

CITY OF HALLANDALE BEACH, FLORIDA
MEMORANDUM

DATE: January 7, 2026

TO: Honorable Mayor, Vice Mayor, and Commissioners

FROM: Jenorgen M. Guillen, MPA, MMC, City Clerk 

SUBJECT: Operational Enhancements and New Positions in the City Clerk's Office

Thank you for the opportunity to provide further clarification regarding the staffing structure and associated expenditures within the City Clerk's Office. Each position serves a critical and distinct function that directly supports the City's legal compliance, operational integrity, and modernization efforts. From administering Florida's Public Records Law and managing the full lifecycle of citywide contracts to maintaining legislative records, facilitating public access, and supporting agenda governance, these roles are essential to effective service delivery and public accountability.

Collectively, these positions form a cohesive and specialized structure that enables the City Clerk's Office to operate as a centralized hub. Their contributions are indispensable to maintaining the City's legal standing, advancing strategic objectives, and meeting public expectations for efficient and transparent government operations.

Office Manager

The Office Manager serves as a critical operational anchor within the City Clerk's Office, responsible for maintaining the integrity, efficiency, and professionalism of daily administrative functions. Acting as the primary gatekeeper, the Office Manager manages access to the department, coordinates internal and external communications, and ensures continuity of operations by effectively routing messages and providing scheduling support for leadership staff. This role is essential in ensuring that departmental activities remain organized, responsive, and compliant.

The Office Manager oversees the procurement and inventory of office supplies, manages the City Clerk's calendar, and delivers high-level customer service to internal staff, elected officials, external partners, and the public. Responsibilities include the timely processing of purchase orders, invoices, P-Card transactions, and travel authorizations, as well as continuous monitoring of departmental accounts to ensure fiscal responsibility. The Office Manager is required to notify the City Clerk when purchase orders approach depletion thresholds, when fund balances fall below established limits, and when any financial items become past due, thereby supporting sound financial planning and accountability.

In support of City Commission and HBCRA meetings, the Office Manager ensures the readiness and functionality of the Commission Chambers, including lighting, audiovisual

equipment, agenda materials, speaker cards, nameplates, and business cards. Post-meeting responsibilities include restoring the Chambers to order by the next business day, uploading meeting recordings, and accurately archiving all related documentation. The Office Manager also manages Chamber reservations and maintains current lobbyist registration records in both departmental files and the Laserfiche system.

The Office Manager plays an integral role in procurement coordination by assisting with the receipt and formal opening of citywide BIDs, RFPs, and RFQs in collaboration with the Procurement Department. This includes attending formal bid openings, publicly announcing vendor names and bid amounts to ensure transparency, preparing official Proposal Receipt Notices, securing the City Clerk's signature, and maintaining complete and auditable records of procurement activities.

Additional responsibilities include managing proclamations and certificates of recognition by collecting required information, maintaining presentation inventory, coordinating notifications to honorees, and ensuring adherence to publication deadlines for the agenda. The Office Manager also oversees the posting and dissemination of Public Notices in full compliance with Florida Statute Section 286, including physical posting, website publication, and social media distribution. Any notices received outside statutory or procedural deadlines must be rejected and immediately escalated to the City Clerk.

The Office Manager is further responsible for maintaining and updating the City's official website calendar to reflect City Commission meetings, board and committee meetings, cancellations, bid meetings, and City Hall closures, ensuring timely communication to staff and the public. Through proactive coordination, attention to detail, and consistent follow-through, the Office Manager provides operational support to the City Clerk, Deputy City Clerk, Assistant City Clerk, and Records and Contracts Manager, contributing to a transparent, efficient, and high-functioning City Clerk's Office.

Records and Contracts Manager

The Records and Contracts Manager serves as the City's central authority for the administration, execution, tracking, and lifecycle management of all citywide contracts, agreements, and related official records. This position provides enterprise-wide oversight to ensure that all contracts are properly authorized, fully executed, accurately indexed, and maintained in compliance with Chapters 119, 257, and 286 of the Florida Statutes, as well as City policies and adopted legislative actions.

As part of the Citywide Records Modernization and Compliance Initiative, this position was reclassified and strategically realigned from the Procurement Department to the City Clerk's Office to centralize contract custody and reinforce statutory compliance. As outlined in the May 12, 2025, memorandum (Exhibit 1), this realignment reflects the City Clerk's statutory role as the official custodian of contracts and agreements. It ensures continuity, accountability, and consistency in contract and records governance across all departments.

The Records and Contracts Manager provides centralized oversight of all citywide contracts and digital records, ensuring that each agreement is executed correctly, accurately tracked, and systematically indexed within the City's enterprise systems, including Laserfiche and the Tyler Munis Contracts Module. This centralized structure eliminates departmental silos and addresses long-standing challenges associated with locating and validating legacy documents, such as cemetery deeds and interagency agreements. By consolidating contract and agreement management under one accountable office, the City improves agenda coordination, strengthens negotiation leverage, and promotes transparency, operational efficiency, and fiscal responsibility.

