to ensure our messaging matches the customers within that geography.

Our sellers will then be equipped with relevant collateral to communicate to customers the benefits and strength of this contract. Curriculum development, trainings, and collateral creation will be completed within 90 days of contract award. Our launch strategy extends beyond 90 days with a quarterly review to ensure plan to action. As with current contract, we will continue to have ongoing training through the life of the contract.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Marketing Plan

B. Provide a detailed ninety-day plan beginning from award date of the Master Agreement describing the strategy to market the Master Agreement to current Participating Public Agencies, existing Public Agency customers of Supplier, as well as to prospective Public Agencies nationwide immediately upon award, to include, but not limited to:

Just as our Program Management team leads contract launch and maintenance requirements, our Marketing team, including Cathy and Trenece, are already engaged will continue to build comprehensive, strategic marketing programs for our OMNIA Partners contracts.

Additionally, our sales force upholds strategic relationships with current and potential OMNIA Participating Public Agencies. These relationships uniquely position us to develop and deliver awareness and growth campaigns to members through a trusted advisor network. Our account teams have long-standing customer relationships in which they often become an extension of their customers' IT and purchasing teams. Our account managers speak with their customers weekly, if not daily. As a result, our customers turn to their account managers for purchasing recommendations, including which contracts to leverage. Within 90 days of contract award, we will leverage this trusted advisor network and our marketing capabilities (e.g., customer-facing collateral, email campaigns, call campaigns, social media, etc.) to quickly and effectively alert registered and potential customers of the new contract and its benefits.

CDW•G has a robust approach towards publicizing and promoting the new agreement and differentiating from our existing contract. Our live touch approach includes a proactive communication program, as well as both inside and field sales teams meeting with eligible users.

Our customers rely on their account manager as an expert resource; this includes leveraging contracts. CDW•G's sales and marketing plan combines past CDW•G marketing successes with a strategy to effectively capture net new business. We leverage our reporting capabilities to determine potential target customers. After determining targets, CDW•G can then educate them on the benefits of the new contract and grow net-new business. Through this method, the City of Mesa, OMNIA Partners, and CDW•G will gain traction with users faster than a supplier that does not have these existing relationships in place.

Press Release

i. Creation and distribution of a co-branded press release to trade publications

To successfully implement a marketing plan, marketers must first know their audience and how to access them. CDW•G partners with various trade publications to access our target customers.

Within 90 days of contract launch, our marketing team will work with OMNIA Partners to develop content to disseminate to customers. Below, we have outlined potential avenues in which we can access target customers.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Publications

CDW•G partners with industry experts to publish sector-specific online and hardcopy magazines for State (StateTech), K-12 (EdTech Focus on K-12), and Higher Education (EdTech Focus on Higher Education).

Figure 20. StateTech and EdTech Magazine Covers

To successfully implement a marketing plan, marketers must first know their audience and how to access them, and these publications help access our target customers. All of the aforementioned publications deliver relevant content via print, blog, video case studies, and e-newsletters on topics including classroom, cloud, data center, hardware, software, security, and services.

Additional publications include:

- CoSN
- EdTech Magazine: Focus on Higher Ed
- EdTech Magazine: Focus on K-12 Education
- EDUCAUSE
- NASCIO
- NASTD
- State Tech Magazine

Advertisements and Cobranding

CDW•G has a dedicated Marketing Team who collaborates with OMNIA Partners and external marketing teams to profile CDW•G and partner-delivered technology productions, solutions, and services on customized flyers that are easily accessed electronically or printed to hand out.

The following page contains an example from Quarter 1 of 2023 for our current City of Mesa and OMNIA Partners contract. This flyer was designed to bring value to those new to CDW•G as well as long-time agency users and partners. Our marketing flyers can be designed and customer depending on each participating Public Agency's individual needs and requirements. In the sample below, the flyer contains information such as the following:

- Quantified examples of CDW•G's experience and approach to serving State and Local Government as well as educational entities
- Samplings of our breadth and depth of industry partnerships

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- Contract specifics where customers can find CDW•G delivered solutions and services
- Details about the CDW•G and OMNIA Partners relationship

We look forward to continued collaboration with the City of Mesa and OMNIA Partners.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

WE GET TECHNOLOGY PURCHASING SIMPLICITY.

A WINNING PARTNERSHIP IN STRATEGIC SOURCING

CDW-G's robust technology contract through OMNIA Partners for the sale of Information Technology Solutions and Services under Agreement 2018011-01 is available for OMNIA Partners participants to address all of your technology needs. This agreement expires February 28, 2025.

With more than two decades of experience partnering with State and Local Government and Education entities, CDW-G understands what it takes to modernize operations and provide comprehensive support to ensure success over the long term.

- Extensive range of solutions including data, security, cloud, hybrid infrastructure and digital experience
- Full lifecycle of services from roadmaps and adoption to project deployment, management, and staff augmentation
- Portfolio of more than 100,000 products and services from more than 1,000 leading and emerging brands
- Large supply network of both OEMs and distributors offer multiple paths to source product and secure the best value
- Enhanced configuration capacity, product inventory and warehousing for large-scale rollouts
- Committed to creating a culture of diversity, equality, and inclusion, where everyone feels they belong
- Dedicated teams solely focused on State and Local Government and Education entities with support from specialty practices including Public Safety and Esports

CUSTOMER SUCCESS STORY

INCREASING AGILITY WITH NEXT-GEN DATA STORAGE

A regional government agency recognized that its outdated infrastructure prevented it from expanding data storage to meet growing needs. Cost was a primary concern given pandemic-driven budget constraints.

CDW-G and its partners identified a new, adaptable data storage solution that could address the agency's challenges. Built from the ground up with next-generation storage technology, the solution delivered the necessary scalability while also meeting the agency's budget parameters.

With its newly deployed upgraded IT infrastructure, the agency has the agility and scalability necessary to meet its expanding needs, now and in the future.

STRONG PARTNERSHIP, STRONG SOLUTIONS

CDW-G and OMNIA Partners have worked collaboratively to help you successfully adopt the contract. If you have any questions about the adoption process, please contact your CDW-G account manager for additional assistance. We look forward to serving you under our agreement with OMNIA Partners.

CDW-G and OMNIA Partners have collaborated to offer a dynamic technology solutions contract. To learn more about becoming a member, visit **OMNIAPARTNERS.com.**

To learn more about our contract, please visit **CDWG.com/omnia.**

Social Media

CDW•G meets our customers where they are on today's technology horizon. The CDW Social Squad is made up of employees dedicated to social media; they push customized content to and through social media outlets, including relevant articles, emerging technology news, information on available contracts, and upcoming events in customer-specific markets. We can customize this content to be relevant to the City of Mesa and OMNIA Partners Participating Public Agencies.

With nearly 1,700 entries and counting across topics including Cloud, Data Center, Digital Workspace, Networking, Security, and Software, CDW's Research Hub delivers evocative and relevant content. Authored by our own subject matter experts, articles are written to help our customers navigate and digest the overwhelming amount of data that comes at them every day as they work to make better decisions for more effective and efficient solutions that meet their individual goals.

Announcement

ii. Announcement, Master Agreement details and contact information published on the Supplier's website within first 90 days

We have created a tab on our OMNIA Partners Premium Page so that Participating Public Agencies can easily shop for featured products. The tab is currently active for the existing City of Mesa and OMNIA Partners contract. Upon contract signing, the contract goes live and features co-branded materials with your logo and message within the first 90 days. This website will include up-to-date pricing on all eligible products. The City of Mesa and OMNIA Partners Participating Public Agencies access the information they need when they need it and benefit from real-time updates to inventory and prices.

Co-branded Marketing Materials

iii. Design, publication and distribution of co-branded marketing materials within first 90 days

Upon contract award, CDW•G will conduct a collaborative kick-off meeting with OMNIA Partners and CDW•G stakeholders dedicated to developing our go-to-market strategy, including the development and distribution of co-branded marketing materials within the first 90 days.

Our standard contract launch process includes developing collateral to promote contract awareness and education among internal and external stakeholders. Content will focus on the administrative and strategic value of utilizing this agreement. Specifically, we will highlight the convenience of the online portal, changes between this agreement and the previous, as well as the cost and time savings associated with consolidating transactional procurement needs by leveraging the new agreement.

Possible outlets to disseminate content include our internal Corporate Communications, our Public Sector Publications (State Tech & Ed Tech), a sale-led communications campaign, and Social Media. We use Twitter, Facebook, and LinkedIn as avenues for marketing, education, updates, and general communication with customers. Active social media helps customers stay informed with links, posts, and articles of interest in the way that they choose to receive information. We also maintain an internal group focused on submitting and curating social media content called the Social Squad; members of the Social Squad are encouraged to submit content on a number of topics, including industry news, products and deals, emerging technologies, product launches, featured partners, and more.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

We are able and willing to participate in co-branding marketing opportunities with the City of Mesa and OMNIA Partners. For instance, we can continue to include our co-branded logo to include in social media advertisements, the agreement's customized Premium Page, customer-facing digital and print one-pagers, and customer-facing emails.

Trade Show and NIGP Annual Form Commitment

iv. Commitment to attendance and participation with OMNIA Partners at national (i.e. NIGP Annual Forum, NPI Conference, etc.), regional (i.e. Regional NIGP Chapter Meetings, Regional Cooperative Summits, etc.) and supplier-specific trade shows, conferences and meetings throughout the term of the Master Agreement

v. Commitment to attend, exhibit and participate at the NIGP Annual Forum in an area reserved by OMNIA Partners for partner suppliers. Booth space will be purchased and staffed by Supplier. In addition, Supplier commits to provide reasonable assistance to the overall promotion and marketing efforts for the NIGP Annual Forum, as directed by OMNIA Partners.

CDW•G has enjoyed participating in the NIGP Annual Forum in past years and will strive to participate with commercially reasonable efforts. We believe in the mission to "develop, support and promote public procurement" and look forward to sharing our best practices with other non-competing OMNIA Partners vendors.

Advertising

vi. Design and publication of national and regional advertising in trade publications throughout the term of the Master Agreement

CDW•G will advertise the contract in our own highly viewed publications and our contract-specific email campaign. We will continue to promote the contract via avenues such as our EdTech and State Tech publication sites, as well as CoSN, EDUCAUSE, NASCIO, and NASTD.

Ongoing Marketing and Promotions

vii. Ongoing marketing and promotion of the Master Agreement throughout its term (case studies, collateral pieces, presentations, promotions, etc.)

CDW•G will market and promote the contract through various avenues, such as announcements in our publications, email campaigns, and on the contract's CDW•G premium page. We look forward to working with OMNIA Partners to develop our marketing strategies utilizing our current monthly cadence to discuss specific goals/targets for the new contract.

OMNIA Premium Page

viii. Dedicated OMNIA Partners internet web-based homepage on Supplier's website with:

- *OMNIA Partners standard logo;*
- *Copy of original Request for Proposal;*
- *Copy of Master Agreement and amendments between Principal Procurement Agency and Supplier;*
- *Summary of Products and pricing;*
- *Marketing Materials*
- *Electronic link to OMNIA Partners' website including the online registration page;*
- *A dedicated toll-free number and email address for OMNIA Partners*

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Figure 21. OMNIA Partners' Premium Page

CDW•G currently hosts a dedicated web page for our OMNIA agreements: www.cdwg.com/omniapartners. This site includes all contract documentation, marketing materials, products and pricing, and relevant links.

Upon award, we will update the premium page to reflect updated contract pricing and terms.

The updated Premium Page will include the following:

- The City of Mesa and/or OMNIA Partners standard logo
- Copy of original Request for Proposal
- Copy of Master Agreement and amendments between Principal Procurement Agency and Supplier
- Summary of products and pricing
- Marketing materials
- An electronic link to OMNIA Partners' website, including the online registration page
- A dedicated toll-free number and email address for the City of Mesa and/or OMNIA Partners

Our team will review the tailoring of our current Premium Page with the OMNIA Partners team to ensure that the dedicated webpage meets all of the Participating Public Agencies' needs.

Transition Plan

C. Describe how Supplier will transition any existing Public Agency customers' accounts to the Master Agreement available nationally through OMNIA Partners. Include a list of current cooperative contracts (regional and national) Supplier holds and describe how the Master Agreement will be positioned among the other cooperative agreements.

The current contract vehicle is a critical component of CDW•G's contracting portfolio. Some Participating Public Agencies' specific agreements under the current contract are sole source and others have statewide adoption. This approach has enabled us to market and increase adoption of the contract significantly. CDW•G currently holds a significant number of cooperative

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

purchasing contracts, including OMNIA Partners, Public Sector (fkna NIPA), Association of Educational Purchasing Agencies (AEPA), and Sourcewell (fkna NJPA). CDW•G's approach is solutions-focused and focused on providing consultation to assist our customers. Some customers mandate use of a specific agreement; in other instances, we work in offering the various contracting options best suited for their specific procurement needs. With all public nationwide contracts, we have maintained the transparency of our contract portfolio to our customers. CDW•G continues to prove without a doubt that we can keep our commitment to making this contract prosperous amongst our portfolio of offerings.

Under our existing contract with the City of Mesa, we have adoption within all 50 states and utilization by 900 State Agencies, 6,750 Local Government entities, 1,400 Higher Education entities, and 2,300 K-12 entities. Of these entities, we have successfully built and launched over 92 Participating Public Agency-specific agreements.