The position oversees the full lifecycle of contracts and agreements, verifying that all required parties, including vendors, the City Attorney, the City Manager, and the City Clerk, execute each document. Responsibilities include confirming the accuracy of dates, amendments, and notarial certifications, and ensuring alignment with adopted Resolutions or Ordinances. Once fully executed, contracts are scanned in full color, single-sided, in OCR format at 300 dpi, in accordance with state standards, and uploaded to Laserfiche and Tyler Munis. Supporting legislative documents are linked across systems to ensure traceability and ease of retrieval.

The Records and Contracts Manager collaborates closely with approximately 30 designated Contract and Project Liaisons across City departments to ensure timely routing, accurate data entry, and consistent contract administration. Monthly dashboards and lifecycle reports are produced to monitor contract status, expiration dates, amendments, renewals, and compliance performance. A consolidated Contracts Report is submitted to the City Manager on the first business day of each month, along with a reconciliation against the Agenda Master List to ensure accuracy and audit readiness. As reflected in the Tyler Munis Contract Report (Exhibit 2), the City Clerk's Office oversees more than 200 active contracts and agreements requiring continuous oversight and monitoring.

In addition to contract administration, the Records and Contracts Manager is responsible for processing all departmental eRecordings, including easements, declarations, lien releases, and other official instruments, within established timeframes. This responsibility was centralized within the City Clerk's Office in December 2024 to streamline operations, reinforce accountability, and ensure compliance with statutory recording requirements. Since that transition, 176 official documents have been successfully recorded (Exhibit 3), with execution standards requiring recording within 12 business hours of receipt when documents are correctly prepared.

The importance of centralized eRecording oversight was underscored in April 2025 when a review revealed unrecorded lien releases dating back to 2023 following a resident inquiry (Exhibit 4). This discovery highlighted the risks associated with fragmented recording practices and reinforced the necessity of centralized controls. As a result, standardized procedures were implemented, and regular interdepartmental coordination was established to verify document completeness and ensure timely recording.

Working in partnership with the Assistant City Clerk, the Records and Contracts Manager also supports the City's Records Management Program by preparing annual reports identifying records eligible for destruction in accordance with State-approved retention schedules. This includes training and guiding approximately 40 departmental Records Liaisons in proper retention, digitization, and disposition practices. As demonstrated in the record examples provided (Exhibit 5), this role is instrumental in advancing the City's initiative to modernize and consolidate fragmented record repositories, thereby improving retrieval, oversight, and long-term compliance.

Throughout all assigned duties, the Records and Contracts Manager develops and enforces standard operating procedures, performance metrics, and compliance monitoring tools to promote consistency, reduce legal risk, and strengthen internal controls. The position provides high-level, solutions-oriented support to the City Clerk, Deputy City Clerk, and Assistant City Clerk, serving as a cornerstone of the City's contract governance and records compliance framework while advancing operational efficiency and fiscal accountability.

Assistant City Clerk

The Assistant City Clerk serves as the City's primary compliance and oversight authority for the administration of the Public Records Program, ensuring complete adherence to Chapter 119, Florida Statutes, and all applicable City policies and procedures. This position is responsible for intake, coordination, tracking, and fulfillment of all public records requests through the JustFOIA system, maintaining comprehensive, auditable logs to ensure timely, accurate, and legally compliant responses.

The Assistant City Clerk monitors the status of all public records requests and escalates overdue or high-priority matters to the City Clerk as required. A recurring "Past Due Records Report" is distributed to Department Directors every week, or as otherwise directed, to reinforce accountability and timely resolution. In support of executive oversight and transparency, a weekly summary of all pending and completed public records requests is submitted to the City Manager.

This position leads the continuous development, review, and refinement of the City's Public Records Request Policy and Digital Records Policy to reflect legislative updates, Attorney General guidance, and best practices in electronic records governance. The Assistant City Clerk provides ongoing training and technical support to departmental Public Records Request Liaisons to ensure consistent procedures, proper redaction, and uniform application of JustFOIA protocols across all departments.

In collaboration with the Records and Contracts Manager, the Assistant City Clerk plays a central role in implementing and enforcing the City's Records Management Program. Responsibilities include preparing annual reports, identifying records eligible for destruction, verifying compliance with State-approved retention schedules, and conducting routine training to ensure consistency and adherence to legal requirements. The Assistant City Clerk also manages the timely and proper processing of subpoenas in

accordance with statutory mandates and internal procedures, contributing to the operational integrity and legal compliance of the City Clerk's Office.

Public records activity continues to increase year over year, underscoring the critical nature of this position. The City Clerk's Office processed 2,148 public records requests between January 1, 2023, and December 31, 2023, compared to 2,537 requests during the same period in 2024, an increase of 389 requests, or 15.4%. As of July 2025, 1,673 requests have already been processed, reflecting sustained growth in public engagement and reinforcing the need for continued investment in records systems and staffing to support transparency and compliance (Exhibit 6).

According to the City Attorney's Office, the most recent public records-related litigation filed against the City was the *Roldan* case in November 2019. Since that time, the City has maintained full compliance, attributable to standardized procedures and proactive controls administered through the Assistant City Clerk function. These efforts have strengthened responsiveness, reduced legal exposure, and supported increased cost recovery revenues from public records requests, totaling \$18,673.76 in 2023, \$26,852.64 in 2024, and \$20,129.52 as of July 2025.