Additionally, in 2024, we are building a formal plan with OMNIA Partners by aligning our strategic accounts with the OMNIA Partners sales team to build additional formal adoption of the City of Mesa contract. We have transitioned a number of customers and their solicitation opportunities to OMNIA Partners contracts in the form of participating agreements, taking into account the best interest of the customer. We continue to examine opportunities for underpenetrated or net new customers to increase adoption of the contract.

Logo Usage

D. Acknowledge Supplier agrees to provide its logo(s) to OMNIA Partners and agrees to provide permission for reproduction of such logo in marketing communications and promotions. Acknowledge that use of OMNIA Partners logo will require permission for reproduction, as well.

CDW•G acknowledges and agrees to provide its logo(s) to OMNIA Partners, Public Sector and agrees to provide permission for reproduction of such logo in marketing communications and promotions. We additionally acknowledge that use of OMNIA Partners logo requires permission for reproduction, as well.

The core component of CDW•G's brand identity is its corporate logo; therefore, we ask that you carefully consider the following guidelines when using it.

When using the CDW•G logo, you agree to the following:

- You may use the logo(s) only in the exact form provided by CDW•G and only to accurately and actively link from a website that is under your control to the home page of CDW.com (or another address provided by CDW•G) and for no other purpose.
- You may not incorporate the logo(s) into any other logo or design.
- You may not to use the logo(s) in a way that suggests that you or your company or products are affiliated with CDW•G or its products or services in any way.
- You may not display the logo(s) on any website that disparages CDW•G or its products or services, infringes any CDW•G intellectual property or other rights, or violates any law or regulation.
- No other logo or design element should appear within 0.5 inches of the CDW•G logo.
- You may not frame or alter the CDW•G website in any way.
- At CDW•G's direction, you will immediately remove the logo(s).
- Your limited right to use the logo(s) does not constitute a grant of any other right or license. All other rights are reserved by CDW•G.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- CDW•G disclaims all warranties, express and implied, regarding the logo(s), including warranties against infringement. You agree to indemnify CDW•G from and against any and all claims and liabilities arising out of your use of the logo(s).

Sales Initiatives

E. Confirm Supplier will be proactive in direct sales of Supplier's goods and services to Public Agencies nationwide and the timely follow up to leads established by OMNIA Partners. All sales materials are to use the OMNIA Partners logo. At a minimum, the Supplier's sales initiatives should communicate:

i. Master Agreement was competitively solicited and publicly awarded by a Principal Procurement Agency

ii. Best government pricing

iii. No cost to participate

iv. Non-exclusive

CDW•G confirms we will be proactive in direct sales to OMNIA Partners Participating Public Agencies nationwide.

We are happy to create a contract announcement flyer with the new contract information. We would like to further discuss the inclusion of II and IV and will revise our marketing pieces to include a mutually agreeable message that best represents the value of the contract that is in the best interest for our customers.

Sales Training

F. Confirm Supplier will train its national sales force on the Master Agreement. At a minimum, sales training should include:

i. Key features of Master Agreement

ii. Working knowledge of the solicitation process

iii. Awareness of the range of Public Agencies that can utilize the Master Agreement through OMNIA Partners

iv. Knowledge of benefits of the use of cooperative contracts

CDW•G acknowledges and complies with the above requirement. CDW•G's Program Manager, Ty Robles, will work directly with our sales leadership, the City of Mesa, and OMNIA Partners to develop and execute a training program for our sales force. Training content will address all of these elements. Our sellers will then be equipped with relevant collateral to communicate with customers the value and ease of procurement that we know OMNIA Partners provides. Curriculum development, trainings, and collateral creation will be completed within 90 days of contract award.

At a minimum, training will include the following topics:

I. Key features of Master Agreement
II. Working knowledge of the solicitation process
III. Awareness of the range of Public Agencies that can utilize the Master Agreement through OMNIA Partners
IV. Knowledge of benefits of the use of cooperative contracts

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Dedicated Team

Sales Structure

H. Describe in detail how Supplier's national sales force is structured, including contact information for the highest-level executive in charge of the sales team.

CDW•G utilizes a sales force has the resources to work with multiple entities simultaneously, including the City of Mesa and OMNIA Partners' Participating Public Agencies. CDW•G was formed in 1998 to create a company with an **exclusive public sector focus**. Our customers have access to regionally based, segment-focused, dedicated teams to help ensure CDW•G meets all their needs while supporting their vision and mission. CDW•G is never satisfied with the status quo in our delivery of technology solutions and services. With a foundation of transparent and open communication, our account and program management teams work with customers to identify potential improvements and solicit and act on candid feedback. It is through this regular exchange that we share lessons learned, new strategies, and best practices across our customer base.

We have a large manufacturer presence in our offices across the country and are blanketed in the field with our field account executives. To provide each OMNIA Partners Participating Public Agency with one contact who is knowledgeable of every nuance of your organizations, Account Teams are further segmented by agency type, Education (K-12/High Ed) or Government. This allows us to provide each customer with one contact who is knowledgeable of every nuance of their organization. Account Teams often consist of an Account Manager (AM) and their Sales Manager, as well as an Advanced Technology Account Executive (ATAE) and their Field Sales Manager. Together, AMs, ATAEs, and their respective managers are led by Sales Directors, also segmented by region and vertical.

AMs and ATAEs represent different roles and responsibilities, working in concert to ensure that their customers' needs are met. ATAEs are located in market, often arranging on-site visits and are assigned to accounts that may have an emphasis on professional services.

Expertise in Each Sector

CDW•G customer teams are built from the ground up with clearly defined roles, responsibilities, and escalation paths – all sharing a common goal of exceptional customer service and

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

satisfaction. Dedicated account teams serve their customers with exemplary service and customer satisfaction across State agencies, local governments, and municipalities; public and private school districts / K-12; and institutions of higher education. This segmentation allows a singular focus for each team and delivers a customized measure of support specific to each customer. Our teams are responsible for quotes, orders, pre-and post-sales consultation, and issue resolution over the life of the contract. Graphics that illustrate our sales organization are provided below.

Each segment is further broken down by region and supported by local offices across the country. This regional, state, and local focus gives dedicated CDW•G Account Managers the opportunity to do the following:

- Form meaningful long-term relationships with customers
- Intimately understand their requirements, budgets, and user community
- Proactively provide an exceptional customer experience

State and Local Government

CDW•G's state and local government sales team is 250 coworkers strong, serving the 50 states, from the largest state agencies to the smallest rural community. Each state has a dedicated team assigned to ensure that each agency feels heard with personalized customer service.

K-12 (Public and Private School Districts)

Our K-12 sales team consists of 400 coworkers. CDW•G is one of the largest K-12 technology solutions providers and is a trusted IT partner to more than 15,000 K-12 districts. Our education strategists and learning environment advisors are former educators, principals, professors, chief technology officers, and instructional technologists focused on addressing the unique needs and requirements in partnership with the world's leading IT innovators. Our K-12 team includes regional managers, Advanced Technology Account Executives, Solution Architects, Education Strategists, and dedicated Account Managers.

Higher Education

CDW•G's higher education sales team has approximately 198 coworkers across the US dedicated to the higher education industry that understand the needs, challenges, and market best practices. We have 50+ student interns across college and university campuses, who we train and develop for post-graduate career paths to thrive in the workplace. Our team has business relationships with approximately 3,000 colleges and universities, allowing us to understand challenges and map those to success.

Public Safety Team

We understand that the City of Mesa and OMNIA Partners Participating Public Agencies have a mission to safeguard the public; our mission is to help you do it. We have a specialized practice devoted to public safety issues, our Public Safety Team, with thousands of engagements and over a decade of dedicated experience. CDW•G's Public Safety experts work with police, fire, emergency management, and EMS departments to design and deliver complete solutions from hand-held, ruggedized devices with the latest security and other software to custom displays and other technology for command centers.

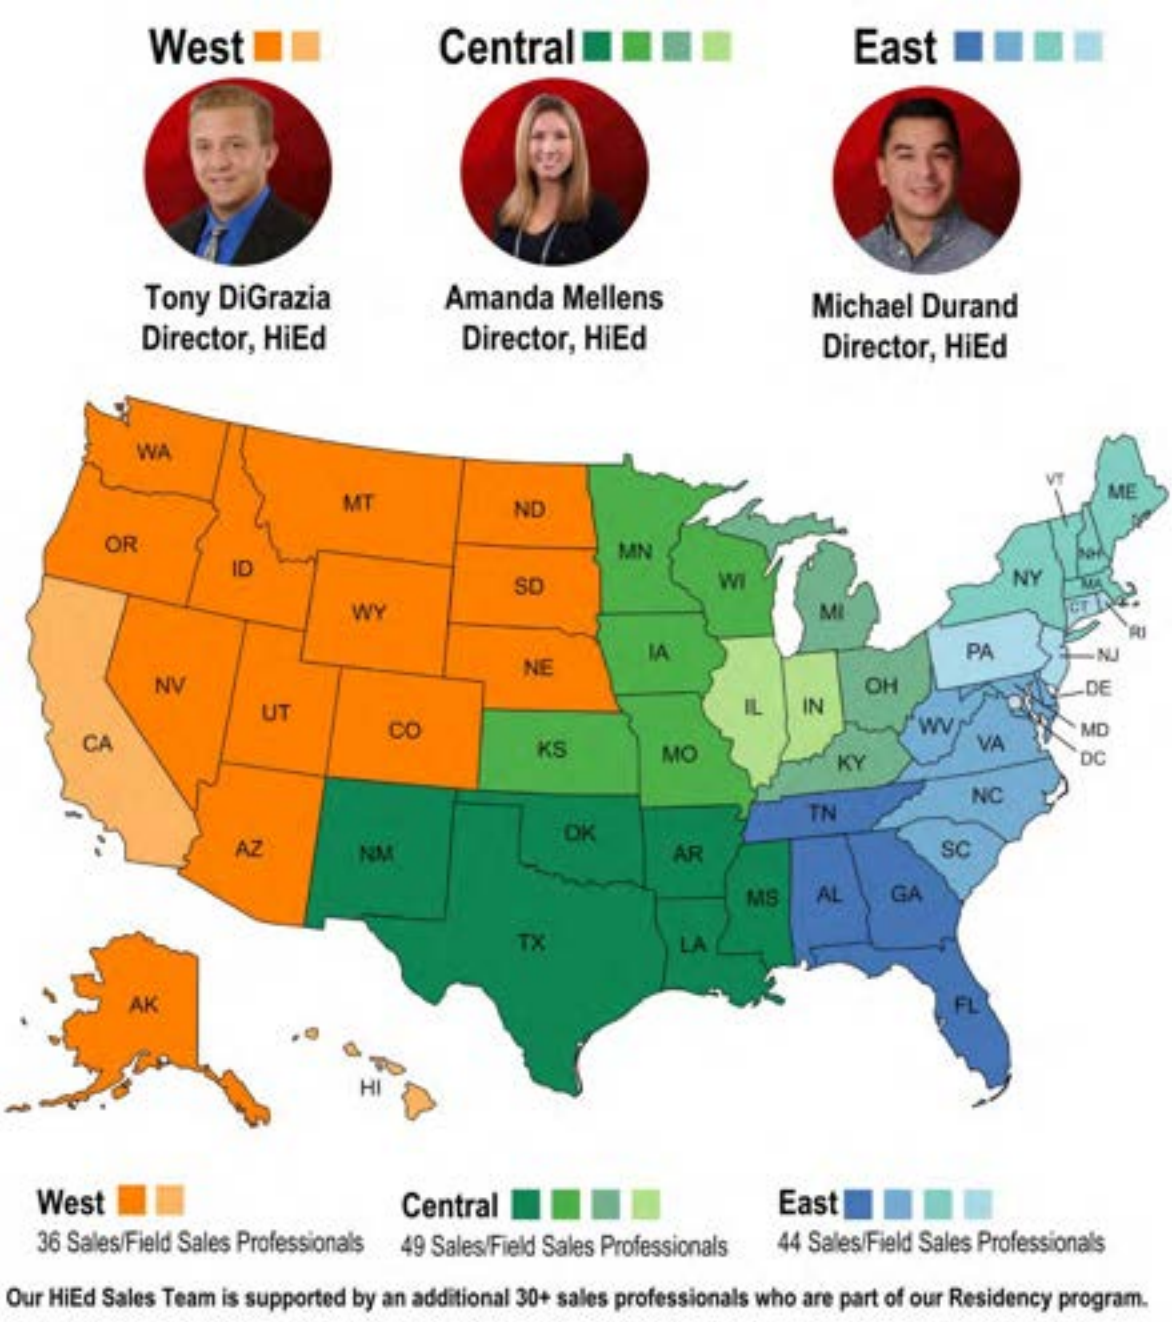

Figure 24. Higher Ed Sales Team Organization

Our Approach

One clear advantage of the CDW•G approach is the opportunity for each Account Manager to be an expert within their sector, enabling them to respond to the very specific needs of the City of Mesa and OMNIA Partners' Participating Public Agencies.

- State and local Account Managers follow developing legislation and understand local procurement requirements and their impact on the ability to deliver robust solutions.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- Account Managers in education understand the unique impact of the Family Educational Rights and Privacy Act and other privacy laws on technology solutions and services.
- Education Strategists have the background knowledge and experience in helping districts win competitive grants.