The Assistant City Clerk provides direct oversight and guidance to approximately 40 departmental Public Records Request Liaisons, each of whom serves as the primary custodian for records within their respective departments. This position delivers continuous training, quality assurance, and compliance monitoring to ensure proper redaction, statutory compliance, and consistent request fulfillment. Legal updates, such as affidavit requirements for law enforcement records, are promptly communicated and integrated into departmental practices to maintain alignment with Florida law.

To further mitigate legal risk, the Assistant City Clerk conducts quality-control reviews of completed responses to verify that requests are fully addressed and that confidential or exempt information, such as body-worn camera footage, audio interviews, and sensitive documentation, is properly redacted and cited. Technical guidance is provided on statutory exemptions and application of the Sunshine Manual, and proactive communication is maintained with requesters for complex or voluminous requests to manage expectations and ensure transparency.

Additionally, the Assistant City Clerk ensures compliance with State-approved retention schedules (GS1-SL and GS2) by reviewing all required documentation before authorizing record destruction. Once eligibility is confirmed, records are securely destroyed by a certified shredding vendor under staff supervision. As part of annual reporting obligations, the City submits a Records Management Compliance Statement to the Florida Department of State documenting destruction volumes of 637.5 cubic feet in Fiscal Year 2022–2023 and 203.5 cubic feet in Fiscal Year 2023–2024.

Through structured oversight, legal expertise, and rigorous procedural controls, the Assistant City Clerk plays a vital role in safeguarding public access, maintaining accountability, and ensuring the City's sustained compliance with Florida's public records

and records management laws. The position provides consistent, high-level, solutions-oriented support to the City Clerk and Deputy City Clerk while strengthening the City's transparency framework.

Deputy City Clerk

The Deputy City Clerk serves as a principal operational and legislative support authority within the City Clerk's Office, with primary responsibility for the administration of Boards and Committees, legislative documentation, and official meeting records. This position oversees the end-to-end management of all advisory boards and committees, ensuring compliance with Florida's public records and open government laws, maintaining accurate rosters and vacancy records, and coordinating appointments, resignations, removals, and reappointments in accordance with City Code and adopted procedures.

The Deputy City Clerk is responsible for the preparation, routing, tracking, and archival of all Resolutions and Ordinances, ensuring their accuracy, completeness, and timely availability through Granicus, Laserfiche, and other official repositories. This role ensures that all meeting minutes for Boards, Committees, and the City Commission are drafted, logged, reviewed, and submitted for adoption within required deadlines, reinforcing transparency, procedural integrity, and legal compliance.

In support of Boards and Committees, the Deputy City Clerk prepares all official correspondence related to appointments and membership changes within established timeframes and provides bi-monthly vacancy updates to the City Clerk for distribution to elected officials. The position works closely with Board Liaisons to ensure consistent use of standardized templates for agendas, minutes, attendance records, and public notices. It routinely updates the City's Boards and Committees webpage, rosters, and handbook to reflect current information. In coordination with the City Attorney's Office, the Deputy City Clerk organizes and facilitates annual training sessions for advisory board members to reinforce statutory requirements, ethical obligations, and procedural expectations.

The Deputy City Clerk ensures compliance with all public notice requirements by verifying that meeting notices are posted promptly on designated bulletin boards, the City's website calendar, and official communication channels. In accordance with Code requirements effective March 2021, the Deputy City Clerk ensures that minutes from all Boards and Committees are included in the second City Commission Meeting agenda each month.

This position is also responsible for the comprehensive review and vetting of all board and committee applications to confirm eligibility and completeness. Applications submitted electronically or in hard copy are acknowledged promptly, with notification provided to the City Clerk and initiation of the agenda placement process. The Deputy City Clerk collaborates with relevant departments to verify qualifications and ensure full compliance with applicable legal and policy requirements.

Following each City Commission meeting, the Deputy City Clerk oversees the complete post-meeting processing of all adopted Resolutions and Ordinances. This includes

coordinating required signatures, ensuring timely execution, scanning and indexing documents in accordance with records standards, assigning appropriate metadata, uploading final documents to Granicus and Laserfiche, and updating tracking and index spreadsheets to ensure accurate archival, accessibility, and audit readiness. Any delays or discrepancies are promptly escalated to the City Clerk.

The Deputy City Clerk also manages the full lifecycle of ceremonial recognitions, including Proclamations, Certificates of Recognition, Keys to the City, and Student of the Month awards. Responsibilities include coordinating approvals, collecting supporting information, maintaining tracking logs, preparing documents for execution, and ensuring professional presentation at City Commission meetings.

Through these comprehensive responsibilities, the Deputy City Clerk provides high-level operational, legislative, and administrative support to the City Clerk, ensuring continuity of operations, procedural consistency, and unwavering compliance with all applicable laws, policies, and standards of public accountability.

City Clerk

As the City Clerk for the City of Hallandale Beach, I serve as the executive head of the City Clerk's Office and the official custodian of records, contracts, and legislative proceedings. My responsibilities include overseeing all departmental functions, ensuring compliance with Florida Statutes, the City Charter, and internal policies. I am responsible for maintaining the integrity, accuracy, and accessibility of the City's legislative records, contracts, and official documents, while upholding transparency, accountability, and legal compliance across all operations.

I provide strategic leadership to a multidisciplinary team comprising the Deputy City Clerk, Assistant City Clerk, Records and Contracts Manager, and Office Manager, each of whom is entrusted with advancing the City's enterprise-wide obligations. My core responsibilities include certifying ordinances and resolutions, completing public records requests, executing official contracts, and working closely with the Administration, staff, Mayor, and City Commission on all agenda-related matters. I ensure that all public notices, board appointments, and legislative actions are accurately documented, properly archived, and transparently disseminated. In addition, I oversee the administration of municipal elections, the processing of financial disclosures, and the coordination of mandatory trainings, including Agenda Preparation and the Florida Sunshine Law, among other statutory and operational duties essential to the City's legal compliance and public engagement.

As part of my statutory responsibilities, I enforce the City Commission agenda deadlines and certify that all agenda items are accurately generated, thoroughly reviewed, and timely published in accordance with established protocols. The "Agenda Workflow Schedule January 2025 – December 2025" outlines a structured six-phase process that begins 30 days before each City Commission meeting and concludes with the publication of the agenda. This timeline assigns clear responsibilities and deadlines to key

stakeholders, including Department Directors, the City Manager (CM), Assistant City Managers (ACMs), the City Attorney (CA), and the City Clerk (CC). All agenda items must be submitted through Granicus, with the necessary departmental approvals and legal review, as applicable. Items not elevated to the CM/ACM level by the end of Day 7 are removed and rescheduled. The schedule also accommodates legal holidays and religious observances, adjusting deadlines that fall on non-business days to the next business day.

In 2024, I reviewed, verified, and published 483 agenda items, each meeting the highest standards of accuracy, completeness, and legal compliance. As the sole authority responsible for marking items as "Agenda Ready," I ensured that every submission included a fully executed Agenda Cover Memo, adequately formatted and labeled exhibits, and met all required deadlines in accordance with the Agenda Process and admin policy, the Broward County Code of Ordinances (48 hours of necessary publication), and the City's Code of Ordinances. I also provided hands-on support to Department Directors, Assistant Directors, and Agenda Liaisons throughout the process, ensuring their submissions aligned with established protocols and upheld the City's legislative and procedural standards.

That same year, I successfully facilitated the execution of 48 public meetings, comprising 21 City Commission meetings, 11 HBCRA meetings, 10 GISND meetings, and 6 TISND meetings. In support of these sessions, I finalized and published 196 resolutions and 37 ordinances, all of which were reviewed and executed in full compliance with statutory requirements. I also prepared and archived 71 sets of official meeting minutes, preserving the City's legislative history in an accurate and accessible manner. To further reinforce public access and transparency, the City Clerk's Office issued 192 public notices in accordance with Chapter 286, Florida Statutes.

During the 2025 summer recess, I focused on optimizing the eRecording process to improve efficiency, accuracy, and turnaround times as noted above. Concurrently, I began enhancing the Boards and Committees tracking system to establish a centralized, digital platform for managing records related to vacancies, attendance, agendas, and meeting minutes. The upgraded system will also include a comprehensive overview of each board and committee's scope, duties, and membership, reinforcing transparency, accountability, and operational alignment. Additional details regarding these enhancements will be provided in the coming weeks. Upon completion of the Boards and Committees project, my next priority is to modernize the lobbyist registration and payment process by transitioning to a fully digital platform that allows online submission of applications, reports, and payments, eliminating the need for paper-based transactions and further advancing the City's modernization goals.

With the City Commission's support, I successfully updated the City's 2011 Records Management Plan to reflect current statutory requirements, industry best practices, and organizational needs. I am now actively working with our consultant to implement a citywide annual training program that will ensure all employees are thoroughly educated on Florida's Public Records Laws and remain in full compliance with applicable statutes.

This initiative reinforces our commitment to transparency, legal integrity, and the consistent application of records management standards across all departments.

As a charter officer, I am directly accountable to the City Commission and serve a pivotal role in preserving institutional knowledge, advancing open government, and driving modernization initiatives. I act as the final signatory on all official agreements and provide executive direction to the department, ensuring all functions are performed accurately, lawfully, and in alignment with City priorities. I also lead major initiatives, including the Citywide Records Modernization and Compliance Initiative, which centralizes record repositories, reinforces internal controls, and aligns operational practices with statutory mandates and best-in-class standards.

Under my leadership, the City Clerk's Office delivers comprehensive support for City Commission and HBCRA meetings, administers ceremonial recognitions, manages the full scope of public records and contract administration, and ensures the lawful retention and disposition of all official City records. Through strategic oversight, cross-departmental collaboration, and an unwavering commitment to operational excellence, I have positioned the Office as a transparent, efficient, and dependable hub for legislative governance, records compliance, and public access.

Given the depth and complexity of these responsibilities, a coordinated and specialized team structure is essential to the success of our operations. Each position within the City Clerk's Office serves a distinct and indispensable function in maintaining legal compliance, reinforcing internal controls, and delivering exceptional service to both internal stakeholders and the broader community. As City Clerk, I remain actively involved in every facet of these responsibilities, ensuring that all functions are executed with integrity, precision, and accountability.