With roughly 1,900 CDW•G coworkers, supported by more than 12,000 coworkers throughout the entirety of CDW, our segment and regional focus help ensure that our account teams are best prepared to support the local landscape in a way unmatched by other suppliers.

Sales Organization

As mentioned above, Account Teams are organized geographically, enhancing their knowledge of the local landscape, including key partnerships and local practices for contracting. Supporting our Account Teams are technology specialists and engineers, including segment-specific experts like our K-12 Education Strategists. All of these coworkers will act as an extension of our Account Teams in support of the City of Mesa and each OMNIA Partners' Participating Public Agency. Through their expertise in specific solution sets, our subject matter experts advise the City and OMNIA Partners Participating Public Agencies on technology to make informed decisions in support of mission-critical objectives.

The CDW•G customer support models start with our Account Managers. As part of the CDW•G Experience, we organize our sales force differently from other companies to best serve the City of Mesa and OMNIA Partners Participating Public Agencies. First, our Account Managers are trained to become experts within the public sector segment they support: K-12, Higher Education, State and Local government, Federal government, and Healthcare. The advantage is that they can address the very specific needs of their unique customers. To further equip our Account Managers to support the City of Mesa and OMNIA Partners Participating Public Agencies, CDW•G divides the salesforce into distinct geographic regions to ensure that sellers are prepared to support the local landscape.

Your CDW•G Account Manager maintains the overall responsibility for coordinating resources to achieve the highest standards of customer service. CDW•G Account Managers, their supporting product specialists, and their sales managers understand the current technology trends and are specialized to only work with public-sector customers. This is one of the great benefits of partnering with CDW•G. The City of Mesa and OMNIA Partners Participating Public Agencies will have access to much more than a single resource; they will also have access to an entire sales and support team ready to address any agency's need. CDW•G, from the executive level down to your Account Manager, is focused on ensuring that the City of Mesa and OMNIA Partners Participating Public Agencies' needs are consistently and satisfactorily met.

Highest Level Executives

Ben Bourbon, Vice President of Government Sales, and Joe Simone, Vice President of Education Sales, are high-level, accessible points of contact focused on the success of this agreement.

Contact information for the highest level of the executive sales team is as follows:

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Implementation

I. Explain in detail how the sales teams will work with the OMNIA Partners team to implement, grow and service the national program.

The City of Mesa and OMNIA Partners Participating Public Agencies' first point of contact with CDW•G is their dedicated account manager. As such, we understand how critical it is for our account managers to understand the scope and benefits of the OMNIA agreement. In conjunction with the technical trainings offered to our CDW•G account teams, our Program Management team will train our sales teams regarding the OMNIA agreement with CDW•G. The diverse nature of our training program gives each account team confidence to support OMNIA Partners through the entire sales cycle from project inception, purchase, solution deployment, and post-sale support. Our account teams clearly and concisely deliver the value of the OMNIA Partners agreement to non-members helping to drive increased adoption and contract growth.

Public sector customers are seeking a digital platform for quick and simple procurement of transactional items. CDW•G Account Managers, across all segments and regions nationwide, will be poised and prepared to guide and educate members on this procurement option.

Tenured CDW•G Account Managers are actively marketing the current City of Mesa OMNIA agreement to customers and are very familiar with its benefits, including product categories, administrative fee structure, and flexibility. While there will be subsequent trainings upon award, this contract will easily be added to our account manager's repertoire. The ramp up time for our account managers will be far quicker than account managers who lack such familiarity with OMNIA agreements.

In addition to our Account Managers, our Business Development team, including Mark Ellis, Elysse Wayman, Jason Schwartz, and Chris Webb, is actively engaged with OMNIA Regional Managers and leaders in Partner Development and Strategic Accounts to review the state of our joint business, develop growth goals and strategies and execute prescriptively to drive business the OMNIA Partners portfolio. This new contract will fit seamlessly into the overall program allowing us to quickly develop and expand contract usage utilizing a proven model.

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

Program Management

I. Explain in detail how Supplier will manage the overall national program throughout the term of the Master Agreement, including ongoing coordination of marketing and sales efforts, timely new Participating Public Agency account set-up, timely contract administration, etc.

This contract will continue to be led by your Program Manager, Ty, with the full support of the Program Management Team, ensuring contract compliance and administering contract procedures, including contract launch. We use proprietary tools for pricing, account setup, and other contract lifecycle management activities to ensure compliance and seamless use of the contract for OMNIA Partners Participating Public Agencies. As an incumbent, we believe the transition efforts will be minimal and provide a better experience for the City and OMNIA PPA. We have quality assurance tools to ensure timely reporting, fee payments and other contractual obligations. In addition, we have monthly meetings with OMNIA and any issues will be addressed in an expedient manner.

Upon award, the City of Mesa and OMNIA Partners' CDW•G's Program Manager, Ty Robles, will work directly with the City of Mesa and OMNIA Partners to stand-up all aspects of the new agreement within our system (e.g., member lists, pricing, reporting, fee schedules, and other compliance requirements). We will load the contract structure into our internal contract editor system, which will then update the information on the City of Mesa and OMNIA Partners' premium page; this page will reflect the contracted price. Due to our robust systems, pricing is dynamically and systematically managed requiring little to no manual intervention.

After contract launch, the Program Management team is responsible for adding new members to the contract by linking their account to the new contract. We review the OMNIA members list in a frequent cadence to ensure new members, are offered the contract, as applicable. Contract stand-up also includes creation of internal and external resources to aid our customers and sales teams in transitioning to the new Agreement. Additionally, Ty and the Program Management team will continue to ensure all sales reporting and administrative fees are provided accurately and on time.

Our ongoing marketing efforts will include the previously discussed topics – i.e., training, publications, attendance at events – to ensure this contract is continually being marketed from contract launch through completion.

Public Sales

J. State the amount of Supplier's Public Agency sales for the previous fiscal year. Provide a list of Supplier's top 10 Public Agency customers, the total purchases for each for the previous fiscal year along with a key contact for each.

To protect our customers' privacy, CDW•G does not release a list of our current or former customers or the financial information of our customers. Below, we have provided a list of our Top 10 OMNIA Customers in alphabetical order. Please refer to the monthly reporting that CDW•G submits to OMNIA Partners for revenue details.

Our 2022 Top Public Agency OMNIA Customers are as follows:

- City of Mesa
- City of Palm Beach
- Clark County
- Collier City
- Kern County High School District

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

- New York City Agencies
- State of Nevada
- University of California – Berkeley
- University of California – Los Angeles (UCLA)
- University of California – San Francisco

Order Management

K. Describe Supplier's information systems capabilities and limitations regarding order management through receipt of payment, including description of multiple platforms that may be used for any of these functions.

eCommerce Platform – Web based

Your customizable CDW•G web portal is available to authorized users 24 hours per day, provides real-time information, and facilitates researching, ordering, and tracking purchases. Whether you are a first time shopper or an existing customer of CDW•G, we can ensure your order routes to the appropriate account management team that supports the shoppers entity, based on the contract being used.

eProcurement Platform – Punch Out Catalog

As a company, CDW•G is highly experienced in implementing B2B solutions. Since 2001, we have integrated with over 9,000 entities (13,000 customers) and work with over 80 different marketplaces, ERPs and SRMs. Our in-house staff of over 200 IT personnel are dedicated solely to our web, internal, and e-commerce IT systems. Our mature e-procurement practice also means the City of Mesa and OMNIA Partners Participating Public Agencies won't have long to wait to begin using your system. By integrating quicker than our competitors, CDW•G simplifies procurement for eProcurement customers by allowing them to buy IT the way they need based on their specific requirements. CDW•G's punch out offers the shopper dynamic price offerings, product information and availability while providing industry standard information back into our customers e-procurement platform, such as UNSPSC and contract information. CDW•G can support customers who wish to utilize the City of Mesa award(s) through an eProcurement platform.

Application Programming Interface (API)

CDW•G can review customer specific requests where order process automation is needed, but further customization is required. This process may include technologies such as JSON or SFTP, but may be accommodated based upon the scope of the project.

OPUS Integration

Currently, CDW•G is working on integrating OMNIA Partners' new eProcurement tool, OPUS. Once completed, this integration will allow OMNIA Partners Participating Public Agencies to utilize the OMNIA Partners eProcurement tool to shop and buy off our City of Mesa, OMNIA Partners contract, should we be awarded.

Contract Sales

L. Provide the Contract Sales (as defined in Section 12 of the OMNIA Partners Administration Agreement) that Supplier will guarantee each year under the Master Agreement for the initial three years of the Master Agreement ("Guaranteed Contract Sales").

© CDW Government LLC 2023 | 230 N. Milwaukee Ave. | Vernon Hills, IL 60061

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

$_____.00 in year one

$_____.00 in year two

$_____.00 in year three

To the extent Supplier guarantees minimum Contract Sales, the Administrative Fee shall be calculated based on the greater of the actual Contract Sales and the Guaranteed Contract Sales.

While we cannot provide guaranteed minimum contract sales, CDW•G has a proven record of winning and growing OMNIA agreements, and we have the resources needed to do so. The table below demonstrates our ability to grow this contract. Please refer to the monthly reporting that CDW•G submits to OMNIA Partners for specific revenue details.

Year	Growth
2018	N/A
2019	7.67% YoY
2020	3.37% YoY
2021	59.93% YoY
2022	3.43% YoY

Solicitation Strategy

M. Even though it is anticipated many Public Agencies will be able to utilize the Master Agreement without further formal solicitation, there may be circumstances where Public Agencies will issue their own solicitations. The following options are available when responding to a solicitation for Products covered under the Master Agreement.

i. Respond with Master Agreement pricing (Contract Sales reported to OMNIA Partners).

ii. If competitive conditions require pricing lower than the standard Master Agreement not-to-exceed pricing, Supplier may respond with lower pricing through the Master Agreement. If Supplier is awarded the contract, the sales are reported as Contract Sales to OMNIA Partners under the Master Agreement.

iii. Respond with pricing higher than Master Agreement only in the unlikely event that the Public Agency refuses to utilize Master Agreement (Contract Sales are not reported to OMNIA Partners).

iv. If alternative or multiple proposals are permitted, respond with pricing higher than Master Agreement, and include Master Agreement as the alternate or additional proposal.

Detail Supplier's strategies under these options when responding to a solicitation.

As an impartial solutions provider, our first and primary goal is to serve the needs of the customer from a technology and procurement perspective. We act in a consultative, objective manner to aid customers in developing the procurement strategy to best fit their needs. In honoring this commitment, we have maintained the transparency of our contract portfolio to our customers and negotiated the removal of language such as "most favored customer" and other requirements.

We commend the City of Mesa and OMNIA Partners for creating a contract vehicle to facilitate easy transactional buying at competitive pricing for its users. We certainly see the strategic fit this contract demonstrates within the SLED, Healthcare, and Not for Profit segments, and we

To the extent allowable, all information and documents hereby submitted in response to the Request for Proposal ("RFP") furnished by the City of Mesa are the Proprietary and Confidential property of CDW Government LLC ("CDW•G").

will continue to prominently position the benefits of this agreement, and how it best suits customers' procurement needs.

When responding to a solicitation that directly disclaims the terms and conditions of this Master Agreement, we will comply with all appropriate contractual terms. Subject to applicable law, CDW•G represents that under this Agreement, it will make reasonable commercial efforts to offer prices that are competitive with the prices. CDW•G offers to similarly situated customers purchasing a comparable volume of the similar products within the same timeframe and under the same terms and conditions.

World-class training accelerates project success.

CDW training maximizes your technology ROI.

Every techno ogy so ut on you dep oy performs better when your teams have the know edge and sk s to run them to the r fu est capac ty That s why **training is one of the smartest investments you can make to support your digital transformation, security, and enterprise technology projects.**

New enterpr se techno ogy projects requ re new sk s and **teams with relevant training on the full functionality of critical platforms achieve the strongest outcomes.**

CDW tra n ng perfect y a gns the tra n ng needs of your workforce w th the goa s of your techno ogy projects to ensure your team has the exact sk s they need to support and opt m ze your tech stack ong term

Research has shown that dedicating an extra 1.5 percent of a project's total budget to training can increase success rates by up to 30 percent.

Training elevates employee satisfaction and retention.

Tu nove hu ts n an env onment whe e find ng good wo ke s s nc eas ng y cha eng ng **it's paramount to keep your employees satisfied — and that's another reason training is essential:**

- 72% of T wo ke s a e ve y o ext eme y nte ested n t a n ng to upg ade the sk s — the h ghest pe centage of a occupat ons su veyed
- 71% of wo ke s who ecent y comp eted upsk ng ag ee t had a pos t ve mpact on job sat sfact on The job sat sfact on s 21% h ghe than wo ke s who had not pa t c pated n upsk ng

OFFENSIVE AND DEFENSIVE CYBERSECURITY CS 101

Intro to Security Analysis

Most professionals are aware of the importance their jobs play in securing an organization but many are not adequately trained in this important function and may not know where to begin This hands on course gives a jumpstart into the analysis of network intrusions compromised hosts and malware Students will learn what common attacks look like how to track and analyze malicious activity and what mitigation steps should be taken

2 2-day course

Challenge Level 2

Key Outcomes

Successful completion of this course will enable students to

- Profile/baseline the hosts services and activity in a computer network
- Perform use-level attribution of unwanted activity in a network
- Compare observed network traffic to expected topology
- Identify and observe the core components of an operating system
- Conduct basic behavioral analysis of malware on a running Windows system

Prerequisites

A background in IT

A basic understanding of TCP/IP networking

Basic experience with Windows administration and/or the Sysinternals Suite

Capstone Exercise

Individual lab exercises

Pricing

USD	$1900
Learning Credits	2

OFFENSIVE AND DEFENSIVE CYBERSECURITY CT 200

Phishing Investigation

Th s c ass teaches new secur ty ana ysts the bas cs of respond ng to ph sh ng attempts Students w start w th a pr mer n command ne bas cs and network flow concepts then earn how to reconstruct the path taken by ema s how to ana yze ema headers for secur ty ssues how to generate nd cators of comprom se from susp c ous ema s and what the effects can be from a successfu ph sh on systems and networks

3 3-day course

Cha enge eve 2

DATA SCIENCE AND ANALYTICS DS 200

R Programming for Data Science and Analytics

R Programming for Data Science and Analytics examines components of a statistical programming environment and enables students to describe general programming language concepts as they are implemented in R. The course focuses on the basics of statistical computing which includes programming in R, reading data into R, accessing R packages, writing R functions, and visualizing data with R.

3-day course

Challenge level 3

24 CPE/CEU credits

Key Outcomes

Successful completion of this course will enable students to

- Identify and define R programming variables, types, objects, scalars, vectors, and matrices
- Perform string and text manipulation in R
- Identify and employ R lists and functions
- Use R data frames and file I/O
- Read data from files and perform data preparation
- Perform data visualization using a range of plotting functions
- Use Dplyr for data exploration
- Create statistical models with R
- Use near and logistic regressions

Prerequisites

Students should have intermediate-level experience in the field and prior experience working with programming languages.

Exhibit F
Federal Funds Certifications

FEDERAL CERTIFICATIONS
ADDENDUM FOR AGREEMENT FUNDED BY U.S. FEDERAL GRANT

TO WHOM IT MAY CONCERN:

Participating Agencies may elect to use federal funds to purchase under the Master Agreement. This form should be completed and returned.

DEFINITIONS

Contract means a legal instrument by which a non–Federal entity purchases property or services needed to carry out the project or program under a Federal award. The term as used in this part does not include a legal instrument, even if the non–Federal entity considers it a contract, when the substance of the transaction meets the definition of a Federal award or subaward

Contractor means an entity that receives a contract as defined in Contract.

Cooperative agreement means a legal instrument of financial assistance between a Federal awarding agency or pass-through entity and a non–Federal entity that, consistent with 31 U.S.C. 6302–6305:

(a) Is used to enter into a relationship the principal purpose of which is to transfer anything of value from the Federal awarding agency or pass-through entity to the non–Federal entity to carry out a public purpose authorized by a law of the United States (see 31 U.S.C. 6101(3)); and not to acquire property or services for the Federal government or pass-through entity's direct benefit or use;

(b) Is distinguished from a grant in that it provides for substantial involvement between the Federal awarding agency or pass-through entity and the non–Federal entity in carrying out the activity contemplated by the Federal award.

(c) The term does not include:

(1) A cooperative research and development agreement as defined in 15 U.S.C. 3710a; or

(2) An agreement that provides only:

(i) Direct United States Government cash assistance to an individual;

(ii) A subsidy;

(iii) A loan;

(iv) A loan guarantee; or

(v) Insurance.

Federal awarding agency means the Federal agency that provides a Federal award directly to a non–Federal entity

Federal award has the meaning, depending on the context, in either paragraph (a) or (b) of this section:

(a)(1) The Federal financial assistance that a non–Federal entity receives directly from a Federal awarding agency or indirectly from a pass-through entity, as described in § 200.101 Applicability; or

(2) The cost-reimbursement contract under the Federal Acquisition Regulations that a non–Federal entity receives directly from a Federal awarding agency or indirectly from a pass-through entity, as described in § 200.101 Applicability.

(b) The instrument setting forth the terms and conditions. The instrument is the grant agreement, cooperative agreement, other agreement for assistance covered in paragraph (b) of § 200.40 Federal financial assistance, or the cost-reimbursement contract awarded under the Federal Acquisition Regulations.

(c) Federal award does not include other contracts that a Federal agency uses to buy goods or services from a contractor or a contract to operate Federal government owned, contractor operated facilities (GOCOs).

(d) See also definitions of Federal financial assistance, grant agreement, and cooperative agreement.

Non–Federal entity means a state, local government, Indian tribe, institution of higher education (IHE), or nonprofit organization that carries out a Federal award as a recipient or subrecipient.

Nonprofit organization means any corporation, trust, association, cooperative, or other organization, not including IHEs, that:

(a) Is operated primarily for scientific, educational, service, charitable, or similar purposes in the public interest;

(b) Is not organized primarily for profit; and

(c) Uses net proceeds to maintain, improve, or expand the operations of the organization.

Obligations means, when used in connection with a non–Federal entity's utilization of funds under a Federal award, orders placed for property and services, contracts and subawards made, and similar transactions during a given period that require payment by the non–Federal entity during the same or a future period.

Pass-through entity means a non–Federal entity that provides a subaward to a subrecipient to carry out part of a Federal program.

Recipient means a non–Federal entity that receives a Federal award directly from a Federal awarding agency to carry out an activity under a Federal program. The term recipient does not include subrecipients.

Simplified acquisition threshold means the dollar amount below which a non–Federal entity may purchase property or services using small purchase methods. Non–Federal entities adopt small purchase procedures in order to expedite the purchase of items costing less than the simplified acquisition threshold. The simplified acquisition threshold is set by the Federal Acquisition Regulation at 48 CFR Subpart 2.1 (Definitions) and in accordance with 41 U.S.C. 1908. As of the publication of this part, the simplified acquisition threshold is $250,000, but this threshold is periodically adjusted for inflation. (Also see definition of § 200.67 Micro-purchase.)

Subaward means an award provided by a pass-through entity to a subrecipient for the subrecipient to carry out part of a Federal award received by the pass-through entity. It does not include payments to a contractor or payments to an individual that is a beneficiary of a Federal program. A subaward may be provided through any form of legal agreement, including an agreement that the pass-through entity considers a contract.

Subrecipient means a non–Federal entity that receives a subaward from a pass-through entity to carry out part of a Federal program; but does not include an individual that is a beneficiary of such program. A subrecipient may also be a recipient of other Federal awards directly from a Federal awarding agency.

Termination means the ending of a Federal award, in whole or in part at any time prior to the planned end of period of performance.

The following provisions may be required and apply when Participating Agency expends federal funds for any purchase resulting from this procurement process. Per FAR 52.204-24 and FAR 52.204-25, solicitations and resultant contracts shall contain the following provisions.

52.204-24 Representation Regarding Certain Telecommunications and Video Surveillance Services or Equipment (Oct 2020)

The Offeror shall not complete the representation at paragraph (d)(1) of this provision if the Offeror has represented that it "does not provide covered telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument" in paragraph (c)(1) in the provision at 52.204-26, Covered Telecommunications Equipment or Services—Representation, or in paragraph (v)(2)(i) of the provision at 52.212-3, Offeror Representations and Certifications-Commercial Items. The Offeror shall not complete the representation in paragraph (d)(2) of this provision if the Offeror has represented that it "does not use covered telecommunications equipment or services, or any equipment, system, or service that uses covered telecommunications equipment or services" in paragraph (c)(2) of the provision at 52.204-26, or in paragraph (v)(2)(ii) of the provision at 52.212-3.

(a) *Definitions.* As used in this provision—

Backhaul, covered telecommunications equipment or services, critical technology, interconnection arrangements, reasonable inquiry, roaming, and substantial or essential component have the meanings provided in the clause 52.204-25, Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment.

(b) *Prohibition*.

(1) Section 889(a)(1)(A) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2019, from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. Nothing in the prohibition shall be construed to—

(i) Prohibit the head of an executive agency from procuring with an entity to provide a service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(ii) Cover telecommunications equipment that cannot route or redirect user data traffic or cannot permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(2) Section 889(a)(1)(B) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2020, from entering into a contract or extending or renewing a contract with an entity that uses any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. This prohibition applies to the use of covered telecommunications equipment or services, regardless of whether that use is in performance of work under a Federal contract. Nothing in the prohibition shall be construed to—

(i) Prohibit the head of an executive agency from procuring with an entity to provide a service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(ii) Cover telecommunications equipment that cannot route or redirect user data traffic or cannot permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(c) *Procedures.* The Offeror shall review the list of excluded parties in the System for Award Management (SAM) (https://www.sam.gov) for entities excluded from receiving federal awards for "covered telecommunications equipment or services".

(d) *Representation.* The Offeror represents that—

(1) It □ will, ☑ will not provide covered telecommunications equipment or services to the Government in the performance of any contract, subcontract or other contractual instrument resulting from this solicitation. The Offeror shall provide the additional disclosure information required at paragraph (e)(1) of this section if the Offeror responds "will" in paragraph (d)(1) of this section; and

(2) After conducting a reasonable inquiry, for purposes of this representation, the Offeror represents that—

It □ does, ☑ does not use covered telecommunications equipment or services, or use any equipment, system, or service that uses covered telecommunications equipment or services. The Offeror shall provide the additional disclosure information required at paragraph (e)(2) of this section if the Offeror responds "does" in paragraph (d)(2) of this section.

(e) *Disclosures.*

(1) Disclosure for the representation in paragraph (d)(1) of this provision. If the Offeror has responded "will" in the representation in paragraph (d)(1) of this provision, the Offeror shall provide the following information as part of the offer.

(i) For covered equipment—

(A) The entity that produced the covered telecommunications equipment (include entity name, unique entity identifier, CAGE code, and whether the entity was the original equipment manufacturer (OEM) or a distributor, if known);

(B) A description of all covered telecommunications equipment offered (include brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); and

(C) Explanation of the proposed use of covered telecommunications equipment and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(1) of this provision.

(ii) For covered services—

(A) If the service is related to item maintenance: A description of all covered telecommunications services offered (include on the item being maintained: Brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); or

(B) If not associated with maintenance, the Product Service Code (PSC) of the service being provided; and explanation of the proposed use of covered telecommunications services and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(1) of this provision.

(2) Disclosure for the representation in paragraph (d)(2) of this provision. If the Offeror has responded "does" in the representation in paragraph (d)(2) of this provision, the Offeror shall provide the following information as part of the offer:

(i) For covered equipment—

(A) The entity that produced the covered telecommunications equipment (include entity name, unique entity identifier, CAGE code, and whether the entity was the OEM or a distributor, if known);

(B) A description of all covered telecommunications equipment offered (include brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); and

(C) Explanation of the proposed use of covered telecommunications equipment and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(2) of this provision.

(ii) For covered services—

(A) If the service is related to item maintenance: A description of all covered telecommunications services offered (include on the item being maintained: Brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); or

(B) If not associated with maintenance, the PSC of the service being provided; and explanation of the proposed use of covered telecommunications services and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(2) of this provision.

52.204-25 Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment (Aug 2020).

(a) *Definitions.* As used in this clause—

Backhaul means intermediate links between the core network, or backbone network, and the small subnetworks at the edge of the network (*e.g.*, connecting cell phones/towers to the core telephone network). Backhaul can be wireless (e.g., microwave) or wired (*e.g.*, fiber optic, coaxial cable, Ethernet).

Covered foreign country means The People's Republic of China.

Covered telecommunications equipment or services means–

(1) Telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities);

(2) For the purpose of public safety, security of Government facilities, physical security surveillance of critical infrastructure, and other national security purposes, video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities);

(3) Telecommunications or video surveillance services provided by such entities or using such equipment; or

(4) Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or controlled by, or otherwise connected to, the government of a covered foreign country.

Critical technology means–

(1) Defense articles or defense services included on the United States Munitions List set forth in the International Traffic in Arms Regulations under subchapter M of chapter I of title 22, Code of Federal Regulations;

(2) Items included on the Commerce Control List set forth in Supplement No. 1 to part 774 of the Export Administration Regulations under subchapter C of chapter VII of title 15, Code of Federal Regulations, and controlled-

(i) Pursuant to multilateral regimes, including for reasons relating to national security, chemical and biological weapons proliferation, nuclear nonproliferation, or missile technology; or

(ii) For reasons relating to regional stability or surreptitious listening;

(3) Specially designed and prepared nuclear equipment, parts and components, materials, software, and technology covered by part 810 of title 10, Code of Federal Regulations (relating to assistance to foreign atomic energy activities);

(4) Nuclear facilities, equipment, and material covered by part 110 of title 10, Code of Federal Regulations (relating to export and import of nuclear equipment and material);

(5) Select agents and toxins covered by part 331 of title 7, Code of Federal Regulations, part 121 of title 9 of such Code, or part 73 of title 42 of such Code; or

(6) Emerging and foundational technologies controlled pursuant to section 1758 of the Export Control Reform Act of 2018 (50 U.S.C. 4817).