Please note that the contents of this memo outline the core responsibilities and essential functions that are most immediately apparent and central to the operations of the City Clerk's Office. However, it is necessary to acknowledge that this memo does not capture the full breadth of the Office's duties. In the interest of providing a concise yet informative summary, I have intentionally limited the scope while still addressing the key functions and operational priorities relevant to the inquiry. Notably, it does not include the administration of municipal elections, a complex and significant undertaking, as well as responsibilities such as codifying adopted ordinances into the City's Code of Ordinances, adhering to the Code of Ethics for Elected Officials, overseeing the legal advertisement process, and conducting specialized training, to name a few. These include training 30 Agenda Liaisons, 30 Contract and Agreement Liaisons, and 12 Board and Committee Liaisons, as well as providing ongoing support to more than 40 board and committee members to ensure full compliance with the established Board and Committee Protocol Manual.

I am honored to serve as your City Clerk and sincerely appreciate the continued support I have received from the City Commission since my appointment. The responsibilities entrusted to this Office are both extensive and vital to the City's effective functioning.

Fulfilling these duties with the level of excellence and compliance expected would not be possible without the dedication, professionalism, and collaboration of my team. Their collective efforts are essential in ensuring that all responsibilities are carried out efficiently and to the highest standard.

Please accept my apologies in advance if any information has been inadvertently omitted or if additional clarification is still needed regarding the roles and the justification for the associated position expenditures. I welcome the opportunity to discuss any portion of this memo further and remain at your disposal for additional clarification.

CITY OF HALLANDALE BEACH, FLORIDA
MEMORANDUM

DATE: May 12, 2025

TO: Honorable Mayor, Vice Mayor, and Commissioners

FROM: Jenorgen M. Guillen, City Clerk *Jmg*

SUBJECT: Citywide Records Modernization and Compliance Initiative

As you are aware, the City Clerk's Office has been working steadfastly to ensure that citywide records comply with Florida Statutes Chapters 119, 257, and 286. The main objective is for the City to have a fully compliant, robust, and centralized records management system. Such is essential to enhancing transparency, reducing legal and administrative risk, and providing timely access to vital information for both internal use and public requests. What follows is a synopsis of how we got here, our approach to a compliant records management system, current situation, proposed re-organization and enhancements, and recommendations.

Background

This effort was primarily because the City had not fully complied with state law and industry-wide best practices related to public records and records management for many years. Recognizing this and the increasing complexity of legal requirements, technological advancements, and heightened public expectations for transparency, the City Commission took decisive action on February 21, 2024, by authorizing a professional services agreement to advance and modernize the City's Records Management Program.

Approach to Compliance

As a foundational step, the City engaged professional consultant services to update the outdated 2011 Records Management Plan and to establish a comprehensive, citywide framework that aligns with current statutory, operational, and technological standards. Consultant Steve M. Lewis has been instrumental in advancing this initiative, leading the development of the 2025 Records Management Plan and guiding the ongoing review and standardization of records management policies and procedures in accordance with Florida's General Records Schedules.

In parallel with the consultant's efforts, the City Clerk's Office, in collaboration with the Innovation Technology Department, initiated an extensive internal records assessment and cleanup campaign. Over the past several months, this citywide initiative has brought together multiple departments to inventory, organize, scan, digitize, or, when appropriate, securely dispose of outdated records.

This strategic and collaborative approach has laid the groundwork for a modernized and compliant records management program and provided critical insight into the volume and complexity of records citywide. Understanding the scope of the task ahead is essential to ensuring this vital effort's long-term success and sustainability.

Current Situation and Critical Needs

The efforts outlined above have identified the need to manage a critical portion of the City's overall records, approximately 1.7 million documents, through comprehensive indexing, digitization, and systematic organization across multiple departments. This initiative is a critical operational priority and includes several department-specific projects essential to achieving regulatory compliance, operational efficiency, and improved access to public records. The total estimated cost to complete this phase of the records management modernization effort is approximately \$350,921. However, it is essential to note that the City maintains a significantly larger volume of records, far exceeding the 1.7 million documents addressed in this initiative. This undertaking represents only a fraction of the broader citywide inventory. While it does not yet include all departments, it strategically prioritizes records with extended retention requirements and high legal, operational, and historical value, laying a strong foundation for future phases of comprehensive records modernization.

Project	Cost
Human Resources-Digitize/Index 154,000 Records	46,825
Development Services-Digitize/Index 209,000 Records	61,138
Citywide-Optiview Former Repository-Digitize/Index 1.4 Million Records	63,163
Standardized Digital Records and Staff Training	67,500
Estimated City Wide Digital Archival of Records	112,295
	\$ 350,921

The Human Resources Employee Files Archival Project is essential to ensure compliance with employment records regulations and retention requirements. Similarly, the Development Services Department (DSD) Records Archival Project will facilitate the indexing and proper digitization of critical land use and permitting documents to support operational efficiency and regulatory alignment. However, the most significant and transformative component is the Citywide Records Archive, recognized as OptiView, the City's former records depository system, which contains records dating back to 1967, with peak usage between 2006 and 2014 and minimal activity after 2019. The proposed project will create a standardized index of approximately 1.4 million digital records, migrating them into a centralized digital platform aligned with the 2025 Records Management Plan. This comprehensive effort will modernize records access across departments, eliminate outdated practices, and strengthen long-term information governance and compliance.