Interconnection arrangements means arrangements governing the physical connection of two or more networks to allow the use of another's network to hand off traffic where it is ultimately delivered (*e.g.*, connection of a customer of telephone provider A to a customer of telephone company B) or sharing data and other information resources.

Reasonable inquiry means an inquiry designed to uncover any information in the entity's possession about the identity of the producer or provider of covered telecommunications equipment or services used by the entity that excludes the need to include an internal or third-party audit.

Roaming means cellular communications services (*e.g.*, voice, video, data) received from a visited network when unable to connect to the facilities of the home network either because signal coverage is too weak or because traffic is too high.

Substantial or essential component means any component necessary for the proper function or performance of a piece of equipment, system, or service.

(b) *Prohibition*.

(1) Section 889(a)(1)(A) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2019, from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. The Contractor is prohibited from providing to the Government any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, unless an exception at paragraph (c) of this clause applies or the covered telecommunication equipment or services are covered by a waiver described in FAR 4.2104.

(2) Section 889(a)(1)(B) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2020, from entering into a contract, or extending or renewing a contract, with an entity that uses any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, unless an exception at paragraph (c) of this clause applies or the covered telecommunication equipment or services are covered by a waiver described in FAR 4.2104. This prohibition applies to the use of covered telecommunications equipment or services, regardless of whether that use is in performance of work under a Federal contract.

(c) *Exceptions.* This clause does not prohibit contractors from providing—

(1) A service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(2) Telecommunications equipment that cannot route or redirect user data traffic or permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(d) Reporting requirement.

(1) In the event the Contractor identifies covered telecommunications equipment or services used as a substantial or essential component of any system, or as critical technology as part of any system, during contract performance, or the Contractor is notified of such by a subcontractor at any tier or by any other source, the Contractor shall report the information in paragraph (d)(2) of this clause to the Contracting Officer, unless elsewhere in this contract are established procedures for reporting the information; in the case of the Department of Defense, the Contractor shall report to the website at https://dibnet.dod.mil. For indefinite delivery contracts, the Contractor shall report to the Contracting Officer for the indefinite delivery contract and the Contracting Officer(s) for any affected order or, in the case of the Department of Defense, identify both the indefinite delivery contract and any affected orders in the report provided at https://dibnet.dod.mil.

(2) The Contractor shall report the following information pursuant to paragraph (d)(1) of this clause

(i) Within one business day from the date of such identification or notification: the contract number; the order number(s), if applicable; supplier name; supplier unique entity identifier (if known); supplier Commercial and Government Entity (CAGE) code (if known); brand; model number (original equipment manufacturer number, manufacturer part number, or wholesaler number); item description; and any readily available information about mitigation actions undertaken or recommended.

(ii) Within 10 business days of submitting the information in paragraph (d)(2)(i) of this clause: any further available information about mitigation actions undertaken or recommended. In addition, the Contractor shall describe the efforts it undertook to prevent use or submission of covered telecommunications equipment or services, and any additional efforts that will be incorporated to prevent future use or submission of covered telecommunications equipment or services.

(e) *Subcontracts.* The Contractor shall insert the substance of this clause, including this paragraph (e) and excluding paragraph (b)(2), in all subcontracts and other contractual instruments, including subcontracts for the acquisition of commercial items.

The following certifications and provisions may be required and apply when Participating Agency expends federal funds for any purchase resulting from this procurement process. Pursuant to 2 C.F.R. § 200.326, all contracts, including small purchases, awarded by the Participating Agency and the Participating Agency's subcontractors shall contain the procurement provisions of Appendix II to Part 200, as applicable.

(A) Contracts for more than the simplified acquisition threshold currently set at $250,000, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

Pursuant to Federal Rule (A) above, when a Participating Agency expends federal funds, the Participating Agency reserves all rights and privileges under the applicable laws and regulations with respect to this procurement in the event of breach of contract by either party.

Does offeror agree? YES DB Initials of Authorized Representative of offeror

(B) Termination for cause and for convenience by the grantee or subgrantee including the manner by which it will be effected and the basis for settlement. (All contracts in excess of $10,000)

Pursuant to Federal Rule (B) above, when a Participating Agency expends federal funds, the Participating Agency reserves the right to immediately terminate any agreement in excess of $10,000 resulting from this procurement process in the event of a breach or default of the agreement by Offeror as detailed in the terms of the contract.

Does offeror agree? YES DB Initials of Authorized Representative of offeror

(C) Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60-1.3 must include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 CFR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

Pursuant to Federal Rule (C) above, when a Participating Agency expends federal funds on any federally assisted construction contract, the equal opportunity clause is incorporated by reference herein.

Does offeror agree to abide by the above? YES DB Initials of Authorized Representative of offeror

(D) Davis-Bacon Act, as amended (40 U.S.C. 3141-3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non - Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.

Pursuant to Federal Rule (D) above, when a Participating Agency expends federal funds during the term of an award for all contracts and subgrants for construction or repair, offeror will be in compliance with all applicable Davis-Bacon Act provisions.

Does offeror agree? YES DB Initials of Authorized Representative of offeror

(E) Contract Work Hours and Safety Standards Act (40 U.S.C. 3701-3708). Where applicable, all contracts awarded by

the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

Pursuant to Federal Rule (E) above, when a Participating Agency expends federal funds, offeror certifies that offeror will be in compliance with all applicable provisions of the Contract Work Hours and Safety Standards Act during the term of an award for all contracts by Participating Agency resulting from this procurement process.

Does offeror agree? YES DB Initials of Authorized Representative of offeror

(F) Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of "funding agreement" under 37 CFR §401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

Pursuant to Federal Rule (F) above, when federal funds are expended by Participating Agency, the offeror certifies that during the term of an award for all contracts by Participating Agency resulting from this procurement process, the offeror agrees to comply with all applicable requirements as referenced in Federal Rule (F) above.

Does offeror agree? YES DB Initials of Authorized Representative of offeror

(G) Clean Air Act (42 U.S.C. 7401-7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251-1387), as amended—Contracts and subgrants of amounts in excess of $150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251- 1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA)

In the event Federal Transit Administration (FTA) or Department of Transportation (DOT) funding is used by Participating Public Agency, Offeror also agrees to include Clean Air and Clean Water requirements in each subcontract exceeding $100,000 financed in whole or in part with Federal assistance provided by FTA.

Pursuant to Federal Rule (G) above, when federal funds are expended by Participating Agency, the offeror certifies that during the term of an award for all contracts by Participating Agency member resulting from this procurement process, the offeror agrees to comply with all applicable requirements as referenced in Federal Rule (G) above.

Does offeror agree? YES DB Initials of Authorized Representative of offeror

(H) Debarment and Suspension (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220) must not be made to parties listed on the government wide exclusions in the System for Award Management (SAM), in accordance with the Executive Office of the President Office of Management and Budget (OMB) guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), "Debarment and Suspension." SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

Pursuant to Federal Rule (H) above, when federal funds are expended by Participating Agency, the offeror certifies that during the term of an award for all contracts by Participating Agency resulting from this procurement process, the offeror certifies that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded

from participation by any federal department or agency. If at any time during the term of an award the offeror or its principals becomes debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation by any federal department or agency, the offeror will notify the Participating Agency.

Does offeror agree? YES DB Initials of Authorized Representative of offeror

(l) Byrd Anti-Lobbying Amendment (31 U.S.C. 1352)—Contractors that apply or bid for an award exceeding $100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

Pursuant to Federal Rule (l) above, when federal funds are expended by Participating Agency, the offeror certifies that during the term and after the awarded term of an award for all contracts by Participating Agency resulting from this procurement process, the offeror certifies that it is in compliance with all applicable provisions of the Byrd Anti-Lobbying Amendment (31 U.S.C. 1352). The undersigned further certifies that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure of Lobbying Activities," in accordance with its instructions.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

(3) The prospective participant also agrees by submitting his or her bid or proposal that he or she shall require that the language of this certification be included in all lower tier subcontracts, which exceed $100,000 and that all such subrecipients shall certify and disclose accordingly.

RECORD RETENTION REQUIREMENTS FOR CONTRACTS INVOLVING FEDERAL FUNDS

When federal funds are expended by Participating Agency for any contract resulting from this procurement process, offeror certifies that it will comply with the record retention requirements detailed in 2 CFR § 200.333. The offeror further certifies that offeror will retain all records as required by 2 CFR § 200.333 for a period of three years after grantees or subgrantees submit final expenditure reports or quarterly or annual financial reports, as applicable, and all other pending matters are closed.

CERTIFICATION OF COMPLIANCE WITH BUY AMERICA PROVISIONS

To the extent purchases are made with Federal Highway Administration, Federal Railroad Administration, or Federal Transit Administration funds, offeror certifies that its products comply with all applicable provisions of the Buy America Act and agrees to provide such certification or applicable waiver with respect to specific products to any Participating Agency upon request. Purchases made in accordance with the Buy America Act must still follow the applicable procurement rules calling for free and open competition. Additionally:

(1) The Contractor agrees to comply with 49 USC 5323(j) and 49 CFR Part 661, which provide that federal funds may not be obligated unless steel, iron and manufactured products used in FTA-funded projects are produced in the United States, unless a waiver has been granted by FTA or the product is subject to a general waiver. General waivers are listed in 49 CFR 661.7.A general public interest waiver from the Buy America requirements applies to microprocessors, computers, microcomputers, software or other such devices, which are used solely for the purpose of processing or storing data. This general waiver does not extend to a product or device that merely contains a microprocessor or microcomputer and is not used solely for the purpose of processing or storing data. Separate requirements for rolling stock are set out at 5323(j)(2)(C) and 49 CFR 661.11.

(2) A bidder or offeror must submit to the FTA recipient the appropriate Buy America certification with all bids on FTA-funded contracts, except those subject to a general waiver. Bids or offers that are not accompanied by a completed Buy America certification must be rejected as nonresponsive. This requirement does not apply to lower tier subcontractors.

The following certificates titled FTA and DOT Buy America Certification should be completed and returned with the response as part of FTA and DOT requirements.

COMMUNITY DEVELOPMENT BLOCK GRANTS

Purchases made under this contract may be partially or fully funded with federal grant funds. Funding for this work may include Federal Funding sources, including Community Development Block Grant (CDBG) funds from the U.S. Department of Housing and Urban Development. When such funding is provided, Offeror shall comply with all terms, conditions and requirements enumerated by the grant funding source, as well as requirements of the State statutes for which the contract is utilized, whichever is the more restrictive requirement. When using Federal Funding, Offeror shall comply with all wage and latest reporting provisions of the Federal Davis-Bacon Act. HUD-4010 Labor Provisions also applies to this contract.

Does offeror agree? YES DB Initials of Authorized Representative of offeror

Offeror agrees to comply with all federal, state, and local laws, rules, regulations and ordinances, as applicable. It is further acknowledged that offeror certifies compliance with all provisions, laws, acts, regulations, etc. as specifically noted above.

Offeror's Name:
CDW Government LLC

Address, City, State, and Zip Code:
230 N. Milwaukee Ave Vernon Hills IL, 60061

Phone Number: 813-462-4023 Fax Number: 847-419-6200

Printed Name and Title of Authorized Representative:
Dario Bertocchi - Vice President, Contracting Operations

Email Address:
darober@cdw.com

Signature of Authorized Representative: Date: December 15, 2023

FEMA AND ADDITIONAL FEDERAL FUNDING SPECIAL CONDITIONS

Awarded Supplier(s) (also referred to as Contractors) may need to respond to events and losses where products and services are needed for the immediate and initial response to emergency situations such as, but not limited to, water damage, fire damage, vandalism cleanup, biohazard cleanup, sewage decontamination, deodorization, and/or wind damage during a disaster or emergency situation. By submitting a proposal, the Supplier is accepted these FEMA and Additional Federal Funding Special Conditions required by the Federal Emergency Management Agency (FEMA) and other federal entities.

"Contract" in the below pages under FEMA AND ADDITIONAL FEDERAL FUNDING SPECIAL CONDITIONS is also referred to and defined as the "Master Agreement".

"Contractor" in the below pages under FEMA AND ADDITIONAL FEDERAL FUNDING SPECIAL CONDITIONS is also referred to and defined as "Supplier" or "Awarded Supplier".

Conflicts of Interest

No employee, officer, or agent may participate in the selection, award, or administration of a contract supported by a FEMA award if he or she has a real or apparent conflict of interest. Such a conflict would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of these parties, has a financial or other interest in or a tangible personal benefit from a firm considered for award. 2 C.F.R. § 200.318(c)(1); See also Standard Form 424D, ¶ 7; Standard Form 424B, ¶ 3. i. FEMA considers a "financial interest" to be the potential for gain or loss to the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of these parties as a result of the particular procurement. The prohibited financial interest may arise from ownership of certain financial instruments or investments such as stock, bonds, or real estate, or from a salary, indebtedness, job offer, or similar interest that might be affected by the particular procurement. ii. FEMA considers an "apparent" conflict of interest to exist where an actual conflict does not exist, but where a reasonable person with knowledge of the relevant facts would question the impartiality of the employee, officer, or agent participating in the procurement. c. Gifts. The officers, employees, and agents of the Participating Public Agency nor the Participating Public Agency ("NFE") must neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts. However, NFE's may set standards for situations in which the financial interest is de minimus, not substantial, or the gift is an unsolicited item of nominal value. 2 C.F.R. § 200.318(c)(1). d. Violations. The NFE's written standards of conduct must provide for disciplinary actions to be applied for violations of such standards by officers, employees, or agents of the NFE. 2 C.F.R. § 200.318(c)(1). For example, the penalty for a NFE's employee may be dismissal, and the penalty for a contractor might be the termination of the contract.