The estimated project cost includes funding to train staff on digital records management policies and to implement standardized procedures aligned with Florida's

General Records Schedules and the 2025 Records Management Plan, critical steps to ensure long-term program sustainability. Additionally, the budget allocates resources to digitize and index approximately 100 bankers' boxes of high-priority legal and historical records. This effort will reduce physical storage requirements, enhance accessibility, and safeguard vital documents from potential damage or loss.

This proposed initiative and critical need collectively represent a strategic investment in digital transformation, compliance, and operational excellence, reinforcing the City's commitment to accountability and open government. With an emphasis on sustainability and best practices, this comprehensive effort will enable the City Clerk's Office to safeguard vital records, enhance disaster recovery protocols, and modernize records access and retention processes. It will ensure compliance with Rule Chapters 1B-24 and 1B-26, F.A.C., while positioning the City to meet current and future regulatory demands.

Proposed Re-organization & Enhancements

To ensure the long-term success and oversight of this modernization initiative, strengthening citywide transparency, operational efficiency, and legal compliance, the City Clerk's Office will implement key organizational enhancements with the support of the City Manager's Office. Two key changes are being proposed: 1) the Addition of a Records and Contracts Manager position via re-classification from the Procurement Department to the City Clerk's Office, and 2) the Promotion of the Records Manager to Assistant City Clerk.

Assistant City Clerk

The current Records Manager, April Manning, brings a wealth of institutional knowledge and demonstrated expertise in public records law, making her well-prepared to succeed in this expanded leadership role. In 2023 and 2024, April played a pivotal role in upholding the City's commitment to transparency and legal compliance by overseeing the intake, review, and release of thousands of public records spanning multiple departments. For example, in 2023, she managed approximately 7,465 emails from the Innovation Technology Department, each containing an estimated one to six attachments, reviewed eight hours of Police Body Worn Camera (BWC) footage, processed 5,153 Police Department documents ranging from three to sixty pages each, and reviewed 1,334 Building Department records, with file sizes ranging from one to 200 pages. She also coordinated the release of 134 Planning & Zoning records, among others. In 2024, this critical workload continued with the review of 3,705 additional emails, over 20 hours of BWC footage, 4,183 Police Department records, and 2,642 Building Department records. She further managed to release 272 Code Enforcement documents, 90 Planning & Zoning records, and 55 Business Tax Regulations (BTR) files. This high-volume, high-stakes work reflects her commitment to ensuring timely, accurate, and legally compliant access to public records in accordance with Chapter 119, F.S. The breadth and complexity of these records, from digital correspondence and regulatory filings to video footage, underscore the need for sustained investment in centralized records systems, staffing, and process modernization.

As Assistant City Clerk, April will continue to lead citywide coordination of public records requests, ensuring ongoing compliance with Florida Statutes, Chapter 119, and the Federal Freedom of Information Act (FOIA). In this expanded role, she will continue to provide training and guidance to Records Liaisons across all departments, promoting consistency, accountability, and best practices in public records management. Additionally, April will support the broader functions of the City Clerk's Office, contributing to its operational efficiency and excellence in service delivery. Her promotion is a testament to her exceptional performance. It reflects the City Clerk's Office's commitment to nurturing leadership from within and investing in individuals who exemplify professionalism, integrity, and public service.

Records and Contracts Manager

The Records and Contracts Manager position will provide citywide oversight of records retention and contract administration. This role will be responsible for managing the lifecycle of both digital and physical records in accordance with Chapters 119, 257, and 286 of the Florida Statutes. Additionally, the position will support all departments by coordinating the intake, tracking, and renewal of contracts through the Tyler Munis Contract Module. Currently, the City faces challenges locating certain records, such as cemetery deeds and legacy agreements, to name a few executed before my tenure, highlighting the need for improved oversight and management.

Recommendations

In light of the significant benefits and to ensure the proposed initiative's successful completion, it is recommended that the Commission approve a one-time investment of \$350,921, along with the associated staffing changes and enhancements. This strategic investment in records modernization is essential to achieving full regulatory compliance, enhancing government transparency, improving operational efficiency, and mitigating legal and administrative risks. The initiative represents a forward-looking approach that will deliver measurable, sustainable value across all City departments.

First, by aligning citywide records practices with Florida Statutes Chapters 119, 257, and 286 and Rule Chapters 1B-24 and 1B-26, F.A.C., the City reduces its exposure to costly legal noncompliance, fines, and litigation. Local governments often incur significant expenses from record-related lawsuits or compliance failures, with potential legal costs ranging from \$25,000 to \$100,000 per incident. Proactively addressing these risks through modernization offsets a significant portion of the project's cost while upholding the City's responsibility to maintain public access and transparency.

Second, digitizing and indexing approximately 1.7 million records will significantly enhance operational efficiency across the organization. For example, digitizing just 100 of our bankers' boxes alone will free up approximately 150 cubic feet of physical storage space, equivalent to a large walk-in closet or multiple filing cabinets. Currently, locating and retrieving physical records is a time-consuming, labor-intensive process. If each manual search takes an average of five minutes, this results in more than 141,000 hours

of staff time, equating to roughly 68 full-time equivalent years. Transitioning to a centralized digital records system will eliminate this inefficiency and is projected to save the City an estimated \$4.25 million in labor costs over time, based on a conservative average burdened hourly rate of \$30. These substantial savings will enable staff to focus on higher-value tasks, optimize departmental performance, and better serve the public.

Additionally, this initiative will significantly enhance transparency and public service. The City can quickly and accurately fulfill public records requests with centralized and searchable records. In 2023 and 2024 alone, over 30,000 documents were processed across departments, reflecting high demand from residents, businesses, and the media. Faster response times improve public trust and reduce the administrative burden of follow-up inquiries and complaints.

This modernization effort is vital to long-term preservation and disaster recovery. Digitizing essential legal and historical documents safeguards them from physical deterioration, loss, or damage, ensuring their continued availability for critical decision-making. These records are fundamental to maintaining government continuity, institutional memory, and legal integrity. Losing a vital record could result in costly reconstruction efforts or legal disputes, with potential financial impacts ranging from \$10,000 to \$50,000. A recent example highlighting the need for improved records management involves a matter between the City, FDOT, and the Town of Pembroke Park concerning the South Broward Pumping Station along I-95. Due to the absence of a copy within the City's records system, I was required to spend extended hours navigating Pembroke Park's online digital records repository to locate a 2007 agreement defining the use and maintenance responsibilities among all stakeholders. This situation underscores the critical importance of a centralized and accessible records management system to ensure timely access to vital documents and to prevent operational delays.

Finally, the re-organization that reclassifies the Records Manager as Assistant City Clerk and brings in a Records and Contracts Manager enhances internal capacity and leadership continuity. This strategic move eliminates the need to outsource key functions, ensures compliance oversight, and fosters institutional knowledge retention. These benefits result in estimated annual savings of \$50,000 to \$75,000 and strengthen the City Clerk's Office for long-term success. These enhancements align with the City Commission's strategic priorities and improve internal collaboration and service delivery.

Your consideration is greatly appreciated. I look forward to discussing the following steps and answering any questions.

[Citywide Records Modernization and Compliance Initiative Memorandum.pdf](#)

Honorable Mayor, Vice Mayor, and Commissioners,

Attached is a comprehensive memorandum outlining the Citywide Records Modernization and Compliance Initiative. This strategic effort addresses longstanding gaps in the City's records management practices. It details the steps necessary to fully comply with Florida Statutes Chapters 119, 257, and 286, as well as Rule Chapters 1B-24 and 1B-26, F.A.C.

The memorandum presents an overview of the current state of the City's records, the scope of digitization and indexing required, and the estimated cost of \$350,921 to complete this initiative phase. It also outlines proposed staffing enhancements within the City Clerk's Office to strengthen internal capacity, ensure regulatory compliance, and support long-term sustainability.

Your thoughtful consideration of the recommendations outlined in the memorandum—including the proposed funding allocation and organizational enhancements—is respectfully requested. A corresponding budget amendment to support this initiative will be formally presented for your review and approval at the June 21, 2025, City Commission meeting.

Thank you for your continued support.

Respectfully,

Jenorgen Guillen | City Clerk

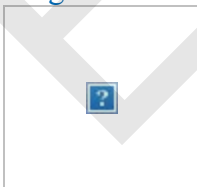

City of Hallandale Beach City Clerk's Office

Subject: Re: ERecording

Good afternoon,

I am not aware of why these three lien releases were not recorded at the time they were signed. I was contacted by the homeowner through the City Attorney's Office regarding this matter. There were originally four liens on the property, and all four cases were brought into compliance, and the associated fines were settled in 2023. I was able to verify that all four releases were signed in 2023; however, it appears that only one was actually recorded.

I can only assume this was an oversight.

Please let me know if you need anything further.

Thank you

[Exhibit 2 - PRR2025-413.pdf](#)

Honorable Mayor, Vice Mayor, and Commissioners,

In anticipation of tomorrow's City Commission meeting, which will include discussion of the budget amendment addressing the subject, I would like to highlight two key matters that underscore the urgent need to establish standardized practices, centralized process, and modernize our current records management system.

Attached is correspondence that has been shared with some of you for awareness:

- Exhibit 1 (PRR2025-119) includes a communication from a member of the public outlining the challenges currently faced when complying with public records requests. The message offers direction to staff and raises concerns about the City's existing records management practices, which continue to rely on outdated and fragmented systems. This example underscores the broader systemic issues the City faces in ensuring timely and accurate compliance with public records requests.
- Exhibit 2 (PRR2025-413) provides an example of historical records related to 111 Golden Isles Drive, Hallandale Beach, FL 33009. While responsive to the request outlined below, the documents are difficult to interpret due to the way they were originally scanned and indexed in the system.

I work for Swaysland Professional Engineering and we were contracted by Golden Sails Owner's Association, Inc. for building recertification and are asking for structural and architectural building plans for the address 111 Golden Isles Drive, Hallandale Beach, FL 33009.

These examples represent just a few of the many instances that highlight the limitations of our current system and the growing need for comprehensive records modernization.

As always, I am available to address any questions or concerns you may have.