Contractor Integrity

A contractor must have a satisfactory record of integrity and business ethics. Contractors that are debarred or suspended, as described in and subject to the debarment and suspension regulations implementing Executive Order 12549, *Debarment and Suspension* (1986) and Executive Order 12689, *Debarment and Suspension* (1989) at 2 C.F.R. Part 180 and the Department of Homeland Security's regulations at 2 C.F.R. Part 3000 (Non-procurement Debarment and Suspension), must be rejected and cannot receive contract awards at any level.

Notice of Legal Matters Affecting the Federal Government

In the event FTA or DOT funding is used by Participating Public Agency, Contractor agrees to:

1) The Contractor agrees that if a current or prospective legal matter that may affect the Federal Government emerges, the Contractor shall promptly notify the Participating Public Agency of the legal matter in accordance with 2 C.F.R. §§ 180.220 and 1200.220.

2) The types of legal matters that require notification include, but are not limited to, a major dispute, breach, default, litigation, or naming the Federal Government as a party to litigation or a legal disagreement in any forum for any reason.

3) The Contractor further agrees to include the above clause in each subcontract, at every tier, financed in whole or in part with Federal assistance provided by the FTA.

Public Policy

A contractor must comply with the public policies of the Federal Government and state, local government, or tribal government. This includes, among other things, past and current compliance with the:
a. Equal opportunity and nondiscrimination laws
b. Five affirmative steps described at 2 C.F.R. § 200.321(b) for all subcontracting under contracts supported by FEMA financial assistance; and FEMA Procurement Guidance June 21, 2016 Page IV- 7
c. Applicable prevailing wage laws, regulations, and executive orders

Affirmative Steps

For any subcontracting opportunities, Contractor must take the following Affirmative steps:

1. Placing qualified small and minority businesses and women's business enterprises on solicitation lists;
2. Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources;
3. Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises;
4. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises; and
5. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.

Prevailing Wage Requirements

When applicable, the awarded Contractor (s) and any and all subcontractor(s) agree to comply with all laws regarding prevailing wage rates including the Davis-Bacon Act, applicable to this solicitation and/or Participating Public Agencies. The Participating Public Agency shall notify the Contractor of the applicable pricing/prevailing wage rates and must apply any local wage rates requested. The Contractor and any subcontractor(s) shall comply with the prevailing wage rates set by the Participating Public Agency.

Federal Requirements

If products and services are issued in response to an emergency or disaster recovery the items below, located in this FEMA Special Conditions section of the Federal Funds Certifications, are activated and required when federal funding may be utilized.

2 C.F.R. § 200.326 and 2 C.F.R. Part 200, Appendix II, Required Contract Clauses

1. CONTRACT REMEDIES

Contracts for more than the federal simplified acquisition threshold (SAT), the dollar amount below which an NFE may purchase property or services using small purchase methods, currently set at $250,000 for procurements made on or after June 20, 2018,4 must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms and must provide for sanctions and penalties as appropriate.

1.1 Applicability

This contract provision is required for contracts over the SAT, currently set at $250,000 for procurements made on or after June 20, 2018. Although not required for contracts at or below the SAT, FEMA suggests including a remedies provision.

1.2 Additional Considerations
For FEMA's Assistance to Firefighters Grant (AFG) Program, recipients must include a penalty clause in all contracts for any AFG-funded vehicle, regardless of dollar amount. In that situation, the contract must include a clause addressing that non-delivery by the contract's specified date or other vendor nonperformance will require a penalty of no less than $100 per day until such time that the vehicle, compliant with the terms of the contract, has been accepted by the recipient. This penalty clause should, however, account for force majeure or acts of God. AFG recipients should refer to the applicable year's Notice of Funding Opportunity (NOFO) for additional information, which can be accessed at FEMA.gov.

2. TERMINATION FOR CAUSE AND CONVENIENCE

a. Standard. All contracts in excess of $10,000 must address termination for cause and for convenience by the non-Federal entity, including the manner by which it will be effected and the basis for settlement. See 2 C.F.R. Part 200, Appendix II(B).

b. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs.

3. EQUAL EMPLOYMENT OPPORTUNITY

When applicable:

a. Standard. Except as otherwise provided under 41 C.F.R. Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 C.F.R.
§ 60-1.3 must include the equal opportunity clause provided under 41 C.F.R. § 60- 1.4(b), in accordance with Executive Order 11246**,** *Equal Employment Opportunity* (30 Fed. Reg. 12319, 12935, 3 C.F.R. Part, 1964-1965 Comp., p.

339), as amended by Executive Order 11375, *Amending Executive Order 11246 Relating to Equal Employment Opportunity*, and implementing regulations at 41
C.F.R. Part 60 (Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor). See 2 C.F.R. Part 200, Appendix II(C).

b. Key Definitions.

i. Federally Assisted Construction Contract. The regulation at 41 C.F.R. § 60-1.3 defines a "federally assisted construction contract" as any agreement or modification thereof between any applicant and a person for construction work which is paid for in whole or in part with funds obtained from the Government or borrowed on the credit of the Government pursuant to any Federal program involving a grant, contract, loan, insurance, or guarantee, or undertaken pursuant to any Federal program involving such grant, contract, loan, insurance, or guarantee, or any application or modification thereof approved by the Government for a grant, contract, loan, insurance, or guarantee under which the applicant itself participates in the construction work.

ii. Construction Work. The regulation at 41 C.F.R. § 60-1.3 defines "construction work" as the construction, rehabilitation, alteration, conversion, extension, demolition or repair of buildings, highways, or other changes or improvements to real property,

iii. including facilities providing utility services. The term also includes the supervision, inspection, and other onsite functions incidental to the actual construction.

c. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs.

d. Required Language. The regulation at 41 C.F.R. Part 60-1.4(b) requires the insertion of the following contract clause.

During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following:

Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

(3) The contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.

(4) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(5) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(6) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(7) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(8) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance:

Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

The applicant further agrees that it will be bound by the above equal opportunity clause with respect to its own employment practices when it participates in federally assisted construction work: *Provided,* That if the applicant so participating is a State or local government, the above equal opportunity clause is not applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the contract.

The applicant agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the equal opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the administering agency and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.

The applicant further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order 11246 of September 24, 1965, with a contractor debarred from, or who has not demonstrated eligibility for, Government contracts and federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the equal opportunity clause as may be imposed upon contractors and subcontractors by the administering agency or the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order. In addition, the applicant agrees that if it fails or refuses to comply with these undertakings, the administering agency may take any or all of the following actions: Cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the applicant under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from such applicant; and refer the case to the Department of Justice for appropriate legal proceedings.

4. DAVIS-BACON ACT

a. Standard. All prime construction contracts in excess of $2,000 awarded by non- Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. §§ 3141-3144 and 3146-3148) as supplemented by Department of Labor regulations at 29 C.F.R. Part 5 (Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction). See 2 C.F.R. Part 200, Appendix II(D). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week.

b. Applicability. The Davis-Bacon Act applies to the Emergency Management Preparedness Grant Program, Homeland Security Grant Program, Nonprofit Security Grant Program, Tribal Homeland Security Grant Program, Port Security Grant Program, and Transit Security Grant Program.

c. Requirements. If applicable, the non-federal entity must do the following:

i. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.

ii. Additionally, pursuant 2 C.F.R. Part 200, Appendix II(D), contracts subject to the Davis-Bacon Act, must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations at 29 C.F.R. Part 3 (Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States). The Copeland Anti- Kickback Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to FEMA.

iii. Include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction").

Suggested Language. The following provides a sample contract clause:

Compliance with the Davis-Bacon Act.

a. All transactions regarding this contract shall be done in compliance with the Davis-Bacon Act (40 U.S.C. 3141- 3144, and 3146-3148) and the requirements of 29 C.F.R. pt. 5 as may be applicable. The contractor shall comply with 40 U.S.C. 3141-3144, and 3146-3148 and the requirements of 29 C.F.R. pt. 5 as applicable.

b. Contractors are required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor.

c. Additionally, contractors are required to pay wages not less than once a week.

5. COPELAND ANTI-KICKBACK ACT

a. Standard. Recipient and subrecipient contracts must include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States").

b. Applicability. This requirement applies to all contracts for construction or repair work above $2,000 in situations where the Davis-Bacon Act also applies. It DOES NOT apply to the FEMA Public Assistance Program.

c. Requirements. If applicable, the non-federal entity must include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations at 29 C.F.R. Part 3 (Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States). Each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to FEMA. Additionally, in accordance with the regulation, each contractor and subcontractor must furnish each week a statement with respect to the wages paid each of its employees engaged in work covered by the Copeland Anti-Kickback Act and the Davis Bacon Act during the preceding weekly payroll period. The report shall be delivered by the contractor or subcontractor, within seven days after the regular payment date of the payroll period, to a representative of a Federal or State agency in charge at the site of the building or work.

Sample Language. The following provides a sample contract clause:

Compliance with the Copeland "Anti-Kickback" Act.

a. Contractor. The contractor shall comply with 18 U.S.C. §874, 40 U.S.C. § 3145, and the requirements of 29 C.F.R. pt. 3 as may be applicable, which are incorporated by reference into this contract.

b. Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clause above and such other clauses as FEMA may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all of these contract clauses.

c. Breach. A breach of the contract clauses above may be grounds for termination of the contract, and for debarment as a contractor and subcontractor as provided in 29 C.F.R. §5.12."

6. CONTRACT WORK HOURS AND SAFETY STANDARDS ACT

a. Standard. Where applicable (see 40 U.S.C. §§ 3701-3708), all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. §§ 3702 and 3704, as supplemented by Department of Labor regulations at 29 C.F.R. Part 5. See 2 C.F.R. Part 200, Appendix II(E). Under 40 U.S.C. § 3702, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. Further, no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous, or dangerous.

b. Applicability. This requirement applies to all FEMA contracts awarded by the non- federal entity in excess of $100,000 under grant and cooperative agreement programs that involve the employment of mechanics or laborers. It is applicable to construction work. These requirements do not apply to the purchase of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

c. Suggested Language. The regulation at 29 C.F.R. § 5.5(b) provides contract clause language concerning compliance with the Contract Work Hours and Safety Standards Act. FEMA suggests including the following contract clause:

Compliance with the Contract Work Hours and Safety Standards Act.

(1) *Overtime requirements.* No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

(2) *Violation; liability for unpaid wages; liquidated damages.* In the event of any violation of the clause set forth in paragraph (b)(1) of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (b)(1) of this section, in the sum of $27 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (b)(1) of this section.

(3) *Withholding for unpaid wages and liquidated damages.* The Federal agency or loan/grant recipient shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in

paragraph (b)(2) of this section.

(4) *Subcontracts.* The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (b)(1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (b)(1) through (4) of this section.

7. RIGHTS TO INVENTIONS MADE UNDER A CONTRACT OR AGREEMENT

a. Standard. If the FEMA award meets the definition of "funding agreement" under 37C.F.R. § 401.2(a) and the non-Federal entity wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the non- Federal entity must comply with the requirements of 37 C.F.R. Part 401 (Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements), and any implementing regulations issued by FEMA. See 2 C.F.R. Part 200, Appendix II(F).

b. Applicability. This requirement applies to "*funding agreements*," but it DOES NOT apply to the Public Assistance, Hazard Mitigation Grant Program, Fire Management Assistance Grant Program, Crisis Counseling Assistance and Training Grant Program, Disaster Case Management Grant Program, and Federal Assistance to Individuals and Households – Other Needs Assistance Grant Program, as FEMA awards under these programs do not meet the definition of "funding agreement."

c. Funding Agreements Definition. The regulation at 37 C.F.R. § 401.2(a) defines "funding agreement" as any contract, grant, or cooperative agreement entered into between any Federal agency, other than the Tennessee Valley Authority, and any contractor for the performance of experimental, developmental, or research work funded in whole or in part by the Federal government. This term also includes any assignment, substitution of parties, or subcontract of any type entered into for the performance of experimental, developmental, or research work under a funding agreement as defined in the first sentence of this paragraph.

8. CLEAN AIR ACT AND THE FEDERAL WATER POLLUTION CONTROL ACT

a. Standard. If applicable, contracts must contain a provision that requires the contractor to agree to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act (42 U.S.C. §§ 7401-7671q.) and the Federal Water Pollution Control Act as amended (33 U.S.C. §§ 1251-1387). Violations must be reported to FEMA and the Regional Office of the Environmental Protection Agency. See 2 C.F.R. Part 200, Appendix II(G).

b. Applicability. This requirement applies to contracts awarded by a non-federal entity of amounts in excess of $150,000 under a federal grant.

c. Suggested Language. The following provides a sample contract clause.

Clean Air Act

1. The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. § 7401 et seq.

2. The contractor agrees to report each violation to the Participating Public Agency and understands and agrees that the Participating Public Agency will, in turn, report each violation as required to assure notification to the Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

3. The contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by FEMA.

Federal Water Pollution Control Act

1. The contractor agrees to comply with all applicable standards, orders, or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq.