Respectfully,

Jenorgen Guillen | City Clerk

Subject: Citywide Records Modernization and Compliance Initiative

Honorable Mayor, Vice Mayor, and Commissioners,

Attached is a comprehensive memorandum outlining the Citywide Records Modernization and Compliance Initiative. This strategic effort addresses longstanding gaps in the City's records management practices. It details the steps necessary to fully comply with Florida Statutes Chapters 119, 257, and 286, as well as Rule Chapters 1B-24 and 1B-26, F.A.C.

The memorandum presents an overview of the current state of the City's records, the scope of digitization and indexing required, and the estimated cost of \$350,921 to complete this initiative phase. It also outlines proposed staffing enhancements within the City Clerk's Office to strengthen internal capacity, ensure regulatory compliance, and support long-term sustainability.

Your thoughtful consideration of the recommendations outlined in the memorandum—including the proposed funding allocation and organizational enhancements—is respectfully requested. A corresponding budget amendment to support this initiative will be formally presented for your review and approval at the June 21, 2025, City Commission meeting.

Thank you for your continued support.

Respectfully,

Jenorgen Guillen | City Clerk

Hi,

Can you re-open the request? This is the permit card. See attached.

When the building department changed systems - lots of items did not port over. And when we needed info - Ed in the building department would go to one old computer that had all the information on it.

This is very important - can you go through the old computer or request the files from storage please?

Thanks,
-Robin Cruise

Hi April,

The records pulled are incorrect and do not include the submitted plans. The windows we installed were Sunshine Windows - these are PGT, and the door product approval is incorrect. The plans also show a mansard roof, which does not exist at the property.

Is there a way I can come and check myself and pull what I need off of microfilm or from the old system please?

Thanks,
-Robin

CERTIFIED LETTER NO. 201 748
Mr. Harold C. Greenberg, President
Golden Sails Development, Inc.
111 Golden Sails Drive, Tallahassee, Florida 32309
Dear Mr. Greenberg:
Your letter in regard to the above referenced permit on July 27, 1964, by the Building Official and the Chief Building Inspector, is noted that a number of structural deficiencies exist.
Please be advised that, as per the South Florida Building Code, these deficiencies must be corrected and corrective measures must be taken within ten days of receipt of this letter. It is also imperative that measures be taken to protect life, limb and property, particularly in the case where safety plans have been issued.
If you do intend action from this office, this letter is to advise you of the existing conditions in order for you to take whatever steps necessary to correct the situation. It is suggested that a certified engineer or registered architect be retained to prepare the plans and specifications for the necessary work. Please contact the office of the Building Official for further information.
Very truly yours,

Re: Golden Sails Condominium, 111 Golden Isles Drive
 Structural Cracks - South Second Floor Area.

Dear Mr. Argenti:

I enclose computations and sketches covering the proposed reinforcing of the three beams on the second floor of the above structure which we have had designed for a few weeks. I plan to do the following work with a view to strengthening the beams:

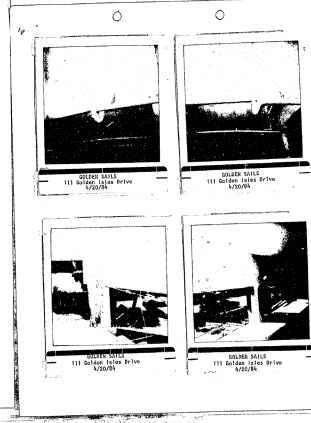

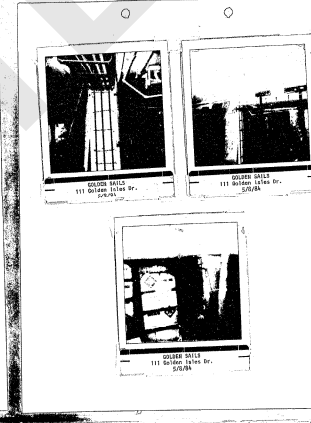

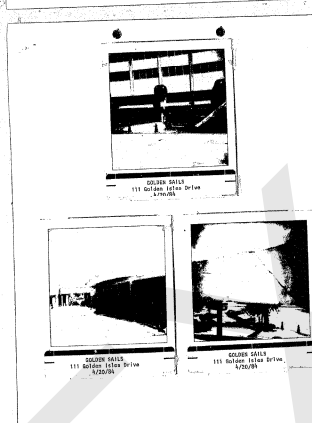

- The beams have 20 which have failed to show over the years will be reinforced with a steel beam to pick up the peak load of 100 kips. This is close to the estimated load on the beam. We will reinforce the two main spans. The main span will be done in the column and the existing beam. The concrete will be poured with a cast in the column span. Concrete from the parking deck. All dowels will be set in epoxy mortar.
- The two side beams which are 20, failed originally due to inadequate reinforcement. We will reinforce to match with the main span. The reinforcement is to be set in the column and the existing beam. The concrete will be poured with a cast in the column span. Concrete from the parking deck. All dowels will be set in epoxy mortar.

I have arranged for the work to be done by Dennis Bruck, State Certified General Contractor, who will have the permit. The only work we do on the structure under my direction. He will use a competent State Contractor, such as State 4, 5, 6, 7. The work will start as soon as your office issues a permit.

Additional: I will cover other items of work in the building.

Thank you for your kind attention.

Sincerely yours,
Jose M. Munoz Jr.