2. The contractor agrees to report each violation to the Participating Public Agency and understands and agrees that the Participating Public Agency will, in turn, report each violation as required to assure notification to the Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

3. The contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by FEMA.

9. DEBARMENT AND SUSPENSION

a. Standard. Non-Federal entities and contractors are subject to the debarment and suspension regulations implementing Executive Order 12549, *Debarment and Suspension* (1986) and Executive Order 12689, *Debarment and Suspension* (1989) at 2 C.F.R. Part 180 and the Department of Homeland Security's regulations at 2 C.F.R. Part 3000 (Non-procurement Debarment and Suspension).

b. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs.

c. Requirements.

i. These regulations restrict awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs and activities. See 2 C.F.R. Part 200, Appendix II(H); and 2 C.F.R. § 200.213. A contract award must not be made to parties listed in the SAM Exclusions. SAM Exclusions is the list maintained by the General Services Administration that contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549. SAM exclusions can be accessed at www.sam.gov. See 2 C.F.R. § 180.530.

ii. In general, an "excluded" party cannot receive a Federal grant award or a contract within the meaning of a "covered transaction," to include subawards and subcontracts. This includes parties that receive Federal funding indirectly, such

as contractors to recipients and subrecipients. The key to the exclusion is whether there is a "covered transaction," which is any non-procurement transaction (unless excepted) at either a "primary" or "secondary" tier. Although "covered transactions" do not include contracts awarded by the Federal Government for purposes of the non-procurement common rule and DHS's implementing regulations, it does include some contracts awarded by recipients and subrecipients.

iii. Specifically, a covered transaction includes the following contracts for goods or services:

1. The contract is awarded by a recipient or subrecipient in the amount of at least $25,000.

2. The contract requires the approval of FEMA, regardless of amount.

3. The contract is for federally-required audit services.

4. A subcontract is also a covered transaction if it is awarded by the contractor of a recipient or subrecipient and requires either the approval of FEMA or is in excess of $25,000.

d. Suggested Language. The following provides a debarment and suspension clause. It incorporates an optional method of verifying that contractors are not excluded or disqualified.

Suspension and Debarment

(1) This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such, the contractor is required to verify that none of the contractor's principals (defined at 2 C.F.R. § 180.995) or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

(2) The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

(3) This certification is a material representation of fact relied upon by the Participating Public Agency. If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the Participating Public Agency, the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

(4) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.

10. BYRD ANTI-LOBBYING AMENDMENT

a. Standard. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to

influence an officer or employee of any agency, a Member of Congress, officer or employee of Congress, or an employee of a Member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. § 1352. FEMA's regulation at 44 C.F.R. Part 18 implements the requirements of 31 U.S.C. § 1352 and provides, in Appendix A to Part 18, a copy of the certification that is required to be completed by each entity as described in 31 U.S.C. § 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the Federal awarding agency.

b. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs. Contractors that apply or bid for a contract of $100,000 or more under a federal grant must file the required certification. See 2 C.F.R. Part 200, Appendix II(I); 31 U.S.C. § 1352; and 44 C.F.R. Part 18.

c. Suggested Language.

Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended)

Contractors who apply or bid for an award of $100,000 or more shall file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, officer or employee of Congress, or an employee of a Member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the recipient who in turn will forward the certification(s) to the awarding agency.

d. Required Certification. If applicable, contractors must sign and submit to the non-federal entity the following certification.

APPENDIX A, 44 C.F.R. PART 18 – CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements

The undersigned certifies, to the best of his or her knowledge and belief, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.
2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

The Contractor, CDW Government LLC, certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. In addition, the Contractor understands and agrees that the provisions of 31 U.S.C. Chap. 38, Administrative Remedies for False Claims and Statements, apply to this certification and disclosure, if any.

Signature of Contractor's Authorized Official

Dario Bertocchi - Vice President, Contracting Operations

Name and Title of Contractor's Authorized Official

December 15, 2023

Date

11. PROCUREMENT OF RECOVERED MATERIALS

a. Standard. A non-Federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. See 2 C.F.R. Part 200, Appendix II(J); and 2 C.F.R. §200.322.

b. Applicability. This requirement applies to all contracts awarded by a non- federal entity under FEMA grant and cooperative agreement programs.

c. Requirements. The requirements of Section 6002 include procuring only items designated in guidelines of the EPA at 40 C.F.R. Part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds
$10,000 or the value of the quantity acquired by the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

d. Suggested Language.

i. In the performance of this contract, the Contractor shall make maximum use of products containing recovered materials that are EPA-designated items unless the product cannot be acquired—
   1. Competitively within a timeframe providing for compliance with the contract performance schedule;
   2. Meeting contract performance requirements; or
   3. At a reasonable price.

ii. Information about this requirement, along with the list of EPA- designated items, is available at EPA's Comprehensive Procurement Guidelines web site, https://www.epa.gov/smm/comprehensive-procurement-guideline-cpg-program.

iii. The Contractor also agrees to comply with all other applicable requirements of Section 6002 of the Solid Waste Disposal Act."

12. **DOMESTIC PREFERENCES FOR PROCUREMENTS**

As appropriate, and to the extent consistent with law, CONTRACTOR should, to the greatest extent practicable under a federal award, provide a preference for the purchase, acquisition, or use of goods, products or materials produced in the United States. This includes, but is not limited to, iron, aluminum, steel, cement, and other manufactured products.

Applicability For purchases in support of FEMA declarations and awards issued on or after November 12, 2020, all FEMA recipients and subrecipients are required to include in all contracts and purchase orders for work or products a contract provision encouraging domestic preference for procurements.

Domestic Preference for Procurements As appropriate, and to the extent consistent with law, the contractor should, to the greatest extent practicable, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States. This includes, but is not limited to iron, aluminum, steel, cement, and other manufactured products. For purposes of this clause: Produced in the United States means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States. Manufactured products mean items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer-based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber."

13. **ACCESS TO RECORDS**

a. Standard. All recipients, subrecipients, successors, transferees, and assignees must acknowledge and agree to comply with applicable provisions governing DHS access to records, accounts, documents, information, facilities, and staff. Recipients must give DHS/FEMA access to, and the right to examine and copy, records, accounts, and other documents and sources of information related to the federal financial assistance award and permit access to facilities, personnel, and other individuals and information as may be necessary, as required by DHS regulations *and* other applicable laws or program guidance. See DHS Standard Terms and Conditions: Version 8.1 (2018). Additionally, Section 1225 of the Disaster Recovery Reform Act of 2018 prohibits FEMA from providing reimbursement to any state, local, tribal, or territorial government, or private non-profit for activities made pursuant to a contract that purports to prohibit audits or internal reviews by the FEMA administrator or Comptroller General.

Access to Records. The following access to records requirements apply to this contract:

i. The Contractor agrees to provide Participating Public Agency, the FEMA Administrator, the Comptroller General of the United States, or any of their authorized representatives access to any books, documents, papers, and records of the Contractor which are directly pertinent to this contract for the purposes of making audits, examinations, excerpts, and transcriptions.

ii. The Contractor agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.

iii. The Contractor agrees to provide the FEMA Administrator or his authorized representatives access to construction or other work sites pertaining to the work being completed under the contract.

iv. In compliance with the Disaster Recovery Act of 2018, the Participating Public Agency and the Contractor acknowledge and agree that no language in this contract is intended to prohibit audits or internal reviews by the FEMA Administrator or the Comptroller General of the United States.

CHANGES

a. Standard. To be eligible for FEMA assistance under the non-Federal entity's FEMA grant or cooperative agreement, the cost of the change, modification, change order, or constructive change must be allowable, allocable, within the scope of its grant or cooperative agreement, and reasonable for the completion of project scope.

b. Applicability. FEMA recommends, therefore, that a non-Federal entity include a changes clause in its contract that describes how, if at all, changes can be made by either party to alter the method, price, or schedule of the work without breaching the contract. The language of the clause may differ depending on the nature of the contract and the end-item procured.

15. DHS SEAL, LOGO, AND FLAGS

a. Standard. Recipients must obtain permission prior to using the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials. See DHS Standard Terms and Conditions: Version 8.1 (2018).

b. Applicability. FEMA recommends that all non-Federal entities place in their contracts a provision that a contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre-approval.

c. "The contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre-approval.

16. COMPLIANCE WITH FEDERAL LAW, REGULATIONS, AND EXECUTIVE ORDERS

a. Standard. The recipient and its contractors are required to comply with all Federal laws, regulations, and executive orders.

b. Applicability. FEMA recommends that all non-Federal entities place into their contracts an acknowledgement that FEMA financial assistance will be used to fund the contract along with the requirement that the contractor will comply with all applicable Federal law, regulations, executive orders, and FEMA policies, procedures, and directives.

c. "This is an acknowledgement that FEMA financial assistance will be used to fund all or a portion of the contract. The contractor will comply with all applicable Federal law, regulations, executive orders, FEMA policies, procedures, and directives."

17. NO OBLIGATION BY FEDERAL GOVERNMENT

a. Standard. FEMA is not a party to any transaction between the recipient and its contractor. FEMA is not subject to any obligations or liable to any party for any matter relating to the contract.

b. Applicability. FEMA recommends that the non-Federal entity include a provision in its contract that states that the Federal Government is not a party to the contract and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from the contract.

c. "The Federal Government is not a party to this contract and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from the contract."

18. PROGRAM FRAUD AND FALSE OR FRAUDULENT STATEMENTS OR RELATED ACTS

a. Standard. Recipients must comply with the requirements of The False Claims Act (31 U.S.C. §§ 3729-3733) which prohibits the submission of false or
fraudulent claims for payment to the federal government. See DHS Standard Terms and Conditions: Version 8.1 (2018); and 31 U.S.C. §§ 3801-3812, which details the administrative remedies for false claims and statements made. The non-Federal entity must include a provision in its contract that the contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to its actions pertaining to the contract.

b. Applicability. FEMA recommends that the non-Federal entity include a provision in its contract that the contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to its actions pertaining to the contract.

c. "The Contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to the Contractor's actions pertaining to this contract."

d. In the event FTA or DOT funding is used by a Participating Public Agency, Contractor further acknowledges U.S. DOT regulations, "Program Fraud Civil Remedies," 49 CFR Part 31, and apply to its actions pertaining to this Contract. Upon execution of the underlying Contract, Contractor certifies or affirms the truthfulness and accuracy of any statement it has made, it makes, it may make, or causes to me made, pertaining to the underlying Contract or the FTA assisted project for which this Contract Work is being performed.

In addition to other penalties that may be applicable, Contractor further acknowledges that if it makes, or causes to be made, a false, fictitious, or fraudulent claim, statement, submission, or certification, the Federal Government reserves the right to impose the penalties of the Program Fraud Civil Remedies Act of 1986 on Contractor to the extent the Federal Government deems appropriate.

Contractor also acknowledges that if it makes, or causes to me made, a false, fictitious, or fraudulent claim, statement, submission, or certification to the Federal Government under a contract connected

with a project that is financed in whole or in part with Federal assistance originally awarded by FTA under the authority of 49 U.S.C. § 5307, the Government reserves the right to impose the penalties of 18 U.S.C. § 1001 and 49 U.S.C. § 5307 (n)(1) on the Contractor, to the extent the Federal Government deems appropriate.

Contractor agrees to include the above clauses in each subcontract financed in whole or in part with Federal assistance provided by FTA. It is further agreed that the clauses shall not be modified, except to identify the subcontractor who will be subject to the provisions.

Offeror agrees to comply with all terms and conditions outlined in the FEMA Special Conditions section of this solicitation.

Offeror's Name: CDW Government LLC

Address, City, State, and Zip Code:

State Treasurer

P.L. 1995, c. 127 (N.J.A.C. 17:27)
MANDATORY AFFIRMATIVE ACTION LANGUAGE

PROCUREMENT, PROFESSIONAL AND SERVICE CONTRACTS

During the performance of this contract, the contractor agrees as follows:

The contractor or subcontractor, where applicable, will not discriminate against any employee or applicant for employment because of age, race, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation. The contractor will take affirmative action to ensure that such applicants are recruited and employed, and that employees are treated during employment, without regard to their age, race, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation. Such action shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Public Agency Compliance Officer setting forth provisions of this non-discrimination clause.

The contractor or subcontractor, where applicable will, in all solicitations or advertisement for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to age, race, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation.

The contractor or subcontractor, where applicable, will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding, a notice, to be provided by the agency contracting officer advising the labor union or workers' representative of the contractor's commitments under this act and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

The contractor or subcontractor, where applicable, agrees to comply with any regulations promulgated by the Treasurer pursuant to P.L. 1975, c. 127, as amended and supplemented from time to time and the Americans with Disabilities Act.

The contractor or subcontractor agrees to attempt in good faith to employ minority and female workers trade consistent with the applicable county employment goal prescribed by N.J.A.C. 17:27-5.2 promulgated by the Treasurer pursuant to P.L. 1975, C.127, as amended and supplemented from time to time or in accordance with a binding determination of the applicable county employment goals determined by the Affirmative Action Office pursuant to N.J.A.C. 17:27-5.2 promulgated by the Treasurer pursuant to P.L. 1975, C.127, as amended and supplemented from time to time.

The contractor or subcontractor agrees to inform in writing appropriate recruitment agencies in the area, including employment agencies, placement bureaus, colleges, universities, labor unions, that it does not discriminate on the basis of age, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation, and that it will discontinue the use of any recruitment agency which engages in direct or indirect discriminatory practices.

The contractor or subcontractor agrees to revise any of it testing procedures, if necessary, to assure that all personnel testing conforms with the principles of job-related testing, as established by the statutes and court decisions of the state of New Jersey and as established by applicable Federal law and applicable Federal court decisions.

The contractor or subcontractor agrees to review all procedures relating to transfer, upgrading, downgrading and lay-off to ensure that all such actions are taken without regard to age, creed, color, national origin, ancestry, marital status, sex, affectional or sexual orientation, and conform with the applicable employment goals, consistent with the statutes and court decisions of the State of New Jersey, and applicable Federal law and applicable Federal court decisions.

The contractor and its subcontractors shall furnish such reports or other documents to the Affirmative Action Office as may be requested by the office from time to time in order to carry out the purposes of these regulations, and public agencies shall furnish such information as may be requested by the Affirmative Action Office for conducting a compliance investigation pursuant to Subchapter 10 of the Administrative Code (NJAC 17:27).

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Public Agency Instructions

This page provides guidance to public agencies entering into contracts with business entities that are required to file Political Contribution Disclosure forms with the agency. **It is not intended to be provided to contractors.** What follows are instructions on the use of form local units can provide to contractors that are required to disclose political contributions pursuant to N.J.S.A. 19:44A-20.26 (P.L. 2005, c. 271, s.2). Additional information on the process is available in Local Finance Notice 2006-1 (http://www nj.gov/dca/divisions/dlgs/resources/lfns_2006 html). Please refer back to these instructions for the appropriate links, as the Local Finance Notices include links that are no longer operational.

1. The disclosure is required for all contracts in excess of $17,500 that are **not awarded** pursuant to a "fair and open" process (N.J.S.A. 19:44A-20.7).

2. Due to the potential length of some contractor submissions, the public agency should consider allowing data to be submitted in electronic form (i.e., spreadsheet, pdf file, etc.). Submissions must be kept with the contract documents or in an appropriate computer file and be available for public access. **The form is worded to accept this alternate submission.** The text should be amended if electronic submission will not be allowed.

3. The submission must be **received from the contractor and** on file at least 10 days prior to award of the contract. Resolutions of award should reflect that the disclosure has been received and is on file.

4. The contractor must disclose contributions made to candidate and party committees covering a wide range of public agencies, including all public agencies that have elected officials in the county of the public agency, state legislative positions, and various state entities. The Division of Local Government Services recommends that contractors be provided a list of the affected agencies. This will assist contractors in determining the campaign and political committees of the officials and candidates affected by the disclosure.

    a. The Division has prepared model disclosure forms for each county. They can be downloaded from the "County PCD Forms" link on the Pay-to-Play web site at http://www nj.gov/dca/divisions/dlgs/programs/lpcl html#12. They will be updated from time-to-time as necessary.
    b. A public agency using these forms **should edit them to properly reflect the correct legislative district**(s). As the forms are county-based, **they list all legislative districts** in each county. **Districts that do not represent the public agency should be removed from the lists.**
    c. Some contractors may find it easier to provide a single list that covers all contributions, regardless of the county. These submissions are appropriate and should be accepted.
    d. The form may be used "as-is", subject to edits as described herein.
    e. The "Contractor Instructions" sheet is intended to be provided with the form. It is recommended that the Instructions and the form be printed on the same piece of paper. The form notes that the Instructions are printed on the back of the form; where that is not the case, the text should be edited accordingly.
    f. The form is a Word document and can be edited to meet local needs, and posted for download on web sites, used as an e-mail attachment, or provided as a printed document.

5. It is recommended that the contractor also complete a "Stockholder Disclosure Certification." This will assist the local unit in its obligation to ensure that contractor did not make any prohibited contributions to the committees listed on the Business Entity Disclosure Certification in the 12 months prior to the contract (See Local Finance Notice 2006-7 for additional information on this obligation at http://www.nj.gov/dca/divisions/dlgs/resources/lfns_2006.html). A sample Certification form is part of this package and the instruction to complete it is included in the Contractor Instructions. NOTE: This section is not applicable to Boards of Education.

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Contractor Instructions

Business entities (contractors) receiving contracts from a public agency that are NOT awarded pursuant to a "fair and open" process (defined at N.J.S.A. 19:44A-20.7) are subject to the provisions of P.L. 2005, c. 271, s.2 (N.J.S.A. 19:44A-20.26). This law provides that 10 days prior to the award of such a contract, the contractor shall disclose contributions to:

- any State, county, or municipal committee of a political party
- any legislative leadership committee*
- any continuing political committee (a.k.a., political action committee)
- any candidate committee of a candidate for, or holder of, an elective office:
    - of the public entity awarding the contract
    - of that county in which that public entity is located
    - of another public entity within that county
    - or of a legislative district in which that public entity is located or, when the public entity is a county, of any legislative district which includes all or part of the county

The disclosure must list reportable contributions to any of the committees that exceed $300 per election cycle that were made during the 12 months prior to award of the contract. See N.J.S.A. 19:44A-8 and 19:44A-16 for more details on reportable contributions.

N.J.S.A. 19:44A-20.26 itemizes the parties from whom contributions must be disclosed when a business entity is not a natural person. This includes the following:

- individuals with an "interest" ownership or control of more than 10% of the profits or assets of a business entity or 10% of the stock in the case of a business entity that is a corporation for profit
- all principals, partners, officers, or directors of the business entity or their spouses
- any subsidiaries directly or indirectly controlled by the business entity
- IRS Code Section 527 New Jersey based organizations, directly or indirectly controlled by the business entity and filing as continuing political committees, (PACs).

When the business entity is a natural person, "a contribution by that person's spouse or child, residing therewith, shall be deemed to be a contribution by the business entity." [N.J.S.A. 19:44A-20.26(b)] The contributor must be listed on the disclosure.

Any business entity that fails to comply with the disclosure provisions shall be subject to a fine imposed by ELEC in an amount to be determined by the Commission which may be based upon the amount that the business entity failed to report.

The enclosed list of agencies is provided to assist the contractor in identifying those public agencies whose elected official and/or candidate campaign committees are affected by the disclosure requirement. It is the contractor's responsibility to identify the specific committees to which contributions may have been made and need to be disclosed. The disclosed information may exceed the minimum requirement.

The enclosed form, a content-consistent facsimile, or an electronic data file containing the required details (along with a signed cover sheet) may be used as the contractor's submission and is disclosable to the public under the Open Public Records Act.

The contractor must also complete the attached Stockholder Disclosure Certification. This will assist the agency in meeting its obligations under the law. **NOTE: This section does not apply to Board of Education contracts.**

* N.J.S.A. 19:44A-3(s): "The term "legislative leadership committee" means a committee established, authorized to be established, or designated by the President of the Senate, the Minority Leader of the Senate, the Speaker of the General Assembly or the Minority Leader of the General Assembly pursuant to section 16 of P.L.1993, c.65 (C.19:44A-10.1) for the purpose of receiving contributions and making expenditures."

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM
Required Pursuant to N.J.S.A. 19:44A-20.26

This form or its permitted facsimile must be submitted to the local unit no later than 10 days prior to the award of the contract.

Part I – Vendor Information

Vendor Name:	CDW Government LLC		
Address:	230 N. Milwaukee Ave		
City:	Vernon Hills	State: Illinois	Zip: 60061

The undersigned being authorized to certify, hereby certifies that the submission provided herein represents compliance with the provisions of N.J.S.A. 19:44A-20.26 and as represented by the Instructions accompanying this form.

DISCLOSURE OF INVESTMENT ACTIVITIES IN IRAN, RUSSIA AND BELARUS

N.J.S.A. 52:32-57, et seq. (P.L. 2012, c.25 and P.L. 2021, c.4) and N.J.S.A. 52:32-60.1

Pursuant to N.J.S.A. 52:32-57, et seq. (P.L. 2012, c.25 and P.L. 2021, c.4) and N.J.S.A. 52:32-60.1 any person or entity that submits a bid or proposal or otherwise proposes to enter into or renew a contract must certify that neither the person nor entity, nor any of its parents, subsidiaries, or affiliates, is identified on the New Jersey Department of the Treasury's Chapter 25 List as a person or entity engaged in investment activities in Iran, Russia or Belarus. The Chapter 25 list is found on the Division's website at https://www.state.nj.us/treasury/purchase/. Vendors/Bidders must review this list prior to completing the below certification. If the Qualified Purchasing Agent of the Atlantic County Utilities Authority finds a person or entity to be in violation of the law, he shall take action as may be appropriate and provided by law, rule or contract, including but not limited to, imposing sanctions, seeking compliance, recovering damages, declaring the party in default and seeking debarment or suspension of the party.

CHECK THE APPROPRIATE BOX

☑ I certify, pursuant to N.J.S.A. 52:32-57, et seq. (P.L. 2012, c.25 and P.L. 2021, c.4), and N.J.S.A. 52:32-60.1 that neither the Vendor/Bidder listed above nor any of its parents, subsidiaries, or affiliates is listed on the New Jersey Department of the Treasury's Chapter 25 List of entities determined to be engaged in prohibited activities in Iran, Russia or Belarus.

OR

☐ I am unable to certify as above because the Vendor/Bidder and/or one or more of its parents, subsidiaries, or affiliates is listed on the New Jersey Department of the Treasury's Chapter 25 List. I will provide a detailed, accurate and precise description of the activities of the Vendor/Bidder, or one of its parents, subsidiaries or affiliates, has engaged in regarding investment activities in Iran by completing the information requested below.

Entity Engaged in Investment Activities _____

Relationship to Vendor/ Bidder _____

Description of Activities _____

_____

_____

Duration of Engagement _____

Anticipated Cessation Date _____

Attach Additional Sheets If Necessary.

CERTIFICATION

I, the undersigned, certify that I am authorized to execute this certification on behalf of the Vendor, that the foregoing information and any attachments hereto, to the best of my knowledge are true and complete. I acknowledge that the ACUA is relying on the information contained herein, and that the Vendor is under a continuing obligation from the date of this certification through the completion of any contract(s) with the ACUA to notify the Qualified Purchasing Agent in writing of any changes to the information contained herein; that I am aware that it is a criminal offense to make a false statement or misrepresentation in this certification. If I do so, I will be subject to criminal prosecution under the law, and it will constitute a material breach of my agreement(s) with the ACUA, I am permitting the ACUA to declare any contract(s) resulting from this certification void and unenforceable.

TRENTON, NEW JERSEY 08625-0230

MACBRIDE PRINCIPALS FORM

BID SOLICITATION #: 2024056 **VENDOR/BIDDER:** CDW Government LLC

VENDOR'S/BIDDER'S REQUIREMENT TO PROVIDE A CERTIFICATION IN COMPLIANCE WITH THE MACBRIDE PRINCIPALS AND NORTHERN IRELAND ACT OF 1989

Pursuant to Public Law 1995, c. 134, a responsible Vendor/Bidder selected, after public bidding, by the Director of the Division of Purchase and Property, pursuant to N.J.S.A. 52:34-12, must complete the certification below by checking one of the two options listed below and signing where indicated. If a Vendor/Bidder that would otherwise be awarded a purchase, contract or agreement does not complete the certification, then the Director may determine, in accordance with applicable law and rules, that it is in the best interest of the State to award the purchase, contract or agreement to another Vendor/Bidder that has completed the certification and has submitted a bid within five (5) percent of the most advantageous bid. If the Director finds contractors to be in violation of the principals that are the subject of this law, he/she shall take such action as may be appropriate and provided by law, rule or contract, including but not limited to, imposing sanctions, seeking compliance, recovering damages, declaring the party in default and seeking debarment or suspension of the party.

I, the undersigned, on behalf the Vendor/Bidder, certify pursuant to N.J.S.A. 52:34-12.2 that:

CHECK THE APPROPRIATE BOX

☑ The Vendor/Bidder has no business operations in Northern Ireland; or

OR

☐ The Vendor/Bidder will take lawful steps in good faith to conduct any business operations it has in Northern Ireland in accordance with the MacBride principals of nondiscrimination in employment as set forth in section 2 of P.L. 1987, c. 177 (N.J.S.A. 52:18A-89.5) and in conformance with the United Kingdom's Fair Employment (Northern Ireland) Act of 1989, and permit independent monitoring of its compliance with those principals.

CERTIFICATION

I, the undersigned, certify that I am authorized to execute this certification on behalf of the Vendor/Bidder, that the foregoing information and any attachments hereto, to the best of my knowledge are true and complete. I acknowledge that the State of New Jersey is relying on the information contained herein, and that the Vendor/Bidder is under a continuing obligation from the date of this certification through the completion of any contract(s) with the State to notify the State in writing of any changes to the information contained herein; that I am aware that it is a criminal offense to make a false statement or misrepresentation in this certification. If I do so, I will be subject to criminal prosecution under the law, and

it will constitute a material breach of **my** agreement(s) with the State, permitting the State to declare any contract(s) resulting from this certification to be void and unenforceable.
